The Company has adopted a Code of Ethics for Officers, Directors and Employees. Copies are available on the Company's website at <http://www.kclife.com> and a copy may be obtained without charge upon written request to the Company Secretary, 3520 Broadway, Kansas City, Missouri, 64111.

The Company has a standing Nominating Committee and its charter can be viewed on the Company's website at the following address: <http://www.kclife.com>. One of its members is an independent director. It complies with the applicable requirements for directors under the standards promulgated by the Securities and Exchange Commission and the listing standards of the NASDAQ Capital Market. The Committee takes into consideration such criteria as it deems appropriate in evaluating a candidate, including his or her knowledge, expertise, skills, integrity, diversity, judgment, business or other experience and reputation in the business community. It may (but is not required to) consider candidates suggested by Management, other members of the Board of Directors, or shareholders. Nominations are governed by the Company's Bylaws and Articles of Incorporation.

Communications with the Board

The Board provides a process for stockholders to send communications to the independent members of the Board, by mailing such communications to Cecil R. Miller, Chairman of the Audit Committee, Kansas City Life Insurance Company, 3520 Broadway, Kansas City, Missouri, 64111.

Current Board Structure

The Board of Directors is currently comprised of fourteen members, eight of whom are independent directors, with the Chairman also serving in the role of Principal Executive Officer. The Board believes that having a single person serve as Chairman and Principal Executive Officer provides unified leadership and direction, and that such a structure facilitates oversight of management and the full engagement of its independent directors.

The Board has not designated a lead independent director, but each of the Company's independent directors brings to bear substantial leadership experience in areas relevant to the Company's business. The Board of Directors believes that it has the necessary power and authority to request and obtain information from management and to retain outside consultants where appropriate. As more specifically discussed below, the Compensation Committee reports on senior management compensation with input from the entire Board and evaluates the performance of the Principal Executive Officer. In addition, the independent directors meet in executive session at least twice a year, and report to the Board and communicate with management through a representative.

COMPENSATION DISCLOSURE AND ANALYSIS

Overview

This compensation discussion describes the material elements of compensation awarded to, earned by or paid to each of our executive officers who served as named executive officers during the last completed fiscal year. This compensation discussion focuses on the information contained in the following tables and related footnotes and narrative for primarily the last completed fiscal year, but also describes compensation actions taken before or after the last completed fiscal year to the extent it enhances the understanding of our executive compensation disclosure.

The Compensation Committee's Responsibilities

The Compensation Committee of the Board is responsible for oversight of the Company's executive compensation and benefit policies to ensure that they provide the appropriate motivation to achieve superior corporate performance and stockholder value. Each year, the Committee reviews and approves the overall design of the Company's executive pay programs and the pay elements for the senior executive officers. In addition, the Committee performs an annual evaluation of the Principal Executive Officer's performance compared to pre-established performance goals and objectives, and recommends compensation actions impacting executive officers and directors to the Board.

The Committee is composed entirely of independent directors. Reports of the Committee's actions and recommendations are presented to the full Board after each meeting. The purpose of this analysis is to summarize the philosophical principles, specific program elements and other factors considered by the Committee in making decisions about executive compensation. In addition to its own work, the Committee seeks input from an outside consultant (more fully described below), the Principal Executive Officer and the Senior Vice President, Operations, to provide the Committee with information, perspectives, and recommendations on a variety of human resources matters, such as annual incentive goals and plan design changes for Board-approved compensation plans. The Company's General Counsel also advises the Committee on various legal aspects relating to compensation and employment matters. The periodic shareholder advisory vote will occur every three years, with the next scheduled advisory vote to be held at the 2014 Annual Meeting of Stockholders.

Compensation Philosophy

The Committee's guiding philosophy is to establish a compensation program that will enable the attraction, motivation and retention of quality executive leadership who will achieve competitively superior corporate performance and stockholder value creation. The compensation program is designed to be competitive with the compensation programs of other comparable employers, and to align the executive's compensation with the Company's objectives as measured against established goals. The Company employs a balanced approach to compensation that considers market pay data, achievement of individual and organization performance objectives, the Company's progress toward strategic goals, and the retention of key executive talent. The Committee bases its compensation decisions on the following core principles:

- **Pay is Performance Based:** Executive officer pay programs are designed to align with Company performance and be competitive when compared to similar job sizes in the insurance industry. Base salary midpoints are targeted to median salary levels as provided in Hay Group's All-Insurance Industry database ("competitive market"). Total cash compensation (base salary + annual incentive) is targeted at median of the All-Insurance market where annual incentives are paid at target levels. To ensure our pay practices remain competitive within the industry, the Committee also reviews compensation data on base salary, annual incentives, and long-term incentives paid at a Peer Group of 9 comparable insurance companies ("Peer Group"). Our compensation philosophy is to provide

executives the opportunity to earn total direct compensation between the 50th and 75th percentiles of the Company's competitive market when performance exceeds targeted levels, as proposed by management and affirmed by the Committee. Similarly, where performance does not meet threshold levels no incentive payout will occur, and executives will earn total direct compensation below Median levels of the competitive market. Under the Company's current pay philosophy, a significant portion of each executive's pay is at-risk with the amount realized, if any, based on Company performance. Pay levels and the portion of at-risk compensation increase as an executive assumes greater levels of responsibility and impact to the Company.

- **Compensation Opportunities Must Be Competitive:** Competition for key management talent in the insurance industry is aggressive. The Committee carefully monitors the compensation practices of the insurance market and the industry peers to ensure the Company's compensation philosophy and pay practices are appropriately competitive.

The Committee values the opinions of our shareholders. At the April 21, 2011 annual meeting, more than 97% of the votes cast on the advisory vote on executive compensation ("say-on-pay") were in favor of the named executive officer compensation program presented for consideration. The Committee considered this support in reaffirming the compensation philosophy presented above.

Program Elements

The Company's executive compensation program is composed of base salary, bonus, an annual incentive plan and long term incentive compensation. All senior executive officers participate in the same compensation program and are subject to the same pay policies. The Company uses a formal job evaluation methodology to consider both the internal and external equity of executives' total compensation. Internal equity is considered in order to ensure that executives are compensated at an appropriate level relative to other Company executives, while external equity is a measure of how our compensation compares to compensation for comparable job content at other companies that are similar to our Company. Hay Group reviews each executive position using its proprietary job evaluation methodology to assess the position's relative size. In this process, Hay Group considers the breadth of responsibilities, the complexity of the role, and the role's impact on the success of the business. Once each job is valued independently, Hay Group compares the jobs to determine relative relationships and then relates these job content sizes to pay opportunity levels based on compensation market data from Hay Group's All-Insurance compensation database.

Base Salary. Base salaries are provided to compensate for the duties, competencies, experience and performance of the executive, as well as to provide a basic degree of financial security. The Committee sets base salary midpoints after considering the particular responsibilities of the executive positions and base salaries paid to similar positions in the competitive market, as adjusted for company size. Base salary midpoints for executive officers are targeted to the Median of the competitive market. Salary ranges are set with the minimum at 20 percent below midpoint and the maximum at 20 percent above midpoint.

The Peer Group of companies consists of:

American Equity Investment Life Holding Co.	Independence Holding Company
EMC Insurance Group	National Western Life Insurance Co.
FBL Financial Group, Inc.	Presidential Life Corporation
Harleysville Group Inc.	United Fire and Casualty Company
Horace Mann Educators Corp.	

All executive officers are eligible for an annual merit increase to base salary, effective January 1, based primarily on performance of job responsibilities, pay relative to salary range and accomplishment of predetermined performance objectives. Job responsibilities are described by a current written job description and are measured using Hay Group's proprietary job evaluation methodology (as discussed above). The Principal Executive Officer evaluates the executive officers' performance and the Compensation Committee evaluates the Principal Executive Officer's performance.

In accordance with common Company practice, annual base salary increases for 2013 were developed in late 2012. The Committee approved an average 2.8% annual merit increase for senior officers.

Bonus. Discretionary bonuses are approved by the Committee and Board of Directors or Executive Committee. The discretionary bonus, if any, is paid in cash.

Annual Incentive. The Company provides the named executive officers and 73 other participants with an opportunity to earn cash incentive awards based on annual performance through the Company’s Annual Incentive Plan (the “AIP”). Annual incentive compensation is paid in cash. The Company targets total cash (base salary + annual incentive) at median of the Hay Group All-Insurance Industry database, as adjusted for company size, when incentive awards are paid at target. Historically, the Committee has established aggressive AIP targets resulting in actual annual incentive payouts below target levels. Consequently, actual total cash received by the Company’s executives has trailed median levels of the competitive market.

AIP participants are divided into six classes based on their level within the Company. Each class is assigned a target incentive opportunity, expressed as a percent of base salary. The more senior the position, the higher the percentage of the award is allocated to corporate goals in order to reflect broader job duties. Incentive opportunities for all AIP participants, with the exception of the Principal Executive Officer, are based on the achievement of three corporate goals and two individual goals. The Principal Executive Officer is incented based solely on the Company’s achievement against corporate goals.

The table below provides annual incentive targets expressed as a percent of base salary for each of the Company’s named executive officers.

The Committee established the following three fiscal year corporate goals for the 2012 AIP: Financial, Growth and Expense Control (discussed more fully below). These metrics were selected because they drive shareholder value and reflect the Company's emphasis on profitable growth and cost control.

For 2012, the Corporate Goals were as follows:

Weighting	Goals	Performance Measures	
	Finance Goal:	Threshold	\$ 22.53 MM
40%	Operating Earnings (Calendar Year)	Target	\$ 28.16 MM
	Growth Goal:	Maximum	\$ 33.79 MM
40%	Life Insurance	Threshold	\$ 10.017MM
	Target	Target	\$ 10.494MM
	Premiums	Maximum	\$ 10.971MM
	Expense Goal:	Threshold	\$ 75.749
20%	Controllable Expenses	Target	\$ 75.007MM
		Maximum	\$ 74.264

The Financial Goal is measured by operating earnings excluding the impact of incentive compensation plans. The Growth Goal is measured by new life insurance target premiums. The Expense Control Goal is measured by controllable expenses. Financial, Growth and Expense performance measures have a threshold, target and maximum award

The AIP is designed so that no payouts are made unless the fiscal year earnings trigger is achieved. The intention of the Committee in using an earnings trigger is to prevent AIP payouts unless a specific level of earnings is achieved. For 2012, the earnings trigger of \$22.53 million of net income net of the impact of incentive compensation plans was achieved and payouts have been made under the AIP. Kansas City Life also exceeded the maximum for the Financial Goal and the Expense Goal. The Company did not meet the threshold for the Growth Goal.

The AIP is designed to award individual and Company performance that result in meeting important Company objectives. To address individual performance, the Company requires participants to set two individual goals that support the Corporate Goals. Achievement of each individual goal permits an additional award to the participant based on the class to which the participant belongs. Traditionally, the AIP is designed so that an award will only be paid for an individual goal if the goal is fully achieved.

The Named Executive Officers (excluding the Principal Executive Officer) had goals unique to their areas of responsibility. Mr. Knapp's goals related to evaluation of the potential benefits and costs associated with the purchase of derivative instruments and preparation to support unique new products. Mr. Duffy's goals were related to evaluation and selection of a new third party pension plan valuation/administration provider and development of a 5-year software blueprint. Mr. Milton's goals related to reporting on company's liquidity position, risk appetite statement and analysis/evaluation of Indexed UL policies. Mr. Krebs goals related to improved agency communications and agency recruiting.

The AIP Corporate Goals and earnings trigger are annually recommended by management and approved by the Compensation Committee. In reviewing and approving AIP goals for plan year 2013, the Committee considered current economic conditions and their continued impact on investment values. The Committee's objective is to establish AIP goals at levels that will drive superior performance, but that remain attainable, to provide the desired motivational impact to AIP participants.

For 2013, the earnings trigger will be a specified net income threshold of \$22.53 million. The three corporate goals will be as follows:

2013 Annual Incentive Plan Corporate Goals-

Weighting	Goals	Performance Measures	
	Finance Goal:	Threshold	\$ 22.53 MM
40%	Operating Earnings (Calendar Year)	Target	\$ 28.16 MM
	Growth Goal:	Maximum	\$ 33.79 MM
40%	Life Insurance	Threshold	\$ 9.895 MM
	Target	Target	\$ 10.366MM
	Premiums Expense	Maximum	\$ 10.837MM
	Goal:	Threshold	\$ 73.901MM
20%	Controllable Expenses	Target	\$ 73.169MM
		Maximum	\$ MM 72.437

Individual goals will be set by each participant under the direction of management.

Equity Compensation

The Company has determined at this time that all compensation shall be paid in cash. As a result, the Company currently offers no equity compensation or equity compensation plan to its employees. However, the use of Phantom Stock Options as described below is believed to fulfill the Compensation Philosophy goal of motivating the achievement of stockholder value creation.

Long Term Incentive. The Company provides executive officers with a Long Term Incentive Plan (“LTIP”) that annually grants Phantom Stock Options (PSOs) for three year overlapping terms. The 2010-2012 plan cycle began on January 1, 2010 and concluded on December 31, 2012. The initial face value of one PSO is the volume weighted average Company stock price from December 1, 2009 to December 31, 2009. The ending value of one PSO for this plan cycle was the volume weighted average Company stock price from December 1, 2012 to December 31, 2012. Payouts to LTIP participants are determined by the increase in the ending PSO value over the initial PSO face value plus cash dividends on Company stock accrued over the three-year cycle. Under the LTIP, dividends without interest are payable at the end of each plan cycle, to the extent that the aggregate dividends exceed any negative share price appreciation. For the 2010-2012 plan cycle that concluded on December 31, 2012, payouts were made as the stock price increased between the initial and end dates.

As in 2012, the Compensation Committee granted PSO awards for 2013 under the LTIP using a percentage of base salary approach. For each executive, the Committee reviewed data from the competitive market, as adjusted for company size, provided by its compensation consultant to determine the appropriate percentage of base salary at

which to set long-term incentive awards. For 2013, these percentages remain at 90% for the Chairman/CEO and 65% for other senior executives. To determine the number of PSOs to be granted under the LTIP, the option value of a PSO unit is calculated using an Expanded Black-Scholes valuation methodology.

Deductibility of Executive Compensation

In establishing total compensation for the executive officers, the Committee considers the effect of Section 162(m) of the Internal Revenue Code. Section 162(m) generally disallows a tax deduction for compensation over \$1 million paid to an individual in any year unless the compensation qualifies as performance-based. The Committee seeks to design and administer the Company's compensation programs in such a manner as to preserve the deductibility of compensation paid to executives. Going forward, the Company intends to continue to provide compensation to executives in a way that maintains the future deductibility of pay and awards under the annual and long-term incentive programs.

Role of Compensation Consultant

The Compensation Committee has the authority under the Compensation Committee Charter to retain outside consultants or advisors to assist the Committee. In accordance with this authority, the Committee engaged the services of Hay Group, an independent executive compensation consultant, to provide benchmarking data, analysis and recommendations on various projects as part of the Committee's comprehensive review of executive compensation programs to evaluate whether the compensation programs are aligned with the Company's compensation philosophy and strategy. The services provided by Hay Group are subject to a master consulting agreement and project-specific engagement letters and the Committee has sole authority to terminate the relationship. Under the direction of the Compensation Committee, Hay Group interacts with members of the senior management team to provide insights into Company practices and to ensure that management is fully informed with regard to emerging best practices and market trends.

Management also engages Hay Group as needed throughout the year on projects related to job-sizing and market data for non-executive positions at the Company. The aggregate cost for Hay Group's services provided to management during 2012 did not exceed \$120,000.

Conclusion

The Company and Compensation Committee are satisfied that the base salary, bonus, Annual Incentive Plan and Long Term Incentive Plan provided to the named executive officers of the Company are structured and operate to foster a performance-oriented culture and create strong alignment with the long-term best interests of the Company and its stockholders, and that compensation levels are reasonable in light of performance and industry practices.

Non-Qualified Deferred Compensation Discussion

Participation in the Kansas City Life Deferred Compensation Plan is limited to highly compensated employees. For 2012, highly compensated employees were defined as those whose compensation was \$110,000 or more in 2011. Participants are eligible to participate in the Plan up to a maximum of 100% of their base salary and/or eligible bonuses.

The plan participant selects funds from a variety of investment choices provided by the plan. Selections may be changed daily. The interest rates and earnings vary for the participants depending on their fund selections and allocations plus the performance of each fund.

Pension Benefits Discussion

The registrant offers three plans that provide for payments or other benefits at, following, or in connection with retirement. These include the Kansas City Life Insurance Company Cash Balance Pension Plan (the "Qualified Plan"), Kansas City Life Excess Benefit Plan (the "Excess Benefit Plan") and the Kansas City Life Employee Medical Plan (the "Medical Plan") collectively, "the Plans":

The Qualified Plan is open to employees who are at least 21 years of age who have completed one year of service with the Registrant or a participating subsidiary. The "normal retirement" benefit under the plan is available at age 65. The Qualified Plan has two "early retirement" provisions based on when the participant joined the plan. For participants who joined the plan on or after January 1, 1982, the participant will be able to receive benefits at or after age 55 as long as the participant's age plus their years of service after age 25 are equal to or greater than 75. For participants who joined the plan prior to January 1, 1982, the participant will be able to receive benefits under the plan at age 55, if the participant was a member of the plan for at least fifteen years, or at age 60 if the participant was a member of the plan for at least 10 years. Mr. Bixby and Mr. Duffy would be eligible for the "early retirement" benefit under the Qualified Plan.

The Qualified Plan was frozen as of December 31, 2010, and no further contributions will be made after that date. Effective January 1, 2011, the normal retirement benefit under the Qualified Plan is the greater of the participant's Cash Balance Account or the actuarial equivalent of the participant's Prior Plan Benefit or Grandfathered Benefit. The Cash Balance Account is credited with interest each year. The normal form of payment is a life annuity if single or a qualified joint and survivor annuity if married. Participants also have the option of electing an actuarial equivalent form of payment, including a lump sum. The early retirement benefit is the accrued benefit at severance actuarially reduced for early commencement. The Prior Plan Benefit and the Grandfathered Benefit are reduced by the Prior Plan reduction factors. The compensation used in determining the accrued benefit is base pay excluding bonuses, overtime pay, severance pay or any other extraordinary payments.

The Excess Benefit Plan was also frozen as of December 31, 2010, and no further contributions will be made after that date. It is similar in operational design to the Qualified Plan discussed above, with the exception that the Excess Benefit Plan does not set IRC Section 401(a)(17) compensation limits and IRC Section 415 benefit limitations. The Excess Benefit Plan is designed to provide the same essential pension benefits as those under the Qualified Plan, with the participant accepting that the plan does not provide the protections and benefits provided by IRC Section 401(a)(17) and IRC Section 415. Mr. Bixby would be eligible for the "early retirement" benefit under the Excess Benefit Plan.

The Medical Plan provides benefits to retired employees and their dependents who satisfy eligibility requirements if the retired employee continues to pay the applicable premium for medical benefits. Premiums for retired employees and their qualifying dependents may vary based on years of service and the age at which the employee retires. Active full-time employees hired prior to January 1, 2000 who become eligible to retire must continuously participate in the Medical Plan during the last sixty (60) months of employment immediately prior to retirement to be eligible for Retiree Medical Plan coverage. Active full-time employees hired on or after January 1, 2000 but prior to January 1, 2005 who become eligible to retire must have a minimum of one hundred twenty (120) months of service and continuously participate in the Medical Plan during the last sixty (60) months of employment immediately prior to retirement to be eligible for Retiree Medical Plan coverage. Employees hired or rehired on or after January 1, 2005 are not eligible to participate in the Retiree Medical Plan.

The Plans are designed to provide some retirement benefits for all eligible Company employees.

A discussion regarding the assumptions upon which the present value of accumulated benefits for all of the Plans can be found in Item 7, Management's Discussion and Analysis, and in Note 12, Pensions and Other Postretirement Benefits, to the Consolidated Financial Statements found in the Company's Form 10-K.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Assuming the employment of the named executive officers were to be terminated because of a reduction in staff, each as of December 31, 2012, the following individuals would be entitled to payments in the amounts set forth opposite to their name in the below table. As provided in the Company's severance plan applicable to senior officers, they would each receive one month's pay for each year of service up to a maximum of one year.

			Cash Severance
R. Philip Bixby	\$ 61,500	per month for 12 months	\$ 738,000
Tracy W. Knapp	\$ 25,405	per month for 12 months	\$ 304,860
Charles R. Duffy, Jr.	\$ 25,650	per month for 12 months	\$ 307,800
Mark A. Milton	\$ 25,650	per month for 12 months	\$ 307,800
Donald E. Krebs	\$ 23,750	per month for 12 months	\$ 285,000

No severance payment is provided for any of the executive officers in the event of death, disability or retirement.

No payments are due in connection with a severance by reduction in staff unless the executive executes a general release and waiver of claims against the Company following procedures set out by the Company.

A change in control does not affect the amount or timing of cash severance payments, nor are there any other payments for change in control.

Assuming the employment of the named executive officers were to be terminated due to death, disability or retirement as of December 31, 2012 their year end payout as shown in the Summary Compensation Table for the Annual Incentive Plan and the Long Term Incentive Plan would not change. Upon all other terminations, the amounts in the Annual Incentive Plan and Long Term Incentive Plan would be forfeited.

Payments upon termination are also disclosed in the Non-Qualified Deferred Compensation and Pension Benefit Tables in the two immediately preceding sections of this Proxy Statement.

RISK MANAGEMENT

Board Oversight of Risk

In order to better manage operations of the Company on a regular basis, the Board has created an Executive Committee. The Executive Committee is comprised of six directors, three of whom are currently executive officers of the Company, one of whom retired as an executive officer of the Company on October 31, 2010, and two of whom are independent directors. The Committee is authorized to exercise all authority of the Board related to management, general control, and supervision of the business of the Company. This authority includes the oversight of operational risk related to the Company's business, risks associated with the Company's investment decisions, and underwriting risk associated with insurance products offered by the Company and its subsidiaries. The Executive Committee meets regularly during the course of the year, and met twelve times in 2012. This Committee is well-positioned to understand daily events and circumstances impacting the Company's operations, Company policies and procedures that address and mitigate risks associated with the Company's business, and to advise the full Board on an ongoing basis regarding operational, investment, and underwriting risks faced by the Company.

In addition, the Company has a Risk Oversight Committee whose members include the Senior Officers of the Company and the Internal Auditor. The Risk Oversight Committee reports at least quarterly to the full Board and to the Board's Audit Committee. The Committee's purpose is set out in the Risk Oversight Policy that supports a strong risk management culture and informed executive team and Board of Directors.

Risk Related to Compensation Policies and Practices

The Registrant sells life insurance and annuity contracts to the public. Like other companies in this industry, the compensation policies and practices of the Registrant create an incentive for employees and sales personnel to take risks in order to grow the Company's business.

The design philosophy of the compensation system for all employees is similar to the Compensation Philosophy discussed for executive officers earlier in this document. The Company's guiding philosophy is to establish a compensation program that will enable the attraction, motivation and retention of employees at all levels. The compensation program is designed to be competitive with other comparable employers.

The compensation system is structured so that only two areas have a compensation structure that significantly varies from the remainder of the Company. The Company also has two areas that carry a significant portion of the Company's risk profile.

The two areas within the Company that have unique compensation structures are the insurance agency force plus sales management and the group sales department.

The Registrant distributes its products through insurance agents who are independent contractors. These agents are paid solely on a commission basis. These agents are supervised by regional sales management personnel who receive a base salary plus a bonus based on sales performance of their respective regions. These individuals report to the Senior Vice President, Sales and Marketing. For its group insurance business, the Company utilizes independent insurance agents paid on a commission only basis and internal sales management who receive a base salary plus a bonus based on sales in their area. These individuals report to the Vice President, Group.

The commissions paid on all Company products are designed by the actuarial department based on an analysis of a multitude of risk factors associated with the sale of the product. The actuarial department will evaluate and measure mortality risk, marketplace risk, financial risk, operational risk, political risk, and other measurable risks that could impact the profitability and performance of the products offered by the Company. After measuring these risks, and considering values needed to provide long term value to customers and corporate profitability, the actuarial department will set commission rates for each product. Commission rates are set as a percentage of premium for each product and are developed using regulatory guidelines from the states. The Company monitors the performance of each product. The Company also files quarterly financial reports analyzing overall financial performance and performance by product type in each state in which it does business. In the event that the commission rates are excessive, the Company will adjust rates downwards. In the event they are too low, the Company will raise the rates.

The two areas bearing significant portions of the Company's risk profile are the actuarial department, reporting to the Senior Vice President and Actuary, and the investment management departments reporting to the Principal Financial Officer. The employees in both groups are salaried employees, with no specific bonus related to the performance of the risks they manage. Many of these employees are eligible to participate in the Annual Incentive Plan ("AIP") for the Company detailed earlier in this document. The AIP is designed so that no award is available unless the Company meets an earnings trigger. Additionally, the AIP sets goals for growth balanced by quantifiable and measurable goals for increasing operating earnings and controlling expenses. The Compensation Committee actively reviews and approves each year's goals and reviews performance against those established goals.

As noted above, the Registrant also has a Risk Oversight Committee that evaluates all risk, including risks related to compensation practices and policies.

The Audit Committee charter adopted by the Board of Directors complies with all applicable provisions of the NASDAQ Capital Market listing standards. Each of the members of the Audit Committee meets the independence and experience requirements of the NASDAQ Capital Market and the independence requirements of the Sarbanes-Oxley Act of 2002. During fiscal year 2012, the Audit Committee met five times. In addition, the Audit Committee Chair, as representative of the Audit Committee, and one or more of the Audit Committee members, discussed the interim financial information contained in each quarterly earnings announcement with the Chief Accounting Officer, the Chief Financial Officer and the Independent Registered Public Accounting Firm (Auditors) prior to public release.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the Auditors the written disclosures and the letter describing all relationships between the Auditors and the Company that might bear on the Auditors' independence consistent with Public Company Accounting Oversight Board Rule 3526, "Communications with Audit Committees Concerning Independence," and discussed with the Auditors any relationships that may impact their objectivity and independence and satisfied itself as to the Auditors' independence. The Audit Committee also discussed with Management, the internal auditors and the Auditors, with and without Management present, the quality and adequacy of the Company's internal controls and the internal audit function's organization, responsibilities and staffing. The Audit Committee reviewed with both the Auditors and the internal auditors their audit plans, audit scope and identification of audit risks.

The Audit Committee discussed and reviewed with the Auditors all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, ("Communication with Audit Committees") and discussed and reviewed the results of the Auditors' examination of the financial statements. The Audit Committee also discussed the results of the internal audit examinations. In accordance with its charter, the Audit Committee pre-approves all non-audit services provided by the Auditors.

The Audit Committee reviewed and discussed the audited financial statements for the Company as of and for the fiscal year ended December 31, 2012, with Management and the Auditors. Management has the responsibility for the preparation of the Company's financial statements and the Auditors have the responsibility for the examination of those statements.

Based on the above-mentioned review and discussion with Management and the Auditors, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2012, for filing with the Securities and Exchange Commission.

After reviewing the services provided by the Auditors, the Audit Committee, in accordance with its charter, authorized the appointment of KPMG LLP as Auditors for 2013.
