WESTPAC BANKING CORPORATION
(Registrant)

Date: October 30, 2003

By: /s/ MANUELA ADL

Manuela Adl
SVP & Chief Operating Officer

Media release

30 October 2003

Westpac Banking Corporation announced on 30 October 2003, a net profit attributable to equity holders ('net profit') of \$2,183 million for the year ended 30 September 2003. Cash earnings(1) attributable to ordinary shareholders was \$2,271 million up 1% on 2002.

Earnings per share(2) were 115.6 cents, down 2% on 2002, and the return on equity(3) was 18.0%.

Directors have determined to pay a final dividend of 40 cents per share, taking the total dividend for the year to 78 cents, an increase of 11% on the prior year.

Earnings have been maintained at the same time as Westpac has invested for the future and without the benefit of AGC earnings that were included in the 2002 results.

Growth in Westpac's lending portfolio has been achieved without compromising asset quality. Stressed loans have declined by a further 9 basis points to 1% of total commitments. The charge for bad and doubtful debts increased by \$24 million or 5% on 2002 as a result of higher dynamic provisioning due to increased organic loan growth.

Westpac's CEO Dr Morgan said: "Today's result shows that Westpac is successfully implementing a range of strategic initiatives, particularly in customer service, that is improving long term earnings sustainability.

"We have the right balance between growth and return, having again delivered consistent earnings growth despite the earnings dilution arising from the sale of AGC in 2002 and the acquisition of Rothschild Australia Asset Management and BT Funds Management."

Westpac's leadership in governance and corporate responsibility was again widely recognised with Westpac rated the global sustainability leader in the banking sector by the Dow Jones Sustainability Index for the second year running and was the only company to receive a AAA rating in the Reputex Social Responsibility Ratings.

- (1) *Net profit attributable to equity holders is calculated in accordance with Australian GAAP. 'Cash earnings' adds back to net profit the amortisation of goodwill and subtracts distributions paid on hybrid equity instruments. We disclose this measure to investors to promote understanding of our past and future performance indicators. This measure should not be construed as superior to GAAP measures. We reconcile our cash earnings to net profit attributable to equity holders on the next page.*
- (2) *Net profit attributable to equity holders less distributions on other equity instruments divided by the daily weighted average number of ordinary shares.*
- (3) *Calculated by dividing net profit by average total equity.*
-

Edgar Filing: WESTPAC BANKING CORP - Form 6-K

The selected financial data set out below (other than certain percentages and average amounts quoted) have been derived from the consolidated financial statements for Westpac Banking Corporation and its controlled entities ("Westpac") for the years ended 30 September 2001 to 2003, which have been prepared in accordance with Australian generally accepted accounting principles (GAAP).

The US GAAP information has also been derived from the consolidated financial statements for Westpac, after having made adjustments for US GAAP requirements.

Translation of our 2003 figures to US currency has been made solely for the convenience of the reader at the rate of AUD1.00 = USD0.6797, the noon buying rate for cable transfers on 30 September 2003, published by the Federal Reserve Bank of New York. These translations should not be construed as representations that the Australian dollar amounts actually represent such US dollar amounts or have been or could be converted into US dollars at the rate indicated.

When necessary, comparative figures for 2002 and 2001 have been adjusted to conform to changes in presentation and classification in 2003.

(1) Calculated by dividing net interest income (including gross up) by average interest bearing assets.

(2) Calculated by dividing net profit attributable to our equity holders by average total assets.

(3) Calculated by dividing net profit attributable to our equity holders less distributions on other equity instruments by average ordinary equity.

(4) Calculated by dividing net profit attributable to our equity holders by average total equity.

Edgar Filing: WESTPAC BANKING CORP - Form 6-K

- (5) Based on average number of ordinary shares outstanding including 54 million New Zealand class shares and distributions on other equity instruments of A\$75m (2002 A\$48m, 2001 A\$51m).
- (6) Based on average number of shares and share equivalents and after deducting non-converting preference dividends and distributions on other equity instruments from net profit after tax
- (7) Calculated by dividing dividends per ordinary share by basic earnings per share.
- (8) Leverage ratios have been calculated in accordance with guidelines promulgated by the Board of Governors of the Federal Reserve System. The ratio is calculated by dividing Tier 1 capital in accordance with US GAAP by total average assets for leverage capital purposes in accordance with US GAAP.
