Notes to Consolidated Financial Statements

(in thousands, except share/unit data)

(unaudited)

1. Organization

LaSalle Hotel Properties (the “Company”), a Maryland real estate investment trust organized on January 15, 1998, primarily buys, owns, redevelops and leases upscale and luxury full-service hotels located in convention, resort and major urban business markets. The Company is a self-administered and self-managed real estate investment trust (“REIT”) as defined in the Internal Revenue Code of 1986, as amended (the “Code”). As a REIT, the Company is generally not subject to federal corporate income tax on that portion of its net income that is currently distributed to its shareholders. The income of LaSalle Hotel Lessee, Inc. (together with its wholly owned subsidiaries, “LHL”), the Company’s wholly owned taxable REIT subsidiary (“TRS”), is subject to taxation at normal corporate rates. As of March 31, 2014, the Company owned interests in 45 hotels with approximately 11,400 guest rooms located in 10 states and the District of Columbia. Each hotel is leased to LHL (see Note 8) under a participating lease that provides for rental payments equal to the greater of (i) a base rent or (ii) a participating rent based on hotel revenues. The LHL leases expire between December 2014 and December 2016. Lease revenue from LHL is eliminated in consolidation. A third-party non-affiliated hotel operator manages each hotel pursuant to a hotel management agreement.

Substantially all of the Company’s assets are held directly or indirectly by, and all of its operations are conducted through, LaSalle Hotel Operating Partnership, L.P. (the “Operating Partnership”). The Company is the sole general partner of the Operating Partnership. The Company owned, through a combination of direct and indirect interests, 99.7% of the common units of the Operating Partnership at March 31, 2014. The remaining 0.3% is held by limited partners who held 296,300 common units of the Operating Partnership at March 31, 2014. See Note 6 for additional disclosures related to common operating partnership units.

2. Summary of Significant Accounting Policies

The accompanying unaudited interim consolidated financial statements and related notes have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and in conformity with the rules and regulations of the Securities and Exchange Commission (“SEC”) applicable to interim financial information. As such, certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the SEC. These unaudited consolidated financial statements, in the opinion of management, include all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the consolidated balance sheets, consolidated statements of operations and comprehensive income (loss), consolidated statements of equity and consolidated statements of cash flows for the periods presented. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014 due to seasonal and other factors. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013.

Basis of Presentation

The consolidated financial statements include the accounts of the Company, the Operating Partnership, LHL and their subsidiaries in which they have a controlling interest, including joint ventures. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the amounts of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Substantially all of the Company’s revenues and expenses are generated by the operations of the individual hotels. The Company records revenues and expenses that are estimated by the hotel operators to produce quarterly financial

statements because the management contracts do not require the hotel operators to submit actual results within a time frame that permits the Company to use actual results when preparing its Quarterly Reports on Form 10-Q for filing by the deadline prescribed by the SEC. Generally, the Company records actual revenue and expense amounts for the first two months of each quarter and estimated revenue and expense amounts for the last month of each quarter. Each quarter, the Company reviews the estimated revenue and expense amounts provided by the hotel operators for reasonableness based upon historical results for prior periods and internal Company forecasts.

Table of Contents

The Company records any differences between recorded estimated amounts and actual amounts in the following quarter; historically, these differences have not been material. The Company believes the quarterly revenues and expenses, recorded on the Company's consolidated statements of operations and comprehensive income (loss) based on an aggregate estimate, are fairly stated.

Share-Based Compensation

From time to time, the Company awards nonvested shares under the 2009 Equity Incentive Plan ("2009 Plan"), which has approximately five years remaining, as compensation to officers, employees and non-employee trustees (see Note 7). The shares issued to officers and employees vest over three to nine years. The Company recognizes compensation expense for nonvested shares on a straight-line basis over the vesting period based upon the fair value of the shares on the date of issuance, adjusted for forfeitures or as the estimated number of shares expected to vest is revised for awards with performance conditions.

Noncontrolling Interests

The Company's financial statements include entities in which the Company has a controlling financial interest. Noncontrolling interest is the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. Such noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of operations and comprehensive income (loss), revenues, expenses and net income or loss from less-than-wholly-owned subsidiaries are reported at the consolidated amounts, including both the amounts attributable to the Company and noncontrolling interests. Income or loss is allocated to noncontrolling interests based on their weighted average ownership percentage for the applicable period. Consolidated statements of equity include beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

However, the Company's securities that are redeemable for cash or other assets at the option of the holder, not solely within the control of the issuer, must be classified outside of permanent equity. The Company makes this determination based on terms in applicable agreements, specifically in relation to redemption provisions. Additionally, with respect to noncontrolling interests for which the Company has a choice to settle the contract by delivery of its own shares, the Company evaluates whether the Company controls the actions or events necessary to issue the maximum number of shares that could be required to be delivered under share settlement of the contract.

As of March 31, 2014, the consolidated results of the Company include the following ownership interests held by owners other than the Company: (i) the common units in the Operating Partnership held by third parties, (ii) the outside preferred ownership interests in a subsidiary and (iii) the outside ownership interest in a joint venture.

Notes Receivable

Notes receivable are carried at cost, net of any premiums or discounts which are recognized as an adjustment of yield over the remaining life of the note using the effective interest method. Interest income is recorded on the accrual basis consistent with the terms of the notes receivable. A note is deemed to be impaired when, based on current information and events, it is probable that the Company will be unable to collect all principal and interest contractually due.

Interest previously accrued but not collected becomes part of the Company's recorded investment in the note receivable for purposes of assessing impairment. The Company applies interest payments received on non-accrual notes receivable first to accrued interest and then as interest income. Notes receivable return to accrual status when contractually current and the collection of future payments is reasonably assured.

Recently Issued Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity, which amends GAAP to require

reporting of discontinued operations only if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. This pronouncement will be effective for the first annual reporting period beginning after December 15, 2015 with early adoption permitted. The Company adopted this accounting pronouncement effective January 1, 2014.

Reclassification

Certain amounts in the 2013 financial statements have been reclassified to conform with 2014 presentation.

Table of Contents

3. Investment in Hotel Properties

Investment in hotel properties as of March 31, 2014 and December 31, 2013 consists of the following:

	March 31, 2014	December 31, 2013
Land	\$602,697	\$602,697
Buildings and improvements	3,194,523	3,191,286

Accumulated depreciation	(1,005,483) (967,885
Investment in hotel properties, net	\$3,370,524	\$3,383,188

As of March 31, 2014 and December 31, 2013, buildings and improvements include capital lease assets of \$186,711 and accumulated depreciation includes amounts related to capital lease assets of \$11,456 and \$10,104, respectively. Depreciation of the capital lease assets is included in depreciation and amortization expense in the accompanying consolidated statements of operations and comprehensive loss for all period presented.

Depreciation expense was \$37,658 and \$33,011 for the three months ended March 31, 2014 and 2013, respectively.

Acquisitions

In connection with the acquisition of Hotel Vitale (see Note 13), the Company incurred acquisition transaction costs of \$107 that were expensed as incurred during the three months ended March 31, 2014, which expenses are included in the accompanying consolidated statements of operations and comprehensive loss.

Note Receivable

On February 10, 2014, the Company received \$72,000 in early repayment of its mezzanine loan which was secured by pledges of ownership interests of the entities that own the underlying hotel properties, Shutters on the Beach and Casa Del Mar, in Santa Monica, CA. The mezzanine loan was due to mature on May 11, 2014. The proceeds were used to pay down amounts outstanding under the Company's senior unsecured credit facility and under the LHL unsecured credit facility.

Condensed Pro Forma Financial Information

The results of operations of acquired properties are included in the consolidated statements of operations and comprehensive loss beginning on their respective acquisition dates. The following condensed pro forma financial information is presented as if the following 2013 acquisitions had been consummated on January 1, 2012, the beginning of the reporting period prior to acquisition. In addition, for purposes of the condensed pro forma financial information only, the May 24, 2013 through May 31, 2013 issuance of 721,706 common shares of beneficial interest and the October 25, 2013 issuance of 7,705,000 common shares of beneficial interest are presented as if the issuances had occurred as of January 1, 2012. No adjustments have been made to the condensed pro forma financial information presented below for the 2013 preferred share issuance and redemption, since those transactions have no relation to the acquisitions. The condensed pro forma financial information is for comparative purposes only and not necessarily indicative of what actual results of operations of the Company would have been had the 2013 acquisitions been consummated on January 1, 2012, nor does it purport to represent the results of operations for future periods.

Adjustments have been made to the pro forma financial information for the following acquisitions:

Property	Acquisition Date
Harbor Court Hotel	August 1, 2013
Hotel Triton	August 1, 2013
Serrano Hotel	August 21, 2013
Southernmost Hotel Collection	August 27, 2013

^(a) Borrowings bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. As of March 31, 2014, the rate, including the applicable margin, for the Company's outstanding LIBOR borrowings of \$196,000 was 1.86%. As of December 31,

2013, the rate, including the applicable margin, for the Company's outstanding LIBOR borrowing of \$220,000 was 1.92%. The Company has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Borrowings bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. There were no borrowings outstanding at March 31, 2014.

- (b) As of December 31, 2013, the rate, including the applicable margin, for LHL's outstanding LIBOR borrowings of \$606 was 1.92%. LHL has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Table of Contents

Term loans bear interest at floating rates equal to LIBOR plus an applicable margin. The Company entered into separate interest rate swap agreements for the full seven-year term of the First Term Loan (as defined below) and a five-year term ending in August 2017 for the Second Term Loan (as defined below), resulting in fixed all-in interest rates at March 31, 2014 of 3.62% and 2.38%, respectively, and at December 31, 2013 of 3.62% and 2.43%, respectively, at the Company's current leverage ratio (as defined in the swap agreements).

The Massport Bonds are secured by letters of credit issued by the Royal Bank of Scotland that expire in February 2015, pursuant to an amendment to the agreement governing the letters of credit. The Royal Bank of Scotland letters of credit also have two one-year extension options and are secured by the Hyatt Boston Harbor. The bonds bear interest based on weekly floating rates. The interest rates as of March 31, 2014 were 0.85% and 0.40% for the \$5,400 and \$37,100 bonds, respectively. The interest rates as of December 31, 2013 were 0.70% and 0.40% for the \$5,400 and \$37,100 bonds, respectively. The Company also incurs an annual letter of credit fee of a variable rate based on an applicable margin as defined in the Company's senior unsecured credit agreement.

On February 25, 2014, the Company notified the lender that it will repay the mortgage loan on May 1, 2014, likely through a borrowing on its senior unsecured credit facility.

Mortgage debt includes an unamortized loan premium on the mortgage loan on Hotel Deca of \$23 as of March 31, 2014 and \$41 as of December 31, 2013.

A summary of the Company's interest expense and weighted average interest rates for variable rate debt for the three months ended March 31, 2014 and 2013 is as follows:

Credit Facilities			

On January 8, 2014, the Company refinanced its \$750,000 senior unsecured credit facility with a syndicate of banks. As amended, the credit facility now matures on January 8, 2018, subject to two six-month extensions that the Company may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. The credit facility includes an accordion feature which, subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments up to \$1,050,000. Borrowings under the credit facility bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. Additionally, the Company is required to pay a variable unused commitment fee of 0.25% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the credit facility.

On January 8, 2014, LHL also refinanced its \$25,000 unsecured revolving credit facility to be used for working capital and general lessee corporate purposes. As amended, the LHL credit facility now matures on January 8, 2018, subject

to two six-month extensions that LHL may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. Borrowings under the LHL credit facility bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin.

Additionally, LHL is required to pay a variable unused commitment fee of 0.25% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the LHL credit facility.

The Company's senior unsecured credit facility and LHL's unsecured credit facility contain certain financial covenants relating to net worth requirements, debt ratios and fixed charge coverage and other limitations that restrict the Company's ability to make distributions or other payments to its shareholders upon events of default.

Term Loans

On May 16, 2012, the Company entered into a \$177,500 unsecured term loan with a seven-year term maturing on May 16, 2019 (the "First Term Loan"). The First Term Loan bears interest at a variable rate, but was hedged to a fixed interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 3.62% at March 31, 2014, for the full seven-year term (see "Derivative and Hedging Activities" below).

On January 8, 2014, the Company refinanced its \$300,000 unsecured term loan (the "Second Term Loan"). The Second Term Loan includes a new accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments up to \$500,000. The Second Term Loan has a new five-year term maturing on January 8, 2019 and bears interest at variable rates, but was hedged to a fixed interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 2.38% at March 31, 2014, through August 2, 2017 (see "Derivative and Hedging Activities below").

The Company's term loans contain certain financial covenants relating to net worth requirements, debt ratios and fixed charge coverage and other limitations that restrict the Company's ability to make distributions or other payments to its shareholders upon events of default.

Derivative and Hedging Activities

The Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Unrealized gains and losses on the effective portion of hedging instruments are reported in other comprehensive income (loss) ("OCI"). Ineffective portions of changes in the fair value of a cash flow hedge are recognized as interest expense. Amounts reported in accumulated other comprehensive income (loss) ("AOCI") related to currently outstanding derivatives are recognized as an adjustment to income (loss) as interest payments are made on the Company's variable rate debt. Effective May 16, 2012, the Company entered into three interest rate swap agreements with an aggregate notional amount of \$177,500 for the First Term Loan's full seven-year term, resulting in a fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 3.62% at March 31, 2014. Effective August 2, 2012, the Company entered into five interest rate swap agreements with an aggregate notional amount of \$300,000 for the Second Term Loan through August 2, 2017, resulting in a fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 2.38% at March 31, 2014. The Company has designated its pay-fixed, receive-floating interest rate swap derivatives as cash flow hedges.

The following tables present the effect of derivative instruments on the Company's consolidated statements of operations and comprehensive loss, including the location and amount of unrealized (loss) gain on outstanding derivative instruments in cash flow hedging relationships, for the three months ended March 31, 2014 and 2013:

Interest rate swaps	\$ (972) \$ 1,519	Interest expense	\$ 1,083	\$ 1,032
---------------------	---------	------------	------------------	----------	----------

During the three months ended March 31, 2014 and 2013, the Company did not have any hedge ineffectiveness or amounts that were excluded from the assessment of hedge effectiveness recorded in earnings.

As of March 31, 2014 and December 31, 2013, there was \$3,644 and \$4,616 in cumulative unrealized gain, respectively, of which \$3,634 and \$4,603 was included in AOCI, respectively, and \$10 and \$13 was attributable to noncontrolling interests, respectively. The Company expects that approximately \$4,417 will be reclassified from AOCI and noncontrolling interests and recognized as a reduction to income in the next 12 months, calculated as estimated interest expense using the interest rates on the derivative instruments as of March 31, 2014.

Extinguishment of Debt

As discussed above, the Company refinanced its senior unsecured credit facility and Second Term Loan and LHL refinanced its unsecured revolving credit facility on January 8, 2014. The refinancing arrangements for the senior unsecured credit facility

Table of Contents

and Second Term Loan were considered substantial modifications. In accordance with GAAP guidance, the Company recognized a loss from extinguishment of debt of \$2,487, which is included in the accompanying consolidated statements of operations and comprehensive loss. The loss from extinguishment of debt represents a portion of the unamortized deferred financing costs from the original agreements.

Mortgage Loans

The Company's mortgage loans are secured by the respective properties. The mortgages are non-recourse to the Company except for fraud or misapplication of funds.

The mortgage loans contain debt service coverage ratio tests related to the mortgaged properties. If the debt service coverage ratio for a specific property fails to exceed a threshold level specified in the mortgage, cash flows from that hotel may automatically be directed to the lender to (i) satisfy required payments, (ii) fund certain reserves required by the mortgage and (iii) fund additional cash reserves for future required payments, including final payment. Cash flows may be directed to the lender ("cash trap") until such time as the property again complies with the specified debt service coverage ratio or the mortgage is paid off.

Financial Covenants

Failure of the Company to comply with the financial covenants contained in its credit facilities, term loans and non-recourse secured mortgages could result from, among other things, changes in its results of operations, the incurrence of additional debt or changes in general economic conditions.

If the Company violates the financial covenants contained in any of its credit facilities or term loans described above, the Company may attempt to negotiate waivers of the violations or amend the terms of the applicable credit facilities or term loans with the lenders thereunder; however, the Company can make no assurance that it would be successful in any such negotiations or that, if successful in obtaining waivers or amendments, such amendments or waivers would be on terms attractive to the Company. If a default under the credit facilities or term loans were to occur, the Company would possibly have to refinance the debt through additional debt financing, private or public offerings of debt securities, or additional equity financings. If the Company is unable to refinance its debt on acceptable terms, including at maturity of the credit facilities and term loans, it may be forced to dispose of hotel properties on disadvantageous terms, potentially resulting in losses that reduce cash flow from operating activities. If, at the time of any refinancing, prevailing interest rates or other factors result in higher interest rates upon refinancing, increases in interest expense would lower the Company's cash flow, and, consequently, cash available for distribution to its shareholders.

A cash trap associated with a mortgage loan may limit the overall liquidity for the Company as cash from the hotel securing such mortgage would not be available for the Company to use. If the Company is unable to meet mortgage payment obligations, including the payment obligation upon maturity of the mortgage borrowing, the mortgage securing the specific property could be foreclosed upon by, or the property could be otherwise transferred to, the mortgagee with a consequent loss of income and asset value to the Company.

As of March 31, 2014, the Company is in compliance with all debt covenants, current on all loan payments and not otherwise in default under the credit facilities, term loans, bonds payable or mortgage loans.

5. Commitments and Contingencies

Ground, Land and Building, and Air Rights Leases

Eight of the Company's hotels, San Diego Paradise Point Resort and Spa, Hyatt Boston Harbor, Indianapolis Marriott Downtown, The Hilton San Diego Resort and Spa, Hotel Solamar, Viceroy Santa Monica, The Liberty Hotel and Southernmost Hotel Collection are subject to ground leases under non-cancelable operating leases expiring from April 2019 to December 1, 2102. The ground lease on a restaurant facility at Southernmost Hotel Collection expires in April 2019, but the Company can begin negotiating a renewal one year in advance of the lease expiration. The ground lease

at Hyatt Boston Harbor expires in March 2026, but the Company has options to extend for over 50 years to 2077. None of the remaining ground leases expire prior to 2045. The Westin Copley Place is subject to a long term air rights lease which expires in December 2077 and requires no payments through maturity. The ground lease related to the Indianapolis Marriott Downtown requires future ground rent payments of one dollar per year. The ground leases at Viceroy Santa Monica and The Liberty Hotel are subject to minimum annual rent increases, resulting in noncash straight-line rent expense of \$324 and \$327 for the three months ended March 31, 2014 and 2013, respectively, which is included in total ground rent expense below.

Hotel Roger Williams, Harbor Court Hotel and Hotel Triton are subject to capital leases of land and building which expire in December 2044, April 2048 and January 2048, respectively. At acquisition, the estimated fair value of the remaining rent

payments of \$4,892, \$18,424 and \$27,752, respectively, were recorded as capital lease obligations. These obligations, net of amortization, are included in accounts payable and accrued expenses in the accompanying consolidated balance sheets.

Total ground rent expense for the three months ended March 31, 2014 and 2013 was \$2,933 and \$2,495, respectively. Certain rent payments are based on the hotel's performance. Actual payments of rent may exceed the minimum required rent due to meeting specified thresholds.

Future minimum rent payments, including capital lease payments, (without reflecting future applicable Consumer Price Index increases) are as follows:

2014	\$7,752
2015	10,535
2016	10,738
2017	10,987
2018	11,152
Thereafter	471,084
	\$522,248

Reserve Funds for Future Capital Expenditures

Certain of the Company's agreements with its hotel managers, franchisors and lenders have provisions for the Company to provide funds, generally 4.0% to 5.0% of hotel revenues, sufficient to cover the cost of (a) certain non-routine repairs and maintenance to the hotels and (b) replacements and renewals to the hotels' capital assets. Certain of the agreements require that the Company reserve this cash in separate accounts. As of March 31, 2014, \$13,564 was available in restricted cash reserves for future capital expenditures. The Company has sufficient cash on hand and availability on its credit facilities to cover capital expenditures under agreements that do not require that the Company separately reserve cash.

Restricted Cash Reserves

At March 31, 2014, the Company held \$19,694 in restricted cash reserves. Included in such amounts are (i) \$13,564 of reserve funds for future capital expenditures, (ii) \$4,286 deposited in mortgage escrow accounts pursuant to mortgage obligations to pre-fund a portion of certain operating expenses and debt payments and (iii) \$1,844 held by insurance and management companies on the Company's behalf to be refunded or applied to future liabilities.

Litigation

The nature of hotel operations exposes the Company and its hotels to the risk of claims and litigation in the normal course of their business. The Company is not presently subject to any material litigation nor, to the Company's knowledge, is any litigation threatened against the Company, other than routine actions for negligence or other claims and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance and all of which collectively are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

6. Equity

Common Shares of Beneficial Interest

On January 1, 2014, the Company issued 13,948 common shares of beneficial interest and authorized an additional 6,064 deferred shares to the independent members of its Board of Trustees for their earned 2013 compensation pursuant to award arrangements existing on or before January 1, 2013. These common shares of beneficial interest were issued under the 2009 Plan.

On January 1, 2014, the Company issued 35,652 nonvested shares with service conditions to executives related to the nonvested share awards with market conditions granted on January 24 and 26, 2011 (see Note 7 for additional details

including vesting information). These common shares of beneficial interest were issued under the 2009 Plan.

On January 22, 2014, the Company issued 9,385 common shares of beneficial interest related to the resignation of a former Board of Trustees member who retired from the Board of Trustees for a portion of his accumulated deferred shares granted as compensation for years 1999 through 2013. The accumulated deferred shares balance will be issued in five annual installments beginning January 22, 2014. These common shares of beneficial interest were issued under the 2009 Plan.

On March 20, 2014, the Company issued 77,564 nonvested shares with service conditions to the Company's executives and employees. The nonvested shares will vest in three annual installments starting January 1, 2015, subject to continued employment. These common shares of beneficial interest were issued under the 2009 Plan.

On February 20, 2013, the Company entered into an equity distribution agreement (the "2013 Agreement") with Raymond James & Associates, Inc. (the "Manager"). Under the terms of the 2013 Agreement, the Company may issue from time to time through or to the Manager, as sales agent or principal, the Company's common shares of beneficial interest with aggregate gross proceeds totaling up to \$250,000. As of March 31, 2014, the Company had availability under the 2013 Agreement to issue and sell common shares of beneficial interest having an aggregate offering price of up to \$230,057.

Common Dividends

The Company paid the following dividends on common shares/units during the three months ended March 31, 2014:

Dividend per Share/Unit	For the Quarter Ended	Record Date	Payable Date
\$0.28	December 31, 2013	December 31, 2013	January 15, 2014

Treasury Shares

Treasury shares are accounted for under the cost method. During the three months ended March 31, 2014, the Company received 39,332 common shares of beneficial interest related to employees surrendering shares to pay taxes at the time nonvested shares vested and forfeiting nonvested shares upon resignation.

On August 29, 2011, the Company's Board of Trustees authorized a share repurchase program (the "Repurchase Program") to acquire up to \$100,000 of the Company's common shares of beneficial interest, with repurchased shares recorded at cost in treasury. As of March 31, 2014, the Company had availability under the Repurchase Program to acquire up to \$75,498 of common shares of beneficial interest. However, the Company is not currently authorized by its Board of Trustees to repurchase or offer to repurchase any common shares. If authorized by its Board of Trustees, the Company may resume using the Repurchase Program on a future date.

During the three months ended March 31, 2014, the Company re-issued 39,842 treasury shares related to the grants of nonvested shares.

At March 31, 2014, there were zero common shares of beneficial interest in treasury.

Preferred Shares

The following Preferred Shares were outstanding as of March 31, 2014:

Security Type	Number of Shares
7 ¼% Series G Preferred Shares	2,348,888
7 ½% Series H Preferred Shares	2,750,000
6 % Series I Preferred Shares	4,400,000

The 7 ¼% Series G Cumulative Redeemable Preferred Shares ("Series G Preferred Shares"), the 7 ½% Series H Cumulative Redeemable Preferred Shares ("Series H Preferred Shares") and the 6 % Series I Cumulative Redeemable Preferred Shares ("Series I Preferred Shares") (collectively, the "Preferred Shares") rank senior to the common shares of beneficial interest and on parity with each other with respect to payment of distributions; the Company will not pay any distributions, or set aside any funds for the payment of distributions, on its common shares of beneficial interest unless it has also paid (or set aside for payment) the full cumulative distributions on the Preferred Shares for all past dividend periods and, with respect to the Series G Preferred Shares and the Series H Preferred Shares, for the current dividend period. The outstanding Preferred Shares do not have any maturity date, and are not subject to mandatory redemption. The difference between the carrying value and the redemption amount of the Preferred Shares are the offering costs. In addition, the Company is not required to set aside funds to redeem the Preferred Shares. The Company currently has the option to redeem the Series G Preferred Shares, in whole or from time to time in part, by payment of \$25.00 per share, plus any accumulated, accrued and unpaid distributions to and including the date of redemption.

The Company may not optionally redeem the Series H Preferred Shares and Series I Preferred Shares prior to January 24, 2016 and March 4, 2018, respectively, except in limited circumstances relating to the Company's continuing qualification as a REIT or as discussed below. After those dates, the Company may, at its option, redeem

the Series H Preferred Shares and Series

14

I Preferred Shares, in whole or from time to time in part, by payment of \$25.00 per share, plus any accumulated, accrued and unpaid distributions to and including the date of redemption. In addition, upon the occurrence of a change of control (as defined in the Company's charter), the result of which the Company's common shares of beneficial interest and the common securities of the acquiring or surviving entity are not listed on the New York Stock Exchange, the NYSE MKT LLC or the NASDAQ Stock Market, or any successor exchanges, the Company may, at its option, redeem the Series H Preferred Shares and Series I Preferred Shares in whole or in part within 120 days after the change of control occurred, by paying \$25.00 per share, plus any accrued and unpaid distributions to and including the date of redemption. If the Company does not exercise its right to redeem the Series H Preferred Shares and Series I Preferred Shares upon a change of control, the holders of Series H Preferred Shares and Series I Preferred Shares have the right to convert some or all of their shares into a number of the Company's common shares of beneficial interest based on a defined formula subject to a cap of 4,680,500 common shares and 8,835,200 common shares, respectively.

Preferred Dividends

The Company paid the following dividends on preferred shares during the three months ended March 31, 2014:

Security Type	Dividend per Share ⁽¹⁾	For the Quarter Ended	Record Date	Payable Date
7 ¼% Series G	\$0.45	December 31, 2013	January 1, 2014	January 15, 2014

Noncontrolling Interests of Common Units in Operating Partnership

As of March 31, 2014, the Operating Partnership had 296,300 common units of limited partnership interest outstanding, representing a 0.3% partnership interest held by the limited partners. As of March 31, 2014, approximately \$9,277 of cash or the equivalent value in common shares, at the Company's option, would be paid to the limited partners of the Operating Partnership if the partnership were terminated. The approximate value of \$9,277 is based on the Company's closing common share price of \$31.31 on March 31, 2014, which is assumed to be equal to the value provided to the limited partners upon liquidation of the Operating Partnership. The outstanding common units of limited partnership interest are redeemable for cash, or at the Company's option, for a like number of common shares of beneficial interest of the Company.

The following schedule presents the effects of changes in the Company's ownership interest in the Operating Partnership on the Company's equity:

	For the three months ended March 31,	
	2014	2013
Net loss attributable to common shareholders	\$(8,972)	\$(7,395)
Increase in additional paid-in capital from adjustments to noncontrolling interests of common units in Operating Partnership	10	10
Change from net loss attributable to common shareholders and adjustments to noncontrolling interests	\$(8,962)	\$(7,385)

7. Equity Incentive Plan

The common shareholders approved the 2009 Plan, which permits the Company to issue equity-based awards to executives, employees, non-employee members of the Board of Trustees and any other persons providing services to or for the Company and its subsidiaries. The 2009 Plan provides for a maximum of 1,800,000 common shares of beneficial interest to be issued in the form of share options, share appreciation rights, nonvested share awards, phantom shares and other equity-based awards. In addition, the maximum number of common shares subject to awards of any combination that may be granted under the 2009 Plan during any fiscal year to any one individual is limited to 500,000 shares. The 2009 Plan terminates on January 28, 2019. The 2009 Plan authorized, among other things: (i) the grant of share options that qualify as incentive options under the Code, (ii) the grant of share options that do not so qualify, (iii) the grant of common shares in lieu of cash for trustees' fees, (iv) grants of common shares in lieu of cash compensation and (v) the making of loans to acquire common shares in lieu of compensation (to the extent permitted by law and applicable provisions of the Sarbanes Oxley Act of 2002). The exercise price of share

options is determined by the Compensation Committee of the Board of Trustees, but may not be less than 100% of the fair value of the common shares on the date of grant. Nonvested share awards and options under the 2009 Plan vest over a period determined by the Compensation Committee of the Board of Trustees, generally a three to five year period, with certain awards vesting over periods of up to nine

years. The duration of each option is also determined by the Compensation Committee, subject to applicable laws and regulations. There were no stock options outstanding as of March 31, 2014. At March 31, 2014, there were 1,093,190 common shares available for future grant under the 2009 Plan (including shares that the Company has reserved for issuance under the 2009 Plan pursuant to outstanding nonvested share awards with market or performance conditions).

Nonvested Share Awards with Service Conditions

From time to time, the Company awards nonvested shares under the 2009 Plan to members of the Board of Trustees, executives, and employees. The nonvested shares vest over three to nine years based on continued service or employment. The Company determines the grant date fair value of the nonvested shares based upon the grant date stock price of its common shares and target number of shares per the award agreements. Compensation costs are recognized on a straight-line basis over the requisite service period and are included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive loss.

A summary of the Company's nonvested share awards with service conditions as of March 31, 2014 is as follows:

	Number of Shares	Weighted - Average Grant Date Fair Value
Nonvested at January 1, 2014	333,417	\$29.11
Granted	77,564	31.82
Vested	(76,941)) 27.31
Forfeited	(444)) 27.10
Nonvested at March 31, 2014 ⁽¹⁾	333,596	\$30.16

⁽¹⁾ Amount excludes 29,276 share awards with market conditions which were earned but nonvested due to a service condition as of March 31, 2014.

As of March 31, 2014 and December 31, 2013, there were \$6,839 and \$5,160, respectively, of total unrecognized compensation costs related to nonvested share awards with service conditions. As of March 31, 2014 and December 31, 2013, these costs were expected to be recognized over a weighted-average period of 2.1 and 2.3 years, respectively. The total intrinsic value of shares vested (calculated as number of shares multiplied by vesting date share price) during the three months ended March 31, 2014 and 2013 was \$2,377 and \$4, respectively. Compensation costs (net of forfeitures) related to nonvested share awards with service conditions that have been included in general and administrative expenses in the accompanying consolidated statements of operations and comprehensive loss were \$740 and \$710 for the three months ended March 31, 2014 and 2013, respectively.

Nonvested Share Awards with Market or Performance Conditions

On January 24 and January 26, 2011, the Company's Board of Trustees granted a target of 8,925 and 35,920 nonvested share awards with market conditions to executives, respectively. The actual amounts of the shares awarded were determined on January 1, 2014, based on the performance measurement period of January 1, 2011 through December 31, 2013, in accordance with the terms of the agreements. On January 1, 2014, the executives earned 79.5% of the target number of shares, or 35,652 shares. The shares representing the difference between 79.5% and 100.0% of the target, or 9,193 shares, were forfeited on January 1, 2014. Of the earned shares, 11,885 shares vested immediately on January 1, 2014 and the remaining 23,767 shares will vest in equal amounts on January 1, 2015 and January 1, 2016 based on continued employment. The executives received cash payments of \$75 on the earned shares equal to the value of all dividends paid on common shares from December 31, 2010 until the determination date, January 1, 2014. As of January 1, 2014, the executives are entitled to receive dividends as declared and paid on the earned shares and to vote the shares, including those shares subject to further vesting.

On March 20, 2014, the Company's Board of Trustees granted a target of 71,967 nonvested share awards with either market or performance conditions to executives (the "March 20, 2014 Awards"). The actual amounts of the shares awarded with respect to 35,983 of the 71,967 shares will be determined on January 1, 2017, based on the performance measurement period of January 1, 2014 through December 31, 2016, in accordance with the terms of the agreements. The actual amounts of the shares awarded with respect to the remaining 35,984 of the 71,967 shares will be determined on July 1, 2017, based on the performance measurement period of July 1, 2014 through June 30, 2017, in accordance with the terms of the agreements. The actual amounts of the shares awarded will range from 0% to 200% of the target amounts, depending on the performance analysis stipulated in the agreements, and none of the shares are outstanding until issued in accordance with award agreements based on performance. After the actual amounts of the awards are determined (or earned) at the end of the respective performance measurement period, all of the earned

Table of Contents

shares will be issued and outstanding on those dates. The executives will receive cash payments on the earned shares equal to the value of all dividends paid on common shares from the grant date through the respective determination date. Such amounts will be paid to the awardees on or about January 1, 2017 and July 1, 2017, respectively. Thereafter, the executives will be entitled to receive dividends as declared and paid on the earned shares and to vote the shares. With respect to 35,983 shares, amortization commenced on March 20, 2014, the beginning of the requisite service period, and, with respect to 35,984 shares, amortization will commence on July 1, 2014, the beginning of the requisite service period.

The terms stipulated in the March 20, 2014 Awards used to determine the total amount of the shares consist of the following three tranches: (1) a comparison of the Company's total return to the total returns of six companies in a designated peer group of the Company, (2) the Company's actual performance as compared to a Board-established total return goal and (3) a comparison of the Company's return on invested capital to the return on invested capital of six companies in a designated peer group of the Company.

The tranches described in (1) and (2) are nonvested share awards with market conditions. For the award agreements granted on March 20, 2014, the grant date fair value of the awards with market conditions were estimated by the Company using historical data under the Monte Carlo valuation method provided by a third party consultant. The final values are expected to be determined during the second quarter of 2014 with an insignificant cumulative adjustment to compensation cost anticipated. The third tranche is based on "return on invested capital" discussed below, which is a performance condition. The grant date fair values of the tranches with performance conditions were calculated based on the targeted awards, and the valuation is adjusted on a periodic basis.

The capital market assumptions used in the valuations consisted of the following:

Factors associated with the underlying performance of the Company's share price and shareholder returns over the term of the awards including total share return volatility and risk-free interest.

Factors associated with the relative performance of the Company's share price and shareholder returns when compared to those companies which compose the index including beta as a means to breakdown total volatility into market-related and company specific volatilities.

The valuation has been performed in a risk-neutral framework.

Return on invested capital is a performance condition award measurement. The estimated value was calculated based on the initial face value at the date of grant. The valuation will be adjusted on a periodic basis as the estimated number of awards expected to vest is revised.

A summary of the Company's nonvested share awards with either market or performance conditions as of March 31, 2014 is as follows:

	Number of Shares	Weighted- Average Grant Date Fair Value
Nonvested at January 1, 2014	289,545	\$33.02
Granted ⁽¹⁾	71,967	36.30

Forfeited	(9,193)) 40.17
Nonvested at March 31, 2014 ⁽²⁾	311,625	\$34.61

Amount includes 35,984 shares awarded on March 20, 2014 for which fair value has been estimated, but

⁽¹⁾ amortization into expense has not yet commenced. Amortization of fair value into expense will commence at the beginning of the performance measurement period on July 1, 2014.

⁽²⁾

Amount excludes 50,000 nonvested share awards with market conditions have been committed for future performance share grants. Fair value will be estimated at the beginning of the performance measurement period on July 1, 2014.

As of March 31, 2014 and December 31, 2013, there were \$7,062 and \$5,260, respectively, of total unrecognized compensation costs related to nonvested share awards with market or performance conditions. As of March 31, 2014 and December 31, 2013, these costs were expected to be recognized over a weighted-average period of 2.4 and 2.2 years, respectively. As of March 31, 2014 and December 31, 2013, there were 194,637 and 153,943 share awards with market or performance conditions vested, respectively. Additionally, there were 29,276 and 34,318 nonvested share awards with market or performance conditions earned but nonvested due to a service condition as of March 31, 2014 and December 31, 2013, respectively. Compensation costs (net of forfeitures) related to nonvested share awards with market or performance conditions that have been included in general

and administrative expenses in the accompanying consolidated statements of operations and comprehensive loss were \$809 and \$577 for the three months ended March 31, 2014 and 2013, respectively.

8.LHL

Substantially all of the Company's revenues are derived from operating revenues generated by the hotels, all of which are leased by LHL.

Other indirect hotel operating expenses consist of the following expenses incurred by the hotels:

	For the three months ended March 31,	
	2014	2013
General and administrative	\$20,047	\$17,727
Sales and marketing	14,788	13,401

9. Income Taxes

Income tax benefit was comprised of the following for the three months ended March 31, 2014 and 2013:

	For the three months ended March 31,	
	2014	2013
LHL's income tax benefit	\$(6,627) \$(5,260
Operating Partnership's income tax expense	235	243
Total income tax benefit	\$(6,392) \$(5,017

The Company has estimated LHL's income tax benefit for the three months ended March 31, 2014 by applying an estimated combined federal and state effective tax rate of 36.4% to LHL's net loss of \$18,264. From time to time, the Company may be subject to federal, state or local tax audits in the normal course of business.

10. Fair Value Measurements

In evaluating fair value, GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

Level 1—Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2—Observable inputs, other than quoted prices included in level 1, such as interest rates, yield curves, quoted prices in active markets for similar assets and liabilities, and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3—Unobservable inputs that are supported by limited market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques when observable inputs are not available.

The Company estimates the fair value of its financial instruments using available market information and valuation methodologies the Company believes to be appropriate for these purposes. Considerable judgment and subjectivity are involved in developing these estimates and, accordingly, such estimates are not necessarily indicative of amounts that would be realized upon disposition.

Recurring Measurements

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of their fair value is as follows:

Description	Consolidated Balance Sheet Location	Fair Value Measurements at	
		March 31, 2014	December 31, 2013
Derivative interest rate instruments	Prepaid expenses and other assets	\$3,644	\$4,616

The fair value of each derivative instrument is based on a discounted cash flow analysis of the expected cash flows under each arrangement. This analysis reflects the contractual terms of the derivative instrument, including the period to maturity, and utilizes observable market-based inputs, including interest rate curves and implied volatilities, which are classified within level 2 of the fair value hierarchy. The Company also incorporates credit value adjustments to appropriately reflect each parties' nonperformance risk in the fair value measurement, which utilizes level 3 inputs

such as estimates of current credit spreads. However, the Company has assessed that the credit valuation adjustments are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified within level 2 of the fair value hierarchy.

Financial Instruments Not Measured at Fair Value

The following table represents the fair value, derived using level 2 inputs, of financial instruments presented at carrying value in the Company's consolidated financial statements as of March 31, 2014 and December 31, 2013:

	March 31, 2014		December 31, 2013	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Note receivable	\$0	\$0	\$71,014	\$71,014
Borrowings under credit facilities	\$196,000	\$196,258	\$220,606	\$220,957
Term loans	\$477,500	\$476,957	\$477,500	\$477,053
Bonds payable	\$42,500	\$42,500	\$42,500	\$42,500
Mortgage loans	\$513,194	\$520,740	\$514,456	\$522,788

The Company estimated the fair value of its borrowings under credit facilities, term loans, bonds payable and mortgage loans using a weighted average effective interest rate of 3.1% as of March 31, 2014 and December 31, 2013. The assumptions reflect the terms currently available on similar borrowings to borrowers with credit profiles similar to the Company's. As of December 31, 2013, the Company estimated that the fair value of its note receivable, which was repaid in full on February 10, 2014, approximated its carrying value due to the relatively short period until maturity.

At March 31, 2014 and December 31, 2013, the carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and accrued expenses were representative of their fair values due to the short-term nature of these instruments and the recent acquisition of these items.

11. Earnings Per Common Share

The limited partners' outstanding common units in the Operating Partnership (which may be converted to common shares of beneficial interest) have been excluded from the diluted earnings per share calculation as there would be no effect on the amounts since the limited partners' share of income or loss would also be added back to net income or loss. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation. Unvested share-based awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. Accordingly, distributed and undistributed earnings attributable to unvested restricted shares (participating securities) have been excluded, as applicable, from net income or loss attributable to common shareholders used in the basic and diluted earnings per share calculations. Net income or loss figures are presented net of noncontrolling interests in the earnings per share calculations.

For the three months ended March 31, 2014 and 2013, diluted weighted average common shares do not include the impact of outstanding unvested compensation-related shares because the effect of these items on diluted earnings per share would be anti-dilutive. For the three months ended March 31, 2014 and 2013, there were 310,385 and 153,196 anti-dilutive compensation-related shares outstanding, respectively.

13. Subsequent Events

On April 2, 2014, the Company acquired a 100% leasehold interest in Hotel Vitale, a 200-room urban, full-service hotel located in San Francisco, CA, for \$130,000. As of March 31, 2014, a \$10,000 deposit was held in escrow for the acquisition of the hotel. The source of the funding for the acquisition was borrowings under the Company's senior unsecured credit facility. The property is leased to LHL and Commune Hotels and Resorts manages the property. The Company has not yet finalized its determination of fair value of Hotel Vitale as the Company is awaiting certain valuation-related information.

The Company paid the following common and preferred dividends subsequent to March 31, 2014:

Security Type	Dividend per Share/Unit (1)	For the Quarter Ended	Record Date	Payable Date
Common Shares/Units	\$0.28	March 31, 2014	March 31, 2014	April 15, 2014

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following should be read in conjunction with the consolidated financial statements and notes thereto appearing in Part I - Item 1 of this report.

Forward-Looking Statements

This report, together with other statements and information publicly disseminated by LaSalle Hotel Properties (the "Company"), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project," "may," "plan," "seek," "should," "will" or similar expressions. Forward-looking statements in this report include, among others, statements about the Company's business strategy, including its acquisition and development strategies, industry trends, estimated revenues and expenses, ability to realize deferred tax assets and expected liquidity needs and sources (including capital expenditures and the ability to obtain financing or raise capital). You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond the Company's control and which could materially affect actual results, performances or achievements. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- risks associated with the hotel industry, including competition, increases in wages, energy costs and other operating costs, potential unionization, actual or threatened terrorist attacks, any type of flu or disease-related pandemic and downturns in general and local economic conditions;

- the availability and terms of financing and capital and the general volatility of securities markets;

- the Company's dependence on third-party managers of its hotels, including its inability to implement strategic business decisions directly;

- risks associated with the real estate industry, including environmental contamination and costs of complying with the Americans with Disabilities Act of 1990, as amended, and similar laws;

• interest rate increases;
• the possible failure of the Company to maintain its qualification as a real estate investment trust (“REIT”) and the risk of changes in laws affecting REITs;
• the possibility of uninsured losses;
• risks associated with redevelopment and repositioning projects, including delays and cost overruns; and
• the risk factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as updated elsewhere in this report.

Table of Contents

Accordingly, there is no assurance that the Company's expectations will be realized. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for the Company to predict those events or how they may affect the Company. Except as otherwise required by law, the Company disclaims any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Accordingly, investors should use caution in relying on past forward-looking statements, which were based on results and trends at the time they were made, to anticipate future events or trends.

Overview

The Company measures hotel performance by evaluating financial metrics such as room revenue per available room ("RevPAR"), funds from operations ("FFO") and earnings before interest, taxes, depreciation and amortization ("EBITDA"). The Company evaluates the hotels in its portfolio and potential acquisitions using these metrics to determine each portfolio hotel's contribution or acquisition hotel's potential contribution toward reaching the Company's goals of providing income to its shareholders through increases in distributable cash flow and increasing long-term total returns to shareholders through appreciation in the value of its common shares. The Company invests in capital improvements throughout the portfolio to continue to increase the competitiveness of its hotels and improve their financial performance. The Company actively seeks to acquire hotel properties, but continues to face significant competition for acquisitions that meet its investment criteria.

During the first quarter of 2014, the Company's hotels continued to operate within a favorable environment. The economic indicators that the Company tracks were encouraging. At the end of the quarter, consumer confidence was at the highest level it has been in six years. Unemployment remained at 6.7%, within 0.1% of the lowest levels seen since 2008. Corporate profits remain strong and enplanements have been solid. The U.S. lodging industry performed well during the quarter. Industry demand grew 3.8%, which is the strongest growth experienced over the last eight quarters. Supply was limited, increasing only 0.9%. As a result, industry-wide pricing was strong, leading to average daily rate ("ADR") growth of 3.8%. The Company's portfolio benefited from the operating environment and RevPAR increased during the first quarter of 2014. During the quarter, the Company's FFO per diluted share/unit and EBITDA increased year-over-year due to improvements in the performance of its hotel portfolio and additional EBITDA generated from hotels acquired during 2013.

For the first quarter of 2014, the Company had a net loss applicable to common shareholders of \$9.0 million, or \$0.09 per diluted share. FFO was \$28.8 million, or \$0.28 per diluted share/unit (based on 104,298,342 weighted average shares and units outstanding during the three months ended March 31, 2014) and EBITDA was \$43.0 million. RevPAR for the hotel portfolio was \$144.40, which was an increase of 4.0% compared to the first quarter of 2013. ADR grew 6.2% and was partially offset by an occupancy decline of 2.0%.

Please refer to "Non-GAAP Financial Measures" for a detailed discussion of the Company's use of FFO and EBITDA and a reconciliation of FFO and EBITDA to net income or loss, a measurement computed in accordance with U.S. generally accepted accounting principles ("GAAP").

Critical Accounting Estimates

Substantially all of the Company's revenues and expenses are generated by the operations of the individual hotels. The Company records revenues and expenses that are estimated by the hotel operators to produce quarterly financial statements because the management contracts do not require the hotel operators to submit actual results within a time frame that permits the Company to use actual results when preparing its Quarterly Reports on Form 10-Q for filing by

the deadline prescribed by the SEC. Generally, the Company records actual revenue and expense amounts for the first two months of each quarter and estimated revenue and expense amounts for the last month of each quarter. Each quarter, the Company reviews the estimated revenue and expense amounts provided by the hotel operators for reasonableness based upon historical results for prior periods and internal Company forecasts. The Company records any differences between recorded estimated amounts and actual amounts in the following quarter; historically, these differences have not been material. The Company believes the quarterly revenues and expenses, recorded on the Company's consolidated statements of operations and comprehensive income (loss) based on an aggregate estimate, are fairly stated.

The Company's management has discussed the policy of using estimated hotel operating revenues and expenses with the Audit Committee of its Board of Trustees. The Audit Committee has reviewed the Company's disclosure relating to the estimates in this Management's Discussion and Analysis of Financial Conditions and Results of Operations section.

See "Critical Accounting Policies" in the "Management's Discussion and Analysis of Financial Conditions and Results of Operations" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for other critical accounting policies and estimates of the Company.

Comparison of the Three Months Ended March 31, 2014 to the Three Months Ended March 31, 2013

The economic environment was favorable during the first quarter and the U.S. lodging industry produced strong performance. Industry demand increased during the first quarter of 2014 compared to the same period in 2013, while supply growth was limited. As a result, industry-wide occupancy increased, enabling operators to increase pricing and grow ADR by 3.8%. ADR at the Company's properties increased by 6.2%, while occupancy declined 2.0%. RevPAR improved by 4.0% in the quarter compared to the first quarter of 2013.

Hotel Operating Revenues

Hotel operating revenues, including room, food and beverage and other operating department revenues, increased \$26.9 million from \$190.2 million in 2013 to \$217.1 million in 2014. This increase is due primarily to the hotel operating revenues generated from the 2013 hotel acquisitions, which consist of the acquisitions of Hotel Triton, Harbor Court Hotel, Serrano Hotel and Southernmost Hotel Collection (collectively, the "2013 Acquisition Properties"). The 2013 Acquisition Properties, which are not comparable year-over-year, contributed \$19.9 million to the increase in hotel operating revenues. Additionally, the effects of the slowly improving economic environment, which resulted in a 4.0% increase in RevPAR across the portfolio, attributable to a 6.2% increase in ADR partially offset by a 2.0% decrease in occupancy, contributed to the increase in hotel operating revenues.

The following hotels experienced significant increases in total room, food and beverage and other operating department revenues primarily as a result of the effects of the improving economy:

- \$1.4 million increase from San Diego Paradise Point Resort and Spa;
- \$1.1 million increase from The Hilton San Diego Resort and Spa;
- \$0.9 million increase from Hyatt Boston Harbor;
- \$0.8 million increase from Hotel Monaco San Francisco;
- \$0.7 million increase from Westin Copley Place; and
- \$0.7 million increase from Westin Philadelphia.

Additionally, total room, food and beverage and other operating department revenues increased \$2.0 million at Park Central Hotel and WestHouse Hotel New York resulting from the completion of the hotel renovation in late 2013. These increases are partially offset by a decrease of \$2.1 million from the nine Washington, DC properties due to the 2013 Presidential inauguration held in the prior period. In addition, a \$1.5 million decrease from the Company's two Chicago properties resulting from a weak citywide calendar and weather-related issues partially offset the increase. Hotel operating revenues across the remainder of the portfolio held relatively constant, increasing a net \$3.0 million across 22 additional hotels in the portfolio, of which \$1.8 million relates to the Los Angeles area properties.

Other Income

Other income increased \$0.3 million from \$1.5 million in 2013 to \$1.8 million in 2014 due primarily to increased gains from insurance proceeds related to minor property damage at various properties.

Hotel Operating Expenses

Hotel operating expenses increased \$17.4 million from \$133.6 million in 2013 to \$151.0 million in 2014. This overall increase is primarily due to \$10.2 million from the results of the 2013 Acquisition Properties, which are not comparable year-over-year. To a lesser extent, the increase is a result of increased operating costs associated with higher occupancies at certain properties in the portfolio attributable to the slowly improving economic environment and the completion of the Park Central Hotel and WestHouse Hotel New York renovation.

Edgar Filing: LaSalle Hotel Properties - Form 10-Q

The following hotels experienced significant increases in total room, food and beverage, other direct and other indirect expenses primarily as a result of increased occupancies at the hotels:

- \$3.7 million increase from the Park Central Hotel and WestHouse Hotel New York (due to completion of the 2013 hotel renovation);
- \$0.8 million increase from San Diego Paradise Point Resort and Spa; and
- \$0.7 million increase from Westin Copley Place.

Table of Contents

Hotel operating expenses across the remainder of the portfolio remained relatively constant, increasing a net \$2.0 million across the 37 additional hotels in the portfolio. Certain cost increases across the portfolio were partially offset by the overall decrease in occupancy and any resulting cost savings. The occupancy decrease was due in large part to weather-related issues in the Northeast and Midwest sections of the country and to a lesser extent to the comparison to the inauguration in 2013 in Washington, DC.

Depreciation and Amortization

Depreciation and amortization expense increased \$4.7 million from \$33.1 million in 2013 to \$37.8 million in 2014. Of the increase, \$2.0 million is attributable to the 2013 Acquisition Properties, which are not comparable year-over-year. Depreciation and amortization expense increased a net \$2.7 million across the remaining hotels in the portfolio due to the depreciation of new assets placed into service, particularly at the Park Central Hotel and WestHouse Hotel New York resulting from the completion of the 2013 hotel renovation.

Real Estate Taxes, Personal Property Taxes and Insurance

Real estate taxes, personal property taxes and insurance expenses increased \$2.6 million from \$12.4 million in 2013 to \$15.0 million in 2014. Of the increase, \$1.0 million is attributable to the 2013 Acquisition Properties, which are not comparable year-over-year. Real estate taxes and personal property taxes increased a net \$1.6 million across the remaining hotels in the portfolio primarily due to increased assessed property values or tax rates at certain properties and, to a lesser extent, to the completion of the Park Central Hotel and WestHouse Hotel New York renovation on which the capitalization of real estate taxes ceased at the end of 2013. Insurance expense remained constant between the two periods.

Ground Rent

Ground rent increased \$0.4 million from \$2.5 million in 2013 to \$2.9 million in 2014. Certain hotels are subject to ground rent under operating leases which call for either fixed or variable payments based on the hotel's performance. Harbor Court Hotel and Southernmost Hotel Collection, which are not comparable year-over-year, contributed \$0.3 million to the 2014 increase. The other hotels subject to ground leases contributed a net \$0.1 million to the increase due to improved operating results.

General and Administrative

General and administrative expense increased \$0.4 million from \$5.1 million in 2013 to \$5.5 million in 2014 due primarily to increased compensation expenses, due in part to additional staffing as a result of portfolio growth, partially offset by slightly lower professional fees.

Acquisition Transaction Costs

Acquisition transaction costs of \$0.1 million in 2014 relate to the purchase of Hotel Vitale on April 2, 2014. There were no acquisition costs in the 2013 period.

Other Expenses

Other expenses increased \$2.6 million from \$0.6 million in 2013 to \$3.2 million in 2014 due primarily to a net increase of \$2.2 million in pre-opening, severance, marketing and management transition expenses, consisting of a net increase of \$1.4 million related to the newly renovated Park Central Hotel and WestHouse Hotel New York and \$0.8 million of management transition expenses at Hotel Serrano and Hotel Chicago. In addition, losses from property damage, which are largely covered by insurance proceeds, increased \$0.2 million and retail lease expenses increased \$0.2 million.

Interest Income

Interest income decreased \$0.6 million from \$2.4 million in 2013 to \$1.8 million in 2014 primarily as a result of the February 10, 2014 payoff of the \$72.0 million mezzanine loan which was acquired in July 2012.

Interest Expense

Interest expense remained unchanged at \$14.0 million in 2013 and 2014 due to the increase in the Company's weighted average debt outstanding being offset by a decrease in the weighted average interest rate. The Company's weighted average debt outstanding increased from \$1.2 billion in 2013 to \$1.3 billion in 2014 due primarily to the following borrowings:

- additional borrowings to purchase the 2013 Acquisition Properties;
- additional borrowings to redeem 4,000,000 of the 6,348,888 7 1/4% Series G Cumulative Redeemable Preferred Shares

Table of Contents

("Series G Preferred Shares") in April 2013; and

- additional borrowing to finance other capital improvements during 2013 and 2014.

The above borrowings were partially offset by paydowns with proceeds from the following:

- the March 2013 issuance of the 6 % Series I Cumulative Redeemable Preferred Shares (the "Series I Preferred Shares");
- proceeds from the repayment of the mezzanine loan in February 2014;
- the issuance of common shares under the Company's equity distribution agreement during 2013; and
- positive operating results from the hotel properties.

The Company's weighted average interest rate, including the impact of capitalized interest, decreased from 4.3% in 2013 to 4.1% in 2014. Interest capitalized on renovations decreased from \$0.2 million to \$0.1 million in 2014 primarily due to the completion of the Park Central Hotel and WestHouse New York renovation at the end of 2013.

Loss from Extinguishment of Debt

Loss from extinguishment of debt of \$2.5 million in 2014 relates to the write-off of a portion of the unamortized deferred financing costs for the Company's senior unsecured credit facility and Second Term Loan. These costs were recorded in connection with the original agreements that were in effect prior to the Company refinancing its senior unsecured credit facility and Second Term Loan on January 8, 2014. There was no loss from extinguishment of debt in the 2013 period.

Income Tax Benefit

Income tax benefit increased \$1.4 million from \$5.0 million in 2013 to \$6.4 million in 2014. This increased income tax benefit is primarily the result of an increase in LHL's net loss before income tax benefit of \$5.4 million from \$12.9 million in 2013 to \$18.3 million in 2014. For the quarter ended March 31, 2014, LHL's income tax benefit was calculated using an estimated combined federal and state effective tax rate of 36.4%.

Noncontrolling Interests of Common Units in Operating Partnership

Noncontrolling interests of common units in Operating Partnership represents the allocation of income or loss of the Operating Partnership to the common units held by third parties based on their weighted average percentage ownership throughout the period. At March 31, 2014, third party limited partners held 0.3% of the common units in the Operating Partnership.

Distributions to Preferred Shareholders

Distributions to preferred shareholders decreased \$1.0 million from \$5.1 million in 2013 to \$4.1 million in 2014 due to decreased distributions on the Series G Preferred Shares, which were partially redeemed on April 5, 2013, partially offset by increased distributions on the Series I Preferred Shares, which were issued on March 4, 2013 and March 12, 2013.

Non-GAAP Financial Measures

FFO and EBITDA

The Company considers the non-GAAP measures of FFO and EBITDA to be key supplemental measures of the Company's performance and should be considered along with, but not as alternatives to, net income or loss as a measure of the Company's operating performance. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO and EBITDA to be helpful in evaluating a real estate company's operations.

The White Paper on FFO approved by the National Association of Real Estate Investment Trusts ("NAREIT") in April 2002, as revised in 2011, defines FFO as net income or loss (computed in accordance with GAAP), excluding gains or

losses from sales of properties and items classified by GAAP as extraordinary, plus real estate-related depreciation and amortization (excluding amortization of deferred finance costs) and impairment writedowns, and after comparable adjustments for the Company's portion of these items related to unconsolidated entities and joint ventures. The Company computes FFO consistent with standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than the Company.

With respect to FFO, the Company believes that excluding the effect of extraordinary items, real estate-related depreciation and amortization and impairments, and the portion of these items related to unconsolidated entities, all of which are based on historical cost accounting and which may be of limited significance in evaluating current performance, can facilitate comparisons

Table of Contents

of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common shareholders. However, FFO may not be helpful when comparing the Company to non-REITs.

With respect to EBITDA, the Company believes that excluding the effect of non-operating expenses and non-cash charges, and the portion of these items related to unconsolidated entities, all of which are also based on historical cost accounting and may be of limited significance in evaluating current performance, can help eliminate the accounting effects of depreciation and amortization, and financing decisions and facilitate comparisons of core operating profitability between periods and between REITs, even though EBITDA also does not represent an amount that accrues directly to common shareholders.

FFO and EBITDA do not represent cash generated from operating activities as determined by GAAP and should not be considered as alternatives to net income, cash flows from operations or any other operating performance measure prescribed by GAAP. FFO and EBITDA are not measures of the Company's liquidity, nor are FFO and EBITDA indicative of funds available to fund the Company's cash needs, including its ability to make cash distributions. These measurements do not reflect cash expenditures for long-term assets and other items that have been and will be incurred. FFO and EBITDA may include funds that may not be available for management's discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions and other commitments and uncertainties. To compensate for this, management considers the impact of these excluded items to the extent they are material to operating decisions or the evaluation of the Company's operating performance.

The following is a reconciliation between net loss attributable to common shareholders and FFO for the three months ended March 31, 2014 and 2013 (in thousands, except share and unit data):

Off-Balance Sheet Arrangements

Reserve Funds for Future Capital Expenditures

Certain of the Company's agreements with its hotel managers, franchisors and lenders have provisions for the Company to provide funds, generally 4.0% to 5.0% of hotel revenues, sufficient to cover the cost of (a) certain non-routine repairs and maintenance to the hotels and (b) replacements and renewals to the hotels' capital assets. Certain of the agreements require that

Table of Contents

the Company reserve this cash in separate accounts. As of March 31, 2014, the Company held a total of \$19.7 million of restricted cash reserves, \$13.6 million of which was available for future capital expenditures. The Company has sufficient cash on hand and availability on its credit facilities to cover capital expenditures under agreements that do not require that the Company separately reserve cash.

The Company has no other off-balance sheet arrangements.

Liquidity and Capital Resources

The Company's principal source of cash to meet its cash requirements, including distributions to shareholders, is the operating cash flow from the Company's hotels. Additional sources of cash are the Company's senior unsecured credit facility, LHL's unsecured credit facility, additional unsecured financing, secured financing on one or all of the Company's 39 unencumbered properties as of March 31, 2014, the sale of one or more properties, equity issuances available under the Company's shelf registration statement and the issuance of up to \$230.1 million of common shares from time to time under the 2013 Agreement (as defined under "Equity Issuances and Redemptions" below).

LHL is a wholly owned subsidiary of the Operating Partnership. Payments to the Operating Partnership are required pursuant to the terms of the lease agreements between LHL and the Operating Partnership relating to the properties owned by the Operating Partnership and leased by LHL. LHL's ability to make rent payments to the Operating Partnership and the Company's liquidity, including its ability to make distributions to shareholders, are dependent on the lessees' ability to generate sufficient cash flow from the operation of the hotels.

Borrowings bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. As of March 31, 2014, the rate, including the applicable margin, for

29

Table of Contents

the Company's outstanding LIBOR borrowings of \$196,000 was 1.86%. As of December 31, 2013, the rate, including the applicable margin, for the Company's outstanding LIBOR borrowing of \$220,000 was 1.92%. The Company has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Borrowings bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. There were no borrowings outstanding at March 31, 2014.

(b) As of December 31, 2013, the rate, including the applicable margin, for LHL's outstanding LIBOR borrowings of \$606 was 1.92%. LHL has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Term loans bear interest at floating rates equal to LIBOR plus an applicable margin. The Company entered into separate interest rate swap agreements for the full seven-year term of the First Term Loan (as defined below) and a

(c) five-year term ending in August 2017 for the Second Term Loan (as defined below), resulting in fixed all-in interest rates at March 31, 2014 of 3.62% and 2.38%, respectively, and at December 31, 2013 of 3.62% and 2.43%, respectively, at the Company's current leverage ratio (as defined in the swap agreements).

The Massport Bonds are secured by letters of credit issued by the Royal Bank of Scotland that expire in February 2015, pursuant to an amendment to the agreement governing the letters of credit. The Royal Bank of Scotland letters of credit also have two one-year extension options and are secured by the Hyatt Boston Harbor. The bonds

(d) bear interest based on weekly floating rates. The interest rates as of March 31, 2014 were 0.85% and 0.40% for the \$5,400 and \$37,100 bonds, respectively. The interest rates as of December 31, 2013 were 0.70% and 0.40% for the \$5,400 and \$37,100 bonds, respectively. The Company also incurs an annual letter of credit fee of a variable rate based on an applicable margin as defined in the Company's senior unsecured credit agreement.

(e) On February 25, 2014, the Company notified the lender that it will repay the mortgage loan on May 1, 2014, likely through a borrowing on its senior credit facility.

(f) Mortgage debt includes an unamortized loan premium on the mortgage loan on Hotel Deca of \$23 as of March 31, 2014 and \$41 as of December 31, 2013.

A summary of the Company's interest expense and weighted average interest rates for variable rate debt for the three months ended March 31, 2014 and 2013 is as follows (in thousands):

	For the three months ended March 31,	
	2014	2013

Credit Facilities		

On January 8, 2014, the Company refinanced its \$750.0 million senior unsecured credit facility with a syndicate of banks. As amended, the credit facility now matures on January 8, 2018, subject to two six-month extensions that the Company may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee.

The credit facility includes an accordion feature which, subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments up to \$1.05 billion. Borrowings under the credit facility bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. Additionally, the Company is required to pay a variable unused commitment fee of 0.25% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the credit facility.

On January 8, 2014, LHL also refinanced its \$25.0 million unsecured revolving credit facility to be used for working capital and general lessee corporate purposes. As amended, the LHL credit facility now matures on January 8, 2018, subject to two six-month extensions that LHL may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. Borrowings under the LHL credit facility bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate plus an applicable margin. Additionally, LHL is required to pay a variable unused

Table of Contents

commitment fee of 0.25% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the LHL credit facility.

The Company's senior unsecured credit facility and LHL's unsecured credit facility contain certain financial covenants relating to net worth requirements, debt ratios and fixed charge coverage and other limitations that restrict the Company's ability to make distributions or other payments to its shareholders upon events of default.

Term Loans

On May 16, 2012, the Company entered into a \$177.5 million unsecured term loan with a seven-year term maturing on May 16, 2019 (the "First Term Loan"). The First Term Loan bears interest at a variable rate, but was hedged to a fixed interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 3.62% at March 31, 2014, for the full seven-year term (see "Derivative and Hedging Activities" below).

On January 8, 2014, the Company refinanced its \$300.0 million unsecured term loan (the "Second Term Loan"). The Second Term Loan includes a new accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments up to \$500.0 million. The Second Term Loan has a new five-year term maturing on January 8, 2019 and bears interest at variable rates, but was hedged to a fixed interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 2.38% at March 31, 2014, through August 2, 2017 (see "Derivative and Hedging Activities below").

The Company's term loans contain certain financial covenants relating to net worth requirements, debt ratios and fixed charge coverage and other limitations that restrict the Company's ability to make distributions or other payments to its shareholders upon events of default.

Derivative and Hedging Activities

The Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Unrealized gains and losses on the effective portion of hedging instruments are reported in other comprehensive income (loss) ("OCI"). Ineffective portions of changes in the fair value of a cash flow hedge are recognized as interest expense. Amounts reported in accumulated other comprehensive income (loss) ("AOCI") related to currently outstanding derivatives are recognized as an adjustment to income (loss) as interest payments are made on the Company's variable rate debt. Effective May 16, 2012, the Company entered into three interest rate swap agreements with an aggregate notional amount of \$177.5 million for the First Term Loan's full seven-year term, resulting in a fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 3.62% at March 31, 2014. Effective August 2, 2012, the Company entered into five interest rate swap agreements with an aggregate notional amount of \$300.0 million for the Second Term Loan through August 2, 2017, resulting in a fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 2.38% at March 31, 2014. The Company has designated its pay-fixed, receive-floating interest rate swap derivatives as cash flow hedges.

The following tables present the effect of derivative instruments on the Company's consolidated statements of operations and comprehensive loss, including the location and amount of unrealized (loss) gain on outstanding derivative instruments in cash flow hedging relationships, for the three months ended March 31, 2014 and 2013 (in thousands):

During the three months ended March 31, 2014 and 2013, the Company did not have any hedge ineffectiveness or amounts that were excluded from the assessment of hedge effectiveness recorded in earnings.					

Table of Contents

As of March 31, 2014 and December 31, 2013, there was \$3.6 million and \$4.6 million in cumulative unrealized gain, respectively, of which \$3.6 million and \$4.6 million was included in AOCI, respectively, and an immaterial amount was attributable to noncontrolling interests. The Company expects that approximately \$4.4 million will be reclassified from AOCI and noncontrolling interests and recognized as a reduction to income in the next 12 months, calculated as estimated interest expense using the interest rates on the derivative instruments as of March 31, 2014.

Extinguishment of Debt

As discussed above, the Company refinanced its senior unsecured credit facility and Second Term Loan and LHL refinanced its unsecured revolving credit facility on January 8, 2014. The refinancing arrangements for the senior unsecured credit facility and Second Term Loan were considered substantial modifications. In accordance with GAAP guidance, the Company recognized a loss from extinguishment of debt of \$2.5 million, which is included in the consolidated statements of operations and comprehensive loss. The loss from extinguishment of debt represents a portion of the unamortized deferred financing costs from the original agreements.

Mortgage Loans

The Company's mortgage loans are secured by the respective properties. The mortgages are non-recourse to the Company except for fraud or misapplication of funds.

The mortgage loans contain debt service coverage ratio tests related to the mortgaged properties. If the debt service coverage ratio for a specific property fails to exceed a threshold level specified in the mortgage, cash flows from that hotel will automatically be directed to the lender to (i) satisfy required payments, (ii) fund certain reserves required by the mortgage and (iii) fund additional cash reserves for future required payments, including final payment. Cash flows will be directed to the lender ("cash trap") until such time as the property again complies with the specified debt service coverage ratio or the mortgage is paid off.

Financial Covenants

Failure of the Company to comply with the financial covenants contained in its credit facilities, term loans and non-recourse secured mortgages could result from, among other things, changes in its results of operations, the incurrence of additional debt or changes in general economic conditions.

If the Company violates the financial covenants contained in any of its credit facilities or term loans described above, the Company may attempt to negotiate waivers of the violations or amend the terms of the applicable credit facilities or term loans with the lenders thereunder; however, the Company can make no assurance that it would be successful in any such negotiations or that, if successful in obtaining waivers or amendments, such amendments or waivers would be on terms attractive to the Company. If a default under the credit facilities or term loans were to occur, the Company would possibly have to refinance the debt through additional debt financing, private or public offerings of debt securities, or additional equity financings. If the Company is unable to refinance its debt on acceptable terms, including at maturity of the credit facilities and term loans, it may be forced to dispose of hotel properties on disadvantageous terms, potentially resulting in losses that reduce cash flow from operating activities. If, at the time of any refinancing, prevailing interest rates or other factors result in higher interest rates upon refinancing, increases in interest expense would lower the Company's cash flow, and, consequently, cash available for distribution to its shareholders.

A cash trap associated with a mortgage loan may limit the overall liquidity for the Company as cash from the hotel securing such mortgage would not be available for the Company to use. If the Company is unable to meet mortgage payment obligations, including the payment obligation upon maturity of the mortgage borrowing, the mortgage securing the specific property could be foreclosed upon by, or the property could be otherwise transferred to, the mortgagee with a consequent loss of income and asset value to the Company.

As of March 31, 2014, the Company is in compliance with all debt covenants, current on all loan payments and not otherwise in default under the credit facilities, term loans, bonds payable or mortgage loans.

Fair Value Measurements

In evaluating fair value, GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

Table of Contents

Level 1—Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2—Observable inputs, other than quoted prices included in level 1, such as interest rates, yield curves, quoted prices in active markets for similar assets and liabilities, and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3—Unobservable inputs that are supported by limited market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques when observable inputs are not available.

The Company estimates the fair value of its financial instruments using available market information and valuation methodologies the Company believes to be appropriate for these purposes. Considerable judgment and subjectivity are involved in developing these estimates and, accordingly, such estimates are not necessarily indicative of amounts that would be realized upon disposition.

Recurring Measurements

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of their fair value is as follows (in thousands):

Description	Consolidated Balance Sheet Location	Fair Value Measurements at	
		March 31, 2014	December 31, 2013
Derivative interest rate instruments	Prepaid expenses and other assets	\$3,644	\$4,616

The fair value of each derivative instrument is based on a discounted cash flow analysis of the expected cash flows under each arrangement. This analysis reflects the contractual terms of the derivative instrument, including the period to maturity, and utilizes observable market-based inputs, including interest rate curves and implied volatilities, which are classified within level 2 of the fair value hierarchy. The Company also incorporates credit value adjustments to appropriately reflect each parties' nonperformance risk in the fair value measurement, which utilizes level 3 inputs such as estimates of current credit spreads. However, the Company has assessed that the credit valuation adjustments are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified within level 2 of the fair value hierarchy.

Financial Instruments Not Measured at Fair Value

The following table represents the fair value, derived using level 2 inputs, of financial instruments presented at carrying value in the Company's consolidated financial statements as of March 31, 2014 and December 31, 2013 (in thousands):

	March 31, 2014		December 31, 2013	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Note receivable	\$0	\$0	\$71,014	\$71,014
Borrowings under credit facilities	\$196,000	\$196,258	\$220,606	\$220,957
Term loans	\$477,500	\$476,957	\$477,500	\$477,053
Bonds payable	\$42,500	\$42,500	\$42,500	\$42,500
Mortgage loans	\$513,194	\$520,740	\$514,456	\$522,788

The Company estimated the fair value of its borrowings under credit facilities, term loans, bonds payable and mortgage loans using a weighted average effective interest rate of 3.1% as of March 31, 2014 and December 31, 2013. The assumptions reflect the terms currently available on similar borrowings to borrowers with credit profiles similar to the Company's. As of December 31, 2013, the Company estimated that the fair value of its note receivable, which was repaid in full on February 10, 2014, approximated its carrying value due to the relatively short period until maturity.

At March 31, 2014 and December 31, 2013, the carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable and accounts payable and accrued expenses were representative of their fair values due to the short-term nature of these instruments and the recent acquisition of these items.

Equity Issuances and Redemptions

On February 20, 2013, the Company entered into an equity distribution agreement (the "2013 Agreement") with Raymond James & Associates, Inc. (the "Manager"). Under the terms of the 2013 Agreement, the Company may issue from time to time through or to the Manager, as sales agent or principal, the Company's common shares of beneficial interest with aggregate gross proceeds totaling up to \$250.0 million. As of March 31, 2014, the Company had availability under the 2013 Agreement to issue and sell common shares of beneficial interest having an aggregate offering price of up to \$230.1 million.

Sources and Uses of Cash

As of March 31, 2014, the Company had \$16.9 million of cash and cash equivalents and \$19.7 million of restricted cash reserves, \$13.6 million of which was available for future capital expenditures. Additionally, the Company had \$551.4 million available under the Company's senior unsecured credit facility, with \$2.6 million reserved for outstanding letters of credit, and \$25.0 million available under LHL's unsecured credit facility.

Net cash provided by operating activities was \$23.1 million for the three months ended March 31, 2014 primarily due to the operations of the hotels, which were partially offset by payments for real estate taxes, personal property taxes, insurance and ground rent.

Net cash provided by investing activities was \$45.7 million for the three months ended March 31, 2014 primarily due to the proceeds from the repayment of the mezzanine loan, partially offset by the deposit made on Hotel Vitale and outflows for improvements and additions at the hotels.

Net cash used in financing activities was \$65.3 million for the three months ended March 31, 2014 primarily due to net repayments under the credit facilities, mortgage loan repayments, payment of deferred financing costs, repurchase of common shares into treasury, payment of distributions to the common shareholders and unitholders and payment of distributions to preferred shareholders.

The Company has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Company believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements, distributions on the preferred shares and the minimum distribution required to maintain the Company's REIT qualification under the Code. The Company anticipates that these needs will be met with available cash on hand, cash flows provided by operating activities, borrowings under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties, potential property sales, equity issuances available under the Company's shelf registration statement and the issuance of up to \$230.1 million of common shares from time to time under the 2013 Agreement. The Company also considers capital improvements, and property acquisitions as short-term needs that will be funded either with cash flows provided by operating activities, utilizing availability under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties, potential property sales or the issuance of additional equity securities.

The Company expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements utilizing availability under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties, potential property sales, estimated cash flows from operations, equity issuances available under the Company's shelf registration statement and the issuance of up to \$230.1 million of common shares from time to time under the 2013 Agreement. The Company expects to acquire or develop additional hotel properties only as suitable opportunities arise, and the Company will not undertake acquisition or development of properties unless stringent acquisition or development criteria have been

achieved.

Reserve Funds

The Company is obligated to maintain reserve funds for capital expenditures at the hotels (including the periodic replacement or refurbishment of furniture, fixtures and equipment) as determined pursuant to the operating agreements. Please refer to “Off-Balance Sheet Arrangements” for a discussion of the Company's reserve funds.

Table of Contents**Contractual Obligations**

The following is a summary of the Company's obligations and commitments as of March 31, 2014 (in thousands):

Obligations and Commitments	Total	Amount of Commitment Expiration Per Period			
	Amounts Committed	Less than 1 year	1 to 3 years	4 to 5 years	Over 5 years

Total obligations and commitments	\$1,926,246	\$108,965	\$583,802	\$586,909	\$646,570

⁽¹⁾ Amounts include principal and interest.

Amounts include principal and interest. Interest expense is calculated based on the variable rate as of March 31,

⁽²⁾ 2014. It is assumed that the outstanding debt as of March 31, 2014 will be repaid upon maturity with interest-only payments until then.

⁽³⁾ Amounts calculated based on the annual minimum future lease payments that extend through the term of the lease. Rents may be subject to adjustments based on future interest rates and hotel performance.

Amounts include principal and interest. The term loans bear interest at floating rates equal to LIBOR plus applicable margins. The Company entered into separate interest rate swap agreements for the full seven-year term of the First Term Loan and a five-year term ending August 2, 2017 for the Second Term Loan, resulting in fixed

⁽⁴⁾ all-in interest rates of 3.62% and 2.38%, respectively, at the Company's current leverage ratio (as defined in the swap agreements). It is assumed that the outstanding debt as of March 31, 2014 will be repaid upon maturity with fixed interest-only payments through the swapped periods and interest calculated based on the variable rate as of March 31, 2014 for the unswapped period of the Second Term Loan.

As of March 31, 2014, purchase orders and letters of commitment totaling approximately \$38.5 million had been

⁽⁵⁾ issued for renovations at the properties. The Company has committed to these projects and anticipates making similar arrangements in the future with the existing properties or any future properties that it may acquire.

The Hotels

The following table sets forth historical comparative information with respect to occupancy, ADR and RevPAR for the total hotel portfolio for the three months ended March 31, 2014 and 2013:

	For the three months ended			
	March 31, 2014	2013	Variance	
Occupancy	71.7	% 73.2	% -2.0	%
ADR	\$201.36	\$189.64	6.2	%
RevPAR	\$144.40	\$138.81	4.0	%

The above hotel statistics include adjustments made for presentation of comparable information.

Inflation

The Company relies entirely on the performance of the hotels and their ability to increase revenues to keep pace with inflation. The hotel operators can change room rates quickly, but competitive pressures may limit the hotel operators' abilities to raise rates faster than inflation or even at the same rate.

The Company's expenses (primarily real estate taxes, property and casualty insurance, administrative expenses and hotel operating expenses) are subject to inflation. These expenses are expected to grow at the general rate of inflation, except for energy costs, liability insurance, property taxes (due to increased rates and periodic reassessments), employee benefits and some wages, which are expected to increase at rates higher than inflation.

Table of Contents

Seasonality

The Company's hotels' operations historically have been seasonal. Taken together, the hotels maintain higher occupancy rates during the second and third quarters of each year. These seasonality patterns can be expected to cause fluctuations in the quarterly hotel operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk from changes in interest rates. The Company seeks to limit the impact of interest rate changes on earnings and cash flows and to lower the overall borrowing costs by closely monitoring the Company's variable rate debt and converting such debt to fixed rates when the Company deems such conversion advantageous. From time to time, the Company may enter into interest rate swap agreements or other interest rate hedging contracts. While these agreements are intended to lessen the impact of rising interest rates, they also expose the Company to the risks that the other parties to the agreements will not perform, the Company could incur significant costs associated with the settlement of the agreements, the agreements will be unenforceable and the underlying transactions will fail to qualify as highly effective cash flow hedges under GAAP guidance. As of March 31, 2014, \$238.5 million of the Company's aggregate indebtedness (19.4% of total indebtedness) was subject to variable interest rates, excluding amounts outstanding under the First Term Loan and Second Term Loan since the Company hedged their variable interest rates to fixed interest rates.

If market rates of interest on the Company's variable rate long-term debt fluctuate by 0.25%, interest expense would increase or decrease, depending on rate movement, future earnings and cash flows by \$0.6 million annually. This assumes that the amount outstanding under the Company's variable rate debt remains at \$238.5 million, the balance as of March 31, 2014.

Item 4. Controls and Procedures

Based on the most recent evaluation, the Company's Chief Executive Officer and Chief Financial Officer believe the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective as of March 31, 2014. There were no changes to the Company's internal control over financial reporting during the first quarter ended March 31, 2014 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. Other Information

Item 1. Legal Proceedings

The nature of hotel operations exposes the Company and its hotels to the risk of claims and litigation in the normal course of their business. The Company is not presently subject to any material litigation nor, to the Company's knowledge, is any litigation threatened against the Company, other than routine actions for negligence or other claims and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance and all of which collectively are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities
