TANGER FACTORY OUTLET CENTERS INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Business

Tanger Factory Outlet Centers, Inc. and subsidiaries is one of the largest owners and operators of factory outlet centers in the United States. We are a fully-integrated, self-administered and self-managed real estate investment trust, or REIT, that focuses exclusively on developing, acquiring, owning, operating and managing factory outlet shopping centers. As of September 30, 2006, we owned 30 centers with a total gross leasable area, or GLA, of approximately 8.4 million square feet. These factory outlet centers were 96.0% occupied. Also, we owned a 50% interest in two centers with a total GLA of approximately 667,000 square feet and managed for a fee three centers with a GLA of approximately 293,000 square feet.

Our factory outlet centers and other assets are held by, and all of our operations are conducted by, Tanger Properties Limited Partnership and subsidiaries. Accordingly, the descriptions of our business, employees and properties are also descriptions of the business, employees and properties of the Operating Partnership. Unless the context indicates otherwise, the term "Company" refers to Tanger Factory Outlet Centers, Inc. and subsidiaries and the term "Operating Partnership" refers to Tanger Properties Limited Partnership and subsidiaries. The terms "we", "our" and "us" refer to the Company or the Company and the Operating Partnership together, as the text requires.

We own the majority of the units of partnership interest issued by the Operating Partnership through our two wholly-owned subsidiaries, the Tanger GP Trust and the Tanger LP Trust. The Tanger GP Trust controls the Operating Partnership as its sole general partner. The Tanger LP Trust holds a limited partnership interest. The remaining units are held by the Tanger family, through its ownership of the Tanger Family Limited Partnership, or TFLP. Stanley K. Tanger, our Chairman of the Board and Chief Executive Officer, is the sole general partner of TFLP.

2. Basis of Presentation

Our unaudited consolidated financial statements have been prepared pursuant to accounting principles generally accepted in the United States of America and should be read in conjunction with the consolidated financial statements and notes thereto included in our Current Report on Form 8-K dated August 9, 2006. The December 31, 2005 balance sheet data was derived from audited financial statements. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations, although management believes that the disclosures are adequate to make the information presented not misleading.

The accompanying unaudited consolidated financial statements include our accounts, our wholly-owned subsidiaries, as well as the Operating Partnership and its subsidiaries and reflect, in the opinion of management, all adjustments necessary for a fair presentation of the interim consolidated financial statements. All such adjustments are of a normal and recurring nature. Intercompany balances and transactions have been eliminated in consolidation.

Investments in real estate joint ventures that represent non-controlling ownership interests are accounted for using the equity method of accounting. These investments are recorded initially at cost and subsequently adjusted for our equity in the venture's net income (loss) and cash contributions and distributions.

The amount reported as minority interest in operating partnership has been adjusted \$9.1 million during the quarter ending September 30, 2006 to reflect a revised rebalancing of the net assets of the operating partnership ascribed to the minority unit holders as of December 31, 2005. The revision is reflected through paid in capital and had no effect on net assets, total liabilities or net income.

3. Development of Rental Properties

Charleston, South Carolina

During August of 2006, we opened our wholly-owned 352,300 square foot center located near Charleston, South Carolina. Tenants in the center include Gap, Banana Republic, Liz Claiborne, Nike, Adidas, Tommy Hilfiger, Guess, Reebok and others. As of September 30, 2006, the center was 80.5% occupied.

Commitments remaining to complete construction of the Charleston center amounted to approximately \$1.2 million at September 30, 2006. Commitments for construction represent only those costs contractually required to be paid by us.

Interest costs capitalized during the three month periods ended September 30, 2006 and 2005 amounted to \$594,000 and \$122,000, respectively, and for the nine month periods ended September 30, 2006 and 2005 amounted to \$1.8 million and \$235,000, respectively.

4. Investments in Unconsolidated Real Estate Joint Ventures

Our investments in unconsolidated real estate joint ventures as of September 30, 2006 and December 31, 2005 was \$14.6 million and \$13.0 million, respectively. We have evaluated the accounting treatment for each of the joint ventures under the guidance of FIN 46R and have concluded based on the current facts and circumstances that the equity method of accounting should be used to account for the individual joint ventures. We are members of the following unconsolidated real estate joint ventures:

Joint Venture	Our Ownership %	Project Location
TWMB Associates, LLC	50%	Myrtle Beach, South Carolina
Tanger Wisconsin Dells, LLC	50%	Wisconsin Dells, Wisconsin
Deer Park Enterprise, LLC	33%	Deer Park, New York

These investments are recorded initially at cost and subsequently adjusted for our equity in the venture's net income (loss) and cash contributions and distributions. Our investments in real estate joint ventures are also reduced by 50% of the profits earned for leasing and development services we provided to TWMB Associates, LLC, or TWMB, and Tanger Wisconsin Dells, LLC, or Wisconsin Dells. The following management, leasing, development and marketing fees were recognized from services provided to TWMB and Wisconsin Dells during the three and nine month periods ended September 30, 2006 and 2005, respectively (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Fee:				
Management	\$ 104	\$ 78	\$ 260	\$ 234
Leasing	167	(2)	196	2
Marketing	22	16	66	48
Development	151	---	313	---
Total Fees	\$ 444	\$ 92	\$ 835	\$ 284

Our carrying value of investments in unconsolidated joint ventures differs from our share of the assets reported in the “Summary Balance Sheets - Unconsolidated Joint Ventures” shown below due to adjustments to the book basis, including intercompany profits on sales of services that are capitalized by the unconsolidated joint ventures. The differences in basis are amortized over the various useful lives of the related assets.

7

Tanger Wisconsin Dells, LLC

In March 2005, the Wisconsin Dells joint venture was established to construct and operate a Tanger Outlet center in Wisconsin Dells, Wisconsin. During the first quarter of 2006, capital contributions of approximately \$510,000 were made by each member. The 264,900 square foot center opened in August 2006. The tenants in the center include Polo Ralph Lauren, Abercrombie & Fitch, Hollister, Gap, Banana Republic, Old Navy, Liz Claiborne, Nike, Adidas, Tommy Hilfiger and others.

In February 2006, in conjunction with the construction of the center, Wisconsin Dells closed on a construction loan in the amount of \$30.25 million with Wells Fargo Bank, NA due in February 2009. The construction loan is repayable on an interest only basis with interest floating based on the 30, 60 or 90 day LIBOR index plus 1.30%. The construction loan incurred by this unconsolidated joint venture is collateralized by its property as well as joint and several guarantees by us and designated guarantors of our venture partner. The construction loan balance as of September 30, 2006 was approximately \$26.2 million.

The above mentioned guarantee of the construction loan debt is accounted for under the provisions of FASB Interpretation No. 45, "Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others", FIN 45. FIN 45 requires the guarantor to recognize a liability for the non-contingent component of the guarantee which represents the obligation to stand ready to perform in the event that specified triggering events or conditions occur. The initial measurement of this liability is the fair value of the guarantee at inception. The recognition of the liability is required even if it is not probable that payment will be required under the guarantee or if the guarantee was issued with a premium payment or as part of a transaction with multiple elements. We recorded at inception, the fair value of our guarantee of the Wisconsin Dells joint venture's debt as an increase to our investment in Wisconsin Dells and recorded a corresponding liability of approximately \$409,000. We have elected to account for the release from the obligation under the guarantee by the straight-line amortization method over the three year life of the guarantee. The remaining value of the guarantee liability as of September 30, 2006 was approximately \$329,000.

Deer Park Enterprise, LLC

In October 2003, Deer Park Enterprises, or Deer Park, a joint venture in which we have a one-third ownership interest, entered into a sale-leaseback transaction for the location on which it ultimately will develop a shopping center that will contain both outlet and big box retail tenants in Deer Park, New York. To date, we have made equity contributions totaling \$4.5 million to Deer Park, including \$1.5 million in 2006. Both of the other venture partners have made equity contributions equal to ours.

In conjunction with the real estate purchase, Deer Park closed on a loan in the amount of \$19 million due in October 2005 and a purchase money mortgage note with the seller in the amount of \$7 million. In October 2005, Bank of America extended the maturity of the loan until October 2006. In late September 2006, Deer Park closed on a construction loan of \$43.2 million with Bank of America which incurs interest at a floating interest rate equal to LIBOR plus 2.00% and is collateralized by the property as well as joint and several guarantees by all three venture partners. The loan balance as of September 30, 2006 was approximately \$30.6 million. Proceeds to date were used to refinance the \$19 million loan discussed above and to repay the \$7 million purchase money mortgage note with the original seller of the property in October 2006. The construction loan matures in April 2007. In addition, Deer Park continues to incur expenses related to architectural, engineering and other construction costs, including demolition expenditures.

The sale-leaseback transaction consisted of the sale of the property to Deer Park for \$29 million, including a 900,000 square foot industrial building, which was being leased back to the seller under an operating lease agreement. At the end of the lease in May 2005, the tenant vacated the building. However, the tenant had not satisfied all of the

conditions necessary to terminate the lease. Deer Park is currently in litigation to recover from the tenant its monthly lease payments and will continue to do so until recovered. Annual rents due from the tenant are \$3.4 million.

Through March 2006, the Deer Park joint venture accounted for the lease revenues under the provisions of FASB Statement No. 67 "Accounting for Costs and Initial Rental Operations of Real Estate Projects", where the rent received from the tenant prior to May 2005 and that accrued from June 2005 through March 2006, net of applicable expenses, were treated as incidental revenues and were recorded as a reduction in the basis of the assets. Given the uncertainty regarding the final outcome of the litigation described above, Deer Park discontinued the accrual of rental revenues associated with the sale-leaseback transaction as of April 1, 2006. As a result, we recorded our portion of the project losses, which amounted to \$12,000 for the third quarter of 2006 and \$14,000 year to date, as a reduction in our investment in Deer Park and as a reduction to equity in earnings of unconsolidated joint ventures.

Condensed combined summary unaudited financial information of joint ventures accounted for using the equity method is as follows (in thousands):

5. Disposition of Properties

2006 Transactions

In January 2006, we completed the sale of our property located in Pigeon Forge, Tennessee. Net proceeds received from the sale of the center were approximately \$6.0 million. We recorded a gain on sale of real estate of approximately \$3.5 million.

In March 2006, we completed the sale of our property located in North Branch, Minnesota. Net proceeds received from the sale of the center were approximately \$14.2 million. We recorded a gain on sale of real estate of approximately \$10.3 million.

We continue to manage and lease these properties for a fee. Based on the nature and amounts of the fees to be received, we have determined that our management relationship does not constitute a significant continuing involvement and therefore we have shown the results of operations and gain on sale of real estate as discontinued operations under the provisions of FAS 144. Below is a summary of the results of operations for the Pigeon Forge, Tennessee and North Branch, Minnesota properties sold during the first quarter of 2006 (in thousands):

2005 Transactions

In February 2005, we completed the sale of the outlet center on our property located in Seymour, Indiana and recognized a loss of \$3.8 million, net of minority interest of \$847,000. Net proceeds received from the sale of the center were approximately \$2.0 million. We continue to have a significant interest in the property by retaining several outparcels and significant excess land. As such, the results of operations from the property continue to be recorded as a component of income from continuing operations and the loss on sale of real estate is reflected outside the caption discontinued operations under the guidance of Regulation S-X 210.3-15.

Outparcel Sales

Gains on sale of outparcels are included in other income in the consolidated statements of operations. These gains would be reclassified into discontinued operations if and when the center property at which they are located is sold or classified as held for sale. Cost is allocated to the outparcels based on the relative market value method. Below is a summary of outparcel sales that we completed during the three and nine months ended September 30, 2006 and 2005, respectively. (in thousands, except number of outparcels):

	Three Months Ended		Nine Months Ended September	
	September 30, 2006	2005	30, 2006	2005
Number of outparcels	1	---	4	1
Net proceeds	\$287	\$---	\$1,150	\$252
Gains on sales included in other income	\$177	\$---	\$402	\$127

6. Debt

In August 2006, the Operating Partnership issued \$149.5 million of exchangeable senior unsecured notes that mature on August 15, 2026. The notes bear interest at a fixed coupon rate of 3.75%. The notes are exchangeable into the Company's common shares, at the option of the holder, at an initial exchange ratio, subject to adjustment, of 27.6856 shares per \$1,000 principal amount of notes (or an initial exchange price of \$36.1198 per common share). The notes are senior unsecured obligations of the Operating Partnership and are guaranteed by the Company on a senior unsecured basis. On and after August 18, 2011, holders may exchange their notes for cash in an amount equal to the lesser of the exchange value and the aggregate principal amount of the notes to be exchanged, and, at our option, Company common shares, cash or a combination thereof for any excess. Note holders may exchange their notes prior to August 18, 2011 only upon the occurrence of specified events. In addition, on August 18, 2011, August 15, 2016 or August 15, 2021, note holders may require us to repurchase the notes for an amount equal to the principal amount of the notes plus any accrued and unpaid interest up to, but excluding, the repurchase date.

We used the net proceeds from the issuance to repay in full our mortgage debt outstanding with Woodman of the World Life Insurance Society totaling approximately \$15.3 million, with an interest rate of 8.86% and an original maturity of September 2010. We also repaid all amounts outstanding under our unsecured lines of credit and a \$53.5 million variable rate unsecured term loan with Wells Fargo with a weighted average interest rate of approximately 6.3%. As a result of the early repayment, we recognized a charge for the early extinguishment of the mortgages and term loan of approximately \$917,000. The charge, which is included in interest expense, consisted of a prepayment premium of approximately \$609,000 and the write-off of deferred loan fees totaling approximately \$308,000.

During the third quarter of 2006, we closed on unsecured lines of credit of \$25 million each with Branch Banking and Trust Co. and SunTrust Bank. Each unsecured line of credit matures in June 2009. We now maintain unsecured, revolving lines of credit that provide for unsecured borrowings of up to \$200 million at September 30, 2006.

7. Other Comprehensive Income

Total comprehensive income for the three and nine months ended September 30, 2006 and 2005 is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Net income	\$ 7,414	\$ 4,413	\$ 28,550	\$ 4,964
Other comprehensive income:				
Reclassification adjustment for amortization of gain on settlement of US treasury rate lock included in net income, net of minority interest of \$(10) and \$(30)	(52)	---	(153)	---
Change in fair value of treasury rate locks, net of minority interest of \$(1,239), \$249, \$(57) and \$249	(6,251)	1,167	(293)	1,167
Change in fair value of our portion of TWMB cash flow hedge, net of minority interest of \$(55), \$67, \$17 and \$(13)	(278)	314	87	(48)
Other comprehensive income	(6,581)	1,481	(359)	1,119
Total comprehensive income	\$ 833	\$ 5,894	\$ 28,191	\$ 6,083

8. Share-Based Compensation

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment", or FAS 123R, under the modified prospective method. Since we had previously accounted for our share-based compensation plan under the fair value provisions of FAS No. 123, our adoption did not significantly impact our financial position or our results of operations.

During the first quarter of 2006, the Board of Directors approved the grant of 164,000 restricted common shares to the independent directors and our executive officers. We determined the grant date fair value of restricted share grants based upon the market price of common shares on the date of grant. Compensation expense related to the amortization of the deferred compensation amount is being recognized in accordance with the vesting schedule of the restricted shares. The independent directors' restricted common shares vest ratably over a three year period. The executive officer's restricted common shares vest ratably over a five year period.

We recorded share based compensation expense in general and administrative expenses in the consolidated statements of operations for the three and nine month periods ended September 30, 2006 and 2005, respectively as follows (in

thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2006	September 30, 2005	September 30, 2006	September 30, 2005
Restricted shares	\$ 584	\$ 369	\$ 1,612	\$ 906
Share and unit options	296	58	411	230
Total share based compensation	\$ 880	\$ 427	\$ 2,023	\$ 1,136

Compensation expensed capitalized during the periods was not significant.

12

Options outstanding at September 30, 2006 had the following weighted average exercise prices and weighted average remaining contractual lives:

Range of exercise prices	Options Outstanding			Options Exercisable	
	Options	Weighted average exercise price	Weighted average remaining contractual life in years	Options	Weighted average exercise price
\$9.3125 to \$11.0625	56,000	\$ 9.84	3.08	56,000	\$ 9.84
\$15.0625 to \$19.38	62,000	17.15	4.32	44,000	16.24
\$19.415 to \$23.96	401,500	19.50	7.58	113,900	19.46
	519,500	\$18.18	6.71	213,900	\$16.28

A summary of option activity under our Amended and Restated Incentive Award Plan as of September 30, 2006 and changes during the nine months then ended is presented below (aggregate intrinsic value amount in thousands):

Options	Shares	Weighted-average exercise price	Weighted-average remaining contractual life in years	Aggregate intrinsic value
Outstanding as of December 31, 2005	632,240	\$18.08		
Granted	---	---		\$ ---
Exercised	(105,820)	17.52		1,656
Forfeited	(6,920)	19.42		---
Outstanding as of September 30, 2006	519,500	\$18.18	6.71	\$9,060
Vested and Expected to Vest as of September 30, 2006	505,286	\$18.14	6.71	\$8,832
Exercisable as of September 30, 2006	213,900	\$16.28	5.46	\$4,137

The following table summarizes information related to unvested restricted common shares outstanding as of September 30, 2006:

Unvested Restricted Shares	Number of shares	Weighted average grant date fair value
Unvested at December 31, 2005	225,586	\$20.95
Granted	164,000	31.92
Vested	(750)	19.38
Forfeited	(2,000)	32.08
Unvested at September 30, 2006	386,836	\$25.54

As of September 30, 2006, there was \$8.8 million of total unrecognized compensation cost related to unvested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 3.5 years.

9. Earnings Per Share

The following table sets forth a reconciliation of the numerators and denominators in computing earnings per share in accordance with Statement of Financial Accounting Standards No. 128, Earnings Per Share (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2006	2005	2006	2005
Numerator				
Income from continuing operations	\$ 7,414	\$ 4,120	\$ 16,837	\$ 7,936
Loss on sale of real estate	---	---	---	(3,843)
Less applicable preferred share dividends	(1,406)	---	(4,027)	---
Income from continuing operations available to common shareholders	6,008	4,120	12,810	4,093
Discontinued operations	---	293	11,713	871
Net income available to common shareholders	\$ 6,008	\$ 4,413	\$ 24,523	\$ 4,964
Denominator				
Basic weighted average common shares	30,619	28,374	30,582	27,682
Effect of outstanding share and unit options	229	209	234	191
Effect of unvested restricted share awards	135	97	107	61
Diluted weighted average common shares	30,983	28,680	30,923	27,934
Basic earnings per common share				
Income from continuing operations	\$.20	\$.15	\$.42	\$.15
Discontinued operations	---	.01	.38	.03

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-Q

Net income	\$.20	\$.16	\$.80	\$.18
Diluted earnings per common share								
Income from continuing operations	\$.19	\$.14	\$.41	\$.15
Discontinued operations		---		.01		.38		.03
Net income	\$.19	\$.15	\$.79	\$.18

The computation of diluted earnings per share excludes options to purchase common shares when the exercise price is greater than the average market price of the common shares for the period. No options were excluded from the computation of diluted earnings per share for the three months ended September 30, 2005. A total of 7,000 options were excluded from the computation of diluted earnings per share for the nine months ended September 30, 2005. No options were excluded from the computation of diluted earnings per share for the three and nine months ended September 30, 2006. The assumed conversion of the partnership units held by the minority interest limited partner as of the beginning of the year, which would result in the elimination of earnings allocated to the minority interest in the Operating Partnership, would have no impact on earnings per share since the allocation of earnings to a partnership unit, as if converted, is equivalent to earnings allocated to a common share.

Restricted share awards are included in the diluted earnings per share computation if the effect is dilutive, using the treasury stock method. All restricted shares issued are included in the calculation of diluted weighted average shares outstanding. If the share based awards were granted during the period, the shares issued are weighted to reflect the portion of the period during which the awards were outstanding.

10. Derivatives

In accordance with our derivatives policy, all derivatives have been designated as cash flow hedges and assessed for effectiveness at the time the contract was entered into and are assessed for effectiveness on an on-going basis at each quarter end. Unrealized gains and losses related to the effective portion of our derivatives are recognized in other comprehensive income and gains or losses related to ineffective portions are recognized in the income statement. At September 30, 2006, all of our derivatives were considered effective.

The following table summarizes the notional values and fair values of our derivative financial instruments as of September 30, 2006.

Financial Instrument

Type	Notional Value	Rate	Maturity	Fair Value
TANGER PROPERTIES LIMITED PARTNERSHIP				
US Treasury Lock	\$100,000,000	4.526%	July 2008	\$ 254,000
US Treasury Lock	\$100,000,000	4.715%	July 2008	\$ (917,000)
TWMB, ASSOCIATES, LLC				
LIBOR Interest Rate Swap	\$35,000,000	4.59%	March 2010	\$ 389,000

11. Preferred Share Offering

In February 2006, we completed the sale of an additional 800,000 7.5% Class C Cumulative Preferred Shares with net proceeds of approximately \$19.4 million, bringing the total amount of Preferred Shares outstanding to 3,000,000. The proceeds were used to repay amounts outstanding on our unsecured lines of credit. We pay annual dividends equal to \$1.875 per share.

12. Non-Cash Investing Activities

We purchase capital equipment and incur costs relating to construction of facilities, including tenant finishing allowances. Expenditures included in construction trade payables as of September 30, 2006 and 2005 amounted to \$21.0 million and \$8.3 million, respectively.

13. New Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109", or FIN 48, which clarifies the accounting for uncertainty in tax positions. FIN 48 requires that we recognize the impact of a tax position in our financial statements if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective as of January 1, 2007, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact of adopting FIN 48 on our financial statements.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements", or SAB 108. SAB 108 provides interpretive guidance on how the effects of prior-year uncorrected misstatements should be considered when quantifying misstatements in the current year financial statements. SAB 108 requires registrants to quantify misstatements using both an income statement ("rollover") and balance sheet ("iron curtain") approach and evaluate whether either approach results in a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. If prior year errors that had been previously considered immaterial now are considered material based on either approach, no restatement is required so long as management properly applied its previous approach and all relevant facts and circumstances were considered. If prior years are not restated, the cumulative effect adjustment is recorded in opening accumulated earnings as of the beginning of the fiscal year of adoption. SAB 108 is effective for fiscal years ending after November 15, 2006. We currently do not believe SAB 108 will have a material impact on our results from operations or financial position.

14. Subsequent Events

In October 2006, we purchased the land at our development site near Pittsburgh, Pennsylvania for approximately \$4.8 million. We currently expect the center to open in the first quarter of 2008. As of September 30, 2006, our investment in the project for pre-development costs amounted to approximately \$7.1 million and was included in other assets in the consolidated balance sheets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion of our results of operations reported in the unaudited, consolidated statements of operations compares the three and nine months ended September 30, 2006 with the three and nine months ended September 30, 2005. The following discussion should be read in conjunction with the unaudited consolidated financial statements appearing elsewhere in this report. Historical results and percentage relationships set forth in the unaudited, consolidated statements of operations, including trends which might appear, are not necessarily indicative of future operations. Unless the context indicates otherwise, the term "Company" refers to Tanger Factory Outlet Centers, Inc. and subsidiaries and the term "Operating Partnership" refers to Tanger Properties Limited Partnership and subsidiaries. The terms "we", "our" and "us" refer to the Company or the Company and the Operating Partnership together, as the text requires.

Cautionary Statements

Certain statements made below are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We intend for such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Reform Act of 1995 and included this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words "believe", "expect", "intend", "anticipate", "estimate", "project", or similar expressions. You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors which are, in some cases, beyond our control and which could materially affect our actual results, performance or achievements. Factors which may cause actual results to differ materially from current expectations include, but are not limited to, those set forth under Item 1A - "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2005. There have been no material changes to the risk factors listed there through September 30, 2006.

General Overview

In November 2005, we completed the acquisition of the final two-thirds interest in the COROC joint venture which owned nine factory outlet centers totaling approximately 3.3 million square feet. We originally purchased a one-third interest in December 2003. From December 2003 to November 2005, COROC was consolidated for financial reporting purposes under the provisions of FASB Interpretation No. 46 (Revised 2003): "Consolidation of Variable Interest Entities: An Interpretation of ARB No. 51", or FIN 46R. The purchase price for the final two-thirds interest of COROC was \$286.0 million (including closing and acquisition costs of \$3.5 million) which we funded with a combination of unsecured debt and equity raised through the capital markets in the fourth quarter of 2005.

At September 30, 2006, our consolidated results of operations included 30 centers in 21 states totaling 8.3 million square feet compared to 31 centers in 22 states totaling 8.2 million square feet at September 30, 2005. The changes in the number of centers and GLA are due to the following events:

	No. of Centers	GLA (000's)	States
As of September 30, 2005	31	8,227	22
New development/expansion:			
Locust Grove, Georgia	---	11	---

RESULTS OF OPERATIONS

Comparison of the three months ended September 30, 2006 to the three months ended September 30, 2005

Base rentals increased \$2.1 million, or 6%, in the 2006 period compared to the 2005 period. Our overall occupancy rates were comparable from period to period at 96.0% and 96.4%, respectively. Our base rental income increased \$2.0 million due to increases in rental rates on lease renewals and incremental rents from re-tenanting vacant space. During the 2006 period, we executed 55 leases totaling 201,000 square feet at an average increase of 1%. This compares to our execution of 71 leases totaling 302,000 square feet at an average increase of 6% during the 2005 period. Base rentals also increased due to the expansions of our Locust Grove, Georgia and Foley, Alabama centers, which both occurred late in the fourth quarter of 2005, and the opening of our Charleston, South Carolina center in August 2006. Increases occurred in the amortization of above or below market leases totaling \$402,000 primarily as a result of the additional above or below market rents recorded as a part of our acquisition of the final two-thirds interest in COROC Holdings, LLC in November 2005.

The values of the above and below market leases are amortized and recorded as either an increase (in the case of below market leases) or a decrease (in the case of above market leases) to rental income over the remaining term of the associated lease. For the 2006 period, we recorded \$326,000 of additional rental income for the net amortization of market lease values compared with a decrease of \$76,000 to rental income for the 2005 period. If a tenant vacates its space prior to the contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related above or below market lease value will be written off and could materially impact our net income positively or negatively. As of September 30, 2006, the net liability representing the amount of unrecognized below market lease values totaled \$2.4 million.

Percentage rentals, which represent revenues based on a percentage of tenants' sales volume above predetermined levels (the "breakpoint"), decreased \$58,000 or 3%. Several tenant breakpoints increased upon renewal since October 1, 2005 through September 30, 2006, resulting in a decrease in percentage rentals as compared to the 2005 period.

Expense reimbursements, which represent the contractual recovery from tenants of certain common area maintenance, insurance, property tax, promotional, advertising and management expenses, generally fluctuate consistently with the reimbursable property operating expenses to which they relate. Expense reimbursements, expressed as a percentage of property operating expenses, were 84% and 90% in the 2006 and 2005 periods, respectively. The decrease in the expense reimbursements expressed as a percentage of property operating expense is due to an increase in miscellaneous non-reimbursable expenses during the 2006 period such as reserves for potential sites and franchise and excise taxes.

Other income increased \$844,000, or 54%, in the 2006 period compared to the 2005 period. The overall increase in other income is due to the recognition of leasing, marketing and development fee income from our Tanger Wisconsin Dells joint venture, or Wisconsin Dells, interest income from funds in short-term, liquid investments, gains on sales of outparcels and increases in miscellaneous vending income.

Property operating expenses increased by \$2.2 million, or 14%, in the 2006 period as compared to the 2005 period. The increase is due to incremental costs in marketing and common area maintenance relating to the addition of our Charleston, South Carolina center which opened during the 2006 period as well as increases in property insurance from our policy renewal in August 2006 and other non-reimbursable expenses.

General and administrative expenses increased \$569,000, or 16%, in the 2006 period as compared to the 2005 period. The increase is primarily due to an increase in compensation expense related to restricted shares issued during the first quarter of 2006 as well as an increase in estimated bonus compensation for senior executives in the 2006 period. As a percentage of total revenues, general and administrative expenses were 8% and 7%, respectively, in the 2006 and 2005 periods.

Depreciation and amortization increased \$1.7 million, or 14%, in the 2006 period compared to the 2005 period. In November 2005, we purchased our consolidated joint venture partner's interest in COROC. The acquisition was accounted for under SFAS 141 "Business Combinations" ("FAS 141"). The depreciation and amortization of the additional assets recorded as a result of the acquisition were the primary reason for the increase in overall depreciation and amortization.

Interest expense increased \$3.0 million, or 38%, during the 2006 period as compared to the 2005 period due to a higher overall debt level as a result of two unsecured note offerings since the 2005 period. In November 2005, we issued \$250 million of 6.15% unsecured notes to finance a portion of the final acquisition of COROC. In August 2006, we issued \$149.5 million of 3.75% unsecured senior exchangeable notes. While these offerings increased our outstanding debt significantly, the interest rate on each lowered our overall weighted average interest rate.

In November 2005, we purchased our consolidated joint venture partner's interest in COROC. Therefore, there is a decrease of \$6.9 million in earnings allocated to minority interest in consolidated joint venture in the 2006 period compared to the 2005 period. The allocation of earnings to our joint venture partner was based on a preferred return on investment as opposed to their ownership percentage and, accordingly, had a significant impact on our earnings.

Discontinued operations in 2005 includes the results of operations and gains on sales of real estate for our Pigeon Forge, Tennessee and North Branch, Minnesota centers. The following table summarizes the results of operations and gains on sale of real estate for the 2006 and 2005 periods:

Summary of discontinued operations		2006		2005
Operating income from discontinued operations	\$	---	\$	355
Gain on sale of real estate		---		---
Income from discontinued operations		---		355
Minority interest in discontinued operations		---		(62)
Discontinued operations, net of minority interest	\$	---	\$	293

Comparison of the nine months ended September 30, 2006 to the nine months ended September 30, 2005

Base rentals increased \$4.9 million, or 5%, in the 2006 period compared to the 2005 period. Our overall occupancy rates were comparable from period to period at 96.0% and 96.4%, respectively. Our base rental income increased \$4.2 million due to increases in rental rates on lease renewals and incremental rents from re-tenanting vacant space. During the 2006 period, we executed 448 leases totaling 1.8 million square feet at an average increase of 10%. This compares to our execution of 388 leases totaling 1.7 million square feet at an average increase of 7% during the 2005 period. Base rentals also increased due to the expansions of our Locust Grove, Georgia and Foley, Alabama centers, which both occurred late in the fourth quarter of 2005, and the opening of our Charleston, South Carolina center in August 2006. The amortization of above or below market leases increased \$549,000, primarily as a result of the additional above or below market rents recorded as a part of our acquisition of the final two-thirds interest in COROC Holdings, LLC in November 2005.

The values of the above and below market leases are amortized and recorded as either an increase (in the case of below market leases) or a decrease (in the case of above market leases) to rental income over the remaining term of the associated lease. For the 2006 period, we recorded \$1.1 million of additional rental income for the net amortization of market lease values compared with \$583,000 of additional rental income for the 2005 period. If a tenant vacates its space prior to the contractual termination of the lease and no rental payments are being made on the lease, any unamortized balance of the related above or below market lease value will be written off and could materially impact our net income positively or negatively. As of September 30, 2006, the net liability representing the net amount of unrecognized below market lease values was \$2.4 million.

Percentage rentals, which represent revenues based on a percentage of tenants' sales volume above predetermined levels (the "breakpoint"), increased \$364,000 or 9%. Reported same-space sales per square foot for the rolling twelve months ended September 30, 2006 were \$336 per square foot. This represents a 6% increase compared to the same period in 2005. Same-space sales is defined as the weighted average sales per square foot reported in space open for the full duration of each comparison period.

Expense reimbursements, which represent the contractual recovery from tenants of certain common area maintenance, insurance, property tax, promotional, advertising and management expenses, generally fluctuate consistently with the reimbursable property operating expenses to which they relate. Expense reimbursements, expressed as a percentage of property operating expenses, were 85% and 88% in the 2006 and 2005 periods, respectively. The decrease in the expense reimbursements expressed as a percentage of property operating expense is due to an increase in miscellaneous non-reimbursable expenses during the 2006 period such as reserves for potential sites and franchise and excise taxes.

Other income increased \$1.6 million, or 43%, in the 2006 period compared to the 2005 period. The overall increase in other income is due to the recognition of leasing, marketing and development fee income from our Wisconsin Dells joint venture, gains on sales of outparcels of land and increases in miscellaneous vending income.

Property operating expenses increased by \$3.1 million, or 7%, in the 2006 period as compared to the 2005 period. The increase is due primarily to higher common area maintenance expenses relating to the addition of our Charleston, South Carolina center which opened during the 2006 period as well as increases in other non-reimbursable expenses.

General and administrative expenses increased \$2.0 million, or 19%, in the 2006 period as compared to the 2005 period. The increase is primarily due to an increase in compensation expense related to restricted shares issued at the end of March 2005 and restricted shares issued during the 2006 period as well as an increase in estimated bonus compensation for senior executives in the 2006 period. As a percentage of total revenues, general and administrative expenses increased from 7% in the 2005 period to 8% in the 2006 period.

Depreciation and amortization increased \$7.2 million, or 20%, in the 2006 period compared to the 2005 period. In November 2005, we purchased our consolidated joint venture partner's interest in COROC. The acquisition was accounted for under SFAS 141 "Business Combinations" ("FAS 141"). The depreciation and amortization of the additional assets recorded as a result of the acquisition were the primary reason for the increase in overall depreciation and amortization.

Interest expense increased \$6.5 million, or 27%, during the 2006 period as compared to the 2005 period due to a higher overall debt level as a result of two unsecured note offerings since the 2005 period. In November 2005, we issued \$250 million of 6.15% unsecured notes to finance a portion of the final acquisition of COROC. In August 2006 we issued \$149.5 million of 3.75% unsecured senior exchangeable notes. While these offerings increased our outstanding debt significantly, the interest rate on each lowered our overall weighted average interest rate.

In November 2005, we purchased our consolidated joint venture partner's interest in COROC. Therefore, there is a decrease of \$20.2 million in earnings allocated to minority interest in consolidated joint venture in the 2006 period compared to the 2005 period. The allocation of earnings to our joint venture partner was based on a preferred return on investment as opposed to their ownership percentage and, accordingly, had a significant impact on our earnings.

Discontinued operations includes the results of operations and gains on sales of real estate for our Pigeon Forge, Tennessee and North Branch, Minnesota centers. The following table summarizes the results of operations and gains on sale of real estate for the 2006 and 2005 periods:

Summary of discontinued operations	2006	2005
Operating income from discontinued operations	\$ 208	\$ 1,061
Gain on sale of real estate	13,833	---
Income from discontinued operations	14,041	1,061
Minority interest in discontinued operations	(2,328)	(190)
Discontinued operations, net of minority interest	\$ 11,713	\$ 871

During the first quarter of 2005 we sold our center in Seymour, Indiana. However, under the provisions of FAS 144, the sale did not qualify for treatment as discontinued operations. We recorded a loss on sale of real estate of \$3.8 million, net of minority interest of \$847,000, for the sale of the outlet center at our property. Net proceeds received for the center were \$2.0 million.

LIQUIDITY AND CAPITAL RESOURCES

Net cash provided by operating activities was \$57.3 million and \$60.3 million for the nine months ended September 30, 2006 and 2005, respectively. The decrease in cash provided by operating activities is due primarily to higher interest expense and debt levels in the 2006 period versus the 2005 period. Net cash used in investing activities was \$34.5 million and \$41.8 million during the first nine months of 2006 and 2005, respectively. The decrease was due primarily to cash used in the 2006 period for the construction of our new center in Charleston, South Carolina and higher investment levels in unconsolidated joint ventures in 2006 versus 2005. However, this was offset by investments in short-term auction rate securities with the excess proceeds from the common equity offering in August 2005 and proceeds from the sale of real estate from the Pigeon Forge, Tennessee and North Branch, Minnesota centers in the 2006 period. Net cash used in financing activities was \$5.5 million and \$16.4 million during the first nine months of 2006 and 2005, respectively. In the fourth quarter of 2005, we acquired the interest of our joint venture partner in COROC. Therefore, we did not have to make any cash distributions to them in the 2006 period whereas we made \$16.5 million in distributions to them in the 2005 period. Total net cash flows from equity and debt offerings and repayments in the periods were inflows of \$37.6 million and \$29.7 million; however, the 2006 period included significantly higher cash outflows for deferred financing costs related to our August 2006 unsecured note offering.

Our cash and cash equivalents balance of \$20.2 million was significantly higher at September 30, 2006 due to excess proceeds from our August 2006 unsecured senior exchangeable notes offering. Excess proceeds have been invested in a highly liquid money market investment. The investment had a balance of \$18.3 million as of September 30, 2006.

Current Developments and Dispositions

Any developments or expansions that we, or a joint venture that we are involved in, have planned or anticipated may not be started or completed as scheduled, or may not result in accretive net income or funds from operations. In addition, we regularly evaluate acquisition or disposition proposals and engage from time to time in negotiations for acquisitions or dispositions of properties. We may also enter into letters of intent for the purchase or sale of properties. Any prospective acquisition or disposition that is being evaluated or which is subject to a letter of intent may not be consummated, or if consummated, may not result in an increase in net income or funds from operations.

WHOLLY-OWNED CURRENT DEVELOPMENTS

During August of 2006, we opened our wholly-owned 352,300 square foot center located near Charleston, South Carolina. Tenants in the center include Gap, Banana Republic, Liz Claiborne, Nike, Adidas, Tommy Hilfiger, Guess, Reebok and others. As of September 30, 2006, the center was 80.5% occupied.

In October 2006, we purchased the land at our development site near Pittsburgh, Pennsylvania for approximately \$4.8 million. We currently expect the center to open in the first quarter of 2008. As of September 30, 2006, our investment in the project for pre-development costs amounted to approximately \$7.1 million and was included in other assets in the consolidated balance sheets.

WHOLLY-OWNED DISPOSITIONS

During the first quarter of 2006, we completed the sale of two outlet centers located in Pigeon Forge, Tennessee and North Branch, Minnesota. Net proceeds received from the sales of the centers were approximately \$20.2 million. We recorded gains on sales of real estate of \$13.8 million during the first quarter of 2006.

UNCONSOLIDATED JOINT VENTURES

Tanger Wisconsin Dells, LLC

In March 2005, the Wisconsin Dells joint venture was established to construct and operate a Tanger Outlet center in Wisconsin Dells, Wisconsin. During the first quarter of 2006, capital contributions of approximately \$510,000 were made by each member. The 264,900 square foot center opened in August 2006. The tenants in the center include Polo Ralph Lauren, Abercrombie & Fitch, Hollister, Gap, Banana Republic, Old Navy, Liz Claiborne, Nike, Adidas, Tommy Hilfiger and others.

In February 2006, in conjunction with the construction of the center, Wisconsin Dells closed on a construction loan in the amount of \$30.25 million with Wells Fargo Bank, NA due in February 2009. The construction loan is repayable on an interest only basis with interest floating based on the 30, 60 or 90 day LIBOR index plus 1.30%. The construction loan incurred by this unconsolidated joint venture is collateralized by its property as well as joint and several guarantees by us and designated guarantors of our venture partner. The construction loan balance as of September 30, 2006 was approximately \$26.2 million.

Deer Park Enterprise, LLC

In October 2003, Deer Park Enterprises, or Deer Park, a joint venture in which we have a one-third ownership interest, entered into a sale-leaseback transaction for the location on which it ultimately will develop a shopping center that will contain both outlet and big box retail tenants in Deer Park, New York. To date, we have made equity contributions totaling \$4.5 million to Deer Park, including \$1.5 million in 2006. Both of the other venture partners have made equity contributions equal to ours.

In conjunction with the real estate purchase, Deer Park closed on a loan in the amount of \$19 million due in October 2005 and a purchase money mortgage note with the seller in the amount of \$7 million. In October 2005, Bank of America extended the maturity of the loan until October 2006. In late September 2006, Deer Park closed on a construction loan of \$43.2 million with Bank of America which incurs interest at a floating interest rate equal to LIBOR plus 2.00% and is collateralized by the property as well as joint and several guarantees by all three venture partners. The loan balance as of September 30, 2006 was approximately \$30.6 million. Proceeds to date were used to refinance the \$19 million loan discussed above and to repay the \$7 million purchase money mortgage note with the original seller of the property in October 2006. The term of the construction loan is through April 2007. In addition

Deer Park continues to incur expenses related to architectural, engineering and other construction costs, including demolition expenditures.

The sale-leaseback transaction consisted of the sale of the property to Deer Park for \$29 million, including a 900,000 square foot industrial building, which was being leased back to the seller under an operating lease agreement. At the end of the lease in May 2005, the tenant vacated the building. However, the tenant had not satisfied all of the conditions necessary to terminate the lease. Deer Park is currently in litigation to recover from the tenant its monthly lease payments and will continue to do so until recovered. Annual rents due from the tenant are \$3.4 million.

Through March 2006, the Deer Park joint venture accounted for the lease revenues under the provisions of FASB Statement No. 67 "Accounting for Costs and Initial Rental Operations of Real Estate Projects", where the rent received from the tenant prior to May 2005 and that accrued from June 2005 through March 2006, net of applicable expenses, were treated as incidental revenues and were recorded as a reduction in the basis of the assets. Given the uncertainty regarding the final outcome of the litigation described above, Deer Park discontinued the accrual of rental revenues associated with the sale-leaseback transaction as of April 1, 2006. As a result, we recorded our portion of the project losses, which amounted to \$12,000 for the third quarter of 2006 and \$14,000 year to date, as a reduction in our investment in Deer Park and as a reduction to equity in earnings of unconsolidated joint ventures.

Financing Arrangements

In February 2006, we completed the sale of an additional 800,000 7.5% Class C Cumulative Preferred Shares with net proceeds of approximately \$19.4 million, bringing the total amount of Preferred Shares outstanding to 3,000,000. The proceeds were used to repay amounts outstanding on our unsecured lines of credit. We pay annual dividends equal to \$1.875 per share.

In August 2006, the Operating Partnership issued \$149.5 million of exchangeable senior unsecured notes that mature on August 15, 2026. The notes bear interest at a fixed coupon rate of 3.75%. The notes are exchangeable into the Company's common shares, at the option of the holder, at an initial exchange ratio, subject to adjustment, of 27.6856 shares per \$1,000 principal amount of notes (or an initial exchange price of \$36.1198 per common share). The notes are senior unsecured obligations of the Operating Partnership and are guaranteed by the Company on a senior unsecured basis. On and after August 18, 2011, holders may exchange their notes for cash in an amount equal to the lesser of the exchange value and the aggregate principal amount of the notes to be exchanged, and, at our option, Company common shares, cash or a combination thereof for any excess. Note holders may exchange their notes prior to August 18, 2011 only upon the occurrence of specified events. In addition, on August 18, 2011, August 15, 2016 or August 15, 2021, note holders may require us to repurchase the notes for an amount equal to the principal amount of the notes plus any accrued and unpaid interest up to, but excluding, the repurchase date.

We used the net proceeds from the issuance to repay in full our mortgage debt outstanding with Woodman of the World Life Insurance Society totaling approximately \$15.3 million, with an interest rate of 8.86% and an original maturity of September 2010. We also repaid all amounts outstanding under our unsecured lines of credit and a \$53.5 million variable rate unsecured term loan with Wells Fargo with a weighted average interest rate of approximately 6.3%. As a result of the early repayment, we recognized a charge for the early extinguishment of the mortgages and term loan of approximately \$917,000. The charge, which is included in interest expense, consisted of a prepayment premium of approximately \$609,000 and the write-off of deferred loan fees totaling approximately \$308,000.

At September 30, 2006, approximately 73% of our outstanding long-term debt represented unsecured borrowings and approximately 56% of the gross book value of our real estate portfolio was unencumbered. The average interest rate, including loan cost amortization, on average debt outstanding for the three months ended September 30, 2006 and 2005 was 6.67% and 7.69%, respectively.

We intend to retain the ability to raise additional capital, including public debt or equity, to pursue attractive investment opportunities that may arise and to otherwise act in a manner that we believe to be in our shareholders' best interests. During the third quarter of 2006, we updated our shelf registration as a well known seasoned issuer where we will be able to register unspecified amounts of different classes of securities on Form S-3. To generate capital to reinvest into other attractive investment opportunities, we may also consider the use of additional operational and developmental joint ventures, selling certain properties that do not meet our long-term investment criteria as well as outparcels on existing properties.

During the third quarter of 2006, we closed on unsecured lines of credit of \$25 million each with Branch Banking and Trust Co. and SunTrust Bank. As of September 30, 2006, we maintained unsecured, revolving lines of credit that provided for unsecured borrowings of up to \$200 million. All of our lines of credit have maturity dates of June 2009. Based on cash provided by operations, existing credit facilities, ongoing negotiations with certain financial institutions and our ability to sell debt or equity subject to market conditions, we believe that we have access to the necessary financing to fund the planned capital expenditures during 2006 and 2007.

We anticipate that adequate cash will be available to fund our operating and administrative expenses, regular debt service obligations, and the payment of dividends in accordance with Real Estate Investment Trust ("REIT") requirements in both the short and long term. Although we receive most of our rental payments on a monthly basis, distributions to shareholders are made quarterly and interest payments on the senior, unsecured notes are made semi-annually. Amounts accumulated for such payments will be used in the interim to reduce the outstanding borrowings under the existing lines of credit or invested in short-term money market or other suitable instruments.

On October 12, 2006, our Board of Directors declared a \$.34 cash dividend per common share payable on November 15, 2006 to each shareholder of record on October 31, 2006, and caused a \$.68 per Operating Partnership unit cash distribution to be paid to the Operating Partnership's minority interest. The Board of Directors also declared a \$.46875 cash dividend per Class C Preferred Share payable on November 15, 2006 to holders of record on October 31, 2006.

Off-Balance Sheet Arrangements

We are a party to a joint and several guarantee with respect to the \$30.25 million construction loan obtained by Wisconsin Dells during the first quarter of 2006. We are also a party to a joint and several guarantee with respect to the loan obtained by Deer Park which currently has a balance of \$30.6 million. See "Joint Ventures" section above for further discussion of off-balance sheet arrangements and their related guarantees. Our pro-rata portion of the TWMB Associates, LLC, or TWMB, mortgage secured by the center is \$17.9 million. There is no guarantee provided for the TWMB mortgage by us.

Critical Accounting Policies and Estimates

Refer to our 2005 Annual Report on Form 10-K for a discussion of our critical accounting policies which include principles of consolidation, acquisition of real estate, cost capitalization, impairment of long-lived assets and revenue recognition. There have been no material changes to these policies in 2006.

Related Party Transactions

As noted above in “Unconsolidated Joint Ventures”, we are 50% owners of the TWMB and Wisconsin Dells joint ventures. TWMB and Wisconsin Dells pay us management, leasing, marketing and development fees, which we believe approximate current market rates, for such services. During the three and nine months ended September 30, 2006 and 2005, we recognized the following fees:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2006	2005	2006	2005
Fee:				
Management	\$ 104	\$ 78	\$ 260	\$ 234
Leasing	167	(2)	196	2
Marketing	22	16	66	48
Development	151	---	313	---
Total Fees	\$ 444	\$ 92	\$ 835	\$ 284

Tanger Family Limited Partnership, or TFLP, is a related party which holds a limited partnership interest in and is the minority owner of the Operating Partnership. Stanley K. Tanger, the Company’s Chairman of the Board and Chief Executive Officer, is the sole general partner of TFLP. The only material related party transactions with TFLP are the payment of quarterly distributions of earnings, which were \$6.1 million and \$5.8 million for the nine months ended September 30, 2006 and 2005, respectively.

New Accounting Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48 “Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109”, or FIN 48, which clarifies the accounting for uncertainty in tax positions. FIN 48 requires that we recognize the impact of a tax position in our financial statements if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective as of January 1, 2007, with the cumulative effect of the change in accounting principle recorded as an adjustment to opening retained earnings. We are currently evaluating the impact of adopting FIN 48 on our financial statements.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 108, “Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements”, or SAB 108. SAB 108 provides interpretive guidance on how the effects of prior-year uncorrected misstatements should be considered when quantifying misstatements in the current year financial statements. SAB 108 requires registrants to quantify misstatements using both an income statement (“rollover”) and balance sheet (“iron curtain”) approach and evaluate whether either approach results in a misstatement that, when all relevant quantitative and qualitative factors are considered, is material. If prior year errors that had been previously considered immaterial now are considered material based on either approach, no restatement is required so long as management properly applied its previous approach and all relevant facts and circumstances were considered. If prior years are not restated, the cumulative effect adjustment is recorded in opening accumulated earnings as of the beginning of the fiscal year of adoption. SAB 108 is effective for fiscal years ending after November 15, 2006. We currently do not believe SAB 108 will have a material impact on our results from operations or financial position.

Funds From Operations

Funds from Operations, which we refer to as FFO, represents income before extraordinary items and gains (losses) on sale or disposal of depreciable operating properties, plus depreciation and amortization uniquely significant to real

estate and after adjustments for unconsolidated partnerships and joint ventures.

27

FFO is intended to exclude historical cost depreciation of real estate as required by Generally Accepted Accounting Principles, which we refer to as GAAP, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income.

We present FFO because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, any of which present FFO when reporting their results. FFO is widely used by us and others in our industry to evaluate and price potential acquisition candidates. The National Association of Real Estate Investment Trusts, Inc., of which we are a member, has encouraged its member companies to report their FFO as a supplemental, industry-wide standard measure of REIT operating performance. In addition, a percentage of bonus compensation to certain members of management is based on our FFO performance.

FFO has significant limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- § FFO does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
 - § FFO does not reflect changes in, or cash requirements for, our working capital needs;
- § Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and FFO does not reflect any cash requirements for such replacements;
- § FFO does not reflect the impact of earnings or charges resulting from matters which may not be indicative of our ongoing operations; and
- § Other companies in our industry may calculate FFO differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, FFO should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or our dividend paying capacity. We compensate for these limitations by relying primarily on our GAAP results and using FFO only supplementally.

Edgar Filing: TANGER FACTORY OUTLET CENTERS INC - Form 10-Q

Below is a reconciliation of FFO to net income for the three and nine months ended September 30, 2006 and 2005 as well as other data for those respective periods (in thousands):

	Three months ended September 30,		Nine months ended September 30,	
	2006	2005	2006	2005
FUNDS FROM OPERATIONS				
Net income	\$ 7,414	\$ 4,413	\$ 28,550	\$ 4,964
Adjusted for:				
Minority interest in operating partnership	1,191	881	2,541	1,727
Minority interest adjustment - consolidated joint venture	---	(441)	---	(549)
Minority interest, depreciation and amortization attributable to discontinued operations	---	247	2,444	729
Depreciation and amortization uniquely significant to real estate - consolidated	13,512	11,856	42,923	35,736
Depreciation and amortization uniquely significant to real estate - unconsolidated joint ventures	444	375	1,202	1,114
(Gain) loss on sale of real estate	---	---	(13,833)	3,843
Funds from operations (FFO) (1)	22,561	17,331	63,827	47,564
Preferred share dividends	(1,406)	---	(4,027)	---
Funds from operations available to common shareholders	\$ 21,155	\$ 17,331	\$ 59,800	\$ 47,564
Weighted average shares outstanding (2)	37,050	34,747	36,990	34,001

- (1) The three months ended September 30, 2006 includes gains on sales of outparcels of land of \$177. The nine months ended September 30, 2006 and 2005 includes gains on sales of outparcels of land of \$402 and \$127, respectively.
- (2) Assumes the partnership units of the Operating Partnership held by the minority interest and share and unit options are converted to common shares of the Company.

Economic Conditions and Outlook

The majority of our leases contain provisions designed to mitigate the impact of inflation. Such provisions include clauses for the escalation of base rent and clauses enabling us to receive percentage rentals based on tenants' gross sales (above predetermined levels, which we believe often are lower than traditional retail industry standards) that generally increase as prices rise. Most of the leases require the tenant to pay their share of property operating expenses, including common area maintenance, real estate taxes, insurance and advertising and promotion, thereby reducing exposure to increases in costs and operating expenses resulting from inflation.

While factory outlet stores continue to be a profitable and fundamental distribution channel for brand name manufacturers, some retail formats are more successful than others. As typical in the retail industry, certain tenants have closed, or will close certain stores by terminating their lease prior to its natural expiration or as a result of filing for protection under bankruptcy laws.

During 2006, we have approximately 1,760,000 square feet, or 21% of our portfolio, coming up for renewal. If we were unable to successfully renew or re-lease a significant amount of this space on favorable economic terms, the loss in rent could have a material adverse effect on our results of operations.

As of September 30, 2006, we have renewed approximately 1,382,000 square feet, or 79% of the square feet originally scheduled to expire in 2006. The existing tenants have renewed at an average base rental rate approximately 8.5% higher than the expiring rate. We also re-tenanted approximately 449,000 square feet of vacant space during the first nine months of 2006 at a 16.3% increase in the average base rental rate from that which was previously charged. Our factory outlet centers typically include well-known, national, brand name companies. By maintaining a broad base of creditworthy tenants and a geographically diverse portfolio of properties located across the United States, we reduce our operating and leasing risks. No one tenant (including affiliates) accounted for more than 6.9% of our combined base and percentage rental revenues for the three months ended September 30, 2006. Accordingly, we do not expect any material adverse impact on our results of operations and financial condition as a result of leases to be renewed or stores to be re-leased.

Our centers were 96.0% and 96.4% occupied as of September 30, 2006 and 2005, respectively. Consistent with our long-term strategy of re-merchandising centers, we will continue to hold space off the market until an appropriate tenant is identified. While we believe this strategy will add value to our centers in the long-term, it may reduce our average occupancy rates in the near term.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market Risk

We are exposed to various market risks, including changes in interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates. We may periodically enter into certain interest rate protection and interest rate swap agreements to effectively convert floating rate debt to a fixed rate basis and to hedge anticipated future financings. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

In September 2005, we entered into two forward starting interest rate lock protection agreements to hedge risks related to anticipated future financings in 2005 and 2008. The 2005 agreement locked the US Treasury index rate at 4.279% on a notional amount of \$125 million for 10 years from such date in December 2005. This lock was unwound in the fourth quarter of 2005 in conjunction with the issuance of the \$250 million senior unsecured notes due in 2015 and, as a result, we received a cash payment of \$3.2 million. The gain was recorded in other comprehensive income and is being amortized into earnings using the effective interest method over a 10 year period that coincides with the interest payments associated with the senior unsecured notes due in 2015. The 2008 agreement locked the US Treasury index rate at 4.526% on a notional amount of \$100 million for 10 years from such date in July 2008. In November 2005, we entered into an additional agreement which locked the US Treasury index rate at 4.715% on a notional amount of \$100 million for 10 years from such date in July 2008. We anticipate unsecured debt transactions of at least the notional amount to occur in the designated periods.

The fair value of the interest rate protection agreements represents the estimated receipts or payments that would be made to terminate the agreement. At September 30, 2006, we would have paid approximately \$663,000 if we terminated the agreements. If the US Treasury rate index decreased 1% and we were to terminate the agreements, we would have to pay \$16.3 million to do so. The fair value is based on dealer quotes, considering current interest rates and remaining term to maturity. We do not intend to terminate the agreements prior to their maturity because we plan on entering into the debt transactions as indicated.

During March 2005, TWMB, entered into an interest rate swap agreement with a notional amount of \$35 million for five years to hedge floating rate debt on the permanent financing that was obtained in April 2005. Under this agreement, TWMB receives a floating interest rate based on the 30 day LIBOR index and pays a fixed interest rate of 4.59%. This swap effectively changes the rate of interest on \$35 million of variable rate mortgage debt to a fixed rate

debt of 5.99% for the contract period.

30

The fair value of the interest rate swap agreement represents the estimated receipts or payments that would be made to terminate the agreement. At September 30, 2006, TWMB would have received approximately \$389,000 if the agreement was terminated. If the LIBOR index decreased 1% and we were to terminate the agreement, we would have to pay \$730,000 to do so. The fair value is based on dealer quotes, considering current interest rates and remaining term to maturity. TWMB does not intend to terminate the interest rate swap agreement prior to its maturity. The fair value of this derivative is currently recorded as an asset in TWMB's balance sheet; however, if held to maturity, the value of the swap will be zero at that time.

The fair market value of long-term fixed interest rate debt is subject to market risk. Generally, the fair market value of fixed interest rate debt will increase as interest rates fall and decrease as interest rates rise. The estimated fair value of our total long-term debt at September 30, 2006 was \$694.6 million and its recorded value was \$680.1 million. A 1% increase from prevailing interest rates at September 30, 2006 would result in a decrease in fair value of total long-term debt by approximately \$44.3 million. Fair values were determined from quoted market prices, where available, using current interest rates considering credit ratings and the remaining terms to maturity.

The following table summarizes the notional values and fair values of our derivative financial instruments as of September 30, 2006.

Financial Instrument Type	Notional Value	Rate	Maturity	Fair Value
TANGER PROPERTIES LIMITED PARTNERSHIP				
US Treasury Lock	\$100,000,000	4.526%	July 2008	\$ 254,000
US Treasury Lock	\$100,000,000	4.715%	July 2008	\$ (917,000)
TWMB, ASSOCIATES, LLC				
LIBOR Interest Rate Swap	\$35,000,000	4.59%	March 2010	\$ 389,000

Item 4. Controls and Procedures

Based on the most recent evaluation, the Company's Chief Executive Officer and Chief Financial Officer, have concluded the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of September 30, 2006. There were no changes to the Company's internal controls over financial reporting during the quarter ended September 30, 2006, that materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Neither the Company nor the Operating Partnership is presently involved in any material litigation nor, to their knowledge, is any material litigation threatened against the Company or the Operating Partnership or its properties, other than routine litigation arising in the ordinary course of business and which is expected to be covered by liability insurance.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2005.

Item 6. Exhibits

- 10.9 Amended and Restated Employment Agreement for Lisa J. Morrison dated May 9, 2006.
(Incorporated by reference to the exhibits of the Company's Quarterly Report on Form 10-Q or the quarter ended March 31, 2006.)
- 31.1 Principal Executive Officer Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002.
- 31.2 Principal Financial Officer Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 302 of the Sarbanes - Oxley Act of 2002.
- 32.1 Principal Executive Officer Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes - Oxley Act of 2002.
- 32.2 Principal Financial Officer Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes - Oxley Act of 2002.
