The Accounts have the right to receive all dividends from, and any proceeds from the sale of the Shares. None of the Accounts has an interest in Shares constituting more than 5% of the Shares outstanding. **Item 7. Materials to be Filed as Exhibits.** Item 7 is hereby amended as follows: As is indicated in Item 4 in previous 13D/A filings, KIM has purchased Shares of MGF for the Accounts for investment purposes. However, KIM has reserved the right to contact management with regard to concerns that they have with respect to the Fund, including letters to the Board and/or other communications with fund management. Pursuant to concerns KIM currently has with the Fund, KIM sent a proposal to the Fund on March 29, 2007. A copy of the proposal is attached as Exhibit 1. Additionally, KIM also sent a letter to the Fund on May 2, 2007 regarding a recent DEFA14A filing, submitted by the Fund to the Commission on April 30, 2007. A copy of the letter is attached hereto as Exhibit 2. Lastly, a recent communication was sent to the Fund by KIM regarding withdrawing its proposal referenced in Exhibit 1. A copy of the letter withdrawing KIM's referenced proposal is attached as Exhibit 3.

**Re: MFS Government Markets Income Trust (NYSE: MGF)**

Mr. Polebaum:

Karpus Management, Inc., d/b/a Karpus Investment Management ("KIM"), represents beneficial ownership of 4,290,747 shares, or 8.36% of the outstanding shares of common stock of MFS Government Markets Income Trust ("MGF" or the "Fund"). We have represented beneficial ownership of Fund shares since October 21, 1992. Pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, KIM hereby submits the following proposals and supporting statement for inclusion in any and all proxy materials at the 2007 annual shareholders' meeting (the "Meeting"):

**PROPOSALS**

1. KIM proposes that shareholders vote at the next shareholders meeting to have the Fund conduct a tender offer for up to 25% of the Fund's outstanding common shares at net asset value. 2. KIM further proposes that the Fund establish a policy whereby if the Fund trades at an average discount of over 10% for the 10 calendar weeks prior to the end of June 30 or December 31 (as determined by the close of regular trading sessions of the NYSE), the Fund conduct semi-annual tender offers of 5% of the Fund's outstanding shares at net asset value. Although neither of the above proposals will be binding, we believe that their approval will send a message to the Trustees that they must effectively address the persistently wide discount to net asset value at which the Fund has historically traded.

**SUPPORTING STATEMENT**

## Edgar Filing: MFS GOVERNMENT MARKETS INCOME TRUST - Form SC 13D/A

KIM believes the current Fund Management and Board of Directors have not taken adequate measures to address the persistently wide discount of MGF. According to the original prospectus: "The trust may purchase its shares from time to time in the open market or otherwise as and when it is deemed advisable by the trustees. Such repurchases will be made only when the trust's shares are trading at a discount of 10% or more from the net asset value." While the Fund has conducted repurchase offers, history has told us as shareholders that the repurchase offers alone have not significantly reduced and kept narrow our Fund's discount to net asset value and have also not even been aggressively implemented. For example, since November 2005 the Fund only repurchased approximately 1.5% of its shares. We do not believe that this insignificant and seemingly token buyback has had as substantial positive effect in enhancing shareholder value.

Accordingly, we feel that it is time for the Board to undertake more serious actions designed to address our Fund's discount and institute a tender offer for up to 25% of the Fund's outstanding common shares at net asset value. Furthermore, we believe it would be responsible for the Fund to institute a policy making it more accountable to enhancing shareholder value over the long-term. We believe that it would greatly enhance shareholder value if the Fund instituted a policy whereby if the Fund trades at an average discount of over 10% for the 10 calendar weeks prior to the end of June 30 or December 31 (as determined by the close of regular trading sessions of the NYSE), it would conduct a tender offer of 5% of the Fund's outstanding shares at net asset value.

### END OF PROPOSAL

As is required by Rule 14a-8, we have attached a letter from U.S. Bank N.A, as well as a written statement from the "record" holder of the referenced shares, verifying that said shares were continuously and beneficially owned and having a value of \$2,000 or more for at least a one year from the date of the submittal of this proposal. Furthermore, Karpus intends to hold the referenced shares on the attached through the date of the Meeting. Should you wish to discuss any of the matters discussed in this letter, please do not hesitate to contact me. Thank you for your time and consideration.

Sincerely,

Trustees:

I am writing on behalf of Karpus Investment Management (KIM), a registered investment adviser. As of April 30, 2007, we represented beneficial ownership of 4,760,843 shares of the MFS Government Markets Income Trust (MGF) for KIM clients, which represents 9.27 percent of outstanding shares. We have been accumulating shares for investment purposes since October 21, 1992. I am writing regarding your April 30, 2007 DEFA14A filing disclosing the Board of Trustees decision to take certain actions "to potentially narrow the discount of the trust's share market price to net asset value." These actions include allowing the fund to add leverage up to 33.3 percent of total assets and to allow the 20 percent invested in non-fundamental investments to be invested in corporate bonds and emerging market debt. These proposed measures suggested by the Trustees, in my opinion, will not only be ineffective in narrowing the trust's discount but would be implemented at a very poor time in the economic cycle. Additionally, these changes would involve the fund incurring unnecessary transaction costs and may involve the trust's Management charging additional management fees on the leveraged portion of the portfolio. **We are not dissatisfied with the way the portfolio is being managed, we are concerned with the way the discount is being managed (or not managed) by the Board of Trustees.** The solutions being considered by the Board are tenuous at best especially in the current economic environment. Leverage will not enhance shareholder value in an inverted yield curve environment (currently both the three-month and the six-month interest rates are above the two-year, five-year, ten-year, and thirty-year rates). Additionally, spread product, such as corporate and emerging market debt, is trading at very narrow spreads to Treasury yields. Should the domestic and/or emerging market economies growth slowdown, these spreads would likely widen which would lead to poor net asset value performance. Also, if Treasury yields increase, these sectors should under perform. We have suggested methods that have been taken by other Boards to address Shareholder concerns with regard to MGF's discount to net asset value. These suggestions seem to have fallen upon deaf ears. **We refuse to endorse the recently announced plans for the Trustees to address the Fund's discount. We will adamantly oppose the approval of these proposals and seriously question the Trustees' reasoning.**

Sincerely,

/s/

**Re: MFS Government Markets Income Trust (NYSE: MGF)**

Mr. Polebaum:

This letter serves as authorization to rescind our shareholder proposal originally submitted to the Fund on May 23, 2007. The proposal required the Trustees to consider conducting a tender offer for 25 percent of the Fund's outstanding shares at 98 percent of net asset value. It was to appear on the proxy materials for MGF's 2007 annual meeting of shareholders. We are taking this action as a good faith measure in response to the Board's adaptation of a 7.25 percent managed distribution policy. Although we are not fully confident that this policy will effectively narrow, and keep narrow, the Fund's discount to net asset value, it is a demonstration that the Board is taking a significant action to address the Fund's discount. Karpus Investment Management urges the Board to take other action(s) should the discount widen significantly. These actions could include but are not limited to; raising the distribution rate, conducting a tender offer near net asset value, or open-ending the Fund. At this point we will wait to see if the Board's actions were adequate in managing the Fund's discount. We appreciate the Trustees' attention to the concerns of the Fund's largest shareholder. We look forward to working with the Trustees in the future should the Fund's discount widen significantly.

Sincerely,

/s/
