The Finx Group, Inc. and Subsidiaries
Footnotes to Unaudited Consolidated Interim Financial Statements
Three and Nine Months Ended September 30, 2004 and 2003

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of The Finx Group, Inc. and its subsidiaries consisting of Secured Portal Systems, Inc., and Granite Acquisition Corp., (collectively the "Company") have been prepared in accordance with Regulation S-B promulgated by the Securities and Exchange Commission and do not include all of the information and footnotes required by generally accepted accounting principles in the United States of America for complete financial statements. In the opinion of management, these interim financial statements include all adjustments necessary in order to make the financial statements not misleading. The results of operations for such interim periods are not necessarily indicative of results of operations for a full year. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto of the Company and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Annual Report on Form 10-KSB for the year ended December 31, 2003. Certain reclassifications were made to prior year amounts to conform to the current year presentation.

The accompanying unaudited interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has generated only nominal revenue from continuing operations and has a history of net losses and as of September 30, 2004 has a working capital deficiency of \$8.6 million and a capital deficiency of \$6.1 million. Historically, the Company has been dependent on financial support from its controlling stockholder, Trinity Group-I, Inc. ("Trinity"), and other related parties. Management is currently seeking additional financing; however, the Company can give no assurances such financing will be consummated, that the terms of any financing will be reasonable or that the amount raised will be adequate to meet the Company's current and ongoing obligations. The continuation of the Company as a going concern is dependent upon its ability both to obtain financing and to generate revenues. The accompanying consolidated financial statements do not include any adjustments that would result should the Company be unable to continue as a going concern

2. Significant Accounting Policies

The accounting policies followed by the Company are set forth in Note 1 to the Company's financial statements in the December 31, 2003 Form 10-KSB as amended.

In preparing the consolidated financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Some of the more significant estimates include the carrying value of the Company's exclusive license and its amortization.

Certain long-term assets of the Company are reviewed when changes in circumstances require as to whether their carrying value has become impaired, pursuant to guidance established in Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived

Edgar Filing: FINX GROUP INC - Form 10QSB

Assets." Management considers assets to be impaired if the carrying value exceeds the future projected cash flows from related operations [undiscounted and without interest charges]. If impairment is deemed to exist, the asset will be written down to fair value. Management also reevaluates the period of amortization to determine whether subsequent events and circumstances warrant revised estimates of useful lives. As of September 30, 2004, management expects those assets related to its continuing operations to be fully recoverable.

3. Supplemental Disclosure of Non Cash Investing and Financing Activities

On July 29, 2004, Lewis S. Schiller and The Trinity Group-I, Inc. converted \$500,000 of debt obligations into 50,000 shares of Series D Convertible Preferred Stock. Each share of Series D Convertible Preferred Stock is convertible into 10,000 shares of common stock. Grayzna B. Wnuk converted \$75,000 of accrued salary into 7,500 shares of Series D Convertible Preferred Stock and a consultant to the Company converted \$150,000 of accrued consulting fees 15,000 shares of Series D Convertible Preferred Stock. The Series D Convertible Preferred Stock votes alongside of common stock on an if converted basis regardless of whether there is common shares available for conversion at the time of any vote. As of the date hereof, the forgoing shares are convertible into 725,000,000 shares of common stock. The conversion period for the Series D Convertible Preferred stock does not have an expiration date.

On July 29, 2004, the Company issued additional warrants to purchase an aggregate of 584,860,000 shares of Common Stock at an exercise price of \$0.01 per share resulting in stock compensation expense of \$594,984.

Wnuk, an officer and director of The Finx Group, Inc., resulting in stock compensation expense of \$75,000.

4. Exclusive License Agreement

On September 13, 1999, the Company obtained the Georal license which gives the Company distribution rights for the sale of Georal security products to a broad range of customers. The Georal security products' include all models of the Georal security door. The categories of customers covered by the Georal license includes the United States Treasury Department, the United States Central Intelligence Agency and all other United States Government intelligence agencies, the United States National Security Agency, the United States Defense Intelligence Agency, the United States Department of the Navy, the United States Air Force, the United States Army, all United States Federal Courts and all United States Embassies, all department stores and retail stores located in the United States (including all retail stores located in foreign countries which are part of a retail store chain which is based in the United States), the Government of Israel, and certain corporations. The Georal license commenced on September 1, 1999 and, as amended, expires on August 31, 2014.

Edgar Filing: FINX GROUP INC - Form 10QSB

As an inducement to obtain the Georal license and in exchange for 1,000,000 common stock shares of GIL, in September 1999, the Company issued to Alan J. Risi preferred shares which were converted into 1,049,874 shares of common stock in July of 2002.

On December 11, 2001, the GIL 2001 security door received certification by the U.S. State Department. On February 21, 2002, the Georal license was amended to expand the categories of customers for which the Company has the exclusive marketing right to include all financial institutions around the world with the Company also receiving a right of first refusal to be the exclusive distributor for sales to any governmental body which the Company does not have exclusive marketing rights. As consideration for the amendment entered into on February 21, 2002, the Company issued to Alan Risi 40,000 shares of series D 2% convertible preferred stock that was converted into 4,000,000 million shares of common stock. On May 16, 2002, the Georal license for the Georal security systems was further amended whereby the exclusive distribution agreement was expanded to give the Company additional exclusive world wide sales and marketing rights. As consideration for the amendment entered into on May 16, 2002, the Company issued to Alan Risi 60,000 shares of its series C 2% convertible preferred stock which were converted into 6,000,000 shares of common stock. On September 9, 2002, the Georal license was further expanded to provide the Company with additional exclusive marketing rights. As consideration for this amendment, the Company issued to Alan Risi 100,000 shares of its series C preferred stock which were converted into 10,000,000 shares of common stock. On October 16, 2002, the Company issued to Alan Risi an additional 250,000 shares of its series C preferred stock for an amendment to the Georal license which provided the Company with participation rights in certain maintenance revenue generated by Georal and extended the term of the agreement an additional five years, to September 18, 2014. Using the Black-Scholes option valuation formula, the convertible preferred stock was valued at \$2.98 million.

Page 7

On December 10, 2003, the Company, its wholly-owned subsidiary, Secured Portal Systems, Inc., Alan J. Risi ("Risi"), GIL Security Systems, Inc. ("GIL"), and Georal International, Ltd., entered into a amended and restated worldwide exclusive distribution agreement covering all security entrance systems created, developed, manufactured and/or distributed or otherwise sold by GIL, Georal or their successors. The restated agreement expanded the Company's exclusivity and gave the Company certain other rights. The agreement provided for certain payments by the Company and, if the payments were not made, GIL, Georal and Risi have the right to terminate the restated agreement, in which event, the relationship among the parties would be governed by the prior agreement.

On or about April 28, 2004, the Company received a notice from GIL stating that the agreement was terminated for failure of the Company to pay the amount provided in the restated agreement. The notice further stated GIL's position that all agreements between GIL and the Company and its subsidiary are terminated.

The Company is considering its legal rights and believes that its subsidiary will continue to be able to exercise its right to market the security portals in major markets groups; however, the Company can give no assurance as to its ability to protect such rights or, if litigation is necessary, that it will prevail in any legal action it may commence.

As of September 30, 2004, the Company has not recorded any impairment adjustments with regards to the exclusive license.

Edgar Filing: FINX GROUP INC - Form 10QSB

5. Basic and Diluted Loss Per Share

Basic and diluted per share results for all periods presented were computed based on the net earnings or loss allocated to the common stock for the respective periods. The weighted average number of shares of common stock outstanding during the period was used in the calculation of basic earnings (loss) per share. In accordance with FAS 128, "Earnings Per Share," the weighted average number of shares of common stock used in the calculation of diluted per share amounts is adjusted for the dilutive effects of stock options based on the treasury stock method and the assumed conversion of convertible preferred stock only if an entity records earnings from continuing operations (i.e., before discontinued operations), as such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations. As a result of the Company recording a loss from continuing operations for the three months ended September 30, 2004, the average number of common shares used in the calculation of diluted loss per share have not been adjusted for the effects of 1,842,360,000 potential common shares from unexercised stock options and warrants and 1,696,250 potential common shares from unconverted preferred shares. Such warrants, options, and shares of convertible preferred stock may dilute earnings per share in the future.

Legal Proceedings

Although the Company is a party to certain legal proceedings that have occurred in the ordinary course of business, it does not believe such proceedings to be of a material nature with the exception of the following item. Levien, against The Finx Group, Inc. f/k/a Fingerrmatrix, Inc., The Trinity Group-I, Inc." was filed in the Supreme Court of the State of New York County of New York, and the plaintiff has received a judgment for \$334,595, such amount having been accrued on the Company's books, plus interest.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. We consider our critical accounting policies to be those that require the more significant judgments and estimates in the preparation of our financial statements, including the following: impairment of long-lived assets, including the valuation of the exclusive license agreement; accounting for expenses in connection with stock options and warrants; and accounting for income taxes. Our management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgment and estimates. Actual results could differ materially from those estimates. There have been no significant changes in assumptions, estimates and judgments in the preparation of these financial statements from the assumptions, estimates and judgments used in the preparation

Edgar Filing: FINX GROUP INC - Form 10QSB

of our prior year's audited financial statements.

Results of Operations

For all of the third quarters and first nine months of 2004 and 2003 our significant operating expenses were executive payroll, and marketing expense and professional fees. Executive payroll is currently \$810,000 annually. As of September 30, 2004, none of the salary owed to Lewis S. Schiller, our chief executive officer, has been paid and he is owed cumulative salary of \$2.4 million. As of September 30, 2004 Grazyna B. Wnuk, our vice-president, is owed cumulative salary of \$871,000. Expenses associated with our marketing, which currently are \$1.1 million on an annual basis, represent

Page 10

consulting fees for the consultants who perform such functions. Professional fees for legal and accounting services currently approximate \$500,000 annually.

The value assigned to the Georal License of approximately \$3 million is being amortized over the life of the Georal License resulting in ongoing annual amortization expense of \$245,000. Such amortization for both of the third quarters of 2004 and 2003 was \$61,000 and for the first nine months of both 2004 and 2003 was \$183,000.

During 2004 and 2003 we compensated our employees and consultants with stock options and stock grants that have been registered on Form S-8 and unregistered stock purchase warrants. During the three and nine months ended September 30, 2004 stock based compensation was \$595,000 and \$3,037,000, respectively. During the three and nine months ended September 30, 2003 stock based compensation was \$1,619,000 and \$3,037,000, respectively.

We incur interest expense at an annual rate of 9% on related party notes payable. For the third quarters of 2004 and 2003 interest expenses on related party notes payable was \$24,000 and \$27,000, respectively. For the first nine months of both 2004 and 2003 related party interest expense was \$74,000 and \$80,000, respectively.

Financial Condition - Liquidity and Capital Resources

As of September 30, 2004, our working capital deficiency approximates \$9.4 million, representing an increase of \$1.8 million from December 31, 2003. Since April 1999, our primary source of funding has been Trinity, our controlling shareholder. On July 29, 2004, Lewis S. Schiller and The Trinity Group-I, Inc. converted \$500,000 of debt obligations into 50,000 shares of Series D Convertible Preferred Stock. Each share of Series D Convertible Preferred Stock is convertible into 10,000 shares of common stock. Grayzna B. Wnuk converted \$75,000 of accrued salary into 7,500 shares of Series D Convertible Preferred Stock and a consultant to the Company converted \$150,000 of accrued consulting fees into 15,000 shares of Series D Convertible Preferred Stock. The Series D Convertible Preferred Stock votes alongside of common stock on an if converted basis regardless of whether there is common shares available for conversion at the time of any vote. As of the date hereof, the forgoing shares are convertible into 725,000,000 shares of common stock. The conversion period for the Series D Convertible Preferred stock does not have an expiration date. During the first nine months of 2004 we received \$96,000 from Trinity and \$235,000 from unaffiliated lenders which were used for our operations. We are attempting to obtain outside equity financing; however, we make no assurances that we will be successful in obtaining such financing.

On December 10, 2003, the Company, its wholly-owned subsidiary,

Edgar Filing: FINX GROUP INC - Form 10QSB

Secured Portal Systems, Inc., Alan J. Risi ("Risi"), GIL Security Systems, Inc. ("GIL"), and Georal International, Ltd., entered into a amended and restated worldwide exclusive distribution agreement covering all security entrance systems created, developed, manufactured and/or distributed or otherwise sold by GIL, Georal or their successors. The restated agreement expanded the Company's exclusivity and gave the Company certain other rights. The agreement provided for certain payments by the Company and, if the payments were not made, GIL, Georal and Risi have the right to terminate the restated agreement, in which event, the relationship among the parties would be governed by the prior agreement.

On or about April 28, 2004, the Company received a notice from GIL stating that the agreement was terminated for failure of the Company to pay the amount provided in the restated agreement. The notice further stated GIL's position that all agreements between GIL and the Company and its subsidiary are terminated.

The Company is considering its legal rights and believes that its subsidiary will continue to be able to exercise its right to market the security portals in major markets groups; however, the Company can give no assurance as to its ability to protect such rights or, if litigation is necessary, that it will prevail in any legal action it may commence.

As of September 30, 2004, the Company has not recorded any impairment adjustments with regards to the exclusive license.

The accompanying unaudited interim consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. However, the Company has generated only nominal revenue from continuing operations and has a history of net losses and as of September 30, 2004 has a working capital deficiency of \$8.6 million and a capital deficiency of \$6.1 million. Historically, the Company has been dependent on financial support from its controlling stockholder, Trinity Group-I, Inc. ("Trinity"), and other related parties. Management is currently seeking additional financing; however, the Company can give no assurances such financing will be consummated, that the terms of any financing will be reasonable or that the amount raised will be adequate to meet the Company's current and ongoing obligations. The continuation of the Company as a going concern is

Page 11

dependent upon its ability both to obtain financing and to generate revenues. The accompanying consolidated financial statements do not include any adjustments that would result should the Company be unable to continue as a going concern.
