-

Item 2.02. Results of Operations and Financial Condition

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 789,000 customers in Oklahoma and western Arkansas, and OGE Enogex Holdings LLC and its subsidiaries ("Enogex"), a midstream natural gas pipeline business with principal operations in Oklahoma.

On February 16, 2012, the Company issued a press release describing the Company's consolidated financial results for the quarter and year ended December 31, 2011, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$3.45 per diluted share for the year ended December 31, 2011 as compared to \$2.99 per diluted share for the year ended December 31, 2010. At OG&E, earnings were higher primarily due to a higher gross margin mainly due to record heat in the summer of 2011 in OG&E's service territory, recovery of various investments, higher transmission revenues associated with new projects and new customer growth - primarily in the oil and gas industry, partially offset by higher operating expenses. This increase in earnings was partially offset by lower earnings at Enogex primarily due to higher operating expenses associated with system expansion and an increase in the ownership percentage by OGE Energy's equity partner partially offset by higher gross margins in Enogex's gathering business as a result of higher gathering volumes and higher natural gas liquids prices, net of the previously disclosed conversion of keep-whole contracts to fixed fee.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits

Exhibit Number	Description
99.01	Press release dated February 16, 2012, announcing Record summer heat drives 2011 earnings at OGE Energy.
