The accompanying Notice of Annual Meeting of Shareholders and Proxy Statement describe the items to be considered and acted upon by the shareholders.

Your vote is very important. Whether you plan to attend the Annual Meeting or not, we urge you to vote your shares as soon as possible. This will ensure representation of your shares at the Annual Meeting if you are unable to attend.

We are pleased to take advantage of new U.S. Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. As a result, we are mailing to most of our shareholders a Notice of Internet Availability of Proxy Materials (the "Notice") instead of a paper copy of this proxy statement and our 2007 Annual Report. The Notice contains instructions on how to access those documents over the Internet. The Notice also contains instructions on how to request a paper copy of our proxy materials, including the accompanying Proxy Statement, our 2007 Annual Report and a form of proxy card or voting instruction card. All shareholders who do not receive a Notice will receive a paper copy of the proxy materials by mail. We believe this new process will allow us to provide our shareholders with the information they need in a more efficient manner, while reducing the environmental impact and lowering the costs of printing and distributing our proxy materials.

We look forward to seeing you at the Annual Meeting.

Sincerely,

**PROXY STATEMENT
FOR THE
ANNUAL MEETING OF SHAREHOLDERS
OF
SKYWEST, INC.
TUESDAY, MAY 6, 2008**

Solicitation

This Proxy Statement, the accompanying notice of annual meeting, proxy card and the Annual Report to Shareholders of SkyWest, Inc. (the "Company" or "SkyWest") are being mailed on or about March 20, 2008. The Board of Directors (the "Board") of the Company is soliciting your proxy to vote your shares at the Annual Meeting of Shareholders (the "Meeting"). The Board is soliciting your proxy and to give all shareholders of record the opportunity to vote on matters that will be presented at the Meeting. This Proxy Statement provides you with information on these matters to assist you in voting your shares.

What is a proxy?

A proxy is your legal designation of another person to vote on your behalf. You are giving the individuals appointed by the Board as proxies (Jerry C. Atkin, Bradford R. Rich and Eric D. Christensen) the authority to vote your shares in the manner you indicate.

Why did I receive more than one notice?

You may receive multiple notices if you hold your shares in different ways (e.g., joint tenancy, trusts, custodial accounts) or in multiple accounts. If your shares are held by a broker (i.e., in "street name"), you will receive your notice or other voting information from your broker. In any case, you should vote for each notice you receive.

Voting Information

Who is qualified to vote?

You are qualified to receive notice of and to vote at the Meeting if you own shares of common stock of SkyWest, Inc. (the "Common Stock") at the close of business on the record date of Monday, March 12, 2008.

How many shares of Common Stock may vote at the Meeting?

As of March 12, 2008, there were 59,009,215 shares of Common Stock outstanding and entitled to vote. Each share of Common Stock is entitled to one vote on each matter presented.

What is the difference between a "shareholder of record" and a "street name" holder?

If your shares are registered directly in your name with Zion's First National Bank, the Company's transfer agent, you are a "shareholder of record." If your shares are held in the name of a brokerage, bank, trust or other nominee as a custodian, you are a "street name" holder.

How can I vote at the Meeting?

You may vote in person by attending the Annual Meeting. You may also vote electronically over the Internet, or by telephone, or you may request a complete set of traditional proxy materials and vote your proxy by mail. To vote your proxy using the Internet or telephone, see the instructions on the proxy form and have the proxy form available when you access the Internet website or place your

telephone call. To vote your proxy by mail, mark your vote on the enclosed proxy card, then follow the instructions on the card.

What are the Board's recommendations on how I should vote my shares?

The Board recommends that you vote your shares as follows:

- Proposal 1 **FOR** the election of all nine nominees for director with terms expiring at the next Annual Meeting of the Company's Shareholders.
- Proposal 2 **FOR** the ratification of the appointment of Ernst & Young, LLP as the Company's independent registered public accounting firm (independent auditors) for the year ending December 31, 2008.

What are my choices when voting?

- Proposal 1 You may cast your vote in favor of up to nine individual directors. You may vote for less than nine directors if you choose. You may also abstain from voting.
- Proposal 2 You may cast your vote in favor of or against the proposal, or you may elect to abstain from voting.

How would my shares be voted if I do not specify how they should be voted?

If you vote without indicating how you want your shares to be voted, the proxies appointed by the Board will vote your shares as follows:

- Proposal 1 **FOR** the election of all nine nominees for director with terms expiring at the next annual meeting of the Company's shareholders.
- Proposal 2 **FOR** the ratification of the appointment of Ernst & Young, LLP as the Company's independent registered public accounting firm (independent auditors) for the year ending December 31, 2008.

How are withheld votes, abstentions and broker non-votes treated?

Withheld votes, abstentions and broker non-votes are deemed as "present" at the Annual Meeting, and are counted for quorum purposes only.

Can I change my vote?

You may revoke your proxy before the time of voting at the meeting in any of the following ways:

- by mailing a revised proxy to the Secretary of the Company;
- by changing your vote on the Internet website;
- by using the telephone voting procedures
- by voting in person at the Annual Meeting

What vote is required to approve each proposal?

Proposal 1 provides that the nine nominees with the most votes will be elected as directors of the Company.

Proposal 2 requires the affirmative vote of a majority of those shareholders present in person or represented by proxy and entitled to vote at the Annual Meeting.

Who will count the votes?

Representatives from Zion's First National Bank, the Company's transfer agent, or other individuals designated by the Board, will count the votes and serve as inspectors of election. The inspectors of election will be present at the Annual Meeting.

Who pays the cost of this proxy solicitation?

The Company pays the costs of soliciting proxies. Upon request, the Company will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of the Common Stock.

Is this Proxy Statement the only way that proxies are being solicited?

Yes. We have not employed any other methods of solicitation.

How are proxy materials being delivered?

We are pleased to take advantage of new U.S. Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. As a result, we are mailing to most of our shareholders a Notice of Internet Availability of Proxy Materials (the "Notice") instead of a paper copy of this proxy statement and our 2007 Annual Report. The Notice contains instructions on how to access those documents over the Internet. The Notice also contains instructions on how to request a paper copy of our proxy materials, including the accompanying Proxy Statement, our 2007 Annual Report and a form of proxy card or voting instruction card. All shareholders who do not receive a Notice will receive a paper copy of the proxy materials by mail. We believe this new process will allow us to provide our shareholders with the information they need in a more efficient manner, while reducing the environmental impact and lowering the costs of printing and distributing our proxy materials.

This discussion will focus on the Company's objectives, principles, practices and decisions with regards to the compensation of the following named executive officers of the Company (NEOs):

Jerry C. Atkin, Chairman and Chief Executive Officer of the Company

Bradford R. Rich, Executive Vice President and Chief Financial Officer of the Company, SkyWest Airlines and ASA

Executive Compensation Objectives and Principles

The overall objective of our executive compensation program is to help create long-term value for our shareholders by attracting and retaining talented executives, rewarding superior operating and financial performance, and aligning the long-term interests of our executives with those of our shareholders. Accordingly, our executive compensation program incorporates the following principles:

Compensation should be based upon individual job responsibility, demonstrated leadership ability, management experience and individual and Company performance. Employees in positions of leadership and broad responsibility are generally compensated by elements that are linked to overall Company performance and shareholder returns.

Compensation should reflect the fair market value of the services received. The Company believes that a fair and competitive pay package for the NEOs is essential to attract and retain talented executives in key positions.

Compensation should reward both short-term and long-term Company performance. The pay package of our NEOs is designed to provide components of both short-term and long-term incentive compensation. Annual bonuses are tied to achievement of short-term quantitative and qualitative performance goals that we believe closely correlate to share value. Long-term

performance is rewarded through equity-based awards, such as stock options and restricted stock, the value of which depends upon future Company share prices, and the realization of which is contingent upon satisfaction of vesting schedules, requiring continued service with the Company.

Compensation should foster long-term focus. While Company executive employees receive a mix of short-term and long-term incentive compensation, the NEOs should have a substantial portion of their compensation tied to long-term performance and sustained increases in share value. This is accomplished through our program of granting long-term, equity-based awards.

Executive Compensation Procedures

To attain the Company's executive compensation objectives and implement the underlying compensation principles, the Company follows the procedures described below.

Role of the Compensation Committee. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs of the Company and for making decisions regarding the compensation of the NEOs. The agenda for meetings of the Compensation Committee is determined by the Chair of the Compensation Committee, in consultation with the Chief Executive Officer and the Corporate Secretary. Compensation Committee meetings are regularly attended by the Chief Executive Officer and the Corporate Secretary. The Compensation Committee also meets in executive session. The Compensation Committee recommends the compensation package of the Chief Executive Officer to the full Board, which then sets the Chief Executive Officer's compensation. The Compensation Committee also reviews the recommendations of the Chief Executive Officer with respect to compensation of the other NEOs and, after reviewing such recommendations, sets the compensation of the other NEOs. The Compensation Committee also monitors, administers and approves awards under the Company's various incentive compensation plans for all levels within the Company, including awards under the Company's annual bonus plan and 2006 Long-Term Incentive Plan.

After reviewing the performance of the Company and evaluating the executive's performance against established goals, leadership ability and responsibilities with the Company, and current compensation arrangements, the Compensation Committee relies on its judgment in making compensation decisions. When setting total compensation for each of the NEOs, the Compensation Committee reviews tally sheets which show the NEO's current compensation, including equity and non-equity based compensation. The Compensation Committee also evaluates surveys and other available data regarding the executive compensation programs of other regional air carriers, which for fiscal year 2007 included Midwest, Pinnacle, Republic, Frontier, Mesa, Horizon, ExpressJet, Air Tran, JetBlue, Alaska and Southwest airlines (the "Peer Group Airlines"). The compensation program for NEOs and the Compensation Committee assessment process are designed to be flexible so as to better respond to the evolving business environment and individual circumstances.

Role of Consultants. Neither the Company nor the Compensation Committee has any contractual arrangement with any consultant for determining the amount or particular form of any NEO compensation. The Compensation Committee utilized the services of Frederic W. Cook & Co., Inc., an outside compensation consulting firm, to assist in the development of the Company's 2006 Long-Term Incentive Plan and in 2006 and 2007 to advise the Compensation Committee regarding long-term equity award granting practices under the plan and market trends in the executive compensation area as they relate to equity-based compensation. The Compensation Committee did not use or rely on any recommendations from Frederic W. Cook & Co., Inc. as to the amount of compensation to pay to any particular NEO. The Company and the Compensation Committee have not retained any other compensation consultant to render services regarding NEO compensation, but may seek the advice of such persons in the future.

No Employment and Severance Agreements. The NEOs do not have employment, severance or change-in-control agreements, although unvested options and restricted stock may become vested upon a change in control. The NEOs serve at the will of the Board, which enables the Company to terminate their employment with discretion as to the terms of any severance. This is consistent with the Company's performance-based employment and compensation philosophy.

Elements of Compensation

The Company's executive compensation objectives and principles are implemented through the use of the following elements of compensation, each discussed more fully below:

Base Pay

Annual Performance-Based Bonus

Long-Term Equity Awards.

Retirement Benefits and Deferred Compensation

Other Personal Benefits.

Base Pay. The NEOs' base pay is set at levels that the Company believes are generally competitive with the compensation paid to similarly situated officers by Peer Group Airlines, with the expectation that shortfalls in base pay, if any, will be recouped through annual performance bonuses if the Company's performance entitles the NEO to receive the full amount of the targeted annual bonus. The Compensation Committee recommends to the full Board the base pay of the Chief Executive Officer and sets the base pay of the other NEOs after reviewing the recommendation of the Chief Executive Officer. Annual adjustments are influenced by growth of the Company's operations, revenues and profitability, individual performance, changes in responsibility and other factors.

Annual Performance-Based Bonus. The Company maintains an annual bonus program for its NEOs and other executive officers. Under such bonus plan, NEOs are eligible to receive a cash bonus following the conclusion of the Company's fiscal year, contingent on the attainment of predetermined performance goals as well as Company discretion to increase or decrease the bonus at year end. The NEOs have an opportunity to defer their annual bonus under the Company's deferred compensation plans.

In an effort to encourage achievement of the Company's performance objectives, the amount of annual bonus payable to the NEOs for each year is set at levels that the Compensation Committee believes are competitive with the Peer Group Airlines. The combination of base pay and annual performance-based bonuses is intended to result in a rate of salary and annual bonus compensation that falls within competitive, market standards when the Company meets the performance objectives set by the Compensation Committee.

The targeted annual bonus amount for each NEO is expressed as a percentage of the NEO's base pay and is established by the Compensation Committee at the beginning of each year. The Compensation Committee also determines the minimum and maximum annual bonus levels for the NEOs. The target bonus amount for the NEOs in 2007 was 80% of base pay.

The full amount of the targeted annual bonus is earned by the NEOs only if the Company meets the targeted financial and other performance objectives set at the beginning of the year that are approved by the Compensation Committee. For the Chief Executive Officer and Chief Financial Officer, the financial targets are based on consolidated net income of the Company. In the case of the presidents of SkyWest Airlines and ASA, the financial targets are set based on the net income targets of the subsidiary for which they have responsibility. Generally, the net income targets are set as the amount necessary to achieve a 15% return on shareholder equity, after adjusting for several factors

such as public offerings, accounting timing differences, contract expectations and other factors. One fourth of the targeted annual performance bonus for each NEO is also subject to the NEO meeting additional, specific operational and individual goals established each year. For fiscal year 2007, those additional goals were developed by each individual NEO and, in the case of NEOs other than the Chief Executive Officer, reviewed and adjusted by the Chief Executive Officer. If the Company exceeds or fails to meet the targeted level of performance objectives set by the Compensation Committee, the amount of annual bonuses paid to the NEOs is increased or decreased, as applicable, within certain predetermined ranges. In addition, the Compensation Committee and Board have discretion to depart from the formula in approving an annual bonus and may exercise discretion to increase or decrease annual bonuses, including refraining from paying any bonus, after general results are known. The payment of annual bonus to the NEOs is made soon after the close of the fiscal year to which the bonus relates, once the Compensation Committee has determined the amount actually earned and payable. In the case of the Chief Executive Officer, the full Board reviews and approves the final calculation of the annual bonus.

For 2007, the performance bonuses for the Presidents and Chief Operating Officers of SkyWest Airlines were based on the formulas established at the beginning of the year. In the case of the Presidents and Chief Operating Officers of ASA, adjustments were made to the 2007 fiscal year ASA target earnings objective to more closely align compensation paid to those NEOs with the operating and financial results achieved by ASA under its Delta Connection Agreement. The adjustments, which were generally consistent with adjustments made to performance bonuses paid to other ASA officers, resulted in lower payments than would otherwise have been made based on the targets and formula established at the beginning of the 2007 fiscal year. Bonus amounts earned for 2007 are reported under the heading "Non-Equity Incentive Compensation" in the Summary Compensation Table set forth in this Proxy Statement.

Long-Term Equity Awards. Discretionary long-term equity awards, in the form of stock options and restricted stock, are granted at the Compensation Committee's discretion to the NEOs annually in order to provide long-term, performance-based compensation, to encourage the NEOs to continue their engagement with the Company throughout the vesting periods of the awards and to align management and shareholder interests. In making awards under the 2006 Long-Term Incentive Plan, the Compensation Committee considers grant size and the appropriate combination of equity-based awards in making NEO grant decisions. The Company generally grants long-term equity awards at the regularly scheduled Compensation Committee meeting in February of each year.

Options are granted with an exercise price equal to the closing price per share on the date of grant and vest on a three-year "cliff" basis. The Company does not grant options with an exercise price below the trading price of the underlying shares of Common Stock on the date of grant or grant options that are priced on a date other than the date of grant. Stock options only have a value to the extent the value of the underlying shares on the exercise date exceeds the exercise price. Accordingly, they provide compensation only if the underlying share price increases over the option term and the NEO's employment continues with the Company until the vesting date.

In 2007, the Company also granted shares of restricted stock to the NEOs, subject to a three-year "cliff" vesting schedule, at a purchase price of zero. Restricted stock awards provide the NEOs with an increased ownership stake in the Company subject to vesting and encourage the NEO to continue employment in order to meet the vesting schedule. The compensation value of a restricted stock award does not depend solely on future stock price increases; at grant, its value is equal to the Company's stock price. Although its value may increase or decrease with changes in the stock price during the period before vesting, a restricted stock award will have value without regard to future stock price appreciation. Accordingly, restricted stock awards can deliver significantly greater share-for-share compensation value at grant than stock options, and the Company can offer comparable grant date compensation value with fewer shares and less dilution for its shareholders.

The estimated future value at vesting date of the long-term equity awards (assuming 15% annual appreciation in the Common Stock) for any year is intended to approximate 125% of projected annual base salary and targeted annual bonus for that year in the case of the Company's Chief Executive Officer, and 100% of annual salary and targeted bonus in the case of the other NEOs. In determining the amount of the award, stock option equivalents are first calculated assuming the value of a stock option is 35% of the exercise price. Generally, three-quarters of each NEO's annual long-term equity award is granted in stock options in an effort to provide a high level of performance-based incentive, and the remaining one-fourth of the award is granted in shares of restricted stock (with each share of restricted share valued as if it were an option for four shares). Both types of awards vest only if the NEO remains employed by the Company for three years from the date of grant. The Company believes the three-year vesting schedule assists in retaining executives and encourages the NEOs to focus on long-term performance. In 2007, the number of shares indicated by the formulas above was also reduced in order to make more shares available for our non-executive employees. In granting shares of restricted stock and stock options to the NEOs, the Company also considers the impact of the grant on the Company's financial performance, as determined in accordance with the requirements of Statement of Financial Accounting Standards No. 123(R), *Share-Based Payment* (SFAS No. 123(R)). For long-term equity awards, the Company records expense in accordance with SFAS 123(R). The amount of expense the Company records pursuant to SFAS 123(R) may vary from the corresponding compensation value used by the Company in determining the amount of the awards.

Retirement Benefits and Deferred Compensation. The Company sponsors the SkyWest, Inc. Employees' Retirement Plan for its eligible employees and the eligible employees of SkyWest Airlines. Messrs. Atkin, Rich, Childs, Holt and Reber participate in the SkyWest, Inc. Employees' Retirement Plan. ASA maintains a separate but substantially similar retirement plan, the Atlantic Southeast Airlines, Inc. Incentive Savings Plan, for ASA's employees. Messrs. Holt and LaBrecque participate in the Atlantic Southeast Airlines, Inc. Incentive Savings Plan. The two plans (the "401(k) Plans") are broad-based, tax-qualified retirement plans under which eligible employees, including the NEOs, may make annual pre-tax salary reduction contributions subject to the various limits imposed under the Internal Revenue Code of 1986, as amended. The sponsoring employers make matching contributions under the 401(k) Plans on behalf of eligible participants, but the NEOs are not eligible to receive such matching contributions under either 401(k) Plan.

The Company also maintains the SkyWest, Inc. 2002 Deferred Compensation Plan, a non-qualified deferred compensation plan, for the benefit of certain highly compensated management employees, including Messrs. Atkin, Rich, Childs, Holt and Reber. ASA maintains a separate but substantially similar non-qualified deferred compensation plan, the Atlantic Southeast Airlines, Inc. Executive Deferred Compensation Plan, for its highly compensated management employees, including Messrs. Holt and LaBrecque. Under the two non-qualified deferred compensation plans (the "Deferred Compensation Plans"), eligible executives, including the NEOs, may elect in advance of each calendar year to defer up to 100% of their cash salary and bonus compensation earned with respect to such year. The sponsoring employer also credits each eligible employee's account under the Deferred Compensation Plans with a discretionary employer contribution. For 2007, the discretionary employer contribution was 15% of the each eligible employee's salary and annual bonus earned for the year in question.

The Company and its subsidiaries do not maintain any defined benefit pension plans for the NEOs.

Other Benefits. Other benefits are provided to the NEOs in order to achieve a competitive pay package as detailed in the Summary Compensation Table. The Compensation Committee believes that those benefits, which are detailed in the Summary Compensation Table under the heading "All Other Compensation." below, are reasonable, competitive and consistent with the Company's overall executive compensation program. Those benefits consist principally of employer contributions to the Deferred

Compensation Plans on behalf of NEOs, employer-paid premiums on health insurance, personal automobile allowances, country club dues, and use of employer-owned recreational equipment.

Additionally, the Company and its subsidiaries maintain a non-discriminatory, broad-based program under which all full-time Company employees and their dependents, including the NEOs and their dependents, may fly without charge on regularly scheduled flights of aircraft operated by the Company's subsidiaries. The value of such aircraft use is not included in the "All Other Compensation" column in the Summary Compensation Table.

Ownership Guidelines

Each NEO is encouraged to maintain a minimum ownership interest in the Company, defined as stock ownership equal to five times base salary for the Chief Executive Officer, and three times base salary for the Chief Financial Officer and the Presidents of SkyWest Airlines and ASA. The NEOs are encouraged to make progress towards the goal in each year that stock options are exercised or restricted shares vest.

Deductibility of Executive Compensation

Section 162(m) of the Code imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid to the company's principal executive officer during a tax year or to any of the company's three other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Section 162(m) of the Internal Revenue Code 1986, as amended (the "Code") for "qualified performance-based compensation" (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Company's shareholders).

The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock option grants in 2007 were intended to constitute "qualified performance-based compensation" under Section 162(m) of the Code. The Company's 2007 restricted stock grants and annual performance bonuses, however, were not "qualified performance-based compensation." In 2007, none of the NEOs who were still employed at the end of the Company's 2007 fiscal year received base pay, annual bonus and restricted stock grants in an amount in excess of the \$1 million deduction limit.

- (1) The vesting of these awards was accelerated by the Compensation Committee as part of the negotiated severance package granted to Mr. Reber upon his separation from the Company. The original vesting date was February 1, 2008 for the 120,000 stock options, May 8, 2009 for the 10,636 stock options, and February 6, 2010 for the 1,678 stock options. The original vesting date was May 8, 2009 for the 901 restricted shares and February 6, 2010 for the 140 restricted shares.
- (2) The dollar amounts shown in column (c) above for option awards are determined by multiplying (i) the number of shares of Common Stock to which the exercise of the option related, by (ii) the difference between the per-share closing price of Common Stock on the date of exercise and the exercise price of the options.
- (3) The dollar amounts shown in column (e) above for stock awards are determined by multiplying the number of shares that vested by the per-share closing price of Common Stock on the vesting date.

NON-QUALIFIED DEFERRED COMPENSATION

Pursuant to the Deferred Compensation Plans, NEOs may elect prior to the beginning of each calendar year to defer the receipt of base salary and annual performance bonuses earned for the ensuing calendar year. Amounts deferred are credited to an unfunded liability account maintained by the Company or ASA, as applicable, on behalf of the applicable NEO, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the applicable plan. Each NEO's account under the applicable plan is also credited with a discretionary employer contribution monthly, whether or not the NEO elects to contribute. For 2007 that discretionary employer contribution was 15% of the each eligible NEO's salary and annual bonus. Participant account balances under the Deferred Compensation Plans are fully-vested and will be paid by the sponsoring employer to each NEO upon retirement or separation from employment, or on other specified dates certain, in a lump sum form or in installments according to a schedule elected in advance by the participant.

The following table provides information regarding the Deferred Compensation Plans for NEOs for 2007.

- (1) For fiscal year 2007, Messrs. Atkin, Rich, Childs, Holt and Reber participated in the SkyWest, Inc. 2002 Deferred Compensation Plan and Mr. LaBrecque participated in the Atlantic Southeast Airlines Inc. Executive Deferred Compensation Plan. Mr. Rich also maintains an account balance in a prior non-qualified deferred compensation plan that the Company froze in 2002. The amount shown in columns (d) and (f) of this table include \$31,075 in 2007 earnings credited under that prior plan to Mr. Rich's account and Mr. Rich's 2007 fiscal year-end balance under that prior plan of \$258,786. No other NEO participates in that prior plan and no further contributions are credited under that plan.
- (2) During 2007, no elective deferrals of NEO salary or annual bonus amounts were credited as contributions to the Deferred Compensation Plans except \$192,661 representing the amount of Mr. Reber's annual performance bonus for fiscal year 2006, otherwise payable in February 2007, that he elected to defer under the SkyWest, Inc. 2002 Deferred Compensation Plan.
- (3) The amounts in column (c) reflect the following amounts of employer contributions credited in 2007 at the rate of 15% of each NEO's base salary and paid bonus for the year ended December 31, 2007 and 2006 annual performance bonuses paid in 2007. This column does not include employer contributions that were credited to the applicable Deferred Compensation Plan in 2008 based on NEO annual performance bonuses earned in 2007 but paid in 2008. The amounts reported in column (c) are also included in the amounts reported in the Other Compensation column of the Summary Compensation Table.
- (4) The amounts in column (d) reflect the notational earnings during 2007 credited to each NEO's account under the applicable Deferred Compensation Plan. These amounts are not reported in the Summary Compensation Table because they are based on market rates determined by reference to mutual funds that are available to participants in the Company's or ASA's tax-qualified 401(k) plans or, in certain cases, otherwise broadly available.
- (5) During the year ended December 31, 2007, Ron Reber received a distribution of \$577,643 from the Company's Deferred Compensation Plan as a result of his separation from service with the Company in April 2007 in accordance with the applicable distribution schedule under the Plan.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

The information below describes and quantifies certain payments or benefits that would be payable under our existing plans and programs if an NEO's employment had terminated on December 31, 2007 or the Company had undergone a change in control on December 31, 2007. These benefits are in addition to benefits generally available to all salaried employees of the Company in connection with a termination of employment such as distributions from the 401(k) Plans, disability and life insurance benefits, the value of employee-paid group health plan continuation coverage under COBRA and accrued vacation pay. Our NEOs do not have any other severance benefits, severance agreements or change-in-control agreements.

Accelerated Vesting of Stock Options and Stock Awards Upon Change In Control. Under the Company's long-term incentive plans, all outstanding stock options and shares of restricted stock held by an NEO become fully vested upon a "change in control" without regard to whether the NEO terminates employment in connection with or following the change in control. Our long-term incentive plans generally define a "change in control" as any of the following events: (i) the acquisition by any person of 50% or more of our voting shares, (ii) replacement of a majority of our directors within a two-year period under certain conditions, or (iii) shareholder approval of a merger in which the Company is not the surviving entity, sale of substantially all of our assets or liquidation. The following table shows for each NEO the intrinsic value of his unvested stock option and restricted stock awards as of December 31, 2007 that would have been accelerated had a change in control of the Company occurred on that date, calculated by multiplying the number of underlying shares by the closing price of Company stock on the last trading day of 2007 (\$27.00 per share) and, in the case of stock options, by then subtracting the applicable option exercise price:

Name	Early Vesting of Stock Options	Early Vesting of Restricted Stock
Jerry C. Atkin	\$ 2,064,325	\$ 271,080
Bradford R. Rich	\$ 1,107,745	\$ 158,544
Russell A. Childs	\$ 425,134	\$ 118,989
Bradford R. Holt	\$ 504,299	\$ 119,259

If a change in control with respect to the Company results in acceleration of vesting of an NEO's otherwise unvested stock options and other stock awards, and if the value of such acceleration exceeds 2.99 times the NEO's average W-2 compensation with the Company for the five taxable years preceding the year of the change in control (the "Base Period Amount"), the acceleration would result in an excess parachute payment under Code Section 280G. An NEO would be subject to a 20% excise tax on any such excess parachute payment and the Company would be unable to deduct the excess parachute payment. The Company has not agreed to provide its NEOs with any gross-up or reimbursement for excise taxes imposed on excess parachute payments.

Deferred Compensation. If an NEO had terminated employment on December 31, 2007, the NEO would have become entitled to receive the balance in his account under the applicable Deferred Compensation Plan. Distribution would be made in the form of a lump sum or in installments, and in accordance with the distributions schedule elected by the NEO under the applicable plan. The 2007 year-end account balances under those plans are shown in column (e) in the Nonqualified Deferred Compensation Table set forth above. That account balance would continue to be credited with notational investment earnings or losses through the date of actual distribution, the employer 15% contribution attributable to the annual performance bonus earned in 2007 and any amount of that bonus that the NEO had elected to defer.

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve as directors. In setting director compensation, the Company considers the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill-level required by the Company of directors. Each director is encouraged to own at least 5,000 shares of Common Stock.

Cash Compensation Paid to Directors

For the year ended December 31, 2007, all directors who are not employees of the Company received an annual cash retainer of \$30,000 and an attendance fee of \$1,500 for each board meeting; \$1,000 for each committee meeting, and \$750 for each telephonic board or committee meeting. The directors serving as the Chairs of the Compensation Committee and the Nominating and Corporate Governance Committees were paid an annual fee of \$4,000. The Chair of the Audit and Finance Committee was paid an annual fee of \$15,000. Jerry C. Atkin, Chairman, an employee of the Company, received no compensation for his service on the Board. Commencing in 2008, the annual cash retainer to be paid to each non-employee director has been increased to \$31,000.

Stock Awards

Each non-employee director receives a stock award annually. On February 6, 2007, each of the non-employee directors received an award of 1,663 shares of Common Stock. The directors were not granted options during the years ended December 31, 2006 or December 31, 2007.

AUDIT & FINANCE COMMITTEE DISCLOSURE

Who served on the Audit and Finance Committee?

The members of the Audit and Finance Committee as of December 31, 2007 were: W. Steve Albrecht (Chair), Henry J. Eyring, J. Ralph Atkin and Robert G. Sarver. Each member of the Audit and Finance Committee has been determined by the Board to be independent under the rules of the Securities and Exchange Commission and the Nasdaq Stock Market. The Board has determined that W. Steve Albrecht, who served on the Audit and Finance Committee throughout the year ended December 31, 2007, is an "audit committee financial expert" as defined in Item 401(h)(2) of Regulation S-K promulgated under the Exchange Act.

What document governs the activities of the Audit and Finance Committee?

The Audit Committee acts under a written charter, which sets forth its responsibilities and duties, as well as requirements for the Audit Committee's composition and meetings. The Audit Committee charter is available on the Company's Web site at www.SkyWest.com under Investor Relations, and is also available in print, free of charge, upon request. Requests for a printed copy of the Audit Committee charter should be submitted to Eric D. Christensen, Corporate Secretary of the Company, at 444 South River Road, St. George, Utah 84790.

How does the Audit and Finance Committee conduct its meetings?

During the year ended December 31, 2007, the Audit Committee met with the senior members of the Company's financial management team at each of its four meetings. The Audit and Finance Committee also met with representatives of Ernst & Young ("E&Y"), the Company's independent registered public accounting firm, at each of its meetings and met with representatives of Protiviti, Inc. ("Protiviti"), the Company's principal internal auditor, at several of the meetings. Agendas for the Audit and Finance Committee's meetings are established by the Chair of the Audit and Finance Committee, after consultation with the Company's Chief Financial Officer. At each meeting, the Audit and Finance Committee reviewed and discussed various financial and regulatory issues and a summary of calls received on the Company's anonymous reporting line with respect to fraud, theft, accounting and control matters. The Audit and Finance Committee also had separate, executive sessions from time to time with representatives of E&Y, the Chief Financial Officer, Protiviti and the Company's legal counsel, at which meetings candid discussions of financial management, accounting, internal controls, legal and compliance issues took place. Additionally, the Chair had separate discussions regularly with representatives of E&Y, the Chief Financial Officer, Protiviti and the Company's legal counsel.

Does the Audit and Finance Committee review the periodic reports and other public financial disclosures of the Company?

The Audit and Finance Committee reviews each of the Company's quarterly and annual reports, including Management's Discussion and Analysis of Financial Condition and Results of Operations. As part of this review, the Audit and Finance Committee discusses the reports with the Company's management and independent registered public accounting firm and considers the audit and review reports prepared by the independent registered public accounting firm about the Company's quarterly and annual reports, as well as related matters such as the quality (and not just the acceptability) of the Company's accounting practices, alternative methods of accounting under GAAP and the preferences of the independent registered public accounting firm in this regard, the Company's critical accounting policies and the clarity and completeness of the Company's financial and other disclosures.

Did the Audit and Finance Committee play any role in connection with the Company's report on internal control?

The Audit and Finance Committee reviewed management's report on internal control over financial reporting, required under Section 404 of the Sarbanes-Oxley Act of 2002 and related rules. As

part of this review, the Audit and Finance Committee reviewed the bases for management's conclusions in that report and the report of the independent registered public accounting firm on internal control over financial reporting. Throughout the year ended December 31, 2007, the Audit and Finance Committee reviewed management's plan for documenting and testing controls, the results of their documentation and testing, any deficiencies discovered and the resulting remediation of any such deficiencies.

What is the role of the Audit and Finance Committee in connection with the financial statements and controls of the Company?

Management of the Company has primary responsibility for the financial statements and internal control over financial reporting. The independent registered public accounting firm has responsibility for the integrated audit of the Company's financial statements and internal control over financial reporting. The responsibility of the Audit and Finance Committee is to oversee financial and control matters, among other responsibilities fulfilled by the Audit and Finance Committee under its charter. The Audit and Finance Committee meets regularly with the independent registered public accounting firm, without the presence of management, to ensure candid and constructive discussions about the Company's compliance with accounting standards and best practices among public companies comparable in size and scope to the Company. The Audit and Finance Committee also regularly reviews with its outside advisors material developments in the law and accounting literature that may be pertinent to the Company's financial reporting practices.

Does the Audit and Finance Committee have any policy-making responsibility?

From time to time, the Audit and Finance Committee establishes certain policies as required by the rules of the Securities and Exchange Commission and the listing standards of the Nasdaq Stock Market. For example, the Audit and Finance Committee has established a policy for the receipt and retention (including on an anonymous basis) of complaints about financial and control matters. The Audit and Finance Committee also has implemented a policy that addresses when the Company may recruit personnel who formerly were employed by the Company's independent registered public accounting firm. In other cases, the Audit and Finance Committee is responsible for overseeing the efficacy of management policies, including compliance with the Code of Ethics and the availability of perquisites.

What matters have members of the Audit and Finance Committee discussed with the independent registered public accounting firm?

In its meetings with representatives of E&Y, the Audit and Finance Committee asked E&Y to address and discuss their responses to several questions that they believed were particularly relevant to its oversight. These questions included:

Are there any significant judgments made by management in preparing the financial statements that would have been made differently had E&Y prepared and been responsible for the financial statements?

Based on E&Y's experience, and their knowledge of the Company, do the Company's financial statements fairly present to investors, with clarity and completeness, the Company's financial position and performance for the reporting period in accordance with U.S. generally accepted accounting principles and Securities and Exchange Commission disclosure requirements?

Based on E&Y's experience, and their knowledge of the Company, has the Company implemented internal controls and internal audit procedures that are appropriate for the Company?

During the course of the fiscal year, has E&Y received any communication or discovered any information indicating any improprieties with respect to the Company's accounting and reporting procedures or reports?

Edgar Filing: SKYWEST INC - Form DEF 14A

The Audit and Finance Committee has also discussed with E&Y that they are retained by the Audit and Finance Committee and that they must raise any concerns about the Company's financial reporting and procedures directly with the Audit and Finance Committee.
