Item 1.01 Entry into a Material Definitive Agreement.

On April 12, 2005, Silicon Graphics, Inc. (the *Company*) renewed its asset-based line of credit with Wells Fargo Foothill, Inc. (the *Lender*). Improvements in the terms of the Second Amended and Restated Credit Agreement (the *Credit Agreement*), which reflects the effect of certain amendments to the prior agreement that have been previously disclosed, include increasing availability under the facility by expanding the existing borrowing base to (i) add categories of collateral that tend to remain relatively fixed throughout each quarter, including the *Company*'s intellectual property and eligible real property, and (ii) adjust the calculation of inventory reserves and eligible accounts receivable. In addition, the *Credit Agreement* provides for less restrictive financial covenants than those of the prior line, including reduction of the minimum cash covenant from \$50 million to \$25 million. The *Credit Agreement* also contains restrictions that currently limit the credit facility to \$50 million and require the deposit of a minimum of \$20 million in cash collateral with the *Lender*. These restrictions will terminate if the *Company* satisfies certain financial covenants under the *Credit Agreement* for the quarter ending June 24, 2005.

The *Company* has historically used the credit facility solely to support letters of credit, including letters of credit it is required to provide as security under certain lease obligations. The amount outstanding under the previous facility, measured at the end of each reporting period, ranged from \$44 million to \$50.5 million.

The *Credit Agreement* provides for a credit facility of up to \$60 million, with the borrowing base determined weekly based on the value of working capital items, real estate and intellectual property. The credit facility expires April 12, 2007 and is secured by substantially all the assets of the *Company* and the subsidiary that is responsible for its U.S. federal government business. The *Credit Agreement* includes financial covenants and other terms and conditions customary to credit facilities of this type. Among other things, these covenants provide for minimum levels of EBITDA (earnings before interest, taxes, depreciation and amortization), minimum cash and cash equivalents levels and limits on capital expenditures. The *Credit Agreement* also limits the *Company*'s ability to incur additional indebtedness, dispose of certain assets, pay dividends on capital stock, repurchase capital stock or prepay or repurchase debt obligations. Maturity of the credit facility is subject to acceleration upon various customary events of default.

The descriptions of the *Credit Agreement* and the related security agreement (the *Security Agreement*) set forth above are qualified in their entirety by reference to the *Credit Agreement* and the *Security Agreement*, which are attached as Exhibits 10.1 and 10.2, respectively.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

The disclosure set forth in Item 1.01 above is incorporated herein by reference.

Item 9.01. Financial Statements and Exhibits.
