NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollar amounts in Millions Except Per Share Amounts)

(Unaudited)

(1) BACKGROUND AND BASIS OF PRESENTATION

Convergys Corporation (the Company or Convergys) is a global leader in customer management, focused on bringing value to its clients through every customer interaction.

Prior to May 2012, the Company had two reportable segments, Customer Management and Information Management. In March 2012, the Company signed a definitive agreement to sell the Information Management line of business to NetCracker Technology Corporation (NetCracker), a wholly owned subsidiary of NEC Corporation (NEC) for \$449.0 in cash. The sale closed in May 2012, for which the Company received \$462.6 in cash proceeds, including working capital adjustments. As a result of the sale of the Information Management line of business, the operating results related to Information Management have been reflected as discontinued operations for the first six months of 2012. The total gain on the sale of the Information Management business amounted to \$99.8 pretax, and \$16.2, net of taxes at December 31, 2012. During the three and six months ended June 30, 2013, the Company recorded an additional gain of \$1.4 and loss of \$3.7, respectively, net of tax, related to the gain on sale as certain contingencies settled. As of December 31, 2012, the Company maintained one reportable segment, reflecting the internal financial reporting structure and operating focus of the management team and chief operating decision maker.

On April 30, 2013, the Company acquired New Zealand-based Datacom's contact center operations with facilities in Kuala Lumpur, Malaysia and Manila, Philippines for \$20.0 AUD (approximately \$20 USD). The acquisition added 15 Asian languages to Convergys' language capabilities and approximately 1,000 employees, working in three Southeast Asia contact centers, to Convergys' global operations. See Note 13.

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting (U.S. GAAP) and U.S. Securities and Exchange Commission (SEC) regulations, and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown. All adjustments are of a normal and recurring nature. Certain information and footnote disclosures normally included in Financial Statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. Interim Consolidated Financial Statements are not necessarily indicative of the financial position or operating results for an entire year. These interim Consolidated Financial Statements should be read in conjunction with the audited Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, filed on February 21, 2013. Certain balances in prior years have been reclassified to conform to the current year presentation.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In July 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-02, "Intangibles - Goodwill and Other: Testing Indefinite-Lived Intangible Assets for Impairment." The standard is intended to reduce the cost and complexity of testing indefinite-lived intangible assets other than goodwill for impairment by providing entities with an option to perform a qualitative assessment to determine whether further impairment testing is necessary. The approach is similar to the guidance in ASU 2011-08 finalized in 2011 for goodwill impairment testing. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012 and early adoption is permitted. The Company adopted ASU 2012-02 effective January 1, 2013, which did not have a material effect on the consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income." The standard requires an entity to present (either on the face of the statement where net income is presented or in the notes) the effects on the line items of net income of significant amounts reclassified out of accumulated other comprehensive income if the item reclassified is required

under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For reclassification items not required under U.S. GAAP to be reclassified directly to net income in their entirety in the same reporting period, an entity is required to cross-reference to other disclosures currently required under U.S. GAAP that provide additional detail about those amounts. ASU 2013-02 applies to all public and private companies that report items of other comprehensive income. ASU 2013-02 is effective for reporting periods beginning after December 15, 2012, with prospective adoption required. The Company adopted ASU 2013-02 effective January 1, 2013. See Note 15.

(3) DIVESTITURES AND DISCONTINUED OPERATIONS

On May 16, 2012, the Company completed the sale of its Information Management line of business to NEC Corporation for \$449.0 in cash. The Company recorded a gain of \$99.8 pretax and \$16.2, net of taxes in 2012. The sale of Information

Table of Contents

Management was a taxable transaction that resulted in \$83.6 being recorded for the combined federal, state and foreign income tax obligations in 2012. The high effective tax rate is primarily due to a lower basis in net assets, including goodwill, for tax purposes compared to their book basis. The gain on sale included the elimination of \$201.7 of goodwill and intangible assets. During the three and six months ended June 30, 2013, the Company recorded an additional gain of \$1.4 and loss of \$3.7, respectively, net of tax, related to the gain on sale as certain contingencies settled.

The results of the Information Management business have been classified as discontinued operations for the first six months of 2012. Certain costs previously allocated to the Information Management segment that do not qualify for discontinued operations accounting treatment are now reported as costs from continuing operations. These costs were \$2.8 and \$8.8 for the three and six months ended June 30, 2012, respectively. The Company is taking actions to reduce these costs and expects transition services revenue from services provided to the buyer subsequent to completion of the sale to offset a substantially all of these costs. During the three and six months ended June 30, 2013, the Company earned \$4.6 and \$9.5, respectively, in revenue under these transition services agreements. While the transition services agreements vary in duration up to 24 months from the date of sale depending upon the type of service provided, the Company expects to substantially eliminate the underlying costs as the transition services are completed.

The results of the Information Management business included in discontinued operations for the three and six months ended June 30, 2013 and 2012 are summarized as follows:

	Three Months Ended June 30,		Six Months Ended June 30,		
	2013	2012	2013	2012	
Revenue	\$—	\$46.8	\$—	\$128.8

Income (loss) from discontinued operations, net of tax	\$1.4	\$68.3	\$(3.7) \$73.0	

(1) Excludes costs previously allocated to Information Management that did not meet the criteria for presentation within discontinued operations of \$2.8 and \$8.8 for the three and six months ended June 30, 2012, respectively.

(2) Includes \$13.7 and \$18.6 of transaction costs related to the sale for the three and six months ended June 30, 2012, respectively.

(4) EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY**Earnings per Share**

The following is a reconciliation of the numerator and denominator of the basic and diluted earnings per share (EPS) computations:

Table of Contents

		Continuing Operations		Discontinued Operations		Total

Diluted EPS	115.4	\$(53.7)	\$(0.47)	\$68.3	\$0.60	\$0.13

Six Months Ended June 30, 2012

Basic EPS	115.7	\$(32.3)	\$(0.28)	\$73.0	\$0.63	\$0.35
Effect of dilutive securities:						
Stock-based compensation arrangements	—	—	—	—	—	—
Convertible Debt	—	—	—	—	—	—
Diluted EPS	115.7	\$(32.3)	\$(0.28)	\$73.0	\$0.63	\$0.35

The diluted EPS calculation excludes the effect of 0.7 outstanding stock options for the three and six months ended June 30, 2013 and 1.9 outstanding stock options for the three and six months ended June 30, 2012 because their effect is anti-dilutive. The calculation also excludes the effect of 0.9 and 1.1 restricted stock units for the three and six months ended June 30, 2013, respectively, and 3.4 shares related to the 2029 Convertible Debentures for the three and six months ended June 30, 2013 because their effect is anti-dilutive. As the Company reported a Net Loss from Continuing Operations for the three and six months ended June 30, 2012, diluted shares outstanding are equivalent to basic shares outstanding. The calculation at June 30, 2013 also excludes 0.3 and 0.3 performance-based restricted stock units granted in 2013 and 2012 as performance criteria have not yet been met.

As described more fully in Note 8, the Company issued approximately \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due 2029 (2029 Convertible Debentures). The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand in principal amount of debentures. The conversion rate is subject to adjustment for certain events outlined in the indenture governing the Debentures (the Indenture), including payment of dividends. As of June 30, 2013, the implied conversion rate for the Convertible Debentures was \$11.88 per share, or eighty-four and two tenths shares per one thousand in principal amount of debentures. There were 3.4 dilutive shares related to the 2029 Convertible Debentures for the three and six months ended June 30, 2013.

Shareholders' Equity

The Company repurchased 1.5 and 3.6 shares of its common stock during the three and six months ended June 30, 2013 at an average price of \$16.43 and \$16.56 per share for a total of \$25.3 and \$60.7 under the Company's existing

defined repurchase

plans. As of June 30, 2013, the Company had the authority to repurchase an additional \$192.0 of outstanding common shares pursuant to current authorizations.

Dividends

During 2012 and 2013, the Company's Board of Directors approved, and the Company has paid, the following dividends:

Announcement Date	Record Date	Dividend Amount	Payment Date
May 8, 2012	June 22, 2012	\$0.05	July 6, 2012
July 26, 2012	September 21, 2012	\$0.05	October 5, 2012

April 30, 2013	June 21, 2013	\$0.06	July 5, 2013

On July 30, 2013, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.06 to be paid on October 4, 2013 to shareholders of record as of September 20, 2013.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors.

(5) EMPLOYEE BENEFIT PLANS

The Company sponsors a frozen defined benefit pension plan, which includes both a qualified and non-qualified portion, for eligible employees (the Cash Balance Plan) in North America. The Company recorded a liability of \$47.8 and \$70.0 as of June 30, 2013 and December 31, 2012, respectively, for the Cash Balance Plan. In addition, the Company sponsors an unfunded defined benefit plan for certain eligible employees in the Philippines. The Company recorded a liability of \$26.1 and \$23.8 as of June 30, 2013 and December 31, 2012, respectively, for the Philippines plan. Components of pension cost for these plans are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Interest cost on projected benefit obligation	\$3.4	\$2.9	\$6.2	\$5.9

Settlement charge	7.5	—	7.5	—
Pension cost	\$12.9	\$4.7	\$18.5	\$8.9

During the second quarter of 2013, the Company recognized a \$7.5 non-cash pension settlement charge. The Company contributed \$10.0 to fund the Cash Balance Plan during the first six months of 2013. Pension cost includes expense related to discontinued operations of \$1.1 for the six months ended June 30, 2012. The Company recognized a \$0.2 curtailment benefit during the second quarter of 2012 related to the impact of the sale of the Information Management business.

The Company also sponsors a non-qualified, unfunded executive deferred compensation plan and a supplemental, non-qualified, unfunded plan for certain senior executive officers. Components of pension cost for the unfunded executive pension plans are as follows:

During the six months ended June 30, 2013, the Company recognized a settlement loss of \$0.2 related to the supplemental, non-qualified, unfunded plan and a settlement gain of \$0.2 related to the unfunded executive compensation plan. Subsequent to recognition of the settlement loss related to the supplemental, non-qualified, unfunded plan, this plan has been fully settled. The Company recognized a \$0.2 curtailment benefit during the second quarter of 2012 related to the impact of the sale of the Information Management business.

(6) RESTRUCTURING**2012 Restructuring**

During 2012, the Company recorded restructuring charges of \$11.6, consisting of \$11.4 of severance-related charges and \$0.2 of facility-related charges, as described below. Second quarter of 2012 results included \$6.4 of Corporate charges related to the changes in the Company's executive team and realignment of Corporate overhead as a result of the sale of the Information Management business and \$1.2 of severance costs related to ongoing operations, impacting approximately 100 professional employees. The \$11.4 of full-year severance-related charges impacted approximately 100 professional employees and reflect the change in the Company's executive management team and realignment of Corporate overhead as a result of the sale of the Information Management business. These severance-related charges were substantially paid in cash by June 30, 2013 pursuant to the Company's severance policies. The total remaining liability under this severance-related restructuring plan, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$0.7 as of June 30, 2013 and \$5.2 as of December 31, 2012.

Facilities Restructuring

The Company's facilities restructuring reserves are equal to the estimated future costs associated with the facilities, net of proceeds from any probable future sublease agreements. The Company uses estimates, based on consultation with the Company's real estate advisers, to determine the proceeds from any future sublease agreements. The Company continues to evaluate these estimates in assessing the facilities abandonment liability. The remaining liability for previously exited facilities, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$0.1 as of June 30, 2013 and \$0.3 as of December 31, 2012.

(7) STOCK-BASED COMPENSATION PLANS

The Company's operating results for the three and six months ended June 30, 2013 included long-term incentive plan expense of \$2.9 and \$7.4 compared to \$5.3 and \$10.5 for the same period in 2012. Long-term incentive plan expense includes expense related to discontinued operations of \$0.6 and \$1.4 for the three and six months ended June 30, 2012. Long-term incentive plan expense includes: (a) incentive plan expense that is paid in cash based on relative shareholder return and (b) stock compensation expense. Stock compensation expense for the three and six months ended June 30, 2013 was \$2.9 and \$7.4 compared to \$5.4 and \$10.6 for the same period in 2012.

Stock Options

A summary of stock option activity for the six months ended June 30, 2013 is presented below:

Table of Contents

Stock compensation expense for the 2011 and 2012 stock option grants was \$0.2 and \$0.5, respectively, for the three and six months ended June 30, 2013.

Restricted Stock Awards

During the six months ended June 30, 2013 and 2012, the Company granted 1.1 shares and 1.5 shares, respectively, of restricted stock units. The weighted-average fair values of these grants were \$16.33 and \$12.93 per share, respectively. Included in these amounts were 0.4 shares and 0.6 shares, respectively, of performance-based restricted stock units granted at the fair value of \$16.22 and \$12.93 per share, respectively, equal to the Company's share price at grant date, that vest upon the Company's satisfaction of certain financial performance conditions.

The 2013 performance-based grants include 0.3 shares that provide for payout based upon the extent to which the Company achieves certain EPS targets, as determined by the Compensation and Benefits Committee of the Board of Directors, over a three-year period. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. As the targets for the second and third year have not yet been set, the key terms have not been effectively communicated to the recipients; as such the expense related to these grants cannot be recognized until such terms are established. These grants have been excluded from the table below. The remaining 0.1 of performance-based shares granted in 2013 vested immediately.

The 2012 performance-related grants provide for payout based upon the extent to which the Company achieves certain EBITDA targets, as determined by the Compensation and Benefits Committee of the Board of Directors for this award, over a two-year period. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. Compensation cost related to these 2012 grants is adjusted based upon expected performance as compared to defined targets.

The 2013 time-based grants are scheduled to vest 25% at the completion of year one after the grant date, 25% after year two and 50% after year three. The 2012 time-based grants are scheduled to vest 50% at the end of year two and 50% at the end of year three. The 2011 time-based grants vested 50% at the completion of year two after grant date with the remaining 50% scheduled to vest at the end of year three.

The total compensation cost related to non-vested time-based and performance-based restricted stock units not yet recognized as of June 30, 2013 was approximately \$14.2 and \$2.6, respectively, which is expected to be recognized over a weighted average of 1.1 years and 0.4 years, respectively. Changes to non-vested time-based and performance-based restricted stock and restricted stock units for the six months ended June 30, 2013 were as follows:

Time-based Restricted Stock Units

(8) DEBT AND CAPITAL LEASE OBLIGATIONS

Debt and capital lease obligations consist of the following:

	June 30, 2013	December 31, 2012
Revolving credit facilities	\$—	\$—
2029 Convertible Debentures	58.9	58.4
Capital Lease Obligations	2.1	2.2
Accounts Receivable Securitization	—	—
Total debt	61.0	60.6
Less current maturities	0.9	0.7
Long-term debt	\$60.1	\$59.9

On March 11, 2011, the Company entered into a \$300.0 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the 2011 Credit Facility), replacing the Company's \$400.0 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the 2006 Credit Facility), which was terminated at that time. Convergys has two borrowing options available under the 2011 Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the 2011 Credit Facility bear interest at one of the rates described in the 2011 Credit Facility. The maturity date of the 2011 Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, Convergys may extend the maturity date by one year, twice during the term. Convergys will pay an annual facility fee regardless of utilization. At June 30, 2013, the facility was undrawn. The Company was in compliance with all covenants at June 30, 2013.

In the fourth quarter of 2009, the Company announced an offer to exchange one thousand twenty dollars in principal amount of its 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one thousand dollars in principal amount of its 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. Convergys issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. At the date of issuance, the Company recognized the liability component of the 2029 Convertible Debenture at its fair value of \$56.3. The liability component is recognized as the fair value of a similar instrument that does not have a conversion feature at issuance. The equity component, which is the value of the conversion feature at issuance, was recognized as the difference between the proceeds from the issuance of the debentures and the fair value of the liability component, after adjusting for the deferred tax impact of \$32.7. The 2029 Convertible Debentures were issued at a coupon rate of 5.75%, which was below that of a similar instrument that does not have a conversion feature. Therefore, the valuation of the debt component, using the income approach, resulted in a debt discount. The debt discount will be amortized over the life of a similar debt instrument without a conversion feature, which the Company determined to equal the contractual maturity of the 2029 Convertible Debentures. Amortization is based upon the effective interest rate method and will be included within the interest expense caption in the accompanying Consolidated Statements of Income.

The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares of the Company's common stock per one thousand dollars in principal amount of Debentures. As of June 30, 2013, the implied conversion rate for the Convertible Debentures was \$11.88 per share, or eighty-four and two tenths per one thousand in principal amount of debentures. Upon conversion, the Company will pay cash up to the aggregate principal amount of the converted 2029 Convertible Debentures and settle the remainder of the conversion value of the Debentures in cash or stock at the Company's option. The conversion rate will be subject to adjustment for certain events outlined in the indenture governing the Debentures

Table of Contents

(the Indenture), including payment of dividends. The conversion rate will increase for a holder who elects to convert this Debenture in connection with certain share exchanges, mergers or consolidations involving the Company, as described in the Indenture. The 2029 Convertible Debentures, which pay a fixed rate of interest semi-annually, have a contingent interest component that will require the Company to pay interest based on the trading price of the Debentures exceeding a specified threshold at specified times, commencing on September 15, 2019, as outlined in the Indenture. The maximum amount of contingent interest that will accrue is 0.75% per annum of the average trading price of the Debentures during the periods specified in the Indenture. The fair value of this embedded derivative was not significant at June 30, 2013 or December 31, 2012.

During June 2011, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in June 2014. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. As of June 30, 2013 and December 31, 2012, the facility was undrawn.

At June 30, 2013, future minimum payments of the Company's debt arrangements are as follows:

Remainder of 2013 and 2014	\$1.1
2015	0.9
2016	—
2017	—
2018	—
Thereafter	125.0
Total	\$127.0

(9) COMMITMENTS AND CONTINGENCIES**Commitments**

At June 30, 2013, the Company had outstanding letters of credit of \$39.2 and other bond obligations of \$1.5 related to performance and payment guarantees. The Company believes that any guarantee obligation that may arise will not be material. The Company also has purchase commitments with telecommunications providers of \$6.5 for the remainder of 2013.

At June 30, 2013, the Company had an outstanding performance bond obligation of \$30.0 related to a performance and payment guarantee for the Company's former HR Management line of business which was sold in 2010 to NorthgateArinso. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for this bond obligation. As part of the gain on disposition, the Company recognized a liability equal to the present value of probability weighted cash flows of potential outcomes, a Level 3 fair value measurement. Although the buyer is obligated to indemnify the Company for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of June 30, 2013, the Company maintains a liability of \$1.0 for these obligations.

Contingencies

The Company from time to time is involved in various loss contingencies, including tax and legal contingencies that arise in the ordinary course of business. The Company accrues for a loss contingency when it is probable that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that the results of any such contingencies, either individually or in the aggregate, will not have a materially adverse effect on the Company's results of operations or financial condition. However, the outcome of any litigation cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a materially adverse impact on the Company's results of operations or financial condition in the future.

In November 2011, one of the Company's call center clients, Hyundai Motor America ("Hyundai"), tendered a contractual indemnity claim to Convergys Customer Management Group, Inc., a subsidiary of the Company, relating to a putative class action captioned Brandon Wheelock, individually and on behalf of a class and subclass of similarly situated individuals, v. Hyundai Motor America, Orange County Superior Court, California, Case No. 30-2011-00522293-CU-BT-CJC. The lawsuit alleges that Hyundai violated California's telephone recording laws by

recording telephone calls with customer service representatives without providing a disclosure that the calls might be recorded. Plaintiff is seeking, among other things, an order certifying the suit as a California class action, statutory damages, payment of attorneys' fees and pre- and post-judgment interest. Convergys Customer Management Group, Inc. is not named as a defendant in the lawsuit. On March 5, 2012, the court sustained a demurrer filed by Hyundai to one of the Plaintiff's causes of action, but overruled the demurrer as the Plaintiff's other cause of action. On March 15,

Table of Contents

2012, Plaintiff filed an amended complaint. Hyundai answered the amended complaint on April 16, 2012, by generally denying the allegations and asserting certain affirmative defenses. On May 7, 2012, Hyundai filed a motion for summary judgment based on Hyundai's claim that an exemption under the California recording laws was intended to exempt the type of recording done by Hyundai's call centers. On February 5, 2013, the court denied the motion, and on July 2, 2013, the California Court of Appeal, Fourth Appellate District, denied Hyundai's petition for writ of mandate requesting that the court of appeal issue a petition directing the trial court to vacate its prior order and enter a new order granting Hyundai's motion for summary judgment. On July 12, 2013, Hyundai petitioned the Supreme Court of the State of California to grant review and either (1) transfer the case to the Court of Appeals and direct the Court of Appeals to issue a decision on the merits; or (2) issue a decision on the merits in a manner that interprets the exemption under the California recording laws to exempt Hyundai from liability in the case. The supreme court has not yet ruled on Hyundai's petition for writ of review.

Convergys Customer Management Group, Inc. is not named as a defendant in the lawsuit, and there has been no determination as to whether Convergys Customer Management Group, Inc. will be required to indemnify Hyundai. The Company believes Convergys Customer Management Group, Inc. has meritorious defenses to Hyundai's demand for indemnification and also believes there are meritorious defenses to Plaintiff's claims in the lawsuit. The likelihood of losses that may become payable under such claims, the amount of reasonably possible losses associated with such claims, and whether such losses may be material cannot be determined or estimated at this time. For these reasons, the Company has not established a reserve with respect to this matter.

On March 28, 2013, the Company received a demand from a subsidiary of NEC Corporation for defense and indemnification under the stock and asset purchase agreement among the Company, NEC Corporation and the subsidiary with respect to the sale by the Company of its Information Management business. The demand was made in connection with a third party claim that, among other things, the business lacked certain necessary software licenses at the time of the sale. On May 10, 2013, the parties completed a settlement agreement. The Company settled in cash its obligations under this agreement during the second quarter of 2013. The final settlement did not have a material adverse impact on the Company's results of operations or financial conditions.

(10) FAIR VALUE DISCLOSURES

U.S. GAAP defines a hierarchy which prioritizes the inputs in measuring fair value. The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At June 30, 2013 and December 31, 2012, the Company had foreign currency forward contracts measured at fair value. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2013 and 2012. The assets and liabilities measured at fair value on a recurring basis as of June 30, 2013 and December 31, 2012 were as follows:

	June 30, 2013	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

The Company also had investment securities held in a grantor trust for the benefit of participants of the executive deferred compensation plan measured at fair value at June 30, 2013 and December 31, 2012. The fair value of these instruments was measured using the quoted prices in active markets for identical assets (Level 1). There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2013 and 2012. The assets measured at fair value on a recurring basis as of June 30, 2013 and December 31, 2012 were as follows:

At June 30, 2013, the Company held time deposits with maturities greater than 90 days and less than 180 days measured at fair value. The valuation technique used to measure the fair value of the time deposits was based on quoted market prices or model driven valuations using significant inputs derived from or corroborated by observable market data. There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2013 and 2012. The assets measured at fair value on a recurring basis as of June 30, 2013 and December 31, 2012 were as follows:

	June 30, 2013	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Fair values of cash equivalents and current accounts receivable and payable approximate the carrying amounts because of their short-term nature. The fair value of short-term debt approximates its recorded value because of its short-term nature. Based on quoted market prices at June 30, 2013, the fair value of the \$125.0 of the Company's 2029 Convertible Debentures is \$210.5.

(11) FINANCIAL INSTRUMENTS

Derivative Instruments

The Company is exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange rates.

The Company serves many of its U.S.-based clients using contact center capacity in the Philippines, India, Canada and Colombia. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR), Canadian dollars (CAD) or Colombian pesos (COP), which represents a foreign exchange exposure. The Company also maintains a contract with a client priced in Australian dollars (AUD). The Company has hedged a portion of its exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward exchange contracts and options with several financial institutions to acquire a total of PHP 28,110.0 at a fixed price of \$660.0 at various dates through December 2016, INR 12,423.5 at a fixed price of \$213.8 at various dates through December 2016, CAD 35.9 at a fixed price of \$34.7 at various dates through December 2015 and COP 32,700.0 at a fixed price of \$17.0 at various dates through December 2014, and to sell a total of AUD 46.9 at a fixed price of \$47.9 at various dates through September 2014. These instruments mature within the next 42 months and had a notional value of \$973.4 at June 30, 2013 and \$590.4 at December 31, 2012. The derivative instruments discussed above are designated and effective as cash flow hedges. The following table reflects the fair values of these derivative instruments:

	June 30, 2013	December 31, 2012
Forward exchange contracts and options designated as hedging instruments:		
Included within other current assets	\$8.9	\$16.4
Included within other non-current assets	2.9	11.6
Included within other current liabilities	18.3	6.0
Included within other long-term liabilities	20.2	3.5

The Company recorded a deferred tax benefit of \$10.3 and a deferred tax expense of \$7.1 related to these derivatives at June 30, 2013 and December 31, 2012, respectively. A total of \$16.4 of deferred losses and \$11.4 of deferred gains, net of tax, related to these cash flow hedges at June 30, 2013 and December 31, 2012, respectively, were included in accumulated other comprehensive loss (OCL). As of June 30, 2013, deferred losses of \$9.4 (\$5.8 net of tax), on derivative instruments included in accumulated OCL are expected to be reclassified into earnings during the next twelve months. The following table provides the effect of these derivative instruments on the Company's Consolidated Financial Statements for the three and six months ended June 30, 2013 and 2012:

	Gain (Loss) Recognized in OCL on Derivative (Effective Portion)	Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)	Location of Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)

Table of Contents

The amount recognized related to the ineffective portion of the derivative instruments was not material for the six months ended June 30, 2013.

The Company also enters into derivative instruments (forwards) to economically hedge the foreign currency impact of assets and liabilities denominated in nonfunctional currencies. The Company recorded a net gain of \$4.0 and \$1.0 during the six months ended June 30, 2013 and 2012, respectively, related to changes in fair value of these derivative instruments not designated as hedges. The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies. These gains and losses are classified within other income, net in the accompanying Consolidated Statements of Income. The fair value of these derivative instruments not designated as hedges at June 30, 2013 was \$3.3.

The aggregate fair value of all derivative instruments in a liability position on June 30, 2013 is \$38.5.

Short Term Investments

In December 2011, the Company made investments in certain securities, included within short-term investments in the Consolidated Balance Sheets, which are held in a grantor trust for the benefit of participants of the executive deferred compensation plan, which was frozen during the fourth quarter of 2011. This investment was made in securities reflecting the hypothetical investment balances of plan participants. As of June 30, 2013, the Company maintained investment securities with a fair value of \$13.0 classified as trading securities. The investment securities include exchange-traded mutual funds, common stock of the Company and money market accounts. These securities are carried at fair value, with gains and losses, both realized and unrealized, reported in other income (expense), net in the Consolidated Statements of Income. The cost of securities sold is based upon the specific identification method.

Interest and dividends on securities classified as trading are included in other income (expense), net.

Additionally, during 2012, the Company made investments in time deposits with maturities greater than 90 days and less than 180 days, included within short-term investments in the Consolidated Balance Sheets. As of June 30, 2013, the Company maintained short-term time deposits with a fair value of \$59.3.

(12) INCOME TAXES

The liability for unrecognized tax benefits was \$51.5 and \$54.0 at June 30, 2013 and December 31, 2012, respectively, and is included in other long-term liabilities in the accompanying Consolidated Balance Sheets. As of June 30, 2013, the total amount of unrecognized tax benefits that would affect income tax expense if recognized in the Consolidated Financial Statements is \$44.0. This amount includes interest and penalties of \$17.2. It is reasonably possible that the total amount of unrecognized tax benefits will decrease between approximately \$2 and \$10 in the next twelve months; however, actual developments in this area could differ from those currently expected.

The effective tax rate on net income from continuing operations was 19.1% and 17.3% for the three and six months ended June 30, 2013 compared to 16.4% and 13.6% in the same period last year. The higher tax rate for the period ended June 30, 2013 is primarily due to a shift in the geographic mix of worldwide income and certain discrete items.

(13) GOODWILL AND OTHER INTANGIBLE AND LONG-LIVED ASSETS

Acquisition of Datacom

On April 30, 2013, the Company acquired the business process outsourcing operations of New Zealand-based Datacom, including contact centers in Kuala Lumpur, Malaysia and Manila, Philippines. The purchase price of \$20.0 AUD included \$15.0 of cash paid at closing and assumptions of \$5.3 of debt obligations which were immediately paid by the Company. The purchase price is subject to final working capital considerations. In connection with the acquisition, the Company recognized \$10.4 of goodwill and a \$6.5 of customer relationship intangible asset. The customer relationship intangible asset will be amortized over an estimated economic useful life of 8 years. The determination of the useful life is based upon consideration of market participant and transaction specific factors. The Company included various industry studies, historical acquisition experience, economic factors, future cash flows of the combined company and the relative stability of the acquired customer base. The entire amount of goodwill acquired is expected to be deductible for tax purposes over a period of 15 years. The intangible assets fall with Level 3 of the fair value hierarchy under U.S. GAAP.

Goodwill and Intangible Assets

Goodwill was \$588.1 at June 30, 2013 compared to \$577.7 at December 31, 2012 due to the acquisition discussed above. Second quarter 2012 results of operations include a \$46.0 goodwill impairment charge recorded within the asset impairment caption in the accompanying Consolidated Statements of Income. The Company tests goodwill for impairment annually as of

18

Table of Contents

October 1 and at other times if events have occurred or circumstances exist that indicate the carrying value of goodwill may no longer be recoverable. Goodwill impairment testing is performed at the reporting unit level, one level below the business segment. The Company's three reporting units prior to the sale of Information Management were CM Live Agents, CM Customer Interaction Technology (CIT) and Information Management.

The impairment test for goodwill involves a two-step process. The first step compares the fair value of a reporting unit with its carrying amount, including the goodwill allocated to each reporting unit. If the carrying amount is in excess of the fair value, the second step requires the comparison of the implied fair value of the reporting unit goodwill with the carrying amount of the reporting unit goodwill. Any excess of the carrying value of the reporting unit goodwill over the implied fair value of the reporting unit goodwill will be recorded as an impairment loss. Fair value of the reporting units is determined using a combination of the market approach and the income approach. Under the market approach, fair value is based on actual stock price or transaction prices of comparable companies. Under the income approach, value is dependent on the present value of net cash flows to be derived from the ownership.

Completion of the sale of the Information Management business qualified as a triggering event for an interim assessment of goodwill impairment for the Company's CIT reporting unit. The sale of the Information Management business impacted the sale of certain products developed by the CIT reporting unit and co-marketed by CIT and the Information Management business. Due in part to this transition, the fair value of the CIT reporting unit was determined to be less than its carrying value. The conclusion of step two of the impairment analysis resulted in the impairment of the entire \$46.0 goodwill balance of this reporting unit. The Company, therefore, recorded a \$46.0 (\$44.4 net of tax) goodwill impairment charge, included within operating income, for the three months ended June 30, 2012. Fair value was determined based on a discounted cash flow analysis which contains significant unobservable inputs that fall within Level 3 of the fair value hierarchy under U.S. GAAP.

Intangible assets (including software and customer relationships) increased to \$35.3 at June 30, 2013 from \$33.7 at December 31, 2012, primarily due to the acquisition, offset by amortization. As of June 30, 2013, the Company's total identifiable intangible assets, acquired primarily through business combinations, consisted of the following:

	Gross Carrying Value	Accumulated Amortization	Net
Software (classified with Property, Plant & Equipment)	\$41.3	\$(28.9)) \$12.4
Trademarks	10.0	(10.0)) —
Customer relationships and other intangibles	126.1	(103.2)) 22.9
Total	\$177.4	\$(142.1)) \$35.3

The intangible assets are being amortized using the following amortizable lives: 5 to 8 years for software, 4 years for trademarks, and 7 to 12 years for customer relationships and other intangibles. The remaining weighted average depreciation period for software is 3.1. The remaining weighted average amortization period for trademarks, customer relationships and other intangibles is 6.6. Amortization of software is included within depreciation expense as the underlying assets are classified within property, plant and equipment.

Trademarks, customer relationships, and other intangibles amortization expense was \$2.6 and \$3.7 for the six months ended June 30, 2013 and 2012, respectively, and is estimated to be approximately \$5.3 for the year ended December 31, 2013. The related estimated expense for the five subsequent years ended December 31 is as follows:

2014	\$4
2015	3
2016	3
2017	3
2018	3
Thereafter	5

Long-Lived Assets

The Company evaluates its property, plant and equipment when events or circumstances indicate a possible inability to recover their carrying amounts. During 2012, the Company committed to a plan to sell its Corporate office facilities in Cincinnati, Ohio. The facility met the "Held-for-Sale" criteria set forth in U.S. GAAP; the book value was adjusted to its fair value less costs to sell, resulting in an impairment charge of \$42.6 (\$27.0 after tax) recorded during the second quarter of 2012. During 2013, the Company committed to sell an additional facility in Dallas, Texas which also resulted in "Held-for-Sale" classification. During

Table of Contents

the second quarter of 2013 the Company recognized a \$1.1 net impairment loss to adjust both facilities to fair value less costs to sell. As of June 30, 2013, \$47.2 of property, plant and equipment was classified as held-for-sale for both facilities. The Company measured assets held-for-sale at the lower of net book value or fair value less cost to sell. Fair value and cost to sell estimates were based on corroborative market data, which is a Level 2 input of the fair value hierarchy under U.S. GAAP. The Company completed the sale of these facilities in July 2013.

ITEM 2.

MANAGEMENT DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Dollar amounts in Millions Except Per Share Amounts)

BACKGROUND

Convergys Corporation (we, the Company or Convergys) is a global leader in customer management, focused on bringing value to our clients through every customer interaction. Over half of the Fortune 50 companies trust us to care for their most important asset: their customers. Our business model allows us to deliver consistent, quality service at the scale and in the geographies that meet our clients' business needs and pro-actively partner to solve client business challenges through our account management model. We leverage our breadth and depth of capabilities to help leading companies create quality customer experiences across multiple channels, while increasing revenue and reducing their cost to serve.

Operations and Structure

Prior to May 2012, we had two reportable segments, Customer Management and Information Management. In March 2012, we signed a definitive agreement to sell the Information Management line of business to NEC Corporation for \$449.0 in cash. The sale closed in May 2012, for which we received \$462.6 in cash, including \$12.9 for working capital adjustments. As a result of the sale of the Information Management business, the operating results and assets and liabilities related to Information Management have been reflected as discontinued operations for all periods presented. The total gain on the sale of the Information Management business amounted to \$99.8 pretax and \$16.2, net of taxes, at December 31, 2012. During the three and six months ended June 30, 2013, we recorded an additional gain of \$1.4 and loss of \$3.7, respectively, net of tax, related to the gain on sale as certain contingencies settled. As of December 31, 2012, we maintained one reportable segment, reflecting the internal financial reporting structure and operating focus of our management team and chief operating decision maker.

On April 30, 2013, we acquired New Zealand-based Datacom's contact center operations with facilities in Kuala Lumpur, Malaysia and Manila, Philippines for \$20.0 AUD (approximately 20 USD). The acquisition added 15 Asian languages to Convergys' language capabilities and approximately 1,000 employees, working in three Southeast Asia contact centers, to Convergys' global operations.

Convergys handles more than 4 billion customer contacts per year. We have approximately 81,000 employees in over 70 locations across the globe and in our work-at-home environment. We provide multilingual, multichannel customer care with global service delivery infrastructure that operates 24 hours a day, 365 days a year.

Agent-related revenues, which accounted for more than 92% of revenues for the six months ended June 30, 2013, are typically recognized as the services are performed based on staffing hours or the number of contacts handled by service agents using contractual rates. Remaining revenues are derived from the sale of premise-based and hosted automated self-care and technology solutions and provision of professional services. Revenues from the sale of these solutions and provision of services are typically recognized as the services are provided over the duration of the contract using contractual rates.

Three Months Ended June 30, 2013 versus Three Months Ended June 30, 2012

Consolidated revenues for the second quarter of 2013 were \$504.3 compared to \$491.1 for the comparable period last year. Revenues from communications clients increased 2% from the second quarter 2012, reflecting volume increases and new programs with several existing clients, partially offset by volume declines with our largest client. Revenues from technology clients increased 12% from the second quarter of 2012, reflecting new programs with an existing client. Revenues from financial services clients decreased 13% from the second quarter of 2012, primarily reflecting a program completion with one client. Other revenues, which are comprised of clients outside the Company's three largest industries, increased 9% from the second quarter of 2012. This increase is attributable to volume increases and new programs with existing clients.

Six Months Ended June 30, 2013 versus Six Months Ended June 30, 2012

Consolidated revenues for the first half of 2013 were \$997.8, a 1% increase from the first half of 2012. Revenues from the communications vertical increased 1% from the first half of 2012 reflecting volume increases and new programs with several existing clients, partially offset by volume declines with our largest client. Revenues from the technology vertical increased 9% from the first half of 2012, primarily due to new programs with existing clients. Revenues from the financial services vertical decreased 13% from the first half of 2012, primarily reflecting a program completion with one client. Other revenues, which are comprised of clients outside of the Company's three largest industries, increased 5% from the first half of 2012 due to volume increases and new programs with existing clients.

Three Months Ended June 30, 2013 versus Three Months Ended June 30, 2012

Consolidated total operating costs and expenses for the second quarter of 2013 of \$474.2 decreased 14% from \$551.6. Total operating costs and expenses for the three months ended 2013 include a \$7.5 non-cash pension settlement charge, included with Selling, general and administrative costs. Based upon changes in the funded status of the plan, the restriction that previously limited retirees to receiving only 50% of their asset value through lump sum distributions was lifted. Therefore, in 2013, retirees are eligible to request remaining balances. As we exceeded the threshold of lump sum payments to recognize a settlement charge in the second quarter of 2013, additional settlement charges may be recognized in subsequent quarters of 2013 as additional lump sum payments are made. Second quarter 2013 also includes \$1.1 of asset impairment charges related to the adjustment to fair value less costs to sell two facilities classified as held-for-sale as of June 30, 2013 and \$1.1 of severance costs incurred and paid within the quarter.

As discussed above, in May 2012, we completed the sale of the Information Management business and, accordingly, the operating results for this business are presented within discontinued operations. Accounting rules require certain costs previously allocated to the Information Management business to be included in continuing operations. These costs prior to the completion of the sale of the Information Management business were \$2.8 in the second quarter of 2012. These amounts are included within selling, general and administrative expenses within continuing operations. We have taken actions to reduce these costs and remaining costs are substantially offset by revenue resulting from transition services provided to the buyer subsequent to the sale. In the second quarter of 2012, the Company recognized \$88.6 non-cash impairment charges, consisting of \$46.0 for the impairment of goodwill in the CIT reporting unit, and \$42.6 for the impairment of certain facilities within Corporate classified as held for sale. Second quarter 2012 results also include corporate restructuring charges resulting from the sale of the Information Management business of \$6.4, severance charges of \$1.2 related to the continuing business, and pension and other post employment benefit plan curtailment benefit of \$2.7 related to changes in the executive management team following the sale.

As a percentage of revenues, the cost of providing services and products sold was 64.9% in the second quarter of 2013 compared to 64.4% in the prior year period, largely due to the classification of costs associated with transition services provided to NEC Corporation. These transition services costs were classified within Selling, general and administrative in the prior year. Selling, general and administrative expenses of \$119.9 in the second quarter of 2013 increased 5% from the prior year period. As a percentage of revenues, selling, general, and administrative cost was 23.8% compared to 23.2% in the prior year. The increase reflects the \$7.5 pension settlement charge in the current period, partially offset by lower stock-based compensation costs. Research and development costs of \$2.2 decreased

\$0.3 from the prior year due to reductions in headcount. Depreciation expense of \$21.2 increased \$0.7 from the prior year reflecting an increase in capital expenditures related to increased capacity. Amortization expense of \$1.4 decreased \$0.4 due to completion of the amortization of certain definite lived intangible assets.

Six Months Ended June 30, 2013 versus Six Months Ended June 30, 2012

Consolidated total operating costs and expenses of \$931.2 decreased 9% from the first half of 2012 costs of \$1,020.1. Operating costs and expenses for the first six months of 2013 include the pension settlement, asset impairment and severance costs discussed above. Costs previously allocated to the Information Management segment that do not qualify for discontinued operations accounting treatment and reported as costs from continuing operations were \$8.8 in the first half of 2012. As discussed above, in the first half of 2012, the Company recognized \$88.6 non-cash impairment charges, consisting of \$46.0 for the impairment of

Table of Contents

goodwill in the CIT reporting unit, and \$42.6 for the impairment of certain facilities within Corporate classified as held-for-sale. First half of 2012 results also include corporate restructuring charges resulting from the sale of the Information Management business of \$6.4 and pension and other post employment benefit plan curtailment benefit of \$2.7 related to changes in the executive management team following the sale.

Costs of providing services and products sold during the first half of 2013 increased 2% to \$645.5 from the first half of 2012. As a percentage of revenues, cost of providing services and products sold was 64.7% compared to 64.2% in the prior year period, largely due to the classification of costs associated with transition services provided to NEC Corporation. Selling, general and administrative expenses of \$234.5 in the first half of 2013 decreased 2% as compared to \$238.8 in the prior year period. As a percentage of revenues, selling, general, and administrative cost was 23.5% compared to 24.2% in the prior year, reflecting cost reductions previously taken, continued efforts to control costs, and the reclassification of Information Management costs discussed above, offset by the \$7.5 pension settlement charge. Research and development costs of \$4.3 decreased \$2.1 from the prior year due to reductions in headcount. Depreciation expense of \$42.1 increased \$1.3 from the prior year, reflecting an increase in capital expenditures related to increased capacity. Amortization expense of \$2.6 decreased \$1.1 due to completion of the amortization of certain definite lived intangible assets.

Operating Income and Adjusted Operating Income (a non-GAAP measure)

In order to assess the underlying operational performance of the continuing operations of the business and to have a basis to compare underlying results to prior and future periods, we provide the non-GAAP measures, Adjusted Operating Income and Adjusted Operating Margin, in the table below. For the three and six months ended June 30, 2013, Adjusted Operating Income and Adjusted Operating Margin exclude the following:

- The \$7.5 non-cash pension settlement charge discussed above and in Note 5 of the Notes to Consolidated Financial Statements; and

- The \$1.1 net impairment charge related to the adjustment of two facilities held for sale to their fair values less costs to sell discussed above and in Note 13 of the Notes to Consolidated Financial Statements.

For the three and six months ended June 30, 2012, Adjusted Operating Income and Adjusted Operating Margin exclude the following:

- Certain costs previously allocated to the Information Management business that are now included in continuing operations as discussed above and in more detail in Note 3 of the Notes to Consolidated Financial Statements (these costs were \$2.8 and \$8.8 for the three and six months ended June 30, 2012, respectively);

- Asset impairments charges of \$88.6 including \$46.0 for the impairment of goodwill of the CIT reporting unit and \$42.6 for the impairment of facilities classified as held for sale as discussed in Note 13 of the Notes to Consolidated Financial Statement;

- Pension and other post employment benefit plan curtailment benefit of \$2.7, including \$4.1 of curtailment credits from pension and other post employment benefit plans as discussed in Note 5 of the Notes to Consolidated Financial Statements and \$1.4 of post-retirement benefit costs related to changes in the executive management team; and
- Corporate restructuring charges resulting from the sale of the Information Management business of \$6.4.

Adjustments for these charges are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for this limitation by using both the non-GAAP measures and the GAAP measures in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Three Months Ended June 30, 2013 versus Three Months Ended June 30, 2012

Our effective tax rate on net income from continuing operations was 19.1% for the three months ended June 30, 2013 compared to an effective tax rate of 16.4% in the same period last year. The higher tax rate for the three months ended June 30, 2013 is primarily due to a shift in the geographic mix of worldwide income and certain discrete items.

Six Months Ended June 30, 2013 versus Six Months Ended June 30, 2012

Our effective tax rate on net income from continuing operations was 17.3% for the six months ended June 30, 2013 compared to an effective tax rate of 13.6% in the same period last year. The higher tax rate for the six months ended June 30, 2013 is primarily due to the shift in the geographic mix of worldwide income and certain discrete items.

Net Income from Continuing Operations; Earnings per Diluted Share from Continuing Operations; Adjusted Net Income From Continuing Operations; and Adjusted Earnings per Diluted Share from Continuing Operations (non-GAAP measures)

We use income from continuing operations, net of tax and earnings per share data excluding the operating charges discussed above and the incremental interest charges related to the Orlando facility discussed above for the three and six months ended June 30, 2013 and 2012 to assess the underlying operational performance of the continuing operations of the business for the year and to have a basis to compare underlying results to prior and future periods. Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not include all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using the non-GAAP measures, income from continuing operations, net of tax and diluted earnings per share excluding these items, and the GAAP measures, income from continuing operations, net of tax and diluted earnings per share, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Second quarter 2013 results from discontinued operations include \$1.4 of transaction costs, net of tax, related to the sale of the Information Management business. Diluted income from discontinued operations, net of tax, per share for the three months ended June 30, 2013 was \$0.02. Earnings from discontinued operations were \$68.3 in the second quarter 2012. These results reflect the operating results of the Information Management business, tax benefits associated with changes in uncertain tax positions related to other previously divested businesses and the gain on the sale of the Information Management business, inclusive of transaction costs. Diluted income from discontinued operations, net of tax, per share for the three months ended June 30, 2012 was \$0.60.

Including the results of discontinued operations second quarter 2013 net income and diluted earnings per share were \$23.4 and \$0.22, respectively, compared with \$14.6 and \$0.13, respectively, in the second quarter of 2012.

Six Months Ended June 30, 2013 versus Six Months Ended June 30, 2012

First half of 2013 results from discontinued operations include \$3.7 of transaction costs, net of tax, related to the sale of the Information Management business. Diluted loss from discontinued operations, net of tax, per share of the six months ended June 30, 2013 was \$0.04. Results from discontinued operations were \$73.0 in the first half of 2012.

First half of 2012 results from discontinued operations include the operating results of that business for the first half of

the year, tax benefits associated with changes in uncertain tax positions related to other previously divested businesses and the gain on the sale of the Information Management business, inclusive of transaction costs. Diluted income from discontinued operations, net of tax, per share for the six months ended June 30, 2012 was \$0.63.

Including the results of discontinued operations net income and diluted earnings per share were \$48.5 and \$0.44, respectively for the first half of 2013, compared with \$40.7 and \$0.35, respectively, in the first half of 2012.

EBITDA and Adjusted EBITDA (non-GAAP measures)

Management uses EBITDA and adjusted EBITDA and the GAAP measure, income from continuing operations, net of tax, to monitor and evaluate the underlying performance of the business and believes the presentation of these measures will enhance investors' ability to analyze trends in the business and evaluate our underlying performance relative to other companies in the industry. EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute for income from continuing operations, net of tax, or other income statement data prepared in accordance with GAAP and our presentation of EBITDA and adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. There are no material purposes for which we use these non-GAAP measures beyond the purposes described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

RESTRUCTURING CHARGES

2012 Restructuring

During 2012, the Company recorded restructuring charges of \$11.6, consisting of \$11.4 of severance-related charges and \$0.2 of facility-related charges, as described below. Second quarter of 2012 results included \$6.4 of Corporate charges related to the changes in the Company's executive team and realignment of Corporate overhead as a result of the sale of the Information Management business and \$1.2 of severance costs related to ongoing operations, impacting approximately 100 professional employees. The \$11.4 of full-year severance-related charges impacted approximately 100 professional employees and reflects the change in the Company's executive team and realignment of Corporate overhead. These severance-related charges were substantially paid in cash by June 30, 2013 pursuant to the Company's severance policies. The total remaining liability under this severance-related restructuring plan, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets, was \$0.7 as of June 30, 2013 and \$5.2 as of December 31, 2012.

Savings from Restructuring Plans

The 2012 severance actions resulted in cost reductions in excess of \$10 on an annualized basis. The impact of these benefits is spread across our operating expenses, primarily within the selling, general and administrative expense caption of our Consolidated Statements of Income. The severance actions also resulted in cash savings of approximately \$10 on an annualized basis. The impact on liquidity was not material.

Facility Restructuring

Our facilities restructuring reserves are equal to the estimated future costs associated with the facilities, net of proceeds from any probable future sublease agreements. We use estimates, based on consultation with our real estate

advisers, to determine the proceeds from any future sublease agreements. We continue to evaluate these estimates in assessing the facilities abandonment liability. The remaining liability for previously exited facilities, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$0.1 as of June 30, 2013 and \$0.3 as of December 31, 2012.

Table of Contents

CLIENT CONCENTRATION

During the first six months of 2013, our three largest clients accounted for 45.8% of our revenues, compared to 47.9% in the same period of 2012. Our largest client, AT&T, accounted for 21.0% of revenues in the first six months of 2013 as compared to 24.0% of revenue in the same period in the prior year. Comcast Corporation and DIRECTV, our second and third largest clients, comprised 12.9% and 11.9%, respectively, of revenues in the first six months of 2013, as compared to 12.2% and 11.7%, respectively, of revenues in the same period in the prior year. Volumes under certain of our long-term arrangements are earned under multiple contracts with these clients and are subject to variation based on, among other things, general economic conditions, client outsourcing trends and seasonal patterns in our clients' businesses.

BUSINESS OUTLOOK

Convergys continues to expect revenue growth and profit improvement in 2013, including:

- Revenue to exceed \$2,055 million;
- Adjusted EBITDA to exceed \$248 million;
- Diluted shares outstanding to approximate 109 million;
- Adjusted Earnings per Diluted Common Share to exceed \$1.05.

This full-year guidance includes the impact of restructuring charges in the third quarter of approximately \$5 million related to the Company's on-going efforts to further simplify the business and reduce costs.

Not included in this guidance is the impact of any future strategic acquisitions or share repurchase activities. Also not included in this guidance are results classified within discontinued operations related to the sale of the Information Management business as well as other impacts from corporate simplification actions initiated in prior years such as non-cash pension settlement charges.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Cash Flows

We believe that we have adequate liquidity from cash and expected future operating cash flows to fund ongoing operations, invest in the business and pay dividends at the discretion of the Board of Directors for the next twelve months.

Cash flows from operating activities generally provide us with a significant source of funding for our investing and financing activities. Cash flows from operating activities totaled \$72.2 in the first six months of 2013 compared to \$51.6 in the same period last year, which included \$8.1 of cash flows provided by discontinued operations. The increase in the current year was primarily a result of approximately \$25 of cash payments made in 2012 to reduce long-term liabilities, and approximately \$20 of tax payments made in 2012 related to prior year internal restructurings, partially offset by current quarter increases in working capital requirements and \$10 of cash payments made to reduce long-term liabilities.

Cash flows used in investing activities were \$36.0 during the first six months of 2013, which included \$26.3 of capital expenditures and \$15.0 used for acquisitions. Cash flows provided by investing activities were \$371.8 during the first six months of 2012, which included \$431.6 from discontinued operations related to the sale of the Information Management business, partially offset by 40.8 of capital expenditures and 19.0 of purchases of short-term investments.

Cash flows used in financing activities were \$75.7 during the first six months of 2013 compared to \$126.3 during the first six months of 2012. During the first six months of 2013, we settled in cash the repurchase of 3.6 of the Company's common shares for \$64.3, including \$3.6 of shares repurchased but not settled prior to December 31, 2012. We also paid \$11.5 in cash dividends. These outflows were partially offset by \$2.8 we received from exercise of stock options. During the first six months of 2012, we repaid \$66.3 on our outstanding borrowings and repurchased 4.9 of the Company's common shares for \$64.6. These outflows were partially offset by \$4.6 we received from exercise of stock options in the first six months of 2012.

We use free cash flow, a non-GAAP measure, to assess the financial performance of the Company. We define free cash flow as cash flows from operating activities less capital expenditures. A reconciliation of the GAAP measure, net cash provided by operating activities, to the non-GAAP measure, free cash flow, is as follows:

30

Table of Contents

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Net cash provided by operating activities under U.S. GAAP	\$49.5	\$39.7	\$72.2	\$51.6
Capital expenditures, net	(14.2)	(27.0)	(26.3)	(47.0)
Free cash flow (a non-GAAP measure)	\$35.3	\$12.7	\$45.9	\$4.6

Free cash flow, as defined above, was \$45.9 for the first six months of 2013, compared to \$4.6 for the same period in 2012. The increase in free cash flow of \$41.3 from the prior year was due to higher cash generated from operating activities and decreased capital expenditures during the first six months of 2013 as presented in the table above.

We believe that free cash flow is useful to investors because it relates the operating cash flow of the Company to the capital that is spent to continue and improve business operations, such as investment in the Company's existing businesses. Further, free cash flow facilitates management's ability to strengthen the Company's balance sheet, to repay the Company's debt obligations and to repurchase the Company's common shares. Limitations associated with the use of free cash flow include that it does not represent the residual cash flow available for discretionary expenditures as it does not incorporate certain cash payments including payments made on capital lease obligations or cash payments for business acquisitions. Management compensates for these limitations by utilizing the non-GAAP measure, free cash flow, and the GAAP measure, cash flows from operating activities, in its evaluation of performance. There are no material purposes for which we use the non-GAAP measure beyond the purposes described above.

Capital Resources, Off-Balance Sheet Arrangements and Contractual Commitments

At June 30, 2013, total capitalization was \$1,397.4, consisting of \$61.0 of short-term and long-term debt and \$1,336.4 of equity. The total debt-to-capital ratio was 4.4% at June 30, 2013, compared to 4.2% at December 31, 2012.

On March 11, 2011, we entered into a \$300 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the 2011 Credit Facility), replacing our \$400 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the 2006 Credit Facility), which was terminated at that time. We have two borrowing options available under the 2011 Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the 2011 Credit Facility bear interest at one of the rates described in the 2011 Credit Facility. The maturity date of the 2011 Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, we may extend the maturity date by one year twice during the term. We pay an annual facility fee regardless of utilization. At June 30, 2013 the facility was undrawn. We were in compliance with all covenants at June 30, 2013.

In the fourth quarter of 2009, we announced an offer to exchange one-thousand twenty dollars in principal amount of its new 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one-thousand dollars in principal amount of its 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. We issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. The entire balance of the 2029 Convertible Debentures was outstanding as of June 30, 2013 and December 31, 2012.

During June 2011, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in June 2014. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary. The asset securitization facility does not qualify for sale treatment under the authoritative guidance for the accounting for transfers and servicing of financial assets and extinguishments of liabilities. Accordingly, the accounts receivable and related debt obligation will remain on our Consolidated Balance Sheets. At June 30, 2013 and December 31, 2012, the facility was undrawn.

We repurchased 1.5 and 3.6 of our common shares during the three and six months ended June 30, 2013 at an average price of \$16.43 and \$16.56 per share for a total of \$25.3 and \$60.7 under defined repurchase plans. The timing and terms of any future transactions depend on a number of considerations including market conditions and our liquidity. In February 2013, our Board of Directors approved an increase in remaining authorized share repurchases to \$250.0 in the aggregate. At June 30, 2013, the Company has the authority to repurchase an additional \$192.0 pursuant to this

authorization.

At June 30, 2013, we had outstanding letters of credit of \$39.2 and other bond obligations of \$1.5 related to performance and payment guarantees. We believe that any guarantee obligation that may arise will not be material. We also have purchase commitments with telecommunications providers of \$6.5 for the remainder of 2013.

31

Table of Contents

At June 30, 2013, we had outstanding performance bond obligations of \$30.0 related to performance and payment guarantees for the Company's former HR Management line of business. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for these bond obligations. As part of the gain on disposition we recognized a liability equal to the present value of probability weighted cash flows of potential outcomes. Although the buyer is obligated to indemnify us for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of June 30, 2013 we maintain a liability of \$1.0 for these obligations. It is reasonably possible that our unrecognized tax benefits of \$51.5 will decrease between approximately \$2 and \$10 in the next twelve months based upon the resolution of audits; however, actual developments in this area could differ from those currently expected.

During 2012 and 2013, the Company's Board of Directors approved, and the Company has paid, the following dividends:

Announcement Date	Record Date	Dividend Amount	Payment Date
May 8, 2012	June 22, 2012	\$0.05	July 6, 2012
July 26, 2012	September 21, 2012	\$0.05	October 5, 2012
October 23, 2012	December 21, 2012	\$0.05	January 4, 2013
February 7, 2013	March 22, 2013	\$0.06	April 5, 2013
April 30, 2013	June 21, 2013	\$0.06	July 5, 2013

On July 30, 2013, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.06 to be paid on October 4, 2013 to shareholders of record as of September 20, 2013.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors. We intend to continue to use cash dividends as a means of returning capital to shareholders, subject to our periodic determinations that cash dividends are in the best interests of our shareholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. Our risk management strategy includes the use of derivative instruments to reduce the effects on our operating results and cash flows from fluctuations caused by volatility in currency exchange and interest rates. In using derivative financial instruments to hedge exposures to changes in exchange rates and interest rates, we expose ourselves to counterparty credit risk. We manage exposure to counterparty credit risk by entering into derivative financial instruments with highly-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the number of financial institutions with which we enter into such agreements.

Interest Rate Risk

At June 30, 2013, all of the Company's debt instruments were fixed rate borrowings with an outstanding amount of \$61.0. We had no variable rate borrowings at June 30, 2013.

Foreign Currency Exchange Rate Risk

We serve many of our U.S.-based clients using contact center capacity in the Philippines, India, Canada and Colombia. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR), Canadian dollars (CAD) or Colombian pesos (COP), which represents a foreign exchange exposure. Beginning in 2011, we entered into a contract with a client priced in Australian dollars (AUD). As of June 30, 2013, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward contracts with several financial institutions to acquire a total of PHP 28,110.0 at a fixed price of \$660.0 at various dates through December 2016, INR 12,423.5 at a fixed price of \$213.8 at various dates through December 2016, CAD 35.9 at a fixed price of \$34.7 at various dates through December 2015 and COP 32,700.0 at a fixed price of \$17.0 at various dates through December 2014, and to sell a total of AUD 46.9 at a fixed price of \$47.9 at various dates through September 2014. The fair value of these derivative instruments as of June 30,

2013 is presented in Note 11 of the Notes to Consolidated Financial Statements. The potential loss in fair value at June 30, 2013 for such contracts resulting from a hypothetical 10% adverse change in all foreign currency exchange rates is approximately \$87.8. This loss would be mitigated by corresponding gains on the underlying exposures.

Table of Contents

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into forward exchange contracts that are not designated as hedges. The purpose of these derivative instruments is to protect the Company against foreign currency exposure pertaining to receivables, payables and intercompany transactions that are denominated in currencies different from the functional currencies of the Company or the respective subsidiaries. As of June 30, 2013, the fair value of these derivatives not designated as hedges was \$3.3.

Critical Accounting Policies and Estimates

See “ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report for the year ended December 31, 2012 on Form 10-K for a discussion of our critical accounting policies and estimates.

There have been no material changes to our critical accounting policies and estimates in 2013.

ITEM 4. CONTROLS AND PROCEDURES

The Company’s Chief Executive Officer and Chief Financial Officer evaluated, together with the Company’s General Counsel, Chief Accounting Officer and other key employees, the effectiveness of design and operation of the Company’s “disclosure controls and procedures” (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) as of the end of the quarter ended June 30, 2013. Based on this evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that the Company’s disclosure controls and procedures were effective as of the end of the period covered by this report such that the information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and are effective to ensure that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms.

There were no significant changes in the design or approaches of the Company’s internal control over financial reporting, or any other factors, that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities during the second quarter of 2013 or from June 30, 2013 through the date of filing of this report. We repurchased 1.5 shares of our common stock for \$25.3 during the three months ended June 30, 2013, as summarized in the following table:

	Shares Repurchased	Average price per share

At June 30, 2013, the Company remained authorized to repurchase up to an incremental \$192.0 of outstanding shares. The timing and terms of any future transactions depend on a number of considerations including market conditions and our liquidity.

ITEM 5. OTHER INFORMATION

As previously disclosed, the Company's Executive Deferred Compensation Plan (the “EDCP”) which permitted eligible participants, including executive officers, to defer receipt of certain income, was frozen as of December 31, 2011. Before the plan was frozen, the Company provided a match to a participant's deferred amounts (reduced by the Company match eligible to be received under the Company's Retirement and Savings Plan). On July 25, 2013, the Company's Board of Directors authorized the Company to reinstate the EDCP, effective January 1, 2014, for eligible participants, including executive officers. Under this authorization, the Company will match up to 100% of the first 3% of a participant's deferred amounts and 50% of a participant's next 2% of deferred amounts. The Company match under the EDCP will be reduced by the Company match eligible to be received under the Company's Retirement and Savings Plan.
