NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2007 AND 2006

NOTE 1: THE COMPANY

Edgar Filing: ACACIA AUTOMOTIVE INC - Form 10QSB

Gibbs Construction, Inc. ("Gibbs" or the "Company") was a full service, national commercial construction company located in Garland, Texas. During 1999, Gibbs experienced significant losses associated with certain construction projects, which were bonded by Gibbs' primary bonding surety. In the fourth quarter of 1999, Gibbs' bonding surety notified Gibbs that it would no longer provide completion and payment bonds for Gibbs' construction projects. Given these events, Gibbs began a series of negotiations with its bonding surety in December of 1999, which resulted in a written agreement in January of 2000, whereby the bonding surety would provide funds to finish certain projects and required Gibbs to terminate construction on other projects. These events led to Gibbs inability to satisfy its debts in the ordinary course of business and on April 20, 2000, Gibbs filed a Petition pursuant to Chapter 11 of the United States Bankruptcy Code.

On July 28, 2000, Gibbs received permission from its Court of Jurisdiction to solicit approval of its Plan of Reorganization. Gibbs continued to operate on a limited basis pending approval of its Plan of Reorganization. On November 10, 2000, Gibbs completed its Plan of Reorganization pursuant to an order of the court as follows:

- a) Gibbs transferred all of its assets and liabilities to the Gibbs Construction, Inc. Creditor Trust ("Trust").
- b) Gibbs issued 501,000 shares of its authorized but previously unissued common stock to the Trust in settlement of unsecured creditor claims.
- c) Gibbs approved issuance of 1,000,000 shares of a newly created preferred stock, with an aggregate liquidation preference value of \$200,000 and a six percent (6%) non-cumulative dividend, to the bonding surety.
- d) Gibbs issued 4,000,000 shares of its authorized but previously unissued common stock to Thacker Asset Management, LLC (TAM), a Texas limited liability company, in exchange for certain operating assets and the obligation to complete certain construction projects of TAM.

Gibbs did not obtain a court ordered final decree from the bankruptcy court due to the difficulties encountered with the implementation of the re-organization plan. All operating activities ceased in 2002. On June 26, 2006, the bankruptcy trustee requested and received a Order for Final Decree. The 501,000 shares of common stock issued to the Trust were abandoned and returned to the Company on October 5, 2006. These shares have been cancelled.

On July 25, 2006, the Board of Directors of the Company met and approved the following actions:

- o Authorizing 2,000,000 shares of \$0.001 par value preferred stock and authorized the Board of Directors to:
 - a.) set the number of shares constituting each series of preferred stock
 - b.) establish voting rights, powers, preferences and conversion rights
- o Increasing the authorized number of common shares to 150,000,000 and decreased the par value to \$0.001.

Edgar Filing: ACACIA AUTOMOTIVE INC - Form 10QSB

NOTE 1: THE COMPANY (Continued)

- o Authorizing a one-for-eight reverse stock split of the Company's common stock.
- o Designating 525,000 shares of preferred stock as Series A Preferred Stock, with the following rights:
 - a.) Dividends can be paid when declared by the Board of Directors but must be also simultaneously declared on the common stock.
 - b.) Series A Preferred Stock may not be redeemed.
 - c.) Each share of Series A Preferred Stock is convertible into one share of common stock at the option of the holders.
 - d.) The holders of Series A Preferred Shares are certified to 50 votes on all matters to be voted on by the shareholders of the Company for each share of Series A Preferred Stock held.
- o Authorizing the issuance of common stock and Series A Preferred Stock for services rendered and payments of organization expenses on behalf of the Company:
 - a.) 8,567,500 shares of common stock.
 - b.) 525,000 shares of Series A Preferred Stock.
 - c.) Aggregated issuance fair value was \$150,262.

Certain of the actions approved by the Board of Directors on July 25, 2006, required the approval of the shareholders of the Company, which was gained in a Special Meeting of Shareholders on February 1, 2007, and are reflected in the accompanying financial statements.

In addition, the Company granted 500,000 shares of its Common stock to its President and COO in accordance with the Stock Incentive Plan.

NOTE 4: GOING CONCERN

On June 26, 2006, the Bankruptcy Court for the Northern District of Texas, issued its Order for Final Decree related to the Company's bankruptcy petition filed April 20, 2000. The Board of Directors convened its first post bankruptcy meeting on July 25, 2006, and assumed operating control. On August 15, 2006, the Company entered into a "Stock Purchase and Subscription Agreement" whereby the effective control of the Company was transferred to Steven L. Sample, an individual residing in the State of Florida. Mr. Sample and his assignees purchased 5,500,000 pre-split shares for an aggregate purchase price of \$65,000 plus at least \$20,000 to discharge any obligations of the Company and agreed to provide the capital such that the Company can arrange to have its filings with the United States Securities and Exchange Commission brought current.

The Company issued to two individuals 8,567,500 shares of its post reverse split \$0.001 par value common stock and 525,000 shares of its Series A Preferred Stock for services rendered and expenses paid (aggregate total value \$150,262).

None of the above described transactions provided the Company with operating funds.

On September 11, 2006, the Company issued a private placement memorandum for the sale of 8,000,000 shares of the Company's common stock at \$2.00 per share. Without a successful raising of at least \$1,000,000, the Company will not be able to commence operations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Information

The Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of the Form 10-Q contain forward-looking information. The forward-looking information involves risks and uncertainties that are based on current expectations, estimates, and projections about the Company's business, management's beliefs and assumptions made by management. Words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", and variations of such words and similar expressions are intended to identify such forward-looking information. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking information due to numerous factors, including, but not limited to, availability of financing for operations, successful performance of internal operations, impact of competition and other risks detailed below as well as those discussed elsewhere in this Form 10-QSB and from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, general economic and market conditions and growth rates could affect such statements.

General

For each of the fiscal years ended December 31, 2003, 2004, and 2005, and for the quarter ended March 31, 2006, the Company had no operations, income, expenses, assets or liabilities or other activity. With the funding by Mr. Sample of the costs of completing the Company's bankruptcy proceeding, which was completed in June 2006, Mr. Sample commenced a plan to revive the Company by acquiring automobile auctions. This plan required the funding by Mr. Sample of certain Company debts which, although discharged in the bankruptcy proceeding, required payment to commence operating as a public entity. Further, the revival of the Company as a public entity required substantial expenditures for legal and accounting fees, among other costs, in the final three quarters of 2006 and the quarter ended March 31, 2007.

The implementation of Mr. Sample's plan required the reorganizing of the Company's capital structure, a plan completed in February 2007. Simultaneously, the plan required the raising of additional capital, a process which is anticipated to be completed in the second quarter of 2007. With the additional capital, the Company will attempt to acquire automobile auctions.

The plan for an acquired auction or auctions will depend upon the auction or auctions acquired.

Without a successful raising of additional capital of at least \$1,000,000, the Company will not be able to commence operations.

Restructuring.

The Company's plan of restructuring, which was effected in February 2007, amended the corporate charter to effect a one for eight reverse stock split, to increase the number of authorized shares of Common Stock to 150,000,000 and agreed to create and establish a series of preferred stock. Following, the adoption of the amendments, the company issued to Mr. Sample and

Edgar Filing: ACACIA AUTOMOTIVE INC - Form 10QSB

one other individual 8,567,500 shares of Common Stock and 525,000 shares of preferred stock. See Note 1 to the Notes to Financial Statements herein. The distinguishing feature of the preferred stock is that each share has 50 votes, but if Mr. Sample or the other recipient transfers the shares to any other entity other than for estate planning purposes, the shares automatically convert on a share for share basis to Common Stock and, in any event, automatically convert to Common Stock upon the death of either recipient. Mr. Sample will hold the right to vote all such shares to be issued for a period of nine years.

On February 1, 2007, the Company's shareholders approved these actions, including changing the Company's name to Acacia Automotive, Inc. and the amendment to the Company's charter was effective February 20, 2007.

Loss for quarter ended March 31, 2007

The Company incurred a loss of 1,169,061 for the quarter ended March 31, 2007. Of this amount \$51,724 was for legal and accounting fees incurred during the quarter. The Corporation also incurred \$1,115,515 of expense for employee compensation during the quarter. Of this amount \$1,000,000 was incurred as expense for the grant of restricted stock granted to an officer of the Corporation. In addition \$87,750 was accrued in the quarter for executive officers' salaries. The remainder was a result of stock options granted to other officers.

Item 3. Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its President who acts as our Chief Financial Officer to allow timely decisions regarding required disclosure. During the 90-day period prior to the date of this report, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer concluded that the Company's disclosure controls and procedures were effective. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls, and no corrective actions taken with regard to significant deficiencies or material weaknesses in such controls, subsequent to the date of our most recent evaluation of internal controls.

PART - II

Item 1. Legal Proceedings.

On June 26, 2006, after being on the docket for six years, the United States Bankruptcy Court for the Northern District of Texas, Dallas Division closed the registrant's case following an application for Final Decree. Item 2. Unregistered Sales of Equity Securities and use of Proceeds.

On February 1, 2007, the Corporation's shareholders approved amendments to the Articles of incorporation pursuant to a restructuring plan proposed to the shareholders. This plan included increasing the number of authorized shares of Common Stock and authorized the board of directors to establish the relative rights, powers, and privileges of a series of preferred stock. Upon the effecting of these amendments, the Corporation issued to two individuals a total of 8,657,500 shares of Common Stock and 525,000 shares of Preferred Stock for services rendered to the Corporation and expenses, totaling \$138,862. The issuance of these shares was exempt from registration under the Securities Act pursuant to Section 4(2) thereunder as transactions not involving a public

offering.

The board of directors also granted a warrant to purchase 125,000 shares of Common Stock for \$0.01 per share to each of two individuals for use of an automobile provided to an officer of the Corporation and other services provided to the Corporation. These warrants were exercised. The issuance of these shares was exempt from registration under the Securities Act pursuant to Section 4(2) thereunder as transactions not involving a public offering.

The board of directors also adopted a stock option plan under which it granted an officer of the Corporation 500,000 restricted shares of Common Stock. The issuance of these shares was exempt from registration under the Securities Act pursuant to Section 4(2) thereunder as transactions not involving a public offering.

The board of directors also granted under the stock option plan options to acquire 30,000 shares and 15,000 shares of Common Stock for \$0.01 per share to three directors and two officers, respectively. Also, the board of directors granted pursuant to the plan 10,000 restricted shares of Common Stock to one consultant to the Corporation. The issuance of these options was exempt from registration under the Securities Act pursuant to Section 4(2) thereunder as transactions not involving a public offering.
