Introductory Comment

Throughout this Current Report on Form 8-K, the terms BioSpecifics, we, us, our and Company refer to BioSp Technologies Corp.

Item 8.01. Other Events

On November 5, 2015, BioSpecifics announced that its partner Endo International plc (Endo) had exercised, with BioSpecifics consent, an early opt-in right for CCH to include two new potential indications, plantar fibromatosis and lateral thigh fat. In light of the early opt-in, Endo will pay BioSpecifics an opt-in fee of \$500,000 for each indication. BioSpecifics has been relieved of the requirement to do further clinical development for these two indications. These two indications otherwise remain subject to the terms of the Second Amended and Restated Development and Licensing Agreement. This early opt-in does not affect any other Stage I development activities of BioSpecifics.

A press release regarding the announcement is attached as Exhibit 99.1 to this Current Report on Form 8-K. The notice of early opt-in is attached as Exhibit 99.2 to this Current Report on Form 8-K.
