Exhibit 99.1

Greene County Bancorp, Inc.  
Announces Earnings

Catskill, N.Y. -- (BUSINESS WIRE) – January 27, 2010-- Greene County Bancorp, Inc. (the “Company”) (NASDAQ: GCBC), the holding company for The Bank of Greene County and its subsidiary Greene County Commercial Bank, today reported net income for the six months and quarter ended December 31, 2009. Net income for the six months ended December 31, 2009 amounted to \$2.4 million or \$0.58 per basic and diluted share as compared to \$1.8 million or \$0.45 per basic and diluted share for the six months ended December 31, 2008, an increase of \$559,000, or 30.4%. Net income for the quarter ended December 31, 2009 amounted to \$1.2 million or \$0.29 per basic and diluted share as compared to \$1.0 million or \$0.25 per basic and diluted share for the quarter ended December 31, 2008, an increase of \$184,000, or 17.8%.

Donald E. Gibson, President & CEO stated, “Since 1889, our community has counted on us to keep their money safe. As we look ahead to 2010, you can count on our continued vigilance. We are pleased to report again this quarter strong earnings and capital ratios, along with record period-end assets, deposits, and loans. In addition as of December 31, 2009, we had no “other real estate owned” that is, real estate acquired through the foreclosure process.”

The most significant factor contributing to the higher earnings was higher net interest income, which increased to \$8.6 million for the six months ended December 31, 2009 as compared to \$7.7 million for the six months ended December 31, 2008, an increase of \$891,000 or 11.6%. Net interest income increased to \$4.3 million for the quarter ended December 31, 2009 as compared to \$4.0 million for the quarter ended December 31, 2008, an increase of \$371,000 or 9.3%. Net interest rate spread increased 4 basis points to 3.64% for the six months ended December 31, 2009 as compared to 3.60% for the six months ended December 31, 2008. Net interest rate spread increased 10 basis points to 3.65% for the quarter ended December 31, 2009 as compared to 3.55% for the quarter ended December 31, 2008. Net interest margin decreased 5 basis points to 3.84% for the six months ended December 31, 2009 as compared to 3.89% for the six months ended December 31, 2008. Net interest margin increased 4 basis points to 3.85% for the quarter ended December 31, 2009 as compared to 3.81% for the quarter ended December 31, 2008. The increase in average balances, along with the widening of the net interest spread led to an increase in net interest income when comparing the six months and quarters ended December 31, 2009 and 2008.

Management continues to closely monitor asset quality and adjust the level of the allowance for loan losses when necessary. The provision for loan losses amounted to \$677,000 and \$613,000 for the six months ended December 31, 2009 and 2008, respectively, an increase of \$64,000 or 10.4%. The provision for loan losses amounted to \$429,000 and \$418,000 for the quarters ended December 31, 2009 and 2008, respectively, an increase of \$11,000. The increases in provisions for loan losses were partially a result of growth in the loan portfolio, with a continued shift to a greater level of commercial loans, and an increase in the amount of nonperforming assets and loan charge-offs. The commercial real estate and installment loan portfolio as a percent of total loans has increased to 24.1% at December 31, 2009 from 18.2% at December 31, 2008. Generally, commercial loans are considered to have greater credit risk, and require a higher level of allowance for loan loss. Nonperforming assets amounted to \$3.6 million and \$1.8 million at December 31, 2009 and 2008, respectively, an increase of \$1.8 million or 100%. Of this increase, \$1.0 million was in residential mortgage loans, and \$822,000 was in commercial real estate loans. Nonperforming assets decreased \$530,000 from \$4.1 million at September 30, 2009. Net charge-offs amounted to \$419,000 and \$293,000 for the six months ended December 31, 2009 and 2008, respectively, an increase of \$126,000. The increase in the level of nonperforming assets and charge-offs reflected the decline in the overall economy. As a result, the level of allowance for loan losses to total loans receivable has been increased to 1.28% as of December 31, 2009 as compared to 0.84% as of December 31, 2008.

Noninterest income increased \$211,000 to \$2.4 million for the six months ended December 31, 2009 compared to \$2.2 million for the six months ended December 31, 2008. Noninterest income remained flat at \$1.2 million for the quarters ended December 31, 2009 and 2008. Noninterest income for the six months ended December 31, 2008 reflected an impairment charge of \$221,000 (\$135,000 net of tax) related to the other-than-temporary impairment of a Lehman Brothers Holdings, Inc. debt security. There were no other-than-temporary impairment charges recognized during the six months ended December 31, 2009.

Noninterest expense increased \$174,000 or 2.7% to \$6.7 million for the six months ended December 31, 2009 as compared to \$6.5 million for the six months ended December 31, 2008. Noninterest expense increased \$150,000 or 4.8% to \$3.3 million for the quarter ended December 31, 2009 as compared to \$3.2 million for the quarter ended December 31, 2008. The increases for both the six months and the quarter ended December 31, 2009 were primarily the result of an increase in FDIC insurance premium expense due to both higher deposit balances and an increase in the rates assessed against the deposits as well as higher compensation and depreciation due to the opening of the new Ravena branch in January 2009. The Company also has increased staffing as a result of the creation of a new customer service call center and the expansion of the marketing department. Partially offsetting the increase for the six months ended December 31, 2009, was a decrease in pension expense. During the six months ended December 31, 2008, the Company accrued \$351,000 toward the expected future termination of its currently frozen defined benefit plan. The defined benefit pension plan was transferred to a single-employer plan from the previously existing multi-employer plan during the fourth quarter of the fiscal year ended June 30, 2009. As a result, pension expense decreased by \$347,000 for the six months ended December 31, 2009 when compared to the six months ended December 31, 2008.

Total assets grew \$12.6 million or 2.7% to \$473.1 million at December 31, 2009 as compared to \$460.5 million at June 30, 2009. Securities classified as both available for sale and held to maturity decreased \$7.0 million to \$154.6 million at December 31, 2009 as compared to \$161.6 million at June 30, 2009. Net loans increased \$15.5 million or 5.8% to \$283.4 million at December 31, 2009 as compared to \$267.9 million at June 30, 2009. Funding the growth in assets in the six months ended December 31, 2009 was increased borrowings of \$10.3 million to \$29.3 million, and maturities, sales and principal paydowns of \$16.7 million partially offset by \$9.5 million in purchases. Deposits grew \$505,000 to \$399.2 million at December 31, 2009 as compared to \$398.7 million at June 30, 2009. Total shareholders' equity amounted to \$42.6 million at December 31, 2009, or 9.0% of total assets.

Headquartered in Catskill, New York, the Company provides full-service community-based banking in its eleven branch offices located in Greene, Columbia and Albany Counties. Customers are offered 24-hour services through ATM network systems, an automated telephone banking system and Internet Banking through its web site at <http://www.tbogc.com>.

This press release contains statements about future events that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results could differ materially from those projected in the forward-looking statements. Factors that might cause such a difference include, but are not limited to, general economic conditions, changes in interest rates, regulatory considerations, competition, technological developments, retention and recruitment of qualified personnel, and market acceptance of the Company's pricing, products and services.
