ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

=====

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In the opinion of management, the accompanying unaudited Consolidated Condensed Financial Statements include all adjustments (consisting of normal recurring accruals or adjustments only) necessary to present fairly the financial position at March 31, 2006, and the results of operations and the cash flows for all periods presented. The results of operations for the interim periods are not necessarily indicative of the results to be obtained in any future interim period or for the entire year.

For a summary of significant accounting policies (which have not changed from December 31, 2005, except for the adoption of Statement of Financial Accounting Standards ("SFAS") 123(R) on January 1, 2006 as explained in Note 3 to Notes to Consolidated Condensed Financial Statements (Unaudited)) and additional financial information, see the Company's Annual Report on Form 10-K for the year ended December 31, 2005, including the consolidated financial statements and notes thereto which should be read in conjunction with these financial statements.

The accompanying unaudited interim financial statements have been prepared in accordance with instructions to Form 10-Q and, therefore, do not include all information and footnotes required to be in conformity with accounting principles generally accepted in the United States of America.

2. EARNINGS PER SHARE

The following table sets forth the calculation of earnings (loss) per share on a basic and diluted basis:

Quarters Ended March 31	2006	2005
-----	-----	-----
Basic Earnings (Loss) Per Share:		

Net Income (Loss)	\$ (1,713,000)	\$ 61,000
	=====	=====
Weighted Average Shares Outstanding	3,976,693	3,912,449
	=====	=====

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

Basic Earnings (Loss) Per Share	\$.(43)	\$.02
	=====	=====
Diluted Earnings (Loss) Per Share:		

Net Income (Loss)	\$ (1,713,000)	\$ 61,000
	=====	=====
Weighted Average and Dilutive Shares:		
Weighted average shares outstanding	3,976,693	3,912,449
Dilutive shares	-	221,819
	-----	-----
	3,976,693	4,134,268
	=====	=====
Diluted Earnings (Loss) Per Share	\$.(43)	\$.01
	=====	=====

Basic earnings (loss) per share are determined by dividing the Company's net income (loss) by the weighted average shares outstanding. Diluted earnings (loss) per share include any dilutive effects of outstanding stock options.

4

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

=====

Excluded from the calculation of earnings (loss) per share are stock options to purchase 473,000 and 288,000 common shares in the quarters ended March 31, 2006 and 2005, as their inclusion would have been antidilutive.

3. STOCK-BASED COMPENSATION

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised 2004), Share-Based Payments ("SFAS 123 (R)"), which replaces SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion ("APB") No. 25, Accounting for Stock Issued to Employees. SFAS 123 (R) requires all share-based payments to employees including grants of employee stock options, be measured at fair value and expensed in the consolidated statement of operations over the service period (generally the vesting period). Upon adoption, the Company transitioned to SFAS 123 (R) using the modified prospective application, whereby compensation cost is only recognized in the consolidated statements of operations beginning with the first period that SFAS 123 (R) is effective and thereafter, with prior periods' stock-based compensation still presented on a pro forma basis. Under the modified prospective approach, the provisions of SFAS 123 (R) are to be applied to new employee awards and to employee awards modified, repurchased, or cancelled after the required effective date. Additionally, compensation cost for the portion of employee awards for which the requisite service has not been rendered that are outstanding as of the required effective date shall be recognized as the requisite service is rendered on or after the required effective date. The compensation cost for that portion of employee awards shall be based on the grant-date fair value of those awards as calculated for either recognition or pro-forma disclosures under SFAS 123. The Company continues to use the Black-Scholes option valuation model to value stock options. As a result of the adoption of SFAS 123 (R), the Company recognized a pre-tax charge of \$55,000 (included in selling, general and administrative expenses), \$35,000 after-tax

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

and \$.01 per share on a diluted basis in the quarter ended March 31, 2006 associated with the expensing of stock options. Employee stock option compensation expense in 2006 includes the estimated fair value of options granted, amortized on a straight-line basis over the requisite service period for the entire portion of the award. No stock options were granted or vested during the three months ended March 31, 2005.

Reported and pro forma net income (loss) and earnings (loss) per share are as follows:

Quarter Ended March 31	2006

Pre-tax stock-based compensation expense assuming fair value	
method applied to all awards	\$ 55,000
	=====
Stock-based compensation expense, net of tax	\$ 35,000
	=====
Net income (loss), as reported	\$ (1,713,000)
Fair value impact of employee stock compensation not reported	
in net income, net of tax	-

Pro forma net income (loss)	\$ (1,713,000)
	=====
Basic earnings (loss) per share:	
As reported	\$. (43)
Pro forma	. (43)
Diluted earnings (loss) per share:	
As reported	\$. (43)
Pro forma	. (43)

The fair value of each option grant was estimated on the date of the grant using the Black-Scholes option-pricing model with the assumptions in the table below. During 2006, the Company took into consideration guidance under SFAS 123 (R) and SEC Staff Accounting Bulletin No. 107 (SAB 107) when reviewing and updating assumptions. The expected volatility is based upon historical volatility of our stock and other contributing factors. The expected term is based upon observation of actual time elapsed between date of grant and exercise of options for all employees. Previously such assumptions were determined based on historical data.

Quarter Ended March 31	2006

Expected volatility.....	39%
Risk-free interest rate.....	4%
Expected lives (years).....	4

At March 31, 2006 the Company had 629,973 shares of common stock reserved for its stock option plans.

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

=====

The following is a summary of the changes in outstanding options for the quarter

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

ended March 31, 2006:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Intrinsic
	-----	-----	-----	-----
Outstanding at January 1, 2006	427,770	\$ 3.56		
Granted	67,500	3.87		
Exercised	(75)	1.92		
Forfeited or expired	(22,544)	3.68		

Outstanding at March 31, 2006	472,651	3.60	3.0	
	=====			
Exercisable at March 31, 2006	247,203	3.36	1.5	
	=====			

The weighted average grant date fair values of share options granted during the first quarter of 2006 was \$.49. There were no options granted during the first quarter of 2005. The total intrinsic values of share options exercised during the first quarters of 2006 and 2005 were \$ - and \$68,000. Cash received from option exercises during the first quarter of 2006 and 2005 totaled \$144 and \$92,000. These cash receipts are included in net proceeds from issuance of equity securities.

The following is a summary of the changes in non-vested shares for the quarter ended March 31, 2006:

As of March 31, 2006, there was \$191,000 of unrecognized compensation cost related to non-vested awards granted under the option plans, which is expected to be recognized over a weighted-average period of one year. The total fair values of shares vested during the first quarter of 2006 were \$50,000. No shares vested during the first quarter of 2005.

Option Plan

During the quarter ended March 31, 2006, the Company granted an aggregate of 67,500 stock options to 48 individuals pursuant to the Employees', Officers', Directors' Stock Option Plan, as previously amended and restated (the "Option Plan"). These options have an exercise price of \$3.87 per share (fair market value at date of grant), vest over a four-year period and are exercisable over a five-year period. During the quarter ended March 31, 2006, a total of 22,544 stock options previously granted pursuant to the Option Plan were canceled at exercise prices ranging from \$1.92 to \$13.02 per share. During the quarter ended March 31, 2006, 75 stock options previously granted pursuant to the Option Plan were exercised at an exercise price of \$1.92 per share.

Director Option Plan

During the quarter ended March 31, 2006, no stock options were granted by the Company pursuant to the 2000 Nonemployee Director Stock Option Plan, as amended.

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

4. SEVERANCE COSTS

During the quarter ended March 31, 2006, the Company accrued an aggregate of \$655,000 for severance costs to three individuals including severance to a former executive officer. The severance to such former executive officer included \$482,000 which will be paid over a two year period following the termination of the former executive officer's employment. The \$655,000 is included in selling, general and administrative costs in the accompanying Consolidated Condensed Statements of Operations (Unaudited) for the quarter ended March 31, 2006.

5. LONG-TERM DEBT

Line of Credit

Borrowings under the Company's \$100 million credit facility, as amended (the "Credit Facility"), bear interest at one of five pricing levels dependent on the Company's debt service coverage ratio at the quarterly pricing date (as defined), and are secured by all of the Company's assets including accounts receivable, inventories and equipment. At the first pricing level, at the Company's option, the rate will be either (a) .25% below the greater of the Federal funds rate plus .5% and prime or (b) 1.75% over LIBOR. At the second level, at the Company's option, the rate will be either (a) the greater of the Federal funds rate plus .5% and prime or (b) 2.00% over LIBOR. At the third level, at the Company's option, the rate will be either (a) .25% over the greater of the Federal funds rate plus .5% and prime or (b) 2.25% over LIBOR. At the fourth pricing level, at the Company's option, the rate will be either (a) .5% over the greater of the Federal funds rate plus .5% and prime or (b) 2.50% over LIBOR. At the fifth pricing level, at the Company's option, the rate will be either (a) .75% over the greater of the Federal funds rate plus .5% and prime or (b) 2.75% over LIBOR. The amounts that the Company may borrow under the Credit Facility are based upon specified percentages of the Company's eligible accounts receivable and inventories (as defined). The Company is required to comply with certain affirmative and negative covenants and certain financial ratios. The covenants, among other things, place limitations and restrictions on the Company's borrowings, investments, capital expenditures and transactions with affiliates; prohibit dividends and acquisitions; and prohibit stock redemptions in excess of an aggregate cost of \$2,000,000 during the term of the Credit Facility. The Credit Facility requires the Company to maintain certain minimum levels of tangible net worth throughout the term of the credit agreement as well as a minimum debt service coverage ratio and a minimum inventory turnover level, each tested on a quarterly basis. In May 2006, the Company's credit facility was amended subsequent to but effective as of the balance sheet date whereby the debt service coverage ratio test for the first quarter of 2006 was eliminated and the minimum tangible net worth level was reduced to \$21,000,000. The Company was in compliance with these amended and all other covenants under the Credit Facility at March 31, 2006. The Company anticipates that it will need additional amendments in the future. At March 31, 2006, outstanding borrowings under the Company's credit facility aggregated \$93,760,000 compared to \$88,900,000 at December 31, 2005.

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

6. BUSINESS SEGMENT AND GEOGRAPHIC INFORMATION

Management believes that the Company is operating in a single business segment, distribution of electronic components, in accordance with the rules of Statement of Financial Accounting Standards No. 131 ("Disclosure About Segments of an Enterprise and Related Information").

Sales by geographic areas are as follows:

Quarters Ended March 31	2006	2005
Americas (1)	\$107,379,000	\$ 85,640,000
Europe	3,312,000	4,489,000
Asia/Pacific	7,621,000	4,180,000
	-----	-----
	\$118,312,000	\$ 94,309,000
	=====	=====

(1) Includes sales in the United States and Puerto Rico of \$101,314,000 and \$81,350,000 for the quarters ended March 31, 2006 and 2005.

Long-lived assets (property, plant and equipment - net) are located substantially in the Americas and include long-lived assets in the United States of \$8,536,000 and \$8,176,000 at March 31, 2006 and December 31, 2005.

8

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

Management's Discussion and Analysis of Financial Condition and Results of Operations

All American Semiconductor, Inc. and its subsidiaries (collectively, the "Company"; sometimes referred to herein as "Registrant") is a distributor of electronic components manufactured by others. The Company distributes a full range of semiconductors (active components), including transistors, diodes, memory devices, microprocessors, microcontrollers, other integrated circuits, active matrix displays and various board-level products, as well as passive/electromechanical components. Passive products include capacitors, resistors and inductors. Electromechanical products include power supplies, cable, switches, connectors, filters and sockets. These products are sold primarily to original equipment manufacturers in a diverse and growing range of industries, including manufacturers of computers and computer-related products; office and home office equipment; cellular and portable products; wireless products; networking, satellite and other communications products; Internet infrastructure equipment and appliances; automobiles and automotive subsystems; consumer goods; voting and gaming machines; point-of-sale equipment; robotics and industrial equipment; defense and aerospace equipment; home entertainment; security and surveillance equipment; and medical instrumentation. The Company also sells products to contract electronics manufacturers, or electronics manufacturing services, or EMS, providers who manufacture products for companies in all electronics industry segments. Through the Aved Memory Products division of its subsidiary, Aved Industries, Inc., the Company also designs and has

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

manufactured by third parties under the label of its subsidiary's division, certain memory modules which are sold to original equipment manufacturers.

Overview

Industry conditions have been improving since the first quarter of 2005 and have continued to improve through the first quarter of 2006. We expect that the improved conditions may continue throughout 2006. Our backlog of customer orders, which was \$69 million at December 31, 2004, had increased significantly to \$89 million by December 31, 2005. As of April 30, 2006, our backlog further increased to \$99 million.

Sales for the first quarter of 2006 represented our fourth consecutive quarterly increase in sales. While we expect that the future growth in global markets will include growth in the Americas the Company believes that growth rates will be higher in Asian markets and possibly European markets as well. To further support the continuing trend for business to transfer outside of North America, as well as to take advantage of developments in industry trends towards consolidation, the Company has expanded and may continue to expand further. The Company has operations in Korea, Malaysia and China to support Asian markets. The Company also has operations in the United Kingdom and Hungary to support European markets. There can be no assurance that the Company will achieve any growth in any particular market in the future.

Critical Accounting Policies and Estimates

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the unaudited Consolidated Condensed Financial Statements and accompanying notes. Estimates are used for, but not limited to, the accounting for the allowance for doubtful accounts, inventories, income taxes, stock-based compensation, a postretirement benefit obligation and loss contingencies. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results could differ from these estimates under different assumptions or conditions.

The Company believes there have been no significant changes, during the quarter ended March 31, 2006, to the items disclosed as critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2005 except as follows:

9

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

=====

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised 2004), Share-Based Payments ("SFAS 123(R)"), which replaces SFAS No. 123, Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion ("APB") No. 25, Accounting for Stock Issued to Employees. SFAS 123 (R) requires all share-based payments to employees including grants of employee stock options, be measured at fair value and expensed in the consolidated statement of operations over the service period (generally the vesting period). Upon adoption, the Company transitioned to SFAS (R) using the modified prospective application, whereby compensation cost is only recognized in the consolidated

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

statements of operations beginning with the first period that SFAS 123 (R) is effective and thereafter, with prior periods' stock-based compensation still presented on a pro forma basis. The Company continues to use the Black-Scholes option valuation model to value stock options. See Note 3 to Notes to Consolidated Condensed Financial Statements for required disclosures under SFAS 123 (R).

Results of Operations

Net sales for the first quarter of 2006 were \$118.3 million, an increase of 25.5% from net sales of \$94.3 million for the same period of 2005. The increase in sales reflects improvements in industry conditions which began during the second quarter of 2005 and continued into the first quarter of 2006, opportunities created from the ongoing consolidation in our industry and gains resulting from the Company's growth strategies. Management believes that industry conditions may remain positive throughout 2006, however management is concerned that continuing issues relating to the conversion onto a new enterprise resource planning (ERP) system implemented in February 2006 may inhibit the Company's ability to participate in the industry growth for the next few quarters.

Gross profit was \$18.2 million for the first quarter of 2006 compared to \$15.8 million for the first quarter of 2005. The increase in gross profit was due to the increase in sales which more than offset the decline in gross profit margins. Gross profit margins as a percentage of net sales were 15.4% for the first quarter of 2006 compared to 16.7% for the first quarter of 2005. The significant decrease in gross profit margins reflects issues relating to the conversion onto a new enterprise resource planning (ERP) system as well as the continued impact from sales to accounts that require aggressive pricing.

Selling, general and administrative expenses ("SG&A") was \$19.3 million for the first quarter of 2006 compared to \$14.6 million for the first quarter of 2005. SG&A for the first quarter of 2006 reflects increases in variable expenses of \$700,000 over the first quarter of 2005. This increase in variable expenses reflects increases in commission rates resulting from pressure in labor markets. In addition to the increases in variable expenses, fixed expenses increased \$4.0 million for the first quarter of 2006 compared to the same period of 2005. The increase in fixed expenses relates primarily to increases in compensation expense, bad debt adjustments and write-offs, consulting fees and maintenance and repairs during the first quarter of 2006 as compared to the same period of 2005. As a result of industry consolidation and improved conditions within the industry, during 2005 and the first quarter of 2006 the Company strategically increased its personnel in North America, Europe and Asia. The Company may expand further including personnel additions, to enhance its position in order to take advantage of industry consolidation and the continuing trends for business to transfer outside of North America. As a result of severe productivity losses caused by the new ERP system, the Company expects to add people across all departments to manage both operations and data flow. Management believes that these productivity losses are temporary and productivity gains will occur as improvements to the new ERP system are obtained in the second half of 2006 and into 2007. For the first quarter of 2006, the increase in fixed expenses was partially offset by a reduction in other expenses including occupancy costs. In addition, in connection with the new ERP system which was implemented in February of 2006, SG&A increased by \$69,000 representing the non-cash depreciation and amortization of the cost of the new ERP system over a seven year period. Additionally, SG&A increased as a result of consulting fees of \$497,000 associated with the ERP conversion. Furthermore the Company accrued \$655,000 for severance pay and expensed

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

=====

\$806,000 of bad-debt adjustments and write-offs. The Company anticipates additional expenses for maintenance and further development required in connection with the new ERP system. Quarterly SG&A will increase by \$226,000 per quarter representing non-cash depreciation and amortization of the cost of the new ERP system over a seven year period that is in addition to the two months increase reflected in the first quarter of 2006. Due to the foregoing, the Company expects that SG&A will increase in future periods.

SG&A as a percentage of net sales was 16.3% for the quarter ended March 31, 2006 compared to 15.5% for the same period of 2005. The increase was due to the increase in SG&A in absolute dollars described above which increase more than offset the impact from the increase in sales.

For the first quarter of 2006 the Company had a loss from operations of \$(1.1) million compared to income from operations of \$1.1 million for the same period of 2005. The decrease in income from operations for the quarter was primarily due to the significant decline in gross profit margins, the issues relating to the implementation of the new ERP system, including the impact on gross profit margins and additional consulting fees, significant accruals for severance pay, bad debt adjustments and write-offs and the other increases in SG&A as discussed previously.

Interest expense increased to \$1.6 million for the first quarter of 2006 compared to \$1.0 million for the same period of 2005. The increase in interest expense resulted from increases in average borrowings and increases in overall interest rates. Our average borrowings increased by \$22.4 million for the first quarter of 2006 compared to the first quarter of 2005 primarily as a result of increases in our accounts receivable and inventory levels. Accounts receivable increased as a result of increases in sales towards the latter part of 2005 and significant increases in sales during the first quarter of 2006. Accounts receivable also increased in connection with competitive pressures to provide extended payment terms to strategic customers and a slow down in our collections resulting from issues relating to the implementation of our new ERP system. Our inventory increased to support the increased levels of sales beginning during the second quarter of 2005 and the continued sequential growth in sales during the balance of 2005. An increase in supplier delivery times (or lead-times) has also caused the Company to increase inventory levels in order to be able to meet customer requirements. As a result of increases in the prime and LIBOR interest rates, the Company's overall interest rates increased despite the positive impact from the improved pricing structure under its credit facility. The Company's rate improved from the then first pricing level under its credit facility during the first quarter of 2005 to the third pricing level under the current pricing structure. This improvement, which aggregated 50 basis points, resulted from the change in the pricing structure under the August 8, 2005 amendment to the credit facility. The positive impact on interest expense from the improvement in the rate associated with the change in pricing structure was more than offset by the adverse effect from interest rate hikes by the Federal Reserve Board. As and to the extent the Federal Reserve continues to increase interest rates as anticipated, interest expense will increase. Additionally, the pricing level achieved by the Company in 2005 may not be attainable in the near future which may cause an increase in the Company's cost of borrowing. To the extent that the Company continues or increases its current level of borrowing, interest expense will increase in future periods. Interest expense for the first quarter of 2006 included non-cash amortization of deferred financing fees of \$22,000. Interest expense will reflect an aggregate of \$1.2 million of deferred financing fees over the term of the amended credit facility. See "Liquidity and Capital Resources" below and Note 5 to Notes to Consolidated Condensed Financial

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

Statements (Unaudited).

The Company had a net loss of \$(1.7) million or \$(.43) per share (diluted) for the quarter ended March 31, 2006, compared to net income of \$61,000, or \$.01 per share (diluted) for first quarter of 2005.

11

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

Liquidity and Capital Resources

Working capital at March 31, 2006 increased to \$106.3 million from working capital of \$103.5 million at December 31, 2005. The current ratio was 2.57:1 at March 31, 2006 compared to 2.76:1 at December 31, 2005. The increase in working capital was primarily due to increases in accounts receivable and inventory which were partially offset by an increase in accounts payable. Accounts receivable was \$84.7 million at March 31, 2006 compared to \$82.2 million at December 31, 2005. The increase in accounts receivable reflects an increased level of sales towards the latter part of the first quarter of 2006 compared to the latter part of the fourth quarter of 2005. Accounts receivable also increased in connection with competitive pressures to provide extended payment terms to strategic customers and a slow down in our collections resulting from issues relating to the implementation of our new ERP system. Inventory levels were \$83.1 million at March 31, 2006 compared to \$74.6 million at December 31, 2005. Inventory increased to support the increased levels of sales beginning during the second quarter of 2005 and the continued sequential growth in sales during the balance of 2005. An increase in supplier delivery times (or lead-times) has also caused the Company to increase inventory levels in order to be able to meet customer requirements. Accounts payable increased to \$59.7 million at March 31, 2006 from \$51.6 million at December 31, 2005 in connection with an increase in the level of purchases made during the latter part of the first quarter of 2006 over the same period of the fourth quarter of 2005.

At March 31, 2006, the Company had subordinated debt with various maturities through 2015 which aggregated \$698,000, including the current portion of such debt, and had an unfunded postretirement benefit obligation of \$1.0 million. See the table below.

Borrowings under the Company's \$100 million credit facility, as amended (the "Credit Facility"), bear interest at one of five pricing levels dependent on the Company's debt service coverage ratio at the quarterly pricing date (as defined), and are secured by all of the Company's assets including accounts receivable, inventories and equipment. At the first pricing level, at the Company's option, the rate will be either (a) .25% below the greater of the Federal funds rate plus .5% and prime or (b) 1.75% over LIBOR. At the second level, at the Company's option, the rate will be either (a) the greater of the Federal funds rate plus .5% and prime or (b) 2.00% over LIBOR. At the third level, at the Company's option, the rate will be either (a) .25% over the greater of the Federal funds rate plus .5% and prime or (b) 2.25% over LIBOR. At the fourth pricing level, at the Company's option, the rate will be either (a) .5% over the greater of the Federal funds rate plus .5% and prime or (b) 2.50% over LIBOR. At the fifth pricing level, at the Company's option, the rate will be either (a) .75% over the greater of the Federal funds rate plus .5% and prime or (b) 2.75% over LIBOR. The amounts that the Company may borrow under the Credit Facility are based upon specified percentages of the Company's eligible accounts receivable and inventories (as defined). The Company is required to comply with certain affirmative and negative covenants and certain financial

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

ratios. The covenants, among other things, place limitations and restrictions on the Company's borrowings, investments, capital expenditures and transactions with affiliates; prohibit dividends and acquisitions; and prohibit stock redemptions in excess of an aggregate cost of \$2.0 million during the term of the Credit Facility. The Credit Facility requires the Company to maintain certain minimum levels of tangible net worth throughout the term of the credit agreement as well as a minimum debt service coverage ratio and a minimum inventory turnover level, each tested on a quarterly basis. In May 2006, the Company's credit facility was amended subsequent to but effective as of the balance sheet date whereby the debt service coverage ratio test for the first quarter of 2006 was eliminated and the minimum tangible net worth level was reduced to \$21.0 million. The Company was in compliance with these amended and all other covenants under the Credit Facility at March 31, 2006. The Company anticipates that it will need additional amendments in the future. At March 31, 2006, outstanding borrowings under the Company's credit facility aggregated \$93.8 million compared to \$88.9 million at December 31, 2005. See Note 5 to Notes to Consolidated Condensed Financial Statements (Unaudited).

12

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

Long-term debt, operating leases and other long-term obligations as of March 31, 2006 mature as follows:

Obligations	Total	Payments Due by Period		
		Less than 1 year	1-3 years	4-5 years
Long-term debt (1)	\$ 94,457,000	\$ 70,000	\$ 157,000	\$ 93,937,000
Capital leases	924,000	418,000	506,000	-
Operating leases	12,800,000	3,000,000	4,500,000	3,400,000
Other long-term obligations (2) ...	998,000	-	-	-
Total obligations	\$109,179,000	\$ 3,488,000	\$ 5,163,000	\$ 97,337,000

-
- (1) Reflected on the Company's Consolidated Condensed Balance Sheet (Unaudited) as of March 31, 2006 and includes \$93,760,000 under the Company's Credit Facility which matures on May 31, 2009.
 - (2) Reflected on the Company's Consolidated Condensed Balance Sheet (Unaudited) as of March 31, 2006 and represents a postretirement benefit obligation.

In February 2006, the Company implemented a new enterprise resource planning (ERP) system. The aggregate cost of this new ERP system, including costs of training and implementation but excluding capitalized payroll costs, is approximately \$8.5 million. At March 31, 2006, \$6.2 million associated with this ERP system was reflected in property, plant and equipment - net on the Consolidated Condensed Balance Sheet. In July 2004, the Company financed \$1.1 million of its ERP costs with a third party finance company under an installment payment arrangement. The effective interest rate under this agreement was 1.9% per annum. The Company also financed an additional \$1.8 million of the aggregate

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

cost of the ERP system with another third party finance company, which financing arrangement has maturities through November 2008 and has effective interest rates ranging from 1.6% to 2.2% per annum. Of this \$1.8 million financing, \$565,000 is classified as operating leases and \$1.3 million is classified as capital leases.

At March 31, 2006, the outstanding obligation under these capital leases aggregating \$1.3 million was \$924,000.

The Company currently expects that its cash flows from operations and additional borrowings available under its Credit Facility will be sufficient to meet the Company's current financial requirements over the next twelve months, including obligations related to the current portion of long-term debt and capital and operating leases. However, the Company continues to explore additional sources of financing in order to support its growth.

Off-Balance Sheet Arrangements

The Company guaranteed the future payment to a third party of certain leases which were previously pledged to the Company as collateral for the payment of outstanding receivables which were owed by a customer. This guaranty was made when the leases were sold to this third party who paid to the Company in 2001 the net present value of the future payments of the leases. The guaranty expired during the quarter ended March 31, 2006.

Forward-Looking Statements; Business Risks and Uncertainties

This Form 10-Q contains forward-looking statements (within the meaning of Section 21E. of the Securities Exchange Act of 1934, as amended), representing the Company's current expectations, beliefs and intentions relating to the Company's or industry's future performance, market conditions, its future operating results, investments in the growth of its business, bookings, backlogs, sales, products, services and markets (including expansion of operations in Asia and Europe), trends or developments including relating to industry

13

ALL AMERICAN SEMICONDUCTOR, INC. AND SUBSIDIARIES

=====

conditions or industry consolidation or future growth in global markets, expected capital expenditures (including for the new ERP system) and/or future events relating to or affecting the Company and its business and operations. If and when used in this Form 10-Q, the words "believes," "estimates," "plans," "expects," "attempts," "intends," "anticipates," "could," "may," "explore" and similar expressions as they relate to the Company or its management are intended to identify forward-looking statements. The actual performance, results or achievements of the Company could differ materially from those indicated by the forward-looking statements because of various risks and uncertainties. Factors that could adversely affect the Company's future results, performance or achievements include, without limitation: the level of strength of industry and market conditions and business activity being less than we believe or weakening; a tightening by customers of their inventory levels; a slowdown in sales; the continuance of a trend for electronics manufacturing to move offshore; the level of effectiveness of the Company's business, investment and marketing strategies, including those outside the Americas and particularly in Asia; insufficient funds from operations, from the Company's Credit Facility and from other sources

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

(debt and/or equity) to support the Company's operations or the inability of the Company to obtain additional financing when needed or on terms acceptable to the Company; an increase in interest rates, including as a result of an increase in pricing levels under its Credit Facility, interest rate hikes by the Federal Reserve Board and/or an increase in the Company's average outstanding borrowings; a reduction in the level of demand for products of its customers including the level of growth of some of the new technologies supported by the Company; deterioration in the relationships with existing suppliers, particularly one of our largest suppliers; decreases in gross profit margins, including decreasing margins resulting from the Company being required to have aggressive pricing programs, an increasing number of low-margin, large volume transactions, inventory oversupply conditions and/or increases in the costs of goods; problems with telecommunication, computer and information systems, including related to the completion of the installation of the new ERP system and the effectiveness of the operation thereof, as well as the ultimate total cost of installing and implementing the ERP system being materially greater than expected; the inability of the Company to expand its product offerings or obtain product during periods of allocation; the impact from changes in accounting rules; adverse currency fluctuations; the adverse impact of terrorism or the threat of terrorism on the economy; and the other risks and factors detailed in this Form 10-Q and in the Company's Form 10-K for the fiscal year ended December 31, 2005 and other filings with the Securities and Exchange Commission and in its press releases. These risks and uncertainties are beyond the ability of the Company to control. In many cases, the Company cannot predict the risks and uncertainties that could cause actual results to differ materially from those indicated by the forward-looking statements. The Company undertakes no obligation to update publicly or revise any forward-looking statements, business risks and/or uncertainties.

Quantitative and Qualitative Disclosures about Market Risk

The Company's Credit Facility bears interest based on interest rates tied to the Federal funds rate, prime or LIBOR rate, any of which may fluctuate over time based on economic conditions. As a result, the Company is subject to market risk for changes in interest rates and could be subjected to increased or decreased interest payments if market interest rates fluctuate. If market interest rates increase, the impact may have a material adverse effect on the Company's financial results. For each 100 basis point fluctuation in the interest rates charged on the Company's borrowings under its Credit Facility, interest expense will increase or decrease by approximately \$234,000 per quarter based on outstanding borrowings at March 31, 2006. See "Management's Discussion and Analysis of Financial Condition and Results of Operations-Liquidity and Capital Resources."

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, we evaluated, under the supervision and with the participation of our management, including our chief executive officer and the chief financial officer, the effectiveness of the design and operation of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934, Rules 13a - 15(e) and 15d - 15(e)). Based on this evaluation our

=====
management, including our chief executive officer and chief financial officer, have concluded that as of the date of the evaluation our disclosure controls and procedures were effective to ensure that all material information required to be filed in this report has been made known to them.

Changes In Internal Controls Over Financial Reporting

There have been no changes in internal controls over financial reporting that occurred during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting, except as follows:

In February 2006, the Company implemented a new enterprise resource planning (ERP) system that it uses in its daily operations. It converted the database and operational processing systems to this new ERP system. The Company believes the new ERP system will allow the Company to retain the control and integrity of its information systems as and to the extent that the Company's operations grow into the future.

PART II. OTHER INFORMATION

ITEM 1A. Risk Factors

There have been no material changes to our risk factors from those disclosed in our Form 10-K for the year ended December 31, 2005, except as follows:

We may not be able to satisfy our funding requirements.

We currently anticipate needing to spend significant amounts of cash to: meet our working capital requirements (including to support increases in levels of inventory, as well as customer backlog, and accounts receivable as our level of sales increases); invest in and finance capital equipment and infrastructure; upgrade our information and communication systems, including our new enterprise resource planning (ERP) system; expand our foreign operations and/or acquire businesses or open divisions; and/or respond to increases in expenses and costs, unanticipated developments, increasing customer demands and/or competitive pressures. If we do not have enough cash on hand, cash generated from our operations and/or cash available under our credit facility to meet these cash requirements, we will need to seek alternative sources of financing to carry out our growth and operating strategies, particularly if our credit facility is not available to do so. We may not be able to raise needed cash on terms acceptable to us, or at all. Financing may be on terms that are dilutive or potentially dilutive. If alternative sources of financing are required but are insufficient or unavailable, we will be required to modify our operating plans to the extent of available funding, if and assuming such modifications and/or other actions can be made or taken at all.

Our new enterprise resource planning (ERP) system could continue to interfere with our operations.

Although we are seeing some improvement recently, service to and relationships with our customers and suppliers have been adversely impacted by the implementation of our new ERP system. The strain on the Company's employees, as well as on its financial resources, in connection with the implementation of this new ERP system has been significant. We can offer no assurance that the implementation will be successful or that it will not cause additional interruption in operations and services. Failure of the new ERP system to

Edgar Filing: ALL AMERICAN SEMICONDUCTOR INC - Form 10-Q

improve or perform as expected would have a further material adverse impact on our operating results.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Sales of Unregistered Securities

During the quarter ended March 31, 2006, the Company did not issue or sell any unregistered securities, although, pursuant to the Company's Employees', Officers', Directors' Stock Option Plan, as previously amended and restated, the Company granted stock options to 48 individuals to purchase an aggregate of 67,500 shares of the Company's common stock at an exercise price of \$3.87 per share. The stock options vest over a four-year period and are exercisable over a five-year period. The stock options were granted by the Company in reliance upon the exemption from registration available under Section 4(2) of the Securities Act of 1933, as amended. See Note 3 to Notes to Consolidated Condensed Financial Statements (Unaudited).
