NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Currency Amounts in Millions Except Per Share Amounts)
(Unaudited)

(1) BACKGROUND AND BASIS OF PRESENTATION

Convergys Corporation (the Company or Convergys) is a global leader in customer management, focused on bringing value to its clients through every customer interaction.

On March 3, 2014, Convergys completed its acquisition of SGS Holdings, Inc. (Stream), a global customer management leader, providing technical support, customer care and sales for Fortune 1000 companies. This acquisition expanded the Company's geographic footprint and capabilities, adding approximately 40,000 employees in 22 countries. Combined, Convergys has approximately 125,000 employees working in more than 150 locations in 31 countries, interacting with our clients' customers in 47 languages. Stream's complementary client portfolio diversified Convergys' client base through the addition of leading technology, communications and other clients. Stream operating results are included in Convergys' Consolidated Statements of Income beginning March 3, 2014. The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting (U.S. GAAP) and U.S. Securities and Exchange Commission (SEC) regulations, and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown. All adjustments are of a normal and recurring nature. Certain information and footnote disclosures normally included in Financial Statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. Interim Consolidated Financial Statements are not necessarily indicative of the financial position or operating results for an entire year. These interim Consolidated Financial Statements should be read in conjunction with the audited Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, filed on February 18, 2015.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, "Simplifying the Presentation of Debt Issuance Costs." This ASU requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. This update is effective for interim and annual periods beginning after December 15, 2015 and is required to be applied retrospectively. This standard is not expected to have a material effect on the Company's consolidated financial statements.

In June 2014, the FASB issued ASU 2014-12, "Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period (Topic 718)." This ASU requires a reporting entity to treat a performance target that affects vesting and that could be achieved after the requisite service period as a performance condition, and apply existing guidance under the Stock Compensation Topic 718 as it relates to awards with performance conditions that affect vesting to account for such awards. This update will be applied prospectively and is effective for interim and annual periods beginning after December 15, 2015. This standard is not expected to have a material effect on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)." The standard will apply one comprehensive revenue recognition model across all contracts, entities and sectors. The core principal of the new standard is that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Once effective, this ASU will replace most of the existing revenue recognition requirements in U.S.

GAAP. This update is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. The Company is currently assessing the effect that adoption of the new standard, including possible adoption alternatives, will have on its consolidated financial statements.

In April 2014, the FASB issued ASU 2014-08, "Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." This ASU changes the criteria for a disposal to qualify as discontinued operations and requires new disclosures for individually material disposal transactions that do not meet the definition of a discontinued operation. Under the new standard, companies report discontinued operations when they have a disposal that represents a strategic shift that has or will have a major impact on operations or financial results. This update was applied prospectively and became effective for annual periods, and interim periods within those years,

Table of Contents

beginning after December 15, 2014. This standard did not have a material effect on the Company's consolidated financial statements, but will impact the reporting of any future dispositions.

(3) BUSINESS COMBINATION

Stream Acquisition

Background and Financing

On January 6, 2014, the Company and its wholly-owned subsidiary (Merger Sub) entered into an Agreement and Plan of Merger (the Merger Agreement) with Stream and, for limited purposes, other Sellers listed in the Merger Agreement. On March 3, 2014, Merger Sub was merged with and into Stream (the Merger), with Stream continuing as the surviving corporation and as a wholly owned subsidiary of Convergys. At the time of the Merger, each share of Stream common stock was converted into the right to receive an amount in cash, without interest.

The total purchase price, net of cash acquired, was \$802.6, which was funded using available cash, borrowings under the Accounts Receivable Securitization Facility and proceeds from a term loan under the February 28, 2014 Credit Agreement (the Credit Agreement). The Credit Agreement consisted of a term loan in the amount of \$350.0 and a revolving credit facility in the amount of \$300.0 (see Note 9, "Debt and Capital Lease Obligations" for the definition of these terms and further discussion).

The purchase price of Stream consisted of the following items:

Cash consideration for Stream stock ⁽¹⁾	\$481.0	
Cash consideration for Stream stock options ⁽²⁾	16.1	
Cash consideration for repayment of Stream 11.25% Senior Secured Notes ⁽³⁾	243.0	
Cash consideration for repayment of Stream 10.0% Promissory Notes ⁽⁴⁾	19.3	
Cash consideration for repayment of Stream Revolving Credit Facility ⁽⁵⁾	63.4	
Cash consideration for transaction expenses of Stream ⁽⁶⁾	7.8	
Total cash consideration	830.6	
Cash acquired ⁽⁷⁾	(28.0)
Net consideration transferred	\$802.6	

(1) The cash consideration for the outstanding shares of Stream's common stock, which includes final settlement for working capital. Stream outstanding common shares totaled 0.7 as of March 3, 2014.

(2) The cash consideration paid per share of "in the money" stock option awards.

(3) The cash consideration to repay Stream's 11.25% Senior Secured Notes due 2014, which reflects the aggregate principal and interest amounts of \$230.0 and \$13.0, respectively, as of March 3, 2014.

(4) The cash consideration to repay Stream's 10.0% Promissory Notes, which reflects the aggregate principal and interest amounts of \$16.1 and \$3.2, respectively, as of March 3, 2014.

(5) The cash consideration to repay Stream's Revolving Credit Facility, which reflects the aggregate principal and interest amounts of \$63.1 and \$0.3, respectively, as of March 3, 2014.

Pursuant to the Merger Agreement, Convergys reimbursed the holders of Stream common stock for expenses (6) incurred by Stream in connection with the merger. These expenses primarily related to third-party consulting services.

(7) Represents the Stream cash balance acquired at acquisition.

The Company incurred \$14.7 of direct transaction costs during 2014. These costs are included in Transaction and integration costs in the accompanying Consolidated Statements of Income.

Purchase Price Allocation

The Company accounted for Stream using the acquisition method of accounting in accordance with applicable U.S. GAAP whereby the total purchase price was allocated to tangible and intangible assets acquired and liabilities assumed based on respective fair values. The following table summarizes the assets acquired and liabilities assumed at the date of acquisition:

8

Table of Contents

Purchase price allocation	At March 3, 2014	
Assets:		
Receivables	\$197.9	
Other current assets	13.5	
Property and equipment	159.3	
Goodwill	276.5	
Intangible assets	370.4	
Other assets	7.9	
Liabilities:		
Accounts payable	(12.3)
Accrued expenses	(100.3)
Other current liabilities	(3.6)
Debt	(34.6)
Deferred tax - net	(59.4)
Other long-term liabilities	(12.7)
Total purchase price	\$802.6	

As of March 31, 2015, the purchase price allocation for the acquisition was final. Goodwill was calculated as the excess of the consideration transferred over the net assets recognized and represents the estimated future economic benefits arising from other assets acquired that could not be individually identified and separately recognized. The factors contributing to the recognition of goodwill were based on several strategic and synergistic benefits that are expected to be realized from the Stream acquisition. The benefits include an enhanced global footprint and expanded language capabilities. None of the goodwill is expected to be deductible for income tax purposes and goodwill was entirely allocated to the Customer Management - Agent Services reporting unit for purposes of the evaluation for any future goodwill impairment. The Company evaluated whether any adjustments in the prior period purchase price allocation were material and concluded no retrospective adjustments to prior period financial statements were required.

Intangible Assets Identified

The following details the total intangible assets identified:

Intangible asset type	Value	Life (years)
Customer relationship	\$352.0	17
Trade name	17.0	4
Favorable lease contract	1.4	1 - 7
Total	\$370.4	

The fair value of the customer relationship asset was determined using the income approach through an excess earnings analysis, with projected earnings discounted at a rate of 11.0%. The customer relationship intangible asset represents relationships between Stream and its customers. Convergys applied the income approach through a relief-from-royalty analysis to determine the fair value of the Stream trade name asset. The determination of the useful lives was based upon consideration of market participant assumptions and transaction specific factors.

Impact on Operating Results

The results of Stream's operations have been included in Convergys' Consolidated Financial Statements since the March 3, 2014 date of acquisition. The following table provides revenue and results of operations from the acquired Stream business included in Convergys' results:

Table of Contents

	Three Months Ended June 30, 2014	Six Months Ended June 30, 2014
Stream results of operations		
Revenues	\$248.5	\$334.1

The following unaudited pro forma information assumes the acquisition of Stream occurred at the beginning of the Company's prior year, January 1, 2014. The unaudited pro forma information presented below is for illustrative purposes only and does not reflect future events that may occur or any operating efficiencies or inefficiencies that may result from the Stream acquisition and related financing. Additionally, this unaudited pro forma information for the six months ended June 30, 2014 includes certain one-time costs associated with the Company's integration of the acquired Stream operations. Therefore, the information is not necessarily indicative of results that would have been achieved had the business been combined during the periods presented or the results that the Company will experience going forward.

(4) DIVESTITURES AND DISCONTINUED OPERATIONS

On May 16, 2012, the Company completed the sale of its Information Management line of business to NEC Corporation. During the three and six months ended June 30, 2015 and 2014, the Company recorded additional gains and losses as certain contingencies and tax positions related to Information Management were settled or adjusted. The results of the Information Management business have been classified as discontinued operations for all periods presented. During the three and six months ended June 30, 2014, the Company earned \$4.1 and \$8.2, respectively, in revenue under transition services agreements. All transition services agreements expired by June 30, 2014, and the Company has substantially eliminated the related costs.

The results of the Information Management business included in discontinued operations for the three and six months ended June 30, 2015 and 2014 are summarized as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

Diluted EPS	107.1	\$38.6	\$0.36	\$0.3	\$—	\$0.36

The diluted EPS calculation for the three and six months ended June 30, 2015 excludes 0.3 of performance-based restricted stock units as the minimum performance criteria has not yet been achieved, as well as 0.7 performance-based restricted stock units (0.4 and 0.3 granted in 2015 and 2014, respectively) as the performance criteria for the third year of the 2014 grants and the second and third years of the 2015 grants have not yet been fully defined, thereby precluding a mutual understanding of the terms of the stock-based awards pursuant to ASC 718. As described more fully in Note 9, during 2009 the Company issued approximately \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due 2029 (2029 Convertible Debentures). The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into common shares of the Company at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand in principal amount of debentures. The conversion rate is subject to adjustment for certain events outlined in the indenture governing the debentures (the Indenture), including payment of dividends. As of June 30, 2015, the implied conversion rate for the 2029 Convertible Debentures was \$11.58 per share, or eighty-six and thirty-seven hundredths shares per one thousand in principal amount of debentures. There were 5.9 dilutive shares related to the 2029 Convertible Debentures for the three and six months ended June 30, 2015.

Shareholders' Equity

The Company repurchased 0.6 and 1.5 of its common shares during the three and six months ended June 30, 2015 at an average price of \$23.98 and \$22.26 per share for a total of \$14.6 and \$32.6 under current authorizations approved by the Company's Board of Directors. Based upon timing of the transactions, \$0.4 of shares repurchased had not

settled as of June 30, 2015. These shares

are excluded from outstanding shares at the end of the current quarter and were settled in cash during the third quarter of 2015. As of June 30, 2015, the Company had the authority to repurchase an additional \$54.4 of outstanding common shares pursuant to current authorizations. On August 4, 2015, the Company's Board of Directors granted the Company approval to repurchase \$250.0 common shares on a go-forward basis from the date of approval.

The Company also repurchased 0.2 shares at an average price of \$25.33 for aggregate proceeds of \$4.7 subsequent to June 30, 2015, through August 4, 2015.

Dividends

During 2014 and 2015, the Company's Board of Directors approved, and the Company has paid, the following dividends per common share:

Announcement Date	Record Date	Dividend Amount	Payment Date
November 6, 2013	December 27, 2013	\$0.06	January 10, 2014
February 5, 2014	March 21, 2014	\$0.06	April 4, 2014
May 12, 2014	June 19, 2014	\$0.07	July 3, 2014

May 5, 2015	June 18, 2015	\$0.08	July 2, 2015

On August 4, 2015, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.08 per common share to be paid on October 2, 2015 to shareholders of record as of September 18, 2015.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors.

(6) EMPLOYEE BENEFIT PLANS

The Company sponsors a frozen defined benefit pension plan, which includes both a qualified and non-qualified portion, for eligible employees in the U.S. (the Cash Balance Plan). The Company recorded a net liability of \$48.5 and \$69.1 as of June 30, 2015 and December 31, 2014, respectively, for the Cash Balance Plan. The Company contributed \$20.0 to fund the Cash Balance Plan during the six months ended June 30, 2015. In addition, the Company sponsors unfunded defined benefit plans for certain eligible employees in the Philippines and France. The Company recorded a liability of \$39.6 and \$40.0 as of June 30, 2015 and December 31, 2014, respectively, for these non-U.S. pension plans. Components of pension cost for the Cash Balance and the non-U.S. pension plans are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Interest cost on projected benefit obligation	\$2.7	\$2.5	\$5.4	\$5.3
Service cost	1.9	1.7	3.8	3.3
Expected return on plan assets	(2.6)	(2.3)	(5.2)	(4.6)
Amortization and deferrals, net	2.7	1.8	5.4	3.9
Total cost	\$4.7	\$3.7	\$9.4	\$7.9

On July 25, 2013, the Company's Board of Directors authorized the Company to reinstate the Executive Deferred Compensation Plan (the EDCP), effective January 1, 2014, for eligible participants, including executive officers. This plan was previously frozen as of December 31, 2011. Under this authorization, the Company matches up to 100% of the first 3% of a participant's deferred amounts and 50% of a participant's next 2% of deferred amounts. The Company match under the EDCP is reduced by the Company match available under the Company's Retirement and Savings Plan.

Components of pension cost for the EDCP are as follows:

(7) RESTRUCTURING**2015 Restructuring**

The Company recorded severance expense of \$2.4 and \$3.4, respectively, for the three and six months ended June 30, 2015, related to Company's ongoing efforts to refine its operating model and reduce costs. The 2015 actions impacted approximately 200 employees. The severance expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by June 30, 2016. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheet, was \$1.4 as of June 30, 2015 and \$1.0 as of March 31, 2015.

The Company also recorded restructuring expenses of \$0.3 during the first quarter of 2015 related to the integration of Stream. These amounts are included in Transaction and integration costs in the Consolidated Statements of Income and are expected to be substantially paid in cash by March 31, 2016. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheets, was \$0.3 as of June 30, 2015 and \$0.3 as of March 31, 2015.

2014 Restructuring

During 2014, the Company recorded severance charges of \$11.0 related to the elimination of certain redundant executive and non-executive positions as a result of the Company's integration of the Stream business. This severance activity impacted approximately 150 employees. These amounts are included in Transaction and integration costs in the Consolidated Statements of Income and are expected to be substantially paid in cash by December 31, 2015. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheets, was \$0.8 as of June 30, 2015 compared to \$1.3 as of March 31, 2015 and \$2.6 as of December 31, 2014.

During 2014, the Company also recorded a severance charge of \$1.7 related to restructuring actions impacting approximately 400 employees. These actions were initiated to continue the Company's efforts to refine its operating model and reduce costs. The severance charges are included in Restructuring charges on the Consolidated Statement of Income and are expected to be substantially paid in cash by December 31, 2015. The total remaining liability under this severance-related restructuring plan, which is included in Payables and other current liabilities in the Consolidated Balance Sheets, was 0.7 as of June 30, 2015 compared to \$0.8 as of March 31, 2015 and \$1.3 as of December 31, 2014.

(8) STOCK-BASED COMPENSATION PLANS

The Company's operating results for the three and six months ended June 30, 2015 included stock compensation expense of \$4.3 and \$8.4, respectively, compared to \$2.2 and \$5.2, respectively, for the same period in 2014. The increased expense in 2015 is primarily a result of expense related to the performance-based restricted stock units granted in 2013. Expense for the three and six months ended June 30, 2015 included \$0.2 and \$0.7, respectively, related to awards classified as liabilities that will ultimately settle in cash.

Stock Options

The Company granted stock options to certain employees during 2012 and 2011. A summary of stock option activity for the six months ended June 30, 2015 is presented below:

Time-based Restricted Stock Units

During the six months ended June 30, 2015 and 2014, the Company granted 0.7 shares of time-based restricted stock units. The weighted-average fair values of these grants were \$22.30 and \$20.53 per share, respectively. The 2015, 2014 and 2013 time-based grants are scheduled to vest 25% at the completion of year one after the grant date, 25% after year two and 50% after year three.

The total compensation cost related to non-vested time-based restricted stock units not yet recognized as of June 30, 2015 was approximately \$22.5, which is expected to be recognized over a weighted average of 1.2 years. Changes to non-vested time-based restricted stock and restricted stock units for the six months ended June 30, 2015 were as follows:

Shares in Millions Except Per Share Amounts	Number of Shares	Weighted Average Fair Value at Date of Grant

Performance-based Restricted Stock Units

During the six months ended June 30, 2015 and 2014, the Company granted 0.4 and 0.3 shares, respectively, of performance-based restricted stock units. These grants provide for payout based upon the extent to which the Company achieves certain EPS targets, as determined by the Compensation and Benefits Committee of the Board of Directors, over three-year periods. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. As the targets for the third year of 2014 grants and second and third years of 2015 grants have not yet been set, the key terms have not been effectively communicated to the recipients, and as such the expense related to these grants cannot be recognized until the key terms are established. These grants have been excluded from the table below.

During the three months ended March 31, 2015, the Company established and communicated to participants the final key terms of the 2013 grant, resulting in a grant for accounting purposes with a grant date fair value of \$21.84 per share. The total compensation cost related to non-vested performance-based restricted stock units not yet recognized as of June 30, 2015 was approximately \$3.4, which is expected to be recognized ratably over the remaining vesting period ending in February 2016. Changes to non-vested performance-based restricted stock and restricted stock units for the six months ended June 30, 2015 were as follows:

(9) DEBT AND CAPITAL LEASE OBLIGATIONS

Debt and capital lease obligations consist of the following:

	June 30, 2015	December 31, 2014
2014 Term Loan, due 2019	\$211.5	\$261.0
2009 Convertible Debentures, due 2029	61.3	60.7

Total debt	337.8	375.9
Less current maturities	5.3	7.5
Long-term debt	\$332.5	\$368.4
Credit Facility		

On February 28, 2014, the Company entered into a Credit Agreement establishing an unsecured credit facility in the aggregate amount of \$650.0 (Credit Agreement). In connection with entering into the Credit Agreement, Convergys terminated its \$300.0 Four-Year Competitive Advance and Revolving Credit Facility Agreement dated March 11, 2011 (the 2011 Credit Facility). The Credit Agreement consists of term loans (the Term Loan) in the aggregate amount of \$350.0, and a revolving credit facility (the Revolving Credit Facility) in the amount of \$300.0. The Company recorded the initial carrying amount of the Term Loan at \$344.9, reflecting a discount of \$5.1 resulting from fees paid directly to the lender at issuance. The discount will be amortized over the life of the Term Loan using the effective interest rate method (2.4% as of June 30, 2015), and is included in interest expense in the Consolidated Statements of Income. The conditions for the funding of the Term Loan and the Revolving Credit Facility were satisfied on March 3, 2014. Both mature on March 3, 2019, unless extended pursuant to the terms of the Credit Agreement. Outstanding amounts bear interest at one of the rates described in the Credit Agreement. During 2015 and 2014, the Company made voluntary Term Loan principal payments of \$50.0 and \$85.0, respectively. The next required principal payment is due March 3, 2019. While amounts borrowed and repaid under the Revolving Credit Facility may be re-borrowed, amounts repaid under the Term Loan may not be borrowed again under the Credit Agreement. Total borrowing capacity remaining under the Revolving Credit Facility was \$300.0, with \$215.0 outstanding principal on the Term Loan, as of June 30, 2015. The Credit Agreement contains certain affirmative and negative covenants, as well as other terms and conditions that are customary for credit facilities of this type, including financial covenants for leverage and interest coverage ratios. The Company was in compliance with all covenants at June 30, 2015.

Convertible Debentures

During 2009, Convergys issued a total of \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) in exchange for \$122.5 of 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009, pursuant to an exchange offer. At the date of issuance, the Company recognized the liability component of the 2029 Convertible Debenture at its fair value of \$56.3. The liability component is recognized as the fair value of a similar instrument that does not have a conversion

feature at issuance. The equity component, which is the value of the conversion feature at issuance, was recognized as the difference between the proceeds from the issuance of the debentures and the fair value of the liability component, after adjusting for the deferred tax impact of \$32.7. The 2029 Convertible Debentures were issued at a coupon rate of 5.75%, which was below that of a similar instrument that does not have a conversion feature. Therefore, the valuation of the debt component, using the income approach, resulted in a debt discount. The debt discount is being amortized over the life of a similar debt instrument without a conversion feature, which the Company determined to equal the

Table of Contents

contractual maturity of the 2029 Convertible Debentures. Amortization is based upon the effective interest rate method and is included in interest expense in the Consolidated Statements of Income.

The 2029 Convertible Debentures, which pay a fixed rate of interest semi-annually, have a contingent interest component that will require the Company to pay interest based on the trading price of the Debentures exceeding a specified threshold at specified times, commencing on September 15, 2019, as outlined in the Indenture. The maximum amount of contingent interest that will accrue is 0.75% per annum of the average trading price of the Debentures during the periods specified in the Indenture. The fair value of this embedded derivative was not significant at June 30, 2015 or December 31, 2014.

The Company is not entitled to redeem the 2029 Convertible Debentures prior to September 15, 2019. On or after September 15, 2019, the Company may redeem for cash all or part of the 2029 Convertible Debentures at par value plus accrued but unpaid interest if certain trading conditions of the Company's common stock are satisfied. The holders of the 2029 Convertible Debentures have the option to require redemption at par value plus accrued but unpaid interest upon the occurrence of a fundamental change, a defined term in the Indenture.

The 2029 Convertible Debentures are convertible at the option of the holders on or after September 15, 2028 and prior to that date only under the following circumstances: (1) during any calendar quarter commencing after December 31, 2009, if the last reported sales price of the Company's common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the preceding calendar quarter is greater than or equal to 130% of the applicable conversion price (currently \$15.05) for the 2029 Convertible Debentures on each applicable trading day (hereinafter referred to as the Sales Price Condition); (2) during the five business day period after any five consecutive trading day period (the Measurement Period) in which, as determined following a request by a holder of 2029 Convertible Debentures as provided in the Indenture, the trading price per \$1,000 principal amount of 2029 Convertible Debentures for each trading day of such Measurement Period was less than 98% of the product of the last reported sale price of the Company's common shares and the applicable conversion rate for the 2029 Convertible Debentures on each such trading day; (3) if the Company elects to redeem any or all of the 2029 Convertible Debentures; or (4) upon the occurrence of specified corporate events pursuant to the terms of the Indenture. Upon conversion, the Company will pay cash up to the aggregate principal amount of the 2029 Convertible Debentures to be converted and pay or deliver, as the case may be, cash, common shares of the Company or a combination of cash and common shares of the Company, at the Company's election, in respect of the remainder, if any, of the Company's conversion obligation in excess of the aggregate principal amount of the 2029 Convertible Debentures being converted.

The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into common shares of the Company at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand dollars in principal amount of debentures. As of June 30, 2015, the implied conversion rate for the 2029 Convertible Debentures was \$11.58 per share, or eighty-six and thirty-seven hundredths shares per one thousand in principal amount of debentures. The conversion rate will be subject to adjustment for certain events outlined in the indenture governing the Debentures (the Indenture), including payment of dividends. The conversion rate will increase for a holder who elects to convert this Debenture in connection with certain share exchanges, mergers or consolidations involving the Company, as described in the Indenture.

As of July 1, 2015 and 2014 (one day after the quarter end as stated in the Indenture), the 2029 Convertible Debentures were convertible at the option of the holders. This conversion right was triggered upon satisfaction of the Sales Price Condition (the closing price of the Company's common shares was greater than or equal to \$15.05, 130% of the conversion price of the 2029 Convertible Debentures at June 30, 2015, for at least 20 of the last 30 consecutive trading days ending on June 30, 2015). As a result, the equity component of the 2029 Convertible Debentures equal to \$63.7 (the difference between the par value and carrying value of the 2029 Convertible Debentures at June 30, 2015), has been classified as temporary equity within the June 30, 2015 Consolidated Balance Sheet since this amount was considered redeemable. The Company will reassess the convertibility of the 2029 Convertible Debentures and the related balance sheet classification on a prospective basis. There have been no conversions of the 2029 Convertible Debentures through the date of this filing.

Based on quoted market prices at June 30, 2015, the fair value of the \$125.0 aggregate principal amount of the Company's 2029 Convertible Debentures is \$284.6.

Asset Securitization Facility

During January 2014, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in January 2017. During June 2015, the Company amended the asset securitization facility to include the receivables of certain of the Company's Stream subsidiaries. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. On March 13, 2015, the Company entered into an amendment to the Company's existing asset securitization facility to adjust the maximum Debt-to-EBITDA ratio permitted under the terms of the facility. As of June 30, 2015 and December 31, 2014,

Table of Contents

Convergys had drawn \$55.0 and \$40.0, respectively, in available funding from qualified receivables. Amounts have been classified under this facility as long-term debt within the Consolidated Balance Sheets.

At June 30, 2015, future minimum payments of the Company's debt and capital lease arrangements (exclusive of any debt discounts) are as follows:

2015	\$3.7
2016	3.8
2017	56.1
2018	0.7
2019	215.4
2020	0.4
Thereafter	125.0
Total	\$405.1

(10) COMMITMENTS AND CONTINGENCIES**Commitments**

At June 30, 2015, the Company had outstanding letters of credit of \$25.5 and other bond obligations of \$2.7 related to performance and payment guarantees. The Company believes that any guarantee obligation that may arise will not be material. The Company also has purchase commitments with telecommunications providers of \$7.2 for the remainder of 2015.

At June 30, 2015, the Company had an outstanding performance bond obligation of \$30.0 related to a performance and payment guarantee for the Company's former HR Management line of business which was sold in 2010 to NorthgateArinso. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for this bond obligation. As part of the gain on disposition, the Company recognized a liability equal to the present value of probability weighted cash flows of potential outcomes, a Level 3 fair value measurement. Although the buyer is obligated to indemnify the Company for any and all losses, costs, liabilities and expenses incurred related to this performance bond, as of June 30, 2015, the Company maintains a liability of \$0.3 for this obligation. The Company's guarantee for this bond obligation expires in August 2016.

Contingencies

The Company from time to time is involved in various loss contingencies, including tax and legal contingencies that arise in the ordinary course of business. The Company accrues for a loss contingency when it is probable that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that the results of any such contingencies, either individually or in the aggregate, will not have a materially adverse effect on the Company's results of operations or financial condition. However, the outcome of any litigation cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a materially adverse impact on the Company's results of operations or financial condition in the future.

In November 2011, one of the Company's call center clients, Hyundai Motor America (Hyundai), tendered a contractual indemnity claim to Convergys Customer Management Group Inc., a subsidiary of the Company, relating to a putative class action captioned Brandon Wheelock, individually and on behalf of a class and subclass of similarly situated individuals, v. Hyundai Motor America, Orange County Superior Court, California, Case No. 30-2011-00522293-CU-BT-CJC. The lawsuit alleged that Hyundai violated California's telephone recording laws by recording telephone calls with customer service representatives without providing a disclosure that the calls might be recorded.

An amended settlement agreement was executed by the plaintiff, Hyundai and Convergys Customer Management Group, Inc., and received preliminary approval from the Court during the second quarter of 2015. The Court will hold a hearing during the fourth quarter of 2015 to determine whether to give final approval of the settlement. The Company's liability with respect to the proposed settlement was fully accrued at June 30, 2015, and did not have a material impact on the Company's liquidity, results of operations or financial condition.

(11) FAIR VALUE MEASUREMENTS

U.S. GAAP defines a hierarchy which prioritizes the inputs in measuring fair value. The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and Level 3 inputs are

17

Table of Contents

unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At June 30, 2015 and December 31, 2014, the Company had foreign currency forward contracts measured at fair value on a recurring basis. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2015 and 2014. The assets and liabilities measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014 were as follows:

	June 30, 2015	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Foreign currency forward contracts (liability position)	\$32.7	\$ —	\$32.7	\$—

The Company also had investment securities held in a grantor trust for the benefit of participants of the executive deferred compensation plan measured at fair value at June 30, 2015 and December 31, 2014. The fair value of these instruments was measured using the quoted prices in active markets for identical assets (Level 1). There were no transfers between the three levels of the fair value hierarchy during the six months ended June 30, 2015 and 2014. The assets measured at fair value on a recurring basis as of June 30, 2015 and December 31, 2014 were as follows:

Table of Contents

Derivative Instruments

The Company is exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange rates.

The Company serves many of its U.S.-based clients using contact center capacity in various countries such as the Philippines, India, Canada, China, Malaysia, Egypt, Costa Rica, Colombia, Dominican Republic, El Salvador, Nicaragua and Honduras. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to deliver services under these contracts are denominated in the local currency of the country where services are provided, which represents a foreign exchange exposure. The Company has hedged a portion of its exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward exchange contracts with several financial institutions to acquire a total of PHP 38,544.0 at a fixed price of \$866.3 at various dates through June 2018, INR 9,920.0 at a fixed price of \$146.8 at various dates through March 2018 and CAD 43.9 at a fixed price of \$35.9 at various dates through April 2018. These instruments mature within the next 36 months and had a notional value of \$1,049.0 at June 30, 2015 and \$1,131.7 at December 31, 2014. The derivative instruments discussed above are designated and effective as cash flow hedges. The following table reflects the fair values of these derivative instruments:

	June 30, 2015	December 31, 2014
Forward exchange contracts and options designated as hedging instruments:		
Included within other current assets	\$ 1.8	\$ 1.7
Included within other non-current assets	0.8	1.3
Included within other current liabilities	17.7	21.4
Included within other long-term liabilities	9.8	11.3

The Company recorded a net deferred tax benefit of \$9.6 and \$11.3 related to these derivatives at June 30, 2015 and December 31, 2014, respectively. A total of \$15.4 and \$18.3 of deferred losses, net of tax, related to these cash flow hedges at June 30, 2015 and December 31, 2014, respectively, were included in accumulated other comprehensive income (loss) (OCI). As of June 30, 2015, deferred losses of \$15.9 (\$9.8 net of tax), on derivative instruments included in accumulated OCI are expected to be reclassified into earnings during the next twelve months. The following table provides the effect of these derivative instruments on the Company's Consolidated Financial Statements for the three and six months ended June 30, 2015 and 2014:

	Gain (Loss) Recognized in OCI on Derivative (Effective Portion)	(Loss) Gain Reclassified from Accumulated OCI into Income (Effective Portion)	Location of (Loss) Gain Reclassified from Accumulated OCI into Income (Effective Portion)
Three Months Ended June 30, 2015			
Foreign exchange contracts	\$ (7.1)	\$ (4.2)	- Cost of providing services and products sold and Selling, general and administrative
Six Months Ended June 30, 2015			
Foreign exchange contracts	\$ (3.1)	\$ (7.9)	- Cost of providing services and products sold and Selling, general and administrative

The amount recognized related to the ineffective portion of the derivative instruments was not material for the six months ended June 30, 2015 and 2014.

Table of Contents

The Company also enters into derivative instruments (forwards) to economically hedge the foreign currency impact of assets and liabilities denominated in nonfunctional currencies. The Company recorded a net gain of \$1.8 and \$1.4 during the six months ended June 30, 2015 and 2014, respectively, related to changes in fair value of these derivative instruments not designated as hedges. The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies. These gains and losses are classified within other income (expense), net in the accompanying Consolidated Statements of Income. The fair value of these derivative instruments not designated as hedges at June 30, 2015 was a \$0.2 payable.

Short-Term Investments

In December 2011, the Company made investments in certain securities, included within Short-term investments in the Consolidated Balance Sheets, which are held in a grantor trust for the benefit of participants of the executive deferred compensation plan. This investment reflects the hypothetical investment balances of plan participants. As of June 30, 2015, the Company maintained investment securities with a fair value of \$12.7 classified as trading securities. The investment securities include exchange-traded mutual funds, common stock of the Company and money market accounts. These securities are carried at fair value, with gains and losses, both realized and unrealized, reported in other income, net in the Consolidated Statements of Income. The cost of securities sold is based upon the specific identification method. Interest and dividends on securities classified as trading are included in other income, net.

(13) INCOME TAXES

The effective tax rate on net income from continuing operations was 8.2% and 13.7% for the three and six months ended June 30, 2015 compared to 20.4% and 18.6%, respectively, in the same period last year. The change in the effective tax rates for the periods ended June 30, 2015 is primarily due to a shift in the geographic mix of worldwide income and a \$4.9 net tax benefit recognized during the current quarter as a result of favorable resolution of certain tax audits.

The effective tax rate for the six months ended June 30, 2014 was impacted by a \$1.5 net tax benefit associated with the repatriation of certain foreign earnings. This included \$4.8 of tax benefit for the difference between tax previously accrued on foreign earnings and estimated taxes payable on the ultimate repatriation of such earnings, along with an additional \$3.3 of income tax expense related to 2014 foreign earnings that contributed to the funding of the Stream acquisition.

The liability for unrecognized tax benefits was \$50.9 and \$59.9 at June 30, 2015 and December 31, 2014, respectively, and is included in other long-term liabilities in the accompanying Consolidated Balance Sheets. As of June 30, 2015, the total amount of unrecognized tax benefits that would affect income tax expense if recognized in the Consolidated Financial Statements is \$44.8. This amount includes interest and penalties of \$12.1. It is reasonably possible that the total amount of unrecognized tax benefits will decrease between approximately \$18.0 and \$31.0 in the next twelve months; however, actual developments in this area could differ from those currently expected.

(14) GOODWILL AND OTHER INTANGIBLE AND LONG-LIVED ASSETS

Goodwill and Intangible Assets

Goodwill was \$840.1 at June 30, 2015 compared to \$850.7 at December 31, 2014. This decrease was primarily due to foreign currency translation. The Company tests goodwill for impairment annually as of October 1 and at other times if events have occurred or circumstances exist that indicate the carrying value of goodwill may no longer be recoverable. Goodwill impairment testing is performed at the reporting unit level. The Company's reporting units are Customer Management - Agent Services and Customer Management - Customer Interaction Technology (CIT). As of June 30, 2015 and December 31, 2014, all goodwill was held by the Customer Management - Agent Services reporting unit.

The impairment test for goodwill involves a two-step process. The first step compares the fair value of a reporting unit with its carrying amount, including the goodwill allocated to each reporting unit. If the carrying amount is in excess of the fair value, the second step requires the comparison of the implied fair value of the reporting unit goodwill with the carrying amount of the reporting unit goodwill. Any excess of the carrying value of the reporting unit goodwill over the implied fair value of the reporting unit goodwill will be recorded as an impairment loss. Fair value of the reporting units is determined using a combination of the market approach and the income approach. Under the market approach, fair value is based on actual stock price or transaction prices of comparable companies. Under the income approach, value is dependent on the present value of net cash flows to be derived from the ownership.

Intangible assets decreased to \$340.7 at June 30, 2015 from \$361.7 at December 31, 2014, primarily due to amortization and foreign currency translation. As of June 30, 2015, the Company's total identifiable intangible assets consisted of the following:

20

Table of Contents

	Gross Carrying Value	Accumulated Amortization	Net
Software (classified with Property and Equipment, net)	\$41.3	\$(36.6)) \$4.7
Trademarks	26.2	(15.4)) 10.8
Customer relationships and other intangibles	463.4	(138.2)) 325.2
Total	\$530.9	\$(190.2)) \$340.7

The intangible assets are being amortized using the following amortizable lives: 4 years for trademarks, 8 to 10 years for software and 1 to 17 years for customer relationships and other intangibles. The remaining weighted average depreciation period for software is approximately 1 year. The remaining weighted average amortization period for trademarks, customer relationships and other intangibles is approximately 15 years. Amortization of software is included within depreciation expense as the underlying assets are classified within property, plant and equipment. Trademarks, customer relationships, and other intangibles amortization expense was \$14.0 and \$10.3 for the six months ended June 30, 2015 and 2014, respectively, and is estimated to be approximately \$27.5 for the year ended December 31, 2015. The related estimated expense for the five subsequent years ended December 31 is as follows:

2016	\$27
2017	27

2019	22
2020	22

ITEM 2.

MANAGEMENT DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Currency Amounts in Millions Except Per Share Amounts)

BACKGROUND

Convergys Corporation (we, the Company or Convergys) is a global leader in customer management, focused on bringing value to our clients through every customer interaction. As a global provider in the industry, Convergys has a history of commitment and dedication to excellence in serving many of the world's largest brands. Our business model allows us to deliver consistent, quality service, at the scale and in the geographies that meet our clients' business needs and pro-actively partner to solve client business challenges through our account management model. We leverage our geographic footprint and comprehensive capabilities to help leading companies create quality customer experiences across multiple interaction channels while increasing revenue and reducing their cost to serve. We are uniquely positioned as a well-capitalized leader in our market and are able to invest in the services, technology, and analytics that matter to our client and their customers.

Operations and Structure

On March 3, 2014, Convergys completed its acquisition of SGS Holdings, Inc. (Stream), a global customer management leader providing technical support, customer care and sales for Fortune 1000 companies. This acquisition expanded the Company's geographic footprint and capabilities, adding approximately 40,000 employees in 22 countries. Combined, Convergys has approximately 125,000 employees working in more than 150 locations in 31 countries, interacting with our clients' customers in 47 languages. Stream's complementary client portfolio diversified Convergys' client base through the addition of leading technology, communications and other clients. Stream operating results are included in Convergys' Consolidated Statements of Income beginning March 3, 2014.

Agent-related revenues, which accounted for approximately 95% of revenues for the six months ended June 30, 2015, are typically recognized as the services are performed based on staffing hours or the number of contacts handled by service agents using contractual rates. Remaining revenues are derived from the sale of premise-based and hosted automated self-care and technology solutions and provision of professional services. Revenues from the sale of these solutions and provision of services are typically recognized as the services are provided over the duration of the contract using contractual rates.

We believe our clients benefit from our worldwide workforce located in key geographies throughout the world, including the United States, Canada, the Philippines, India, China, Indonesia, Malaysia, Costa Rica, Colombia, Dominican Republic, El Salvador, Nicaragua, Honduras, Australia, the U.K., France, Tunisia, Egypt, Bulgaria and other various countries throughout the EMEA region. The Stream acquisition noted above, expanded the Company's presence in North America, Latin America, and the Philippines. Most notably, the acquisition increased Convergys' presence in EMEA by adding Stream's sites across Eastern and Western Europe, as well as multiple sites in North Africa. As a result of this combination, Convergys has a more diversified client base and an enhanced ability to offer a wider range of customer transactions in a more cost effective manner from multiple geographies, at scale.

Three Months Ended June 30, 2015 versus Three Months Ended June 30, 2014

Consolidated revenues for the second quarter of 2015 were \$716.7, a 3% decrease from \$736.4 in the same period in the prior year. Changes in currency exchange rates reduced revenues by approximately 3% in the current quarter as the U.S. dollar strengthened relative to the euro, British pound, Australian dollar and the Canadian dollar. Revenues from communications clients decreased 3% from the second quarter 2014, reflecting volume declines with our largest client and unfavorable currency exchange rate impacts, partially offset by volume increases and new programs with existing clients. Revenues from technology clients slightly decreased 1% from the second quarter of 2014, reflecting volume declines and unfavorable currency exchange rate impacts, partially offset by volume increases and new programs with existing clients. Revenues from financial services clients increased 2% from the second quarter of 2014, due to a new client and a new program with an existing client. Other revenues, which are comprised of clients outside the Company's three largest industries, decreased 5% from the second quarter of 2014. This decrease is attributable to volume declines, program completions and unfavorable currency exchange rate impacts, partially offset by volume increases along with new sites and programs with existing clients.

Six Months Ended June 30, 2015 versus Six Months Ended June 30, 2014

Consolidated revenues for the six months ended June 30, 2015 were \$1,457.2, a 9% increase from \$1,342.1 in the same period in the prior year. The six months ended June 30, 2014 exclude Stream revenue of \$171.4, primarily within the communications and technology verticals, for the two months preceding the acquisition. Changes in currency exchange rates reduced revenues by approximately 3% for the six months ended June 30, 2015 as the U.S. dollar strengthened relative to the euro, British pound, Australian dollar and Canadian dollar. Revenues from communications clients increased 6% from the first half of 2014, reflecting two additional months of revenue related to Stream, volume increases with existing clients and new client ramps, partially offset by volume decreases with several existing clients and unfavorable currency exchange rate impacts. Revenues from technology clients increased significantly from the first half of 2014, reflecting two additional months of revenue related to Stream, volume increases and new programs with existing clients, partially offset by volume declines and unfavorable currency exchange rate impacts. Revenues from financial services clients increased 5% from the first half of 2014 due to volume increases and new clients, offset by program completions. Other revenues increased 2% from the first half of 2014. This increase is attributable to new clients and volume increases with existing clients, partially offset by a program completion with one client.

Three Months Ended June 30, 2015 versus Three Months Ended June 30, 2014

Total operating costs and expenses for the second quarter of 2015 of \$680.4 decreased 3% from \$699.5 in the same period in the prior year. Changes in currency exchange rates resulted in reduced operating costs and expenses of approximately 4% in the current quarter. Total operating costs and expenses for the three months ended June 30, 2015 and 2014 also include charges for transaction and integration related expenses of \$2.2 and \$5.0, respectively, associated with the acquisition of Stream.

As a percentage of revenues, the cost of providing services and products sold was 64.6% in the second quarter of 2015 compared to 64.0% in the prior year period, primarily as a result of the timing of certain program implementations. Selling, general and administrative expenses of \$167.6 in the second quarter of 2015 decreased \$9.0 from the prior year period as a result of lower spending in the current quarter due to synergies realized from the Stream integration, as well as favorable currency exchange impacts. These decreases were partially offset by increased expense in the current quarter for certain information technology infrastructure initiatives and additional investment in data privacy and security. As a percentage of revenues, selling, general, and administrative cost was 23.4% compared to 24.0% in the prior year. Depreciation expense of \$36.3 decreased \$3.2 from the prior year, while amortization expense of \$7.0 increased \$0.1. The decrease in depreciation expense resulted from the timing of certain assets becoming fully depreciated.

Six Months Ended June 30, 2015 versus Six Months Ended June 30, 2014

Total operating costs and expenses of \$1,371.7 increased 7% from the first half of 2014 costs of \$1,283.2. The six months ended June 30, 2014 exclude Stream operating costs of \$165.0 for the two months preceding the acquisition. Changes in currency exchange rates resulted in reduced operating costs and expenses of approximately 3% for the six months ended June 30, 2015. Total operating costs and expenses for the six months ended June 30, 2014 included a \$14.7 and \$15.4 charge for transaction and integration related expense, respectively, associated with the acquisition of Stream. These items are included within the Transaction and integration costs caption. As a percentage of revenues, the cost of providing services and products sold was 64.1% for the first six months of 2015, compared to 63.4% in the prior year period, largely due to the timing of certain program implementations. Selling, general and administrative expenses of \$337.6 in the first half of 2015 increased 5% as compared to \$321.6 in the prior year period, primarily due to two additional months of expense related to Stream. As a percentage of revenues, selling, general and

administrative expense was 23.2% compared to 24.0% in the prior year period. This decrease is primarily due to favorable currency exchange impacts, as well as synergies realized from the Stream integration, partially offset by increased expense in the current year for certain information technology infrastructure initiatives and additional investment in data privacy and security. Depreciation expense of \$72.9 increased \$6.9 from the prior year period, while amortization expense of \$14.0 increased \$3.7. These increases primarily resulted from two additional months of expense in 2015 related to the acquired property and equipment and intangible assets from the Stream acquisition.

Operating Income and Adjusted Operating Income (a non-GAAP measure)

26

Table of Contents

In order to assess the underlying operational performance of the continuing operations of the business and to have a basis to compare underlying results to prior and future periods, we provide the non-GAAP measures, Adjusted Operating Income and Adjusted Operating Margin (Adjusted Operating Income divided by Total Revenues), in the table below. For the three and six months ended June 30, 2015 and 2014, Adjusted Operating Income and Adjusted Operating Margin exclude the following:

Depreciation of \$5.3 and \$10.8 for the three and six months ended June 30, 2015, respectively, and \$5.9 and \$7.7, respectively, in the prior year period, resulting from the fair value write-up of property and equipment acquired from Stream;

Amortization of acquired intangible assets of \$7.0 and \$14.0 for the three and six months ended June 30, 2015, respectively, and \$6.9 and \$10.3, respectively, in the prior year period;

Integration expenses of \$2.2 and \$4.7 for the three and six months ended June 30, 2015, respectively, compared to \$5.0 and \$15.4 for the same period in 2014, associated with Convergys' integration of the acquired Stream operations. These expenses primarily related to severance expense and fees for third-party consulting services;

Transaction expenses of \$14.7 for the six months ended June 30, 2014 associated with Convergys' acquisition of Stream. These expenses related to fees paid for third-party consulting services, and;

Gain of \$1.6 for the three and six months ended June 30, 2014 resulting from the settlement of a contingency related to a previous real estate sale.

Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for this limitation by using both the non-GAAP measures and the GAAP measures in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Interest expense decreased by \$1.0 compared to the same period in prior year primarily due to a decrease in the Term Loan balance resulting from principal prepayments made during 2014 and 2015.

Six Months Ended June 30, 2015 versus Six Months Ended June 30, 2014

Other income was \$2.8 in the first half of 2015 compared to other expense of \$1.8 for the first half of 2014. The change was primarily due to foreign currency exchange gains in the current period compared to foreign currency exchange losses in the prior year period. Interest expense decreased by \$0.4 compared to the same period in prior year primarily due to a decrease in the Term Loan balance resulting from principal prepayments made during 2014 and 2015.

Three Months Ended June 30, 2015 versus Three Months Ended June 30, 2014

The effective tax rate on net income from continuing operations was 8.2% for the three months ended June 30, 2015 compared to an effective tax rate of 20.4% in the same period last year. The lower tax rate for the three months ended June 30, 2015 is primarily due to a shift in the geographic mix of worldwide income and a \$4.9 benefit recognized during the current quarter as a result of favorable resolution of certain tax audits.

Six Months Ended June 30, 2015 versus Six Months Ended June 30, 2014

The effective tax rate on net income from continuing operations was 13.7% for the six months ended June 30, 2015 compared to an effective tax rate of 18.6% in the same period last year. The lower tax rate for the six months ended June 30, 2015 is primarily due to a shift in the geographic mix of worldwide income and a \$4.9 benefit recognized during the current quarter as a result of favorable resolution of certain tax audits. The effective tax rate for the six months ended June 30, 2014 was favorably impacted by discrete items, primarily driven by transaction costs incurred during 2014 that did not recur during 2015.

Net Income from Continuing Operations; Earnings per Diluted Share from Continuing Operations; Adjusted Net Income From Continuing Operations; and Adjusted Earnings per Diluted Share from Continuing Operations (non-GAAP measures)

In order to assess the underlying operational performance of the continuing operations of the business, we provide non-GAAP measures in the tables below that exclude, in addition to the operating charges discussed above, the

following:

• Tax benefit of \$4.9 for the six months ended June 30, 2015, resulting from favorable resolutions of tax audits;

28

Table of Contents

Tax benefit of \$1.5 for the six months ended June 30, 2014 to adjust the deferred tax liability associated with the change in classification for a portion of the undistributed earnings of the Company's foreign earnings that occurred during the fourth quarter of 2013, and;

Tax expense of \$0.4 for the six months ended June 30, 2014, resulting from the changes in the Company's state rate applicable to deferred tax assets and liabilities. This change in rate resulted from the combination of the Convergys and Stream operations.

We use income from continuing operations, net of tax and earnings per share data excluding the operating charges discussed above and the discrete tax items discussed above for the three and six months ended June 30, 2015 and 2014, to assess the underlying operational performance of the continuing operations of the business for the year and to have a basis to compare underlying results to prior and future periods. Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not include all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using the non-GAAP measures, income from continuing operations, net of tax and diluted earnings per share excluding these items, and the GAAP measures, income from continuing operations, net of tax and diluted earnings per share, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

EBITDA and Adjusted EBITDA (non-GAAP measures)

Management uses EBITDA, EBITDA margin (EBITDA divided by Total Revenues), Adjusted EBITDA, Adjusted EBITDA margin (Adjusted EBITDA divided by Total Revenues) and the GAAP measure, income from continuing operations, net of tax, to monitor and evaluate the underlying performance of the business and believes the presentation of these measures will enhance investors' ability to analyze trends in the business and evaluate our underlying performance relative to other companies in the industry. EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute for income from continuing operations, net of tax, or other income statement data prepared in accordance with GAAP and our presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. There are no material purposes for which we use these non-GAAP measures beyond the purposes described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

RESTRUCTURING CHARGES

2015 Restructuring

The Company recorded severance expense of \$2.4 and \$3.4, respectively, for the three and six months ended June 30, 2015, related to Company's ongoing efforts to refine its operating model and reduce costs. The 2015 actions impacted approximately 200 employees. The severance expense is included in Restructuring charges on the Consolidated Statements of Income and is expected to be substantially paid in cash by June 30, 2016. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheet, was \$1.4 as of June 30, 2015 and \$1.0 as of March 31, 2015.

The Company also recorded restructuring expenses of \$0.3 during the first quarter related to the integration of Stream. These amounts are included in Transaction and integration costs in the Consolidated Statements of Income and are expected to be substantially paid in cash by March 31, 2016. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheets, was \$0.3 as of June 30, 2015 and \$0.3 as of March 31, 2015.

2014 Restructuring

During 2014, the Company recorded severance charges of \$11.0 related to the elimination of certain redundant executive and non-executive positions as a result of the Company's integration of the Stream business. This severance activity impacted approximately 150 employees. These amounts are included in Transaction and integration costs in the Consolidated Statements of Income and are expected to be substantially paid in cash by December 31, 2015. The total remaining liability under these severance-related actions, which is included in Payables and other current liabilities on the Company's Consolidated Balance Sheets, was \$0.8 as of June 30, 2015 compared to \$1.3 as of March 31, 2015 and \$2.6 as of December 31, 2014.

During 2014, the Company also recorded a severance charge of \$1.7 related to restructuring actions impacting approximately 400 employees. These actions were initiated to continue the Company's efforts to refine its operating model and reduce costs. The severance charges are included in Restructuring charges on the Consolidated Statement of Income and are expected to be substantially paid in cash by December 31, 2015. The total remaining liability under this severance-related restructuring plan, which is included in Payables and other current liabilities in the Consolidated Balance Sheets, was 0.7 as of June 30, 2015 compared to \$0.8 as of March 31, 2015 and \$1.3 as of December 31, 2014.

Savings from Restructuring Actions

The 2015 and 2014 severance actions resulted in cost reductions of approximately \$2 and \$20, respectively, on an annualized basis. The impact of these benefits is spread across our operating expenses, primarily selling, general and administrative expense. The severance actions also resulted in cash savings of approximately \$2 and \$17, respectively, on an annualized basis. The impact on liquidity was not material for either plan.

CLIENT CONCENTRATION

During the first six months of 2015, our three largest clients accounted for 29.1% of our revenues, compared to 33.3% in the same period of 2014. Our largest client, AT&T, accounted for 13.4% of revenues in the first six months of 2015 as compared to 16.5% of revenue in the same period in the prior year. Revenues for all other clients were less than 10% of our consolidated revenues for the first six months of 2015 and 2014. Volumes under certain of our long-term arrangements are earned under multiple contracts with individual clients and are subject to variation based on, among other things, general economic conditions, client outsourcing trends and seasonal patterns in our clients' businesses.

BUSINESS OUTLOOK

Convergys expectations for EBITDA, EPS and constant currency revenue are unchanged from prior guidance. Due to the negative impact of the strengthened US dollar against the euro, Australian dollar, British pound, and Canadian dollar, the Company's expectation for reported revenue has changed. As a result, Convergys now expects:

- Revenue of \$2.940 billion to \$3.020 billion, including approximately \$0.075 billion negative impact of foreign exchange rates compared with 2014 rates, changed from the approximately \$0.065 billion negative impact included in prior guidance;
- Adjusted EBITDA of \$375 million to \$395 million, unchanged from prior guidance;
- Adjusted effective tax rate to approximate 23 percent, unchanged from prior guidance;
- Diluted shares outstanding to approximate 105 million, unchanged from prior guidance;
- Adjusted Earnings per Diluted Common Share of \$1.65 to \$1.75, unchanged from prior guidance.

Not included in this outlook are acquisition-related impacts such as integration costs, intangible amortization and depreciation related to the fair value write-up of acquired property and equipment, and tax expense associated with cash repatriation. Also not included are impacts from future currency movements, non-cash pension settlement charges, significant discrete tax adjustments or any future share repurchase activities.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Cash Flows

We believe that we have adequate liquidity from cash and expected future operating cash flows to fund ongoing operations, invest in the business, make required debt payments and pay dividends at the discretion of the Board of Directors for the next twelve months.

Cash flows from operating activities generally provide us with a significant source of funding for our investing and financing activities. Cash flows from operating activities totaled \$132.8 in the first six months of 2015 compared to \$91.7 in the same period last year. The six months ended June 30, 2015, were negatively impacted by \$6.9 of payments for transaction and integration related expenses. The six months ended June 30, 2014 were negatively impacted by \$27.4 of tax payments related to the repatriation of non-U.S. cash, \$29.4 of payments for transaction and integration related expenses and \$15.0 used to fund an escrow account for ultimate settlement of working capital associated with the Stream acquisition. Excluding these items, cash flows provided by operating activities totaled \$139.7 and \$163.5 for the six months ended June 30, 2015 and 2014, respectively. This decrease is primarily due to a \$20.0 contribution to the Company's Cash Balance Plan during 2015.

Cash flows used in investing activities were \$51.6 during the first six months of 2015, resulting from capital expenditures during that period. Cash flows used in investing activities were \$792.1 during the first six months of 2014, which included cash outflows of \$804.5 (net of cash acquired) for the purchase of Stream's operations and \$56.3 of capital expenditures, partially offset by \$68.7 in proceeds from the maturity of short-term investments. Cash flows used in financing activities were \$84.8 during the first six months of 2015 compared to \$303.0 of cash flows provided by financing activities during the first six months of 2014. Activity in the current year included repayments of other long-term debt of \$54.2 and net proceeds from the Asset Securitization Facility of \$15.0.

Additionally, we settled in cash the repurchase of 1.5 of the Company's common shares for \$33.1, including \$0.9 of shares repurchased but not settled prior to December 31, 2014 and excluding \$0.4 of shares repurchased in the first half of the year that had not settled as of June 30, 2015. We also paid \$13.9 in cash dividends and received \$0.5 of excess tax benefits from share-based payment arrangements and \$0.9 from the exercise of stock options. During the first six months of 2014, we had debt proceeds of \$344.9 from the issuance of other long-term debt related to the Term Loan associated with the new Credit Agreement entered into in connection with the acquisition of Stream and repayments of other long-term debt of \$40.8. Additionally, we had net proceeds from the Asset Securitization Facility of \$20.0,

Table of Contents

repurchased 0.5 of the Company's common shares for \$10.0, paid \$12.1 in cash dividends and paid \$2.0 of debt issuance costs during the six month ended 2014. We also received \$1.9 of excess tax benefits from share-based payment arrangements and \$1.1 from the exercise of stock options.

We use free cash flow and adjusted free cash flow, non-GAAP measures, to assess the financial performance of the Company. We define free cash flow as cash flows from operating activities less capital expenditures. A reconciliation of the GAAP measure, net cash provided by operating activities, to the non-GAAP measures, free cash flow and adjusted free cash flow, is as follows:

	Three Months Ended		Six Months Ended June	
	June 30,	2014	30,	2014
	2015	2014	2015	2014
Net cash provided by operating activities under U.S. GAAP	\$67.6	\$75.9	\$132.8	\$91.7
Capital expenditures	(23.0)	(38.0)	(51.6)	(56.3)
Free cash flow (a non-GAAP measure)	44.6	37.9	81.2	35.4
Stream acquisition - cash paid for transaction and integration related expenses ^(A)	2.4	7.4	6.9	29.4
Stream acquisition - cash received from escrow associated with the working capital settlement ^(A)	—	—	—	15.0
Cash paid for taxes related to repatriation of non-U.S. cash to partially fund the Stream acquisition ^(A)	—	—	—	27.4
Adjusted free cash flow (a non-GAAP measure)	\$47.0	\$45.3	\$88.1	\$107.2

^(A) Because these payments were associated with investment activity, we have excluded these amounts from our adjusted free cash flow calculation.

Adjusted free cash flow was \$47.0 and \$88.1 for the three and six months ended June 30, 2015, respectively, compared to \$45.3 and \$107.2 for the same periods in 2014. The decrease of \$19.1 from the prior year in the six-month period primarily resulted from the \$20.0 contribution to the Company's Cash Balance Plan during 2015. We believe that free cash flow and adjusted free cash flow are useful to investors because they relate the operating cash flow of the Company to the capital that is spent to continue and improve business operations, such as investment in the Company's existing businesses. Further, free cash flow and adjusted free cash flow provide an indication of the ongoing cash that is available for debt repayment, returning capital to shareholders and other opportunities. We also believe the presentation of these measures will enhance the investors' ability to analyze trends in the business and evaluate the Company's underlying performance relative to other companies in the industry. Limitations associated with the use of free cash flow and adjusted free cash flow include that they do not represent the residual cash flow available for discretionary expenditures as they do not incorporate certain cash payments including payments made on capital lease obligations or cash payments for business acquisitions. Management compensates for these limitations by utilizing the non-GAAP measures, free cash flow and adjusted free cash flow, and the GAAP measure, cash flows from operating activities, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond the purposes described above.

Capital Resources, Off-Balance Sheet Arrangements and Contractual Commitments

At June 30, 2015, total capitalization was \$1,643.4, consisting of \$337.8 of short-term and long-term debt, \$1,241.9 of equity and \$63.7 of temporary equity associated with the convertible debentures conversion feature. The total debt-to-capital ratio was 20.6% at June 30, 2015, compared to 22.5% at December 31, 2014. This decrease primarily resulted from a decrease in total debt, primarily related to the Company's Term Loan.

On February 28, 2014, the Company entered into a Credit Agreement establishing an unsecured credit facility in the aggregate amount of \$650.0 (Credit Agreement). In connection with entering into the Credit Agreement, Convergys terminated its \$300.0 Four-Year Competitive Advance and Revolving Credit Facility Agreement dated March 11, 2011 (the 2011 Credit Facility). The Credit Agreement consists of term loans (the Term Loan) in the aggregate amount of \$350.0, and a revolving credit facility (the Revolving Credit Facility) in the amount of \$300.0. The Company recorded the initial carrying amount of the Term Loan at \$344.9, reflecting a discount of \$5.1 resulting from fees paid directly to the lender at issuance. The discount will be amortized over the life of the Term Loan using the

effective interest rate method (2.4% as of June 30, 2015), and is included in interest expense in the Consolidated Statements of Income. The conditions for the funding of the Term Loan and the Revolving Credit Facility were satisfied on March 3, 2014. Both mature on March 3, 2019, unless extended pursuant to the terms of the Credit Agreement. Outstanding amounts bear interest at one of the rates described in the Credit Agreement. During 2015 and 2014, The Company made voluntary Term Loan principal payments of \$50.0 and \$85.0, respectively. The next required principal payment is due March 3, 2019. While amounts borrowed and repaid under the Revolving Credit Facility may be re-borrowed, amounts repaid under the

Table of Contents

Term Loan may not be borrowed again under the Credit Agreement. Total borrowing capacity remaining under the Revolving Credit Facility was \$300.0, with \$215.0 outstanding principal on the Term Loan, as of June 30, 2015. The Credit Agreement contains certain affirmative and negative covenants, as well as other terms and conditions that are customary for credit facilities of this type, including financial covenants for leverage and interest coverage ratios. The Company was in compliance with all covenants at June 30, 2015.

During 2009, Convergys issued a total of \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) in exchange for \$122.5 of 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009, pursuant to an exchange offer. The entire balance of the 2029 Convertible Debentures was outstanding and convertible at the option of the holders as of June 30, 2015 and December 31, 2014.

During January 2014, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in January 2017. During June 2015, the Company amended the asset securitization facility to include the receivables of certain of the Company's Stream subsidiaries. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. On March 13, 2015, the Company entered into an amendment to the Company's existing asset securitization facility to adjust the maximum Debt-to-EBITDA ratio permitted under the terms of the facility. As of June 30, 2015 and December 31, 2014, Convergys had drawn \$55.0 and \$40.0, respectively, in available funding from qualified receivables. Amounts have been classified under this facility as long-term debt within the Consolidated Balance Sheets.

We repurchased 0.6 and 1.5 of our common shares during the three and six months ended June 30, 2015, at an average price of \$23.98 and \$22.26 per share for a total of \$14.6 and \$32.6 under current authorizations approved by the Company's Board of Directors. Based upon timing of the transactions, \$0.4 of shares repurchased had not settled as of June 30, 2015. These shares are excluded from outstanding shares at the end of the current quarter and were settled in cash during the third quarter of 2015. The timing and terms of any future purchases depend on a number of considerations including market conditions and our liquidity. At June 30, 2015, the Company had the authority to repurchase an additional \$54.4 pursuant to current authorizations. On August 4, 2015, the Company's Board of Directors granted the Company approval to repurchase \$250.0 common shares on a go-forward basis from the date of approval. We also repurchased 0.2 shares at an average price of \$25.33 for aggregate proceeds of \$4.7 subsequent to June 30, 2015 through August 4, 2015.

At June 30, 2015, we had outstanding letters of credit of \$25.5 and other bond obligations of \$2.7 related to performance and payment guarantees. We believe that any guarantee obligation that may arise will not be material. We also have purchase commitments with telecommunications providers of \$7.2 for the remainder of 2015.

At June 30, 2015, we had outstanding performance bond obligations of \$30.0 related to performance and payment guarantees for the Company's former HR Management line of business. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for these bond obligations. As part of the gain on disposition we recognized a liability equal to the present value of probability weighted cash flows of potential outcomes. Although the buyer is obligated to indemnify us for any and all losses, costs, liabilities and expenses incurred related to this performance bond, as of June 30, 2015 we maintain a liability of \$0.3 for this obligation. The Company's guarantee for this bond obligation expires in August 2016.

We have unrecognized tax benefits of \$50.9. It is reasonably possible that these unrecognized tax benefits will decrease between approximately \$18 and \$31 in the next twelve months based upon the resolution of audits; however, actual developments in this area could differ from those currently expected.

During 2014 and 2015, the Company has paid the following Board-approved dividends per common share:

Announcement Date	Record Date	Dividend Amount	Payment Date
November 6, 2013	December 27, 2013	\$0.06	January 10, 2014
February 5, 2014	March 21, 2014	\$0.06	April 4, 2014
May 12, 2014	June 19, 2014	\$0.07	July 3, 2014
August 11, 2014	September 19, 2014	\$0.07	October 3, 2014

Edgar Filing: CONVERGYS CORP - Form 10-Q

November 5, 2014	December 26, 2014	\$0.07	January 9, 2015
February 18, 2015	March 20, 2015	\$0.07	April 3, 2015
May 5, 2015	June 18, 2015	\$0.08	July 2, 2015

On August 4, 2015, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.08 per common share to be paid on October 2, 2015 to shareholders of record as of September 18, 2015.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors. We intend to continue to use cash dividends as a means of returning capital to shareholders, subject to our determination that cash dividends are in the best interests of our shareholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. Our risk management strategy includes the use of derivative instruments to reduce the effects on our operating results and cash flows from fluctuations caused by volatility in currency exchange and interest rates. In using derivative financial instruments to hedge exposures to changes in exchange rates and interest rates, we expose ourselves to counterparty credit risk. We manage exposure to counterparty credit risk by entering into derivative financial instruments with highly-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the number of financial institutions with which we enter into such agreements.

Interest Rate Risk

Convergys had \$270.0 of variable rate debt outstanding as of June 30, 2015, associated with the Term Loan and Asset Securitization Facility. Therefore, Convergys is exposed to changes in interest rates. Holding other variables constant, including the total amount of outstanding indebtedness, a one percent increase in interest rates on our variable-rate debt would cause an estimated increase in annual interest expense of approximately \$2.7.

Foreign Currency Exchange Rate Risk

While most of our contracts are priced in U.S. dollars, approximately 20% of our revenue relates to contracts that are denominated in British pounds, euros, Australian dollars and Canadian dollars. A significant increase in the value of the U.S. dollar relative to these currencies may have a material impact on the value of those revenues when translated to U.S. dollars.

We serve many of our U.S.-based clients using contact center capacity in various countries such as the Philippines, India, Canada, China, Malaysia, Egypt, Costa Rica, Colombia, Dominican Republic, El Salvador, Nicaragua and Honduras. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to deliver services under these contracts are denominated in the local currency of the country where services are provided, which represents a foreign exchange exposure. As of June 30, 2015, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward contracts with several financial institutions to acquire a total of PHP 38,544.0 at a fixed price of \$866.3 at various dates through June 2018, INR 9,920.0 at a fixed price of \$146.8 at various dates through March 2018 and CAD 43.9 at a fixed price of \$35.9 at various dates through April 2018. The fair value of these derivative instruments as of June 30, 2015 is presented in Note 11 of the Notes to Consolidated Financial Statements. The potential loss in fair value at June 30, 2015 for such contracts resulting from a hypothetical 10% adverse change in the underlying foreign currency exchange rates is approximately \$104.9. This loss would be mitigated by corresponding gains on the underlying exposures.

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into forward exchange contracts that are not designated as hedges. The purpose of these derivative instruments is to protect the Company against foreign currency exposure pertaining to receivables, payables and intercompany transactions that are denominated in currencies different from the functional currencies of the Company or the respective subsidiaries. As of June 30, 2015, the fair value of these derivatives not designated as hedges was a \$0.2 payable.

Critical Accounting Policies and Estimates

See "ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report for the year ended December 31, 2014 on Form 10-K for a discussion of our critical accounting policies and estimates.

There have been no material changes to our critical accounting policies and estimates in 2015.

ITEM 4. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer evaluated, together with the Company's General Counsel, Chief Accounting Officer and other key employees, the effectiveness of design and operation of the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) as of the end of the quarter ended June 30, 2015. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report such that the information required to be disclosed by the Company in the reports that it files or submits

under the Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and are effective to ensure that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes in the design or approaches of the Company's internal control over financial reporting, or any other factors, that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information required by Item 1 is included in Note 10 of the Notes to the Consolidated Financial Statements of this Form 10-Q and incorporated by reference herein.

ITEM 1A. RISK FACTORS

See “ITEM 1A. Risk Factors” in our annual report for the year ended December 31, 2014 on Form 10-K for a discussion of our risk factors. There have been no material changes to our risk factors in 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities during the second quarter of 2015 or from June 30, 2015 through the date of filing this report. We repurchased the following common shares during the six months ended June 30, 2015, as summarized in the following table:

	Shares Repurchased	Average price per share
January 2015	311,479	\$ 19.80
February 2015	250,556	21.11
March 2015	293,242	22.30
April 2015	249,903	23.02
May 2015	205,622	24.10
June 2015	155,064	25.35
Total	1,465,866	\$22.26

At June 30, 2015, the Company remained authorized to repurchase up to an incremental \$54.4 of outstanding shares. On August 4, 2015, the Company's Board of Directors granted the Company approval to repurchase \$250.0 common shares on a go-forward basis from the date of approval. The timing and terms of any future purchases depend on a number of considerations including market conditions and our liquidity.
