economy and other future conditions, and forecasts of future events, circumstances and results. However, they are not guarantees of future performance and are subject to known and unknown risks, uncertainties, contingencies and other factors. Generally, forward-looking statements are not based on historical facts but instead represent our management's beliefs regarding future events. Such statements may be identified by words such as believe, expect, anticipate, intend, plan, estimate, may increase, may fluctuate, and similar expressions or future or conditional verbs such as will, should, would and could. Such statements are based on management's current expectations and are subject to risks, uncertainties and changes in circumstances. Actual results and capital and other financial conditions may differ materially from those included in these statements due to a variety of factors, including without limitation those found in periodic Flagstar reports filed

with the U.S. Securities and Exchange Commission, which are available on the Company's website (flagstar.com) and on the Securities and Exchange Commission's website (sec.gov). Any forward-looking statements made by or on behalf of us speak only as to the date they are made, and we do not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the date the forward-looking statements were made, except as required under United States securities laws. In addition to results presented in accordance with GAAP, this presentation includes non-GAAP financial measures.

The Company believes these non-GAAP financial measures provide additional information that is useful to investors in helping to understand the capital requirements Flagstar will face in the future and underlying performance and trends of Flagstar. Non-GAAP financial measures have inherent limitations, which are not required to be uniformly applied. Readers should be aware of these limitations and should be cautious with respect to the use of such measures. To compensate for these limitations, we use non-GAAP measures as comparative tools, together with GAAP measures, to assist in the evaluation of our operating performance or financial condition. Also, we ensure that these measures are calculated using the appropriate GAAP or regulatory components in their entirety and that they are computed in a manner intended to facilitate consistent period-to-period comparisons. Flagstar's method of calculating these non-GAAP measures may differ from methods used by other companies. These non-GAAP measures should not be considered in isolation or as a substitute for those financial measures prepared in accordance with GAAP or in-effect regulatory requirements. Where non-GAAP financial measures are used, the most directly comparable GAAP or regulatory financial measure, as well as the reconciliation to the most directly comparable GAAP or regulatory financial measure, can be found in these conference call slides. Additional discussion of the use of non-GAAP measures can also be found in the Form 8-K Current Report related to this presentation and in periodic

Pending Branch Acquisition Strategic rationale • Improves ability to increase presence in well-known Midwest market - #1 market share in Fort Wayne, IN and Upper Peninsula of MI markets(1) Builds Midwest footprint • Adds nearly 200,000 new customers/relationships; more than doubles customer base • Completion of

Edgar Filing: FLAGSTAR BANCORP INC - Form FWP

the proposed Wells Fargo branch acquisition together with the recently completed DCB branch acquisition will significantly expand branch network in short time • Transformational banking transaction Enhances franchise • Moves funding from wholesale borrowings to core deposits, reducing rate sensitivity of funding base value - Interest-bearing demand deposits increase to 12 percent of total deposits - Total funding cost drops 21 basis points(2) • Transaction provides low-cost, stable funding • At closing, liquidity will be used to repay short-term FHLB advances Transforms funding - Wholesale funding ratio falls 13 percentage points to 23 percent(3) source - HFI loan-to-deposit ratio declines 18 percentage points to 66 percent(4) • Longer-term, larger branch network expands access to core deposits and other business opportunities (1) Source: FDIC Summary of Deposits as of June 30, 2017; acquired branch data as of December 31, 2017; Fort Wayne, IN market area includes Forth Wayne, IN Fed District plus the cities of Monticello, Peru, Rochester, Rushville, and Wabash, IN and Van Wert, OH; Upper Peninsula of MI market area includes the counties of Delta, Dickinson, Gogebic, Houghton, Iron, Marquette, and Menominee, MI. (2) Pro-forma as of March 31, 2018. Total funding cost is interest expense on interest-bearing liabilities divided by average funding liabilities (interest-bearing liabilities plus noninterest-bearing deposits). (3) Pro-forma as of March 31, 2018. Wholesale funding ratio is average wholesale funding (wholesale deposits plus FHLB advances) divided by average funding liabilities. (4) Pro-forma as of March 31, 2018. HFI loan-to-deposit ratio is average HFI loans (excluding warehouse loans) divided by total average deposits (excluding company-controlled deposits). 11

Pending Branch Acquisition Key Model Assumptions Expected to be accretive to EPS • Estimated transaction closing in October 2018 • Approximately 17% deposit run-off assumed, all occurring post-closing - Assumption informed by the deposit run-off in the Old National Bancorp / Bank of America and Huntington

Edgar Filing: FLAGSTAR BANCORP INC - Form FWP

Bancshares Incorporated /Bank of America branch acquisitions • Transaction proceeds assumed fully deployed within 1.5 years of closing • At closing, most of the deposits are used to reduce outstanding FHLB borrowings Key Model Assumptions • One-third of the purchase price is allocated to core deposit intangible (“CDI”) with the remainder allocated to goodwill - CDI is amortized sum-of-the-years method over eight years - No deferred tax liability associated with the CDI due to this being an asset purchase • Branch costs are ~\$600,000 per year, net of fee income, while back office costs increase ~\$6 million to support the additional volume

- Changes in interest rates are based on the implied forward rates at the time of the announcement 12

Capital build through branch acquisition close Flagstar does not anticipate needing to raise regulatory capital as a result of the branch acquisition • Potential capital addition due to the pending Basel capital simplification: - At March 31, 2018, there were \$85 million of MSRs deducted from equity to determine Tier 1 Capital.

Edgar Filing: FLAGSTAR BANCORP INC - Form FWP

We expect that the “Capital Simplification” rules that have been proposed by the banking regulators will pass prior to the closing of this transaction, which will increase Flagstar’s Tier 1 capital by \$85 million. If this does not happen, we may sell MSRs to reduce the deduction from capital. • Balance sheet management: - In connection with the transaction, Flagstar has terminated certain interest rate swaps that were hedging variable rate, long-term FHLB advances. The gain from this termination, along with prior hedging results, results in a pre-tax net unrealized gain of \$29 million. Upon closing, Flagstar intends to repay the long-term FHLB advances and trigger the recognition of approximately \$28 million of this unrealized gain. • Earnings retention: - Based on First Call consensus estimates, as much as \$145 million is expected to be earned by the company through the end of the fourth quarter 2018. 36

Key investment highlights Flagstar is a national mortgage business and a market leading bank in Michigan Low-risk balance sheet with ~71% of assets in lower risk-content assets Disciplined management team with deep banking experience Diversified revenue stream with Noninterest Income / Operating Revenue of 51%
