EXPLANATORY NOTE

As described in Choice Hotels International, Inc's (the "Company") Current Report on Form 8-K filed on August 5, 2014 and Form 10-Q for the quarter ended June 30, 2014 filed on August 11, 2014, in connection with the preparation of the consolidated financial statements for the second quarter of 2014, the Company reviewed its accounting policies and practices, including the historical practice of reporting royalty and certain marketing and reservation fees one month in arrears as compared to when the gross room revenues (on which the fees are based) are earned by the Company's franchisees. The Company previously determined that the impact of the revenue recognition timing related to these revenues on its annual financial statements was not material and therefore reported these revenues one month in arrears despite the fact that these fees meet the definition of being earned and realizable in the same period that the underlying gross room revenues are earned by its franchisees. However, the Company reassessed the impact of reporting these revenues one month in arrears on interim periods and determined that this revenue recognition practice, which was not in accordance with generally accepted accounting principles in the United States of America ("GAAP"), was material to interim periods. Due to the seasonality of the Company's business, the impact of this change on previously reported interim revenues, operating income and earnings per share as reported in the Company's consolidated statements of income varies for individual past quarters and is generally positive in the first two quarters of the year and negative in the final two quarters of the year. As a result, the Company has corrected its revenue recognition method to recognize royalty and certain marketing and reservation system fees as revenue in the same period as the gross room revenues are earned by its franchisees.

This Form 10-Q/A amends the Company's Quarterly Report on Form 10-Q for the periods ended September 30, 2013 and 2012 as originally filed with the Securities and Exchange Commission (the "SEC") on November 12, 2013 (the "Original Filing"). This Form 10-Q/A amends the Original Filing to correct the Company's accounting for the Company's historical practice of reporting royalty and certain marketing and reservation fees one month in arrears as described in Note 1 to the consolidated financial statements and other immaterial errors as well as to correct management's evaluation of disclosure controls and procedures as of September 30, 2013. In addition, the Company's results of operations have been recast to reflect discontinued operations related to the Company's plan to dispose of the three Company owned Mainstay Suites hotels entered into in the first quarter of 2014. Revisions to the Original Filing have been made to the following items solely as a result of and to reflect the restatements:

- Item 1 - Financial Statements
- Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations
- Item 4 - Controls and Procedures
- Item 6 - Exhibits

The Company has also determined that a control deficiency related to the recording revenues for certain royalty and marketing and reservations system fees one month in arrears, which gave rise to these restatements, constituted a material weakness in its internal controls over financial reporting. As a result, the Company is restating management's December 31, 2013 report on internal control over financial reporting and its conclusions on disclosure controls and procedures to address the material weakness in internal control over financial reporting. As a result of the restatement, management has concluded that our disclosure controls and procedures were not effective as of September 30, 2013. The Company plans to remediate this material weakness during the year ending December 31, 2014 by updating the revenue recognition practice to ensure the accounting for royalty and certain marketing and reservation system fees is in compliance with GAAP. The material weakness noted above cannot be considered remediated until the applicable remedial controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. The required testing for remediation will occur prior the Company completing its assessment of internal controls for the year ending December 31, 2014. See "Item 4 - Controls and Procedures."

In accordance with applicable SEC rules, this Form 10-Q/A includes certifications from our Chief Executive Officer and Chief Financial Officer dated as of the date of this filing.

Except for the foregoing amended and restated information, no other changes have been made to the Original Form 10-Q. This Amendment continues to describe conditions as of the date of the Original Filing Date, and the disclosures contained herein have not been updated to reflect events, results or developments that have occurred after the Original Filing Date, or to modify or update those disclosures affected by subsequent events.

Accordingly, forward-looking statements included in this Form 10-Q/A represent management's views as of the Original Filing date and should not be assumed to be accurate as of any date thereafter. This Form 10-Q/A should be read in conjunction with the Company's other filings with the SEC, together with any amendments to those filings.

CHOICE HOTELS INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Company Information and Significant Accounting Policies (restated)

The accompanying unaudited consolidated financial statements of Choice Hotels International, Inc. and subsidiaries (together the "Company") have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited consolidated financial statements include all adjustments that are necessary, in the opinion of management, to fairly present our financial position and results of operations. Except as otherwise disclosed, all adjustments are of a normal recurring nature.

Certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted. The Company believes the disclosures made are adequate to make the information presented not misleading.

The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2012 and notes thereto included in the Company's Form 10-K/A, filed with the SEC on November 3, 2014 (the "10-K/A"). Interim results are not necessarily indicative of the entire year results. All inter-company transactions and balances between Choice Hotels International, Inc. and its subsidiaries have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revision to Prior Period Financial Statements -- Cash Flow Presentation

In connection with the preparation of the consolidated financial statements for the second quarter of 2013, a misapplication of GAAP was identified related to the presentation of cash flows pursuant to forgivable notes receivable. Previously, the Company applied Accounting Standards Codification ("ASC") 230 "Statement of Cash Flows" paragraphs 12 and 13 when reporting cash outflows and cash collections related to these notes receivable and as a result reported these items as cash flows from investing activities. In second quarter of 2013 and the following periods, the Company has revised its presentation of these cash flows in accordance with ASC 230 paragraphs 22 and 23 to reclassify them to operating activities on the Company's Consolidated Statements of Cash Flows.

In conjunction with brand and development programs, the Company issues forgivable notes receivable to qualifying franchisees for property improvements and other purposes. Under the terms of the forgivable promissory notes, the Company ratably reduces the outstanding principal balance and related interest over the term of the loan contingent upon the franchisee remaining within the franchise system and operating in accordance with the terms of the franchise agreement including credit, quality and brand standards. Therefore, the predominant reduction of these notes receivable is through non-cash operating expenses and not cash collections of note receivable amounts. As a result, the Company revised the cash flow classification of these forgivable notes receivable from investing activities to operating activities.

In accordance with ASC 250 (SEC's Staff Accounting Bulletin 99, "Materiality"), the Company assessed the materiality of the misapplication of GAAP and concluded that the reclassification of these cash flows was not material to any of its previously issued annual or interim financial statements. In accordance with the accounting guidance in ASC 250 (SEC Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements"), the Company has revised its previously issued financial statements to correct the presentation of these cash flows in both the current and future quarterly and annual filings beginning with the financial statements in the Quarterly Report on Form 10-Q filed on August 9, 2013 for the quarterly period ended June 30, 2013. These revisions did not impact the Company's previously reported net income, comprehensive income, assets, liabilities or shareholders' deficit.

Table of Contents

The following tables present the effect of the correction of the classification of the cash flows related to forgivable notes receivable on selected line items included in the Company's Consolidated Statements of Cash Flows for all periods affected:

Revision to Prior Annual Financial Statements and Restatement of Prior Interim Financial Statements

In connection with the preparation of the consolidated financial statements for the second quarter of 2014, the Company reviewed its accounting policies and practices, including the historical practice of reporting royalty and certain marketing and reservation fees one month in arrears as compared to when the gross room revenues (on which the fees are based) are earned by the Company's franchisees. The Company previously determined that the impact of the revenue recognition timing related to these revenues on its annual financial statements was not material and therefore reported these revenues one month in arrears despite the fact that these fees meet the definition of being earned and realizable in the same period that the underlying gross room revenues are earned by its franchisees. However, the Company reassessed the impact of reporting these revenues one month in arrears on interim periods and determined that this revenue recognition practice, which was not in accordance with GAAP, was material to interim periods due to the seasonality of the Company's business. As a result, the Company has corrected its revenue recognition method to recognize royalty and certain marketing and reservation system fees as revenue in the same period as the gross room revenues are earned by its franchisees.

In accordance with ASC 250 (SEC's Staff Accounting Bulletin 99, "Materiality"), the Company assessed the materiality of the misapplication of GAAP and concluded that the restatement of revenues was not material to any of its previously issued annual financial statements but was material to certain interim periods. In accordance with the accounting guidance in ASC 250 (SEC Staff Accounting Bulletin No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements"), the Company restated its previously issued interim financial statements for the periods ended June 30, 2013, March 31, 2014 and 2013, and September 30, 2013 and 2012 through the filing of amended quarterly filings on Form 10-Q. In addition, the Company has revised its previously issued audited financial statements for the years ended December 31, 2011, 2012, and 2013 to correct the presentation of revenues and amend its report on internal control over financial reporting.

The following tables present the effect of this and other immaterial errors for the financial statement line items impacted in the affected periods included within these interim financial statements.

Discontinued Operations

In the first quarter of 2014, the Company's management approved a plan to dispose of the three Company owned Mainstay Suites hotels. As a result, the Company has reported the operations related to these three hotels as discontinued operations in this Amended Quarterly Report on Form 10-Q. The Company's results of operations for the prior year periods have been recast

14

Table of Contents

to account for these operations as discontinued. For additional information regarding discontinued operations, see Note 18, Discontinued Operations.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of purchase to be cash equivalents. As of September 30, 2013 and December 31, 2012, \$3.4 million and \$5.0 million respectively, of book overdrafts representing outstanding checks in excess of funds on deposit are included in accounts payable in the accompanying consolidated balance sheets.

The Company maintains cash balances in domestic banks, which at times, may exceed the limits of amounts insured by the Federal Deposit Insurance Corporation. In addition, as of September 30, 2013, the Company maintains cash balances of \$149.8 million in international banks which do not provide deposit insurance.

Recently Adopted Accounting Guidance

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" ("ASU 2013-02"). This update requires companies to present either in a single note or parenthetically on the face of the financial statements the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source and the income statement line items affected by the reclassification. If a component is not required to be reclassified to net income in its entirety companies would instead cross reference to the related footnote for additional information. ASU 2013-02 became effective for interim and annual periods beginning after December 15, 2012 and the Company adopted this ASU during the first quarter of 2013. The Company has elected to present the required disclosures in a single note rather than on the face of the financial statement. See Note 8 for additional information.

Future Adoption of Recently Announced Accounting Guidance

In February 2013, the FASB issued ASU No. 2013-04, "Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date" ("ASU 2013-04"). The ASU requires entities to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, as the sum of the following: (a) The amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and (b) any additional amount the reporting entity expects to pay on behalf of its co-obligors. Required disclosures include a description of the joint-and-several arrangement and the total outstanding amount of the obligation for all joint parties. The ASU permits entities to aggregate disclosures (as opposed to providing separate disclosures for each joint-and-several obligation). ASU 2013-04 is effective for all interim and annual periods beginning after December 15, 2013. The ASU should be applied retrospectively to obligations with joint-and-several liabilities existing at the beginning of an entity's fiscal year of adoption. Early adoption is permitted. The Company is currently evaluating the impact the adoption of this statement will have on its financial statement presentation, if any, and will adopt the provisions of this ASU on January 1, 2014.

In March 2013, the FASB issued ASU No. 2013-05, "Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity" ("ASU 2013-05"). ASU 2013-05 clarifies that when a reporting entity ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity, the parent is required to apply the guidance in ASC 830 "Foreign Currency Matters" Subtopic 830-30 to release any related cumulative translation adjustment into net income. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. The provisions of ASU 2013-05 are effective prospectively for reporting periods beginning after December 15, 2013. The Company does not currently believe that the adoption of this update will have a material impact on its financial statements and will adopt the provisions of this ASU on January 1, 2014.

In July 2013, the FASB issued ASU No. 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU 2013-11"). ASU 2013-11 requires an entity to present an unrecognized tax benefit as a reduction of a deferred tax asset for a net operating loss ("NOL") carryforward, or similar tax loss or tax credit carryforward, rather than as a liability when (1) the uncertain tax position would reduce the NOL or other carryforward under the tax law of the applicable jurisdiction and (2) the entity intends to use the deferred tax asset for that purpose. The ASU does not require new recurring disclosures. The provisions of ASU 2013-11 are effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption and retrospective

Table of Contents

application are permitted. The Company does not currently believe that the adoption of this update will have a material impact on its financial statements and will adopt the provisions of this ASU on January 1, 2014.

2. Other Current Assets

Other current assets consist of the following:

	September 30, 2013	December 31, 2012
	(In thousands)	
Notes receivable (See Note 3)	\$14,126	\$14,415
Prepaid expenses	12,740	10,694
Land held for sale	—	8,541
Other current assets	3,136	3,019
Total	\$30,002	\$36,669

Land held for sale represents the Company's purchase of real estate as part of its program to incent franchise development in strategic markets for certain brands. The Company acquired this real estate with the intent to resell it to third-party developers for the construction of hotels operated under the Company's brands. The real estate, which is no longer classified as land held for sale, was accounted for as assets held for sale and therefore was carried at the lower of its carrying value or its estimated fair value (based on comparable sales), less estimated costs to sell.

3. Notes Receivable and Allowance for Losses

The Company segregates its notes receivable for the purposes of evaluating allowances for credit losses between two categories: Mezzanine and Other Notes Receivable and Forgivable Notes Receivable. The Company utilizes the level of security it has in the various notes receivable as its primary credit quality indicator (i.e. senior, subordinated or unsecured) when determining the appropriate allowances for uncollectible loans within these categories.

The following table shows the composition of our notes receivable balances:

Credit Quality Indicator	September 30, 2013 (\$ in thousands)			December 31, 2012 (\$ in thousands)		
	Forgivable Notes Receivable	Mezzanine & Other Notes Receivable	Total	Forgivable Notes Receivable	Mezzanine & Other Notes Receivable	Total
Senior	\$—	\$27,548	\$27,548	\$—	\$27,549	\$27,549
Subordinated	—	14,841	14,841	—	15,019	15,019
Unsecured	19,018	1,812	20,830	16,235	1,265	17,500
Total notes receivable	19,018	44,201	63,219	16,235	43,833	60,068
Allowance for losses on non-impaired loans	1,902	1,443	3,345	1,623	638	2,261
Allowance for losses on receivables specifically evaluated for impairment	—	8,453	8,453	—	8,289	8,289
Total loan reserves	1,902	9,896	11,798	1,623	8,927	10,550
Net carrying value	\$17,116	\$34,305	\$51,421	\$14,612	\$34,906	\$49,518
Current portion, net	\$425	\$13,701	\$14,126	\$420	\$13,995	\$14,415
	16,691	20,604	37,295	14,192	20,911	35,103

Long-term portion,
net

Total	\$17,116	\$34,305	\$51,421	\$14,612	\$34,906	\$49,518
-------	----------	----------	----------	----------	----------	----------

The Company classifies notes receivable due within one year as other current assets and notes receivable with a maturity greater than one year as other assets in the Company's consolidated balance sheets.

Table of Contents

The following table summarizes the activity related to the Company's Forgivable Notes Receivable and Mezzanine and Other Notes Receivable allowance for losses from December 31, 2012 through September 30, 2013:

	Forgivable Notes Receivable	Mezzanine & Other Notes Receivable
	(In thousands)	
Balance, December 31, 2012	\$1,623	\$8,927
Provisions	598	969
Recoveries	(25)	—
Write-offs	(147)	—
Other ⁽¹⁾	(147)	—
Balance, September 30, 2013	\$1,902	\$9,896

(1) Consists of default rate assumption changes

Forgivable Notes Receivable

As of September 30, 2013 and December 31, 2012, the unamortized balance of the Company's forgivable notes receivable totaled \$19.0 million and \$16.2 million, respectively. The Company recorded an allowance for credit losses on these forgivable notes receivable of \$1.9 million and \$1.6 million at September 30, 2013 and December 31, 2012, respectively. At September 30, 2013 and December 31, 2012, the Company did not have any forgivable unsecured notes that were past due. Amortization expense included in the accompanying consolidated statements of income related to the notes for the three and nine months ended September 30, 2013 was \$1.1 million and \$3.0 million, respectively. Amortization expense for the three and nine months ended September 30, 2012 was \$0.7 million and \$2.0 million, respectively.

Mezzanine and Other Notes Receivable

The Company determined that approximately \$13.2 million and \$13.3 million of its mezzanine and other notes receivable were impaired at September 30, 2013 and December 31, 2012, respectively. The Company recorded allowance for credit losses on these impaired loans at September 30, 2013 and December 31, 2012 totaling \$8.5 million and \$8.3 million, respectively, resulting in a carrying value of impaired loans of \$4.7 million and \$5.0 million, respectively. The Company recognized approximately \$81 thousand and \$0.2 million of interest income on impaired loans during the three and nine months ended September 30, 2013, respectively, on the cash basis. The Company recognized approximately \$38 thousand and \$100 thousand of interest income on impaired loans during the three and nine months ended September 30, 2012, respectively, on the cash basis. The Company provided loan reserves on non-impaired loans totaling \$1.4 million and \$0.6 million at September 30, 2013 and December 31, 2012, respectively.

Past due balances of mezzanine and other notes receivable by credit quality indicators are as follows:

	30-89 days Past Due	> 90 days Past Due	Total Past Due	Current	Total Notes Receivable
	(\$ in thousands)				
As of September 30, 2013					
Senior	\$9,500	\$—	\$9,500	\$18,048	\$27,548
Subordinated	—	10,268	10,268	4,573	14,841
Unsecured	—	47	47	1,765	1,812
	\$9,500	\$10,315	\$19,815	\$24,386	\$44,201
As of December 31, 2012					
Senior	\$—	\$—	\$—	\$27,549	\$27,549
Subordinated	619	9,629	10,248	4,771	15,019
Unsecured	—	47	47	1,218	1,265

\$619 \$9,676 \$10,295 \$33,538 \$43,833

Subsequent to September 30, 2013, the amounts reflected in the 30-89 past due column for senior mezzanine notes receivable totaling \$9.5 million were repaid in full.

Table of Contents

Loans Acquired with Deteriorated Credit Quality

On December 2, 2011, the Company acquired an \$11.5 million mortgage, held on a franchisee hotel asset, from a financial institution for \$7.9 million. At the time of acquisition, the Company determined that it would be unable to collect all contractually required payments under the original mortgage terms. The contractually required payments receivable, including principal and interest, under the terms of the acquired mortgage totaled \$12.0 million. The Company expects to collect \$9.7 million of these contractually required payments. No prepayments were considered in the determination of contractual cash flows and cash flows expected to be collected. At both September 30, 2013 and December 31, 2012, the carrying amount of this loan, which is reported under senior mezzanine and other notes receivables, was \$7.9 million and there was no allowance for uncollectable amounts. The Company's accretable yield at acquisition was \$1.8 million or 7.36% and a reconciliation of the accretable yield for the nine months ended September 30, 2013 is as follows:

	Accretable Yield (\$ in thousands)
Balance, December 31, 2012	\$ 1,161
Additions	—
Accretion	(433)
Disposals	—
Reclassifications from nonaccretable yield	—
Balance, September 30, 2013	\$ 728

4. Advances, Marketing and Reservation Activities (restated)

At September 30, 2013 and December 31, 2012, the Company had incurred cumulative marketing and reservation system expenses in excess of cumulative marketing and reservation system fees earned totaling \$14.1 million and \$29.5 million, respectively. These costs incurred in excess of fees collected have been deferred and recorded as an asset in the financial statements as the Company has the contractual authority to recover the deficits incurred related to marketing and reservation activities from the franchisees in the system at any given point in time.

Depreciation and amortization expense attributable to marketing and reservation activities for the three months ended September 30, 2013 and 2012 was \$3.9 million and \$3.7 million, respectively. Depreciation and amortization expense attributable to marketing and reservation activities for the nine months ended September 30, 2013 and 2012 was \$12.0 million and \$10.7 million, respectively. Interest expense attributable to marketing and reservation activities was \$0.9 million for both the three months ended September 30, 2013 and 2012, respectively. Interest expense attributable to marketing and reservation activities was \$2.8 million and \$3.0 million for the nine months ended September 30, 2013 and 2012, respectively.

The Company evaluates the recoverability of marketing and reservation costs incurred in excess of cumulative marketing and reservation system revenues earned on a periodic basis. The Company will record a reserve when, based on current information and events, it is probable that it will be unable to recover the cumulative amounts advanced for marketing and reservation activities according to the contractual terms of the franchise agreements. These advances are considered to be unrecoverable if the expected net, undiscounted cash flows from marketing and reservation activities are less than the carrying amount of the asset. Based on the Company's analysis of projected net cash flows from marketing and reservation activities for all periods presented, the Company concluded that the cumulative advances for marketing and reservation activities recorded as an asset on the balance sheet were fully recoverable and as a result no reserves were necessary.

Table of Contents

5. Other Assets

Other assets consist of the following:

	September 30, 2013	December 31, 2012
	(In thousands)	
Notes receivable (see Note 3)	\$37,295	\$35,103
Equity method investments	30,404	27,453
Deferred financing fees, net	9,509	11,174
Land	10,097	1,300
Other assets	899	983
Total	\$88,204	\$76,013

Land represents the Company's purchase of real estate as part of its program to incent franchise development in strategic markets for certain brands. The Company has acquired this real estate with the intent to either resell it to third-party developers for the construction of hotels operated under the Company's brands or contribute the land into joint ventures for the same purpose. The real estate is carried at the lower of its carrying value or its estimated fair value (based on comparable sales).

Variable Interest Entities

Equity method investments include investments in joint ventures totaling \$27.0 million and \$24.3 million at September 30, 2013 and December 31, 2012, respectively that the Company determined to be variable interest entities ("VIEs"). These investments relate to the Company's program to offer equity support to qualified franchisees to develop and operate Cambria Suites hotels in strategic markets. Based on an analysis of who has the power to direct the activities that most significantly impact these entities performance and who has an obligation to absorb losses of these entities or a right to receive benefits from these entities that could potentially be significant to the entity, the Company determined that it is not the primary beneficiary of any of its VIEs. The Company based its quantitative analysis on the forecasted cash flows of the entity and its qualitative analysis on its review of the design of the entity, its organizational structure including decision-making ability and the relevant development, operating management and financial agreements. As a result, the Company's investment in these entities is accounted for under the equity method. For the three and nine months ended September 30, 2013, the Company recognized income totaling \$81 thousand and \$9 thousand, respectively, from these investments. For the three and nine months ended September 30, 2012, the Company recognized income totaling \$75 thousand and \$84 thousand, respectively, from these investments.

6. Deferred Revenue

Deferred revenue consists of the following:

	September 30, 2013	December 31, 2012
	(In thousands)	
Loyalty programs	\$55,106	\$64,636
Initial, relicensing and franchise fees	4,369	4,994
Procurement service fees	1,197	1,225
Other	729	299
Total	\$61,401	\$71,154

Table of Contents

7. Debt (restated)

Debt consists of the following at:

	September 30, 2013	December 31, 2012
	(In thousands)	
\$400 million senior unsecured notes with an effective interest rate of 5.94% at September 30, 2013 and December 31, 2012	\$400,000	\$400,000
\$250 million senior unsecured notes with an effective interest rate of 6.19% less discount of \$0.4 million and \$0.5 million at September 30, 2013 and December 31, 2012	249,556	249,508
\$350 million senior secured credit facility with an effective interest rate of 2.52% and 2.66% at September 30, 2013 and December 31, 2012, respectively	170,125	203,250
Economic development loans with an effective interest rate of 3.00% at September 30, 2013	3,360	—
Capital lease obligations due 2016 with an effective interest rate of 3.18% at September 30, 2013 and December 31, 2012	2,017	2,519
Other notes payable	31	68
Total debt	\$825,089	\$855,345
Less current portion	9,132	8,195
Total long-term debt	\$815,957	\$847,150
Senior Notes Due 2022		

On June 27, 2012, the Company issued unsecured senior notes in the principal amount of \$400 million (the "2012 Senior Notes") at par, bearing a coupon of 5.75% with an effective rate of 5.94%. The 2012 Senior Notes will mature on July 1, 2022, with interest to be paid semi-annually on January 1st and July 1st. The Company used the net proceeds of this offering, after deducting underwriting discounts and commissions and other offering expenses, together with a portion of the proceeds from a new credit facility, to pay a special cash dividend totaling approximately \$600.7 million paid to shareholders on August 23, 2012. The Company's 2012 Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations by eight wholly-owned domestic subsidiaries.

Senior Notes Due 2020

On August 25, 2010, the Company issued unsecured senior notes in the principal amount of \$250 million (the "2010 Senior Notes") at a discount of \$0.6 million, bearing a coupon of 5.7% with an effective rate of 6.19%. The 2010 Senior Notes will mature on August 28, 2020, with interest to be paid semi-annually on February 28th and August 28th. The Company used the net proceeds from the offering, after deducting underwriting discounts and other offering expenses, to repay outstanding borrowings and for other general corporate purposes. The Company's 2010 Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations by eight wholly-owned domestic subsidiaries.

Revolving Credit Facilities

On July 25, 2012, the Company entered into a \$350 million senior secured credit facility, comprised of a \$200 million revolving credit tranche (the "New Revolver") and a \$150 million term loan tranche (the "Term Loan") with Deutsche Bank AG New York Branch, as administrative agent, Wells Fargo Bank, National Association, as administrative agent and a syndication of lenders (the "New Credit Facility"). The New Credit Facility has a final maturity date of July 25, 2016, subject to an optional one-year extension provided certain conditions are met. Up to \$25 million of the borrowings under the New Revolver may be used for letters of credit, up to \$10 million of borrowings under the New Revolver may be used for swing-line loans and up to \$35 million of borrowings under the New Revolver may be used for alternative currency loans. The Term Loan requires quarterly amortization payments (a) during the first two years, in equal installments aggregating 5% of the original principal amount of the Term Loan per year, (b) during the second two years, in equal installments aggregating 7.5% of the original principal amount of the Term Loan per year, and (c) during the one-year extension period (if exercised), equal installments aggregating 10% of the original principal amount of the Term Loan.

The Company utilized the proceeds from the Term Loan and borrowings from the New Revolver, together with the net proceeds from the Company's 2012 Senior Notes, to pay a special cash dividend of approximately \$600.7 million in the aggregate to the Company's stockholders on August 23, 2012.

Table of Contents

The New Credit Facility is unconditionally guaranteed, jointly and severally, by certain of the Company's domestic subsidiaries. The subsidiary guarantors currently include the eight wholly-owned subsidiaries that guarantee the obligations under the Company's Indenture governing the terms of its 2010 and 2012 Senior Notes.

The New Credit Facility is secured by first priority pledges of (i) 100% of the ownership interests in certain domestic subsidiaries owned by the Company and the guarantors, (ii) 65% of the ownership interests in (a) Choice Netherlands Antilles N.V. ("Choice NV"), the top-tier foreign holding company of the Company's foreign subsidiaries, and (b) the domestic subsidiary that owns Choice NV and (iii) all presently existing and future domestic franchise agreements (the "Franchise Agreements") between the Company and individual franchisees, but only to the extent that the Franchise Agreements may be pledged without violating any law of the relevant jurisdiction or conflicting with any existing contractual obligation of the Company or the applicable franchisee. At the time that the maximum total leverage ratio is required to be no greater than 4.0 to 1.0 (beginning of year 4 of the New Credit Facility), the security interest in the Franchise Agreements will be released.

The Company may at any time prior to the final maturity date increase the amount of the New Credit Facility by up to an additional \$100 million to the extent that any one or more lenders commit to being a lender for the additional amount and certain other customary conditions are met. Such additional amounts may take the form of an increased revolver or term loan.

The Company may elect to have borrowings under the New Credit Facility bear interest at a rate equal to (i) LIBOR, plus a margin ranging from 200 to 425 basis points based on the Company's total leverage ratio or (ii) a base rate plus a margin ranging from 100 to 325 basis points based on the Company's total leverage ratio.

The New Credit Facility requires the Company to pay a fee on the undrawn portion of the New Revolver, calculated on the basis of the average daily unused amount of the New Revolver multiplied by 0.30% per annum.

The Company may reduce the New Revolver commitment and/or prepay the Term Loan in whole or in part at any time without penalty, subject to reimbursement of customary breakage costs, if any. Any Term Loan prepayments made by the Company shall be applied to reduce the scheduled amortization payments in direct order of maturity. Additionally, the New Credit Facility requires that the Company and its restricted subsidiaries comply with various covenants, including with respect to restrictions on liens, incurring indebtedness, making investments, paying dividends or repurchasing stock, and effecting mergers and/or asset sales. With respect to dividends, the Company may not make any payment if there is an existing event of default or if the payment would create an event of default. In addition, if the Company's total leverage ratio exceeds 4.50 to 1.00, the Company is generally restricted from paying aggregate dividends in excess of \$50.0 million during any calendar year.

The New Credit Facility also imposes financial maintenance covenants requiring the Company to maintain:

- a total leverage ratio of not more than 5.75 to 1.00 in year 1, 5.00 to 1.00 in year 2, 4.50 to 1.00 in year 3 and 4.00 to 1.00 thereafter,
- a maximum secured leverage ratio of not more than 2.50 to 1.00 in year 1, 2.25 to 1.00 in year 2, 2.00 to 1.00 in year 3 and 1.75 to 1.00 thereafter, and
- a minimum fixed charge coverage ratio of not less than 2.00 to 1.00 in years 1 and 2, 2.25 to 1.00 in year 3 and 2.50 to 1.00 thereafter.

At September 30, 2013, the Company maintained a total leverage ratio of approximately 3.44x, a maximum secured leverage ratio of 0.72x and a minimum fixed charge coverage ratio of approximately 5.54x.

The New Credit Facility includes customary events of default, the occurrence of which, following any applicable cure period, would permit the lenders to, among other things, declare the principal, accrued interest and other obligations of the Company under the New Credit Facility to be immediately due and payable. At September 30, 2013, the Company was in compliance with all covenants under the New Credit Facility.

At September 30, 2013, the Company had \$140.6 million and \$29.5 million outstanding under the Term Loan and New Revolver, respectively. At December 31, 2012, the Company had \$146.3 million and \$57.0 million outstanding under the Term Loan and New Revolver, respectively.

In connection with the entering into the New Credit Facility, the Company's \$300 million senior unsecured revolving credit agreement, dated as of February 24, 2011, among the Company, Wells Fargo Bank, National Association, as administrative agent, and a syndicate of lenders was terminated and replaced by the New Credit Facility.

Table of Contents

Economic Development Loans

The Company entered into economic development agreements with various governmental entities in conjunction with the relocation of its corporate headquarters in April 2013. In accordance with these agreements, the governmental entities agreed to advance approximately \$4.4 million to the Company to offset a portion of the corporate headquarters relocation and tenant improvement costs in consideration of the employment of permanent, full-time employees within the jurisdictions. At September 30, 2013, the Company had been advanced approximately \$3.4 million pursuant to these agreements and expects to receive the remaining \$1 million over the next several years, subject to annual appropriations by the governmental entities. These advances bear interest at a rate of 3% per annum. Repayment of the advances is contingent upon the Company achieving certain performance conditions. Performance conditions are measured annually on December 31st and primarily relate to maintaining certain levels of employment within the various jurisdictions. If the Company fails to meet an annual performance condition, the Company may be required to repay a portion or all of the advances including accrued interest by April 30th following the measurement date. Any outstanding advances at the expiration of the Company's ten year corporate headquarters lease in 2023 will be forgiven in full. The advances will be included in long-term debt in Company's consolidated balance sheets until the Company determines that the future performance conditions will be met over the entire term of the agreement and the Company will not be required to repay the advances. The Company accrues interest on the portion of the advances that it expects to repay. The Company was in compliance with all current performance conditions as of September 30, 2013.

8. Accumulated Other Comprehensive Income (Loss) (restated)

The following represents the changes in accumulated other comprehensive loss, net of tax, by component for the nine months ended September 30, 2013:

	Loss on Cash Flow Hedge	Foreign Currency Items	Total
	(\$ in thousands)		
Balance, December 31, 2012	\$ (6,607) \$ 2,391	\$ (4,216)
Other comprehensive income (loss) before reclassification	—	(1,803) (1,803)
Amounts reclassified from accumulated other comprehensive income (loss)	646	—	646
Net current period other comprehensive income (loss)	646	(1,803) (1,157)
Balance, September 30, 2013	\$ (5,961) \$ 588	\$ (5,373)

The amounts reclassified from other accumulated other comprehensive income (loss) during the three and nine months ended September 30, 2013 were reclassified to the following line items in the Company's Consolidated Statements of Income.

Component	Amount Reclassified from		Affected Line Item in the Consolidated Statement of Net Income
	Accumulated Other Comprehensive Income(Loss) Three Months Ended September 30, 2013	Nine Months Ended September 30, 2013

	—	—	Tax (expense) benefit
	\$ 215	\$ 646	Net of tax

Table of Contents

9. Non-Qualified Retirement, Savings and Investment Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan ("EDCP") which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. Prior to January 1, 2010, participants could elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. Effective January 1, 2010, the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points is no longer an investment option for salary deferrals made on compensation earned after December 31, 2009. The Company recorded current and long-term deferred compensation liabilities of \$10.9 million and \$11.7 million, as of September 30, 2013 and December 31, 2012, respectively, related to these deferrals and credited investment returns. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. Compensation expense recorded in SG&A related to the EDCP for the three months ended September 30, 2013 and 2012 was \$0.3 million and \$0.2 million, respectively. Compensation expense recorded in SG&A related to the EDCP for the nine months ended September 30, 2013 and 2012 was \$0.7 million for both periods.

The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$3.8 million and \$6.0 million as of September 30, 2013 and December 31, 2012, respectively, and are recorded at their fair value, based on quoted market prices. At September 30, 2013, the Company expects \$0.4 million of the assets held in the trusts to be distributed to participants during the next twelve months. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying consolidated statements of income. The Company recorded investment gains related to the EDCP during the three months ended September 30, 2013 and 2012 of approximately \$0.2 million and \$0.1 million, respectively. The Company recorded investment gains related to the EDCP during the nine months ended September 30, 2013 and 2012 of approximately \$0.3 million and \$1.2 million, respectively. In addition, the EDCP Plan held shares of the Company's common stock with a market value of \$0.2 million and \$0.1 million at September 30, 2013 and December 31, 2012, respectively, which were recorded as a component of shareholders' deficit.

In 1997, the Company adopted the Choice Hotels International, Inc. Non-Qualified Retirement Savings and Investment Plan ("Non-Qualified Plan"). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of September 30, 2013 and December 31, 2012, the Company had recorded a deferred compensation liability of \$12.8 million and \$11.2 million, respectively, related to these deferrals. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. The net increase in compensation expense recorded in SG&A related to the Non-Qualified Plan for the three months ended September 30, 2013 and 2012 was \$0.6 million and \$0.2 million, respectively. The net increase in compensation expense recorded in SG&A related to the Non-Qualified Plan for the nine months ended September 30, 2013 and 2012 was \$1.3 million and \$0.8 million, respectively.

The diversified investments held in the trusts were \$11.6 million and \$10.2 million as of September 30, 2013 and December 31, 2012, respectively, and are recorded at their fair value, based on quoted market prices. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying consolidated statements of income. The Company recorded investment gains related to the Non-Qualified Plan during the three months ended September 30, 2013 and 2012 of

approximately \$0.5 million and \$0.4 million, respectively. The Company recorded investment gains related to the Non-Qualified Plan during the nine months ended September 30, 2013 and 2012 of approximately \$1.1 million and \$1.0 million, respectively. In addition, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$1.2 million and \$1.0 million at September 30, 2013 and December 31, 2012, respectively, which are recorded as a component of shareholders' deficit.

10. Fair Value Measurements

The Company estimates the fair value of its financial instruments utilizing a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The following summarizes the three levels of inputs, as well as the assets that the Company values using those levels of inputs.

Table of Contents

Level 1: Quoted prices in active markets for identical assets and liabilities. The Company's Level 1 assets consist of marketable securities (primarily mutual funds) held in the Company's EDCP and Non-Qualified Plan deferred compensation plans.

Level 2: Observable inputs, other than quoted prices in active markets for identical assets and liabilities, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable. The Company's Level 2 assets consist of money market funds held in the Company's EDCP and Non-Qualified Plan deferred compensation plans and those recorded in cash and cash equivalents.

Level 3: Unobservable inputs, supported by little or no market data available, where the reporting entity is required to develop its own assumptions to determine the fair value of the instrument. The Company does not currently have any assets whose fair value was determined using Level 3 inputs.

As of September 30, 2013 and December 31, 2012, the Company had the following assets measured at fair value on a recurring basis:

	Fair Value Measurements at Reporting Date Using			
	Total	Level 1	Level 2	Level 3
Assets (in thousands)				
As of September 30, 2013				
Money market funds, included in cash and cash equivalents	\$50,001	\$—	\$50,001	\$—
Mutual funds ⁽¹⁾	13,201	13,201	—	—
Money market funds ⁽¹⁾	2,135	—	2,135	—
	\$65,337	\$13,201	\$52,136	\$—
As of December 31, 2012				
Money market funds, included in cash and cash equivalents	\$20,001	\$—	\$20,001	\$—
Mutual funds ⁽¹⁾	11,884	11,884	—	—
Money market funds ⁽¹⁾	4,357	—	4,357	—
	\$36,242	\$11,884	\$24,358	\$—

(1)Included in Investments, employee benefit plans fair value on the consolidated balance sheets.

The Company's policy is to recognize transfers in and transfers out of the three levels of the fair value hierarchy as of the end of each quarterly reporting period. There were no transfers between Level 1, 2 and 3 assets during the three and nine months ended September 30, 2013.

Other Financial Instruments

The Company believes that the fair value of its current assets and current liabilities approximate their reported carrying amounts due to the short-term nature of these items. In addition, the interest rates of the Company's New Credit Facility adjust frequently based on current market rates; accordingly its carrying amount approximates fair value.

The Company estimates the fair value of notes receivable which approximate their carrying value, utilizing an analysis of future cash flows and credit worthiness for similar types of arrangements. Based upon the availability of market data, we have classified these notes receivables as Level 3 inputs. The primary sensitivity in these calculations is based on the selection of appropriate interest and discount rates. For further information on the notes receivables see Note 3.

The fair value of the Company's \$250 million and \$400 million senior notes are classified as Level 2 as the significant inputs are observable in an active market. At September 30, 2013 and December 31, 2012, the \$250 million senior notes had an approximate fair value of \$256.9 million and \$271.6 million, respectively. At September 30, 2013 and December 31, 2012, the \$400 million senior notes had an approximate fair value of \$412.0 million and \$442.0 million, respectively.

Fair values estimated are made at a specific point in time, are subjective in nature and involve uncertainties and matters of significant judgment. Settlement of such fair value amounts may not be possible and may not be a prudent management decision.

Table of Contents

11. Income Taxes (restated)

The effective income tax rates for income from continuing operations were 28.9% and 19.2% for the three months ended September 30, 2013 and 2012, respectively. The effective income tax rates for income from continuing operations were 28.8% for both the nine months ended September 30, 2013 and 2012, respectively.

The effective income tax rate from continuing operations for the three and nine months ended September 30, 2013 and 2012, were lower than the U.S federal income tax rate of 35% due to the recurring impact of foreign operations, partially offset by state taxes, and reflect adjustments to our federal accruals. Additionally, the effective income tax rate for the nine months ended September 30, 2013 was further reduced by the release of a valuation allowance on local country tax refunds received by our foreign subsidiary, adjustments to our foreign accruals, settlements of unrecognized tax positions and by legislation retroactively extending the U.S. controlled foreign corporation look-through rule. The effective income tax rates for the three and nine months ended September 30, 2012 also reflect a nonrecurring favorable adjustment of \$4.5 million related to foreign operations.

12. Share-Based Compensation and Capital Stock

Stock Options

No stock options were granted during the three month periods ended September 30, 2013 and 2012. The Company granted 0.2 million and 0.2 million options to certain employees of the Company at a fair value of \$1.7 million and \$1.6 million for the nine months ended September 30, 2013 and 2012, respectively. The stock options granted by the Company had an exercise price equal to the market price of the Company's common stock on the date of grant. The fair value of the options granted was estimated on the grant date using the Black-Scholes option-pricing model with the following weighted average assumptions:

	2013 Grants	2012 Grants	
Risk-free interest rate	0.73	% 0.78	%
Expected volatility	38.14	% 40.15	%
Expected life of stock option	4.5 years	4.4 years	
Dividend yield	2.01	% 2.08	%
Requisite service period	4 years	4 years	
Contractual life	7 years	7 years	
Weighted average fair value of options granted	\$9.89	\$9.98	

The expected life of the options and volatility are based on historical data and are not necessarily indicative of exercise patterns or actual volatility that may occur. Historical volatility is calculated based on a period that corresponds to the expected life of the stock option. The dividend yield and the risk-free rate of return are calculated on the grant date based on the then current dividend rate and the risk-free rate of return for the period corresponding to the expected life of the stock option. Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those awards that ultimately vest.

The aggregate intrinsic value of the stock options outstanding and exercisable at September 30, 2013 was \$29.6 million and \$23.4 million, respectively. The total intrinsic value of options exercised during the three months ended September 30, 2013 and 2012 was approximately \$0.5 million and \$0.5 million, respectively. The total intrinsic value of options exercised during the nine months ended September 30, 2013 and 2012 was approximately \$3.4 million and \$1.0 million, respectively.

The Company received approximately \$0.7 million and \$4.3 million in proceeds from the exercise of 29,008 and 109,996 employee stock options during the three month periods ended September 30, 2013 and 2012, respectively. The Company received approximately \$6.7 million and \$4.7 million in proceeds from the exercise of 263,073 and 135,200 employee stock options during the nine month periods ended September 30, 2013 and 2012, respectively.

Table of Contents

Restricted Stock

The following table is a summary of activity related to restricted stock grants:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Restricted share grants	7,646	7,672	223,045	266,159
Weighted average grant date fair value per share	\$39.24	\$32.59	\$37.65	\$35.76
Aggregate grant date fair value (\$000)	\$300	\$250	\$8,397	\$9,517
Restricted shares forfeited	25	13,619	27,953	23,921
Vesting service period of shares granted	36 months	36 months	12 - 48 months	12 - 68 months
Grant date fair value of shares vested (\$000)	\$94	\$75	\$8,569	\$6,693

Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those restricted stock grants that ultimately vest. The fair value of grants is measured by the market price of the Company's stock on the date of grant. Restricted stock awards generally vest ratably over the service period beginning with the first anniversary of the grant date. Awards granted to retirement eligible non-employee directors are recognized over the shorter of the requisite service period or the length of time until retirement since the terms of the grant provide that the awards will vest upon retirement.

Performance Vested Restricted Stock Units

The Company has granted performance vested restricted stock units ("PVRSU") to certain employees. The fair value is measured by the market price of the Company's common stock on the date of the grant. The vesting of these stock awards is contingent upon the Company achieving performance targets at the end of specified performance periods and the employees' continued employment. The performance conditions affect the number of shares that will ultimately vest. The range of possible stock-based award vesting is generally between 0% and 200% of the initial target. If minimum performance targets are not attained then no awards will vest under the terms of the various PVRSU agreements. Compensation expense related to these awards is recognized over the requisite service period based on the Company's estimate of the achievement of the various performance targets. The Company has currently estimated that between 81% and 165% of the various award targets will be achieved. Compensation expense is recognized ratably over the requisite service period only on those PVRSUs that ultimately vest.

The following table is a summary of activity related to PVRSU grants:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Performance vested restricted stock units granted at target	—	6,137	58,902	100,046
Weighted average grant date fair value per share	\$—	\$32.59	\$36.76	\$35.68
Aggregate grant date fair value (\$000)	\$—	\$200	\$2,165	\$3,570
Stock units forfeited	—	—	—	57,176
Requisite service period	—	41 months	22-36 months	36-60 months

During the three months ended September 30, 2013 and 2012, no PVRSU grants vested. During the nine months ended September 30, 2013, a total of 39,816 PVRSU grants vested at a fair value of \$1.3 million. These PVRSU grants were initially granted at a target of 30,624 units. However, since the Company exceeded targeted performance conditions contained in the stock awards granted in prior periods by 130%, an additional 9,192 shares were earned and issued. During the nine months ended September 30, 2012, PVRSU grants totaling 57,176 units were terminated in accordance with an amended and restated employment agreement.

Table of Contents

A summary of stock-based award activity as of September 30, 2013 and changes during the nine months ended are presented below:

	Stock Options			Restricted Stock		Performance Vested Restricted Stock Units	
	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value

Outstanding at September 30, 2013	1,768,901	\$26.46	3.2 years	573,749	\$36.61	198,394	\$36.37
Options exercisable at September 30, 2013	1,265,481	\$24.70	2.4 years				

⁽¹⁾PVRSU shares have been increased by 9,192 units due to the Company exceeding the targeted performance conditions contained in PVRSUs granted in prior periods during the nine months ended September 30, 2013. The components of the Company's pretax stock-based compensation expense and associated income tax benefits are as follows for the three and nine months ended September 30, 2013 and 2012:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Stock options	\$0.3	\$0.5	\$1.3	\$1.6
Restricted stock	2.1	1.8	5.7	5.7
Performance vested restricted stock units	0.5	0.8	1.7	1.3
Total	\$2.9	\$3.1	\$8.7	\$8.6
Income tax benefits	\$1.1	\$1.1	\$3.2	\$3.2
Dividends				

The Company currently pays a quarterly dividend on its common stock of 0.185 per share, however the declaration of future dividends are subject to the discretion of the board of directors. In the fourth quarter of 2012, the Company's board of directors elected to pay prior to December 31, 2012 the regular quarterly dividend initially scheduled to be paid in the first quarter of 2013. During the three and nine months ended September 30, 2013, the Company declared dividends totaling \$0.185 and \$0.56 per share or approximately \$10.8 million and \$32.3 million in the aggregate, respectively.

In addition, during the nine months ended September 30, 2013, the Company paid previously declared dividends totaling \$0.5 million that were contingent upon the vesting of performance vested restricted units. No dividends on performance vested restricted units were paid during the three months ended September 30, 2013. No dividends on performance vested restricted units were paid during the three and nine months ended September 30, 2012.

During the three and nine months ended September 30, 2012, the Company declared regular quarterly cash dividends totaling \$0.185 and \$0.56 per share or approximately \$10.7 million and \$32.1 million in the aggregate, respectively. In addition, during the three and nine months ended September 30, 2012, the Company's board of directors declared a

special cash dividend to common shareholders in the amount of \$10.41 per share or approximately \$600.7 million.

27

Table of Contents

Share Repurchases and Redemptions

No shares of common stock were purchased by the Company under the share repurchase program during the three and nine months ended September 30, 2013 and no shares of common stock were repurchased under the program during the three months ended September 30, 2012. During the nine months ended September 30, 2012, the Company purchased 0.5 million shares of common stock under the share repurchase program at a total cost of \$19.9 million. During the three and nine months ended September 30, 2013, the Company redeemed 795 and 98,182 shares of common stock at a total cost of approximately \$32 thousand and \$3.7 million from employees to satisfy statutory minimum tax requirements from the vesting of restricted stock and performance vested restricted stock unit grants. During the three and nine months ended September 30, 2012, the Company redeemed 1,525 and 64,037 shares of common stock at a total cost of approximately \$0.1 million and \$2.3 million from employees to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. These redemptions were outside the share repurchase program initiated in June 1998.

13. Earnings Per Share (restated)

The computation of basic and diluted earnings per common share is as follows:

(In thousands, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Computation of Basic Earnings Per Share:				
Numerator:				
Net income from continuing operations	\$38,573	\$42,637	\$89,973	\$100,639
Net income from discontinued operations	143	107	293	270
Net income	38,716	42,744	90,266	100,909

Diluted earnings per share - Discontinued operations	0.01	—	—	0
	\$0.66	\$0.73	\$1.53	\$1.73

Table of Contents

The Company's unvested restricted shares contain rights to receive non-forfeitable dividends, and thus are participating securities requiring the two-class method of computing earnings per share ("EPS"). The calculation of EPS for common stock shown above excludes the income attributable to the unvested restricted share awards from the numerator and excludes the dilutive impact of those awards from the denominator.

At September 30, 2013 and 2012, the Company had 1.8 million and 2.1 million outstanding stock options, respectively. Stock options are included in the diluted earnings per share calculation using the treasury stock method and average market prices during the period, unless the stock options would be anti-dilutive. For the three and nine month periods ended September 30, 2013, the Company did not exclude any anti-dilutive stock options from the diluted earnings per share calculation. For each the three and nine month periods ended September 30, 2012, the Company excluded 0.3 million of anti-dilutive stock options from the diluted earnings per share calculation. PVRsUs are also included in the diluted earnings per share calculation when the performance conditions have been met at the reporting date. However, at September 30, 2013 and 2012, PVRsUs totaling 198,394 and 152,639, respectively, were excluded from the computation since the performance conditions had not been met.

14. Condensed Consolidating Financial Statements (restated)

The Company's Senior Notes due 2020 and 2022 are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations, by eight 100%-owned domestic subsidiaries. There are no legal or regulatory restrictions on the payment of dividends to Choice Hotels International, Inc. from subsidiaries that do not guarantee the Senior Notes. As a result of the guarantee arrangements, the following condensed consolidating financial statements are presented. Investments in subsidiaries are accounted for under the equity method of accounting.

Certain revisions have been made to correct immaterial errors in the condensed consolidating statement of income for the three and nine months ended September 30, 2012 and condensed consolidating statement of cash flows for the nine months ended September 30, 2012. The revisions to the condensed consolidating statement of income decreased the Guarantor's marketing and reservation expense and total operating expenses by \$0.8 million and \$3.0 million for the three and nine months ended September 30, 2012, respectively. The revisions also increased the Guarantor's interest expense and total other income and expenses, net by \$0.8 million and \$3.0 million for the three and nine months ended September 30, 2012, respectively. These revisions had offsetting adjustments to the same items in the Eliminations column. The following tables present the effect of the correction of these immaterial errors on selected line items in the Company's Guarantor Condensed Consolidating Statements of Income for the three and nine months ended September 30, 2012.

	For the Three Months Ended September 30, 2012 (in thousands)			For the Nine Months Ended September 30, 2012		
	As Previously Reported	Adjustment	As Revised	As Previously Reported	Adjustment	As Revised
Marketing and reservation expense	\$89,498	\$(843)	\$88,655	\$244,861	\$(2,954)	\$241,907
Total operating expenses	111,041	(843)	110,198	314,261	(2,954)	311,307
Operating income (loss)	(2,470)) 843	(1,627)) 5,812	2,954	8,766
Interest expense	(839)) 843	4	(2,914)) 2,954	40
Total other income and expenses, net	(1,350)) 843	(507)) (5,051)) 2,954	(2,097)

Table of Contents

The condensed consolidating statements of cash flows for the nine months ended September 30, 2012 has been revised from prior filings to reflect the reclassification of certain operating, investing and financing cash flows related to inter-company investment transactions between wholly-owned subsidiaries. The revisions to the condensed consolidating statement of cash flows increased the Guarantors net cash provided (used) by operating activities and decreased investment in affiliates and net cash used in investing activities by \$9.7 million and decreased the Non-Guarantor's net cash provided (used) by operating activities and increased proceeds from contributions from affiliates and net cash provided (used) by financing activities by \$9.7 million for the nine months ended September 30, 2012, with corresponding offsetting adjustments to the same items in the Eliminations column. In addition, as described in Note 1 to the Company's Consolidated Financial Statements, the consolidated statements of cash flows have been revised for the correction of the misapplication of GAAP related to the presentation of cash flows from the Company's forgivable notes receivable. As a result of this revision, the Guarantors net cash provided (used) by operating activities and net cash used in investing activities were each decreased by \$2.9 million for the nine months ended September 30, 2012. The following tables present the effect of the correction for the aforementioned items on selected line items included in the Company's Condensed Consolidating Statement of Cash Flows for the nine months ended September 30, 2012:

	For the Nine Months Ended September 30, 2012					
	Guarantor (in thousands)			Non-Guarantor		
	As Previously Reported	Adjustment	As Revised	As Previously Reported	Adjustment	As Revised
Net cash provided (used) by operating activities	\$ (1,928) \$ 6,869	\$ 4,941	\$ 36,131	\$ (9,721) \$ 26,410
Investing Activities:						
Issuance of mezzanine and other notes receivable	(3,068) 3,068	—	—	—	—
Collection of mezzanine and other notes receivable	216	(216) —	—	—	—
Advances to and investments in affiliates	—	(9,721) (9,721) —	—	—
Net cash provided (used) in investing activities	1,649	(6,869) (5,220) (9,636) —	(9,636
Financing Activities:						
Proceeds from contributions from affiliates	—	—	—	—	9,721	9,721
Net cash provided (used) by financing activities	122	—	122	(14) 9,721	9,707

The Company assessed the materiality of the revisions noted above and concluded that they are not material to any of our previously issued annual or interim condensed consolidating financial statements.

Certain condensed consolidating financial statements have also been restated for the three and nine months ended September 30, 2013 and 2012, respectively, and the consolidated balance sheets at December 31, 2012 have been revised from previously interim and annual financial statements to reflect the correction of an error discussed in Note 1 under the heading "Revisions to Prior Annual Financial Statements and Restatement of Prior Interim Financial Statements" and other immaterial errors. In addition, the condensed consolidated statements of income for the three and nine months ended September 30, 2013 and 2012, have been recast to reflect discontinued operations, as

discussed in Note 18, "Discontinued Operations".

15. Reportable Segment Information (restated)

Franchising: Franchising includes the Company's hotel franchising operations consisting of its eleven brands. The eleven brands are aggregated within this segment considering their similar economic characteristics, types of customers, distribution channels and regulatory business environments. Revenues from the franchising business include royalty fees, initial franchise and relicensing fees, marketing and reservation system fees, procurement services revenue and other franchising related revenue. The Company is obligated under its franchise agreements to provide marketing and reservation services appropriate for the operation of its systems. These services do not represent separate reportable segments as their operations are directly related to the Company's franchising business. The revenues received from franchisees that are used to pay for part of the Company's ongoing operations are included in franchising revenues and are offset by the related expenses paid for marketing and reservation activities to calculate franchising operating income.

SkyTouch Technology: SkyTouch Technology ("SkyTouch") is a division of the Company that develops and markets cloud-based technology products to hoteliers not under franchise agreements with the Company to improve their efficiency and profitability.

The Company evaluates its segments based primarily on the results of the segment without allocating corporate expenses, income taxes or indirect general and administrative expenses. Equity in earnings or losses from financing related joint ventures is allocated to the Company's franchising segment. All other joint ventures are allocated to corporate & other. Corporate & other expenses consist primarily of overhead selling, general and administrative costs such as finance, legal, human resources and other general administrative expenses that are not allocated to the Company's two segments. As described in Note 4, certain interest expenses related to the Company's marketing and reservation activities are allocated to the franchising segment. The Company does not allocate the remaining interest expense, interest income, other gains and losses or income taxes to its segments.

Financial results for the three and nine months ended September 30, 2012, have been updated to reflect the financial results for the Company's SkyTouch segment which was established as a separate segment in 2013. The financial results related to SkyTouch were previously reported as a component of Corporate & Other.

The following table presents the financial information for the Company's segments:

Table of Contents

16. Commitments and Contingencies

Except as noted below, the Company is not a party to any litigation other than litigation in the ordinary course of business. The Company's management and legal counsel do not expect that the ultimate outcome of any of its currently ongoing legal proceedings, individually or collectively, will have a material adverse effect on the Company's financial position, results of operations or cash flows.

In May 2013, Choice was added to an ongoing multi-district class action pending in federal court in Dallas, Texas.

The lawsuit alleges that several online travel companies and hotel companies have engaged in anti-competitive practices. The complaint seeks an unspecified amount of damages and equitable relief. Choice disputes the allegations and is in the process of vigorously defending itself against these claims. We currently do not believe this litigation will have a material effect on our consolidated financial position, results of operation or liquidity.

Contingencies

On October 9, 2012, the Company entered into a limited payment guaranty with regards to a developer's \$18.0 million bank loan for the construction of a hotel franchised under one of the Company's brands in the United States. Under the terms of the limited guaranty, the Company has agreed to guarantee 25% of the outstanding principal balance and accrued and unpaid interest, as well as any unpaid expenses incurred by the lender. The limited guaranty shall remain in effect until the maximum amount guaranteed by the Company is paid in full. In addition to the limited guaranty, the Company entered into an agreement in which the Company guarantees the completion of the construction of the hotel and an environmental indemnity agreement which indemnifies the lending institution from and against any damages relating to or arising out of possible environmental contamination issues with regards to the property.

Commitments

The Company has the following commitments outstanding at September 30, 2013:

The Company occasionally provides financing in the form of forgivable promissory notes or cash incentives to franchisees for property improvements, hotel development efforts and other purposes. At September 30, 2013, the Company had commitments to extend an additional \$11.3 million for these purposes provided certain conditions are met by its franchisees, of which \$6.5 million is expected to be advanced in the next twelve months.

The Company committed to make additional capital contributions totaling \$4.9 million to existing joint ventures related to the construction of various hotels to be operated under the Company's Cambria Suites brand. These commitments are expected to be funded in the next twelve months.

In the ordinary course of business, the Company enters into numerous agreements that contain standard indemnities whereby the Company indemnifies another party for breaches of representations and warranties. Such indemnifications are granted under various agreements, including those governing (i) purchases or sales of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities, (v) issuances of debt or equity securities, and (vi) certain operating agreements. The indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility arrangements, (v) underwriters in debt or equity security issuances and (vi) parties under certain operating agreements. In addition, these parties are also generally indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. While some of these indemnities extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these indemnities, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these indemnifications as the triggering events are not subject to predictability. With respect to certain of the aforementioned indemnities, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates potential liability.

17. Termination Charges

During the nine months ended September 30, 2013, the Company recorded a \$1.5 million charge in SG&A and marketing and reservation expenses related to salary and continuation benefits provided to employees separating from service with the Company. At September 30, 2013, the Company had approximately \$0.5 million of these salary and benefits continuation payments remaining to be paid. During the nine months ended September 30, 2013, the Company paid an additional \$3.0 million of termination benefits related to employee termination charges recorded in prior periods and had approximately \$0.1

Table of Contents

million of these benefits remaining to be paid. At September 30, 2013 and December 31, 2012, total termination benefits of approximately \$0.6 million and \$3.1 million, respectively, remained payable and were included in current and non-current liabilities in the Company's consolidated financial statements. The Company expects \$0.6 million of these benefits to be paid in the next twelve months.

18. Discontinued Operations

In the first quarter of 2014, the Company's management approved a plan to sell the three Company-owned hotels operated under the MainStay Suites brand. The Company determined that this disposal transaction met the definition of a discontinued operation since the operations and cash flows of this component would be eliminated from the on-going operations of the Company and the Company will not have significant continuing involvement in the operations of the hotels after the disposal transaction.

The operations related to these three Company-owned hotels were reported as a component of "Corporate and Other" for segment reporting purposes. The results of operations for the three and nine months ended September 30, 2013 and 2012 presented in these Consolidated Financial Statements reflect these three Company-owned hotels as discontinued operations. Summarized financial information related to the discontinued operations is as follows:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is intended to help the reader understand Choice Hotels International, Inc. and subsidiaries (together the "Company"). MD&A is provided as a supplement to-and should be read in conjunction with-our consolidated financial statements and the accompanying notes.

As described in Note 1 to our consolidated financial statements under the heading "Revision to Prior Annual Financial Statements and Restatement of Prior Interim Financial Statements", the Company has corrected its revenue recognition method for its royalty and certain marketing and reservation system fee revenues and expenses and other immaterial errors. As a result, the Company now recognizes royalty and marketing and reservation system fee revenue in the same period that the gross room revenues are earned by the Company's franchisees, not one month in arrears. As a result, the Company has revised certain operating statistics in MD&A from previously reported amounts.

Overview

We are a hotel franchisor with franchise agreements representing 6,303 hotels open and 455 hotels under construction, awaiting conversion or approved for development as of September 30, 2013, with 502,663 rooms and 37,077 rooms, respectively, in 49 states, the District of Columbia and over 35 countries and territories outside the United States. Our brand names include Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Ascend Hotel Collection®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel®, and Cambria Suites® (collectively, the "Choice brands").

The Company's domestic franchising operations are conducted through direct franchising relationships while its international franchise operations are conducted through a combination of direct franchising and master franchising relationships. Master franchising relationships are governed by master franchising agreements which generally provide the master franchisee with the right to use our brands and sub-license the use of our brands in a specific geographic region, usually for a fee.

Our business philosophy has been to conduct direct franchising in those international markets where both franchising is an accepted business model and we believe our brands can achieve significant distribution. We elect to enter into master franchise agreements in those markets where direct franchising is currently not a prevalent or viable business model. When entering into master franchising relationships, we strive to select partners that have professional hotel and asset management capabilities together with the financial capacity to invest in building the Choice brands in their respective markets. Master franchising relationships typically provide lower revenues to the Company as the master

franchisees are responsible for managing certain necessary services (such as training, quality assurance, reservations and marketing) to support the franchised hotels in the master franchise area and therefore retain a larger percentage of the hotel franchise fees to cover their expenses. In certain circumstances, the Company has and may continue to make equity investments in our master franchisees.

As a result of our use of master franchising relationships and international market conditions, total revenues from international franchising operations comprised 8% of our total revenues for the nine months ended September 30, 2013, while representing approximately 19% of hotels open at September 30, 2013. Therefore, our description of the franchise system is primarily focused on the domestic operations.

Our Company generates revenues, income and cash flows primarily from initial, relicensing and continuing royalty fees attributable to our franchise agreements. Revenues are also generated from qualified vendor arrangements, hotel operations and other sources. The hotel industry is seasonal in nature. For most hotels, demand is lower in December through March than during the remainder of the year. Our principal source of revenues is franchise fees based on the gross room revenues of our franchised properties. The Company's franchise fee revenues reflect the industry's seasonality and historically have been lower in the first and fourth quarter than in the second and third quarters. With a focus on hotel franchising instead of ownership, we benefit from the economies of scale inherent in the franchising business. The fee and cost structure of our business provides opportunities to improve operating results by increasing the number of franchised hotel rooms and effective royalty rates of our franchise contracts resulting in increased initial fee and relicensing revenue, ongoing royalty fees and procurement services revenues. In addition, our operating results can also be improved through our company-wide efforts related to improving property level performance. The Company currently estimates, based on its current domestic portfolio of hotels under franchise, a 1% change in revenue per available room ("RevPAR") or rooms under franchise would increase or decrease annual domestic royalty revenues by approximately \$2.4 million and a 1 basis point change in the Company's effective royalty rate would increase or decrease annual domestic royalties by approximately \$0.6 million. In addition to these revenues, we also collect marketing and reservation system fees to support centralized marketing and reservation activities for the franchise system. As a lodging franchisor, the Company currently has relatively low capital expenditure requirements.

The principal factors that affect the Company's results are: the number and relative mix of franchised hotel rooms in the various hotel lodging price categories; growth in the number of hotel rooms under franchise; occupancy and room rates achieved by the hotels under franchise; the effective royalty rate achieved; the level of franchise sales and relicensing activity; and our ability to manage costs. The number of rooms at franchised properties and occupancy and room rates at those properties significantly affect the Company's results because our fees are based upon room revenues at franchised hotels. The key industry standard for measuring hotel-operating performance is RevPAR, which is calculated by multiplying the percentage of occupied rooms by the average daily room rate realized. Our variable overhead costs associated with franchise system growth of our established brands have historically been less than incremental royalty fees generated from new franchises. Accordingly, continued growth of our franchise business should enable us to realize benefits from the operating leverage in place and improve operating results.

We are required by our franchise agreements to use the marketing and reservation system fees we collect for system-wide marketing and reservation activities. These expenditures, which include advertising costs and costs to maintain our central reservations system, help to enhance awareness and increase consumer preference for our brands. Greater awareness and preference promotes long-term growth in business delivery to our franchisees, which ultimately increases franchise fees earned by the Company.

Our Company articulates its mission as a commitment to our franchisees' profitability by providing our franchisees with hotel franchises that strive to generate the highest return on investment of any hotel franchise. We have developed an operating system dedicated to our franchisees' success that focuses on delivering guests to our franchised hotels and reducing costs for our hotel owners.

We believe that executing our strategic priorities creates value for our shareholders. Our Company focuses on two key goals:

Profitable Growth. Our success is dependent on improving the performance of our hotels, increasing our system size by selling additional hotel franchises, effective royalty rate improvement and maintaining a disciplined cost structure. We attempt to improve our franchisees' revenues and overall profitability by providing a variety of products and services designed to increase business delivery to and/or reduce operating and development costs for our franchisees.

These products and services include national marketing campaigns, a central reservation system, property and yield management systems, quality assurance standards and qualified vendor relationships. We believe that healthy brands, which deliver a compelling return on investment for franchisees, will enable us to sell additional hotel franchises and raise royalty rates. We have established multiple brands that meet the needs of many types of guests, and can be developed at various price points and applied to both new and existing hotels. This ensures that we have brands suitable for creating growth in a variety of market conditions. Improving the performance of the hotels under franchise, growing the system through additional franchise sales and improving franchise agreement pricing while maintaining a disciplined cost structure are the keys to profitable growth.

Table of Contents

Maximizing Financial Returns and Creating Value for Shareholders. Our capital allocation decisions, including capital structure and uses of capital, are intended to maximize our return on invested capital and create value for our shareholders. We believe our strong and predictable cash flows create a strong financial position that provides us a competitive advantage. Currently, our business does not require significant capital to operate and grow. Therefore, we can maintain a capital structure that generates high financial returns and use our excess cash flow to increase returns to our shareholders.

Historically, we have returned value to our shareholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. Since the program's inception through September 30, 2013, we have repurchased 45.3 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$1.1 billion. Considering the effect of the two-for-one stock split, the Company has repurchased 78.3 million shares at an average price of \$13.89 per share. The Company did not purchase any shares under the share repurchase program during the nine months ended September 30, 2013. We currently believe that our cash flows from operations will support our ability to complete the current board of directors repurchase authorization of approximately 1.4 million shares remaining as of September 30, 2013. Upon completion of the current authorization, our board of directors will evaluate the advisability of additional share repurchases.

The Company commenced paying quarterly dividends in 2004 and in 2012 the Company elected to pay a special cash dividend totaling approximately \$600 million. The Company currently maintains the payment of a quarterly dividend on its common shares outstanding of \$0.185 per share, however the declaration of future dividends are subject to the discretion of the board of directors. In the fourth quarter of 2012, the Company's board of directors elected to pay prior to December 31, 2012 the regular quarterly dividend initially scheduled to be paid in the first quarter of 2013. As a result, the Company did not pay a regular quarterly dividend during the first quarter of 2013. During the nine months ended September 30, 2013, we paid cash dividends totaling approximately \$22.0 million. We expect to continue to pay dividends in the future, subject to declaration by our board of directors as well as to future business performance, economic conditions, changes in income tax regulations and other factors. Based on the present dividend rate and outstanding share count, we expect that aggregate annual regular dividends for 2013, excluding the first quarter payment which was paid to shareholders in December 2012, would be approximately \$32.8 million.

Our board of directors previously authorized us to enter into a program which permits us to offer investment, financing and guaranty support to qualified franchisees as well as to acquire and resell real estate to incent franchise development for certain brands in strategic markets. Recent market conditions have resulted in an increase in opportunities to incentivize development under this program and as a result over the next several years, we expect to deploy capital opportunistically pursuant to this program to promote growth of our emerging brands. The amount and timing of the investment will be dependent on market and other conditions. Our current expectation is that our annual investment in this program will range from \$20 million to \$40 million and we generally expect to recycle these investments within a five year period.

In addition, the Company may allocate capital to exploring additional growth opportunities in business areas that are adjacent or complementary to our core hotel franchising business, which leverage our core competencies and are additive to our franchising business model. The timing and amount of these investments are subject to market and other conditions.

In March 2013, the Company announced the launch of its newest division, SkyTouch Technology ("SkyTouch"), which develops and markets cloud-based technology products for the hotel industry. In conjunction with this new division, the Company expects to incur operating expenses ranging between \$12 million and \$14 million during the full year ending December 31, 2013, of which the Company has incurred approximately \$8.8 million during the nine months ended September 30, 2013. These expenses primarily relate to business development, sales and marketing and continued software development.

Notwithstanding investments in SkyTouch and other alternative growth strategies, the Company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, subject to the discretion of our board of directors as well as to business performance, economic conditions, changes in income tax regulations and other factors.

We believe these investments and strategic priorities, when properly implemented, will enhance our profitability, maximize our financial returns and continue to generate value for our shareholders. The ultimate measure of our success will be reflected in the items below.

Results of Operation: Royalty fees, operating income, net income and diluted earnings per share (“EPS”) represent key measurements of these value drivers. These measurements are primarily driven by the operations of our franchise system and therefore our analysis of the Company's operations is primarily focused on the size, performance and potential growth of the franchise system as well as our variable overhead costs.

Refer to MD&A heading “Operations Review” for additional analysis of our results.

Table of Contents

Liquidity and Capital Resources: Historically, the Company has generated significant cash flows from operations. Since our business does not currently require significant reinvestment of capital, we typically utilize cash in ways that management believes provide the greatest returns to our shareholders, which include share repurchases and dividends. We believe the Company's cash flow from operations and available financing capacity is sufficient to meet the expected future operating, investing, and financing needs of the business.

Refer to MD&A heading "Liquidity and Capital Resources" for additional analysis.

Operations Review

Comparison of Operating Results for the Three-Month Periods Ended September 30, 2013 and 2012

Summarized financial results for the three months ended September 30, 2013 and 2012 are as follows:

(in thousands, except per share amounts)	2013 (Restated)	2012 (Restated)
REVENUES:		
Royalty fees	\$79,460	\$78,038
Initial franchise and relicensing fees	4,650	3,247
Procurement services	4,708	3,839
Marketing and reservation	124,809	117,965
Other	3,091	2,182
Total revenues	216,718	205,271
OPERATING EXPENSES:		
Selling, general and administrative	26,409	23,072
Depreciation and amortization	2,272	1,860
Marketing and reservation	124,809	117,965
Total operating expenses	153,490	142,897
Operating income	63,228	62,374
OTHER INCOME AND EXPENSES, NET:		
Interest expense	10,757	10,166
Interest income	(676)	(425)
Loss on extinguishment of debt	—	526
Other (gains) and losses	(703)	(511)
Equity in net income of affiliates	(421)	(171)
Total other income and expenses, net	8,957	9,585
Income from continuing operations before income taxes	54,271	52,789
Income taxes	15,698	10,152
Income from continuing operations, net of income taxes	38,573	42,637
Income from discontinued operations, net of income taxes	143	107
Net income	\$38,716	\$42,744

The Company utilizes certain measures which do not conform to generally accepted accounting principles in the United States ("GAAP") when analyzing and discussing its results with the investment community. This information should not be considered as an alternative to any measure of performance as promulgated under GAAP. The Company's calculation of these measures may be different from the calculations used by other companies and therefore comparability may be limited. We have included below a reconciliation of the measures utilized during this period to the comparable GAAP measures as well as our reason for reporting these non-GAAP measures.

Franchising Revenues: The Company utilizes franchising revenues which exclude marketing and reservation system revenues and revenues from the SkyTouch Division rather than total revenues when analyzing the performance of the business. Marketing and reservation activities are excluded from franchising revenues since the Company is required by its franchise agreements to use these fees collected for marketing and reservation activities; as such, no net income

or loss to the Company is generated. Cumulative marketing and reservation system fees not expended are recorded as a payable on the Company's financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Table of Contents

Cumulative marketing and reservation expenditures in excess of fees collected for marketing and reservation activities are recorded as a receivable on the Company's financial statements and recovered in future periods. SkyTouch Technology is a division of the Company that develops and markets cloud-based technology products to help industry-wide hoteliers, not under franchise agreements with the Company, improve their efficiency and profitability. SkyTouch Technology operations are excluded from franchising revenue since they do not reflect the company's core franchising business but are an adjacent, complimentary line of business. This non-GAAP measure is a commonly used measure of performance in our industry and facilitates comparisons between the Company and its competitors.

Calculation of Franchising Revenues

	Three Months Ended September 30, (in thousands)	
	2013 (Restated)	2012 (Restated)
Franchising Revenues:		
Total Revenues	\$216,718	\$205,271
Adjustments:		
Marketing and reservation system revenues	(124,809)	(117,965)
SkyTouch Division	(13)	—
Franchising Revenues	\$91,896	\$87,306

Adjusted EBITDA: We also utilize adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") to analyze our results which reflects earnings excluding the impact of interest expense, interest income, loss on extinguishment of debt, provision for income taxes, depreciation and amortization, other (gains) and losses and equity in net income of unconsolidated affiliates. We consider Adjusted EBITDA to be an indicator of operating performance because we use it to measure our ability to service debt, fund capital expenditures, and expand our business. We also use Adjusted EBITDA, as do analysts, lenders, investors and others, to evaluate companies because they exclude certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provision for income taxes can vary considerably among companies. Adjusted EBITDA also excludes depreciation and amortization because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. Additionally, Adjusted EBITDA is also utilized as a performance indicator as it excludes equity in net (income) loss of unconsolidated affiliates and other (gains) and losses which primarily reflect the performance of investments held in the Company's non-qualified retirement, savings and investment plans which can vary widely from period to period based on market conditions.

Table of Contents

Calculation of Adjusted EBITDA

	Three Months Ended September 30, (in thousands)	
	2013 (Restated)	2012 (Restated)
Adjusted EBITDA:		
Income from continuing operations, net of income taxes	\$ 38,573	\$ 42,637
Income taxes	15,698	10,152
Interest expense	10,757	10,166
Interest income	(676)	(425)
Other (gains) and losses	(703)	(511)
Loss on the extinguishment of debt	—	526
Equity in net (income) loss of affiliates	(421)	(171)
Depreciation and amortization	2,272	1,860
Adjusted EBITDA	\$ 65,500	\$ 64,234

Results of Operations

The Company recorded income from continuing operations, net of income taxes, of \$38.6 million for the three month period ended September 30, 2013, a 10% decline from the \$42.6 million recorded for the quarter ended September 30, 2012. The decrease in net income primarily reflects the increase in the Company's effective income tax rate for continuing operations from 19.2% for the three month period ended September 30, 2012 to 28.9% for the current quarter. The effective income tax rate for the three months ended September 30, 2012 reflected a non-recurring favorable adjustment of \$4.5 million related to foreign operations. Income from continuing operations before income taxes increased \$1.5 million or 3% from the prior year quarter to \$54.3 million primarily due to a \$0.9 million or 1% increase in operating income.

The increase in operating income primarily reflects an increase in Adjusted EBITDA which increased \$1.3 million or 2.0% to \$65.5 million for the three month period ended September 30, 2013. The increase in Adjusted EBITDA reflects a \$4.6 million or 5% increase in the Company's franchising revenues for the three months ended September 30, 2013 partially offset by a \$3.3 million or 14% increase in selling, general and administrative expense ("SG&A").

Franchising Revenues: Franchising revenues were \$91.9 million for the three months ended September 30, 2013 compared to \$87.3 million for the three months ended September 30, 2012, an increase of 5%. The increase in franchising revenues is primarily due to a \$1.4 million or 2% increase in royalty revenues, a \$1.4 million increase in initial franchise and relicensing fees, a \$0.9 million increase in procurement services revenues and a \$0.9 million increase in other revenues.

Royalty Fees

Domestic royalty fees for the three months ended September 30, 2013 increased \$1.4 million to \$72.9 million, an increase of 2% compared to the three months ended September 30, 2012. The increase in royalties is attributable to a combination of factors including a 2.7% increase in RevPAR, a 0.7% increase in the number of domestic franchised hotel rooms open and a 3 basis point decline in the effective royalty rate from 4.31% to 4.28%. System-wide RevPAR increased due to a combination of a 1.5% increase in average daily rates and a 80 basis point increase in occupancy rates.

Table of Contents

A summary of the Company's domestic franchised hotels operating information is as follows:

	For the Three Months Ended September 30, 2013* (Restated)			For the Three Months Ended September 30, 2012* (Restated)			Change

Cambria Suites	18	2,094	19	2,221	(1)	(127)	(5.3)	% (5.7)	%	%
Total Domestic Franchises	5,134	396,663	5,034	393,987	100	2,676	2.0	% 0.7	%	%

Domestic hotels open and operating increased by 16 hotels during the three months ended September 30, 2013 compared to a net increase of 10 domestic hotels open and operating during the three months ended September 30, 2012. Gross domestic franchise additions increased from 68 for the three months ended September 30, 2012 to 75 for the same period of 2013. New construction hotels represented 7 and 9 of the gross domestic additions during the three months ended September 30, 2013 and 2012, respectively. Gross domestic additions for conversion hotels during the three months ended September 30, 2013 increased by 9 units to 68 from 59 for the three months ended September 30,

2012. The increase in franchise openings primarily reflects an increase in the number of executed contracts over the trailing twelve months ended September 30, 2013. The Company expects the number of new franchise units that will open during 2013 to increase from 308 in 2012 to approximately 338 hotels. Although there has been an increase in the number of projected openings, new construction and

Table of Contents

conversion openings continue to be impacted by the restrictive lending environment, retention efforts implemented by other hotel brand companies and increased competition for existing hotels seeking a new brand affiliation.

Net domestic franchise terminations increased slightly from 58 in the three months ended September 30, 2012 to 59 for the three months ended September 30, 2013.

International royalties declined by \$0.2 million or 2% from the third quarter of 2012 to \$6.6 million for the same period of 2013. International available rooms increased 3.0% to 106,000 as of September 30, 2013 from 102,942 as of September 30, 2012. The total number of international hotels increased 0.3% from 1,165 as of September 30, 2012 to 1,169 as of September 30, 2013. However, the increase in the number of available rooms in the international system was offset by unfavorable foreign currency fluctuations in the countries in which we operate.

Initial Franchise and Relicensing Fees

Domestic initial fee revenue, included in the initial franchise and relicensing fees caption on the Company's statements of income, generated from executed franchise agreements increased \$0.8 million to \$2.6 million for the three months ended September 30, 2013 from \$1.8 million for the three months ended September 30, 2012. Domestic initial fee revenue increased approximately 49% primarily due to a 45% increase in the number of new domestic executed franchise agreements as well as an increase in the amount of deferred revenue recognized in 2013 related to franchise agreements containing developer incentives that were executed in prior years. Revenues associated with agreements including incentives are deferred and recognized when the incentive criteria are met or the agreement is terminated, whichever comes first.

New domestic franchise agreements executed in the three months ended September 30, 2013 totaled 129 representing 10,591 rooms compared to 89 agreements representing 6,913 rooms executed in the third quarter of 2012. During the third quarter of 2013, 20 of the executed agreements were for new construction hotel franchises representing 1,397 rooms compared to 18 contracts representing 1,565 rooms for the three months ended September 30, 2012.

Conversion hotel executed franchise agreements totaled 109 representing 9,194 rooms for the three months ended September 30, 2013 compared to 71 agreements representing 5,348 rooms for the same period a year ago.

A summary of executed domestic franchise agreements by brand for the three months ended September 30, 2013 and 2012 is as follows:

	Three Months Ended September 30, 2013			Three Months Ended September 30, 2012			% Change					
	New Construction	Conversion	Total	New Construction	Conversion	Total	New Construction	Conversion	Total			
Comfort Inn	7	17	24	4	5	9	75	%	240	%	167	%
Comfort Suites	2	4	6	4	—	4	(50)%	NM		50	%

Suburban	1	—	1	1	—	1	—	%	NM		—	%
Ascend Hotel Collection	2	4	6	—	4	4	NM		—	%	50	%
Cambria Suites	1	—	1	2	—	2	(50)%	NM		(50)%
Total Domestic System	20	109	129	18	71	89	11	%	54	%	45	%

Relicensing fees include fees charged to the new owners of a franchised property whenever an ownership change occurs and the property remains in the franchise system as well as fees required to renew expiring franchise contracts. Domestic relicensing and renewal contracts increased 16% from 62 in the third quarter of 2012 to 72 for the three months ended September 30, 2013. As a result of the increase in contracts and an increase in average fees per contract, domestic relicensing revenues increased \$0.4 million or 32% from \$1.4 million for the three months ended

September 30, 2012 to \$1.8 million for the three months ended September 30, 2013.

Table of Contents

As of September 30, 2013, the Company had 371 franchised hotels with 29,871 rooms under construction, awaiting conversion or approved for development in its domestic system as compared to 360 hotels and 29,142 rooms at September 30, 2012. The number of new construction franchised hotels in the Company's domestic pipeline declined 1% to 217 at September 30, 2013 from 220 at September 30, 2012. Growth in the number of new construction hotels in the domestic pipeline continues to be negatively impacted by the limited availability of hotel construction financing. As a result, the ability of new and existing projects to obtain financing and commence construction has been significantly impacted and has resulted in the execution of fewer franchise agreements for new construction hotels than historically achieved. The number of conversion franchised hotels in the Company's domestic pipeline increased by 14 hotels or 10% from 140 hotels at September 30, 2012 to 154 hotels at September 30, 2013. The Company had an additional 84 franchised hotels with 7,206 rooms under construction, awaiting conversion or approved for development in its international system as of September 30, 2013 compared to 75 hotels and 7,008 rooms at September 30, 2012. While the Company's hotel pipeline provides a strong platform for growth, a hotel in the pipeline does not always result in an open and operating hotel due to various factors.

A summary of the domestic franchised hotels pipeline which includes hotels under construction, awaiting conversion and approved for development, at September 30, 2013 and 2012 by brand is as follows:

	September 30, 2013			September 30, 2012			Variance								
	Units			Units			Conversion		New Construction		Total				
	Conversion	New Construction	Total	Conversion	New Construction	Total	Units	%	Units	%	Units	%	Units	%

Procurement Services: Revenues increased \$0.9 million or 23% from \$3.8 million for the three months ended September 30, 2012 to \$4.7 million for the three months ended September 30, 2013. The increase in revenues primarily reflects the implementation of new brand programs as well as an increased volume of business transacted with qualified vendors and strategic alliance partners.

Other Income: Revenue increased \$0.9 million from the three months ended September 30, 2012 to \$3.1 million for the three months ended September 30, 2013. The increase in other income is primarily due to an increase in liquidated damage collections related to the early termination of franchise agreements as well as an increase in fees collected from franchisees for non-compliance with the Company's rules and regulations.

Selling, General and Administrative Expenses: The cost to operate the franchising business is reflected in SG&A on the consolidated statements of income. SG&A expenses were \$26.4 million for the three months ended September 30, 2013, an increase of \$3.3 million or 14% from the three months ended September 30, 2012. SG&A for the three months ended September 30, 2013 increased from the prior year primarily due to a \$2.0 million increase in alternative growth spending related to the launch of the Company's new SkyTouch Technology division. Excluding the incremental spending associated with the SkyTouch Technology division, SG&A expenses increased \$1.3 million or 6% primarily due to a \$0.3 million increase in variable franchise sales compensation due to the 49% increase in domestic initial fee revenue recognition and a \$0.6 million increase in compensation expense recognized on deferred compensation arrangements. The increase in compensation expense reflects the increase in the fair value of investments held in the Company's Non-Qualified and EDCP retirement and savings

Table of Contents

plans. The increase in deferred compensation expenses are partially offset by investment gains recorded in other gains and losses.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation system fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation system fees it collects from franchisees in accordance with the franchise agreements; as such, no net income or loss to the Company is generated.

Total marketing and reservation system revenues increased 6% from \$118.0 million for the three months ended September 30, 2012 to \$124.8 million for the three months ended September 30, 2013. The increase in revenues was primarily due to improved system fees resulting from system growth and RevPAR increases and increasing revenues from the Choice Privileges loyalty program resulting from the growth in program membership. Depreciation and amortization attributable to marketing and reservation activities was \$3.9 million and \$3.7 million for the three months ended September 30, 2013 and 2012, respectively. Interest expense attributable to marketing and reservation activities was approximately \$0.9 million for both the three months ended September 30, 2013 and 2012, respectively. As of September 30, 2013 and December 31, 2012, the Company's balance sheets include deferred costs of \$14.1 million and \$29.5 million, respectively, from cumulative marketing and reservation expenses incurred in excess of cumulative marketing and reservations system fee revenues earned. During the three months ended September 30, 2013, the Company collected \$19.7 million of marketing and reservation revenues in excess of expenses incurred as compared to \$16.3 million in the same period of 2012. The fees collected in excess of expenses incurred were utilized to reimburse the Company for a portion of the outstanding cumulative advances for marketing and reservation activities. This resulted in expense recognition of an equivalent amount of previously unrecognized costs. The increase in the excess fees collected in the third quarter of 2013 over 2012 primarily reflects increased revenues related to the growth of the number of units and RevPAR in the franchise system.

The decline in cumulative advances for marketing and reservation activities from December 31, 2012 to September 30, 2013 primarily reflects the timing of various marketing programs and the seasonality of the Company's revenues as the Company's third quarter revenues are typically higher than other quarters due to the U.S. summer travel season. In addition, the decline in cumulative advances reflects the Company's strategy to recover prior year advances for marketing and reservation activities in future periods. These costs incurred in excess of fees collected have been deferred and recorded as an asset in the financial statements as the Company has the contractual authority to recover the deficits incurred related to marketing and reservation activities from the franchisees in the system at any given point in time. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue and whether or not they joined the system following the deficit's occurrence. The Company expects to recover the deferred costs over a period of time by expending fewer amounts on marketing and reservation activities than marketing and reservation system fees collected, depending on the marketing and reservation needs of the system. Conversely, cumulative marketing and reservation system fees not expended are recorded as a liability in the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Interest Expense: Interest expense increased \$0.6 million for the three months ended September 30, 2013 to \$10.8 million due to the issuance of the Company's \$350 million senior secured credit facility entered into by the Company on July 25, 2012. The Company utilized the proceeds from this debt issuance as well as the issuance of \$400 million in senior notes in June 2012 to pay a special cash dividend on August 23, 2012 totaling approximately \$600.7 million to common stockholders.

Loss on Extinguishment of Debt: During the quarter ended September 30, 2012, the Company recognized a \$0.5 million loss on extinguishment of debt in conjunction with the refinancing of the Company's prior \$300 million revolving credit facility which was scheduled to mature in February 2016.

Income taxes: The effective income tax rates for continuing operations were 28.9% and 19.2% for the three months ended September 30, 2013 and September 30, 2012, respectively. The effective income tax rate for the three

months ended September 30, 2013 and 2012 were lower than the U.S federal income tax rate of 35% due to the recurring impact of foreign operations, partially offset by state taxes, and reflect adjustments to our federal accruals. In addition, the effective income tax rate for the three months ended September 30, 2012 reflects a nonrecurring favorable adjustment of \$4.5 million related to foreign operations.

Table of Contents

Discontinued Operations: In the first quarter of 2014, the Company's management approved a plan to dispose of three Company owned Mainstay Suites hotels. As a result, the Company has reported the operations related to these three hotels as discontinued operations in this amended Form 10-Q.

Diluted EPS: Diluted EPS from continuing operations decreased 11% to \$0.65 for the three months ended September 30, 2013 from \$0.73 for the same period of the prior year. The decrease in diluted EPS primarily reflects the items discussed above.

Comparison of Operating Results for the Nine-Month Periods Ended September 30, 2013 and 2012

Summarized financial results for the nine months ended September 30, 2013 and 2012 and are as follows:

(in thousands, except per share amounts)	2013 (Restated)	2012 (Restated)
REVENUES:

Income from continuing operations, net of income taxes	89,973	100,639
Income from discontinued operations	293	270
Net income	\$90,266	\$100,909

The Company utilizes certain measures which do not conform to generally accepted accounting principles in the United States (“GAAP”) when analyzing and discussing its results with the investment community. This information should not be considered as an alternative to any measure of performance as promulgated under GAAP. The Company's calculation of these measures may be different from the calculations used by other companies and therefore comparability may be limited. We have included below a reconciliation of the measures utilized during this period to the comparable GAAP measures as well as our reason for reporting these non-GAAP measures.

Franchising Revenues: The Company utilizes franchising revenues which exclude marketing and reservation system revenues and revenues from the SkyTouch Division rather than total revenues when analyzing the performance of the business. Marketing and reservation activities are excluded from franchising revenues since the Company is required by its franchise agreements to use these fees collected for marketing and reservation activities; as such, no net income

or loss to the Company is generated. Cumulative marketing and reservation system fees not expended are recorded as a payable on the Company's financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements. Cumulative marketing and reservation expenditures in excess of fees collected for marketing and reservation activities are

55

Table of Contents

recorded as a receivable on the Company's financial statements and recovered in future periods. SkyTouch Technology is a division of the Company that develops and markets cloud-based technology products to help industry-wide hoteliers, not currently under franchise agreements with the Company, improve their efficiency and profitability. SkyTouch Technology operations are excluded from franchising revenue since they do not reflect the company's core franchising business but are an adjacent, complimentary line of business. This non-GAAP measure is a commonly used measure of performance in our industry and facilitates comparisons between the Company and its competitors.

Calculation of Franchising Revenues

	Nine Months Ended September 30, (in thousands)	
	2013 (Restated)	2012 (Restated)
Franchising Revenues:		
Total Revenues	\$555,819	\$527,709
Adjustments:		
Marketing and reservation revenues	(311,204)	(294,345)
SkyTouch Division	(13)	—
Franchising Revenues	\$244,602	\$233,364

Adjusted EBITDA: We also utilize adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") to analyze our results which reflects earnings excluding the impact of interest expense, interest income, loss on extinguishment of debt, provision for income taxes, depreciation and amortization, other (gains) and losses and equity in net income (loss) of unconsolidated affiliates. We consider Adjusted EBITDA to be an indicator of operating performance because we use it to measure our ability to service debt, fund capital expenditures, and expand our business. We also use Adjusted EBITDA, as do analysts, lenders, investors and others, to evaluate companies because they exclude certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be dependent on a company's capital structure, debt levels and credit ratings. Accordingly, the impact of interest expense on earnings can vary significantly among companies. The tax positions of companies can also vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the jurisdictions in which they operate. As a result, effective tax rates and provision for income taxes can vary considerably among companies. Adjusted EBITDA also excludes depreciation and amortization because companies utilize productive assets of different ages and use different methods of both acquiring and depreciating productive assets. These differences can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. Additionally, Adjusted EBITDA is also utilized as a performance indicator as it excludes equity in net (income) loss of unconsolidated affiliates and other (gains) and losses which primarily reflect the performance of investments held in the Company's non-qualified retirement, savings and investment plans which can vary widely from period to period based on market conditions.

Calculation of Adjusted EBITDA

	Nine Months Ended September 30, (in thousands)

Table of Contents

Results of Operations

The Company recorded income from continuing operations, net of income taxes, of \$90.0 million for the nine month period ended September 30, 2013, an 11% decline from the \$100.6 million recorded for the nine months ended September 30, 2012. The decrease in net income primarily reflects a \$15.5 million increase in interest expense resulting from the issuance of debt in June and July of 2012 to finance the Company's \$600.7 million special dividend paid on August 23, 2012 and a \$0.3 million decline in operating income. Income from continuing operations, net of income taxes was also impacted by a decline in other (gains) and losses resulting from a \$1.3 million appreciation in the fair value of investments held in the Company's non-qualified employee benefit plans during the nine months ended September 30, 2013 compared to a \$2.1 million increase in the fair value of these investments in the same period of the prior year.

The \$0.3 million decline in operating income primarily reflects a \$1.1 million increase in depreciation and amortization expenses partially offset by a \$0.8 million increase in Adjusted EBITDA. The increase in Adjusted EBITDA reflects an \$11.2 million or 5% increase in the Company's franchising revenues for the nine months ended September 30, 2013 partially offset by a \$10.5 million or 14% increase in selling, general and administrative ("SG&A") expense.

Franchising Revenues: Franchising revenues were \$244.6 million for the nine months ended September 30, 2013 compared to \$233.4 million for the nine months ended September 30, 2012, an increase of 5%. The increase in franchising revenues is primarily due to a 3% increase in royalty revenues, a \$3.9 million, or 43% increase in initial franchise and relicensing fees, and a \$2.2 million, or 16% increase in procurement services fees.

Royalty Fees

Domestic royalty fees for the nine months ended September 30, 2013 increased \$5.5 million to \$189.6 million from \$184.1 million during the nine months ended September 30, 2012, an increase of 3%. The increase in royalties is attributable to a combination of factors including a 3.1% increase in RevPAR, a 0.7% increase in the number of domestic franchised hotel rooms and a 1 basis point increase in the effective royalty rate from 4.32% to 4.33%. System-wide RevPAR increased due to a combination of a 1.7% increase in average daily rates and a 80 basis point increase in occupancy rates.

A summary of the Company's domestic franchised hotels operating information is as follows:

	For the Nine Months Ended September 30, 2013* (Restated)			For the Nine Months Ended September 30, 2012* (Restated)			Change					
	Average Daily Rate	Occupancy	RevPAR	Average Daily Rate	Occupancy	RevPAR	Average Daily Rate	Occupancy	RevPAR

*

Operating statistics exclude Cambria Suites since the operating statistics are not representative of a stabilized brand which the Company defines as having at least 25 units open and operating for a twelve month period. Domestic hotels open and operating increased by 51 hotels during the nine months ended September 30, 2013 compared to an increase of 33 domestic hotels open and operating during the nine months ended September 30, 2012. Gross domestic franchise additions increased from 180 for the nine months ended September 30, 2012 to 236 for the same period in 2013. New construction hotels represented 24 of the gross domestic additions during the nine months ended September 30, 2013 compared to 23 hotels in the same period of the prior year. Gross domestic additions for conversion hotels increased from 157 hotels

Table of Contents

during nine months ended September 30, 2012 to 212 hotels during the same period of the current year. The increase in franchise openings primarily reflects a strategic marketing alliance entered into with a timeshare company which added 23 hotels to our Ascend Collection and a 37% increase in the number of executed contracts over the trailing twelve months ended September 30, 2013.

Net domestic franchise terminations increased from 147 for the nine months ended September 30, 2012 to 185 for the same period of the current year. The increase in net terminations is primarily related to the removal of hotels for non-compliance with the Company's rules, regulations and standards as well as non-payment of franchise fees. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are under performing in their market. As the domestic economy and industry supply growth improve, the Company will continue to focus on improving its system of hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties declined by \$0.3 million from \$18.9 million during the nine months ended September 30, 2012 to \$18.6 million for the same period of 2013 primarily due to RevPAR performance in the various countries in which we operate and foreign currency fluctuations. The declines in RevPAR and foreign currency were partially offset by an increase in international available rooms. International available rooms increased 3.0% to 106,000 as of September 30, 2013 from 102,942 as of September 30, 2012. The total number of international hotels increased 0.3% from 1,165 as of September 30, 2012 to 1,169 as of September 30, 2013.

Initial Franchise and Relicensing Fees

Domestic initial fee revenue, included in the initial franchise and relicensing fees caption on the Company's statements of income, generated from executed franchise agreements increased 40% to \$7.3 million for the nine months ended September 30, 2013 from \$5.2 million for the nine months ended September 30, 2012. Domestic initial fees increased due to a 22% increase in the number of new franchise agreements executed and an increase in amount of deferred revenue recognized in 2013 related to franchise agreements containing developer incentives that were executed in prior years. Revenues associated with agreements including incentives are deferred and recognized when the incentive criteria are met or the agreement is terminated, whichever comes first.

New domestic franchise agreements executed in the nine months ended September 30, 2013 totaled 315 representing 25,369 rooms compared to 259 agreements representing 20,541 rooms executed during the same period of the prior year. During the nine months ended September 30, 2013, 44 of the executed agreements were for new construction hotel franchises, representing 3,068 rooms, compared to 46 contracts, representing 3,495 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 271 representing 22,301 rooms for the nine months ended September 30, 2013 compared to 213 agreements representing 17,046 rooms for the same period a year ago.

A summary of executed domestic franchise agreements by brand for the nine months ended September 30, 2013 and 2012 is as follows:

	For the Nine Months Ended September 30, 2013			For the Nine Months Ended September 30, 2012			% Change					
	New Construction	Conversion	Total	New Construction	Conversion	Total	New Construction	Conversion	Total

Table of Contents

Relicensing fees include fees charged to the new owners of a franchised property whenever an ownership change occurs and the property remains in the franchise system as well as fees required to renew expiring franchise contracts. Domestic relicensing and renewal contracts increased 29% from 158 during the nine months ended September 30, 2012 to 204 for the same period of 2013. As a result of the increase in contracts and an increase in average fees, domestic relicensing revenues increased \$1.4 million, or 42% from \$3.4 million for the nine months ended September 30, 2012 to \$4.8 million for the nine months ended September 30, 2013.

Procurement Services: Revenues increased \$2.2 million or 16% from \$14.0 million for the nine months ended September 30, 2012 to \$16.2 million for the nine months ended September 30, 2013. The increase in procurement services revenue primarily reflects the implementation of new brand programs as well as an increased volume of business transacted with qualified vendors and strategic alliance partners.

Selling, General and Administrative Expenses: The cost to operate the franchising business is reflected in SG&A on the consolidated statements of income. SG&A expenses were \$82.8 million for the nine months ended September 30, 2013, a \$10.5 million or 14% increase from the nine months ended September 30, 2012. SG&A for the nine months ended September 30, 2013 increased from the prior year primarily due to a \$5.0 million increase in alternative growth spending primarily related to the launch of the Company's new SkyTouch Technology division, a \$1.5 million increase in occupancy costs related to the relocation of the Company's corporate headquarters and a \$0.7 million increase in bad debt and foreign currency exchange losses. Variable expenses increased \$1.4 million resulting from increased franchise sales compensation due to a 40% increase in domestic initial fee revenue recognition and an increase in procurement services revenue. In addition, compensation expense recognized on deferred compensation arrangements increased \$0.7 million. The increase in compensation expense reflects the increase in the fair value of investments held in the Company's Non-Qualified and EDCP retirement and savings plans. The increase in deferred compensation expenses are partially offset by investment gains recorded in other gains and losses. These increases in SG&A were partially offset by a \$1.2 million reduction in litigation settlements compared to the prior year. Excluding these items, SG&A for the nine months ended September 30, 2013 increased by approximately 4% over the same period of the prior year.

Depreciation and Amortization: Expenses increased \$1.1 million from \$5.6 million for the nine months ended September 30, 2012 to \$6.7 million for the nine months ended September 30, 2013. The increase in depreciation and amortization expenses primarily reflects the additional capital expenditures incurred in conjunction with the Company's relocation of its corporate headquarters in April 2013 as well as an increase in amortization related to the issuance of forgivable notes receivable in conjunction with brand and development programs.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation system fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation system fees it collects from franchisees in accordance with the franchise agreements; as such, no net income or loss to the Company is generated.

Total marketing and reservations revenues were \$311.2 million and \$294.3 million for the nine months ended September 30, 2013 and 2012, respectively. The increase in revenues was primarily due to improved system fees resulting from system growth and RevPAR increases as well as increased revenues from the Choice Privileges loyalty program resulting from the growth in program memberships. Depreciation and amortization attributable to marketing and reservation activities was \$12.0 million for the nine months ended September 30, 2013, compared to \$10.7 million for the nine months ended September 30, 2012. Interest expense attributable to marketing and reservation activities was \$2.8 million and \$3.0 million for the nine months ended September 30, 2013 and 2012, respectively.

As of September 30, 2013 and December 31, 2012, the Company's balance sheets include deferred costs of \$14.1 million and \$29.5 million, respectively, from cumulative marketing and reservation expenses incurred in excess of cumulative marketing and reservations system fee revenues earned. During the nine months ended September 30, 2013, the Company collected \$15.4 million of marketing and reservation revenues in excess of expenses incurred as compared to \$14.2 million in the same period of 2012. The fees collected in excess of expenses incurred were utilized

to reimburse the Company for a portion of the outstanding cumulative advances for marketing and reservation activities. This resulted in expense recognition of an equivalent amount of previously unrecognized costs. The increase in the excess fees collected in 2013 compared to 2012 primarily reflects increased revenues related to the growth of the number of units and RevPAR in the franchise system.

The decline in cumulative advances for marketing and reservation activities from December 31, 2012 to September 30, 2013 primarily reflects the timing of various marketing programs and the seasonality of the Company's revenues as the Company's third quarter revenues are typically higher than other quarters due to the U.S. summer travel season. In addition, the decline in

Table of Contents

cumulative advances reflects the Company's strategy to recover prior year advances for marketing and reservation activities in future periods. These costs incurred in excess of fees collected have been deferred and recorded as an asset in the financial statements as the Company has the contractual authority to recover the deficits incurred related to marketing and reservation activities from the franchisees in the system at any given point in time. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue and whether or not they joined the system following the deficit's occurrence. The Company expects to recover the deferred costs over a period of time by expending fewer amounts on marketing and reservation activities than marketing and reservation system fees collected, depending on the marketing and reservation needs of the system. Conversely, cumulative marketing and reservation system fees not expended are recorded as a liability in the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Interest Expense: Interest expense increased \$15.5 million for the nine months ended September 30, 2013 to \$32.3 million due to the issuance of the Company's \$400 million senior notes due in 2022 with an effective rate of 5.94% on June 27, 2012 as well as the \$350 million senior secured credit facility entered into by the Company on July 25, 2012. The Company utilized the proceeds from these debt issuances to pay a special cash dividend on August 23, 2012 totaling approximately \$600.7 million to common stockholders.

Loss on Extinguishment of Debt: During the nine months ended September 30, 2012, the Company recognized a \$0.5 million loss on extinguishment of debt in conjunction with the refinancing of the Company's prior \$300 million revolving credit facility which was scheduled to mature in February 2016.

Other gains and losses: Other gains and losses decreased \$0.9 million from a gain of \$2.1 million for the nine months ended September 30, 2012 to a gain of \$1.3 million in the same period of the current year primarily due to fluctuations in the fair value of investments held in the Company's non-qualified employee benefit plans.

As discussed in the accompanying critical accounting policies, the Company sponsors two non-qualified retirement and savings plans: the Non-Qualified Plan and the EDCP plan. The fair value of the Non-Qualified Plan investments increased \$1.1 million during the nine months ended September 30, 2013 compared to a \$1.0 million increase in fair value during the same period of 2012. The fair value of the Company's investments held in the EDCP plan appreciated by \$0.3 million during the nine months ended September 30, 2013 compared to an increase in fair value of \$1.2 million during the same period of the prior year.

The Company accounts for the EDCP Plan and Non-Qualified Plan in accordance with accounting for deferred compensation arrangements when investments are held in a rabbi trust and invested. Therefore, the Company also recognizes compensation expense or benefits in SG&A related to changes in the fair value of investments held in the Non-Qualified Plan and a portion of the investments held in the EDCP Plan, excluding investments in the Company's stock. As a result, during the nine months ended September 30, 2013 and 2012, the Company's SG&A expense was increased by \$1.7 million and \$1.0 million, respectively, due to the change in fair value of these investments.

Income Taxes: The effective income tax rates for continuing operations were 28.8% for both the nine months ended September 30, 2013 and 2012, respectively. The effective income tax rate for the nine months ended September 30, 2013 and 2012 were lower than the U.S federal income tax rate of 35% due to the recurring impact of foreign operations, partially offset by state taxes, and reflect adjustments to our federal accruals. Additionally, the effective income tax rate for the nine months ended September 30, 2013 was further reduced by the release of a valuation allowance on local country tax refunds received by our foreign subsidiary, settlements of unrecognized tax positions and by legislation retroactively extending the U.S. controlled foreign corporation look-through rule. The effective income tax rate for the nine months ended September 30, 2012 also reflects a nonrecurring favorable adjustment of \$4.5 million related to foreign operations.

Discontinued Operations: In the first quarter of 2014, the Company's management approved a plan to dispose of the three Company-owned Mainstay Suites hotels. As a result, the Company has reported the operations related to these hotels as discontinued in this amended Form 10-Q.

Diluted EPS: Diluted EPS were \$1.53 for nine months ended September 30, 2013 compared to \$1.73 for the nine months ended September 30, 2012, respectively. The decrease in diluted EPS primarily reflects the items discussed above.

Liquidity and Capital Resources

Operating Activities

During the nine months ended September 30, 2013, net cash provided by operating activities totaled \$106.5 million compared to \$118.4 million during the nine months ended September 30, 2012, a decline of \$11.9 million. The decrease in cash flows

60

Table of Contents

from operating activities primarily reflects a \$2.9 million increase in net disbursements to franchisees for property improvements and other purposes utilizing forgivable notes receivable and a \$26.6 million increase in cash paid for interest due to the issuance of additional debt in June and July of 2012 to pay a special cash dividend in August 2012 totaling approximately \$600.7 million. These declines for net cash provided from operating activities were partially offset by a \$12.7 million decline in cash paid for income taxes due to timing and a decline in income before income taxes.

In conjunction with brand and development programs, the Company provides financing to franchisees for property improvements and other purposes in the form of forgivable notes receivable. If the franchisee remains in the system in good standing over the term of the promissory note, the Company forgives the outstanding principal balance and related interest. Since these forgivable notes are predominantly forgiven ratably over the term of the promissory note rather than repaid, the Company classifies the related issuance and collections of these notes as operating activities. During the nine months ended September 30, 2013 and 2012, the Company's net advances for these purposes totaled \$5.7 million and \$2.9 million, respectively. The timing and amount of these cash flows is dependent on various factors including the implementation of various development and brand incentive programs, the level of franchise sales as well as the timing of hotel openings. At September 30, 2013, the Company had commitments to extend an additional \$11.1 million for these purposes provided certain conditions are met by its franchisees, of which \$6.4 million is expected to be advanced in the next twelve months.

Net cash provided by marketing and reservation activities totaled \$29.7 million during the nine months ended September 30, 2013 compared to \$27.4 million during the nine months ended September 30, 2012. The increase in cash provided by marketing and reservation activities primarily reflects improved system fees resulting from system growth and RevPAR increases. Based on the current economic conditions, the Company expects marketing and reservation activities to provide cash flows from operations ranging between \$26 million and \$30 million in 2013.

Investing Activities

Cash utilized for investing activities totaled \$29.8 million and \$16.7 million for the nine months ended September 30, 2013 and 2012, respectively. The increase in cash utilized for investing activities for the nine months ended September 30, 2013 primarily reflect an increase in capital expenditures. The increase in capital expenditures was partially offset by a decline in the proceeds from the sale of investments held in trust related to the Company's deferred compensation plans, investments in joint ventures accounted for under the equity method of accounting and issuance of mezzanine and other notes receivable for hotel development efforts during the nine months ended September 30, 2013. Additional information regarding these items is as follows:

During the nine months ended September 30, 2013 and 2012, the Company sold investments totaling \$4.1 million and \$10.9 million, respectively, and utilized the proceeds to distribute participant deferred compensation balances from the Company's non-qualified retirement plans. The decline in proceeds from the sale of investments primarily reflects the timing of employee terminations and their deferred compensation distribution elections.

During the nine months ended September 30, 2013 and 2012, capital expenditures totaled \$27.9 million and \$12.5 million, respectively. The increase in capital expenditures for 2013 primarily reflect tenant improvements related to the relocation of the Company's corporate headquarters and computer equipment purchases made in conjunction with the relocation of the Company's technology data center.

The Company occasionally provides financing to franchisees for hotel development efforts and other purposes in the form of mezzanine and other notes receivable. These loans bear interest and are expected to be repaid in accordance with the terms of the loan agreements. During the nine months ended September 30, 2013, the Company did not advance any monies related to these activities and advanced \$4.2 million for these purposes during the nine months ended September 30, 2012.

During the nine months ended September 30, 2013 and 2012, the Company invested \$3.8 million and \$9.5 million, respectively, in joint ventures accounted for under the equity method of accounting. The Company's investment in these joint ventures primarily relate to ventures that either support the Company's efforts to increase business delivery to its franchisees or promote growth of our emerging brands.

Our board of directors previously authorized us to enter into a program which permits us to offer financing, investment and guaranty support to qualified franchisees as well as to acquire and resell real estate to incent franchise

development for certain brands in strategic markets. Recent market conditions have resulted in an increase in opportunities to incentivize development under this program. At September 30, 2013 and December 31, 2012, the Company had approximately \$71.1 million and \$68.3 million, respectively invested under this program. Over the next several years, we expect to continue to deploy capital opportunistically pursuant to this program to promote growth of our emerging brands. Our current expectation is that our annual investment in this program will range from \$20 million to \$40 million per year and we generally expect to recycle these

Table of Contents

investments within a five year period. However, the amount and timing of the investment in this program will be dependent on market and other conditions.

Financing Activities

Financing cash flows relate primarily to the Company's borrowings, treasury stock purchases and dividends.

Debt

Senior Notes due 2022

On June 27, 2012, the Company issued unsecured senior notes with a principal amount of \$400 million (the "2012 Senior Notes") at par, bearing a coupon of 5.75% with an effective rate of 5.94%. The 2012 Senior Notes will mature on July 1, 2022, with interest to be paid semi-annually on January 1st and July 1st. The Company utilized the net proceeds of this offering, after deducting underwriting discounts and commissions and other offering expenses, together with borrowings under the Company's senior credit facility, to pay a special cash dividend totaling approximately \$600.7 million paid to stockholders on August 23, 2012. The Company's 2012 Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations by eight wholly-owned domestic subsidiaries.

The Company may redeem the 2012 Senior Notes at its option at a redemption price equal to the greater of (a) 100% of the principal amount of the notes to be redeemed and (b) the sum of the present values of the remaining scheduled principal and interest payments from the redemption date to the date of maturity discounted to the redemption date on a semi-annual basis at the Treasury rate, plus 50 basis points.

Senior Notes due 2020

On August 25, 2010, the Company completed a \$250 million senior unsecured note offering (the "2010 Senior Notes") at a discount of \$0.6 million, bearing a coupon of 5.7% with an effective rate of 6.19%. The 2010 Senior Notes will mature on August 28, 2020, with interest on the 2010 Senior Notes to be paid semi-annually on February 28th and August 28th. The Company used the net proceeds from the offering, after deducting underwriting discounts and other offering expenses, to repay outstanding borrowings and other general corporate purposes. The Company's 2010 Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations, by eight wholly-owned domestic subsidiaries.

The Company may redeem the 2010 Senior Notes at its option at a redemption price equal to the greater of (a) 100% of the principal amount of the notes to be redeemed and (b) the sum of the present values of the remaining scheduled principal and interest payments from the redemption date to the date of maturity discounted to the redemption date on a semi-annual basis at the Treasury rate, plus 45 basis points.

Senior Credit Facility

On July 25, 2012, the Company entered into a \$350 million senior secured credit facility, comprised of a \$200 million revolving credit tranche (the "New Revolver") and a \$150 million term loan tranche (the "Term Loan") with Deutsche Bank AG New York Branch, as administrative agent, Wells Fargo Bank, National Association, as administrative agent, and a syndication of lenders (the "New Credit Facility"). The New Credit Facility has a final maturity date of July 25, 2016, subject to an optional one-year extension, provided certain conditions are met. Up to \$25 million of the borrowings under the New Revolver may be used for letters of credit, up to \$10 million of borrowings under the New Revolver may be used for swing-line loans and up to \$35 million of borrowings under the New Revolver may be used for alternative currency loans. The Term Loan requires quarterly amortization payments (a) during the first two years, in equal installments aggregating 5% of the original principal amount of the Term Loan per year, (b) during the second two years, in equal installments aggregating 7.5% of the original principal amount of the Term Loan per year, and (c) during the one-year extension period (if exercised), equal installments aggregating 10% of the original principal amount of the Term Loan.

The Company utilized the proceeds from the Term Loan and borrowings from the New Revolver, together with the net proceeds from the Company's recently issued senior notes offering, to pay a special cash dividend of approximately \$600.7 million in the aggregate to the Company's stockholders on August 23, 2012.

The New Credit Facility is unconditionally guaranteed, jointly and severally, by certain of the Company's domestic subsidiaries. The subsidiary guarantors currently include the eight wholly-owned subsidiaries that guarantee the obligations under the Company's Indenture governing the terms of its 2010 and 2012 Senior Notes.

62

Table of Contents

The New Credit Facility is secured by first priority pledges of (i) 100% of the ownership interests in certain domestic subsidiaries owned by the Company and the guarantors, (ii) 65% of the ownership interests in (a) Choice Netherlands Antilles N.V. ("Choice NV"), the top-tier foreign holding company of the Company's foreign subsidiaries, and (b) the domestic subsidiary that owns Choice NV and (iii) all presently existing and future domestic franchise agreements (the "Franchise Agreements") between the Company and individual franchisees, but only to the extent that the Franchise Agreements may be pledged without violating any law of the relevant jurisdiction or conflicting with any existing contractual obligation of the Company or the applicable franchisee. At the time that the maximum total leverage ratio is required to be no greater than 4.00 to 1.00 (beginning of year 4 of the New Credit Facility), the security interest in the Franchise Agreements will be released.

The Company may at any time prior to the final maturity date increase the amount of the New Credit Facility by up to an additional \$100 million to the extent that any one or more lenders commit to being a lender for the additional amount and certain other customary conditions are met. Such additional amounts may take the form of an increased revolver or term loan.

The Company may elect to have borrowings under the New Credit Facility bear interest at a rate equal to (i) LIBOR, plus a margin ranging from 200 to 425 basis points based on the Company's total leverage ratio or (ii) a base rate plus a margin ranging from 100 to 325 basis points based on the Company's total leverage ratio.

The New Credit Facility requires the Company to pay a fee on the undrawn portion of the New Revolver, calculated based on the average daily unused amount of the New Revolver multiplied by 0.30% per annum.

The Company may reduce the New Revolver commitment and/or prepay the Term Loan in whole or in part at any time without penalty, subject to reimbursement of customary breakage costs, if any. Any Term Loan prepayments made by the Company shall be applied to reduce the scheduled amortization payments in direct order of maturity. Additionally, the New Credit Facility requires that the Company and its restricted subsidiaries comply with various covenants, including with respect to restrictions on liens, incurring indebtedness, making investments, paying dividends or repurchasing stock, and effecting mergers and/or asset sales. With respect to dividends, the Company may not make any payments if there is an existing event of default or if the payment would create an event of default. In addition, if the Company's total leverage ratio exceeds 4.5 to 1.0, the Company is generally restricted from paying aggregate dividends in excess of \$50 million during any calendar year.

The New Credit Facility also imposes financial maintenance covenants requiring the Company to maintain:

- a total leverage ratio of not more than 5.75 to 1.00 in year 1, 5.00 to 1.00 in year 2, 4.50 to 1.00 in year 3 and 4.00 to 1.00 thereafter,
- a maximum secured leverage ratio of not more than 2.50 to 1.00 in year 1, 2.25 to 1.00 in year 2, 2.00 to 1.00 in year 3 and 1.75 to 1.00 thereafter, and
- a minimum fixed charge coverage ratio of not less than 2.00 to 1.00 in years 1 and 2, 2.25 to 1.00 in year 3 and 2.50 to 1.00 thereafter.

At September 30, 2013, the Company maintained a total leverage ratio of approximately 3.44x, a maximum secured leverage ratio of 0.72x and a minimum fixed charge coverage ratio of approximately 5.54x. At September 30, 2013, the Company was in compliance with all covenants under the New Credit Facility.

The New Credit Facility includes customary events of default, the occurrence of which, following any applicable cure period, would permit the lenders to, among other things, declare the principal, accrued interest and other obligations of the Company under the New Credit Facility to be immediately due and payable.

At September 30, 2013, the Company had \$140.6 million and \$29.5 million outstanding under the Term Loan and New Revolver, respectively. At December 31, 2012, the Company had \$146.3 million and \$57.0 million outstanding under the Term Loan and New Revolver, respectively.

In connection with the entry into the New Credit Facility, the Company's \$300 million senior unsecured revolving credit agreement, dated as of February 24, 2011, among the Company, Wells Fargo Bank, National Association, as administrative agent, and a syndicate of lenders (the "Old Credit Facility"), was terminated and replaced by the New Credit Facility. The Old Credit Facility permitted the Company to borrow, repay and re-borrow revolving loans until the scheduled maturity date of February 24, 2016. In addition, the Old Credit Facility bore interest, at the Company's election, at either (i) a base rate plus a margin ranging from 5 to 80 basis points based on the Company's credit rating

or (ii) LIBOR plus a margin ranging from 105 to 180 basis points based on the Company's credit rating. The Old Credit Facility also required the Company to pay a quarterly facility fee on the full amount of the commitments under the Old Credit Facility (regardless of usage) ranging from 20 to 45 basis points based upon the credit rating of the Company.

Table of Contents

Economic Development Loans

The Company entered into economic development agreements with various governmental entities in conjunction with the relocation of its corporate headquarters in April 2013. In accordance with these agreements, the governmental entities agreed to advance approximately \$4.4 million to the Company to offset a portion of the corporate headquarters relocation and tenant improvement costs in consideration of the employment of permanent, full-time employees within the jurisdictions. At September 30, 2013, the Company had been advanced approximately \$3.4 million pursuant to these agreements and expects to receive the remaining \$1 million over the next several years, subject to annual appropriations by the governmental entities. These advances bear interest at a rate of 3% per annum. Repayment of the advances is contingent upon the Company achieving certain performance conditions. Performance conditions are measured annually on December 31st and primarily relate to maintaining certain levels of employment within the various jurisdictions. If the Company fails to meet an annual performance condition, the Company may be required to repay a portion or all of the advances including accrued interest by April 30th following the measurement date. Any outstanding advances at the expiration of the Company's ten year corporate headquarters lease in 2023 will be forgiven in full. The advances will be included in long-term debt in Company's consolidated balance sheets until the Company determines that the future performance conditions will be met over the entire term of the agreement and the Company will not be required to repay the advances. The Company accrues interest on the portion of the advances that it expects to repay. The Company was in compliance with all current performance conditions as of September 30, 2013.

Dividends

The Company currently pays a quarterly dividend on its common stock of \$0.185 per share, however the declaration of future dividends are subject to the discretion of the board of directors. In the fourth quarter of 2012, the Company's board of directors elected to pay prior to December 31, 2012 the regular quarterly dividend initially scheduled to be paid in the first quarter of 2013. As a result, the Company did not pay a regular quarterly dividend during the first quarter of 2013. During the nine months ended September 30, 2013, the Company paid cash dividends totaling \$22.0 million. We expect to continue to pay dividends in the future, subject to the declaration of our board of directors as well as to future business performance, economic conditions, changes in income tax regulations and other factors. Based on the present dividend rate and outstanding share count, we expect that aggregate annual regular dividends for 2013, excluding the first quarter payment which was paid to stockholders in December 2012, would be approximately \$32.8 million.

Share Repurchases

Historically, we have returned value to our stockholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. Since the program's inception through September 30, 2013, we have repurchased 45.3 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$1.1 billion. Considering the effect of the two-for-one stock split, the Company has repurchased 78.3 million shares at an average price of \$13.89 per share. No shares were repurchased under the share repurchase program during the nine months ended September 30, 2013. As of September 30, 2013, the Company had approximately 1.4 million shares remaining under the board of directors share repurchase authorization and we currently believe that our cash flows from operations will support our ability to complete the current authorization. Upon completion of the current authorization, our board of directors will evaluate the advisability of additional share repurchases.

Other items

Approximately \$149.8 million of the Company's cash and cash equivalents at September 30, 2013 pertains to undistributed earnings of the Company's consolidated foreign subsidiaries. Since the Company's intent is for such earnings to be reinvested by the foreign subsidiaries, the Company has not provided additional U.S. income taxes on these amounts. While the Company has no intention to utilize these cash and cash equivalents in its domestic operations, any change to this policy would result in the Company incurring additional U.S. income taxes on any amounts utilized domestically.

During the nine months ended September 30, 2013, the Company recorded one-time employee termination charges totaling \$1.5 million in SG&A and marketing and reservation expenses. These charges related to salary and benefits

continuation payments for employees separating from service with the Company. At September 30, 2013, the Company had approximately \$0.5 million of these salary and benefits continuation payments remaining to be paid. During the nine months ended September 30, 2013, the Company paid an additional \$3.0 million of termination benefits related to employee termination charges recorded in prior periods and had approximately \$0.1 million of these benefits remaining to be paid. At September 30,

Table of Contents

2013, total termination benefits of approximately \$0.6 million remained to be paid and the Company expects \$0.6 million of these benefits to be paid in the next twelve months. In addition, the Company expects to satisfy approximately \$2.4 million of deferred compensation and retirement plan obligations during the next twelve months. The Company believes that cash flows from operations and available financing capacity are adequate to meet the expected future operating, investing and financing needs of the business.

Off Balance Sheet Arrangements

On October 9, 2012, the Company entered into a limited payment guaranty with regards to a developer's \$18.0 million bank loan for the construction of a hotel franchised under one of the Company's brands in the United States. Under the terms of the limited guaranty, the Company has agreed to guarantee 25% of the outstanding principal balance and accrued and unpaid interest, as well as any unpaid expenses incurred by the lender. The limited guaranty shall remain in effect until the maximum amount guaranteed by the Company is paid in full. In addition to the limited guaranty, the Company entered into an agreement in which the Company guarantees the completion of the construction of the hotel and an environmental indemnity agreement which indemnifies the lending institution from and against any damages relating to or arising out of possible environmental contamination issues with regards to the property.

Critical Accounting Policies

Our accounting policies comply with principles generally accepted in the United States. We have described below those policies that we believe are critical or require the use of complex judgment or significant estimates in their application. Additional discussion of these policies is included in Note 1 to our consolidated financial statements as of and for the year ended December 31, 2012 included in our Annual Report on Form 10-K.

Revenue Recognition.

We recognize continuing franchise fees, including royalty, marketing and reservations system fees, when earned and realizable from our franchisees. See Note 1 to our consolidated financial statements for additional information regarding recent corrections to our accounting for these fees. Franchise fees are typically based on a percentage of gross room revenues of each franchisee. Franchise fees based on a percentage of gross room revenues are recognized in the same period that the underlying gross room revenues are earned by our franchisees. Our estimate of the allowance for uncollectible royalty fees is charged to SG&A expense and our estimate of the allowance for uncollectible marketing and reservation fees is charged to marketing and reservation expenses.

Initial franchise and relicensing fees are recognized, in most instances, in the period the related franchise agreement is executed because the initial franchise and relicensing fees are non-refundable and the Company is not required to provide initial services to the franchisee prior to hotel opening. However, we defer the initial franchise and relicensing fee revenue related to franchise agreements which include incentives until the incentive criteria are met or the agreement is terminated, whichever occurs first.

The Company may also enter into master development agreements ("MDAs") with developers that grant limited exclusive development rights and preferential franchise agreement terms for one-time, non-refundable fees. When these fees are not contingent upon the number of agreements executed under the MDA, the Company recognizes the up-front fees over the MDA's contractual life. Fees that are contingent upon the execution of franchise agreements under the MDA are recognized upon execution of the franchise agreement.

The Company recognizes procurement services revenues from qualified vendors when the services are performed or the product delivered, evidence of an arrangement exists, the fee is fixed and determinable and collectibility is probable. We defer the recognition of procurement services revenues related to certain upfront fees and recognize them over a period corresponding to the Company's estimate of the life of the arrangement.

Marketing and Reservation Revenues and Expenses.

The Company's franchise agreements require the payment of certain marketing and reservation system fees, which are used exclusively by the Company for expenses associated with providing franchise services such as national marketing, media advertising, central reservation systems and technology services. The Company is contractually obligated to expend the marketing and reservation system fees it collects from franchisees in accordance with the franchise agreements; as such, no net income or loss to the Company is generated. In accordance with our contracts,

we include in marketing and reservation expenses an allocation of costs for certain activities, such as human resources, facilities, legal and accounting, required to carry out marketing and reservation activities.

65

Table of Contents

The Company records marketing and reservation system revenues and expenses on a gross basis since the Company is the primary obligor in the arrangement, maintains the credit risk, establishes the price and nature of the marketing or reservation services and retains discretion in supplier selection. In addition, net advances to and recoveries from the franchise system for marketing and reservation activities are presented as cash flows from operating activities. Marketing and reservation system fees not expended in the current year are recorded as a liability in the Company's balance sheet and are carried over to the next fiscal year and expended in accordance with the franchise agreements. Shortfall amounts are recorded as an asset in the Company's balance sheet, with a corresponding reduction in costs, and are similarly recovered in subsequent years. Under the terms of the franchise agreements, the Company may advance capital and incur costs as necessary for marketing and reservation activities and recover such advances through future fees. Our current assessment is that the credit risk associated with the cumulative cost advances for marketing and reservation system activities is mitigated due to our contractual right to recover these amounts from a large geographically dispersed group of franchisees. However, our ability to recover these advances may be adversely impacted by certain factors, including, among others, declines in the ability of our franchisees to generate revenues at properties they franchise from us, lower than expected franchise system growth of certain brands and/or lower than expected international franchise system growth. An extended period of occupancy or room rate declines or a decline in the number of hotel rooms in our franchise system could result in the generation of insufficient funds to recover marketing and reservation advances as well as meet the ongoing marketing and reservation needs of the overall system.

The Company evaluates the recoverability of marketing and reservation costs incurred in excess of cumulative marketing and reservation system revenues earned on a periodic basis. The Company will record a reserve when, based on current information and events, it is probable that it will be unable to recover the cumulative amounts advanced for marketing and reservation activities according to the contractual terms of the franchise agreements. These advances are considered to be unrecoverable if the expected net, undiscounted cash flows from marketing and reservation activities are less than the carrying amount of the asset.

Choice Privileges is our frequent guest incentive marketing program. Choice Privileges enables members to earn points based on their spending levels with our franchisees and, to a lesser degree, through participation in affiliated partners' programs, such as those offered by credit card companies. The points, which we accumulate and track on the members' behalf, may be redeemed for free accommodations or other benefits.

We provide Choice Privileges as a marketing program to franchised hotels and collect a percentage of program members' room revenue from franchises to operate the program. Revenues are deferred in an amount equal to the estimated fair value of the future redemption obligation. The Company develops an estimate of the eventual redemption rates and point values using various actuarial methods. These judgmental factors determine the required liability attributable to outstanding points. Upon redemption of points, the Company recognizes the previously deferred revenue as well as the corresponding expense relating to the cost of the awards redeemed. Revenues in excess of the estimated future redemption obligation are recognized when earned to reimburse the Company for costs incurred to operate the program, including administrative costs, marketing, promotion and performing member services.

Valuation of Intangibles and Long-Lived Assets

The Company evaluates the potential impairment of property and equipment and other long-lived assets, including franchise rights and other definite-lived intangibles, on an annual basis or whenever an event or other circumstances indicates that we may not be able to recover the carrying value of the asset. Recoverability is measured based on net, undiscounted expected cash flows. Assets are considered to be impaired if the net, undiscounted expected cash flows are less than the carrying amount of the assets. Impairment charges are recorded based upon the difference between the carrying value and the fair value of the asset. Significant management judgment is involved in developing these projections, and they include inherent uncertainties. If different projections are used in the current period, the balances for non-current assets could be materially impacted. Furthermore, if management uses different projections or if different conditions occur in future periods, future-operating results could be materially impacted.

The Company evaluates the impairment of goodwill and trademarks with indefinite lives on an annual basis, or during the year if an event or other circumstance indicates that we may not be able to recover the carrying amount of the

asset. In evaluating these assets for impairment, the Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount. If we conclude that it is not more likely than not that the fair value of the reporting unit is less than its carrying value, then no further testing is required. If the conclusion is that it is more likely than not that the fair value of a reporting unit is less than its carrying value, then a two-step impairment test is performed. The fair value of the Company's net assets is used to determine if goodwill may be impaired. Indefinite life trademarks are considered to be impaired if the net, undiscounted expected cash flows associated with the trademark are less than their carrying amount.

Table of Contents

Loan Loss Reserves

The Company segregates its notes receivable for the purposes of evaluating allowances for credit losses between two categories: Mezzanine and Other Notes Receivable and Forgivable Notes Receivable. The Company utilizes the level of security it has in the various notes receivable as its primary credit quality indicator (i.e. senior, subordinated or unsecured) when determining the appropriate allowances for uncollectible loans within these categories.

Mezzanine and Other Notes Receivables

The Company has provided financing to franchisees in support of the development of properties in strategic markets. The Company expects the owners to repay the loans in accordance with the loan agreements, or earlier as the hotels mature and capital markets permit. The Company estimates the collectibility and records an allowance for loss on its mezzanine and other notes receivable when recording the receivables in the Company's financial statements. These estimates are updated quarterly based on available information.

The Company considers a loan to be impaired when, based on current information and events, it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan agreement. All amounts due according to the contractual terms means that both the contractual interest payments and the contractual principal payments of a loan will be collected as scheduled in the loan agreement. The Company measures loan impairment based on the present value of expected future cash flows discounted at the loan's original effective interest rate or the estimated fair value of the collateral. For impaired loans, the Company establishes a specific impairment reserve for the difference between the recorded investment in the loan and the present value of the expected future cash flows or the estimated fair value of the collateral. The Company applies its loan impairment policy individually to all mezzanine and other notes receivable in the portfolio and does not aggregate loans for the purpose of applying such policy. For impaired loans, the Company recognizes interest income on a cash basis. If it is likely that a loan will not be collected based on financial or other business indicators it is the Company's policy to charge off these loans to SG&A expenses in the accompanying consolidated statements of income in the quarter when it is deemed uncollectible. Recoveries of impaired loans are recorded as a reduction of SG&A expenses in the quarter received. The Company assesses the collectibility of its senior notes receivable by comparing the market value of the underlying assets to the carrying value of the outstanding notes. In addition, the Company evaluates the property's operating performance, the borrower's compliance with the terms of the loan and franchise agreements, and all related personal guarantees that have been provided by the borrower. For subordinated or unsecured receivables, the Company assesses the property's operating performance, the subordinated equity available to the Company, the borrower's compliance with the terms of loan and franchise agreements, and the related personal guarantees that have been provided by the borrower.

The Company considers loans to be past due and in default when payments are not made when due. Although the Company considers loans to be in default if payments are not received on the due date, the Company does not suspend the accrual of interest until those payments are more than 30 days past due. The Company applies payments received for loans on non-accrual status first to interest and then principal. The Company does not resume interest accrual until all delinquent payments are received.

Forgivable Notes Receivable

In conjunction with brand and development programs, the Company may provide financing to franchisees for property improvements and other purposes in the form of forgivable promissory notes which bear interest at market rates. Under these promissory notes, the franchisee promises to repay the principal balance together with interest upon maturity unless certain conditions are met throughout the term of the promissory note. The principal balance and related interest are forgiven ratably over the term of the promissory note if the franchisee remains in the system in good standing. If during the term of the promissory note, the franchisee exits our franchise system or is not operating their franchise in accordance with our quality or credit standards, the Company may declare a default under the promissory note and commence collection efforts with respect to the full amount of the then-current outstanding principal and interest.

In accordance with the terms of the promissory notes, the initial principal balance and related interest are ratably reduced over the term of the loan on each anniversary date until the outstanding amounts are reduced to zero as long

as the franchisee remains within the franchise system and operates in accordance with our credit, quality and brand standards. As a result, the amounts recorded as an asset on the Company's consolidated balance sheet are also ratably reduced since the amounts forgiven no longer represent probable future economic benefits to the Company. The Company records the reduction of its recorded assets through amortization and marketing and reservation system expenses on its consolidated statements of income. Since these forgivable notes receivable are predominantly forgiven ratably over the term of the promissory note rather than repaid, the Company classifies the issuance and collection of these notes receivable as operating activities in its Consolidated Statement of Cash Flows.

Table of Contents

The Company fully reserves all defaulted notes in addition to recording a reserve on the estimated uncollectible portion of the remaining notes. For those notes not in default, the Company calculates an allowance for losses and determines the ultimate collectibility on these forgivable notes based on the historical default rates for those unsecured notes that are not forgiven but are required to be repaid. The Company records bad debt expense in SG&A and marketing and reservation system expenses in the accompanying consolidated statements of income in the quarter when the note is deemed uncollectible.

Stock Compensation.

The Company's policy is to recognize compensation cost related to share-based payment transactions in the financial statements based on the fair value of the equity or liability instruments issued. Compensation expense related to the fair value of share-based awards is recognized over the requisite service period based on an estimate of those awards that will ultimately vest. The Company estimates the share-based compensation expense for awards that will ultimately vest upon inception of the grant and adjusts the estimate of share-based compensation for those awards with performance and/or service requirements that will not be satisfied so that compensation cost is recognized only for awards that ultimately vest.

Income Taxes.

Income taxes are recorded using the asset and liability method of accounting for income taxes. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is provided for deferred tax assets if it is more likely than not such assets will be unrealized. Deferred U.S. income taxes have not been recorded for temporary differences related to investments in certain foreign subsidiaries and corporate affiliates. The temporary differences consist primarily of undistributed earnings that are considered permanently reinvested in operations outside the U.S. If management's intentions change in the future, deferred taxes may need to be provided.

With respect to uncertain income tax positions, a tax liability is recorded in full when management determines that the position does not meet the more likely than not threshold of being sustained on examination. A tax liability may also be recognized for a position that meets the more likely than not threshold, based upon management's assessment of the position's probable settlement value. The Company records interest and penalties on unrecognized tax benefits in the provision for income taxes.

Pension, Profit Sharing and Incentive Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan ("EDCP") which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. Prior to January 1, 2010, participants could elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. Effective January 1, 2010, the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points is no longer an investment option for salary deferrals made on compensation earned after December 31, 2009. The Company recorded current and long-term deferred compensation liabilities of \$10.9 million and \$11.7 million, as of September 30, 2013 and December 31, 2012, respectively, related to these deferrals and credited investment returns. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. Compensation expense recorded in SG&A for the nine months ended September 30, 2013 and 2012 was \$0.7 million for both periods.

The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$3.8 million and \$6.0 million as of September 30, 2013 and December 31, 2012, respectively,

and are recorded at their fair value, based on quoted market prices. At September 30, 2013, the Company expects \$0.4 million of the assets held in the trusts to be distributed to participants during the next twelve months. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying consolidated statements of income. The Company recorded investment gains during the nine months ended September 30, 2013 and 2012 of approximately \$0.3 million and \$1.2 million, respectively. In addition, the EDCP Plan held shares of the

Table of Contents

Company's common stock with a market value of \$0.2 million and \$0.1 million at September 30, 2013 and December 31, 2012, respectively, which were recorded as a component of shareholders' deficit.

In 1997, the Company adopted the Choice Hotels International, Inc. Non-Qualified Retirement Savings and Investment Plan ("Non-Qualified Plan"). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of September 30, 2013 and December 31, 2012, the Company had recorded a deferred compensation liability of \$12.8 million and \$11.2 million, respectively, related to these deferrals. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. The net increase in compensation expense recorded in SG&A for the nine months ended September 30, 2013 and 2012 was \$1.3 million and \$0.8 million, respectively.

The diversified investments held in the trusts were \$11.6 million and \$10.2 million as of September 30, 2013 and December 31, 2012, respectively, and are recorded at their fair value, based on quoted market prices. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying consolidated statements of income. The Company recorded investment gains during the nine months ended September 30, 2013 and 2012 of approximately \$1.1 million and \$1.0 million, respectively. In addition, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$1.2 million and \$1.0 million at September 30, 2013 and December 31, 2012, respectively, which are recorded as a component of shareholders' deficit.

New Accounting Standards

See Footnote No. 1 of the Notes to our Financial Statements for information related to our adoption of new accounting standards in 2013 and for information on our anticipated adoption of recently issued accounting standards.

FORWARD-LOOKING STATEMENTS

Certain matters discussed in this quarterly report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, our use of words such as "expect," "estimate," "believe," "anticipate," "should", "will," "forecast," "plan", "project," "assume" or similar words of futurity identify such forward-looking statements. These forward-looking statements are based on management's current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to management. Such statements may relate to projections of the Company's revenue, earnings and other financial and operational measures, Company debt levels, ability to repay outstanding indebtedness, payment of dividends, and future operations, among other matters. We caution you not to place undue reliance on any such forward-looking statements. Forward-looking statements do not guarantee future performance and involve known and unknown risks, uncertainties and other factors.

Several factors could cause actual results, performance or achievements of the Company to differ materially from those expressed in or contemplated by the forward-looking statements. Such risks include, but are not limited to, changes to general, domestic and foreign economic conditions; operating risks common in the lodging and franchising industries; changes to the desirability of our brands as viewed by hotel operators and customers; changes to the terms or termination of our contracts with franchisees; our ability to keep pace with improvements in technology utilized for reservations systems and other operating systems; fluctuations in the supply and demand for hotels rooms; the level of acceptance of alternative growth strategies we may implement; the outcome of litigation; and our ability to effectively manage our indebtedness. These and other risk factors are discussed in detail in the Risk Factors section of the Company's Form 10-K for the year ended December 31, 2012, filed with the Securities and Exchange Commission on February 28, 2013. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates and the impact of fluctuations in foreign currencies on the Company's foreign investments and operations. The Company manages its exposure to these market risks through the monitoring of its available financing alternatives including in certain circumstances the use of derivative financial instruments. We are also subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock, which have a carrying value of \$15.3 million and \$16.2 million at September 30, 2013 and December 31, 2012, respectively which we account for as trading securities. The Company will continue to monitor the exposure in these areas and make the appropriate adjustments as market conditions dictate.

At September 30, 2013, the Company had \$170.1 million of variable interest rate debt instruments outstanding at an effective rate of 2.5%. A hypothetical change of 10% in the Company's effective interest rate from September 30, 2013 levels would increase or decrease annual interest expense by \$0.4 million. The Company expects to refinance its fixed and variable long-term debt obligations prior to their scheduled maturities.

Table of Contents

The Company does not presently have any derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

Management's Evaluation of Disclosure Controls and Procedures

Our management, with participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") have evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the "Exchange Act"), as of the end of the period covered by this quarterly report as required by Rules 13a-15(b) or 15d-15(b) under the Exchange Act. Our management, including our CEO and CFO, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. At the time that our Quarterly Report on Form 10-Q for the period ended September 30, 2013 was filed on November 12, 2013, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2013. Subsequent to that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were not effective as of September 30, 2013 due to the material weakness in internal control over financial reporting related to the Revenue Recognition Methodology for Royalty and Certain Marketing and Reservation Fees Revenues discussed below.

Notwithstanding the material weakness as described below, management concluded that the consolidated financial statements included in this Form 10-Q present fairly, in all material respects, the financial position, results of operations and cash flows for the periods presented.

Material Weakness Related to Revenue Recognition Methodology for Royalty and Certain Marketing and Reservation System Fee Revenues

In connection with the preparation of the consolidated financial statements for the second quarter of 2014, the Company reviewed its accounting policies and practices, including the historical practice of reporting royalty and certain marketing and reservation fees one month in arrears as compared to when the gross room revenues (on which the fees are based) are earned by the Company's franchisees. The Company previously determined that the impact of the revenue recognition timing related to these revenues on its annual financial statements was not material and therefore reported these revenues one month in arrears despite the fact that these fees meet the definition of being earned and realizable in the same period that the underlying gross room revenues are earned by its franchisees. However, the Company reassessed the impact of reporting these revenues one month in arrears on interim periods and determined that this revenue recognition practice, which was not in accordance with generally accepted accounting principles in the United States of America ("GAAP"), was material to interim periods. Due to the seasonality of the Company's business, the impact of this change on previously reported interim revenues, operating income and earnings per share as reported in the Company's consolidated statements of income varies for individual past quarters and is generally positive in the first two quarters of the year and negative in the final two quarters of the year. As a result, the Company has corrected its revenue recognition method to recognize royalty and certain marketing and reservation system fees as revenue in the same period as the gross room revenues are earned by its franchisees.

The Company has assessed the impact of the recognition of revenues for certain royalty and marketing and reservation system fees one month in arrears and concluded that the impact was not material to any of the Company's previously issued annual financial statements. However, while the recordation of revenue one month in arrears did not result in a material misstatement of our previously issued annual consolidated financial statements, it did result in material misstatements of previously reported interim results. Management has concluded there was a material weakness in internal control over financial reporting related to the revenue recognition methodology for royalty and certain

marketing and reservation system fees as discussed below.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

The Company did not design and maintain effective controls over the accuracy and completeness of royalty fees, certain marketing and reservation fees and expenses, and resulting receivables and advances, marketing and reservation activities. Specifically, the Company did not design a control to monitor and evaluate the materiality of the difference between recognizing these revenues and related expenses one month in arrears rather than on an accrual basis as required by GAAP. This control deficiency resulted in the revision of the Company's financial statements for the years ended December 31, 2013, 2012, and 2011 and the restatement of interim financial statements for the periods ended March 31, 2014 and 2013, September

70

Table of Contents

30, 2013 and 2012 and June 30, 2013. Additionally, this control deficiency could result in further misstatements of the aforementioned accounts and disclosures that would result in a material misstatement of the annual or interim consolidated financial statements that would not be prevented or detected. Accordingly, the Company has determined that this control deficiency constitutes a material weakness.

For additional information, see Note 1 of the notes to financial statements.

Changes in internal control over financial reporting

There have been no changes in our internal control over financial reporting that occurred during the most recent quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Remediation of Material Weakness

In response to this material weakness, the Company has developed and is executing a plan with the oversight of the Audit Committee of the Board of Directors to remediate this material weakness. Our plan to remediate this material weakness during the year ending December 31, 2014 includes updating the revenue recognition practice to ensure the accounting for royalty and certain marketing and reservation system fees is in compliance with GAAP. The restatement and revision of our financial statements will be reflected on the following reports:

- Amended 2014 first quarter report on Form 10-Q, including restated financial statements;
- Amended 2013 third quarter report on Form 10-Q, including restated financial statements;
- Amended 2013 annual report on Form 10-K including revised financial statements for years ended 2011, 2012 and 2013;
- 2014 second quarter reports on Form 10-Q, including restated second quarter 2013 financial statements.

Management will continue to monitor the effectiveness of this and other processes, procedures and controls and will make any further changes deemed appropriate. The material weakness noted above cannot be considered remediated until the applicable remedial controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. The required testing for remediation will occur prior the Company completing its assessment of internal controls for the year ending December 31, 2014.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Except as noted below, the Company is not a party to any litigation other than litigation in the ordinary course of business. The Company's management and legal counsel do not expect that the ultimate outcome of any of its currently ongoing legal proceedings, individually or collectively, will have a material adverse effect on the Company's financial position, results of operations or cash flows.

In May 2013, Choice was added to an ongoing multi-district class action pending in federal court in Dallas, Texas. The lawsuit alleges that several online travel companies and hotel companies have engaged in anti-competitive practices. The complaint seeks an unspecified amount of damages and equitable relief. Choice disputes the allegations and is in the process of vigorously defending itself against these claims. We currently do not believe this litigation will have a material effect on our consolidated financial position, results of operation or liquidity.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A to our Annual Report on Form 10-K for the fiscal year ended December 31, 2012. In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

The following table sets forth purchases and redemptions of Choice Hotels International, Inc. common stock made by the Company during the nine months ended September 30, 2013:

Month Ending	Total Number of Shares Purchased or Redeemed	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ^{(1),(2)}	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs, End of Period
January 31, 2013	—	\$—	—	1,418,991
February 28, 2013	91,788	37.32	—	1,418,991
March 31, 2013	5,189	40.32	—	1,418,991
April 30, 2013	—	—	—	1,418,991
May 31, 2013	410	39.81	—	1,418,991
June 30, 2013	—	—	—	1,418,991
July 31, 2013	—	—	—	1,418,991
August 31, 2013	—	—	—	1,418,991
September 30, 2013	795	40.80	—	1,418,991
Total	98,182	\$37.52	—	1,418,991

(1) The Company's share repurchase program was initially approved by the board of directors on June 25, 1998. The program has no fixed dollar amount or expiration date.

(2) During the nine months ended September 30, 2013, the Company redeemed 98,182 shares of common stock from employees to satisfy minimum tax-withholding requirements related to the vesting of restricted stock and performance vested restricted stock unit grants. These redemptions were not part of the board repurchase authorization.
