The Banks are all members of the Federal Reserve System. The Company is also the parent of Brookline Securities Corp. (“BSC”). The Company’s primary business is to provide commercial, business and retail banking services to its corporate, municipal and individual customers through its banks and non-bank subsidiaries.

The Company ceased the origination of indirect automobile loans in December 2014.

The Company and the Banks are supervised, examined and regulated by the Board of Governors of the Federal Reserve System (“FRB”). As Massachusetts-chartered banks, Brookline Bank and First Ipswich are also subject to regulation under the laws of the Commonwealth of Massachusetts and the jurisdiction of the Massachusetts Division of Banks. BROOKLINE BANCORP, INC. AND SUBSIDIARIES

Notes to Unaudited Consolidated Financial Statements

At and for the Three Months Ended March 31, 2015 and 2014

In preparing these consolidated financial statements, management is required to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, income, expenses and disclosure of contingent assets and liabilities. Actual results could differ from those estimates based upon changing conditions, including economic conditions and future events. Material estimates that are particularly susceptible to significant change in the near-term include the determination of the allowance for loan and lease losses, the determination of fair market values of assets and liabilities, including acquired loans and leases, the review of goodwill and intangibles for impairment and the review of deferred tax assets for valuation allowances.

The judgments used by management in applying these critical accounting policies may be affected by a further and prolonged deterioration in the economic environment, which may result in changes to future financial results. For example, subsequent evaluations of the loan and lease portfolio, in light of the factors then prevailing, may result in significant changes in the allowance for loan and lease losses in future periods, and the inability to collect outstanding principal may result in increased loan and lease losses.

Reclassification

Certain previously reported amounts have been reclassified to conform to the current year's presentation, which did not change stockholders' equity and net income reported.

(2) Recent Accounting Pronouncements

During the quarter ended March 31, 2015, the Financial Accounting Standards Board ("FASB") issued no new Accounting Standards Updates ("ASUs") that were applicable to the Company. Refer to page F-20 of the Company's Annual Report on Form 10-K for the year ended December 31, 2014 for applicable ASUs issued in 2014.

The Company adopted ASU 2014-01, Accounting for Investments in Qualified Affordable Housing Projects, which required retrospective application. Refer to Note 8, "Investments in Qualified Affordable Projects" for the impact the adoption had on the Company's financial statements.

The Company performs regular analysis on the investment securities available-for-sale portfolio to determine whether a decline in fair value indicates that an investment security is OTTI. In making these OTTI determinations, management considers, among other factors, the length of time and extent to which the fair value has been less than amortized cost; projected future cash flows; credit subordination and the creditworthiness, capital adequacy and near-term prospects of the issuers.

Management also considers the Company's capital adequacy, interest-rate risk, liquidity and business plans in assessing whether it is more likely than not that the Company will sell or be required to sell the investment securities before recovery. If the Company determines that a decline in fair value is OTTI and that it is more likely than not that the Company will not sell or be required to sell the investment security before recovery of its amortized cost, the credit portion of the impairment loss is recognized in the Company's unaudited consolidated statements of income and the noncredit portion is recognized in accumulated other comprehensive income. The credit portion of the OTTI impairment represents the difference between the amortized cost and the present value of the expected future cash flows of the investment security. If the Company determines that a decline in fair value is OTTI and it is more likely than not that it will sell or be required to sell the investment security before recovery of its amortized cost, the entire difference between the amortized cost and the fair value of the investment security will be recognized in the Company's unaudited consolidated statements of income.

At March 31, 2015, it is more likely than not that the Company will not sell or be required to sell the investment securities before recovery of its amortized cost. The Company's ability and intent to hold these investment securities until recovery is supported by the Company's strong capital and liquidity positions as well as its historically low portfolio turnover. As such, Management has determined that the investment securities are not OTTI at March 31, 2015. If market conditions for investment securities worsen or the creditworthiness of the underlying issuers deteriorates, it is possible that the Company may recognize additional OTTI in future periods.

Debt Securities

U.S. Government-Sponsored Enterprises

The Company invests in securities issued by U.S. Government-sponsored enterprises (“GSEs”), including GSE debt securities, mortgage-backed securities (“MBSs”), and collateralized mortgage obligations (“CMOs”). At March 31, 2015, the Company held GSE debentures with a total fair value of \$23.3 million and a net unrealized gain of \$0.4 million. At December 31, 2014, the Company held GSE debentures with a total fair value of \$23.0 million which

approximated amortized cost. At March 31, 2015, none of the eight securities in this portfolio were in unrealized loss positions. At December 31, 2014, four of the eight securities in this portfolio were in unrealized loss positions. All securities are performing and backed by the implicit (FHLB / FNMA / FHLMC) or explicit (GNMA / SBA) guarantee of the U.S. Government.

At March 31, 2015, the Company held GSE mortgage-related securities with a total fair value of \$498.9 million and a net unrealized gain of \$1.6 million. This compares to a total fair value of \$485.2 million and a net unrealized loss of \$3.1 million at December 31, 2014. At March 31, 2015, 53 of the 257 securities in this portfolio were in unrealized loss positions, compared to 79 of the 250 securities at December 31, 2014. All securities are performing and backed by the implicit (FHLB / FNMA / FHLMC) or explicit (GNMA) guarantee of the U.S. Government. During the three months ended March 31, 2015, the Company purchased \$29.5 million in GSE CMOs and GSE MBSs. This compares to a total of \$36.5 million during the same period in 2014.

All securities are performing and backed by the explicit (SBA) guarantee of the U.S. Government.

Corporate Obligations

From time to time, the Company will invest in high-quality corporate obligations to provide portfolio diversification and improve the overall yield on the portfolio. The Company owned thirteen corporate obligation securities with a total fair value of \$40.5 million and a net unrealized gain of \$0.7 million at March 31, 2015. This compares to thirteen corporate obligation securities with a total fair value of \$40.2 million and a net unrealized gain of \$0.4 million at December 31, 2014. At March 31, 2015, none of the thirteen securities in this portfolio were in unrealized loss positions. At December 31, 2014, one of the thirteen securities in this portfolio is in unrealized loss position. During the three months ended March 31, 2015, the Company did not purchase any corporate obligations. This compares to a total of \$12.0 million purchased during the same period in 2014.
