- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 1.01 Entry into a Material Definitive Agreement.

On October 24, 2006, we entered into a two year Exclusive License and Research Collaboration Agreement with Idenix Pharmaceuticals, Inc. Under the terms of the agreement, Metabasis HepDirect liver-targeting technology will be applied to proprietary Idenix compounds to develop second-generation nucleoside analog drug candidates for the treatment of hepatitis C virus. The research term will be for two years and may be extended beyond two years by mutual agreement of the parties. In addition, Idenix will have the option to terminate the research term upon the first anniversary of the effective date of the agreement or upon the achievement of certain development milestones during the research term. Idenix will make an upfront payment of \$2.0 million and provide us with research funding of up to \$1.7 million per year during the research term for all activities at Metabasis related to the collaborative discovery efforts. In the event a lead is identified, Idenix will assume development responsibility and we will be eligible to receive up to \$23.5 million upon achievement of predetermined preclinical and clinical development milestones and an additional \$40.0 million based on regulatory approvals. For any marketed products resulting from the collaboration, Idenix will retain full commercial rights and pay us a royalty on net sales.

We announced the collaboration in the press release attached hereto as Exhibit 99.1 and incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.
