Notes to Consolidated Financial Statements

(in thousands, except share/unit data)

(unaudited)

1. Organization

LaSalle Hotel Properties (the “Company”), a Maryland real estate investment trust organized on January 15, 1998, primarily buys, owns, redevelops and leases upscale and luxury full-service hotels located in convention, resort and major urban business markets. The Company is a self-administered and self-managed real estate investment trust (“REIT”) as defined in the Internal Revenue Code of 1986, as amended (the “Code”). As a REIT, the Company is generally not subject to federal corporate income tax on that portion of its net income that is currently distributed to its shareholders. The income of LaSalle Hotel Lessee, Inc. (together with its wholly owned subsidiaries, “LHL”), the Company’s wholly owned taxable REIT subsidiary, is subject to taxation at normal corporate rates.

As of June 30, 2017, the Company owned interests in 41 hotels with approximately 10,450 guest rooms located in seven states and the District of Columbia. Each hotel is leased to LHL (see Note 8) under a participating lease that provides for rental payments equal to the greater of (i) a base rent or (ii) a participating rent based on hotel revenues. The LHL leases expire between December 2017 and December 2019. Lease revenue from LHL is eliminated in consolidation. A third-party non-affiliated hotel operator manages each hotel pursuant to a hotel management agreement.

Substantially all of the Company’s assets are held directly or indirectly by, and all of its operations are conducted through, LaSalle Hotel Operating Partnership, L.P. (the “Operating Partnership”). The Company is the sole general partner of the Operating Partnership. The Company owned, through a combination of direct and indirect interests, 99.9% of the common units of the Operating Partnership at June 30, 2017. The remaining 0.1% is held by limited partners who held 145,223 common units of the Operating Partnership at June 30, 2017. See Note 6 for additional disclosures related to common units of the Operating Partnership.

2. Summary of Significant Accounting Policies

The accompanying unaudited interim consolidated financial statements and related notes have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and in conformity with the rules and regulations of the Securities and Exchange Commission (“SEC”) applicable to interim financial information. As such, certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the SEC. These unaudited consolidated financial statements, in the opinion of management, include all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the consolidated balance sheets, consolidated statements of operations and comprehensive income (loss), consolidated statements of equity and consolidated statements of cash flows for the periods presented. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017 due to seasonal and other factors. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016.

Basis of Presentation

The consolidated financial statements include the accounts of the Company, the Operating Partnership, LHL and their subsidiaries in which they have a controlling interest, including joint ventures. All significant intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities, the amounts of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Substantially all of the Company’s revenues and expenses are generated by the operations of the individual hotels. The Company records revenues and expenses that are estimated by the hotel operators and reviewed by the Company to

produce quarterly financial statements because the management contracts do not require the hotel operators to submit actual results within a time frame that permits the Company to use actual results when preparing its Quarterly Reports on Form 10-Q for filing by the deadline prescribed by the SEC. Generally, the Company records actual revenue and expense amounts for the first two months of each quarter and estimated revenue and expense amounts for the last month of each quarter. Each quarter, the Company reviews the estimated revenue and expense amounts provided by the hotel operators for reasonableness based upon historical results for

Table of Contents

prior periods and internal Company forecasts. The Company records any differences between recorded estimated amounts and actual amounts in the following quarter; historically, these differences have not been material. The Company believes the quarterly revenues and expenses, recorded on the Company's consolidated statements of operations and comprehensive income (loss) based on an aggregate estimate, are fairly stated. Also, given the timing of the Company's disposition of Westin Philadelphia (see Note 3), estimates are included in gain on sale of properties in the consolidated statement of operations and comprehensive income for the three and six months ended June 30, 2017. Any differences between recorded estimated amounts and actual amounts will be recorded in the subsequent quarter.

Investment in Hotel Properties

Upon acquisition, the Company determines the fair value of the acquired long-lived assets, assumed debt and intangible assets and liabilities. The Company's investments in hotel properties are carried at cost and depreciated using the straight-line method over an estimated useful life of 30 to 40 years for buildings, 15 years for building improvements, the shorter of the useful life of the improvement or the term of the related tenant lease for tenant improvements, seven years for land improvements, 20 years for golf course land improvements, 20 years for swimming pool assets and three to five years for furniture, fixtures and equipment. For investments subject to land and building leases that qualify as capital leases, assets are recorded at the estimated fair value of the right to use the leased property at acquisition and depreciated over the shorter of the useful lives of the assets or the term of the respective lease. Renovations and/or replacements that improve or extend the life of the asset are capitalized and depreciated over their estimated useful lives.

The Company is required to make subjective assessments as to the useful lives and classification of its properties for purposes of determining the amount of depreciation expense to reflect each year with respect to those properties. These assessments have a direct impact on the Company's net income. Should the Company change the expected useful life or classification of particular assets, it would result in a change in depreciation expense and annual net income.

Share-Based Compensation

From time to time, the Company awards shares under the 2014 Equity Incentive Plan, as amended ("2014 Plan"), which has approximately seven years remaining, as compensation to executives, employees and members of the Board of Trustees (see Note 7). The shares issued to executives and employees generally vest over three years. The shares issued to members of the Board of Trustees vest immediately upon issuance. The Company recognizes compensation expense for nonvested shares with service conditions or service and market conditions on a straight-line basis over the vesting period based upon the fair value of the shares on the date of issuance, adjusted for forfeitures. Compensation expense for nonvested shares with service and performance conditions is recognized based on the fair value of the estimated number of shares expected to vest, as revised throughout the vesting period, adjusted for forfeitures. The 2014 Plan replaced the 2009 Equity Incentive Plan ("2009 Plan") in May 2014.

Noncontrolling Interests

The Company's consolidated financial statements include entities in which the Company has a controlling financial interest. Noncontrolling interest is the portion of equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. Such noncontrolling interests are reported on the consolidated balance sheets within equity, separately from the Company's equity. On the consolidated statements of operations and comprehensive income (loss), revenues, expenses and net income or loss from less-than-wholly-owned subsidiaries are reported at the consolidated amounts, including both the amounts attributable to the Company and noncontrolling interests. Income or loss is allocated to noncontrolling interests based on their weighted average ownership percentage for the applicable period. Consolidated statements of equity include beginning balances, activity for the period and ending balances for

shareholders' equity, noncontrolling interests and total equity.

However, the Company's noncontrolling interests that are redeemable for cash or other assets at the option of the holder, not solely within the control of the issuer, must be classified outside of permanent equity. The Company makes this determination based on terms in applicable agreements, specifically in relation to redemption provisions. Additionally, with respect to noncontrolling interests for which the Company has a choice to settle the contract by delivery of its own shares, the Company evaluates whether the Company controls the actions or events necessary to issue the maximum number of shares that could be required to be delivered under share settlement of the contract. As of June 30, 2017, the consolidated results of the Company include the following ownership interests held by owners other than the Company: (i) the common units in the Operating Partnership held by third parties, (ii) the outside preferred ownership interests in a subsidiary and (iii) the outside ownership interest in a joint venture.

Table of Contents

Variable Interest Entities

The Operating Partnership is a variable interest entity. The Company's significant asset is its investment in the Operating Partnership, and consequently, substantially all of the Company's assets and liabilities represent those assets and liabilities of the Operating Partnership. All of the Company's debt is an obligation of the Operating Partnership.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU No. 2014-09 will replace most existing revenue recognition guidance in GAAP when it becomes effective. The new standard is effective for the Company on January 1, 2018. Early adoption is permitted. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is finalizing its evaluation of the effect that ASU No. 2014-09 will have on its consolidated financial statements and related expanded disclosures by working with its hotel operators to analyze its revenue streams and to update its accounting policies. The Company is finalizing its evaluation of each of its revenue streams under the new model and because of the short-term, day-to-day nature of the Company's hotel revenues the pattern of revenue recognition is not expected to change significantly. Additionally, the Company does not sell hotel properties to customers as defined by FASB, but has historically disposed of hotel properties for cash sales with no contingencies and no future involvement in the hotel operations, and therefore, ASU No. 2014-09 will not impact the recognition of hotel sales. The Company does not believe ASU No. 2014-09 will have a material impact on its consolidated financial statements and is evaluating new disclosure requirements. The Company will adopt the new standard on its effective date of January 1, 2018 under the cumulative effect transition method.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which requires lessees to record operating and financing leases as assets and liabilities on the balance sheet and lessors to expense costs that are not initial direct leasing costs. This standard will be effective for the first annual reporting period beginning after December 15, 2018. The Company is evaluating the effect that ASU No. 2016-02 will have on its consolidated financial statements and related disclosures. The Company is creating an inventory of its leases and is analyzing its current ground lease obligations. The Company anticipates recording assets and liabilities on its consolidated balance sheets associated with the ground lease obligations under ASU No. 2016-02.

In January 2017, the FASB issued ASU No. 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business, which clarifies the definition of a business and adds further guidance in evaluating whether a transaction should be accounted for as an acquisition of an asset or a business. This standard will be effective for the first annual period beginning after December 15, 2017, including interim periods within those periods. Early adoption is permitted. The Company early adopted this standard on January 1, 2017.

In February 2017, the FASB issued ASU No. 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets, which clarifies the scope of asset derecognition and adds further guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with non-customers. This standard will be effective for the first annual period beginning after December 15, 2017, including interim periods within those periods. Early adoption is permitted. The Company is evaluating the effect that ASU No. 2017-05 will have on its consolidated financial statements and related disclosures.

3. Investment in Hotel Properties

Investment in hotel properties as of June 30, 2017 and December 31, 2016 consists of the following:

Edgar Filing: LaSalle Hotel Properties - Form 10-Q

	June 30, 2017	December 31, 2016
Land	\$624,773	\$727,176

As of June 30, 2017, buildings and improvements included capital lease assets of \$149,457 and accumulated depreciation included amounts related to capital lease assets of \$24,808. As of December 31, 2016, buildings and improvements included capital lease assets of \$183,503 and accumulated depreciation included amounts related to capital lease assets of \$26,230. Depreciation

Table of Contents

of the capital lease assets is included in depreciation and amortization expense in the accompanying consolidated statements of operations and comprehensive income for all periods presented.

Depreciation expense was \$43,928 and \$91,059 for the three and six months ended June 30, 2017, respectively, and \$48,706 and \$96,200 for the three and six months ended June 30, 2016, respectively.

Dispositions

Upon the sale of a hotel, the Company determines its profit from the sale under the full accrual method provided the following applicable criteria are met: (i) a sale is consummated; (ii) the buyer's initial and continuing investments are adequate to demonstrate a commitment to pay for the property; (iii) the Company's receivable, if applicable, is not subject to future subordination; (iv) the Company has transferred to the buyer the usual risks and rewards of ownership; and (v) the Company does not have a substantial continuing involvement with the property. If all of these conditions are met, the Company will recognize the full profit on the sale.

During the six months ended June 30, 2017, the Company sold Hotel Deca, Lansdowne Resort, Alexis Hotel, Hotel Triton and Westin Philadelphia. These dispositions do not represent a strategic shift in the Company's business plan or primary markets, and therefore, do not qualify as discontinued operations. The sale of each property was recorded on the full accrual method.

On January 19, 2017, the Company sold Hotel Deca for \$55,000. As of December 31, 2016, Hotel Deca qualified as held for sale. Substantially all of the assets held for sale consisted of investment in hotel properties, net and immaterial prepaid expenses and other assets and the liabilities of assets held for sale consisted of accounts payable and accrued expenses. The Company recognized a gain of \$49 and \$30,656 related to the sale of this property, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017, respectively. The proceeds were used for general corporate purposes.

On March 22, 2017, the Company sold Lansdowne Resort for \$133,000. The Company actualized a decrease in the gain of \$148 and recognized a gain of \$10,253 related to the sale of this property, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017, respectively. The proceeds were used for general corporate purposes and the redemption of the 7.5% Series H Cumulative Redeemable Preferred Shares (the "Series H Preferred Shares") on May 4, 2017 (see Note 6).

On March 31, 2017, the Company sold Alexis Hotel for \$71,625. The Company recognized a gain of \$70 and \$33,420 related to the sale of this property, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017, respectively. The proceeds were used for general corporate purposes and the redemption of the Series H Preferred Shares on May 4, 2017 (see Note 6).

On April 11, 2017, the Company sold Hotel Triton for \$14,250. The Company recognized a gain of \$6,739 related to the sale of this property, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017. The proceeds were used for general corporate purposes and the redemption of the Series H Preferred Shares on May 4, 2017 (see Note 6).

On June 29, 2017, the Company sold Westin Philadelphia for \$135,000. The Company recognized a gain of \$4,446 related to the sale of this property, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017. The proceeds will be used for general corporate purposes.

Borrowings bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. There were no borrowings outstanding at June 30, 2017 and December 31, 2016. The Company has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Borrowings bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. There were no borrowings outstanding at June 30, 2017 and December 31, 2016. LHL has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Term loans bear interest at floating rates equal to LIBOR plus an applicable margin. The Company entered into interest rate swaps to effectively fix the interest rates for the First Term Loan (as defined below) and the Second Term Loan (as defined below). At June 30, 2017 and December 31, 2016, the Company had interest rate swaps on the full amounts outstanding. See "Derivative and Hedging Activities" below. At June 30, 2017, the fixed all-in interest rates for the First Term Loan and Second Term Loan were 2.23% and 2.95%, respectively, at the Company's current leverage ratio (as defined in the swap agreements). At December 31, 2016, the fixed all-in interest rates for the First Term Loan and Second Term Loan were 2.38% and 2.95%, respectively, at the Company's current leverage ratio (as defined in the swap agreements).

(d)

The Massport Bonds are secured by letters of credit issued by U.S. Bank National Association that expire in September 2017. The letters of credit have a one-year extension option through September 2018 and are secured by the Hyatt Regency Boston Harbor, however, the letters of credit will not be extended beyond the Massport Bonds' maturity date. The bonds bear interest based on weekly floating rates. The interest rates as of June 30, 2017 were 1.19% and 0.94% for the \$5,400 and \$37,100 bonds, respectively. The interest rates as of December 31, 2016 were 0.75% and 0.76% for the \$5,400 and \$37,100 bonds, respectively. The Company incurs an annual letter of credit fee of 1.35%.

The mortgage loan matures on August 14, 2018 with three options to extend the maturity date to January 5, 2021, pursuant to certain terms and conditions. The interest-only mortgage loan bears interest at a variable rate ranging ^(e) from LIBOR plus 1.75% to LIBOR plus 2.00%, depending on Westin Copley Place's net cash flow (as defined in the loan agreement). The interest rate as of June 30, 2017 was LIBOR plus 1.75%, which equaled 2.91%. The interest rate as of December 31, 2016

Table of Contents

was LIBOR plus 1.75%, which equaled 2.46%. The mortgage loan allows for prepayments without penalty, subject to certain terms and conditions.

Future scheduled debt principal payments as of June 30, 2017 (refer to previous table for extension options) are as follows:

2017	\$0
2018	267,500
2019	0
2020	0
2021	555,000

Credit Facilities

On January 10, 2017, the Company refinanced its \$750,000 senior unsecured credit facility with a syndicate of banks. As amended, the credit facility now matures on January 8, 2021, subject to two six-month extensions that the Company may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. The credit facility, with a current commitment of \$750,000, includes an accordion feature which, subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$1,250,000. Borrowings under the credit facility bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. Additionally, the Company is required to pay a variable unused commitment fee of 0.20% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the credit facility. On January 10, 2017, LHL also refinanced its \$25,000 unsecured revolving credit facility to be used for working capital and general lessee corporate purposes. As amended, the LHL credit facility matures on January 10, 2021, subject to two six-month extensions that LHL may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. Borrowings under the LHL credit facility bear interest at floating rates equal

to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. Additionally, LHL is required to pay a variable unused commitment fee of 0.20% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the LHL unsecured credit facility.

The Company's senior unsecured credit facility and LHL's unsecured credit facility contain certain financial and other covenants, including covenants relating to net worth requirements, debt ratios and fixed charge coverage ratios. In addition, pursuant to the terms of the agreements, if a default or event of default occurs or is continuing, the Company may be precluded from paying certain distributions or other payments to its shareholders.

Table of Contents

The Company and certain of its subsidiaries guarantee the obligations under the Company's senior unsecured credit facility. While the senior unsecured credit facility does not initially include any pledges of equity interests in the Company's subsidiaries, in connection with the January 10, 2017 refinancing, such pledges and additional subsidiary guarantees would be required in the event that the Company's leverage ratio later exceeds 6.50:1.00 for two consecutive fiscal quarters. In the event that such pledge and guarantee requirement is triggered, the pledges and additional guarantees would ratably benefit the Company's senior unsecured credit facility, the First Term Loan and the Second Term Loan. If at any time the Company's leverage ratio falls below 6.50:1.00 for two consecutive fiscal quarters, such pledges and additional guarantees may be released.

Term Loans

On January 10, 2017, the Company refinanced its \$300,000 unsecured term loan (the "First Term Loan") that matures on January 10, 2022. The First Term Loan includes an accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$500,000. The First Term Loan bears interest at variable rates.

On January 10, 2017, the Company amended and restated its \$555,000 unsecured term loan (the "Second Term Loan") that matures on January 29, 2021. The Second Term Loan includes an accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$700,000. The Second Term Loan bears interest at variable rates.

The Company has entered into interest rate swap agreements to effectively fix the LIBOR rates for the term loans (see "Derivative and Hedging Activities" below).

The Company's term loans contain certain financial and other covenants, including covenants relating to net worth requirements, debt ratios and fixed charge coverage ratios. In addition, pursuant to the terms of the agreements, if a default or event of default occurs or is continuing, the Company may be precluded from paying certain distributions or other payments to its shareholders.

The Company and certain of its subsidiaries guarantee the obligations under the Company's term loans. While the term loans do not initially include any pledges of equity interests in the Company's subsidiaries, in connection with the January 10, 2017 refinancing, such pledges and additional subsidiary guarantees would be required in the event that the Company's leverage ratio later exceeds 6.50:1.00 for two consecutive fiscal quarters. In the event that such pledge and guarantee requirement is triggered, the pledges and additional guarantees would ratably benefit the Company's senior unsecured credit facility, the First Term Loan and the Second Term Loan. If at any time the Company's leverage ratio falls below 6.50:1.00 for two consecutive fiscal quarters, such pledges and additional guarantees may be released.

Derivative and Hedging Activities

The Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Unrealized gains and losses on the effective portion of hedging instruments are reported in other comprehensive income (loss) ("OCI"). Ineffective portions of changes in the fair value of a cash flow hedge are recognized as interest expense. Amounts reported in accumulated other comprehensive income (loss) ("AOCI") related to currently outstanding derivatives are recognized as an adjustment to income (loss) as interest payments are made on the Company's variable rate debt. Effective August 2, 2012, the Company entered into five interest rate swap agreements with an aggregate notional amount of \$300,000 to hedge the variable interest rate on the First Term Loan through August 2, 2017, resulting in a fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements), which interest rate was 2.23% at June 30, 2017. As of June 30, 2017, the Company

has interest rate swaps with an aggregate notional amount of \$555,000 to hedge the variable interest rate on the Second Term Loan and, as a result, the fixed all-in interest rate based on the Company's current leverage ratio (as defined in the swap agreements) is 2.95% through May 16, 2019. From May 16, 2019 through the term of the Second Term Loan, the Company has interest rate swaps with an aggregate notional amount of \$377,500 to hedge a portion of the variable interest rate debt on the Second Term Loan. The Company has designated its pay-fixed, receive-floating interest rate swap derivatives as cash flow hedges. The interest rate swaps were entered into with the intention of eliminating the variability of the terms loans, but can also limit the exposure to any amendments, supplements, replacements or refinancings of the Company's debt.

Table of Contents

The following tables present the effect of derivative instruments on the Company's accompanying consolidated statements of operations and comprehensive income, including the location and amount of unrealized loss on outstanding derivative instruments in cash flow hedging relationships, for the three and six months ended June 30, 2017 and 2016:

During the six months ended June 30, 2017 and 2016, the Company did not have any hedge ineffectiveness or amounts that were excluded from the assessment of hedge effectiveness recorded in earnings.

As of June 30, 2017, there was \$3,300 in cumulative unrealized gain of which \$3,296 was included in AOCI and \$4 was attributable to noncontrolling interests. As of December 31, 2016, there was \$2,368 in cumulative unrealized gain

of which \$2,365 was included in AOCI and \$3 was attributable to noncontrolling interests. The Company expects that approximately \$907 will be reclassified from AOCI and noncontrolling interests and recognized as a reduction to income in the next 12 months, calculated as estimated interest expense using the interest rates on the derivative instruments as of June 30, 2017.

Extinguishment of Debt

As discussed above, on January 10, 2017, the Company refinanced its senior unsecured credit facility and First Term Loan and LHL refinanced its unsecured revolving credit facility. The refinancing arrangements for the senior unsecured credit facility and First Term Loan were considered substantial modifications. The Company recognized a loss from extinguishment of debt of zero and \$1,706, which is included in the accompanying consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017, respectively. The loss from extinguishment of debt represents a portion of the unamortized debt issuance costs incurred for the senior unsecured credit facility when the original agreement was executed and the debt issuance costs incurred in connection with the refinancing of the First Term Loan.

Mortgage Loan

The Company's mortgage loan is secured by the property. The mortgage is non-recourse to the Company except for fraud or misapplication of funds.

The Company's mortgage loan contains debt service coverage ratio tests related to the mortgaged property. If the debt service coverage ratio for the property fails to exceed a threshold level specified in the mortgage, cash flows from that hotel may automatically be directed to the lender to (i) satisfy required payments, (ii) fund certain reserves required by the mortgage and (iii) fund additional cash reserves for future required payments, including final payment. Cash flows may be directed to the lender ("cash trap") until such time as the property again complies with the specified debt service coverage ratio or the mortgage is paid off.

Table of Contents**Financial Covenants**

Failure of the Company to comply with financial and other covenants contained in its credit facilities, term loans and non-recourse secured mortgage could result from, among other things, changes in its results of operations, the incurrence of additional debt or changes in general economic conditions.

If the Company violates financial and other covenants contained in any of its credit facilities or term loans described above, the Company may attempt to negotiate waivers of the violations or amend the terms of the applicable credit facilities or term loans with the lenders thereunder; however, the Company can make no assurance that it would be successful in any such negotiations or that, if successful in obtaining waivers or amendments, such amendments or waivers would be on terms attractive to the Company. If a default under the credit facilities or term loans were to occur, the Company would possibly have to refinance the debt through additional debt financing, private or public offerings of debt securities, or additional equity financings. If the Company is unable to refinance its debt on acceptable terms, including at maturity of the credit facilities and term loans, it may be forced to dispose of hotel properties on disadvantageous terms, potentially resulting in losses that reduce cash flow from operating activities. If, at the time of any refinancing, prevailing interest rates or other factors result in higher interest rates upon refinancing, increases in interest expense would lower the Company's cash flow, and, consequently, cash available for distribution to its shareholders.

A cash trap associated with a mortgage loan may limit the overall liquidity for the Company as cash from the hotel securing such mortgage would not be available for the Company to use. If the Company is unable to meet mortgage payment obligations, including the payment obligation upon maturity of the mortgage borrowing, the mortgage securing the specific property could be foreclosed upon by, or the property could be otherwise transferred to, the mortgagee with a consequent loss of income and asset value to the Company.

As of June 30, 2017, the Company is in compliance with all debt covenants, current on all loan payments and not otherwise in default under the credit facilities, term loans, bonds payable and mortgage loan.

Reserve Funds for Future Capital Expenditures

Certain of the Company's agreements with its hotel managers, franchisors and lenders have provisions for the Company to provide funds, generally 4.0% of hotel revenues, sufficient to cover the cost of (i) certain non-routine repairs and maintenance to the hotels and (ii) replacements and renewals to the hotels' capital assets. Certain of the agreements require that the Company reserve this cash in separate accounts. As of June 30, 2017, \$11,330 was available in restricted cash reserves for future capital expenditures. The Company has sufficient cash on hand and availability on its credit facilities to cover capital expenditures under agreements that do not require that the Company separately reserve cash.

Restricted Cash Reserves

At June 30, 2017, the Company held \$13,166 in restricted cash reserves. Included in such amounts are \$11,330 of reserve funds for future capital expenditures and \$1,836 held by insurance and management companies on the Company's behalf to be refunded or applied to future liabilities.

Litigation

The nature of hotel operations exposes the Company and its hotels to the risk of claims and litigation in the normal course of their business. The Company is not presently subject to any material litigation nor, to the Company's knowledge, is any litigation threatened against the Company, other than routine actions for negligence or other claims

and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance and all of which collectively are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

Common Shares of Beneficial Interest

On January 1, 2017, the Company issued 16,010 common shares of beneficial interest and authorized an additional 9,103 deferred shares to the independent members of its Board of Trustees for their 2016 compensation. These common shares of beneficial interest were issued under the 2014 Plan.

Table of Contents

On January 31, 2017, the Company issued 27,767 common shares of beneficial interest related to the resignation of a former member of its Board of Trustees for his accumulated deferred shares granted as compensation for 2001 through 2016. These common shares of beneficial interest were issued under the 2009 Plan and 2014 Plan.

On March 2, 2017, the Company issued 38,599 common shares of beneficial interest to executives related to the nonvested share awards with either market or performance conditions granted on March 20, 2014 (see Note 7 for additional details, including vesting information). These common shares of beneficial interest were issued under the 2009 Plan.

On March 23, 2017, the Company issued 122,816 nonvested shares with service conditions to the Company's executives and employees. The nonvested shares will vest in three annual installments starting January 1, 2018, subject to continued employment. These common shares of beneficial interest were issued under the 2014 Plan.

Common Dividends

The Company paid the following dividends on common shares/units during the six months ended June 30, 2017:

Dividend per Share/Unit	For the Quarter Ended	Record Date	Date Paid
\$0.45	December 31, 2016	December 30, 2016	January 17, 2017
\$0.45	March 31, 2017	March 31, 2017	April 17, 2017

Treasury Shares

Treasury shares are accounted for under the cost method. During the six months ended June 30, 2017, the Company received 102,651 common shares of beneficial interest related to employees surrendering shares to pay minimum withholding taxes on the vesting date.

The Company's Board of Trustees has authorized an expanded share repurchase program (the "Repurchase Program") to acquire up to \$600,000 of the Company's common shares of beneficial interest, with repurchased shares recorded at cost in treasury. As of June 30, 2017, the Company has availability under the Repurchase Program to acquire up to \$569,807 of common shares of beneficial interest. The timing, manner, price and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, market conditions, and other corporate liquidity requirements and priorities. The Repurchase Program may be suspended, modified or terminated at any time for any reason without prior notice. The Repurchase Program does not obligate the Company to acquire any specific number of shares, and all open market repurchases will be made in accordance with applicable rules and regulations setting forth certain restrictions on the method, timing, price and volume of open market share repurchases.

During the six months ended June 30, 2017, the Company re-issued 16,010 treasury shares related to earned 2016 compensation for the Board of Trustees, 27,767 treasury shares related to the resignation of a former member of the Board of Trustees for his accumulated deferred shares granted as compensation for 2001 through 2016, 38,001 treasury shares related to the earned share awards with market or performance conditions and 21,965 treasury shares related to the grants of nonvested shares with service conditions.

At June 30, 2017, there were 26,276 common shares of beneficial interest in treasury.

Preferred Shares

The following preferred shares of beneficial interest were outstanding as of June 30, 2017:

Security Type	Number of Shares
6.375% Series I Preferred Shares	4,400,000
6.3% Series J Preferred Shares	6,000,000

On May 4, 2017, the Company redeemed all of the outstanding Series H Preferred Shares for \$68,750 (\$25.00 per share) plus \$272 of accrued and unpaid dividends through the redemption date. The redemption value of the Series H Preferred Shares exceeded their carrying value by \$2,401, which is included in the determination of net income attributable to common shareholders for the three and six months ended June 30, 2017. The \$2,401 represents the offering costs related to the redeemed Series H Preferred Shares.

The 6.375% Series I Cumulative Redeemable Preferred Shares (the "Series I Preferred Shares") and the 6.3% Series J Cumulative Redeemable Preferred Shares (the "Series J Preferred Shares") (collectively, the "Preferred Shares") rank senior to

the common shares of beneficial interest and on parity with each other with respect to payment of distributions. The Company will not pay any distributions, or set aside any funds for the payment of distributions, on its common shares of beneficial interest unless it has also paid (or set aside for payment) the full cumulative distributions on the Preferred Shares for all past dividend periods. The outstanding Preferred Shares do not have any maturity date, and are not subject to mandatory redemption. The difference between the carrying value and the redemption amount of the Preferred Shares are the offering costs. In addition, the Company is not required to set aside funds to redeem the Preferred Shares.

The Company may not optionally redeem the Series I Preferred Shares and the Series J Preferred Shares prior to March 4, 2018 and May 25, 2021, respectively, except in limited circumstances relating to the Company's continuing qualification as a REIT or as discussed below. After those dates, the Company may, at its option, redeem the Preferred Shares, in whole or from time to time in part, by payment of \$25.00 per share, plus any accumulated, accrued and unpaid distributions. In addition, upon the occurrence of a change of control (as defined in the Company's declaration of trust), the result of which the Company's common shares of beneficial interest and the common securities of the acquiring or surviving entity are not listed on the New York Stock Exchange, the NYSE MKT LLC or the NASDAQ Stock Market, or any successor exchanges, the Company may, at its option, redeem the Preferred Shares in whole or in part within 120 days after the change of control occurred, by paying \$25.00 per share, plus any accrued and unpaid distributions. If the Company does not exercise its right to redeem the Preferred Shares upon a change of control, the holders of Series I Preferred Shares and Series J Preferred Shares have the right to convert some or all of their shares into a number of the Company's common shares of beneficial interest based on a defined formula subject to a cap of 8,835,200 common shares and 12,842,400 common shares, respectively.

Preferred Dividends

The Company paid the following dividends on preferred shares during the six months ended June 30, 2017:

Security Type	Dividend per Share ⁽¹⁾	For the Quarter Ended	Record Date	Date Paid

6.3% Series J	\$ 0.39	March 31, 2017	March 31, 2017	April 17, 2017

⁽¹⁾ Amounts are rounded to the nearest whole cent for presentation purposes.

In addition, the final dividend payment of \$0.10 per Series H Preferred Share for the period April 15, 2017 through the redemption date of May 4, 2017 was included in the redemption price.

Noncontrolling Interests of Common Units in Operating Partnership

As of June 30, 2017, the Operating Partnership had 145,223 common units of limited partnership interest outstanding, representing a 0.1% partnership interest, held by the limited partners. As of June 30, 2017, approximately \$4,328 of cash or the equivalent value in common shares, at the Company's option, would be paid to the limited partners of the Operating Partnership if the partnership were terminated. The approximate value of \$4,328 is based on the Company's closing common share price of \$29.80 on June 30, 2017, which is assumed to be equal to the value provided to the limited partners upon liquidation of the Operating Partnership. Subject to certain limitations, the outstanding common units of limited partnership interest are redeemable for cash, or at the Company's option, for a like number of common shares of beneficial interest of the Company.

7. Equity Incentive Plan

The 2014 Plan permits the Company to issue equity-based awards to executives, employees, non-employee members of the Board of Trustees and any other persons providing services to or for the Company and its subsidiaries. The 2014 Plan provides for a maximum of 2,900,000 common shares of beneficial interest to be issued in the form of share options, share appreciation rights, restricted or unrestricted share awards, phantom shares, performance awards, incentive awards, other share-based awards, or any combination of the foregoing. In addition, the maximum number of common shares subject to awards of any combination that may be granted under the 2014 Plan during any fiscal year to any one individual is limited to 500,000 shares. The 2014 Plan terminates on February 17, 2024. The 2014 Plan authorized, among other things: (i) the grant of share options that qualify as incentive options under the Code, (ii) the grant of share options that do not so qualify, (iii) the grant of common shares in lieu of cash for trustees' fees, (iv) grants of common shares in lieu of cash compensation and (v) the making of loans to acquire common shares in lieu of compensation (to the extent permitted by law and applicable provisions of the Sarbanes Oxley Act of 2002). The exercise price of share options is determined by the Compensation Committee of the Board of Trustees, but may not be less than

Table of Contents

100% of the fair value of the common shares on the date of grant. Restricted share awards and options under the 2014 Plan vest over a period determined by the Compensation Committee of the Board of Trustees, generally a three year period. The duration of each option is also determined by the Compensation Committee, subject to applicable laws and regulations. At June 30, 2017, there were 2,514,675 common shares available for future grant under the 2014 Plan. The 2014 Plan replaced the 2009 Plan. The Company will no longer make any grants under the 2009 Plan (although awards previously made under the 2009 Plan that are outstanding will remain in effect in accordance with the terms of that plan and the applicable award agreements).

Nonvested Share Awards with Service Conditions

From time to time, the Company awards nonvested shares under the 2014 Plan to executives, employees and members of the Board of Trustees. The nonvested shares issued to executives and employees generally vest over three years based on continued employment. The shares issued to the members of the Board of Trustees vest immediately upon issuance. The Company determines the grant date fair value of the nonvested shares based upon the closing price of its common shares on the New York Stock Exchange on the date of grant and number of shares per the award agreements. Compensation costs are recognized on a straight-line basis over the requisite service period and are included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive income.

A summary of the Company's nonvested share awards with service conditions as of June 30, 2017 is as follows:

	Number of Shares	Weighted - Average Grant Date Fair Value
Nonvested at January 1, 2017	236,759	\$ 30.78
Granted	125,407	29.03
Vested	(146,587)	30.99
Forfeited	0	0.00
Nonvested at June 30, 2017	215,579	\$ 29.13

As of June 30, 2017 and December 31, 2016, there were \$4,618 and \$2,798, respectively, of total unrecognized compensation costs related to nonvested share awards with service conditions. As of June 30, 2017 and December 31, 2016, these costs were expected to be recognized over a weighted-average period of 1.5 years and 1.2 years, respectively. The total intrinsic value of shares vested (calculated as number of shares multiplied by vesting date share price) during the three and six months ended June 30, 2017 was \$1,736 and \$4,417, respectively, and during the three and six months ended June 30, 2016 was \$534 and \$2,256, respectively. Compensation costs (net of forfeitures) related to nonvested share awards with service conditions that have been included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive income were \$835 and \$1,683 for the three and six months ended June 30, 2017, respectively, and \$814 and \$1,589 for the three and six months ended June 30, 2016, respectively.

On April 9, 2016, the Company finalized the former Chief Financial Officer's severance package and the termination date was set to be no later than April 29, 2016. Pursuant to the terms of the award agreements, all of his nonvested share awards with service conditions would vest upon termination. Accordingly, the Company accelerated the recognition of previously unrecognized compensation costs related to his nonvested share awards with service conditions over the estimated remaining service period. On May 6, 2016, all of his nonvested share awards with service conditions vested with all remaining previously unrecognized compensation costs recognized. The compensation cost (net of forfeitures) that has been included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive income was \$538 for the three and six

months ended June 30, 2016.

Nonvested Share Awards with Market or Performance Conditions

On January 26, 2012, the Company's Board of Trustees granted a target of 79,823 nonvested share awards with market conditions to executives (the "January 26, 2012 Awards"). On January 1, 2015, the executives earned 136.3% of their 79,823 target number of shares, or 108,779 shares. Of the shares earned, 36,261 and 36,260 shares vested on January 1, 2015 and January 1, 2016, respectively. On May 6, 2016, upon his termination, all of the former Chief Financial Officer's 6,882 earned shares vested immediately. The remaining 29,376 earned shares vested on January 4, 2017. The executives received a cash payment of \$334 on the earned shares equal to the value of all dividends paid on common shares from January 1, 2012 until the determination date, January 1, 2015. As of January 1, 2015, the executives are entitled to receive dividends as declared and paid on the earned shares and to vote the shares.

Table of Contents

On March 20, 2014, the Company's Board of Trustees granted a target of 57,385 nonvested share awards, exclusive of the 14,582 shares granted to the former Chief Financial Officer, with either market or performance conditions to executives (the "March 20, 2014 Awards"). On February 24, 2017, the executives earned 134.5% of their 28,692 target number of shares, or 38,599 shares, and all of the earned shares vested immediately. The executives also received a cash payment of \$190 on the shares equal to the value of all dividends paid on common shares from January 1, 2014 until the determination date, February 24, 2017. As of February 25, 2017, the executives are entitled to receive dividends as declared and paid on the earned shares and to vote the shares. The actual amounts of the shares awarded with respect to the remaining 28,693 of the 57,385 shares will be determined on or about July 1, 2017, based on the performance measurement period of July 1, 2014 through June 30, 2017, in accordance with the terms of the award agreements. The actual amounts of the shares awarded will range from 0% to 200% of the target amounts, depending on the performance analysis stipulated in the award agreements, and none of the shares are outstanding until issued in accordance with award agreements based on performance. After the actual amounts of the awards are determined (or earned) at the end of the performance measurement period, all of the earned shares will be issued and outstanding on the date. The executives will receive cash payments on the earned shares equal to the value of all dividends paid on common shares from the grant date through the determination date. Such amounts will be paid to the awardees on or about July 1, 2017. Thereafter, the executives will be entitled to receive dividends as declared and paid on the earned shares and to vote the shares. With respect to 28,692 shares, amortization commenced on March 20, 2014, the beginning of the requisite service period, and, with respect to 28,693 shares, amortization commenced on July 1, 2014, the beginning of the requisite service period.

On March 23, 2017, the Company's Board of Trustees granted a target of 124,526 nonvested share awards with either market or performance conditions to executives (the "March 23, 2017 Awards"). The actual amounts of the shares awarded with respect to 62,264 of the 124,526 shares will be determined on or about January 1, 2020, based on the performance measurement period of January 1, 2017 through December 31, 2019, in accordance with the terms of the agreements. The actual amounts of the shares awarded with respect to the remaining 62,262 of the 124,526 shares will be determined on or about July 1, 2020, based on the performance measurement period of July 1, 2017 through June 30, 2020, in accordance with the terms of the agreements. The actual amounts of the shares awarded will range from 0% to 200% of the target amounts, depending on the performance analysis stipulated in the agreements, and none of the shares are outstanding until issued in accordance with award agreements based on performance. After the actual amounts of the awards are determined (or earned) at the end of the respective performance measurement period, all of the earned shares will be issued and outstanding on those dates. The executives will receive cash payments on the earned shares equal to the value of all dividends paid on common shares from the grant date through the respective determination date. Such amounts will be paid to the awardees on or about January 1, 2020 and July 1, 2020, respectively. Thereafter, the executives will be entitled to receive dividends as declared and paid on the earned shares and to vote the shares. With respect to 62,264 shares, amortization commenced on March 23, 2017, the beginning of the requisite service period, and, with respect to 62,262 shares, amortization will commence on July 1, 2017, the beginning of the requisite service period.

The terms stipulated in the March 23, 2017 Awards used to determine the total amount of the shares consist of the following three tranches: (1) a comparison of the Company's total return to the total returns' of up to seven companies in a designated peer group of the Company, (2) the Company's actual total return as compared to a Board-established total return goal and (3) a comparison of the Company's return on invested capital to the return on invested capital of up to seven companies in a designated peer group of the Company.

The tranches described in (1) and (2) are nonvested share awards with market conditions. For the March 23, 2017 Awards, the grant date fair value of the awards with market conditions were estimated by the Company using

historical data under the Monte Carlo valuation method provided by a third party consultant. The final values were determined during the second quarter of 2017 with an insignificant cumulative adjustment to compensation cost recorded. The third tranche is based on “return on invested capital” discussed below, which is a performance condition. The grant date fair values of the tranches with performance conditions were calculated based on the targeted awards, and the valuation is adjusted on a periodic basis.

The capital market assumptions used in the valuations consisted of the following:

- Factors associated with the underlying performance of the Company’s share price and shareholder returns over the term of the awards including total share return volatility and risk-free interest.

- Factors associated with the relative performance of the Company’s share price and shareholder returns when compared to those companies which compose the index including beta as a means to breakdown total volatility into market-related and company specific volatilities.

- The valuation has been performed in a risk-neutral framework.

Return on invested capital is a performance condition award measurement. The estimated value was calculated based on the initial face value at the date of grant. The valuation will be adjusted on a periodic basis as the estimated number of awards expected to vest is revised.

⁽¹⁾ Amount includes an additional 9,907 shares issued on February 24, 2017 from the March 20, 2014 grant, which were earned in excess of the target amount.

As of June 30, 2017 and December 31, 2016, there were \$6,015 and \$3,757, respectively, of total unrecognized compensation costs related to nonvested share awards with market or performance conditions. As of June 30, 2017 and December 31, 2016, these costs were expected to be recognized over a weighted-average period of 2.3 years and 1.8 years, respectively. As of June 30, 2017 and December 31, 2016, there were 531,507 and 463,532 share awards with market or performance conditions vested, respectively. Additionally, there were zero and 29,376 nonvested share awards with market or performance conditions earned but nonvested due to a service condition as of June 30, 2017 and December 31, 2016, respectively. Compensation costs (net of forfeitures) related to nonvested share awards with market or performance conditions that have been included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive income were \$980 and \$1,840 for the three and six months ended June 30, 2017, respectively, and \$998 and \$2,036 for the three and six months ended June 30, 2016, respectively.

On April 9, 2016, the Company finalized the former Chief Financial Officer's severance package and the termination date was set to be no later than April 29, 2016. Pursuant to the terms of the award agreements, a portion of his nonvested share awards with market or performance conditions would vest upon termination. Accordingly, the Company accelerated the recognition of previously unrecognized compensation costs on his nonvested share awards with market or performance conditions over the estimated remaining service period. On May 6, 2016 and May 9, 2016, a portion of his nonvested share awards with market or performance conditions vested, a portion was forfeited

and additional shares were earned for awards valued at over 100% of the target, with all remaining previously unrecognized compensation costs recognized. The compensation cost (net of forfeitures) related to his nonvested share awards with market or performance conditions that has been included in general and administrative expense in the accompanying consolidated statements of operations and comprehensive income was \$96 for the three and six months ended June 30, 2016.

For the three and six months ended June 30, 2016, severance expense related to the former Chief Financial Officer's termination totaled \$1,576 and included cash compensation and benefits, compensation for shares with service conditions and shares with market or performance conditions and cash payments related to dividends on restricted shares that vested.

9. Income Taxes

Income tax expense was comprised of the following for the three and six months ended June 30, 2017 and 2016:

	For the three months ended June 30, 2017		For the six months ended June 30, 2016	
LHL's income tax expense (benefit)	\$4,939	\$7,246	\$(132)	\$1,373
Operating Partnership's income tax expense	64	364	362	617
Total income tax expense	\$5,003	\$7,610	\$230	\$1,990

The Company has estimated LHL's income tax benefit for the six months ended June 30, 2017 by applying an estimated combined federal and state effective tax rate of 39.2% to LHL's net loss of \$580. From time to time, the Company may be subject to federal, state or local tax audits in the normal course of business.

10. Fair Value Measurements

In evaluating fair value, GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

Level 1—Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2—Observable inputs, other than quoted prices included in level 1, such as interest rates, yield curves, quoted prices in active markets for similar assets and liabilities, and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3—Unobservable inputs that are supported by limited market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques when observable inputs are not available.

The Company estimates the fair value of its financial instruments using available market information and valuation methodologies the Company believes to be appropriate for these purposes. Considerable judgment and subjectivity are involved in developing these estimates and, accordingly, such estimates are not necessarily indicative of amounts that would be realized upon disposition.

Recurring Measurements

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of their fair value is as follows:

Description	Consolidated Balance Sheet Location	Fair Value Measurements at	
		June 30, 2017	December 31, 2016
		Using Significant Other Observable Inputs (Level 2)	
Derivative interest rate instruments	Prepaid expenses and other assets	\$3,526	\$ 3,295
Derivative interest rate instruments	Accounts payable and accrued expenses	\$226	\$ 927

The fair value of each derivative instrument is based on a discounted cash flow analysis of the expected cash flows under each arrangement. This analysis reflects the contractual terms of the derivative instrument, including the period to maturity, and utilizes observable market-based inputs, including interest rate curves and implied volatilities, which are classified within level 2 of the fair value hierarchy. The Company also incorporates credit value adjustments to appropriately reflect each parties' nonperformance risk in the fair value measurement, which utilizes level 3 inputs such as estimates of current credit spreads. However, the Company has assessed that the credit valuation adjustments are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified within level 2 of the fair value hierarchy.

Financial Instruments Not Measured at Fair Value

The following table represents the fair value, derived using level 2 inputs, of financial instruments presented at carrying value in the Company's consolidated financial statements as of June 30, 2017 and December 31, 2016:

	June 30, 2017		December 31, 2016	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Borrowings under credit facilities	\$0	\$0	\$0	\$0
Term loans	\$855,000	\$856,238	\$855,000	\$857,224
Bonds payable	\$42,500	\$42,500	\$42,500	\$42,500
Mortgage loan	\$225,000	\$224,556	\$225,000	\$225,224

The Company estimated the fair value of its borrowings under credit facilities, term loans, bonds payable and mortgage loan using interest rates ranging from 1.5% to 2.0% as of June 30, 2017 and from 1.5% and 1.8% as of December 31, 2016 with a weighted average effective interest rate of 1.5% as of June 30, 2017 and December 31, 2016. The assumptions reflect the terms currently available on similar borrowings to borrowers with credit profiles similar to the Company's.

At June 30, 2017 and December 31, 2016, the carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses and distributions payable were representative of their fair values due to the short-term nature of these instruments and the recent acquisition of these items.

11. Earnings Per Common Share

The limited partners' outstanding common units in the Operating Partnership (which may be converted to common shares of beneficial interest) have been excluded from the diluted earnings per share calculation as there would be no effect on the amounts since the limited partners' share of income or loss would also be added back to net income or loss. Any anti-dilutive shares have been excluded from the diluted earnings per share calculation. Unvested share-based payment awards expected to vest that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. Accordingly, distributed and undistributed earnings attributable to unvested restricted shares (participating securities) have been excluded, as applicable, from net income or loss attributable to common shareholders used in the basic and diluted earnings per share calculations. Net income or loss figures are presented net of noncontrolling interests in the earnings per share calculations.

The computation of basic and diluted earnings per common share is as follows:

⁽¹⁾ Amounts are rounded to the nearest whole cent for presentation purposes.

On July 1, 2017, the Company issued 40,000 nonvested shares with service conditions to an executive who earned 80.0% of the 50,000 target number of shares from the nonvested share awards with market conditions granted on May 31, 2008. All of the shares earned, or 40,000 shares, vested immediately on July 1, 2017. The executive received a cash payment of \$367 on the earned shares equal to the value of all dividends paid on common shares from May 31, 2008 until the determination date, July 1, 2017. As of July 1, 2017, the executive is entitled to receive dividends as declared and paid on the earned shares and to vote the shares. These common shares of beneficial interest were issued under the 2009 Plan.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following should be read in conjunction with the consolidated financial statements and notes thereto appearing in Part I - Item 1 of this report.

Forward-Looking Statements

This report, together with other statements and information publicly disseminated by LaSalle Hotel Properties (the “Company”), contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe the Company’s future plans, strategies and expectations, are generally identifiable by use of the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “project,” “may,” “plan,” “seek,” “should,” “will” or similar expressions. Forward-looking s in this report include, among others, statements about the Company’s business strategy, including its acquisition and development strategies, industry trends, estimated revenues and

Table of Contents

expenses, ability to realize deferred tax assets and expected liquidity needs and sources (including capital expenditures and the ability to obtain financing or raise capital). You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond the Company's control and which could materially affect actual results, performances or achievements. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- risks associated with the hotel industry, including competition for guests and meetings from other hotels and alternative lodging companies, increases in wages, energy costs and other operating costs, potential unionization or union disruption, actual or threatened terrorist attacks, any type of flu or disease-related pandemic and downturns in general and local economic conditions;
- the availability and terms of financing and capital and the general volatility of securities markets;
- the Company's dependence on third-party managers of its hotels, including its inability to implement strategic business decisions directly;
- risks associated with the real estate industry, including environmental contamination and costs of complying with the Americans with Disabilities Act of 1990, as amended, and similar laws;
- interest rate increases;
- the possible failure of the Company to maintain its qualification as a real estate investment trust ("REIT") as defined in the Internal Revenue Code of 1986, as amended (the "Code") and the risk of changes in laws affecting REITs;
- the possibility of uninsured losses;
- risks associated with redevelopment and repositioning projects, including delays and cost overruns;
- the risk of a material failure, inadequacy, interruption or security failure of the Company's or the hotel managers' information technology networks and systems; and
- the risk factors discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, as updated elsewhere in this report.

Accordingly, there is no assurance that the Company's expectations will be realized. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for the Company to predict those events or how they may affect the Company. Except as otherwise required by law, the Company disclaims any obligations or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Accordingly, investors should use caution in relying on past forward-looking statements, which were based on results and trends at the time they were made, to anticipate future events or trends.

Overview

The Company, a Maryland real estate investment trust organized on January 15, 1998, primarily buys, owns, redevelops and leases upscale and luxury full-service hotels located in convention, resort and major urban business markets. The Company is a self-administered and self-managed REIT as defined in the Code. As a REIT, the Company is generally not subject to federal corporate income tax on that portion of its net income that is currently distributed to its shareholders. The income of LaSalle Hotel Lessee, Inc. (together with its wholly owned subsidiaries, "LHL"), the Company's wholly owned taxable REIT subsidiary, is subject to taxation at normal corporate rates. As of June 30, 2017, the Company owned interests in 41 hotels with approximately 10,450 guest rooms located in seven states and the District of Columbia. Each hotel is leased to LHL under a participating lease that provides for rental payments equal to the greater of (i) a base rent or (ii) a participating rent based on hotel revenues. The LHL leases expire between December 2017 and December 2019. A third-party non-affiliated hotel operator manages each

hotel pursuant to a hotel management agreement.

Substantially all of the Company's assets are held directly or indirectly by, and all of its operations are conducted through, LaSalle Hotel Operating Partnership, L.P. (the "Operating Partnership"). The Company is the sole general partner of the Operating Partnership. The Company owned, through a combination of direct and indirect interests, 99.9% of the common units of the Operating Partnership at June 30, 2017. The remaining 0.1% is held by limited partners who held 145,223 common units of the Operating Partnership at June 30, 2017.

In addition to measuring the Company's net income (loss), the Company also measures hotel performance by evaluating financial metrics such as room revenue per available room ("RevPAR"), funds from operations attributable to common shareholders

Table of Contents

and unitholders (“FFO”) and earnings before interest, taxes, depreciation and amortization (“EBITDA”). The Company evaluates the hotels in its portfolio and potential acquisitions using these metrics to determine each hotel’s contribution or potential contribution toward reaching the Company’s goals of providing income to its shareholders through increases in distributable cash flow and increasing long-term total returns to shareholders through appreciation in the value of its common shares. The Company invests in capital improvements throughout the portfolio to continue to increase the competitiveness of its hotels and improve their financial performance. The Company actively seeks to acquire hotel properties, but continues to face significant competition for acquisitions that meet its investment criteria. During the second quarter of 2017, the Company’s hotels continued to operate within a generally positive environment. All of the economic indicators the Company tracks were encouraging throughout the quarter. On the more positive side, consumer confidence remains at an elevated level and corporate profits reported thus far for the second quarter have been strong. Unemployment continued to drop below 5.0% and enplanements have been steady, with airline capacity increases expected during 2017. Similarly, estimates for U.S. GDP growth in 2017 have remained stable. The U.S. lodging industry benefited from a positive economic landscape overall, although there were signs of moderation in several markets. The industry RevPAR grew at a rate of 2.7% during the second quarter, with lodging industry demand up by 2.3% and a partially offsetting supply increase of 1.8%. Industry-wide pricing was moderate, leading to average daily rate (“ADR”) growth of 2.2%. The Company’s portfolio benefited from the operating environment, but RevPAR decreased during the quarter by 1.6% due to short-term market-wide headwinds in San Francisco. Excluding San Francisco, the Company’s portfolio RevPAR increased by 0.8%.

For the second quarter of 2017, the Company had net income attributable to common shareholders of \$55.5 million, or \$0.49 per diluted share. FFO was \$88.5 million, or \$0.78 per diluted share/unit (based on 113,487,374 weighted average shares and units outstanding during the three months ended June 30, 2017) and EBITDA was \$118.5 million. RevPAR for the hotel portfolio was \$227.31, which was a decrease of 1.6% compared to the second quarter of 2016. Occupancy declined by 1.1% and ADR was down by 0.5%.

Please refer to “Non-GAAP Financial Measures” for a detailed discussion of the Company’s use of FFO and EBITDA and a reconciliation of FFO and EBITDA to net income or loss attributable to common shareholders, a measurement computed in accordance with U.S. generally accepted accounting principles (“GAAP”).

Critical Accounting Estimates

Substantially all of the Company’s revenues and expenses are generated by the operations of the individual hotels. The Company records revenues and expenses that are estimated by the hotel operators and reviewed by the Company to produce quarterly financial statements because the management contracts do not require the hotel operators to submit actual results within a time frame that permits the Company to use actual results when preparing its Quarterly Reports on Form 10-Q for filing by the deadline prescribed by the SEC. Generally, the Company records actual revenue and expense amounts for the first two months of each quarter and estimated revenue and expense amounts for the last month of each quarter. Each quarter, the Company reviews the estimated revenue and expense amounts provided by the hotel operators for reasonableness based upon historical results for prior periods and internal Company forecasts. The Company records any differences between recorded estimated amounts and actual amounts in the following quarter; historically, these differences have not been material. The Company believes the quarterly revenues and expenses, recorded on the Company’s consolidated statements of operations and comprehensive income (loss) based on an aggregate estimate, are fairly stated.

The Company’s management has discussed the policy of using estimated hotel operating revenues and expenses with the Audit Committee of its Board of Trustees. The Audit Committee has reviewed the Company’s disclosure relating to the estimates in this “Management’s Discussion and Analysis of Financial Conditions and Results of Operations” section.

See “Critical Accounting Policies” in the “Management’s Discussion and Analysis of Financial Conditions and Results of Operations” section of the Company’s Annual Report on Form 10-K for the year ended December 31, 2016 for other critical accounting policies and estimates of the Company.

Comparison of the Three Months Ended June 30, 2017 to the Three Months Ended June 30, 2016

The economic environment was positive during the second quarter. Industry demand increased during the second quarter of 2017 and kept pace with supply growth. As a result, industry-wide pricing was moderate. With respect to the Company’s hotels, occupancy decreased by 1.1% during the three months ended June 30, 2017 and ADR was down 0.5%, which resulted in a RevPAR decline of 1.6% year-over-year.

Table of Contents

Hotel Operating Revenues

Hotel operating revenues, including room, food and beverage and other operating department revenues, decreased \$45.0 million from \$348.8 million in 2016 to \$303.8 million in 2017. This decrease is primarily due to the sale of the 2016 and 2017 hotel dispositions, which consist of the sales of Indianapolis Marriott Downtown, Hotel Deca, Lansdowne Resort, Alexis Hotel, Hotel Triton and Westin Philadelphia (collectively, the “2016 and 2017 Disposition Properties”). The 2016 and 2017 Disposition Properties, which are not comparable year-over-year, contributed \$35.8 million to the decrease in hotel operating revenues, mostly attributable to the Indianapolis Marriott Downtown and Lansdowne Resort. Additionally, the six San Francisco hotel properties experienced a combined \$8.8 million decrease primarily due to the Moscone Convention Center’s expansion project, which resulted in lower ADR, RevPAR and occupancy throughout the market. A decrease of \$1.4 million from Westin Michigan Avenue further contributed to the overall decrease, which was primarily due to a decline in group business.

These decreases are partially offset by a \$1.5 million increase at Mason & Rook Hotel reflecting the completion of the hotel renovation, and a \$1.0 million increase at The Hilton San Diego Resort and Spa as a result of increased group business and city wide events.

Hotel operating revenues across the remainder of the portfolio remained relatively constant, decreasing a net \$1.5 million across the 32 additional hotels in the portfolio.

Other Income

Other income increased \$0.9 million from \$2.3 million in 2016 to \$3.2 million in 2017 primarily due to increased insurance gains from insurance proceeds related to minor property damage at various properties.

Hotel Operating Expenses

Hotel operating expenses decreased a net \$23.0 million from \$194.2 million in 2016 to \$171.2 million in 2017. This overall decrease is primarily due to the results of the 2016 and 2017 Disposition Properties, which are not comparable year-over-year. These properties contributed \$20.7 million to the decrease in hotel operating expenses, mostly attributable to the Indianapolis Marriott Downtown and Lansdowne Resort. In addition, the six San Francisco hotel properties had a combined \$3.4 million decrease in expenses which corresponds to the decrease in revenues.

Hotel operating expenses across the remainder of the portfolio remained relatively constant, increasing a net \$1.1 million across the 35 additional hotels in the portfolio.

Depreciation and Amortization

Depreciation and amortization expense decreased \$4.7 million from \$48.8 million in 2016 to \$44.1 million in 2017. Depreciation and amortization expense attributable to the 2016 and 2017 Disposition Properties, which are not comparable year-over-year, decreased \$4.6 million. Depreciation and amortization expense across the remainder of the portfolio remained constant, decreasing a net \$0.1 million throughout the portfolio.

Real Estate Taxes, Personal Property Taxes and Insurance

Real estate taxes, personal property taxes and insurance expenses decreased \$2.8 million from \$16.9 million in 2016 to \$14.1 million in 2017. This is primarily due to a \$1.3 million decrease from the 2016 and 2017 Disposition Properties, which are not comparable year-over-year, and a \$1.1 million decrease in real estate taxes from a property in San Francisco as a result of an assessment finalization. Real estate taxes and personal property taxes decreased by \$0.4 million across the remaining hotels in the portfolio due primarily to successful real estate tax appeals, real estate tax refunds and real estate taxes capitalized as part of various renovation projects in 2017, which offset any increased real estate tax assessments. Insurance expense remain relatively constant throughout the portfolio.

Ground Rent

Ground rent decreased \$0.3 million from \$4.1 million in 2016 to \$3.8 million in 2017 primarily due to a \$0.2 million credit received at a San Diego property as a result of an operational audit. Ground rent at the other subject properties

remained relatively constant, decreasing \$0.1 million. Certain hotels are subject to ground rent under operating leases which call for either fixed or variable payments based on the hotel's performance.

Table of Contents

General and Administrative

General and administrative expense decreased \$0.7 million from \$7.6 million in 2016 to \$6.9 million in 2017 primarily due to a \$1.6 million charge associated with the departure of the Company's former Chief Financial Officer in 2016, partially offset by a combined \$0.9 million increase in compensation costs and professional fees in 2017.

Other Expenses

Other expenses decreased \$0.7 million from \$2.3 million in 2016 to \$1.6 million in 2017 primarily due to a net decrease of \$0.9 million in management transition expenses, severance and pre-opening costs at a number of properties across the portfolio. The decrease is slightly offset by a \$0.2 million increase in miscellaneous other expenses.

Interest Income

Interest income decreased \$1.4 million from \$1.7 million in 2016 to \$0.3 million in 2017 mostly as a result of the sale of the Company's junior mezzanine loan (the "Mezzanine Loan"), which was secured by pledges of equity interests in the entities that own Shutters on the Beach and Casa Del Mar, in July 2016, which was partially offset by interest earned on invested funds.

Interest Expense

Interest expense decreased \$2.1 million from \$11.5 million in 2016 to \$9.4 million in 2017 due to a decrease in the Company's weighted average debt outstanding, partially offset by an increase in the weighted average interest rate. The Company's weighted average debt outstanding decreased from \$1.47 billion in 2016 to \$1.15 billion in 2017 due to paydowns on the unsecured credit facilities with net proceeds from the following:

- the issuance of the 6.3% Series J Cumulative Redeemable Preferred Shares (the "Series J Preferred Shares") in May 2016;
- the sale of Indianapolis Marriott Downtown in July 2016;
- the sale of the Mezzanine Loan in July 2016;
- the sale of Hotel Deca in January 2017;
- the sale of Lansdowne Resort in March 2017;
- the sale of Alexis Hotel in March 2017;
- the sale of Hotel Triton in April 2017; and
- positive operating results from the hotel properties; offset by
- the redemption of the 7.5% Series H Cumulative Redeemable Preferred Shares (the "Series H Preferred Shares") in May 2017.

The Company's weighted average interest rate, including the effect of capitalized interest, increased from 2.80% in 2016 to 2.94% in 2017. This increase is due in part to a decrease in the Company's borrowings on its senior unsecured credit facility, which had a weighted average interest rate of 2.15% for the quarter ending June 30, 2016. Interest capitalized on renovations increased \$0.1 million from an immaterial amount in 2016 to \$0.1 million in 2017.

Income Tax Expense

Income tax expense decreased \$2.6 million from \$7.6 million in 2016 to \$5.0 million in 2017. This decrease is primarily the result of a decrease in LHL's net income before income tax expense of \$5.3 million from \$17.7 million in 2016 to \$12.4 million in 2017. For the quarter ended June 30, 2017, LHL's income tax expense was calculated using an estimated combined federal and state effective tax rate of 39.2%.

Gain on Sale of Properties

The gain on sale of properties was \$11.2 million in 2017, which includes a net increase of approximately \$0.1 million for the actualization of the gain on sale of Hotel Deca, Lansdowne Resort and Alexis Hotel, which were sold in the

first quarter of 2017. The gain on sale of properties also includes a \$6.7 million gain relating to the sale of Hotel Triton on April 11, 2017 and a \$4.4 million gain relating to the sale of Westin Philadelphia on June 29, 2017.

Noncontrolling Interests in Consolidated Entities

Noncontrolling interests in consolidated entities represent the allocation of income or loss to the outside preferred ownership interests in a subsidiary and the outside ownership interest in a joint venture.

Noncontrolling Interests of Common Units in Operating Partnership

Noncontrolling interests of common units in Operating Partnership represents the allocation of income or loss of the Operating Partnership to the common units held by third parties based on their weighted average percentage ownership throughout the period. At June 30, 2017, third party limited partners held 0.1% of the common units in the Operating Partnership.

Distributions to Preferred Shareholders

Distributions to preferred shareholders were \$4.4 million in 2017 and 2016.

Issuance Costs of Redeemed Preferred Shares

Issuance costs of redeemed preferred shares of \$2.4 million in 2017 represent the offering costs related to the remaining Series H Preferred Shares, which were redeemed on May 4, 2017. The excess of fair value over carrying value (i.e. offering costs) is included in the determination of net income attributable to common shareholders.

Comparison of the Six Months Ended June 30, 2017 to the Six Months Ended June 30, 2016

Industry travel was stronger during the six months ended June 30, 2017, compared to the same prior year period. Industry demand grew at a faster rate than industry supply grew, which kept industry occupancy at a high level, and led to moderate pricing power and ADR growth during the period. With respect to the Company's hotels, occupancy decreased by 0.5% during the six months ended June 30, 2017 and ADR increased 0.3%, which resulted in a slight RevPAR decline of 0.2% year-over-year.

Hotel Operating Revenues

Hotel operating revenues, including room, food and beverage and other operating department revenues, decreased \$52.4 million from \$607.2 million in 2016 to \$554.8 million in 2017. This decrease is primarily due to the sale of the 2016 and 2017 Disposition Properties, which are not comparable year-over-year. These properties contributed \$47.0 million to the decrease in hotel operating revenues, mostly attributable to the Indianapolis Marriott Downtown and Lansdowne Resort. Additionally, the six San Francisco hotel properties experienced a combined \$14.2 million decrease primarily due to the Moscone Convention Center's expansion project, which resulted in lower ADR, RevPAR and occupancy throughout the market. A decrease of \$1.3 million from Park Central Hotel New York and WestHouse Hotel New York further contributed to the overall decrease, which was primarily due to new supply year-over-year in the market. Westin Michigan Avenue also experienced a \$1.5 million decrease as a result of a decline in group business.

These decreases are partially offset by a \$9.1 million increase at the Company's nine properties located in Washington, DC as a result of the 2017 Presidential Inauguration and the completion of the Mason & Rook Hotel renovation.

The Liberty Hotel, San Diego Paradise Point Resort and Spa and The Hilton San Diego Resort and Spa experienced significant increases in total room, food and beverage and other operating department revenues. The Liberty Hotel had an increase of \$1.7 million as a result of the completion of the hotel renovation. Increased group business and city wide events resulted in \$1.4 million and \$1.1 million increases at the San Diego Paradise Point Resort and Spa and The Hilton San Diego Resort and Spa, respectively.

Hotel operating revenues across the remainder of the portfolio remained relatively constant, decreasing a net \$1.7 million across the 20 additional hotels in the portfolio.

Other Income

Other income increased \$2.6 million from \$4.0 million in 2016 to \$6.6 million in 2017 primarily due to increased insurance gains from insurance proceeds related to minor property damage at various properties and higher retail lease income.

Hotel Operating Expenses

Edgar Filing: LaSalle Hotel Properties - Form 10-Q

Hotel operating expenses decreased a net \$28.5 million from \$365.0 million in 2016 to \$336.5 million in 2017. This overall decrease is primarily due to \$27.4 million from the 2016 and 2017 Disposition Properties, which are not comparable year-over-year, again, mostly attributable to the Indianapolis Marriott Downtown and Lansdowne Resort. In addition, the six San Francisco hotel properties had a combined \$7.2 million decrease in expenses which corresponds to the decrease in revenues.

These decreases are partially offset by a combined \$3.7 million increase at the Company's nine properties located in Washington, DC as a result of the 2017 Presidential Inauguration and the completion of the Mason & Rook Hotel renovation.

Table of Contents

Hotel operating expenses across the remainder of the portfolio remained relatively constant, increasing a net \$2.4 million across the 26 additional hotels in the portfolio.

Depreciation and Amortization

Depreciation and amortization expense decreased \$5.2 million from \$96.5 million in 2016 to \$91.3 million in 2017. Depreciation and amortization expense attributable to the 2016 and 2017 Disposition Properties, which are not comparable year-over-year, decreased \$6.4 million. This decrease was partially offset by a net \$1.2 million increase across the remaining hotels in the portfolio due to the depreciation of new assets placed into service reflecting the Company's recent renovation activity.

Real Estate Taxes, Personal Property Taxes and Insurance

Real estate taxes, personal property taxes and insurance expenses decreased \$2.9 million from \$33.1 million in 2016 to \$30.2 million in 2017. This decrease is primarily due to a \$1.7 million decrease attributable to the 2016 and 2017 Disposition Properties, which are not comparable year-over-year, and a \$1.2 million decrease in real estate taxes from a property in San Francisco as a result of an assessment finalization. Real estate taxes and personal property taxes remained relatively constant, increasing by \$0.1 million across the remaining hotels in the portfolio. Insurance expense also remained relatively constant, decreasing by \$0.1 million reflecting slightly lower premiums throughout the portfolio.

Ground Rent

Ground rent decreased \$0.7 million from \$7.9 million in 2016 to \$7.2 million in 2017 primarily due to a \$0.6 million credit received at a San Diego property as a result of an operational audit. Ground rent at the other subject properties remained relatively constant, decreasing \$0.1 million. Certain hotels are subject to ground rent under operating leases which call for either fixed or variable payments based on the hotel's performance.

General and Administrative

General and administrative expense remained flat at \$13.5 million in 2016 and 2017. A \$1.6 million charge associated with the departure of the Company's former Chief Financial Officer in 2016 is offset by a combined \$1.6 million increase in compensation costs and professional fees in 2017.

Other Expenses

Other expenses decreased \$1.0 million from \$4.5 million in 2016 to \$3.5 million in 2017 primarily due to a net decrease of \$2.4 million in management transition expenses, severance and pre-opening costs at a number of properties across the portfolio. The decrease is partially offset by losses from property damage, which are largely covered by insurance proceeds, retail lease expenses and miscellaneous other expenses which increased a net \$1.4 million in 2017.

Interest Income

Interest income decreased \$2.8 million from \$3.3 million in 2016 to \$0.5 million in 2017 as a result of the sale of the Company's Mezzanine Loan, which was secured by pledges of equity interests in the entities that own Shutters on the Beach and Casa Del Mar, in July 2016, which was partially offset by interest earned on invested funds.

Interest Expense

Interest expense decreased \$4.0 million from \$23.3 million in 2016 to \$19.3 million in 2017 due to a decrease in the Company's weighted average debt outstanding, partially offset by an increase in the weighted average interest rate. The Company's weighted average debt outstanding decreased from \$1.49 billion in 2016 to \$1.16 billion in 2017 due to paydowns on the unsecured credit facilities with net proceeds from the following:

- the issuance of the Series J Preferred Shares in May 2016;
- the sale of Indianapolis Marriott Downtown in July 2016;
- the sale of the Mezzanine Loan in July 2016;

the sale of Hotel Deca in January 2017;
the sale of Lansdowne Resort in March 2017;
• the sale of Alexis Hotel in March
2017;
the sale of Hotel Triton in April 2017; and
positive operating results from the hotel properties; offset by
the redemption of the Series H Preferred Shares in May 2017.

Table of Contents

The Company's weighted average interest rate, including the effect of capitalized interest, increased from 2.80% in 2016 to 2.98% in 2017. This increase is due in part to a decrease in the Company's borrowings on its senior unsecured credit facility, which had a weighted average interest rate of 2.14% for the six months ending June 30, 2016. Interest capitalized on renovations was \$0.2 million in both periods.

Loss from Extinguishment of Debt

Loss from extinguishment of debt of \$1.7 million in 2017 relates to the January 10, 2017 refinancing of the Company's senior unsecured credit facility and First Term Loan (as defined below), which were considered substantial modifications. The loss from extinguishment of debt represents a portion of the unamortized debt issuance costs incurred for the senior unsecured credit facility when the original agreement was executed and the debt issuance costs incurred in connection with the refinancing of the First Term Loan.

Income Tax Expense

Income tax expense decreased \$1.8 million from \$2.0 million in 2016 to \$0.2 million in 2017. This decrease is primarily the result of an increase in LHL's net loss before income tax benefit of \$3.9 million from net income before income tax expense of \$3.3 million in 2016 to a net loss before income tax benefit of \$0.6 million in 2017. For the six months ended June 30, 2017, LHL's income tax benefit was calculated using an estimated combined federal and state effective tax rate of 39.2%.

Gain on Sale of Properties

The gain on sale of properties was \$85.5 million in 2017, which consists of a \$30.7 million gain relating to the sale of Hotel Deca on January 19, 2017, a \$10.3 million gain relating to the sale of Lansdowne Resort on March 22, 2017, a \$33.4 million gain relating to the sale of Alexis Hotel on March 31, 2017, a \$6.7 million gain relating to the sale of Hotel Triton on April 11, 2017 and a \$4.4 million gain relating to the sale of Westin Philadelphia on June 29, 2017.

Noncontrolling Interests in Consolidated Entities

Noncontrolling interests in consolidated entities represent the allocation of income or loss to the outside preferred ownership interests in a subsidiary and the outside ownership interest in a joint venture.

Noncontrolling Interests of Common Units in Operating Partnership

Noncontrolling interests of common units in Operating Partnership represents the allocation of income or loss of the Operating Partnership to the common units held by third parties based on their weighted average percentage ownership throughout the period. At June 30, 2017, third party limited partners held 0.1% of the common units in the Operating Partnership.

Distributions to Preferred Shareholders

Distributions to preferred shareholders increased \$2.4 million from \$7.4 million in 2016 to \$9.8 million in 2017 due to increased distributions on the Series J Preferred Shares, which were issued on May 25, 2016, partially offset by decreased distributions on the Series H Preferred Shares, which were redeemed on May 4, 2017.

Issuance Costs of Redeemed Preferred Shares

Issuance costs of redeemed preferred shares of \$2.4 million in 2017 represent the offering costs related to the remaining Series H Preferred Shares, which were redeemed on May 4, 2017. The excess of fair value over carrying value (i.e. offering costs) is included in the determination of net income attributable to common shareholders.

Non-GAAP Financial Measures

FFO and EBITDA

The Company considers the non-GAAP measures of FFO and EBITDA to be key supplemental measures of the Company's performance and should be considered along with, but not as alternatives to, net income or loss as a measure of the Company's operating performance. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically

risen or fallen with market conditions, most real estate industry investors consider FFO and EBITDA to be helpful in evaluating a real estate company's operations.

The White Paper on FFO approved by the National Association of Real Estate Investment Trusts ("NAREIT") in April 2002, as revised in 2011, defines FFO as net income or loss (computed in accordance with GAAP), excluding gains or losses from sales of properties and items classified by GAAP as extraordinary, plus real estate-related depreciation and amortization and impairment

Table of Contents

writedowns, and after comparable adjustments for the Company's portion of these items related to unconsolidated entities and joint ventures. The Company computes FFO consistent with standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than the Company.

With respect to FFO, the Company believes that excluding the effect of extraordinary items, real estate-related depreciation and amortization and impairments, and the portion of these items related to unconsolidated entities, all of which are based on historical cost accounting and which may be of limited significance in evaluating current performance, can facilitate comparisons of operating performance between periods and between REITs, even though FFO does not represent an amount that accrues directly to common shareholders. However, FFO may not be helpful when comparing the Company to non-REITs.

With respect to EBITDA, the Company believes that excluding the effect of non-operating expenses and non-cash charges, and the portion of these items related to unconsolidated entities, all of which are also based on historical cost accounting and may be of limited significance in evaluating current performance, can help eliminate the accounting effects of depreciation and amortization, and financing decisions and facilitate comparisons of core operating profitability between periods and between REITs, even though EBITDA also does not represent an amount that accrues directly to common shareholders.

FFO and EBITDA do not represent cash generated from operating activities as determined by GAAP and should not be considered as alternatives to net income, cash flows from operations or any other operating performance measure prescribed by GAAP. FFO and EBITDA are not measures of the Company's liquidity, nor are FFO and EBITDA indicative of funds available to fund the Company's cash needs, including its ability to make cash distributions. These measurements do not reflect cash expenditures for long-term assets and other items that have been and will be incurred. FFO and EBITDA may include funds that may not be available for management's discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions and other commitments and uncertainties. To compensate for this, management considers the impact of these excluded items to the extent they are material to operating decisions or the evaluation of the Company's operating performance.

The following is a reconciliation between net income attributable to common shareholders and FFO attributable to common shareholders and unitholders for the three and six months ended June 30, 2017 and 2016 (in thousands, except share and unit data):

(1)EBITDA includes (i) a net increase of approximately \$0.1 million for the actualization of gain on sale of Hotel Deca, Lansdowne Resort and Alexis Hotel for the three months ended June 30, 2017, and (ii) gain on sale of Hotel Triton and Westin Philadelphia of \$6.7 million and \$4.4 million for the three months ended June 30, 2017, respectively. EBITDA includes gain on the sale of Hotel Deca, Lansdowne Resort, Alexis Hotel, Hotel Triton and Westin Philadelphia of \$30.7 million, \$10.3 million, \$33.4 million, \$6.7 million and \$4.4 million for the six months ended June 30, 2017, respectively.

Off-Balance Sheet Arrangements**Reserve Funds for Future Capital Expenditures**

Certain of the Company's agreements with its hotel managers, franchisors and lenders have provisions for the Company to provide funds, generally 4.0% of hotel revenues, sufficient to cover the cost of (i) certain non-routine repairs and maintenance to the hotels and (ii) replacements and renewals to the hotels' capital assets. Certain of the agreements require that the Company reserve this cash in separate accounts. As of June 30, 2017, the Company held a total of \$13.2 million of restricted cash reserves, \$11.3 million of which was available for future capital expenditures. The Company has sufficient cash on hand and availability on its credit facilities to cover capital expenditures under agreements that do not require that the Company separately reserve cash.

The Company has no other off-balance sheet arrangements.

Liquidity and Capital Resources

The Company's principal source of cash to meet its cash requirements, including distributions to shareholders, is the operating cash flow from the Company's hotels. Additional sources of cash are the Company's senior unsecured credit facility, LHL's unsecured credit facility, additional unsecured financing, secured financing on one or all of the Company's 39 unencumbered properties (subject to certain terms and conditions of the credit agreement) as of June 30, 2017, the sale of one or more properties (subject to certain conditions of the management agreements at four of the Company's properties), debt or equity issuances available under the Company's shelf registration statement and issuances of common units in the Operating Partnership.

LHL is a wholly owned subsidiary of the Operating Partnership. Payments to the Operating Partnership are required pursuant to the terms of the lease agreements between LHL and the Operating Partnership relating to the properties owned by the Operating Partnership and leased by LHL. LHL's ability to make rent payments to the Operating

Partnership and the Company's liquidity, including its ability to make distributions to shareholders, are dependent on the lessees' ability to generate sufficient cash flow from the operation of the hotels.

Borrowings bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. There were no borrowings outstanding at June 30, 2017 and December 31, 2016. The Company has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Borrowings bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. There were no borrowings outstanding at June 30, 2017 and December 31, 2016. LHL has the option, pursuant to certain terms and conditions, to extend the maturity date for two six-month extensions.

Term loans bear interest at floating rates equal to LIBOR plus an applicable margin. The Company entered into interest rate swaps to effectively fix the interest rates for the First Term Loan (as defined below) and the Second Term Loan (as defined below). At June 30, 2017 and December 31, 2016, the Company had interest rate swaps on the full amounts outstanding. See "Derivative and Hedging Activities" below. At June 30, 2017, the fixed all-in interest rates for the First Term Loan and Second Term Loan were 2.23% and 2.95%, respectively, at the Company's current leverage ratio (as defined in the swap agreements). At December 31, 2016, the fixed all-in interest rates for the First Term Loan and Second Term Loan were 2.38% and 2.95%, respectively, at the Company's current leverage ratio (as defined in the swap agreements).

The Massport Bonds are secured by letters of credit issued by U.S. Bank National Association that expire in September 2017. The letters of credit have a one-year extension option through September 2018 and are secured by

the Hyatt Regency Boston Harbor, however, the letters of credit will not be extended beyond the Massport Bonds' maturity date. The bonds bear interest based on weekly floating rates. The interest rates as of June 30, 2017 were 1.19% and 0.94% for the \$5,400 and \$37,100 bonds, respectively. The interest rates as of December 31, 2016 were 0.75% and 0.76% for the \$5,400 and \$37,100 bonds, respectively. The Company incurs an annual letter of credit fee of 1.35%.

(e) The mortgage loan matures on August 14, 2018 with three options to extend the maturity date to January 5, 2021, pursuant to certain terms and conditions. The interest-only mortgage loan bears interest at a variable rate ranging from LIBOR plus 1.75% to LIBOR plus 2.00%, depending on Westin Copley Place's net cash flow (as defined in the loan agreement). The interest rate as of June 30, 2017 was LIBOR plus 1.75%, which equaled 2.91%. The interest rate as of December 31, 2016 was LIBOR plus 1.75%, which equaled 2.46%. The mortgage loan allows for prepayments without penalty, subject to certain terms and conditions.

Credit Facilities

On January 10, 2017, the Company refinanced its \$750.0 million senior unsecured credit facility with a syndicate of banks. As amended, the credit facility now matures on January 8, 2021, subject to two six-month extensions that the Company may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. The credit facility, with a current commitment of \$750.0 million, includes an accordion feature which, subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$1.25 billion. Borrowings under the credit facility bear interest at floating rates equal to, at the Company's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. Additionally, the Company is required to pay a variable unused commitment fee of 0.20% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the credit facility.

On January 10, 2017, LHL also refinanced its \$25.0 million unsecured revolving credit facility to be used for working capital and general lessee corporate purposes. As amended, the LHL credit facility matures on January 10, 2021, subject to two six-month extensions that LHL may exercise at its option, pursuant to certain terms and conditions, including payment of an extension fee. Borrowings under the LHL credit facility bear interest at floating rates equal to, at LHL's option, either (i) LIBOR plus an applicable margin, or (ii) an Adjusted Base Rate (as defined in the credit agreement) plus an applicable margin. Additionally, LHL is required to pay a variable unused commitment fee of 0.20% or 0.30% of the unused portion of the credit facility, depending on the average daily unused portion of the LHL unsecured credit facility.

The Company's senior unsecured credit facility and LHL's unsecured credit facility contain certain financial and other covenants, including covenants relating to net worth requirements, debt ratios and fixed charge coverage ratios. In addition, pursuant to the terms of the agreements, if a default or event of default occurs or is continuing, the Company may be precluded from paying certain distributions or other payments to its shareholders.

The Company and certain of its subsidiaries guarantee the obligations under the Company's senior unsecured credit facility. While the senior unsecured credit facility does not initially include any pledges of equity interests in the

Company's subsidiaries, in connection with the January 10, 2017 refinancing, such pledges and additional subsidiary guarantees would be required in the event that the Company's leverage ratio later exceeds 6.50:1.00 for two consecutive fiscal quarters. In the event that such pledge and guarantee requirement is triggered, the pledges and additional guarantees would ratably benefit the Company's senior unsecured credit facility, the First Term Loan and the Second Term Loan. If at any time the Company's leverage ratio falls below 6.50:1.00 for two consecutive fiscal quarters, such pledges and additional guarantees may be released.

Term Loans

On January 10, 2017, the Company refinanced its \$300.0 million unsecured term loan (the "First Term Loan") that matures on January 10, 2022. The First Term Loan includes an accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$500.0 million. The First Term Loan bears interest at variable rates.

Table of Contents

On January 10, 2017, the Company amended and restated its \$555.0 million unsecured term loan (the “Second Term Loan”) that matures on January 29, 2021. The Second Term Loan includes an accordion feature, which subject to certain conditions, entitles the Company to request additional lender commitments, allowing for total commitments of up to \$700.0 million. The Second Term Loan bears interest at variable rates.

The Company has entered into interest rate swap agreements to effectively fix the LIBOR rates for the term loans (see “Derivative and Hedging Activities” below).

The Company’s term loans contain certain financial and other covenants, including covenants relating to net worth requirements, debt ratios and fixed charge coverage ratios. In addition, pursuant to the terms of the agreements, if a default or event of default occurs or is continuing, the Company may be precluded from paying certain distributions or other payments to its shareholders.

The Company and certain of its subsidiaries guarantee the obligations under the Company’s term loans. While the term loans do not initially include any pledges of equity interests in the Company’s subsidiaries, in connection with the January 10, 2017 refinancing, such pledges and additional subsidiary guarantees would be required in the event that the Company’s leverage ratio later exceeds 6.50:1.00 for two consecutive fiscal quarters. In the event that such pledge and guarantee requirement is triggered, the pledges and additional guarantees would ratably benefit the Company’s senior unsecured credit facility, the First Term Loan and the Second Term Loan. If at any time the Company’s leverage ratio falls below 6.50:1.00 for two consecutive fiscal quarters, such pledges and additional guarantees may be released.

Derivative and Hedging Activities

The Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of variable-rate amounts from a counterparty in exchange for the Company making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. Unrealized gains and losses on the effective portion of hedging instruments are reported in other comprehensive income (loss) (“OCI”). Ineffective portions of changes in the fair value of a cash flow hedge are recognized as interest expense. Amounts reported in accumulated other comprehensive income (loss) (“AOCI”) related to currently outstanding derivatives are recognized as an adjustment to income (loss) as interest payments are made on the Company’s variable rate debt. Effective August 2, 2012, the Company entered into five interest rate swap agreements with an aggregate notional amount of \$300.0 million to hedge the variable interest rate on the First Term Loan through August 2, 2017, resulting in a fixed all-in interest rate based on the Company’s current leverage ratio (as defined in the swap agreements), which interest rate was 2.23% at June 30, 2017. As of June 30, 2017, the Company has interest rate swaps with an aggregate notional amount of \$555.0 million to hedge the variable interest rate on the Second Term Loan and, as a result, the fixed all-in interest rate based on the Company’s current leverage ratio (as defined in the swap agreements) is 2.95% through May 16, 2019. From May 16, 2019 through the term of the Second Term Loan, the Company has interest rate swaps with an aggregate notional amount of \$377.5 million to hedge a portion of the variable interest rate debt on the Second Term Loan. The Company has designated its pay-fixed, receive-floating interest rate swap derivatives as cash flow hedges. The interest rate swaps were entered into with the intention of eliminating the variability of the terms loans, but can also limit the exposure to any amendments, supplements, replacements or refinancings of the Company’s debt.

The following tables present the effect of derivative instruments on the Company’s consolidated statements of operations and comprehensive income, including the location and amount of unrealized loss on outstanding derivative instruments in cash flow hedging relationships, for the three and six months ended June 30, 2017 and 2016 (in thousands):

During the six months ended June 30, 2017 and 2016, the Company did not have any hedge ineffectiveness or amounts that were excluded from the assessment of hedge effectiveness recorded in earnings.

As of June 30, 2017, there was \$3.3 million in cumulative unrealized gain of which \$3.3 million was included in AOCI and an immaterial amount was attributable to noncontrolling interests. As of December 31, 2016, there was \$2.4 million in cumulative unrealized gain of which \$2.4 million was included in AOCI and an immaterial amount was attributable to noncontrolling interests. The Company expects that approximately \$0.9 million will be reclassified from AOCI and noncontrolling interests and recognized as a reduction to income in the next 12 months, calculated as estimated interest expense using the interest rates on the derivative instruments as of June 30, 2017.

Extinguishment of Debt

As discussed above, on January 10, 2017, the Company refinanced its senior unsecured credit facility and First Term Loan and LHL refinanced its unsecured revolving credit facility. The refinancing arrangements for the senior unsecured credit facility and First Term Loan were considered substantial modifications. The Company recognized a loss from extinguishment of debt of zero and \$1.7 million, which is included in the consolidated statements of operations and comprehensive income for the three and six months ended June 30, 2017, respectively. The loss from extinguishment of debt represents a portion of the unamortized debt issuance costs incurred for the senior unsecured credit facility when the original agreement was executed and the debt issuance costs incurred in connection with the refinancing of the First Term Loan.

Mortgage Loan

The Company's mortgage loan is secured by the property. The mortgage is non-recourse to the Company except for fraud or misapplication of funds.

The Company's mortgage loan contains debt service coverage ratio tests related to the mortgaged property. If the debt service coverage ratio for the property fails to exceed a threshold level specified in the mortgage, cash flows from that hotel may automatically be directed to the lender to (i) satisfy required payments, (ii) fund certain reserves required by the mortgage and (iii) fund additional cash reserves for future required payments, including final payment. Cash flows will be directed to the lender ("cash trap") until such time as the property again complies with the specified debt service coverage ratio or the mortgage is paid off.

Financial Covenants

Failure of the Company to comply with financial and other covenants contained in its credit facilities, term loans and non-recourse secured mortgage could result from, among other things, changes in its results of operations, the incurrence of additional debt or changes in general economic conditions.

If the Company violates financial and other covenants contained in any of its credit facilities or term loans described above, the Company may attempt to negotiate waivers of the violations or amend the terms of the applicable credit facilities or term loans with the lenders thereunder; however, the Company can make no assurance that it would be successful in any such negotiations or that, if successful in obtaining waivers or amendments, such amendments or waivers would be on terms attractive to the Company. If a default under the credit facilities or term loans were to occur, the Company would possibly have to refinance the debt through additional debt financing, private or public offerings of debt securities, or additional equity financings. If the Company is unable to refinance its debt on acceptable terms, including at maturity of the credit facilities and term loans, it may be forced to dispose of hotel properties on disadvantageous terms, potentially resulting in losses that reduce cash flow from operating activities. If, at the time of any refinancing, prevailing interest rates or other factors result in higher interest rates upon refinancing, increases in interest expense would lower the Company's cash flow, and, consequently, cash available for distribution to its shareholders.

Table of Contents

A cash trap associated with a mortgage loan may limit the overall liquidity for the Company as cash from the hotel securing such mortgage would not be available for the Company to use. If the Company is unable to meet mortgage payment obligations, including the payment obligation upon maturity of the mortgage borrowing, the mortgage securing the specific property could be foreclosed upon by, or the property could be otherwise transferred to, the mortgagee with a consequent loss of income and asset value to the Company.

As of June 30, 2017, the Company is in compliance with all debt covenants, current on all loan payments and not otherwise in default under the credit facilities, term loans, bonds payable and mortgage loan.

Fair Value Measurements

In evaluating fair value, GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

Level 1—Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date.

Level 2—Observable inputs, other than quoted prices included in level 1, such as interest rates, yield curves, quoted prices in active markets for similar assets and liabilities, and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3—Unobservable inputs that are supported by limited market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques when observable inputs are not available.

The Company estimates the fair value of its financial instruments using available market information and valuation methodologies the Company believes to be appropriate for these purposes. Considerable judgment and subjectivity are involved in developing these estimates and, accordingly, such estimates are not necessarily indicative of amounts that would be realized upon disposition.

Recurring Measurements

For assets and liabilities measured at fair value on a recurring basis, quantitative disclosure of their fair value is as follows (in thousands):

Description	Consolidated Balance Sheet Location	Fair Value Measurements at	
		June 30, 2017	December 31, 2016
Derivative interest rate instruments	Prepaid expenses and other assets	\$3,526	\$ 3,295
Derivative interest rate instruments	Accounts payable and accrued expenses	\$226	\$ 927

The fair value of each derivative instrument is based on a discounted cash flow analysis of the expected cash flows under each arrangement. This analysis reflects the contractual terms of the derivative instrument, including the period to maturity, and utilizes observable market-based inputs, including interest rate curves and implied volatilities, which are classified within level 2 of the fair value hierarchy. The Company also incorporates credit value adjustments to appropriately reflect each parties' nonperformance risk in the fair value measurement, which utilizes level 3 inputs such as estimates of current credit spreads. However, the Company has assessed that the credit valuation adjustments

are not significant to the overall valuation of the derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified within level 2 of the fair value hierarchy.

Table of Contents

Financial Instruments Not Measured at Fair Value

The following table represents the fair value, derived using level 2 inputs, of financial instruments presented at carrying value in the Company's consolidated financial statements as of June 30, 2017 and December 31, 2016 (in thousands):

	June 30, 2017		December 31, 2016	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Borrowings under credit facilities	\$0	\$0	\$0	\$0
Term loans	\$855,000	\$856,238	\$855,000	\$857,224
Bonds payable	\$42,500	\$42,500	\$42,500	\$42,500
Mortgage loan	\$225,000	\$224,556	\$225,000	\$225,224

The Company estimated the fair value of its borrowings under credit facilities, term loans, bonds payable and mortgage loan using interest rates ranging from 1.5% to 2.0% as of June 30, 2017 and from 1.5% and 1.8% as of December 31, 2016 with a weighted average effective interest rate of 1.5% as of June 30, 2017 and December 31, 2016. The assumptions reflect the terms currently available on similar borrowings to borrowers with credit profiles similar to the Company's.

At June 30, 2017 and December 31, 2016, the carrying amounts of certain of the Company's financial instruments, including cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses and distributions payable were representative of their fair values due to the short-term nature of these instruments and the recent acquisition of these items.

Equity Repurchases

The Company's Board of Trustees previously authorized an expanded share repurchase program (the "Repurchase Program") to acquire up to \$600.0 million of the Company's common shares of beneficial interest, with repurchased shares recorded at cost in treasury. As of June 30, 2017, the Company has availability under the Repurchase Program to acquire up to \$569.8 million of common shares of beneficial interest. The timing, manner, price and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, market conditions, and other corporate liquidity requirements and priorities. The Repurchase Program may be suspended, modified or terminated at any time for any reason without prior notice. The Repurchase Program does not obligate the Company to acquire any specific number of shares, and all open market repurchases will be made in accordance with applicable rules and regulations setting forth certain restrictions on the method, timing, price and volume of open market share repurchases.

Sources and Uses of Cash

As of June 30, 2017, the Company had \$461.4 million of cash and cash equivalents and \$13.2 million of restricted cash reserves, \$11.3 million of which was available for future capital expenditures. Additionally, the Company had \$747.5 million available under the Company's senior unsecured credit facility, with \$2.5 million reserved for outstanding letters of credit, and \$25.0 million available under LHL's unsecured credit facility.

Net cash provided by operating activities was \$149.1 million for the six months ended June 30, 2017 primarily due to the operations of the hotels, which were partially offset by payments for real estate taxes, personal property taxes, insurance and ground rent.

Net cash provided by investing activities was \$366.5 million for the six months ended June 30, 2017 primarily due to proceeds from the sale of Hotel Deca, Lansdowne Resort, Alexis Hotel, Hotel Triton and Westin Philadelphia, partially offset by outflows for improvements and additions at the hotels.

Net cash used in financing activities was \$188.8 million for the six months ended June 30, 2017 primarily due to payment of distributions to the common shareholders and unitholders, payment for the redemption of preferred shares, payment of distributions to preferred shareholders and payment of debt issuance costs.

The Company has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Company believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements, distributions on the preferred shares and the minimum distribution required to maintain the Company's REIT qualification under the Code. The Company anticipates that these needs will be met with available cash on hand, cash flows provided by operating activities, borrowings under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties (subject to certain terms and conditions of the credit agreement), potential property sales (subject to certain conditions of the management agreements at four of the Company's properties), debt or equity issuances available

Table of Contents

under the Company's shelf registration statement and issuances of common units in the Operating Partnership. The Company also considers capital improvements and property acquisitions as short-term needs that will be funded either with cash flows provided by operating activities, utilizing availability under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties (subject to certain terms and conditions of the credit agreement), potential property sales (subject to certain conditions of the management agreements at four of the Company's properties) or the issuance of additional equity securities.

The Company expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements utilizing availability under the Company's senior unsecured credit facility or LHL's unsecured credit facility, additional unsecured financing, secured financing on any of the Company's 39 unencumbered properties (subject to certain terms and conditions of the credit agreement), potential property sales (subject to certain conditions of the management agreements at four of the Company's properties), estimated cash flows from operations, debt or equity issuances available under the Company's shelf registration statement and issuances of common units in the Operating Partnership. The Company expects to acquire or develop additional hotel properties only as suitable opportunities arise, and the Company will not undertake acquisition or development of properties unless stringent acquisition or development criteria have been achieved.

Reserve Funds

The Company is obligated to maintain reserve funds for capital expenditures at the hotels (including the periodic replacement or refurbishment of furniture, fixtures and equipment) as determined pursuant to the operating agreements. Please refer to "Off-Balance Sheet Arrangements" for a discussion of the Company's reserve funds.

Contractual Obligations

The following is a summary of the Company's obligations and commitments as of June 30, 2017 (in thousands):

Obligations and Commitments	Total Amounts Committed	Amount of Commitment Expiration Per Period

⁽¹⁾ Interest expense is calculated based on the variable rate as of June 30, 2017 for Westin Copley Place.

⁽²⁾ Interest expense, if applicable, is calculated based on the variable rate as of June 30, 2017.

⁽³⁾ Amounts calculated based on the annual minimum future lease payments that extend through the term of the lease. Rents on ground leases may be subject to adjustments based on future interest rates and hotel performance.

The term loans bear interest at floating rates equal to LIBOR plus applicable margins. The Company entered into separate interest rate swap agreements for the First Term Loan, resulting in a fixed all-in interest rate of 2.23%, at the Company's current leverage ratio (as defined in the agreements) through August 2, 2017, the interest rate swaps' maturity date. The Company entered into separate interest rate swap agreements for the Second Term Loan, (4) resulting in a fixed all-in interest rate of 2.95% at the Company's current leverage ratio (as defined in the agreements). The \$377.5 million portion of the Second Term Loan is fixed through its maturity date of January 29, 2021 and the \$177.5 million portion of the Second Term Loan is fixed through May 16, 2019, the interest rate swaps' maturity date. It is assumed that the outstanding debt as of June 30, 2017 will be repaid upon maturity with fixed interest-only payments through the swapped periods and interest calculated based on the variable rate as of June 30, 2017 for the unswapped period of the term loans.

Table of Contents

As of June 30, 2017, purchase orders and letters of commitment totaling approximately \$39.5 million had been⁽⁵⁾ issued for renovations at the properties. The Company has committed to these projects and anticipates making similar arrangements in the future with the existing properties or any future properties that it may acquire.

The Hotels

The following table sets forth pro forma historical comparative information with respect to occupancy, ADR and RevPAR for the total hotel portfolio owned as of June 30, 2017 for the three and six months ended June 30, 2017 and 2016:

	For the three months ended June 30,			For the six months ended June 30,		
	2017	2016	Variance	2017	2016	Variance
Occupancy	88.2 %	89.1 %	(1.1 %)	83.0 %	83.4 %	(0.5 %)
ADR	\$257.86	\$259.23	(0.5 %)	\$244.36	\$243.72	0.3 %
RevPAR	\$227.31	\$231.02	(1.6 %)	\$202.86	\$203.27	(0.2 %)

For presentation of comparable information, the above hotel statistics exclude (i) Hotel Triton due to its disposition during the second quarter of 2017, (ii) Hotel Deca, Lansdowne Resort and Alexis Hotel due to their dispositions during the first quarter of 2017 and (iii) Indianapolis Marriott Downtown due to its disposition in July 2016. Westin Philadelphia is included for all periods presented. For the six months ended June 30, 2017 and 2016, the above hotel statistics exclude first quarter results for Mason & Rook Hotel due to the hotel's closure for renovation during the first quarter of 2016.

Inflation

The Company relies entirely on the performance of the hotels and their ability to increase revenues to keep pace with inflation. The hotel operators can change room rates quickly, but competitive pressures may limit the hotel operators' abilities to raise rates faster than inflation or even at the same rate.

The Company's expenses (primarily real estate taxes, property and casualty insurance, administrative expenses and hotel operating expenses) are subject to inflation. These expenses are expected to grow at the general rate of inflation, except for energy costs, liability insurance, property taxes (due to increased rates and periodic reassessments), employee benefits and some wages, which are expected to increase at rates higher than inflation.

Seasonality

The Company's hotels' operations historically have been seasonal. Taken together, the hotels maintain higher occupancy rates during the second and third quarters of each year. These seasonality patterns can be expected to cause fluctuations in the quarterly hotel operations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to market risk from changes in interest rates. The Company seeks to limit the impact of interest rate changes on earnings and cash flows and to lower the overall borrowing costs by closely monitoring the Company's variable rate debt and converting such debt to fixed rates when the Company deems such conversion advantageous. From time to time, the Company may enter into interest rate swap agreements or other interest rate hedging contracts. While these agreements are intended to lessen the impact of rising interest rates, they also expose the Company to the risks that the other parties to the agreements will not perform, the Company could incur significant costs associated with the settlement of the agreements, the agreements will be unenforceable and the underlying transactions will fail to qualify as highly effective cash flow hedges under GAAP guidance. As of June 30, 2017, \$267.5 million of the Company's aggregate indebtedness (23.8% of total indebtedness) was subject to variable interest rates, excluding amounts outstanding under the First Term Loan and Second Term Loan since the Company hedged their variable interest rates to fixed interest rates.

If market rates of interest on the Company's variable rate long-term debt fluctuate by 0.25%, interest expense would increase or decrease, depending on rate movement, future earnings and cash flows by \$0.7 million annually. This assumes that the amount outstanding under the Company's variable rate debt remains at \$267.5 million, the balance as of June 30, 2017.

Item 4. Controls and Procedures

Based on the most recent evaluation, the Company's Chief Executive Officer and Chief Financial Officer believe the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act

Table of Contents

of 1934, as amended) were effective as of June 30, 2017. There were no changes to the Company's internal control over financial reporting during the second quarter ended June 30, 2017 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. Other Information**Item 1. Legal Proceedings**

The nature of hotel operations exposes the Company and its hotels to the risk of claims and litigation in the normal course of their business. The Company is not presently subject to any material litigation nor, to the Company's knowledge, is any litigation threatened against the Company, other than routine actions for negligence or other claims and administrative proceedings arising in the ordinary course of business, some of which are expected to be covered by liability insurance and all of which collectively are not expected to have a material adverse effect on the liquidity, results of operations, business or financial condition of the Company.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

(2) On August 29, 2011, the Company announced its Board of Trustees had authorized the Repurchase Program to acquire up to \$100.0 million of the Company's common shares of beneficial interest. On February 22, 2017, the Company announced the Board of Trustees authorized an expansion of the Repurchase Program to acquire up to an additional \$500.0 million of the Company's common shares of beneficial interest. The Company cumulatively repurchased \$30.2 million of common shares of beneficial interest pursuant to the Repurchase Program through June 30, 2017. As of June 30, 2017 the Company had availability under the Repurchase Program to acquire up to \$569.8 million of common shares of beneficial interest. The authorization did not include specific price targets or an expiration date. The timing, manner, price and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, market conditions, and other corporate liquidity requirements and priorities. The Repurchase Program may be suspended, modified or terminated at any time for any reason without prior notice. The Repurchase Program does not obligate the Company to acquire any specific
