FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended April 26, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

Commission file number: 0-23985

NVIDIA CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

94-3177549
(I.R.S. Employer
Identification No.)

2701 San Tomas Expressway
Santa Clara, California 95050
(408) 486-2000

(Address, including zip code, and telephone number,
including area code, of principal executive offices)

N/A

(Former name, former address and former fiscal year if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes x No o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Accelerated filer o

Edgar Filing: NVIDIA CORP - Form 10-Q

Large accelerated filer x

Non-accelerated filer o (Do not check if a smaller reporting company) Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes o No x

The number of shares of common stock, \$0.001 par value, outstanding as of May 15, 2015, was 538 million.

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1 - Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, or U.S. GAAP, for interim financial information and with the instructions to Form 10-Q and Article 10 of Securities and Exchange Commission, or SEC, Regulation S-X. The January 25, 2015 consolidated balance sheet was derived from our audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended January 25, 2015, as filed with the SEC, but does not include all disclosures required by U.S. GAAP. In the opinion of management, all adjustments, consisting only of normal recurring adjustments except as otherwise noted, considered necessary for a fair statement of results of operations and financial position have been included. The results for the interim periods presented are not necessarily indicative of the results expected for any future period. The following information should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.

Significant Accounting Policies

For a description of significant accounting policies, see Note 1, Organization and Summary of Significant Accounting Policies, of the Notes to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended January 25, 2015. There have been no material changes to our significant accounting policies since the filing of the Annual Report on Form 10-K.

Fiscal Year

We operate on a 52- or 53-week year, ending on the last Sunday in January. Fiscal year 2016 is a 53-week year and fiscal year 2015 is a 52-week year. The first quarters of fiscal years 2016 and 2015 are both 13-week quarters.

Principles of Consolidation

Our condensed consolidated financial statements include the accounts of NVIDIA Corporation and its wholly-owned subsidiaries. All material inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. On an on-going basis, we evaluate our estimates, including those related to revenue recognition, cash equivalents and marketable securities, accounts receivable, inventories, income taxes, goodwill, stock-based compensation, warranty liabilities, litigation, investigation and settlement costs and other contingencies. These estimates are based on historical facts and various other assumptions that we believe are reasonable.

Adoption of New and Recently Issued Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board, or FASB, issued a new accounting standards update that requires an entity to present debt issuance costs on the balance sheet as a direct deduction from the related debt liability as opposed to an asset. Amortization of the costs will continue to be reported as interest expense. The update is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2015. Early adoption is permitted for financial statements that have not been previously issued, and the new guidance would be applied retrospectively to all prior periods presented. The update will be effective for us beginning in our first quarter of fiscal year 2017. The adoption of this standard update is not expected to have a material impact on our consolidated financial statements.

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

In May 2014, the FASB issued a new accounting standards update that creates a single source of revenue guidance under U.S. GAAP for all companies, in all industries, effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. On April 29, 2015, the FASB issued a proposed accounting standards update that would defer the effective date of this new revenue recognition standard by one year, but also permit entities to adopt the standard one year earlier if they choose (i.e., the original effective date). Comments on the proposal are due by May 29, 2015. We will adopt this guidance either by using a full retrospective approach for all periods presented in the period of adoption or a modified retrospective approach. We are currently evaluating the impact of this accounting guidance on our consolidated financial statements and have not yet determined which transition method we will apply.

Note 2 - Stock-Based Compensation

Our stock-based compensation expense is associated with stock options, restricted stock units, or RSUs, performance stock units that are based on the Company's corporate financial performance targets, or PSUs, performance stock units that are based on market conditions, or market-based PSUs, and our employee stock purchase plan, or ESPP.

We estimate the fair value of employee stock options on the date of grant using a binomial model and recognize the expense using a straight-line attribution method over the requisite employee service period. We use the closing trading price of our common stock on the date of grant, minus a dividend yield discount, as the fair value of awards of RSUs and PSUs, and we use a Monte Carlo simulation on the date of grant to estimate the fair value of market-based PSUs. We use a Black-Scholes valuation at the commencement of an offering period in March and September of each year to estimate the fair value of the shares to be issued under our ESPP.

Stock-based compensation expense for stock options, RSUs and market-based PSUs is recognized using a straight-line attribution method over the requisite employee service period, while compensation expense for PSUs and ESPP is recognized using an accelerated amortization model.

Our condensed consolidated statements of income include stock-based compensation expense, net of amounts capitalized as inventory, as follows:

	Three Months Ended	
	April 26, 2015	April 27, 2014
	(In millions)	
Cost of revenue	\$2	\$3
Research and development	27	21
Sales, general and administrative	16	12
Total	\$45	\$36

NVIDIA CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (Unaudited)

Equity Award Activity

The following summarizes the stock option, RSU, PSU and market-based PSU activity under our equity incentive plans:

	Awards Outstanding (In millions)	Weighted Average Exercise Price (Per share)
Stock Options		
Balances, January 25, 2015	21	\$14.61
Granted	—	—
Exercised	(3) \$13.87
Cancelled	—	—
Balances, April 26, 2015	18	\$14.63
	Awards Outstanding (In millions)	Weighted Average Grant-Date Fair Value (Per share)
RSUs, PSUs and Market-based PSUs		
Balances, January 25, 2015	23	\$15.94
Granted (1) (2)	4	\$22.08
Vested	(4) \$14.99
Cancelled	—	—
Balances, April 26, 2015	23	\$17.01

(1) Includes the total PSUs issuable if the corporate financial performance maximum target level for fiscal year 2016 is achieved. Depending on the actual level of achievement of the corporate performance target at the end of fiscal year 2016, the PSUs issued could range from 0 to 2 million shares. We granted PSUs during the first quarter of fiscal year 2016 to our CEO and senior management as approved by our Compensation Committee.

(2) Includes the market-based PSUs issuable if the maximum target for total shareholder return, or TSR, over the 3-year measurement period is achieved. Depending on the ranking of our TSR compared to the respective TSRs of the companies comprising the Standard & Poor's 500 Index during a 3-year measurement period, the market-based PSUs issued could range from 0 to 0.4 million shares. We granted market-based PSUs during the first quarter of fiscal year 2016 to our CEO and senior management as approved by our Compensation Committee.

Of the estimated total grant-date fair value, the stock-based compensation expense related to the equity awards that are not expected to vest was \$5 million and \$10 million for the three months ended April 26, 2015 and April 27, 2014, respectively.

The following summarizes aggregated unearned stock-based compensation expense and estimated weighted average amortization period as of April 26, 2015 and January 25, 2015:

	April 26, 2015 (In millions)	January 25, 2015
Aggregated unearned stock-based compensation expense	\$331	\$291
Estimated weighted average amortization period	(In years)	
Stock options	1.7	1.8
RSUs, PSUs and market-based PSUs	2.9	2.8
ESPP	0.7	0.5

NVIDIA CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (Unaudited)

Note 3 – Net Income Per Share

The following is a reconciliation of the numerator and denominator of the basic and diluted net income per share computations for the periods presented:

	Three Months Ended	
	April 26, 2015	April 27, 2014
	(In millions, except per share data)	
Numerator:		
Net income	\$ 134	\$ 137
Denominator:		
Denominator for basic net income per share, weighted average shares	549	559
Effect of dilutive securities:		
Equity awards outstanding	13	11
Assumed conversion of 1% Convertible Senior Notes Due 2018	6	—
Denominator for diluted net income per share, weighted average shares	568	570
Net income per share:		
Basic net income per share	\$0.24	\$0.24
Diluted net income per share	\$0.24	\$0.24
Potentially dilutive securities excluded from diluted net income per share because their effect would have been anti-dilutive	3	8

The 1.00% Convertible Senior Notes, or the Notes, are included in the calculation of diluted net income per share if their inclusion is dilutive. The Notes will generally have a dilutive impact on net income per share if the Company's average stock price for the reporting period exceeds the conversion price of \$20.16 per share.

The denominator for diluted net income per share does not include any effect from the convertible note hedge transaction, or the Note Hedges, that we entered into concurrently with the issuance of the Notes, as its effect would be anti-dilutive. In the event an actual conversion of any or all of the Notes occurs, the shares that would be delivered to us under the Note Hedges are designed to neutralize the dilutive effect of the shares that we would issue under the Notes.

The denominator for diluted net income per share will not include any effect from the warrants, which we entered into concurrently with the issuance of the Notes, unless the Company's average stock price for the reporting period exceeds the strike price of \$27.14 per share.

Please refer to Note 10 of these Notes to Condensed Consolidated Financial Statements for additional discussion regarding the Notes.

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 4 – Income Taxes

We recognized income tax expense of \$38 million and \$26 million for the three months ended April 26, 2015 and April 27, 2014, respectively. Income tax expense as a percentage of income before taxes, or our effective tax rate, was 22.0% and 16.4% for the three months ended April 26, 2015 and April 27, 2014, respectively.

The increase in our effective tax rate in the first quarter of fiscal year 2016 as compared to the same period in the prior fiscal year was primarily related to an increase in the amount of earnings subject to US tax and permanent tax differences related to stock-based compensation in the prior year's first three months.

Our effective tax rate on income before tax for the first three months of fiscal year 2016 of 22.0% was lower than the United States federal statutory rate of 35% due primarily to income earned in jurisdictions where the tax rate is lower than the United States federal statutory tax rate. Further, our effective tax rate for the first three months of fiscal year 2016 of 22.0% differs from our annual projected effective tax rate for the first three months of fiscal year 2016 of 24.0% due to discrete events that occurred in the first three months of fiscal year 2016 primarily attributable to the tax benefits recognized upon the expiration of statutes of limitations in certain non-U.S. jurisdictions.

Our effective tax rate on income before tax for the first three months of fiscal year 2015 of 16.4% was lower than the United States federal statutory rate of 35% due primarily to income earned in jurisdictions where the tax rate is lower than the United States federal statutory tax.

For the three months ended April 26, 2015, there have been no material changes to our tax years that remain subject to examination by major tax jurisdictions. Additionally, there have been no other material changes to our unrecognized tax benefits and any related interest or penalties since the fiscal year ended January 25, 2015, other than the recognition of tax benefits upon the expiration of statute of limitation in certain non-U.S. jurisdictions in the three months ended April 26, 2015.

While we believe that we have adequately provided for all uncertain tax positions, or tax positions where it is believed not more-likely-than-not that the position will be sustained upon examination, amounts asserted by tax authorities could be greater or less than our accrued position. Accordingly, our provisions on federal, state and foreign tax related matters to be recorded in the future may change as revised estimates are made or the underlying matters are settled or otherwise resolved with the respective tax authorities. As of April 26, 2015, we do not believe that our estimates, as otherwise provided for, on such tax positions will significantly increase or decrease within the next twelve months.

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 5 - Marketable Securities

All of our cash equivalents and marketable securities are classified as “available-for-sale” securities. These securities are reported at fair value, with the related unrealized gains and losses included in accumulated other comprehensive income, a component of shareholders’ equity, net of tax, and net realized gains and losses recorded in other income, net, on the Condensed Consolidated Statements of Income.

We performed an impairment review of our investment portfolio as of April 26, 2015. Based on our quarterly impairment review, we concluded that our investments were appropriately valued and that no other than temporary impairment charges were necessary on our portfolio as of April 26, 2015.

The following is a summary of cash equivalents and marketable securities at April 26, 2015 and January 25, 2015:

	April 26, 2015			
	Amortized Cost (In millions)	Unrealized Gain	Unrealized Loss	Estimated Fair Value
Corporate debt securities	\$2,214	\$4	\$(1) \$2,217
Debt securities of United States government agencies	968	1	—	969
Asset-backed securities	480	—	—	480
Debt securities issued by United States Treasury	415	1	—	416
Mortgage-backed securities issued by United States government-sponsored enterprises	260	4	—	264
Foreign government bonds	81	—	—	81
Money market funds	19	—	—	19
Total	\$4,437	\$10	\$(1) \$4,446
Classified as:				
Cash equivalents				\$118
Marketable securities				4,328
Total				\$4,446
	January 25, 2015			
	Amortized Cost (In millions)	Unrealized Gain	Unrealized Loss	Estimated Fair Value
Corporate debt securities	\$2,185	\$2	\$(1) \$2,186
Debt securities of United States government agencies	750	1	(1) 750
Asset-backed securities	453	—	—	453
Debt securities issued by United States Treasury	534	3	—	537
Mortgage-backed securities issued by United States government-sponsored enterprises	274	5	(1) 278
Foreign government bonds	85	—	—	85
Money market funds	132	—	—	132
Total	\$4,413	\$11	\$(3) \$4,421
Classified as:				

Cash equivalents	\$295
Marketable securities	4,126
Total	\$4,421

The following table provides the breakdown of the investments with unrealized losses at April 26, 2015:

	Less than 12 months		12 months or greater		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
	(In millions)					
Corporate debt securities	\$573	\$(1)	\$13	\$—	\$586	\$(1)
Debt securities of United States government agencies	309	—	9	—	318	—
Asset-backed securities	257	—	3	—	260	—
Mortgage-backed securities issued by United States government-sponsored enterprises	74	—	18	—	92	—
Debt securities issued by United States Treasury	58	—	—	—	58	—
Foreign government bonds	14	—	—	—	14	—
Total	\$1,285	\$(1)	\$43	\$—	\$1,328	\$(1)

The gross unrealized losses related to fixed income securities were due to changes in interest rates. We have determined that the gross unrealized losses on investment securities at April 26, 2015 are temporary in nature. Currently, we have the intent and ability to hold our investments with impairment indicators until maturity.

The amortized cost and estimated fair value of cash equivalents and marketable securities, which are primarily debt instruments, are classified as available-for-sale at April 26, 2015 and January 25, 2015 and are shown below by contractual maturity.

	April 26, 2015		January 25, 2015	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
	(In millions)			
Less than 1 year	\$1,445	\$1,445	\$1,570	\$1,571
Due in 1 - 5 years	2,866	2,872	2,720	2,726
Mortgage-backed securities issued by government-sponsored enterprises not due at a single maturity date	126	129	123	124
Total	\$4,437	\$4,446	\$4,413	\$4,421

Net realized gains for the three months ended April 26, 2015 were \$3 million, and were not significant for the three months ended April 27, 2014.

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 6 – Fair Value of Financial Assets and Liabilities

Financial assets measured at fair value

We measure our cash equivalents and marketable securities at fair value. The fair values of our financial assets and liabilities are determined using quoted market prices of identical assets or quoted market prices of similar assets from active markets. Our Level 1 assets consist of our money market funds. We classify securities within Level 1 assets when the fair value is obtained from real time quotes for transactions in active exchange markets involving identical assets. Our available-for-sale securities are classified as having Level 2 inputs. Our Level 2 assets are valued utilizing a market approach where the market prices of similar assets are provided by a variety of independent industry standard data providers to our investment custodian. We review the fair value hierarchy classification on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy. There were no significant transfers between Levels 1 and 2 assets for the three months ended April 26, 2015.

Financial assets measured at fair value are summarized below:

		Fair Value Measurement as of April 26, 2015 Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
	April 26, 2015 (In millions)		
Corporate debt securities (1)	\$2,217	\$—	\$2,217
Debt securities of United States government agencies (2)	969	—	969
Asset-backed securities (3)	480	—	480
Debt securities issued by United States Treasury (3)	416	—	416
Mortgage-backed securities issued by government-sponsored enterprises (3)	264	—	264
Foreign government bonds (3)	81	—	81
Money market funds (4)	19	19	—
Total cash equivalents and marketable securities	\$4,446	\$19	\$4,427

(1) Includes \$95 million in cash equivalents and \$2.12 billion in marketable securities on the Condensed Consolidated Balance Sheets.

(2) Includes \$4 million in cash equivalents and \$965 million in marketable securities on the Condensed Consolidated Balance Sheets.

(3) Included in marketable securities on the Condensed Consolidated Balance Sheets.

(4) Included in cash equivalents on the Condensed Consolidated Balance Sheets.

Financial liabilities measured at fair value

We issued \$1.50 billion of Notes in December 2013. The Notes are carried at their original issuance value, net of unamortized debt discount, and are not marked to market each period. The estimated fair value of the Notes was \$1.83

billion and \$1.68 billion as of April 26, 2015 and January 25, 2015, respectively. The estimated fair value of the Notes was determined on the basis of market prices observable for similar instruments and is considered Level 2 in the fair value hierarchy. Please refer to Note 10 of these Notes to Condensed Consolidated Financial Statements for discussion regarding the Notes.

NVIDIA CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 7 - Intangible Assets

The components of our amortizable intangible assets are as follows:

	April 26, 2015			January 25, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
	(In millions)					
Acquisition-related intangible assets	\$ 189	\$(139)) \$50	\$ 189	\$(134)) \$55
Patents and licensed technology	451	(296)) 155	449	(282)) 167
Total intangible assets	\$640	\$(435)) \$205	\$638	\$(416)) \$222

Amortization expense associated with intangible assets was \$19 million for both the three months ended April 26, 2015 and April 27, 2014. Future amortization expense related to the net carrying amount of intangible assets at April 26, 2015 is estimated to be \$53 million for the remainder of fiscal year 2016, \$64 million in fiscal year 2017, \$49 million in fiscal year 2018, \$21 million in fiscal year 2019, \$13 million in fiscal year 2020 and a total of \$5 million in fiscal year 2021 and beyond.

Note 8 - Balance Sheet Components

Certain balance sheet components are as follows:

	April 26, 2015	January 25, 2015
	(In millions)	
Inventories:		
Raw materials	\$151	\$157
Work in-process	73	92
Finished goods	214	234
Total inventories	\$438	\$483

At April 26, 2015, we had outstanding inventory purchase obligations totaling \$398 million.

 (Unaudited)

Note 9 - Guarantees

U.S. GAAP requires that upon issuance of a guarantee, the guarantor must recognize a liability for the fair value of the obligation it assumes under that guarantee. In addition, U.S. GAAP requires disclosures about the guarantees that an entity has issued, including a tabular reconciliation of the changes of the entity's product warranty liabilities.

Accrual for Product Warranty Liabilities

We record a reduction to revenue for estimated product returns at the time revenue is recognized primarily based on historical return rates. Cost of revenue includes the estimated cost of product warranties. Under limited circumstances, we may offer an extended limited warranty to customers for certain products. Additionally, we accrue for known warranty and indemnification issues if a loss is probable and can be reasonably estimated. The estimated product warranty liabilities for the three months ended April 26, 2015 and April 27, 2014 were as follows:

	Three Months Ended	
	April 26, 2015	April 27, 2014
	(In millions)	
Balance at beginning of period	\$8	\$7
Additions	6	2
Deductions	(1) (1
Balance at end of period	\$13	\$8

In connection with certain agreements that we have executed in the past, we have at times provided indemnities to cover the indemnified party for matters such as tax, product, and employee liabilities. We have also on occasion included intellectual property indemnification provisions in our technology related agreements with third parties. Maximum potential future payments cannot be estimated because many of these agreements do not have a maximum stated liability. As such, we have not recorded any liability in our Condensed Consolidated Financial Statements for such indemnifications.

NVIDIA CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (Unaudited)

Note 10 - Long-Term Debt

1.00 % Convertible Senior Notes Due 2018

On December 2, 2013, we issued \$1.50 billion in Notes. The Notes are unsecured, unsubordinated obligations of the Company, which pay interest in cash semi-annually at a rate of 1.00% per annum. The Notes will mature on December 1, 2018 unless earlier repurchased or converted in accordance with their terms prior to such date. Under the terms of the Notes, they may be converted based on an initial conversion rate of 49.60 shares of common stock per \$1,000 principal amount of Notes (equivalent to an initial conversion price of \$20.16 per share of common stock), subject to adjustment as described in the indenture governing the Notes.

As of April 26, 2015, none of the conditions allowing holders of the Notes to convert had been met. The determination of whether or not the Notes are convertible must be performed quarterly. If the Notes become convertible at the option of the holder, the difference between the principal amount and the carrying value of the Notes would be reflected as convertible debt in the mezzanine equity section on our Condensed Consolidated Balance Sheets.

The initial debt component of the Notes was valued at \$1.35 billion based on the contractual cash flows discounted at an appropriate market rate for a non-convertible debt at the date of issuance, which was determined to be 3.15%. The carrying value of the permanent equity component reported in additional paid-in-capital was valued at \$126 million and recorded as a debt discount. This amount, together with the \$23 million purchaser's discount to the par value of the Notes represents the total unamortized debt discount of \$149 million we recorded at the time of issuance of the Notes. The aggregate debt discount is amortized as interest expense over the contractual term of the Notes using the effective interest method using an interest rate of 3.15%.

The following table presents the carrying amounts of the liability and equity components:

	April 26, 2015 (In millions)	January 25, 2015
Amount of the equity component	\$126	\$126
1.00% Convertible Senior Notes Due 2018	\$1,500	\$1,500
Unamortized debt discount (1)	(109)	(116)
Net carrying amount	\$1,391	\$1,384

(1) As of April 26, 2015, the unamortized debt discount will be amortized over a remaining period of 3.6 years. The following table presents interest expense for the contractual interest and the accretion of debt discount and issuance costs:

	Three Months Ended	
	April 26, 2015 (In millions)	April 27, 2014
Contractual coupon interest expense	\$4	\$4
Amortization of debt discount and issuance costs	7	7
Total interest expense related to Notes	\$11	\$11

(Unaudited)

Note 11 - Commitments and Contingencies

Securities Cases

In September 2008, three putative securities class actions were filed in the United States District Court for the Northern District of California arising out of our announcements on July 2, 2008, that we would take a charge against cost of revenue to cover anticipated costs and expenses arising from a weak die/packaging material set in certain versions of our previous generation MCP and GPU products and that we were revising financial guidance for our second quarter of fiscal year 2009. The actions purport to be brought on behalf of purchasers of NVIDIA stock and assert claims for violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended, or the Securities Exchange Act.

On January 22, 2010, Plaintiffs filed a Consolidated Amended Class Action Complaint, asserting claims for violations of Section 10(b), Rule 10b-5, and Section 20(a) of the Securities Exchange Act and seeking unspecified compensatory damages. We moved to dismiss the consolidated complaint and on October 19, 2010, Judge Seeborg granted our motion with leave to amend. On December 2, 2010, Plaintiffs filed a Second Consolidated Amended Complaint. We again moved to dismiss and on October 12, 2011, Judge Seeborg again granted our motion to dismiss, this time denying Plaintiffs leave to amend. On November 8, 2011, Plaintiffs filed a Notice of Appeal to the Ninth Circuit. Oral argument was held on January 14, 2014. On October 2, 2014, the Ninth Circuit issued an order affirming the dismissal. On October 16, 2014, Plaintiffs requested a rehearing or en banc review of the Ninth Circuit's opinion affirming the dismissal. Plaintiffs' request was denied on November 10, 2014. On February 9, 2015, Plaintiffs filed a petition for writ of certiorari to the United States Supreme Court. On April 15, 2015, we filed an opposition to Plaintiffs' petition.

Patent Infringement Cases

On September 4, 2014, NVIDIA filed complaints against Qualcomm, Inc., or Qualcomm, and various Samsung entities with both the United States International Trade Commission, or ITC, and the United States District Court for the District of Delaware for alleged infringement of seven patents relating to graphics processing. In the ITC action, NVIDIA seeks to block shipments of Samsung Galaxy mobile phones, tablets and smart TVs containing Qualcomm's Adreno, ARM's Mali or Imagination's PowerVR graphics architectures. On October 6, 2014, the ITC initiated an investigation of NVIDIA's claim and the investigation is currently underway. On February 2 and 3, 2015, the court conducted a claim construction hearing on certain claim language from five of the patents at issue. The hearing on NVIDIA's patents in the ITC action is currently scheduled to begin on June 22, 2015.

In the Delaware action, NVIDIA seeks unspecified damages for Samsung and Qualcomm's alleged patent infringement. On October 22, 2014, Samsung and Qualcomm moved to stay the Delaware proceedings in light of the pending ITC action and NVIDIA did not oppose the motion. The court granted the motion to stay on October 23, 2014.

On November 10, 2014, Samsung filed a complaint against NVIDIA and Velocity Micro, Inc., in the United States District Court for the Eastern District of Virginia, alleging that NVIDIA infringed six patents and falsely advertised that the Tegra K1 processor is the world's fastest mobile processor. On December 19, 2014, and then on April 10, 2015, Samsung filed amended, longer complaints, but which continued to assert the same claims against NVIDIA. Samsung seeks unspecified damages and an injunction prohibiting NVIDIA from any future violations. NVIDIA

answered the second amended complaint on April 16, 2015, and asserted counter-claims against Samsung for infringing four of NVIDIA's patents and for non-infringement and invalidity of the six patents asserted in Samsung's second amended complaint. On April 24, 2015, Samsung moved to sever NVIDIA's counter-claims for patent infringement. On May 19, 2015, the court severed NVIDIA's counter-claims from the main action and set a trial date on those counter-claims for June 2016. On the same day, NVIDIA voluntarily dismissed its counter-claims from the case. Trial on Samsung's claims is currently set to begin on January 11, 2016.

On November 23, 2014, Samsung filed a complaint against NVIDIA, among others, in the ITC claiming infringement of four United States patents. Samsung seeks to permanently bar several products purportedly relying on these allegedly infringed patents in the United States. On December 23, 2014, the ITC initiated an investigation of Samsung's claims. A hearing on Samsung's patents is scheduled to begin on August 18, 2015.

NVIDIA and Samsung have also challenged the validity of certain of each other's patents through inter partes review before the United States Patent and Trademark Office. NVIDIA has filed three requests for inter partes review on three of Samsung's asserted patents. Samsung has filed three requests for inter partes review on three patents asserted by NVIDIA. The United States Patent and Trademark Office has not yet decided whether to institute review as to any of the patents.

Accounting for Loss Contingencies

While there can be no assurance of favorable outcomes, we believe the claims made by other parties in the above ongoing matters are without merit and we intend to vigorously defend the actions. As of April 26, 2015, we have not recorded any accrual for contingent liabilities associated with the legal proceedings described above based on our belief that liabilities, while possible, are not probable. Further, any possible range of loss in these matters cannot be reasonably estimated at this time. We are engaged in other legal actions not described above arising in the ordinary course of its business and, while there can be no assurance of favorable outcomes, we believe that the ultimate outcome of these actions will not have a material adverse effect on our operating results, liquidity or financial position.

Note 12 - Shareholders' Equity

Share Repurchase Program

Beginning August 2004, our Board of Directors authorized us, subject to certain specifications, to repurchase shares of our common stock. Most recently, in May 2015, the Board extended the previously authorized repurchase program through December 2018 and authorized an additional \$1.62 billion under the repurchase program.

As part of our share repurchase program, we repurchased a total of 2.4 million shares of our common stock during the first three months of fiscal year 2016 for \$53 million.

Through April 26, 2015, we have repurchased an aggregate of 208 million shares under our share repurchase program for a total cost of \$3.32 billion. All shares delivered from these repurchases have been placed into treasury stock. As of April 26, 2015, we were authorized, subject to certain specifications, to repurchase shares of our common stock up to \$382 million. However, as noted above, in May 2015, the Board authorized an additional \$1.62 billion under the repurchase program for an aggregate of \$2.00 billion available for future repurchases.

Cash Dividends

We paid \$46 million in cash dividends to our common shareholders for each of the three months ended April 26, 2015 and April 27, 2014. These dividends were equivalent to \$0.085 per share on a quarterly basis.

Convertible Preferred Stock

There are no shares of preferred stock outstanding.

Common Stock

We are authorized to issue up to 2.00 billion shares of our common stock at \$0.001 per share par value.

NVIDIA CORPORATION AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
 (Unaudited)

Note 13 - Segment Information

Our Chief Executive Officer, who is considered to be our chief operating decision maker, or CODM, reviews financial information presented on an operating segment basis for purposes of making operating decisions and assessing financial performance. Our operating segments are equivalent to our reportable segments.

We report our business in two primary reporting segments - the GPU business and the Tegra Processor business - based on a single underlying graphics architecture.

Our GPU product brands aimed at specialized markets include GeForce for gamers; Quadro for designers; Tesla for researchers, deep learning and big-data analysts; and GRID for cloud-based visual computing users.

We also integrate our GPUs into mobile chips called system-on-a-chip (SOC) processors, which power tablets, and automotive infotainment and safety systems. Our Tegra brand integrates an entire computer onto a single chip, incorporating GPUs and multi-core CPUs with audio, video and input/output capabilities. They can also be integrated with baseband processors to add voice and data communication. Tegra conserves power while delivering state-of-the-art graphics and multimedia processing.

We have a single unifying architecture for our GPU and Tegra Processors. This architecture unification leverages our visual computing expertise by charging the operating expenses of certain core engineering functions to the GPU business, while charging the Tegra Processor business for the incremental cost of the teams working directly for that business. In instances where the operating expenses of certain functions benefit both reporting segments, our CODM assigns 100% of those expenses to the reporting segment that benefits the most. The revenue and cost of revenue of the reporting segments was not affected, and comparative periods presented below reflect the impact of this change.

The “All Other” category presented below represents the revenue and expenses that our CODM does not assign to either the GPU business or the Tegra Processor business for purposes of making operating decisions or assessing financial performance. The revenue includes primarily patent licensing revenue and the expenses include corporate infrastructure and support costs, stock-based compensation costs, amortization of acquisition-related intangible assets, other acquisition-related costs, and other non-recurring charges and benefits that our CODM deems to be enterprise in nature.

Our CODM does not review any information regarding total assets on a reporting segment basis. Reporting segments do not record intersegment revenue, and, accordingly, there is none to be reported. The accounting policies for segment reporting are the same as for NVIDIA as a whole. The table below presents details of our reportable segments and the “All Other” category.

	GPU	Tegra Processor	All Other	Consolidated
	(In millions)			
Three Months Ended April 26, 2015				
Revenue	\$940	\$145	\$66	\$1,151
Depreciation and amortization expenses	\$28	\$14	\$12	\$54
Operating income (loss)	\$278	\$(57) \$(45) \$176

Accounts Receivable:		
Customer B	22	% 20
Customer C	10	% 10

NVIDIA CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)
(Unaudited)

Note 14 - Subsequent Events

On May 5, 2015, we announced our intent to wind-down our Icera modem operations and that we are open to a sale of the technology or operations. We estimate restructuring charges primarily during fiscal year 2016, in the range of \$100 million to \$125 million, consisting of severance and other employee termination benefits, tax expense items, and other costs associated with the wind-down, if we are unable to sell the Icera modem operations.

On May 11, 2015, as part of our stock repurchase program, we entered into an accelerated share repurchase agreement, or ASR, with an investment bank, under which we made an upfront payment of \$400 million to purchase shares of our common stock and received an initial delivery of 14 million shares. Upon final settlement of the ASR, we may either (1) receive additional shares of our common stock, or (2) be required to deliver shares of our common stock or elect to make a cash payment to the investment bank, based on the terms and conditions under the ASR. The shares we receive result in a reduction, on the delivery date, of the outstanding shares used to calculate the weighted-average common shares outstanding for basic and diluted earnings per share.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are subject to the "safe harbor" created by those sections. Forward-looking statements are based on our management's beliefs and assumptions and on information currently available to our management. In some cases, you can identify forward-looking statements by terms such as "may," "will," "should," "could," "goal," "would," "expect," "plan," "anticipate," "estimate," "project," "predict," "potential" and similar expressions intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance, time frames or achievements to be materially different from any future results, performance, time frames or achievements expressed or implied by the forward-looking statements. We discuss many of these risks, uncertainties and other factors in this Quarterly Report on Form 10-Q in greater detail under the heading "Risk Factors." Given these risks, uncertainties and other factors, you should not place undue reliance on these forward-looking statements. Also, these forward-looking statements represent our estimates and assumptions only as of the date of this filing. You should read this Quarterly Report on Form 10-Q completely and with the understanding that our actual future results may be materially different from what we expect. We hereby qualify our forward-looking statements by these cautionary statements. Except as required by law, we assume no obligation to update these forward-looking statements publicly, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future.

All references to "NVIDIA," "we," "us," "our" or the "Company" mean NVIDIA Corporation and its subsidiaries, except where it is made clear that the term means only the parent company.

NVIDIA, the NVIDIA logo, GeForce, GTX, ICERA, Iray, Maxwell, NVIDIA DRIVE, NVIDIA GRID, NVIDIA SHIELD, Pascal, Quadro, SHIELD, Tegra, Tesla, and TITAN are trademarks and/or registered trademarks of NVIDIA Corporation in the United States and other countries. Other company and product names may be trademarks of the respective companies with which they are associated.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with "Item 6. Selected Financial Data" of our Annual Report on Form 10-K for the fiscal year ended January 25, 2015 and "Item 1A. Risk Factors" of this Quarterly Report on Form 10-Q and our Condensed Consolidated Financial Statements and related Notes thereto, as well as other cautionary statements and risks described elsewhere in this Quarterly Report on Form 10-Q, before deciding to purchase or sell shares of our common stock.

Overview

Our Company

Our Company and Our Businesses

NVIDIA is dedicated to advancing visual computing, enabling individuals to interact with digital ideas, data and entertainment with an ease and efficiency unmatched by any other communication medium.

Our business model has three elements: creating NVIDIA-branded products and services, offering our processors to original equipment manufacturers, or OEMs, and licensing our intellectual property. NVIDIA-branded products and services are visual computing platforms that address four large markets: Gaming, Enterprise, High Performance

Computing and Cloud, and Automotive.

Our two business segments - GPU and Tegra Processor - are based on a single underlying graphics architecture. In addition to the two reporting segments, the “All Other” category primarily includes licensing revenue from our patent cross licensing agreement with Intel, which we expect to recognize through March 2017.

GPUs, the engines of visual computing, are among the world's most complex processors. Our GPU product brands aimed at specialized markets include GeForce for gamers; Quadro for designers; Tesla for researchers, deep learning and big-data analysts; and GRID for cloud-based visual computing users.

We also integrate our GPUs into mobile chips called system-on-a-chip (SOC) processors, which power tablets, and automotive infotainment and safety systems. Our Tegra brand integrates an entire computer onto a single chip, incorporating GPUs and multi-core CPUs with audio, video and input/output capabilities. They can also be integrated with baseband processors to add voice and data communication. Tegra conserves power while delivering state-of-the-art graphics and multimedia processing.

Headquartered in Santa Clara, California, NVIDIA was incorporated in California in April 1993 and reincorporated in Delaware in April 1998.

Recent Developments, Future Objectives and Challenges

GPU Business

During the first quarter of fiscal year 2016, we launched the GeForce GTX TITAN X, a GPU with twice the performance and double the power efficiency of its predecessor. We also introduced Quadro M6000, a powerful professional GPU and the Quadro Visual Computing Appliance, containing eight M6000 GPUs. Further, we introduced a roadmap for physically based rendering, including Iray 2015 rendering software.

During the quarter we also announced that our next-generation Pascal GPU architecture. This architecture is expected to accelerate deep learning applications faster than the current-generation Maxwell processors.

Tegra Processor Business

During the first quarter of fiscal year 2016, we announced NVIDIA SHIELD - our first living-room entertainment device powered by our Tegra X1 processor. The NVIDIA SHIELD is a 4K smart TV platform that uses the internet to connect to media and delivers video, high-quality games, music, apps, and uses Google voice search. We also announced the availability of NVIDIA DRIVE PX - a car computer that utilizes deep learning to enable self-driving capabilities.

Capital Return to Shareholders

In May 2015, our Board extended the previously authorized repurchase program through December 2018 and authorized an additional \$1.62 billion for an aggregate of \$2.00 billion available for future repurchases.

For the first quarter of fiscal year 2016, we returned a total of \$99 million of capital to shareholders. As part of our share repurchase program, we repurchased a total of 2.4 million shares of our common stock during the first quarter of fiscal year 2016 for \$53 million. Additionally, we paid \$46 million in cash dividends for the first quarter of fiscal year 2016.

On May 7, 2015, we announced a 15% increase in the quarterly cash dividend to \$0.0975 per share from \$0.085 per share. We also stated that we would pay our next quarterly cash dividend of \$0.0975 per share on June 12, 2015, to all shareholders of record on May 21, 2015. Further, we also announced an increase in our intended return to shareholders in fiscal year 2016 to \$800 million from the previously stated \$600 million, through quarterly cash dividends and share repurchases. On May 11, 2015, we entered into an accelerated share repurchase agreement to purchase \$400 million in shares of our common stock as part of capital return program.

Litigation

In September 2014, we filed lawsuits against Qualcomm, Inc. and various Samsung entities in the United States International Trade Commission, or ITC, and the United States District Court for the District of Delaware for using our GPU patents without a license. The ITC action is scheduled to be heard in June 2015 and seeks to permanently bar several Samsung products that rely on our patents in the United States. The Delaware case has been stayed during the pendency of the ITC action.

On November 10, 2014, Samsung filed a complaint against NVIDIA and Velocity Micro, Inc., in the United States District Court for the Eastern District of Virginia. That complaint and subsequent amended complaints allege that we infringed six patents and falsely advertised that the Tegra K1 processor is the world's fastest mobile processor. We have answered the most recent complaint and asserted counter-claims against Samsung for infringing four of NVIDIA's patents and for non-infringement and invalidity of the six patents asserted by Samsung. After the court severed our counter-claims from the main action, we voluntarily dismissed our counter-claims from the case. Trial on Samsung's claims is currently set to begin in January 2016.

On November 23, 2014, Samsung filed a complaint against NVIDIA, among others, in the ITC claiming infringement of four United States patents. Samsung seeks to permanently bar several products purportedly relying on these allegedly infringed patents in the United States. An ITC hearing on Samsung's patents is scheduled to begin in August 2015.

NVIDIA and Samsung have also challenged the validity of certain of each other's patents through inter partes review before the United States Patent and Trademark Office. The United States Patent and Trademark Office has not yet decided whether to institute review as to any of these patents.

Please refer to Note 11 of the Notes to Condensed Consolidated Financial Statements for further discussion.

Icera Modem Operations

On May 5, 2015, we announced our intent to wind-down our Icera modem operations and that we are open to a sale of the technology or operations. We estimate restructuring charges primarily during fiscal year 2016, in the range of \$100 million to \$125 million, consisting of severance and other employee termination benefits, tax expense items, and other costs associated with the wind-down, if we are unable to sell the Icera modem operations.

Financial Information by Business Segment and Geographic Data

Our Chief Executive Officer, who is considered to be our chief operating decision maker, or CODM, reviews financial information presented on an operating segment basis for purposes of making operating decisions and assessing financial performance. Our operating segments are equivalent to our reportable segments.

We report our business in two primary reporting segments - the GPU business and the Tegra Processor business - based on a single underlying graphics architecture.

Our GPU product brands aimed at specialized markets include GeForce for gamers; Quadro for designers; Tesla for researchers, deep learning and big-data analysts; and GRID for cloud-based visual computing users.

We also integrate our GPUs into mobile chips called system-on-a-chip (SOC) processors, which power tablets, and automotive infotainment and safety systems. Our Tegra brand integrates an entire computer onto a single chip, incorporating GPUs and multi-core CPUs with audio, video and input/output capabilities. They can also be integrated with baseband processors to add voice and data communication. Tegra conserves power while delivering state-of-the-art graphics and multimedia processing.

The "All Other" category presented below represents the revenue and expenses that our CODM does not assign to either the GPU business or the Tegra Processor business for purposes of making operating decisions or assessing financial performance. The revenue includes primarily patent licensing revenue and the expenses include corporate infrastructure and support costs, stock-based compensation costs, amortization of acquisition-related intangible assets, other acquisition-related costs, and other non-recurring charges and benefits that our CODM deems to be enterprise in nature.

Please refer to Note 13 of the Notes to Condensed Consolidated Financial Statements for further disclosure regarding segment information.

Results of Operations

The following table sets forth, for the periods indicated, certain items in our condensed consolidated statements of operations expressed as a percentage of revenue.

	Three Months Ended			
	April 26, 2015	April 27, 2014		
Revenue	100.0	% 100.0		%
Cost of revenue	43.3	45.2		
Gross profit	56.7	54.8		
Operating expenses:				
Research and development	29.5	30.3		
Sales, general and administrative	12.0	10.8		
Total operating expenses	41.5	41.1		
Operating income	15.4	13.7		
Interest income	0.8	0.5		
Interest expense	(1.0)	(1.0)))
Other income (expense), net	(0.1)	1.5))
Income before income tax	17.1	16.7		
Income tax expense	3.3	2.4		
Net income	13.8	% 14.3		%

Three months ended April 26, 2015 and April 27, 2014

Revenue

	Three Months Ended		\$	%	
	April 26, 2015	April 27, 2014			
	(In millions)				
GPU	\$940	\$898	\$42	5	%
Tegra Processor	145	139	6	4	%
All Other	66	66	—	—	%
Total	\$1,151	\$1,103	\$48	4	%

Revenue for the first quarter of fiscal year 2016 increased by 4% when compared to the first quarter of fiscal year 2015. A discussion of our revenue results for each of our operating segments is as follows:

GPU Business. GPU business revenue increased by 5% in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. This increase was due primarily to higher revenue from GeForce GPUs for gaming desktops and notebooks, reflecting a combination of continued strength in PC gaming and increased sales of our Maxwell-based GTX GPU products. Revenue from Tesla GPUs for high performance computing and cloud also increased driven by project wins with cloud service providers for deep learning. Revenue from GeForce GPU products for mainstream PC OEMs and Quadro GPU products declined compared to the first quarter of fiscal year 2015.

Tegra Processor Business. Tegra Processor business revenue increased by 4% in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. This increase was driven by sales of Tegra products serving automobile infotainment systems, custom development for a large customer, and SHIELD device sales, offset by declines in Tegra OEM product sales of smartphones and tablets.

All Other. We recognized \$66 million in revenue from the patent cross licensing arrangement with Intel during the first quarter of fiscal years 2016 and 2015.

Concentration of Revenue

Revenue from sales to customers outside of the United States and Other Americas accounted for 75% and 76% of total revenue for the first quarter of fiscal year 2016 and 2015, respectively. Revenue by geographic region is allocated to individual countries based on the location to which the products are initially billed even if the revenue is attributable to end customers in a different location.

Revenue from significant customers, those representing 10% or more of total revenue, was 10% of our total revenue from one customer for both the first quarter of fiscal year 2016 and fiscal year 2015.

Gross Profit and Gross Margin

Gross profit consists of total revenue, net of allowances, less cost of revenue. Cost of revenue consists primarily of the cost of semiconductors purchased from subcontractors, including wafer fabrication, assembly, testing and packaging, board and device costs, manufacturing support costs, including labor and overhead associated with such purchases, final test yield fallout, inventory and warranty provisions and shipping costs. Cost of revenue also includes development costs for license and service arrangements and stock-based compensation related to personnel associated with operations.

Gross margin is the percentage of gross profit to revenue. Our gross margin can vary in any period depending on the mix of types of products sold. Our gross margin is significantly impacted by the mix of products we sell.

Our overall gross margin was 56.7% and 54.8% for the first quarter of fiscal years 2016 and 2015, respectively.

Charges to cost of sales for inventory provisions totaled \$14 million and \$10 million for the first quarter of fiscal years 2016 and 2015, respectively, unfavorably impacting our gross margin by 1.2% and 0.9%, respectively. Sales of inventory that was previously written-off or written-down totaled \$9 million and \$5 million for the first quarter of fiscal years 2016 and 2015, respectively, favorably impacting our gross margin by 0.8% and 0.7%, respectively. As a result, the overall net effect on our gross margin from charges to cost of sales for inventory provisions and sales of items previously written-off or written-down was 0.4% unfavorable impact for the first quarter of fiscal year 2016 and a 0.2% unfavorable impact for the first quarter of fiscal year 2015.

A discussion of our gross margin results for each of our operating segments is as follows:

GPU Business. The gross margin of our GPU business increased in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. GPU margins increased primarily due to a richer product mix resulting from stronger sales of our Maxwell-based GeForce GTX GPU products for gaming and lower sales from GeForce GPU products for mainstream PC OEMs. Additionally, the volume increase of Tesla and GRID products also contributed to a richer mix of GPU sales.

Tegra Processor Business. The gross margin of our Tegra Processor business decreased in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015, primarily due to a slightly less rich product mix resulting from higher automotive and SHIELD product sales, which have lower gross margins than OEM smartphone and tablet sales, which declined in the current year quarter when compared to the prior year.

Operating Expenses

	Three Months Ended		\$	%	
	April 26, 2015	April 27, 2014			
	(In millions)				
Research and development expenses	\$339	\$334	\$5	1	%
Sales, general and administrative expenses	138	119	19	16	%
Total operating expenses	\$477	\$453	\$24	5	%
Research and development as a percentage of net revenue	29	% 30	%		
Sales, general and administrative as a percentage of net revenue	12	% 11	%		

Research and Development

Research and development expenses remained relatively flat during the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. Compensation and benefits increased by \$21 million resulting from employee additions, employee compensation increases and related costs, including stock-based compensation expense. Offsetting these increases was a \$22 million decrease in engineering development expenses.

Sales, General and Administrative

Sales, general and administrative expenses increased by 16% during the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. Compensation and benefits increased by \$10 million resulting from employee additions, employee compensation increases and related costs, including stock-based compensation expense. Outside professional fees increased, primarily due to \$16 million of legal fees associated with our litigation against Samsung and Qualcomm.

Interest Income and Interest Expense

Interest income consists of interest earned on cash, cash equivalents and marketable securities. Interest expense is primarily comprised of coupon interest and debt discount amortization related to the convertible notes issued in December 2013. Interest income was \$9 million and \$6 million during the first quarter of fiscal years 2016 and 2015, respectively. The increase in the first quarter of fiscal year 2016 was primarily due to higher average cash balances invested in interest bearing securities as well as higher purchased yields. Interest expense was \$12 million during the first quarter of fiscal year 2015, at relatively the same level as the first quarter of fiscal year 2015.

Other Income (Expense), net

Other income (expense), net consists primarily of realized gains and losses from the sale of marketable securities, sales of investments in non-affiliated companies, and the impact of changes in foreign currency rates. Other income in the first quarter of fiscal year 2015 included a \$17 million gain from the sale of a non-affiliated investment.

Income Taxes

We recognized income tax expense of \$38 million and \$26 million for the first quarter of fiscal year 2016 and 2015, respectively. Income tax expense as a percentage of income before taxes, or our effective tax rate, was 22.0% and 16.4% for the first quarter of fiscal year 2016 and 2015, respectively.

The increase in our effective tax rate in the first quarter of fiscal year 2016 as compared to the same period in the prior fiscal year was primarily related to an increase in the amount of earnings subject to United States tax and permanent

tax differences related to stock-based compensation in the first quarter of fiscal year 2016.

Our effective tax rate on income before tax for the first quarter of fiscal year 2016 of 22.0% was lower than the United States federal statutory rate of 35% due primarily to income earned in jurisdictions where the tax rate is lower than the United States federal statutory tax rate. Further, our effective tax rate for the first quarter of fiscal year 2016 of 22.0% differs from our annual projected effective tax rate for the first quarter of fiscal year 2016 of 24.0% due to discrete events that occurred in the first quarter of fiscal year 2016 primarily attributable to the tax benefits recognized upon the expiration of statutes of limitations in certain non-U.S. jurisdictions.

Our effective tax rate on income before tax for the first quarter of fiscal year 2015 of 16.4% was lower than the United States federal statutory rate of 35% due primarily to income earned in jurisdictions where the tax rate is lower than the United States federal statutory tax.

Please refer to Note 4 of the Notes to Condensed Consolidated Financial Statements for further information.

Liquidity and Capital Resources

	As of April 26, 2015	As of January 25, 2015
	(In millions)	
Cash and cash equivalents	\$464	\$497
Marketable securities	4,328	4,126
Cash, cash equivalents, and marketable securities	\$4,792	\$4,623

As of April 26, 2015, we had \$4.79 billion in cash, cash equivalents and marketable securities, an increase of \$169 million from \$4.62 billion as of January 25, 2015. This increase was mainly reflecting overall cash generation partially offset by \$53 million of share repurchases and \$46 million of dividends we paid during the first three months of fiscal year 2016.

	Three Months Ended	
	April 26, 2015	April 27, 2014
	(In millions)	
Net cash provided by operating activities	\$246	\$151
Net cash used in investing activities	\$(235) \$(330
Net cash used in financing activities	\$(44) \$(464

Cash provided by operating activities increased in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. The increase was primarily due to changes in working capital.

Cash used in investing activities decreased in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015. The decrease in cash used was primarily due to higher proceeds from sales and maturities of marketable securities.

Cash used in financing activities decreased in the first quarter of fiscal year 2016 compared to the first quarter of fiscal year 2015, primarily due to fewer share repurchases of our common stock in the current year compared to the \$500 million accelerated share repurchase transaction we entered into in the first quarter of fiscal year 2015.

Liquidity

Our primary source of liquidity is cash generated by our operations. Our investment portfolio consists principally of cash and cash equivalents, debt securities of corporations and United States government and its agencies, asset-backed securities, mortgage-backed securities issued by government-sponsored enterprises, money market funds and foreign government bonds. These investments are denominated in United States dollars. As of April 26, 2015, we did not have any investments in auction-rate preferred securities.

Please refer to Note 5 of the Notes to Condensed Consolidated Financial Statements for additional information.

As of April 26, 2015 and January 25, 2015, we had \$4.79 billion and \$4.62 billion, respectively, in cash, cash equivalents and marketable securities. Our investment policy requires the purchase of high grade investment securities and the diversification of asset types and includes certain limits on our portfolio duration, as specified in our investment policy guidelines. These guidelines also limit the amount of credit exposure to any one issue, issuer or type of instrument. As of April 26, 2015, we were in compliance with our investment policy. As of April 26, 2015, our investments in government agencies and government-sponsored enterprises represented 37% of our total investment portfolio, while the financial sector accounted for 30% of our total investment portfolio. All of our investments are with A/A3 or better rated securities.

Our cash balances are held in numerous locations throughout the world, including substantial amounts held outside of the United States. Most of the amounts held outside the United States may be repatriated to the United States.

However, if we repatriate foreign earnings for cash requirements in the United States, we would incur U.S. federal income tax at rate of 35% less utilization of any net operating loss carryforwards, and further offset by any applicable research and foreign tax credits, plus any state income taxes on such income. Repatriation of some foreign balances may be restricted by local laws.

Dividend payments and any share repurchases must be made from cash held in the United States. In the first quarter of fiscal year 2016, we made total cash dividend payments of \$46 million and repurchased \$53 million of our common stock, utilizing U.S. cash previously taxed as of April 26, 2015.

Capital Return to Shareholders

In May 2015, our Board extended the previously authorized repurchase program through December 2018 and authorized an additional \$1.62 billion for an aggregate of \$2.00 billion available for future repurchases.

For the first quarter of fiscal year 2016, we returned a total of \$99 million of capital to shareholders. As part of our share repurchase program, we repurchased a total of 2.4 million shares of our common stock during the first quarter of fiscal year 2016 for \$53 million. Additionally, we paid \$46 million in cash dividends for the first quarter of fiscal year 2016.

On May 7, 2015, we announced a 15% increase in the quarterly cash dividend to \$0.0975 per share from \$0.085 per share. We also stated that we would pay our next quarterly cash dividend of \$0.0975 per share on June 12, 2015, to all shareholders of record on May 21, 2015. Further, we also announced an increase in our intended return to shareholders in fiscal year 2016 to \$800 million from the previously stated \$600 million, through quarterly cash dividends and share repurchases. On May 11, 2015, we entered into an accelerated share repurchase agreement to purchase \$400 million in shares of our common stock as part of capital return program.

Our cash dividend program and the payment of future cash dividends under that program are subject to continued capital availability and our Board's continuing determination that the dividend program and the declaration of dividends thereunder are in the best interests of our shareholders and are in compliance with all laws and agreements of NVIDIA applicable to the declaration and payment of cash dividends.

Operating Capital and Capital Expenditure Requirements

We believe that our existing cash balances and anticipated cash flows from operations will be sufficient to meet our operating, acquisition, share repurchase, cash dividend and capital requirements for at least the next twelve months. However, there is no assurance that we will not need to raise additional equity or debt financing within this time frame. For example, we plan to break ground on our new Santa Clara, California campus in the second quarter of fiscal year 2016. We expect the total costs for this project to be in the range of \$365 million to \$380 million and we plan to obtain financing for it. Additional financing may not be available on favorable terms or at all and may be dilutive to our then-current shareholders. We also may require additional capital for other purposes not presently contemplated.

Contractual Obligations

As of April 26, 2015, we had outstanding inventory purchase obligations totaling \$398 million. There were no other material changes in our contractual obligations from those disclosed in our Annual Report on Form 10-K for the fiscal year ended January 25, 2015.

Please see Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources” in our Annual Report on Form 10-K for a description of our contractual obligations.

Off-Balance Sheet Arrangements

As of April 26, 2015, we had no material off-balance sheet arrangements as defined in Regulation S-K 303(a)(4)(ii).

Adoption of New and Recently Issued Accounting Pronouncements

Please see Note 1 of the Notes to Condensed Consolidated Financial Statements for a discussion of adoption of new and recently issued accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Financial market risks related to investment and interest rate risk and exchange rate risk are described in our 2015 Annual Report on Form 10-K. At April 26, 2015, there have been no material changes to the financial market risks described at January 25, 2015. Additionally, we do not currently anticipate any other near-term changes in the nature of our financial market risk exposures or in management's objectives and strategies with respect to managing such exposures.

ITEM 4. CONTROLS AND PROCEDURES

Controls and Procedures

Disclosure Controls and Procedures

Based on their evaluation as of April 26, 2015, our management, including our Chief Executive Officer and Chief Financial Officer, has concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) were effective to provide reasonable assurance.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting during our fiscal quarter ended April 26, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls, will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within NVIDIA have been detected.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Please see Part I, Item 1, Note 11 of the Notes to Condensed Consolidated Financial Statements for a discussion of our legal proceedings.

ITEM 1A. RISK FACTORS

Please refer to the description of the risk factors associated with our business previously disclosed in Item 1A of our Annual Report on Form 10-K for the year ended January 25, 2015. There have been no material changes from the risk factors previously described under Item 1A of our Annual Report on Form 10-K for the year ended January 25, 2015 with the exception of the risks identified below.

Before you buy our common stock, you should know that making such an investment involves some risks including, but not limited to, the risks described in Item 1A of our Annual Report on Form 10-K for the year ended January 25, 2015 and the risks set forth below. Additionally, any one of those risks could seriously harm our business, financial condition and results of operations, which could cause our stock price to decline. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations.

Our inability to effectively manage the wind down or to complete the sale of our Icera modem operations could adversely affect our financial condition and results of operations.

We announced the wind-down or potential sale of our Icera modem operations in the second quarter of fiscal year 2016. We estimate restructuring charges to our GAAP results in the range of \$100 million to \$125 million, primarily during fiscal year 2016, consisting of severance and other employee termination benefits, tax expense items, and other costs associated with the wind-down, if we are unable to sell the modem operations. Furthermore, our workforce may be reduced by approximately 500 employees, based primarily in the U.K. and France. Although the wind-down or a sale of the Icera modem technology or operations is expected to benefit our non-GAAP operating expenses in the second half of the year, there is no guarantee that a wind-down will be completed in the expected timeframe, or that a sale of the Icera business would happen at all. Additionally, if we experience inefficiencies or incremental costs in connection with our restructuring activities, we may be unable to meaningfully realize cost savings and we may incur expenses in excess of what we anticipate. Either of these outcomes could adversely impact our results of operations and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

Beginning August 2004, our Board of Directors authorized us, subject to certain specifications, to repurchase shares of our common stock. Most recently, in May 2015, the Board extended the previously authorized repurchase program through December 2018 and authorized an additional \$1.62 billion under the repurchase program.

As part of our share repurchase program, we repurchased a total of 2.4 million shares of our common stock during the first three months of fiscal year 2016 for \$53 million.

Through April 26, 2015, we have repurchased an aggregate of 208 million shares under our share repurchase program for a total cost of \$3.32 billion. All shares delivered from these repurchases have been placed into treasury stock. As of April 26, 2015, we were authorized, subject to certain specifications, to repurchase shares of our common stock up to \$382 million. However, as noted above, in May 2015, the Board authorized an additional \$1.62 billion under the repurchase program for an aggregate of \$2.00 billion available for future repurchases.

The repurchases will be made from time to time in the open market, in privately negotiated transactions, or in structured share repurchase programs, and may be made in one or more larger repurchases, in compliance with Rule 10b-18 of the Securities Exchange Act of 1934, as amended, subject to market conditions, applicable legal requirements, and other factors. The program does not obligate NVIDIA to acquire any particular amount of common stock and the program may be suspended at any time at our discretion. As part of our share repurchase program, we have entered into, and we may continue to enter into, structured share repurchase transactions with financial institutions. These agreements generally require that we make an up-front payment in exchange for the right to receive a fixed number of shares of our common stock upon execution of the agreement, and a potential incremental number of shares of our common stock, within a pre-determined range, at the end of the term of the agreement.

The following table presents details of our share repurchase transactions during the three months ended April 26, 2015 (in millions, except per share amounts):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
January 26, 2015 - February 22, 2015	—	—	—	\$434
February 23, 2015 - March 22, 2015	—	—	—	\$434
March 23, 2015 - April 26, 2015	2.4	\$21.90	2.4	\$382
Total	2.4	\$21.90	2.4	

In April 2015, we repurchased in the open market 2.4 million shares for \$53 million at an average price of \$21.90 per share. On May 11, 2015, as part of our stock repurchase program, we entered into an accelerated share repurchase agreement, or ASR, with an investment bank, under which we made an upfront payment of \$400 million to purchase shares of our common stock and received an initial delivery of 14 million shares. Upon final settlement of the ASR, we may either (1) receive additional shares of our common stock, or (2) be required to deliver shares of our common stock or elect to make a cash payment to the investment bank, based on the terms and conditions under the ASR. The shares we receive result in a reduction, on the delivery date, of the outstanding shares used to calculate the weighted-average common shares outstanding for basic and diluted earnings per share.

In addition to our share repurchase program, we withhold common stock shares associated with net share settlements to cover tax withholding obligations upon the vesting of restricted stock unit awards under our equity incentive program. During first three months of fiscal year 2016, we withheld 1 million shares at a total cost of \$29 million through net share settlements. Please refer to Note 2 of the Notes to Consolidated Financial Statements for further discussion regarding our equity incentive plan.
