

UTAH MEDICAL PRODUCTS INC
Form 10-Q
November 05, 2009

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

Quarterly Report Under Section 13 or 15(d) of
The Securities Exchange Act of 1934

For quarter ended: September
30, 2009

Commission File No.
0-11178

UTAH MEDICAL PRODUCTS, INC.
(Exact name of Registrant as specified in its charter)

UTAH
(State or other jurisdiction of
incorporation or organization)

87-0342734
(I.R.S. Employer
Identification No.)

7043 South 300 West
Midvale, Utah 84047
Address of principal executive offices

Registrant's telephone number: (801) 566-1200

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Sections 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and; (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
o Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of November 4, 2009:
3,610,000.

UTAH MEDICAL PRODUCTS, INC.
NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
(unaudited)

(1) The unaudited financial statements have been prepared in accordance with the instructions to form 10-Q and do not include all of the information and note disclosures required by accounting principles generally accepted in the United States. These statements should be read in conjunction with the financial statements and notes included in the Utah Medical Products, Inc. ("UTMD" or "the Company") annual report on form 10-K for the year ended December 31, 2008. In the opinion of management, the accompanying financial statements include all adjustments (consisting only of normal recurring adjustments) necessary to summarize fairly the Company's financial position and results of operations. Dollar amounts are in thousands except per-share amounts, and where noted.

(2) Inventories at September 30, 2009 and December 31, 2008 consisted of the following:

	September 30, 2009	December 31, 2008
Finished goods	\$ 1,347	\$ 1,353
Work-in-process	1,066	817
Raw materials	1,449	1,105
Total	\$ 3,862	\$ 3,275

(3) Stock-Based Compensation. At September 30, 2009 the Company had stock-based employee compensation plans, which authorized the grant of stock options to eligible employees and directors. The Company accounts for stock compensation under Statement of Financial Accounting Standards 123R, Share-Based Payment. This statement requires the Company to recognize compensation cost based on the grant date fair value of options granted to employees and directors. In the quarters ended September 30, 2009 and 2008, the Company recognized \$22 and \$33, respectively, in stock-based compensation cost. In the nine months ended September 30, 2009 and 2008, the Company recognized \$75 and \$97, respectively, in stock-based compensation cost.

(4) Comprehensive Income. Comprehensive income for the third quarter (3Q) and first nine months (9M) of 2009 was \$1,771 and \$4,832, net of taxes, respectively. The components used to calculate comprehensive income were foreign currency translation adjustments of \$70 and \$93 in 3Q and 9M 2009, respectively, and unrealized holding gains of \$86 and \$29 in 3Q and 9M 2009, respectively.

(5) Warranty Reserve. The Company accrues provisions for estimated costs that may be incurred for product warranties and uncollectible accounts. The amount of the provision is adjusted, as required, to reflect historical experience. The following table summarizes changes to UTMD's warranty reserve during 3Q 2009:

Beginning Balance, July 1, 2009	\$0
Changes in Warranty Reserve during 3Q 2009:	
Aggregate reductions for warranty repairs	-
Aggregate changes for warranties issued during reporting period	-
Aggregate changes in reserve related to preexisting warranties	-
	\$0

Edgar Filing: UTAH MEDICAL PRODUCTS INC - Form 10-Q

Ending Balance, September 30,
2009

(6) Investments. As of September 30, 2009, the Company's investments were held in Fidelity Cash Reserves (FDRXX), Fidelity Inst MMKT Port CL 1 (FMPXX), Citigroup (C) and General Electric (GE). Changes in the unrealized holding gain/loss on investment securities available-for-sale and reported as a separate component of accumulated other comprehensive income are as follows:

	3Q 2009	3Q 2008
Balance, beginning of period	\$(307)	\$(415)
Realized loss from securities included in beginning balance	96	266
Gross unrealized holding gains (losses), in equity securities	45	56
Deferred income taxes on unrealized holding loss	(55)	(21)
Balance, end of period	\$(221)	\$(114)

(7) Fair Value Measurements. In September 2006, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 157 “Fair Value Measurements.” This statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. UTMD adopted the requirements of SFAS 157 on January 1, 2008.

The following table provides financial assets carried at fair value measured as of September 30, 2009:

Description	Total Fair Value at 9/30/2009	Fair Value Measurements Using Quoted Prices in		
		Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Available-for-sale securities	\$ 17,755	\$ 17,755	\$ 0	\$ 0

(8) Forward-Looking Information. This report contains certain forward-looking statements and information relating to the Company that are based on the beliefs of management as well as assumptions made by management based on information currently available. When used in this document, the words “anticipate,” “believe,” “project,” “estimate,” “expect,” “intend” and similar expressions, as they relate to the Company or its management, are intended to identify forward-looking statements. Such statements reflect the current view of the Company respecting future events and are subject to certain risks, uncertainties, and assumptions, including the risks and uncertainties noted throughout this document. Although the Company has attempted to identify important factors that could cause the actual results to differ materially, there may be other factors that cause the forward statement not to come true as anticipated, believed, projected, expected, or intended. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those described herein as anticipated, believed, projected, estimated, expected, or intended. Financial estimates are subject to change and are not intended to be relied upon as predictions of future operating results, and the Company assumes no obligation to update or disclose revisions to those estimates.

General risk factors that may impact the Company’s revenues include the market acceptance of competitive products; administrative practices of group purchasing organizations; obsolescence caused by new technologies; the possible introduction by competitors of new products that claim to have many of the advantages of UTMD’s products at lower prices; the timing and market acceptance of UTMD’s own new product introductions; changes in clinical practices; UTMD’s ability to efficiently and responsively manufacture its products; including the possible effects of lack of performance of suppliers; opportunities in gaining access to important global distribution channels; budgetary constraints; the timing of regulatory approvals for newly introduced products; regulatory intervention in current operations; and third party reimbursement of health care costs of patients.

Negative factors that may adversely impact future performance include managed care reforms or hospital group buying agreements that may limit physicians’ ability to choose certain products or procedures, new products introduced by other companies that displace UTMD’s products, new product regulatory approval delays, changes in the Company’s relationships with, or lack of performance of, its distribution partners, and loss of key personnel. The length of time and number of administrative steps required in adopting new products for use in hospitals has grown substantially in recent years. As a potential negative factor to future performance, as UTMD introduces new products it believes are safer and more effective, it may find itself excluded from certain customers because of the existence of long term supply agreements for preexisting products. UTMD may also be unable to establish viable

relationships with other medical device companies that do have access to users but lack an interest in the Company's approach or present unreasonable burdens.

Risk factors, in addition to the risks outlined in the previous paragraphs and elsewhere in this report that may impact the Company's assets and liabilities, as well as cash flows, include: risks inherent to companies manufacturing products used in healthcare, including claims resulting from the improper use of devices and other product liability claims; defense of the Company's intellectual property and infringement claims of others; productive use of assets in generating revenues; management of working capital, including inventory levels required to meet delivery commitments at a minimum cost; and timely collection of accounts receivable.

Additional risk factors that may affect non-operating income include: the continuing viability of the Company's technology license agreements; actual cash and investment balances; asset dispositions; and acquisition activities that may or may not require external funding.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

UTMD manufactures and markets a well-established range of primarily single-use specialty medical devices. The Company's Form 10-K Annual Report for the year ended December 31, 2008 provides a detailed description of products, technologies, markets, regulatory issues, business initiatives, resources and business risks, among other details, and should be read in conjunction with this report. A pictorial display as well as description of UTMD's devices is available on the Company's website www.utahmed.com.

Because of the relatively short span of time, results for any given three month period in comparison with a previous three month period may not be indicative of comparative results for the year as a whole. Dollar amounts in the report are in thousands, except per-share amounts or where otherwise noted.

Analysis of Results of Operations

a) Overview

In third quarter (3Q) 2009, UTMD's consolidated global sales were 7% lower than in 3Q 2008. 3Q 2009 earnings per share (EPS) were \$.443 compared to \$.467 EPS in 3Q 2008. UTMD achieved the following profitability as a ratio of sales in 3Q 2009 and 3Q 2008:

	3Q 09		3Q 08	
Gross Profit Margin:	52.4	%	54.8	%
Operating Profit Margin:	35.7	%	40.9	%
Net Income Margin:	24.2	%	25.3	%

For the first nine months (9M) of 2009, UTMD's total sales were down 8% compared to 9M 2008. 9M 2009 EPS were \$1.300 compared to \$1.438 EPS in 9M 2008. UTMD achieved the following profitability as a ratio of sales in 9M 2009 and 9M 2008:

	9M 09		9M 08	
Gross Profit Margin:	53.2	%	54.8	%
Operating Profit Margin:	36.3	%	38.6	%
Net Income Margin:	24.3	%	26.6	%

b) Revenues

The Company recognizes revenue at the time of shipment as title generally passes to the customer at that time. Revenue recognized by UTMD is based upon documented arrangements and fixed contracts in which the selling price is fixed prior to completion of an order. Revenue from product and service sales is generally recognized at the time the product is shipped or service completed and invoiced, and collectibility is reasonably assured. There are circumstances under which revenue may be recognized when product is not shipped, which meet the criteria of SAB 104: the Company provides engineering services, for example, design and production of manufacturing tooling that may be used in subsequent UTMD manufacturing of custom components for other companies. This revenue is recognized when UTMD's service has been completed according to a fixed contractual agreement.

Total sales were 7% lower in 3Q 2009 compared to 3Q 2008. Domestic sales were 5% lower while international sales were 12% lower. Domestic sales were comprised of domestic OEM sales (sales of components to other companies for use in their products) down 4% and domestic direct sales (sales of finished devices to users or distributors) down 5%. The primary reason for the lower international sales was the cessation of purchases of custom blood pressure monitoring kits by UTMD's largest international customer. Domestic OEM sales and international sales have an uneven quarter-to-quarter sales pattern because customers tend to purchase several months' supply of products at a time to minimize costs.

Total 9M 2009 global sales were \$1,762 (8%) lower than in 9M 2008. 9M 2009 international sales were \$1,253 (19%) lower. UTMD's largest international customer in 9M 2008 purchased \$1,302 of custom BPM kits compared to zero in 9M 2009. Because these kits were assembled by UTMD Ltd., trade shipments from UTMD's Ireland facility to international customers were down 24% in US Dollar terms and 16% in EURO terms compared to 9M 2008.

For 9M 2009, domestic sales, comprised of direct sales to finished device end-users and sales of OEM components to other companies, were down 4% and 3%, respectively, compared to 9M 2008. Domestic direct sales of obstetric devices, the product category most affected by restrictive GPO agreements, declined \$498. Domestic direct sales of neonatal devices decreased \$62, and domestic direct gyn/electrosurgery sales increased \$66. Domestic direct sales of hospital products were down as a result of increased competition, lower prices and Group Purchasing Organizations (GPOs) which restrict hospital member purchase options. UTMD's objective is to replace sales lost due to increased competition by continued development of unique products that provide significant improvements in patient safety and effectiveness of care. U.S. OEM sales by UTMD's Oregon molding facility declined \$61 (18%), while OEM sales from UTMD's Utah facility increased \$28 (+4%).

The following table provides the actual sales dollar amounts by general product category for total sales and the subset of international sales:

Global revenues by product category:

	3Q 2009	3Q 2008	9M 2009	9M 2008
Obstetrics	\$1,624	\$1,771	\$4,836	\$5,393
Gynecology/ Electrosurgery/ Urology	1,573	1,573	4,806	4,730
Neonatal	1,902	1,942	5,483	5,457
Blood Pressure Monitoring and Accessories*	1,574	1,895	4,298	5,605
Total:	\$6,673	\$7,181	\$19,424	\$21,185

*includes molded components sold to OEM customers.

International revenues by product category:

	3Q 2009	3Q 2008	9M 2009	9M 2008
Obstetrics	\$122	\$116	\$344	\$402
Gynecology/ Electrosurgery/ Urology	535	524	1,698	1,693
Neonatal	255	211	714	625
Blood Pressure Monitoring and Accessories*	1,005	1,320	2,676	3,966
Total:	\$1,916	\$2,171	\$5,432	\$6,686

*includes molded components sold to Int'l OEM customers.

UTMD's sales depend on its continued ability to retain medical staff involvement in purchasing decisions for UTMD's "physician-preference" products used in U.S. hospitals where administrators are increasingly making the product decisions, expanded clinical acceptance of its newer specialty products, release of new products after FDA concurrence with premarketing submissions and continued development of UTMD's international distribution channels.

c) Gross Profit

UTMD's average gross profit margin (GPM), gross profits as a percentage of sales, was 52.4% and 53.2% in 3Q and 9M 2009, respectively, compared to 54.8% in both 3Q and 9M 2008. As a result of the combination of lower sales and lower GPM, gross profits declined \$437 (11%) in 3Q 2009 and \$1,273 (11%) in 9M 2009 compared to the same periods in 2008. The lower GPM were substantially due to lower absorption of fixed costs on lower sales volume. After adjustments which were made in 3Q, the Company is currently targeting gross profits for the year of 2009 as a whole to be down 8-9% from 2008.

OEM sales are sales of UTMD components and subassemblies that are marketed by other companies as part of their product offerings. UTMD utilizes OEM sales as a means to help optimize utilization of its capabilities established to satisfy its direct sales business. As a general rule, prices for OEM sales expressed as a multiple of direct variable manufacturing expenses are lower than for direct sales because, in the OEM and international channels, UTMD's business partners incur significant expenses of sales and marketing. Because of UTMD's small size and period-to-period fluctuations in OEM business, fixed manufacturing overhead expenses cannot be meaningfully allocated between direct and OEM sales. Therefore, UTMD does not report GPM by sales channels.

d) Operating Profit

Operating Profit, or income from operations, is the profit remaining after subtracting operating expenses from gross profits. Operating expenses include sales and marketing (S&M), research and development (R&D) and general and administrative (G&A) expenses. Operating expenses in 3Q 2009 were \$119 higher than in 3Q 2008, because of the \$250 reduction in 2008 management bonus accrual representing the elimination of the CEO's 2008 annual bonus which occurred in 3Q 2008. Operating expenses in 9M 2009 were \$151 lower than in 9M 2008. The lower 9M operating expenses resulted from lower domestic sales expenses, which were lower in approximately the same proportion as lower sales. 9M G&A and R&D expenses were about the same as in 9M 2008. Please see the table below.

-7-

UTMD's operating profit margin in 3Q 2009 was 35.7% compared to 40.9% in 3Q 2008, and 36.3% in 9M 2009 compared to 38.6% in 9M 2008. UTMD is currently targeting an operating profit margin for the whole year of 2009 at 36%.

	3Q 2009	3Q 2008	9M 2009	9M 2008
S&M Expense	\$389	\$457	\$1,218	\$1,365
R&D Expense	97	100	273	282
G&A Expense	630	439	1,788	1,782
Total Operating Expenses:	\$1,116	\$996	\$3,279	\$3,429

Note: Option compensation expense included in G&A expenses in 3Q 2009 was \$22 compared to \$33 in 3Q 2008, and \$75 in 9M 2009 compared to \$97 in 9M 2008.

e) Non-operating income (expense)

Non-operating income in 3Q 2009 was \$61 compared to non-operating expense of \$213 in 3Q 2008, and \$148 in 9M 2009 compared to \$179 in 9M 2008. The \$274 difference in 3Q was due primarily to realizing a net capital loss of \$428 on investments in 3Q 2008. UTMD did not receive royalty income in 3Q or 9M 2009 compared to \$113 in 3Q and \$337 in 9M 2008. UTMD received \$71 in 3Q 2009 compared to \$154 in 3Q 2008, and \$194 in 9M 2009 compared to \$419 in 9M 2008 in interest, dividends and capital gains/losses income from investing cash balances. The declines were primarily due to the fact that interest rates in the U.S. have declined substantially compared to one year ago.

In 3Q and 9M 2009, UTMD had interest expenses of \$11 and \$40, respectively, compared to \$41 and \$168 in 3Q and 9M 2008, due to lower interest rates on its loan in Ireland, lower average Ireland loan balances and favorable foreign exchange conversion as a result of a stronger US Dollar. The interest expense resulted from UTMD's Ireland facility borrowing 4,500 EURO (€) in December 2005 to allow the repatriation of profits generated by its Ireland operations between 1996 and 2005. The loan is being paid by the Ireland subsidiary from profits generated there. The loan balance as of September 30, 2009 was €1,182 EURO, so about 74% of the loan has been repaid. Management currently estimates that total 2009 non-operating income will be about \$200 lower than in 2008. The actual amount of 2009 non-operating income may be lower if UTMD utilizes current cash and investment balances for an acquisition, unexpected litigation costs or substantial share repurchases.

f) Earnings Before Income Taxes

Earnings before income taxes (EBT) in 3Q 2009 were \$2,445 compared to \$2,727 in 3Q 2008. EBT in 9M 2009 were \$7,204 compared to \$8,357 in 9M 2008. EBT margins (EBT divided by sales) were 36.6% and 37.1% in 3Q and 9M 2009, respectively, compared to 38.0% and 39.5% in 3Q and 9M 2008, respectively.

g) Net Income and Earnings per Share

UTMD's net income was \$1,615 in 3Q 2009 compared to \$1,820 in 3Q 2008, and \$4,711 in 9M 2009 compared to \$5,628 in 9M 2008. Net profit margins (NPM), which are net income (after tax) expressed as a percentage of sales, were 24.2% in 3Q 2009 compared to 25.3% in 3Q 2008, and 24.3% in 9M 2009 compared to 26.6% in 9M 2008. The income tax provision rates in 3Q and 9M 2009 were 34.0% and 34.6% of EBT, respectively, compared to 33.3% and 32.7% in 3Q and 9M 2008. The lower tax provision rate in 2008 resulted primarily from refunds on amended 2004-2006 income tax returns in Ireland. UTMD expects its consolidated income tax provision rate for the year of 2009 will be between one and two percentage points higher than for 2008, which was 33.1% for the year.

UTMD's net income divided by weighted average outstanding shares for the applicable reporting period, diluted for unexercised employee and director options, provides earnings per share (EPS) as follows:

Edgar Filing: UTAH MEDICAL PRODUCTS INC - Form 10-Q

	3Q 2009	3Q 2008	9M 2009	9M 2008
Earnings Per Share (EPS)	\$.443	\$.467	\$ 1.300	\$ 1.438
Shares (000), Diluted	3,642	3,900	3,624	3,915

The Company did not repurchase any of its shares in the open market in 3Q 2009, and has repurchased 5,367 shares in 9M 2009. Exercises of employee options added 4,000 and 13,000 shares in 3Q and 9M 2009 respectively (net of 2,100 shares swapped in 9M by individuals in payment of the exercise price of the options). Options outstanding at September 30, 2009 were 243,800 shares at an average exercise price of \$23.94 per share, including shares awarded but not vested.

Increases and decreases in UTMD's stock price impact EPS as a result of the dilution calculation for unexercised options with exercise prices below the average stock market value during each period. The dilution calculation added 33,000 and 17,600 shares to actual weighted average shares outstanding in 3Q and 9M 2009 respectively, compared to 36,100 and 39,200 in 3Q and 9M 2008. Actual outstanding common shares as of the end of 3Q 2009 were 3,610,400 compared to 3,856,900 at the end of 3Q 2008.

h) Return on Equity

Return on equity (ROE) is the portion of net income retained by UTMD (after payment of dividends) to internally finance its growth, divided by the average accumulated shareholder equity for the applicable time period. Annualized ROE (after payment of dividends) for 9M 2009 was 8% compared to 10% for 9M 2008. The lower ROE in 9M 2009 was due primarily to lower net profits. UTMD expects ROE for the remainder of 2009 comparable to the 8% achieved for 9M 2009 as a result of lower net profits, higher dividends and higher average shareholder equity.

Liquidity and Capital Resources

i) Cash flows

Net cash provided by operating activities, including adjustments for depreciation and other non-cash operating expenses along with changes in working capital totaled \$5,207 in 9M 2009 compared to \$5,920 in 9M 2008. The lower amount is due to lower net income thus far in 2009. Other significant differences were a \$466 benefit to cash from higher accrued expenses and a \$238 benefit from lower accounts receivable in 9M 2009, partially offset by a \$228 higher use of cash from gains on investments.

The Company's use of cash for investing activities was primarily as a result of purchases of short-term investments, in an effort to maximize returns on excess cash balances while maintaining safety and liquidity. Capital expenditures for property and equipment were \$437 in 9M 2009 compared to \$189 in 9M 2008. In addition to investing in new property and equipment required to keep facilities, equipment and tooling in good working condition, UTMD has embarked on some longer term new facilities, equipment and technology investments which will more than double capital spending in 2009 compared to recent years.

In 9M 2009, UTMD received \$104 and issued 13,027 shares of stock upon the exercise of employee stock options. Option exercises in 9M 2009 were at an average price of \$10.42 per share. Employees exercised a total of 15,172 option shares in 9M 2009, with 2,145 shares immediately being retired as a result of the individuals trading the shares in payment of the exercise price of the options. For comparison, the Company received \$224 from issuing 18,369 shares of stock on the exercise of employee stock options in 9M 2008, net of 1,800 shares retired upon employees trading those shares in payment of the stock option exercise price. The Company repurchased 5,367 shares of its stock in the open market at a cost of \$116 during 9M 2009, an average cost of \$21.58 per share including commissions and fees. For comparison, UTMD repurchased 66,806 shares of stock in the open market at a cost of \$1,908 during 9M 2008.

UTMD Ltd. (Ireland subsidiary) made payments of \$428 on its note payable during 9M 2009, compared to \$1,502 in 9M 2008. UTMD paid \$1,658 in cash dividends in 9M 2009 compared to \$2,625 in 9M 2008.

Management believes that future income from operations and effective management of working capital will provide the liquidity needed to finance internal growth plans. The Company may continue to use cash for marketing or product manufacturing rights to broaden the Company's product offerings; for continued share repurchases when the price of the stock is undervalued; and if available for a reasonable price, acquisitions that may strategically fit UTMD's business and be accretive to performance.

j) Assets and Liabilities

September 30, 2009 total assets were \$3,357 higher than at December 31, 2008. Changes include a \$2,945 increase in cash and investments, a \$587 increase in inventories, a \$334 decrease in accounts and other receivables and a \$13 decrease in other current assets. Inventories increased substantially compared to the end of 2008 as a result of the first quarter 2009 one-time annual purchases of certain raw materials to take advantage of discounts offered by vendors for purchasing in bulk, and an increase in WIP/FG inventory resulting from keeping excess labor capacity productive

during the soft demand first half. Inventory balances during the remainder of 2009 should decline. UTMD management retains a target of 4.0 inventory turns.

Working capital was \$23,469 at September 30, 2009, \$1,957 higher than at 2008 year-end. Working capital continues substantially in excess of UTMD's normal operating needs. UTMD's current ratio was 8.8 on September 30, 2009, compared to 13.2 at year-end 2008 and 9.6 on September 30, 2008.

Net property and equipment increased \$190 in 9M 2009 after purchases of \$437, offset by depreciation of \$409. Goodwill resulting from prior acquisitions remained the same. Net intangible assets excluding goodwill decreased \$18 as a result of amortization of intellectual property of \$24 offset by additions of intangibles of \$6. At September 30, 2009, net intangible assets including goodwill were 18% of total assets, compared to 19% at year-end 2008.

UTMD's long term liabilities are comprised of the Ireland note payable (\$1,465 on September 30, 2009) and deferred income taxes (\$429 on September 30, 2009). As of December 31, 2008, the respective long term liabilities were \$1,828 and \$420. The note payable, denominated in Euros, declined \$363 in USD book value despite actual principal payments of \$428 because the USD decreased in value against the Euro. In Euros, the note declined 16% from €1,485 to €1,182 (both in thousands) during the nine month period. As of September 30, 2009, UTMD's total debt ratio (total liabilities/ total assets) was 10% compared to 12% on December 31, 2008.

UTMD does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses.

k) Management's Outlook.

Although UTMD's management objectives for 2009 remain the same as listed in its December 31, 2008 10-K and ensuing 10-Q Reports, the Company currently projects a decline in sales of 6-7%, in gross profit of 8-9%, in operating profit of 10-11%, in net profit of 13-14% and in eps of 7-8% for the 2009 year as a whole compared to the full year of 2008.

l) Accounting Policy Changes.

None.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

UTMD has manufacturing operations, including related assets, in Ireland denominated in the EURO, and sells products under agreements denominated in various Western European currencies. The EURO and other currencies are subject to exchange rate fluctuations that are beyond the control of UTMD. The exchange rate was 0.6840 EURO per USD as of September 30, 2009, and 0.6940 EURO per USD as of September 30, 2008. UTMD manages its foreign currency risk without separate hedging transactions by converting currencies to USD as transactions occur.

Item 4. Controls and Procedures

The company's management, under the supervision and with the participation of the Chief Executive Officer and the Principal Financial Officer, evaluated the effectiveness of the company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of September 30, 2009. Based on this evaluation, the Chief Executive Officer and Principal Financial Officer concluded that, as of September 30, 2009, the company's disclosure controls and procedures were effective.

There were no changes in the company's internal controls over financial reporting that occurred during the quarter ended September 30, 2009, that have materially affected, or are reasonably likely to materially affect, the company's internal controls over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

In addition to the other information set forth in this report, investors should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in UTMD's Annual Report on Form 10-K for the year ended December 31, 2008, which could materially affect its business, financial condition or future results. The risks described in the Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to UTMD or currently deemed to be immaterial also may materially adversely affect the Company's business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

UTMD did not purchase any of its own securities during 3Q 2009.

Item 6. Exhibits
