PROPOSAL 2

APPROVAL OF 1995 EQUITY INCENTIVE PLAN, AS AMENDED

In October 1995, the Board of Directors adopted, and the shareholders subsequently approved, our 1995 Equity Incentive Plan, or the Incentive Plan, as an amendment and restatement of our 1990 Stock Option Plan. As a result of a series of amendments, as of March 31, 2001 26,250,000 shares were reserved for issuance under the Incentive Plan. In April 2001, our Board amended the

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

Incentive Plan, subject to shareholder approval, to increase the aggregate number of shares of Common Stock authorized for issuance under the Incentive Plan by 2,000,000 shares to 28,250,000 shares.

As of March 31, 2001, options to purchase a total of approximately 10,066,000 (net of cancelled or expired options) shares were outstanding under the Incentive Plan. In addition, options to purchase 3,201,000 (plus any shares that might in the future be returned to the plan as a result of cancellations or expiration of options) shares remained available for future grant under the Incentive Plan. During fiscal 2000, under the Incentive Plan, we granted to all current officers as a group, options to purchase 733,000 shares at exercise prices of \$9.85 to \$25.27 per share, and granted to all employees (excluding officers) as a group, options to purchase 3,134,000 shares at exercise prices of \$9.85 to \$29.44 per share.

Shareholders are requested in this Proposal 2 to approve the Incentive Plan, as amended. If the shareholders fail to approve this Proposal 2, options granted under the Incentive Plan after the Annual Meeting in excess of the existing authorized share reserve may not qualify as performance-based compensation and, in some circumstances, we may be denied a business expense deduction for compensation recognized in connection with the exercise of these stock options.

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and voting at the meeting will be required to approve the Incentive Plan, as amended. For purposes of this vote, abstentions will be counted toward the tabulation of votes counted and will have the same effect as negative votes. Broker non-votes are counted towards a quorum, but will not be counted for any purpose in determining whether this matter has been approved.

THE BOARD OF DIRECTORS RECOMMENDS
A VOTE IN FAVOR OF PROPOSAL 2.

8

The essential features of the Incentive Plan are outlined below:

GENERAL

The Incentive Plan provides for the grant or issuance of incentive stock options to employees and nonstatutory stock options, restricted stock purchase awards, stock bonuses and stock appreciation rights to consultants, employees, officers and employee directors. To date only incentive stock options and nonstatutory stock options have been awarded under the Incentive Plan. Incentive stock options granted under the Incentive Plan are intended to qualify as "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended. Nonstatutory stock options granted under the Incentive Plan are intended not to qualify as incentive stock options under the Code. See "Federal Income Tax Information" for a discussion of the tax treatment of the various awards included in the Incentive Plan.

PURPOSE

The Incentive Plan was adopted to provide a means by which selected officers and employees of, and consultants to, us and our affiliates could be given an opportunity to receive our stock, to assist in retaining the services of employees holding key positions, to secure and retain the services of persons capable of filling such positions and to provide incentives for such persons to exert maximum efforts for our success. All of our 445 employees as of March 31,

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

2001 and our consultants are eligible to participate in the Incentive Plan.

ADMINISTRATION

The Incentive Plan is administered by our Board of Directors. The Board has the power to construe and interpret the Incentive Plan and, subject to the provisions of the Incentive Plan, to determine the persons to whom and the dates on which awards will be granted, what type of award will be granted, the number of shares to be subject to each award, the time or times during the term of each award within which all or a portion of such award may be exercised, the exercise price, the type of consideration and other terms of the award. The Board of Directors is authorized to delegate administration of the Incentive Plan to a committee composed of not fewer than two members of the Board. As used herein with respect to the Incentive Plan, the "Board" refers to the Stock Option Committee as well as to the Board of Directors itself.

ELIGIBILITY

Incentive stock options may be granted under the Incentive Plan only to our employees, including our officers and employees of our affiliates. Consultants and employees, including our officers, are eligible to receive awards other than incentive stock options under the Incentive Plan. Directors who are not salaried employees of, or consultants to, us or to any affiliate are not eligible to participate in the Incentive Plan.

No option may be granted under the Incentive Plan to any person who, at the time of the grant, owns, or is deemed to own stock possessing more than 10% of the total combined voting power of our stock or the stock of any of our affiliates, unless the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant, and the term of the option does not exceed five years from the date of grant. For incentive stock options granted under the Incentive Plan, the aggregate fair market value, determined at the time of grant, of the shares of Common Stock with respect to which such options are exercisable for the first time by an optionee during any calendar year, under all such plans of ours and our affiliates, may not exceed \$100,000.

9

SHARES SUBJECT TO THE INCENTIVE PLAN

Subject to shareholder approval of this proposal 2, an aggregate of 28,250,000 shares of our Common Stock is reserved for issuance under the Incentive Plan. If awards granted under the Incentive Plan expire or otherwise terminate without being exercised, the Common Stock not purchased pursuant to such awards again becomes available for issuance under the Incentive Plan.

TERMS OF OPTIONS

The following is a description of the permissible terms of options under the Incentive Plan. Individual option grants may be more restrictive as to any or all of the permissible terms described below.

Exercise Price; Payment. The exercise price of incentive stock options under the Incentive Plan may not be less than the fair market value of the Common Stock subject to the option on the date of the option grant, and in some cases, see the section entitled Eligibility above, may not be less than 110% of such fair market value..

In the event of a decline in the value of our Common Stock, the Board has the authority to offer employees the opportunity to replace outstanding

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

higher priced options, whether incentive or nonstatutory, with new lower priced options. We have provided that opportunity to employees in the past. To the extent required by Section 162(m), an option re-priced under the Incentive Plan is deemed to be cancelled and a new option granted. The Board also has the authority to include as part of an option agreement a provision entitling the optionee to a further option in the event that the optionee exercises his or her option by surrendering other shares of Common Stock as payment of the exercise price.

The exercise price of options granted under the Incentive Plan must be paid either: (1) in cash at the time the option is exercised; (2) at the discretion of the Board, (a) by delivery of other shares of our Common Stock, or (b) pursuant to a deferred payment arrangement; or (3) in any other form of legal consideration acceptable to the Board.

Option Exercise. Options granted under the Incentive Plan may become exercisable in cumulative increments, or vest, as determined by the Board. Shares covered by currently outstanding options under the Incentive Plan typically vest at the rate of 25% on the first anniversary of the grant and 1/48th per month (25% per year) thereafter during the optionee's employment or service as a consultant (hire-on grants and promotion grants) or monthly over a twelve month period (performance grants and stock replenishment grants). Shares covered by options granted in the future under the Incentive Plan may be subject to different vesting terms. The Board has the power to accelerate the time during which an option may be exercised, and certain other events such as a change in our ownership may accelerate the vesting of options. In addition, options granted under the Incentive Plan may permit exercise prior to vesting, but in such event the optionee may be required to enter into an early exercise stock purchase agreement that allows us to repurchase shares not yet vested at their exercise price should the optionee leave our employ before vesting. To the extent provided by the terms of an option, an optionee may satisfy any federal, state or local tax withholding obligation relating to the exercise of such option by a cash payment upon exercise, by authorizing us to withhold a portion of the stock otherwise issuable to the optionee, by delivering already-owned shares of our stock or by a combination of these means.

Term. The maximum term of options under the Incentive Plan is ten years, except that in certain cases, see the section above entitled "Eligibility", the maximum term is five years. Options under the Incentive Plan terminate three months after the optionee ceases to be an employee, director or consultant of ours or any of our affiliates, unless (1) the termination of employment as an employee, director or consultant is due to such person's permanent and total disability, as defined in the Code, in which case the option may, but need not, provide that it may be exercised at any time within one year of such termination; (2) the optionee dies while an employee, director or consultant of ours or any of our affiliates, or within three months after termination of such employment as an employee, director, or consultant, in which case the option may, but need not, provide that it may be exercised, to the extent the option was exercisable at the time of the optionee's death, within eighteen months of the optionee's death by the person or persons to whom the rights to such option pass by will

or by the laws of descent and distribution; or (3) the option by its terms specifically provides otherwise. Individual options by their terms may provide for exercise within a longer period of time following termination of employment or the consulting or director relationship. The option term also may be extended in the event that exercise of the option within these periods is prohibited for specified reasons.

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

TERMS OF STOCK BONUSES AND PURCHASES OF RESTRICTED STOCK

Purchase Price; Payment. The purchase price under each stock purchase agreement will be determined by the Board. The purchase price of stock pursuant to a stock purchase agreement must be paid either: (1) in cash at the time of purchase; (2) at the discretion of the Board, according to a deferred payment or other arrangement with the person to whom the Common Stock is sold; or (3) in any other form of legal consideration that may be acceptable to the Board in its discretion. Eligible participants may be awarded stock pursuant to a stock bonus agreement in consideration of past services actually rendered to us or for our benefit.

Repurchase. Shares of Common Stock sold or awarded under the Incentive Plan may, but need not, be subject to a repurchase option in favor of us in accordance with a vesting schedule determined by the Board. In the event a person ceases to be an employee of or ceases to serve as a director of or consultant to us or one of our affiliates, we may repurchase or otherwise reacquire any or all of the shares of Common Stock held by that person that have not vested as of the date of termination under the terms of the stock bonus or restricted stock purchase agreement between us and such person.

STOCK APPRECIATION RIGHTS

The Board may grant stock appreciation rights to employees or directors of, or consultants to us or our affiliates. The Incentive Plan authorizes three types of stock appreciation rights.

Tandem Stock Appreciation Rights. Tandem stock appreciation rights are tied to an underlying option and require the holder to elect whether to exercise the underlying option or to surrender the option for an appreciation distribution equal to the market price of the vested shares purchasable under the surrendered option less the aggregate exercise price payable for such shares. Appreciation distributions payable upon exercise of tandem stock appreciation rights must be made in cash. Tandem stock appreciation rights tied to incentive stock options may be granted to employees only.

Concurrent Stock Appreciation Rights. Concurrent stock appreciation rights are tied to an underlying option and are exercised automatically at the same time the underlying option is exercised. The holder receives an appreciation distribution equal to the market price of the vested shares purchased under the option less the aggregate exercise price payable for such shares. Appreciation distributions payable upon exercise of concurrent stock appreciation rights must be made in cash. Concurrent stock appreciation rights tied to incentive stock options may be granted to employees only.

Independent Stock Appreciation Rights. Independent stock appreciation rights are granted independently of any option and entitle the holder to receive upon exercise an appreciation distribution equal to the market price of a number of shares equal to the number of share equivalents to which the holder is vested under the independent stock appreciation right less the fair market value of such number of shares of stock on the date of grant of the independent stock appreciation rights. Appreciation distributions payable upon exercise of independent stock appreciation rights may, at the Board's discretion, be made in cash, in shares of Common Stock or a combination thereof.

ADJUSTMENT PROVISIONS

If there is any change in the stock subject to the Incentive Plan or subject to any award granted under the Incentive Plan, through merger, consolidation, reorganization, recapitalization, stock dividend, dividend in property other than cash, stock split, liquidating dividend, combination of shares, exchange of shares, change in corporate structure or otherwise, the

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

Incentive Plan and awards outstanding thereunder will be appropriately

11

adjusted as to the class and the maximum number of shares subject to such plan and the class, number of shares and price per share of stock subject to such outstanding awards.

EFFECT OF CERTAIN CORPORATE EVENTS

The Incentive Plan provides that, in the event of our dissolution or liquidation, a specified type of merger or other corporate reorganization, to the extent permitted by law, any surviving corporation will be required to either assume awards outstanding under the Incentive Plan or substitute similar awards for those outstanding under the Incentive plan, or such outstanding awards will continue in full force and effect. In the event that any surviving corporation declines to assume or continue awards outstanding under the Incentive Plan, or to substitute similar awards, then, with respect to awards held by persons then performing services as employees, directors, or consultants, the time during which such awards may be exercised will be accelerated and the awards terminated if not exercised during such time. The acceleration of an award in the event of an acquisition or similar corporate event may be viewed as an anti-takeover provision, which may have the effect of discouraging a proposal to acquire or otherwise obtain control of us.

DURATION, AMENDMENT AND TERMINATION

The Board may suspend or terminate the Incentive Plan without shareholder approval or ratification at any time or from time to time. Unless sooner terminated, the Incentive Plan will terminate on April 12, 2009.

The Board also may amend the Incentive Plan at any time or from time to time. However, no amendment will be effective unless approved by our shareholders within twelve months before or after its adoption by the Board if the amendment would: (1) modify the requirements as to eligibility for participation, to the extent such modification requires shareholder approval in order for the Incentive Plan to satisfy Section 422 of the Code, if applicable, or Rule 16b-3 of the Securities Exchange Act of 1934; (2) increase the number of shares reserved for issuance upon exercise of options; or (3) change any other provision of the Incentive Plan in any other way if such modification requires shareholder approval in order to comply with Rule 16b-3 or satisfy the requirements of Section 422 of the Code. The Board may submit any other amendment to the Incentive Plan for shareholder approval, including, but not limited to, amendments intended to satisfy the requirements of Section 162(m) of the Code regarding the exclusion of performance-based compensation from the limitation on the deductibility of compensation paid to certain employees.

RESTRICTIONS ON TRANSFER

Under the Incentive Plan, an incentive stock option may not be transferred by the optionee other than by will or by the laws of descent and distribution and, during the lifetime of an optionee, an option may be exercised only by the optionee. A nonstatutory stock option or an independent stock appreciation right may not be transferred except by will or by the laws of descent and distribution or pursuant to a "qualified domestic relations order." In any case, an optionee may designate in writing a third party who may exercise the option in the event of the optionee's death. No rights under a stock bonus or restricted stock purchase agreement are transferable except where required by law or expressly authorized by the terms of the applicable stock bonus or restricted stock purchase agreement. A tandem stock appreciation right or concurrent stock appreciation right may be transferred only by the methods

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

applicable to the underlying option. In addition, any shares subject to repurchase by us under an early exercise stock purchase agreement may be subject to restrictions on transfer which the Board deems appropriate.

FEDERAL INCOME TAX INFORMATION

Incentive Stock Options. Incentive stock options under the Incentive Plan are intended to be eligible for the favorable federal income tax treatment accorded "incentive stock options" under the Code.

There generally are no federal income tax consequences to the optionee or to us by reason of the grant or exercise of an incentive stock option. However, the exercise of an incentive stock option may subject the optionee to an alternative minimum tax liability.

12

If an optionee holds stock acquired through exercise of an incentive stock option for at least two years from the date on which the option is granted and at least one year from the date on which the shares are transferred to the optionee upon exercise of the option, any gain or loss on a disposition of such stock will be a long-term capital gain or loss. Generally, if the optionee disposes of the stock before the expiration of either of these holding periods, a "disqualifying disposition", at the time of disposition, the optionee will realize taxable ordinary income equal to the lesser of (1) the excess of the stock's fair market value on the date of exercise over the exercise price, or (2) the optionee's actual gain, if any, on the purchase and sale. The optionee's additional gain, or any loss, upon the disqualifying disposition will be a capital gain or loss, which will be long-term or short-term depending on the length of time the stock was held. Capital gains currently are generally subject to lower tax rates than ordinary income. The maximum long-term capital gains rate for federal income tax purposes is currently 20% while the maximum ordinary income rate is effectively 39.6% at the present time. Slightly different rules may apply to optionees who acquire stock subject to certain repurchase options or who are subject to Section 16(b) of the Securities Exchange Act.

To the extent the optionee recognizes ordinary income by reason of a disqualifying disposition, we generally will be entitled, subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a tax reporting obligation, to a corresponding business expense deduction in the tax year in which the disqualifying disposition occurs.

Nonstatutory Stock Options. Nonstatutory stock options granted under the Incentive Plan generally have the following federal income tax consequences:

There are no tax consequences to the optionee or to us by reason of the grant of a nonstatutory stock option. Upon exercise of a nonstatutory stock option, the optionee normally will recognize taxable ordinary income equal to the excess of the stock's fair market value on the date of exercise over the option exercise price. Generally, with respect to employees, we are required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness, the provisions of Section 162(m) of the Code and the satisfaction of a reporting obligation, we generally will be entitled to a business expense deduction equal to the taxable ordinary income realized by the optionee. Upon disposition of the stock, the optionee will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such stock plus any amount recognized as ordinary income upon exercise of the option. Such gain or loss will be long-term or short-term depending on the length of time the stock was held. Slightly different rules may apply to optionees who acquire stock subject to certain repurchase options or who are subject to

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

Section 16(b) of the Securities Exchange Act.

Restricted Stock and Stock Bonuses. Restricted stock and stock bonuses granted under the Incentive Plan generally have the following federal income tax consequences:

Upon acquisition of stock under a restricted stock or stock bonus award, the recipient normally will recognize taxable ordinary income equal to the excess of the stock's fair market value over the purchase price, if any. However, to the extent the stock is subject to certain types of vesting restrictions, the taxable event will be delayed until the vesting restrictions lapse unless the recipient elects to be taxed on receipt of the stock. Generally, with respect to employees, we are required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness, Section 162(m) of the Code and the satisfaction of a tax reporting obligation, we generally will be entitled to a business expense deduction equal to the taxable ordinary income realized by the recipient. Upon disposition of the stock, the recipient will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such stock, if any, plus any amount recognized as ordinary income upon acquisition, or vesting, of the stock. Such gain or loss will be long-term or short-term depending on the length of time that the stock was held from the date ordinary income is measured. Slightly different rules may apply to persons who are subject to Section 16(b) of the Securities Exchange Act.

13

Stock Appreciation Rights. No taxable income is realized upon the receipt of a stock appreciation right, but upon exercise of the stock appreciation right the fair market value of the shares, or cash in lieu of shares, received must be treated as compensation taxable as ordinary income to the recipient in the year of such exercise. Generally, with respect to employees, we are required to withhold from the payment made on exercise of the stock appreciation right or from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness, Section 162(m) of the Code and the satisfaction of a reporting obligation, we will be entitled to a business expense deduction equal to the taxable ordinary income recognized by the recipient.

Potential Limitation on Company Deductions. Section 162(m) of the Internal Revenue Code denies a deduction to any publicly held corporation for compensation paid to a covered employees in a taxable year to the extent that non-performance-based compensation paid to such a covered employee exceeds \$1 million. It is possible that compensation attributable to awards under the Incentive Plan, when combined with all other types of compensation received by a covered employee from us, may cause this limitation to be exceeded in any particular year.

Certain kinds of compensation, including qualified "performance-based compensation," are disregarded for purposes of the deduction limitation. In accordance with Treasury regulations issued under Section 162(m) of the Code, compensation attributable to stock options and stock appreciation rights will qualify as performance-based compensation, provided that: (1) the stock award plan contains a per-employee limitation on the number of shares for which stock options and stock appreciation rights may be granted during a specified period; (2) the per-employee limitation is approved by the shareholders; (3) the award is granted by a compensation committee comprised solely of "outside directors"; and (4) the exercise price of the award is no less than the fair market value of the stock on the date of grant. Restricted stock and stock bonuses qualify as performance-based compensation under these Treasury regulations only if: (1) the

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

award is granted by a compensation committee comprised solely of "outside directors"; (2) the award is granted, or exercisable, only upon the achievement of an objective performance goal established in writing by the compensation committee while the outcome is substantially uncertain; (3) the compensation committee certifies in writing prior to the granting, or exercisability, of the award that the performance goal has been satisfied; and (4) prior to the granting, or exercisability, of the award, shareholders have approved the material terms of the award including the class of employees eligible for such award, the business criteria on which the performance goal is based, and the maximum amount, or formula used to calculate the amount, payable upon attainment of the performance goal.

PROPOSAL 3

RATIFICATION OF SELECTION OF INDEPENDENT ACCOUNTANTS

The Board of Directors has selected PricewaterhouseCoopers LLP as our independent accountants for the fiscal year ending December 31, 2001 and has further directed that management submit the selection of independent accountants for ratification by the shareholders at the Annual Meeting. PricewaterhouseCoopers LLP has audited our financial statements since 1991. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Shareholder ratification of the selection of PricewaterhouseCoopers LLP as our independent accountants is not required by our bylaws or otherwise. However, the Board is submitting the selection of PricewaterhouseCoopers LLP to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee and the Board in their discretion may direct the appointment of different independent accountants at any time during the year if they determine that such a change would be in our best interests and our shareholders.

PricewaterhouseCoopers LLP fees for the fiscal year ended December 31, 2000 are as follows:

Audit Fees: Aggregate fees from by PricewaterhouseCoopers LLP for the fiscal year ended December 31, 2000, for the audit of our annual financial statements and review of the financial statements included in our quarterly reports on Form 10-Q were approximately \$266,000 of which \$209,000 had been billed through December 31, 2000.

Financial Information Systems Design and Implementation Fees: During 2000 we did not engage PricewaterhouseCoopers LLP to provide advice regarding financial information systems design and implementation.

All Other Fees: Aggregate fees for all other professional services rendered by PricewaterhouseCoopers LLP were approximately \$621,000 for the fiscal year ending December 31, 2000. These services primarily included assistance with registration statements, accounting technical advice, income and other tax consulting and acquisition due diligence.

The Audit Committee has determined the rendering of other professional services by PricewaterhouseCoopers LLP is compatible with maintaining their independence.

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy and voting at the Annual Meeting will be required to ratify the selection of PricewaterhouseCoopers LLP. Abstentions will be counted toward the tabulation of votes cast on proposals presented to the shareholders and will have the same effect as negative votes. Broker now votes are counted towards a quorum, but are not counted for any purpose in determining whether this matter has been ratified.

THE BOARD OF DIRECTORS RECOMMENDS
A VOTE IN FAVOR OF PROPOSAL 3.

COMPLIANCE WITH THE REPORTING REQUIREMENTS OF SECTION 16(A)

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and officers, and persons who own more than ten percent of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our Common Stock and other equity securities. Officers, directors and greater than ten percent shareholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file.

To our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required, during the year ended December 31, 2000, all Section 16(a) filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with, except that Paul Lui our Vice President, Special Product Group, filed an amended Form 3 to reflect an additional 193,710 shares of Common Stock held by LTC Enterprise, Inc.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS (1)

The Audit Committee oversees SST's financial reporting process on behalf of the Board of Directors and is responsible for providing independent, objective oversight of SST's accounting functions and internal controls. Management has the primary responsibility for the financial statements and the reporting process including the system of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements contained in the 2000 Annual Report on Form 10-K with SST's management.

The Audit Committee met with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles and reviewed and discussed the audited financial statements and other issues deemed

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

significant by the auditors, including those required by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards), as amended. In addition, the Audit Committee discussed with the independent auditors their independence from management and SST, including the matters in the written disclosures required by Independence Standards Board Standard and considered the compatibility of any non-audit services with the auditors' independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2000, for filing with the Securities and Exchange Commission. The Audit Committee and the Board have also recommended, subject to shareholder ratification, the selection of PricewaterhouseCoopers LLP as SST's independent auditors for the year ending December 31, 2001.

COMPENSATION

COMPENSATION OF DIRECTORS

Our directors do not currently receive any cash compensation from us for their service as members of our Board of Directors, although they are reimbursed for certain travel-related expenses in connection with attendance at Board and committee meetings in accordance with our policy.

Each of our non-employee directors receives stock option grants under the 1995 Non-Employee Directors' Stock Option Plan, or the Directors Plan. Only non-employee directors are eligible to receive options under the Directors' Plan. Options granted under the Directors' Plan are intended by us not to qualify as incentive stock options under the Internal Revenue Code of 1986, as amended.

Option grants under the Directors' Plan are non-discretionary. Pursuant to the terms of the Directors' Plan, each director who was serving on the date of our initial public offering was granted on such date an option to purchase 72,000 split-adjusted shares of our Common Stock. In addition, each non-employee director subsequently elected to the Board was automatically granted an option to purchase 72,000 split-adjusted shares of our Common Stock, until the Directors' Plan was amended in April 1999, at which time the amount of the initial grant upon election to the Board of Directors was changed to an option to purchase 45,000 split-adjusted shares of our Common Stock. Each year, non-employee directors who have served as directors for the prior year are granted an option to purchase 18,000 split-adjusted shares of our Common Stock. No other options may be granted at any time under the Directors' Plan. The exercise price of options granted under the Directors' Plan is 100% of the fair market value of the Common Stock subject to the option on the date of the option grant. Options granted prior to April 1999 vest ratably over four years from the date of grant. Options granted after April 1999 are fully vested and exercisable

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

upon the date of grant. The term of options granted under the Directors' Plan is ten years. In the event of our merger with or into another corporation or a consolidation, acquisition of assets or other change-in-control transaction, the vesting of options issued prior to April 1999 will accelerate and the option will terminate if not exercised prior to the consummation of the transaction. At December 31, 2000, options, net of canceled or expired options, covering an aggregate of 453,000 shares had been granted under the Directors' Plan and 147,000 shares of our Common Stock remained available for grant under the Directors' Plan.

During 2000, we granted options under the Directors' Plan covering 18,000 shares to each of Messrs. Taira, Chikagami, and Chwang at an exercise price of \$28.35 per share based on the closing sales price reported in the Nasdaq National Market on the date of grant. As of December 31, 2000, 266,000 options had been exercised under the Directors' Plan at a weighted average exercise price of \$2.51 per share, and 148,000 options were exercisable at a weighted-average exercise price of \$12.11 per share.

STOCK OPTION GRANTS AND EXERCISES

The following tables show for the fiscal year ended December 31, 2000, information regarding options granted to, exercised by, and held at year end by the officers listed in the "Summary Compensation Table" above.

2000 Stock Option Grants

The exercise price of each option was equal to the fair market value of our Common Stock on the date of grant. Mr. Yeh's option was equal to 110% of the fair market value of our Common Stock on the date of grant. The exercise price may be paid in cash, in shares of our Common Stock valued at fair value

20

on the exercise date or through a cashless exercise procedure involving a same-day sale of the purchased shares.

The potential realizable value is calculated based on the term of the option at the time of grant. Stock price appreciation of 5% and 10% is assumed pursuant to rules promulgated by the Securities and Exchange Commission and does not represent our prediction of our stock price performance. The potential realizable values at 5% and 10% appreciation are calculated by:

- multiplying the number of shares of Common Stock subject to a given option by the exercise price per share;
- assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rate shown in the table until the expiration of the options; and
- subtracting from that result the aggregate option exercise price.

The shares listed in the following table under "Number of Securities Underlying Option Granted" are subject to vesting. Certain of the stock options listed in the table vest over a five-year period, 20% after one year and 1.667% per month thereafter. Each of the options has a ten-year term, except for Mr. Yeh's option which has a five-year term, subject to earlier termination if the optionee's service with us ceases. Under certain circumstances following a change of control, the vesting of such option grants may accelerate and become immediately exercisable.

In January 2000, Mr. Yeh was awarded a stock option grant for 300,000 shares of Common Stock with an exercise price of \$10.84 and Messrs. Hu, Briner, Best and Lui were each awarded a stock option grant for 30,000 shares of Common Stock with an exercise price of \$9.85. Pursuant to the terms of the option grants, as our revenues for fiscal 2000 were in excess of \$400 million, all of the shares subject to these grants vested and became exercisable on January 1, 2001.

Percentages shown under "Percent of Total Options Granted in 2000" are based on 3,921,000 options granted to our employees and directors during 2000.

Employee Benefit Plans

Employee Stock Purchase Plan

In October 1995, we adopted the 1995 Employee Stock Purchase Plan covering an aggregate of 2,550,000 shares of our Common Stock. The Purchase Plan was amended in April 1999 to increase the number of shares reserved for issuance under the Purchase Plan to 3,600,000 shares. As of March 31, 2001, approximately 1,608,000 shares remained available for issuance under the Purchase Plan. The Purchase Plan is intended to qualify as an employee stock purchase plan within

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

the meaning of Section 423 of the Internal Revenue Code. Under the Purchase Plan, the Board may authorize participation by eligible employees, including officers, in periodic offerings following the adoption of the Purchase Plan. The offering period for any offering will be no more than 27 months.

Employees are eligible to participate if they are employed by us, or one of our affiliates designated by the Board, for at least 20 hours per week and are employed by us, or one of our affiliates designated by the Board, for at least five months per calendar year. Employees who participate in an offering can have up to 10% of their earnings withheld pursuant to the Purchase Plan. The amount withheld will then be used to purchase shares of our Common Stock on specified dates determined by the Board. The price of our Common Stock purchased under the Purchase Plan will be equal to 85% of the lower of the fair market value of the Common Stock on the commencement date of each offering period or on the specified purchase date. Employees may end their participation in the offering at any time during the offering period. Participation ends automatically on termination of employment.

In the event of a merger, reorganization, or consolidation or liquidation in which we are not the surviving corporation, the Board has discretion to provide that each right to purchase Common Stock will be assumed or an equivalent right substituted by the successor corporation. Alternatively, the Board may shorten the offering period and provide for all sums collected by payroll deductions to be applied to the purchase of Common Stock immediately prior to such merger or other transaction. The Purchase Plan will terminate at the Board's direction. The Board has the authority to amend or terminate the Purchase Plan subject to the limitation that no such action may adversely affect any outstanding rights to purchase Common Stock.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS ON COMPENSATION (1)

Our officer compensation program is administered by the Compensation Committee of the Board of Directors which is composed of Messrs. Taira, Chikagami, and Chwang, each a non-employee director of SST and Bing Yeh, our President and Chief Executive Officer; and the Stock Option Committee which consists of Messrs. Taira, Chikagami, and Chwang.

Our officer compensation program is designed to retain and reward officers who are responsible for leading us in achieving its business objectives. The salary compensation of the Chief Executive Officer is established by the non-employee members of the Compensation Committee, Messrs. Taira, Chikagami, and Chwang. This report is submitted by the Compensation Committee and the Stock Option Committee and addresses our compensation policies for the fiscal year ended December 31, 2000 as they affect Bing Yeh, in his capacity as our President and Chief Executive Officer, and our other officers.

COMPENSATION PHILOSOPHY

The objectives of our compensation program are to (1) align compensation with our business objectives and individual performance, (2) motivate and reward high levels of performance, (3) recognize and reward the achievement of team and individual goals, and (4) enable us to attract, retain and reward officers who contribute to our long-term success.

Our officer compensation philosophy is to tie a significant portion of our compensation to our performance and attainment of team and individual goals and objectives by our officers and is based on the following:

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

- The Committee regularly compares our officer compensation practices with those of other companies in the semiconductor industry and other technology-related industries and sets our compensation guidelines based on this review. Our base annual salaries for our officers are generally in the low to mid-range of those paid to officers of companies with comparable revenue targets in high technology industries. The Compensation Committee and the Stock Option Committee seek, however, to provide our officers with opportunities for higher compensation through profit sharing and stock options which, when we are profitable, places total compensation in the mid to upper-range of comparable companies.
- The Committee believes that an officer compensation program that ties profit sharing awards to performance and achievement of our stated goals serves both as an influential motivator to its officers and as an effective instrument for aligning their interests with those of our shareholders.
- The Committee also believes that a substantial portion of the compensation of our officers should be linked to the success of our stock in the marketplace. The linkage is achieved through our stock option program, which also serves to more fully align the interests of management with those of our shareholders.

(1) Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, that might incorporate future filings, including this Proxy Statement, in whole or in part, the following report and Performance Graph shall not be incorporated by reference into any such filings.

23

IMPLEMENTATION OF COMPENSATION PROGRAM

Annual compensation for our officers consists of three principal elements -- salary, profit sharing and stock options.

The Compensation Committee sets the base annual salary and levels of compensation for officers by reviewing compensation for comparable positions in the market and the historical compensation levels of our officers. Currently, the base annual salaries of our officers are at levels which the Compensation Committee believes are generally in the low to mid-range of those of officers of companies with which we compare ourselves. The Compensation Committee members participate in the deliberations of the annual salaries for all officers other than for compensation for Mr. Yeh. The non-employee members of the Compensation Committee deliberate upon and set Mr. Yeh's annual salary. Increases in annual salaries are based on a review and evaluation of officer salary levels and the demonstrated capabilities of the officers in managing the key aspects of a fabless semiconductor company, including (1) corporate partnering, patent strategy and technology collaborations, (2) research and development, (3) market development and market penetration, (4) financial matters, including attracting capital and financial planning, and (5) human resources.

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER IN FISCAL 2000

As discussed below, Mr. Yeh is eligible to participate in the same officer compensation plans available to the other our officers. The non-employee members of the Compensation Committee set Mr. Yeh's total annual compensation, including compensation derived from our profit sharing program, at a level it believes is appropriate in comparison with other chief executive officers at

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

mid-sized companies in technology-related industries with comparable revenue targets.

Mr. Yeh earned \$330,000 in 2000 as base salary. Effective January 1, 2001, his salary was increased to \$392,700 annually. In determining Mr. Yeh's salary, the non-employee members of the Compensation Committee reviewed various factors, including Mr. Yeh's contributions with respect to our increase in product shipments and overall profitability during the year, the introduction of new products, the advancement of market development and diversification of market penetration, the continued development of corporate partnership strategy, and the refinement of overall strategic direction. During 2000 Mr. Yeh was also paid profit sharing of \$75,242. Profit sharing is calculated and based on a pre-determined formula that is applied to our employees as described below.

PROFIT SHARING

During 2000, profit sharing was calculated for all employees, including officers but excluding employees in the sales department, twice using two pre-determined profit sharing-based formulas. The first formula allocates 10% of our operating profit to a profit sharing pool provided that we have met our twin profitability goals of both pre-tax profits and operating profits in excess of 10% of sales. If pre-tax profits or operating profits are less than 10% of sales, no allocation is made to profit sharing. The second formula apportions some of the profit sharing pool, if any, to each employee based on the employee's length of employment, level of performance and base salary. No bonus is paid to an employee who has worked for us for less than six months. Level of performance is a numerical value assigned in performance reviews independently of the profit sharing program. We currently calculate bonuses based on our financial performance in the periods January 1 through June 30 and July 1 through December 31. During 2000, a separate bonus plan was used for employees in the sales department which is based on performance to pre-determined sales quotas and product design wins which generate minimum revenue thresholds. The Vice President of Worldwide Sales & Marketing and the Vice President of North American Sales participate in our overall profit sharing plan but not in the sales bonus plan.

24

As we achieved the profitability requirements of the profit sharing plan for both halves during 2000, all employees eligible for profit sharing received awards under this plan. Amounts related to profits earned during the period January 1, 2000 through June 30, 2000 were paid out on July 28, 2000 and amounts related to profits earned during the period July 1, 2000 through December 31, 2000 were paid out on February 9, 2001.

STOCK AWARDS

Total compensation at the officer level also includes long-term incentives offered by stock awards under the Incentive Plan. Stock awards are designed to align the long-term interests of our employees with those of our shareholders and to assist in the retention of employees. The size of an individual stock award is generally intended to reflect the employee's position with us and his or her importance, past and future anticipated contributions to our business, and how many years of future service for which the employee has non-vested options. It has been our practice to fix the exercise price of stock option grants at 100% of the fair market value per share on the date of grant. Options are generally subject to vesting over a four or five year period to encourage key employees to continue in our employ.

The Stock Option Committee administers the Incentive Plan for our officers. The Board has delegated to the Non-Officers Stock Option Committee the

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

administration of the Incentive Plan for all of our other employees for option grants of not more than 36,000 shares per option grant. In January 1997, a stock replenishment program was approved by the Board of Directors whereby options may be granted on a smaller and more frequent basis to both our officers and employees in order to ensure that each eligible employee possesses non-vested options for four years of future service. We intend to grant options to our officers on a routine basis as part of this stock replenishment program.

In addition, compensation at the officer level includes short-term incentives offered through stock option grants that may vest from one year to five years from the date of grant and may have performance targets attached which may accelerate the vesting of these options. Such stock option grants are designed to provide short-term incentives to accomplish such strategic initiatives as the completion of product development, the successful introduction of new products into the marketplace, and the reduction of manufacturing and other costs needed to achieve our goals. The size of individual stock option grants is intended to reflect the employee's position and anticipated contribution to our business. It has been our practice to fix the exercise price of stock option grants at 100% of the fair market value per share on the date of grant. As required under our Equity Incentive Plan, the exercise price of stock option grants for officers who own more than 10% of the shares of our outstanding stock is set at 110% of the fair market value on the date of grant.

In January 2000, Mr. Yeh was awarded a stock option grant for 300,000 shares of Common Stock with an exercise price of \$10.84 and Messrs. Hu, Briner, Best and Lui were each awarded a stock option grant for 30,000 shares of Common Stock with an exercise price of \$9.85. Pursuant to the terms of the option grants, as our revenues for fiscal 2000 were in excess of \$400 million, all of the shares subject to these grants vested and became exercisable on January 1, 2001.

FEDERAL TAX CONSIDERATIONS

Section 162(m) of the Code limits us to a deduction for federal income tax purposes of no more than \$1 million of compensation paid to certain officers in a taxable year. Compensation above \$1 million may be deducted if it is "performance-based compensation" within the meaning of the Code.

The statute containing this law and the applicable Treasury regulations offer a number of transitional exceptions to this deduction limit for pre-existing compensation plans, arrangements and binding contracts. As a result, the Compensation Committee believes that at the present time it is quite unlikely that the compensation paid to any officer in a taxable year which is subject to the deduction limit will exceed \$1 million. Therefore, the Compensation Committee has not yet established a policy for determining which forms of incentive

25

compensation awarded to our officers shall be designed to qualify as "performance-based compensation." The Compensation Committee intends to continue to evaluate the effects of the statute and Treasury regulations.

This subsection 5(c) shall not apply (i) prior to the date of the first registration of an equity security of the Company under Section 12 of the Exchange Act, or (ii) if the Board or Committee expressly declares that it shall not apply.

(d) No person shall be eligible for the grant of an Option or an award to purchase

restricted stock if, at the time of grant, such person owns (or is deemed to own pursuant to Section 424(d) of the Code) stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or of any of its Affiliates unless the exercise price of such Option is at least one hundred ten percent (110%) of the Fair Market Value of such stock at the date of grant and the Option is not exercisable after the expiration of five (5) years from the date of grant, or in the case of a restricted stock purchase award, the purchase price is at least one hundred percent (100%) of the Fair Market Value of such stock at the date of grant.

6. OPTION PROVISIONS.

Each Option shall be in such form and shall contain such terms and conditions as the Board shall deem appropriate. The provisions of separate Options need not be identical, but each Option shall include (through incorporation of provisions hereof by reference in the Option or otherwise) the substance of each of the following provisions:

(a) Term. No Option shall be exercisable after the expiration of ten (10) years from the date it was granted.

(b) Price. The exercise price of each Incentive Stock Option shall be not less than one hundred percent (100%) of the Fair Market Value of the stock

subject to the Option on the date the Option is granted; the exercise price of each Nonstatutory Stock Option shall be determined by the Board. Notwithstanding the foregoing, an Option (whether an Incentive Stock Option or a Nonstatutory Stock Option) may be granted with an exercise price lower than that set forth in the preceding sentence if such Option is granted pursuant to an assumption or substitution for another option in a manner satisfying the provisions of Section 424(a) of the Code.

(c) Consideration. The purchase price of stock acquired pursuant to an Option shall be paid, to the extent permitted by applicable statutes and regulations, either (i) in cash at the time the Option is exercised, or (ii) at the discretion of the Board or the Committee, at the time of the grant of the Option, (A) by delivery to the Company of other common stock of the Company, (B) according to a deferred payment or other arrangement (which may include, without limiting the generality of the foregoing, the use of other common stock of the Company) with the person to whom the Option is granted or to whom the Option is transferred pursuant to subsection 6(d), or (C) in any other form of legal consideration that may be acceptable to the Board.

In the case of any deferred payment arrangement, interest shall be payable at least annually and shall be charged at the minimum rate of interest necessary to avoid the treatment as interest, under any applicable provisions of the Code, of any amounts other than amounts stated to be interest under the deferred payment arrangement.

(d) Transferability. An Incentive Stock Option shall not be transferable except by will or by the laws of descent and distribution, and shall be exercisable during the lifetime of the person to whom the Incentive Stock Option is granted only by such person. A Nonstatutory Stock Option shall not be transferable except by will or by the laws of descent and distribution or pursuant to a qualified domestic relations order satisfying the requirements of Rule 16b-3 and any administrative interpretations or pronouncements thereunder (a "QDRO"), and shall be exercisable during the lifetime of the person to whom the Option is granted only by such person or any transferee pursuant to a QDRO. Notwithstanding the foregoing, the person to whom the Option is granted may, by

delivering written notice to the Company, in a form satisfactory to the Company, designate a third party who, in the event of the death of the Optionee, shall thereafter be entitled to exercise the Option.

(e) Vesting. The total number of shares of stock subject to an Option may, but need not, be allotted in periodic installments (which may, but need not, be equal). The Option Agreement may provide that from time to time during each of such installment periods, the Option may become exercisable ("vest") with respect to some or all of the shares allotted to that period, and may be exercised with respect to some or all of the shares allotted to such period and/or any prior period as to which the Option became vested but was not fully exercised. The Option may be subject to such other terms and conditions on the time or times when it may be exercised (which may be based on performance or other criteria) as the Board may deem appropriate. The provisions of this subsection 6(e) are subject to any Option provisions governing the minimum number of shares as to which an Option may be exercised.

(f) Termination of Employment or Relationship as a Director or Consultant. In the event an Optionee's Continuous Status as an Employee, Director or Consultant terminates (other than upon the Optionee's death or disability), the Optionee may exercise his or her Option (to the extent that the Optionee was entitled to exercise it at the date of termination) but only within such period of time ending on the earlier of (i) the date three (3) months after the termination of the Optionee's Continuous Status as an Employee, Director or

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form DEF 14A

Consultant (or such longer or shorter period specified in the Option Agreement), or (ii) the expiration of the term of the Option as set forth in the Option Agreement. If, after termination, the Optionee does not exercise his or her Option within the time specified in the Option Agreement, the Option shall terminate, and the shares covered by such Option shall revert to and again become available for issuance under the Plan.

An Optionee's Option Agreement may also provide that if the exercise of the Option following the termination of the Optionee's Continuous Status as an Employee, Director, or Consultant (other than upon the Optionee's death or disability) would result in liability under Section 16(b) of the Exchange Act, then the Option shall terminate on the earlier of (i) the expiration of the term of the Option set forth in the Option Agreement, or (ii) the tenth (10th) day after the last date on which such exercise would result in such liability under Section 16(b) of the Exchange Act. Finally, an Optionee's Option Agreement may also provide that if the exercise of the Option following the termination of the Optionee's Continuous Status as an Employee, Director or Consultant (other than upon the Optionee's death or disability) would be prohibited at any time solely because the issuance of shares would violate the registration requirements under the Act, then the Option shall terminate on the earlier of (i) the expiration of the term of the Option set forth in the first paragraph of this subsection 6(f), or (ii) the expiration of a period of three (3) months after the termination of the Optionee's Continuous Status as an Employee, Director or Consultant during which the exercise of the Option would not be in violation of such registration requirements.

(g) Disability of Optionee. In the event an Optionee's Continuous Status as an Employee, Director or Consultant terminates as a result of the Optionee's disability, the Optionee may exercise his or her Option (to the extent that the Optionee was entitled to exercise it at the date of termination), but only within such period of time ending on the earlier of (i) the date twelve (12) months following such termination (or such longer or shorter period specified in the Option Agreement), or (ii) the expiration of the term of the Option as set forth in the Option Agreement. If,

at the date of termination, the Optionee is not entitled to exercise his or her entire Option, the shares covered by the unexercisable portion of the Option shall revert to and again become available for issuance under the Plan. If, after termination, the Optionee does not exercise his or her Option within the time specified herein, the Option shall terminate, and the shares covered by such Option shall revert to and again become available for issuance under the Plan.

(h) Death of Optionee. In the event of the death of an Optionee during, or within a period specified in the Option after the termination of, the Optionee's Continuous Status as an Employee, Director or Consultant, the Option may be exercised (to the extent the Optionee was entitled to exercise the Option at the date of death) by the Optionee's estate, by a person who acquired the right to exercise the Option by bequest or inheritance or by a person designated to exercise the option upon the Optionee's death pursuant to subsection 6(d), but only within the period ending on the earlier of (i) the date eighteen (18) months following the date of death (or such longer or shorter period specified in the Option Agreement), or (ii) the expiration of the term of such Option as set forth in the Option Agreement. If, at the time of death, the Optionee was not entitled to exercise his or her entire Option, the shares covered by the unexercisable portion of the Option shall revert to and again become available for issuance under the Plan. If, after death, the Option is not exercised within the time specified herein, the Option shall terminate, and the shares covered by such Option shall revert to and again become available for issuance under the Plan.

(i) Early Exercise. The Option may, but need not, include a provision whereby the Optionee may elect at any time while an Employee, Director or Consultant to exercise the Option as to any part or all of the shares subject to the Option prior to the full vesting of the Option. Any unvested shares so purchased shall be subject to a repurchase right in favor of the Company, with the repurchase price to be equal to the original purchase price of the stock, or to any other restriction the Board determines to be appropriate.

(j) Re-Load Options. Without in any way limiting the authority of the Board or Committee to make or not to make grants of Options hereunder, the Board or Committee shall have the authority (but not an obligation) to include as part of any Option Agreement a provision entitling the Optionee to a further Option (a "Re-Load Option") in the event the Optionee exercises the Option evidenced by the Option agreement, in whole or in part, by surrendering other shares of Common Stock in accordance with this Plan and the terms and conditions of the Option Agreement. Any such Re-Load Option (i) shall be for a number of shares equal to the number of shares surrendered as part or all of the exercise price of such Option; (ii) shall have an expiration date which is the same as the expiration date of the Option the exercise of which gave rise to such Re-Load Option; and (iii) shall have an exercise price which is equal to one hundred percent (100%) of the Fair Market Value of the Common Stock subject to the Re-Load Option on the date of exercise of the original Option. Notwithstanding the foregoing, a Re-Load Option which is an Incentive Stock Option and which is granted to a 10% stockholder (as described in subsection 5(c)), shall have an exercise price which is equal to one hundred ten percent (110%) of the Fair Market Value of the stock subject to the Re-Load Option on the date of exercise of the original Option and shall have a term which is no longer than five (5) years.

Any such Re-Load Option may be an Incentive Stock Option or a Nonstatutory Stock Option, as the Board or Committee may designate at the time of the grant of the original Option; provided, however, that the designation of any Re-Load Option as an Incentive Stock Option shall be subject to the one hundred thousand dollar (\$100,000) annual limitation on exercisability of Incentive Stock Options described in subsection 12(e) of the Plan and in Section 422(d) of the Code. There shall be no Re-Load Options on a Re-Load Option. Any such Re-Load Option shall be subject to the availability of sufficient shares under subsection 4(a) and shall be subject to such other terms and conditions as the Board or Committee may determine which are not inconsistent with the express provisions of the Plan regarding the terms of Options.

7. TERMS OF STOCK BONUS AND PURCHASES OF RESTRICTED STOCK.

Each stock bonus or restricted stock purchase agreement shall be in such form and shall contain such terms and conditions as the Board or the Committee shall deem appropriate. The terms and conditions of stock bonus or restricted stock purchase agreements may change from time to time, and the terms and conditions of separate agreements need not be identical, but each stock bonus or restricted stock purchase agreement shall include (through incorporation of provisions hereof by reference in the agreement or otherwise) the substance of each of the following provisions as appropriate:

(a) Purchase Price. The purchase price under each restricted stock purchase agreement shall be such amount as the Board or Committee shall determine and designate in such agreement, but in no event shall the purchase price be less than eighty-five percent (85%) of the stock's Fair Market Value on the date such award is made. Notwithstanding the foregoing, the Board or the Committee may determine that eligible participants in the Plan may be awarded stock pursuant to a stock bonus agreement in consideration for past services

actually rendered to the Company or for its benefit.

(b) Transferability. No rights under a stock bonus or restricted stock purchase agreement shall be transferable except by will or the laws of descent and distribution or pursuant to a qualified domestic relations order satisfying the requirements of Rule 16b-3 and any administrative interpretations or pronouncements thereunder, so long as stock awarded under such agreement remains subject to the terms of the agreement.

(c) Consideration. The purchase price of stock acquired pursuant to a stock purchase agreement shall be paid either: (i) in cash at the time of purchase; (ii) at the discretion of the Board or the Committee, according to a deferred payment or other arrangement with the person to whom the stock is sold; or (iii) in any other form of legal consideration that may be acceptable to the Board or the Committee in its discretion. Notwithstanding the foregoing, the Board or the Committee to which administration of the Plan has been delegated may award stock pursuant to a stock bonus agreement in consideration for past services actually rendered to the Company or for its benefit.

(d) Vesting. Shares of stock sold or awarded under the Plan may, but need not, be subject to a repurchase option in favor of the Company in accordance with a vesting schedule to be determined by the Board or the Committee.

(e) Termination of Employment or Relationship as a Director or Consultant. In the event a Participant's Continuous Status as an Employee, Director or Consultant terminates, the Company may repurchase or otherwise reacquire any or all of the shares of stock held by that person which have not vested as of the date of termination under the terms of the stock bonus or restricted stock purchase agre
