Cautionary Statement Regarding Forward-Looking Statements

This Annual Report on Form 10-K contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may be identified by words such as may, will, should, could, expects, plans, intends, believes, estimates, predicts, projects, continue or similar statements. These forward-looking statements include, without limitation, statements about our market opportunity, our strategies, competition, expected activities and expenditures as we pursue our business plan, and the adequacy of our available cash resources. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Forward-looking statements involve known and unknown risks and uncertainties which may cause our actual results in future periods to differ materially from what is currently anticipated. We make cautionary statements in certain sections of this document, including the risks, uncertainties and assumptions described in Item 1A Risk Factors and elsewhere in this report. You should read these cautionary statements as being applicable to all related forward-looking statements wherever they appear in this document, in the materials referred to in this document, in the materials incorporated by reference into this document, or in our press releases. No forward-looking statement is a guarantee of future performance, and you should not place undue reliance on any forward-looking statement. Actual results could differ materially from those anticipated or implied by the forward-looking statements. All forward-looking statements in this report are made as of the date hereof, based on information available to us as of the date hereof, we assume no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

Industry data and other statistical information used in this document are based on independent publications, government publications, reports by market research firms or other published independent sources. Some data is based on good faith estimates, derived from our review of internal surveys and independent sources. Although we believe these sources to be reliable, we have not independently verified the information.

ITEM 1. BUSINESS

Overview

For more than 15 years, Whitney Information Network, Inc. has provided educational and training courses to students interested in learning about investing in real estate, and more recently in financial markets. We have also provided courses in related ancillary fields including asset protection, basic business strategies and cash management, land development, and others.

We incorporated in Colorado in 1996 under the name Gimmel Enterprises, Inc. In 1998, we acquired all of the outstanding common stock of Whitney Education Group, Inc. a Florida company organized in 1992, and changed our name to WIN Systems International, Inc. In 1999, we changed our name to Whitney Information Network, Inc.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

In 1992, we began our course offerings in real estate investing and related classes to students in the United States. In 2000-2002, we established our brands in Canada and the United Kingdom. We began our financial markets education division, in July 2002, with the acquisition of Teach Me to Trade®, and the commencement of sales in the fourth quarter of 2002.

We market some courses and training programs under our Proprietary Brands, which include Wealth Intelligence Academy®, Millionaire U® Training and Teach Me To Trade®.

In July 2006, we entered into a joint venture with Rich Global, LLC to create Rich Dad Education, LLC (RDE), to provide basic training courses focused on the real estate teachings and philosophies of Mr. Robert Kiyosaki which are contained in his book, *Rich Dad Poor Dad*. The *Rich Dad Poor Dad* series of books is published in 46 languages and available in 97 countries, and has sold over 26 million copies world-wide.

In 2007, we began offering our Rich Dad® Education basic training to students in the United States, Canada and the United Kingdom. For the fiscal year ending December 31, 2007, RDE represented approximately 19.8% of our total revenues of

Table of Contents

\$207.6 million, and 46.2% of our total cash sales of \$211.5 million. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Non-GAAP Financial Measures.

Our Strategy

Our objective is to be a leading provider of non-degreed educational services, products and training that provide students with skills and tools to achieve their personal and financial goals. In addition to our current course offerings, we will continue to look at other alternative education segments as potential sources of growth. Those additions could include a self-improvement segment, a youth segment, or a women's segment. We also expect to expand our Rich Dad® Education course offerings to include financial market investing in 2008.

To position our company in preparation for growth into new segments we will concentrate on:

- Expanded channel reach. Through strategic partnerships, alliances and new business models, we may be able to generate new revenues without incurring significant additional marketing or administrative costs. We intend to identify potential partnerships and alliances that can result in increased revenues. We will research underserved market segments and changes in the non-degreed education market that will provide insights to reach new market segments. We will evaluate complementary business possibilities, including potentially entering business-to-business markets.
- Improved technology and innovation capabilities. Achieving the necessary steps for us to grow may require significant improvements to our technology and innovation structure and external delivery platforms. We intend to further develop enhanced technology platforms capable of streaming video, interactive e-learning, distributed e-learning and Web advertising. We also intend to improve the technology platforms currently used in our financial markets and real estate courses. Further, we intend to enhance our internal financial systems and fully utilize our Customer Relationship Management (CRM) capabilities.
- Enhanced core offerings and e-enablements. Our overall brand strategy will be redefined and redirected to maximize marketing effectiveness and to improve customer understanding. We intend to develop a system of ongoing student involvement to enhance the student life cycle, resulting in an enhancement to the student experience. Further, we intend to develop new interactive and online distributed course content for all brands.
- Increased lifetime customer value. We intend to continually enhance the student experience and increase the lifetime value of a customer in order to retain customers, attract new customers and generate additional revenues. We intend to accomplish this in part by creating student communities through online channels, thus allowing us to better control customer touchpoints. This may allow us to provide valuable ancillary services and create additional revenue flows through implementation of CRM and data mining results.
- International expansion. We believe that there are many valuable international markets where we could introduce our products in a cost-effective and profitable manner. We currently provide courses in Canada and the United Kingdom and it is our intention to explore

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

potential market expansion in these areas as well as in Europe and Asia-Pacific. We believe that with the right resources and technological support, we can potentially increase our student base across the globe.

- Consistent Quality Assurance. We believe that to be a viable provider of non-degreed education we need to ensure that our course offerings meet our strict quality assurance guidelines. To that end, we will continue to monitor and enforce standards for marketing, sales presentations and educational delivery throughout our organization.

Intellectual Property

We regard our educational materials and products, trademarks, service marks, trade dress, trade names and patents as proprietary and we rely primarily on federal statutory and common law protections to protect our interests in these materials. We market some courses and training programs under our Proprietary Brands, which include Wealth Intelligence Academy®, Millionaire U® Training and Teach Me To Trade®. While some of our proprietary materials may contain commonly used terms and do not afford us significant trademark protection, we also use employee and third party non-compete and confidentiality agreements and other contractual methods of protecting proprietary rights to safeguard our intellectual property.

Licensing Agreements with Rich Dad Global, LLC

On July 6, 2006, we entered into a limited liability company agreement with Rich Dad Global, LLC (RDG); to promote the financial philosophy espoused by Mr. Kiyosaki in his book, *Rich Dad Poor Dad*. We established a limited liability company named Rich Dad Education, LLC (RDE), 51% of which is owned by us and the remaining 49% by RDG. Pursuant to a license agreement dated July 6, 2006 (Rich Dad License), RDG granted RDE a license to use the Rich Dad trademarks, tradenames and other business information in seminars that it conducts in the United States and Canada and has been amended to include the United Kingdom. The Rich Dad License does not have a term and is subject to termination if RDE among other things, breaches a material term or condition or fails to hold a required minimum of seminars during various times specified in the license agreement.

Marketing

We acquire our students through direct marketing in the form of television long form infomercials, short form commercials, radio advertising, direct mail, newspaper advertising, email marketing, and internet based banner ads. Potential students are invited to attend a free introductory two-hour workshop in their local area during which we offer a follow-up three day basic training class. Students enroll and attend the basic training course and receive the reference materials that are designed to accompany the training, which is usually held over the weekend within two or three weeks of the initial free introductory workshop. In 2007, approximately 24.7% of the attendees at the free introductory workshop enrolled in the basic training course.

At the basic training course, students are taught the basics of course topics and are encouraged to enroll in advanced, detailed classes covering specific topics within the education segment. Our basic and advanced trainings are described below in Education Training.

Education Training

In 2007, we offered free introductory workshops and basic training courses under the following marketing programs and brands:

Basic training courses

Russ Whitney®'s Building Wealth is a program offering a curriculum that focuses on the general business of real estate and teaches the fundamentals of negotiating real estate purchases with sellers, rehabilitating distressed properties, and leasing rental units to tenants to generate multiple sources of cash flow. Students are taught the mechanics of completing a real estate transaction in their community, from making an offer to closing the transaction, with emphasis upon creative financing strategies.

Teach Me Foreclosure & Real Estate Investing is a local training program offering a curriculum in real estate focusing on pre-foreclosures. The course teaches students how to locate and purchase homes in foreclosure. Students also learn strategies for improving the return on their investments in foreclosed properties including wholesaling, rehabilitation and creative financing.

Rich Dad® Education was created by Rich Dad Education, LLC, our 51% owned subsidiary, in conjunction with Rich Global, LLC. The course focuses on the real estate teachings and philosophies of Robert Kiyosaki, author of *Rich Dad Poor Dad*.

Table of Contents

The course concentrates on real estate principles while allowing students to apply what they have learned from playing the board game, *CASHFLOW®*.

Teach Me To Trade® program offers curriculum that focuses on stock market trading strategies and uses software and specific teaching techniques designed by us. Students are taught to understand the stock market, investment strategies, risks and how to improve returns in both bull and bear markets.

Advanced training courses

Students attending our basic training courses may choose to continue with advanced training courses. The advanced training courses of study under the *Wealth Intelligence Academy®* (WIA) brand include the following:

WIA maintains contact with the student from the time the student purchases his or her first advanced training course until the program is complete.

A complete description of these advanced training courses is available on the WIA website at <http://www.wiacademy.com>. In addition, students can purchase a license to use software for real estate or financial market investing. With either software program, a subscription based data service is available for purchase which allows students to interactively determine real time investment options and make better informed decisions about those potential investments.

All of our WIA classes are available for students to attend live and in person, at various regional locations in the United States, Canada, the United Kingdom and Costa Rica (Land Development-International course only). Also, many of our classes are offered in a virtual live classroom environment over the internet. Other forms of WIA educational delivery include on-demand streaming internet based classes and packaged CDs and DVDs.

Through our outreach based telemarketing programs both buyers and non-buyers of our WIA classes are contacted and enrolled in other classes, or are offered classes in other forms, including telephone-based subscription coaching programs, teleconference sessions, selected third party offerings and advanced student support options. During the fiscal year ending December 31, 2007, our outreach program accounted for 12.7% of our cash sales from course and product sales.

Each month, we offer over 200 classes and training programs throughout our geographic markets. For year ending December 31, 2007, 93.3% of our revenues were generated domestically and 6.7% from Canadian and United Kingdom operations. Basic training accounted for 13.6% of worldwide revenues, with the remaining 86.4% of revenues coming from advanced training courses and our other educational services and programs in 2007.

Competition

We believe we compete, in a broad sense, with a number of companies, such as Investools Inc., Trump University, Robbins Research International and Dynetech Corporation, which offer training on specific business subjects including real estate and stock market investing. We do not believe, however, that we compete directly with companies that offer undergraduate or advanced degrees or continuing education programs.

Generally, competitive factors within the proprietary educational market include the range and depth of course offerings, the quality of teachers and trainers, the quality of reference materials provided in connection with course studies and the cost of the educational process. We believe that the range and depth of our course offerings and the quality of our teachers, trainers and reference materials are comparable or superior to those of our competitors. Typically, our advanced instructors have been active investors in their chosen field, have been trained by us, and to a large degree are previous students of our programs.

Table of Contents

We contract with independent contractors as trainers, instructors, mentors and coaches. They are chosen based on their knowledge and experience with the coursework covered, and are further qualified by meeting standards of knowledge developed internally which are confirmed on a consistent and ongoing basis.

In addition, we have developed a broad line of educational resource materials for real estate and financial products which support our course offerings. Charges for our educational courses are also consistent with those of our competitors.

Employees

On December 31, 2007, we had approximately 457 employees of whom 429, or 93.9% were located in the United States and 28, or 6.1%, were located in Europe and Canada, plus approximately 252 independent contractors who are trainers, instructors, coaches and mentors. Our employees are not represented by a labor union, and we believe our relations with our employees are satisfactory. Our independent contractors are paid commissions based upon the tuition dollar value of courses purchased by students at our free informational workshops and basic training sessions, or are paid fixed fees for teaching and mentoring advanced courses. All independent contractors execute agreements with us which set forth commission structures and provide for confidentiality, code of conduct and covenants not to compete.

Available Information

We regularly file reports with the Securities and Exchange Commission (SEC). These reports include, but are not limited to, Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, proxy statements and other forms as required. The public may read and copy any materials that the Company files with the SEC at the SEC's Public Reference Room located at 100 F Street NE, Washington, DC 20459. The public may obtain information from the public reference room by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet website that contains the annual, quarterly, and current reports, proxy and information statements and other information that public companies (including us) file electronically with the SEC. Our electronic filings are available to the public at the SEC's website www.sec.gov.

The Company makes our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, current reports on Form 8-K and other reports filed or furnished with the SEC available to the public through our website at www.wincorporate.com. Information on our website is not part of this filing on this Annual Report on Form 10-K and will not be incorporated by reference.

ITEM 1A. RISK FACTORS

Before deciding to purchase, hold or sell our common stock, you should carefully consider the risks described below in addition to the other cautionary statements and risks described elsewhere, and the other information contained, in this Report and in our other filings with the SEC, including our subsequent reports on Forms 10-Q and 8-K. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our business. If any of these known or unknown risks or uncertainties actually occurs with material adverse effects on the Company, our business, financial condition, results of operations and/or liquidity could be seriously harmed. In that event, the market price for our common stock will likely decline and you may lose all or part of your investment.

We have a high concentration of sales from our Rich Dad Education brand and termination of this relationship would have an adverse impact on our financial results

Our Rich Dad real estate course offerings accounted for approximately 46.2% of our total cash sales and 19.8% of revenue for fiscal year 2007 and have increased in 2008. See Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Non-GAAP Financial Measures. If sales from the Rich Dad brand were to decrease for any reason or if our relationship with RG was terminated due to our default under our licensing agreement with RG or for any other reason, it would have an adverse effect on our business, results of operations and financial condition. Our relationship with Rich Dad does not have a fixed term and there can be no assurances on how long this business relationship will continue.

Our uses of cash are restricted by the Rich Dad joint venture and licensing agreements

Our joint venture and licensing agreements with Rich Global, LLC, requires us to segregate our cash balances between (i) funds received from RDE students and; (ii) funds received from the sale of our Proprietary Brands. The Company is restricted from using cash generated from the RDE brand to pay for expenses incurred by our non-RDE Brands, except in the payment of license and management fees owed to us in accordance with our agreement with Rich Global, LLC, as reimbursement for the fulfillment of advanced courses purchased by RDE students and partner distributions paid when cash balances exceed the cost to fulfill outstanding student contracts. These restrictions on uses of cash associated with the Rich Dad products impact our liquidity and create additional administrative obligations for the Company.

Any decrease in the popularity of the Rich Dad brand would have an adverse impact on our financial condition

If the Rich Dad brand were to experience a decrease in popularity, it would have a significant impact on our business, results of operations and financial condition. In the current economic environment, many individuals are not interested in purchasing real estate investments courses or products. The decreased interest in real estate investing could impact the Rich Dad brand. Additionally, if Mr. and Mrs. Kiyosaki, the founders of the Rich Dad brand, do not spend as much time in the public eye, it could impact the popularity of the Rich Dad brand and consequently impact our sales of Rich Dad products.

If we are unable to successfully conclude the litigation, governmental investigations and inquiries pending against us, our business, financial condition, results of operations and growth prospects could be adversely affected.

We, certain of our subsidiaries, and some of our current and former directors and executive officers have been named as defendants in lawsuits alleging violations of the federal securities laws. In addition, certain government agencies are conducting inquiries regarding us, including the Department of Justice (DOJ) and the SEC. We are also subject to various other lawsuits, investigations and claims, covering a range of matters, including, but not limited to, claims involving shareholders. Please see Item 3 of this Annual Report on Form 10-K and Note 16 - *Commitments and Contingencies* in the Notes to our Consolidated Financial Statements of this Annual Report on Form 10-K for a detailed discussion of these matters.

We cannot predict the ultimate outcome of these matters, and we expect to incur significant defense costs and other expenses in connection with them. Such costs and expenses could have a material adverse effect on our business, financial condition, results of operations and the market price of our common stock. We may be required to pay substantial damages or settlement costs in excess of our insurance coverage related to these matters, which could have a further material adverse effect on our financial condition or results of operations.

While we continue in our efforts to cooperate with the government investigations, we cannot predict the duration or outcome of the investigations, and the investigations may expand, and other regulatory agencies may become involved. The outcome and costs associated with these investigations could have a material adverse effect on our business, financial condition, or results of operations, and the investigations could result in adverse publicity and divert the efforts and attention of our management team from our ordinary business operations. The government investigations and any related legal and administrative proceedings could also include the institution of administrative, civil injunctive or criminal proceedings against us and/or our current or former officers or employees, the imposition of fines and penalties, suspensions and/or other remedies and sanctions.

We face significant competition in our markets.

Our success will depend upon our ability to attract customers by providing high-quality courses and educational materials. The market for training courses for specific business issues, such as real estate or stock market investing, is intensely competitive. If we are unable to successfully compete, our business, operating results and financial condition would be materially harmed. Some of our current and potential competitors have longer operating histories, larger customer bases, greater brand recognition and significantly greater financial, marketing and other resources than we do. Certain competitors may be able to secure alliances with customers and affiliates on more favorable terms, devote greater resources to marketing and promotional campaigns and devote substantially more resources to course development than we can. In addition, it is possible that certain

Table of Contents

competitors, or potential competitors, could reduce their pricing to levels that would make it difficult for us to compete. Increased competition may result in reduced operating margins, as well as loss of market share and brand recognition.

In addition, in order to compete effectively in our markets, we may need to change our business in significant ways. For example, we may change our pricing, product, or service offerings, make key decisions about technology directions or marketing strategies, or acquire additional businesses or technologies. Any of these actions could hurt our business, results of operations, and financial condition.

Laws and regulations can affect the operations of our business and may limit our ability to operate in certain jurisdictions.

Federal, state and international laws and regulations impact our operations and may limit our ability to obtain authorization to operate in some states or countries. Many federal, state and international governmental agencies assert authority to regulate providers of investment education programs. Failure to comply with these regulations could result in legal action instituted by the states, including cease and desist and injunction actions. In the event we are subject to such legal action, our reputation could be harmed and the demand for our course offerings could be significantly reduced. See Item 3, *Legal Proceedings*, for a detailed discussion of these regulatory proceedings.

Failure to comply with federal and state laws regulating the marketing and sale of proprietary educational courses could significantly reduce the demand for our course offerings.

Our products and services are marketed via a number of channels, including television, print, postal mail, radio, online banners, paid and organic search, and other email marketing campaigns, which are regulated by numerous federal and state laws and regulations, including, but not limited to, anti-fraud laws, consumer protection laws, privacy laws, telemarketing laws, home solicitation laws and spam laws. We believe that our marketing activities will increasingly be subject to such regulation, which may: (1) limit our ability to solicit new students or offer additional products or services to existing students, and (2) result in noncompliance, which may subject us to fines or various forms of civil or criminal prosecution. Regulatory and legal requirements are subject to change and may become more restrictive, making our compliance more difficult or expensive or otherwise restricting our ability to conduct our business.

Our ability to offer courses may be affected by natural disaster, strikes and other unpredictable events.

Natural disasters, external labor disruptions and other adverse events may affect our ability to conduct our business, resulting in loss of revenue. Severe blizzards or floods may reduce the ability of our course participants to travel to our courses. These natural disasters may also disrupt the printing and transportation of the materials used in our direct mail campaigns. Furthermore, postal strikes could occur in the countries where we operate which could delay and reduce delivery of our direct mail marketing materials. Transportation strikes could also occur in the countries where we operate, adversely affecting course offerings.

If we do not successfully introduce new programs, products and services, our growth rate and revenue may be reduced.

Our growth strategy for our business is dependent on our ability to sell existing training programs, products and services to new students, to open new markets and to develop and introduce new educational programs, products and services. If we are unable to expand our markets and products, our growth rate and revenue may be reduced. Market conditions and the level of customer interest may be different for our current products than for new products and marketing costs and methods may differ in new markets, and there can be no assurance that we will be able to compete favorably with, and obtain market acceptance for, any such new programs, products or services. Our growth strategy also is dependent upon the development of new products and services and the enhancement of existing products and services. The financial services and real estate industries have continually evolving industry standards and practices. Our failure to keep abreast of such changes could result in our technology and systems and our product offerings becoming obsolete. The development of new products involves significant risks. We may not be able to adapt our new products or services to new standards in the marketplace. In addition, changes in technologies could force us to incur substantial expenditures to appropriately modify our infrastructure and our products and services.

Table of Contents

Our results of operations are materially affected by economic conditions including significant price increases, inflation or adverse events related to various industries. Additionally, other changes experienced by our students including the willingness to trade or invest in securities or real estate could influence discretionary spending contributing to uncertainty in our results of operations.

Uncertain economic conditions may affect our student s discretionary income and ability to purchase our training courses and products. Such economic conditions and consumer spending are influenced by a wide range of factors that are beyond our control and that we have no comparative advantage in forecasting. These conditions include:

Demand for training and our related products;

Conditions in the securities and investment market;

Conditions in the real estate market;

Availability of mortgage financing and other forms of credit;

General economic and business conditions;

General political developments; and

Natural or man-made disasters.

A prolonged economic downturn, particularly in the United States, could increase these effects on our business.

Expansion into additional markets outside the United States, if successful, will subject us to additional risks inherent in international operations.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

We currently operate in the United Kingdom and Canada. As part of our growth strategy, we intend to establish training courses in additional markets outside the United States. If we are successful in implementing our strategy, we will face risks that are inherent in international operations, including:

Complexity of operations across borders;

Currency exchange rate fluctuations;

Multiple and possibly overlapping and conflicting tax laws;

Applicability of educational concepts to foreign markets; and

Compliance with foreign regulatory requirements.

The current market price of our common stock significantly exceeds our book value per share and increases the risk that our market price per share may decline in the future.

The market price of our common stock was \$1.85 per share at the close of business on March 31, 2008, and exceeded our December 31, 2007, book value, which was a stockholders' deficit of \$55.2 million or \$4.71 book value per share deficit. The lower book value per share compared to our market price per share increases the risk that our market price per share may decline in the future.

Our former Chairman and Chief Executive Officer, Mr. Whitney, beneficially owns 5,227,300 shares of our Common Stock which constitutes approximately 44.5% of our outstanding Common Stock, which means he has the ability to significantly influence any matter requiring stockholder approval or prevent a change of control in our Company.

Mr. Whitney, our former Chairman and Chief Executive Officer, beneficially owns 5,227,300 which represents approximately 44.5% of our outstanding common stock as of March 31, 2008 as reported on Form SC 13D filed with the SEC on April 28, 2008. As such, Mr. Whitney can significantly influence any matter requiring the vote of our stockholders, including the election

of directors. Mr. Whitney could, with a relatively small number of other stockholders, vote to approve a transaction that may not be in the best interests of other stockholders or reject a transaction that may be in the best interests of other stockholders. Moreover, Mr. Whitney's stock ownership may deter a third party from making a general tender offer for our Common Stock. Mr. Whitney's stock ownership may prevent such an event from occurring. The Addendum to the Agreement to Settle Property Rights and Other Martial Affairs of Russell Whitney and Ingrid Whitney, dated December 7, 2007 (the "Settlement Agreement") contains certain covenants relating to the 4,991,850 shares of Common Stock held by International Securities 3 LLC (the "IS3 Shares"). Specifically, during the period beginning December 7, 2007 and ending on June 2, 2009 (the "Lock-up Period"), Mr. Whitney has exclusive power to vote all of the IS3 shares. During the Lock-up Period, Mr. Whitney has agreed he will be in a fiduciary relationship with Ingrid Whitney and will not vote the shares in a manner that will materially harm Ingrid Whitney. During the Lock-up Period, Ingrid Whitney has agreed not to sell, transfer or assign any of the shares of Common Stock that make up her 50% portion of the IS3 Shares (2,277,175 shares of Common Stock). During the Lock-up Period, Mr. Whitney holds an exclusive right to purchase the shares of Common Stock that comprise Ingrid Whitney's 50% portion of IS3 shares. The purchase price per share will be equal to the current market price at the time Mr. Whitney exercises his right to purchase such shares.

Our Board of Directors, without stockholder approval, may issue preferred stock which could reduce the voting power or rights of our other stockholders and make it more difficult for a third party to acquire a majority of our outstanding voter's stock.

Our Board of Directors, without stockholder approval, may issue up to 10.0 million shares of preferred stock. The Board of Directors can fix the rights, preferences and privileges of the shares of each series and any qualifications, limitations or restrictions, which could reduce the voting power or other rights of the holders of common stock. Issuance of preferred stock could also have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire a majority of our outstanding voting stock.

Our transition to new senior executives, or the loss of any of our key executive personnel, or high performing instructors, could disrupt our operations and reduce our profitability.

Our future success depends to a significant extent on the successful transition of our senior executive management in the continuing development of our operations. The loss of the services of certain of these individuals would have a material adverse effect on our business. Although, we have employment agreements and non-competition agreements with certain of our key employees, as a practical matter, those agreements will not assure the retention of our employees. We currently do not maintain key man insurance on any member of our senior executive management team.

Our future success also depends on our ability to retain and attract high performing instructors. The loss and/or inability to recruit suitable replacements may affect our performance and reduce our profitability.

Outside business ventures of Mr. Whitney could result in conflicts of interest that could negatively impact our ability to attract investors.

Although Mr. Whitney no longer serves as our Chief Executive Officer, he remains on our Board of Directors. Mr. Whitney has outside passive investment interests in real estate and owns a 25% interest in Gulfstream Development Group, LLC, a residential construction company. In the past, Mr. Whitney owned residential real estate lots in Cape Coral, Florida, some of which were purchased by our students. From time to time,

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

some of our students used Gulfstream to build residences upon lots which they have purchased from Mr. Whitney or others. These kinds of arrangements could create, or appear to create, conflicts of interest if our students purchased lots from Mr. Whitney or contracted with Gulfstream to construct residences on such lots. Any conflict of interest or appearance of a conflict of interest in connection with our arrangements with our students could negatively impact investor interest in us and therefore our stock price and liquidity. See Related Party Transactions for a more detailed discussion of transactions between the Company and its executive officers, directors and 5% or greater shareholders and Item 3, Legal Proceedings.

We have material weaknesses in our internal control over financial reporting which could adversely affect our ability to report our financial condition and results of operations accurately and on a timely basis.

In connection with our restatement and our assessment of internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002, we identified material weaknesses in our internal control. For a discussion of our internal control over financial reporting and a description of the identified material weaknesses, see Item 9(A)T. Controls and Procedures.

Material weaknesses in our internal control over financial reporting could adversely impact our ability to provide timely and accurate financial information. We are developing remediation plans to strengthen our internal controls in response to the previously identified material weaknesses. If we are unsuccessful in developing, implementing or following our remediation plans, or fail to update our internal controls as our business evolves, we may not be able to timely or accurately report our financial condition, results of operations or cash flows or maintain effective disclosure controls and procedures. If we are unable to report financial information timely and accurately or to maintain effective disclosure controls and procedures, we could be subject to, among other things, regulatory or enforcement actions by the SEC, securities litigation and a general loss of investor confidence, any one of which could adversely affect our business prospects and the valuation of our common stock.

Furthermore, there are inherent limitations to the effectiveness of any system of controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. We could face additional litigation exposure and a greater likelihood of an SEC enforcement regulatory action if further restatements were to occur or other accounting-related problems emerge. In addition, any future restatements or other accounting-related problems may adversely affect our financial condition, results of operations and cash flows.

- (1) Related party lease.

We own the land and building of our executive offices in Cape Coral, Florida. Our executive office building is approximately 40,734 square feet and is situated on approximately 4.5 acres. We lease approximately 32,646 square feet of office space in Murray, Utah for our EduTrades and telemarketing headquarters. The lease expires in January 2013 and rent is payable at rates increasing from \$32,646 to \$36,743 per month over the remainder of the lease.

We lease approximately 2,727 square feet of office space in London, England for our European headquarters. The lease expires in April of 2012 and our monthly rental rate is \$9,917.

Table of Contents

Our Canadian subsidiary leases approximately 1,200 square feet of office space in Ontario, Canada. The lease expires in April 2010 and rent is payable at rates increasing from \$1,789 to \$1,936 per month over the remaining term of the lease.

We lease approximately 6,783 square feet of office space in Salt Lake City, Utah. The lease expires in 2010 and rent is payable at rates increasing from \$10,197 to \$10,813 per month over the remaining term of the lease. The facilities are being used as a training center.

We lease approximately 1,990 square feet of office space in London, England which is being used as a training center. The lease expires in December 2009 and the rent is \$299,200 for the year.

We own an approximately 7,200 square foot conference and training center in Monterey, Costa Rica, which we designed and built in 2002. This property was sold in January 2008.

Related party leases

We lease approximately 2,200 square feet of training facilities at 1611 East Cape Coral Parkway, approximately 9,000 square feet of space at 1625 East Cape Coral Parkway which is used for offices and shipping and 4,802 square feet at 1630 Southeast 47th Terrace, which we use as a training facility, all in Cape Coral, Florida, from Cape Promenade Trust, which is for the benefit of our former Chairman and Chief Executive Officer, Russell Whitney, and his former spouse, Ingrid Whitney.

The leases are for three years and began on March 1, 2003, March 1, 2003 and June 1, 2004 respectively. The monthly rentals are \$1,943, \$13,913 and \$7,238 respectively. We terminated the 1611 Cape Coral Parkway and 1630 Southeast 47th Terrace leases on September 17, 2008. We also notified Cape Promenade Trust on November 21, 2008, that we will be terminating the 1625 East Cape Coral Parkway lease as of December 31, 2008.

We believe that our facilities will be adequate to meet our requirements through 2008 and that suitable additional or substitute space will be available if needed.

Our common stock was quoted on the NASD Over-the-Counter Bulletin Board under the trading symbol RUSS from August 1998 through June 25, 2007 and has been quoted on the Pink Sheet under the symbol RUSS.PK since June 25, 2007 through the present date. The following table shows the high and low sales prices of our common stock for each quarter in 2007 and 2006. These quotations reflect inter-dealer prices, without retail mark-up, markdown or commissions, and may not represent actual transactions.

Third Quarter	\$	10.20	\$	7.65
Second Quarter	\$	11.26	\$	7.60
First Quarter	\$	11.25	\$	7.10

As of March 31, 2008, the closing price of our common stock as reported on the NASD Over-the Counter Bulletin Board was \$1.85. According to the records of our transfer agent, there were 132 shareholders of record of the Company's common stock at March 31, 2008. Because many of our shares of common stock are held by brokers and other institutions on behalf of shareholders, we are unable to estimate the total number of shareholders represented by these record holders.

Dividend Policy

During our two most recent fiscal years, we authorized one cash dividend of \$1.00 per share to our common stock shareholders of record on September 15, 2006, and which was paid on October 2, 2006. This was deemed a return of capital for income tax purposes. We do not anticipate paying any cash dividends on our common stock in the future.

Equity Compensation Plan Information

The following table summarizes, as of December 31, 2007, the equity compensation plans under which we may issue shares of stock to our directors, officers and employees under the 1998 Stock Option Plan (in thousands).

1998 Stock Option Plan

Our 1998 Stock Option Plan (1998 Plan) provides for the issuance of up to 2,187,500 shares of our common stock as incentive stock options and nonqualified stock options. As of December 31, 2007, we had 1,218,400 options issued and outstanding under the 1998 Plan. Only our employees and directors are eligible to receive awards under the 1998 Plan. The purpose of the 1998

Table of Contents

Plan is to motivate participants to achieve long range goals, attract and retain eligible employees, provide incentives competitive with other similar companies and align the interest of employees and directors with those of our shareholders. The 1998 Plan is administered by the Compensation Committee of the Board of Directors. The exercise price of a stock option grant under the 1998 Plan may not be less than the average market price of our stock on the date of the grant and no options may have a term of more than ten years. Options granted under the 1998 Plan typically vest as follows: 25% of the options vest on the grant date, an additional 25% vests on the completion of the first year of service, another 25% vests on the completion of the second year of service, and 100% of the shares vest at the end of the third year of service, although the Compensation Committee may approve a different vesting period. All options expire ten years from the date of grant. The 1998 Plan expired on August 30, 2008, but any options that were issued under the 1998 Plan prior to the expiration date are still outstanding and exercisable when vested.

Net (loss) income	(3.2)%	1.0%

(a) Special items expense includes direct costs associated with the SEC and DOJ investigations, liquidating damages for the registration of our stock and executive severance.

Non-GAAP Financial Measures*Adjusted EBITDA*

As used in our operating data, EBITDA is defined as net income (loss) excluding the impact of special items (including the costs associated with the SEC and the DOJ investigations, class action and derivative lawsuits); interest income; interest expense; other income (expense), net; income tax provision; stock option compensation expense; depreciation and amortization expense; and equity income (loss) in related parties. We define

Adjusted EBITDA as EBITDA adjusted for the net change in deferred revenue less the net change in deferred course expenses. Adjusted EBITDA is not a financial performance measurement according to accounting principles generally accepted in the United States (GAAP).

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

We use Adjusted EBITDA as a key measure in evaluating our operations and decision-making. We feel it is a useful measure in determining our performance since it takes into account the change in deferred revenue and deferred course expenses in combination with our operating expenses. We reference Adjusted EBITDA frequently, since it provides supplemental information that facilitates internal comparisons to historical operating performance of prior periods and external comparisons to competitors' historical operating performance in our industry. We plan and forecast our business using Adjusted EBITDA, with comparisons of actual to planned and forecasted Adjusted EBITDA and we provide incentives to management based on Adjusted EBITDA goals. In addition, we provide Adjusted EBITDA because we believe investors and security analysts find it to be a useful measure for evaluating our performance.

The vast majority of our costs to acquire students have been expended before a student attends any basic or advanced training. Those costs include media, travel, facilities and instructor fees for the introductory workshops and are expensed when incurred. However, revenue recognition of tuition paid by students to enroll in any basic or advanced training courses at registration is deferred until (i) the course is attended by the student, (ii) the student has received the course content in an electronic format, (iii) the contract expires, or (iv) revenue is recognized through course breakage. It is only after one of those four occurrences that

Table of Contents

revenue is considered earned. Thus, reporting in accordance with GAAP creates significant timing differences with respect to revenue and expenses, both in our consolidated statements of cash flows and consolidated statements of operations. As a result of these factors, our operating cash flows can vary significantly from our results of operations for the same period. For this reason, we believe Adjusted EBITDA is an important non-GAAP financial measure.

Adjusted EBITDA has material limitations and should not be considered as an alternative to net (loss) income, cash flows provided by operations, investing or financing activities or other financial statement data presented in the consolidated financial statements as indicators of financial performance or liquidity. Items excluded from Adjusted EBITDA are significant components in understanding our financial performance. Because Adjusted EBITDA is not a measurement determined in accordance with GAAP and is subject to varying calculations, Adjusted EBITDA as presented may not be comparable to other similarly titled measures of performance used by other companies.

The table below is a reconciliation of the Company's net (loss) income to EBITDA and Adjusted EBITDA for the periods set forth below (in thousands):

Table of Contents*Cash Sales*

The following table provides a reconciliation of the Company's reported revenue to cash sales by segment. Cash sales are a metric used by management in assessing the Company's segments performance. We define cash sales as revenue plus the change in deferred revenue. Cash sales are not a financial performance measurement in accordance to GAAP, therefore we are presenting a table to reconcile the cash sales to revenue reported in accordance with GAAP (table presented in thousands):

Proprietary Brands

Real estate education

We began providing basic and advanced real estate investment training in 1992 with our historical flagship brand *Russ Whitney®'s Building Wealth*. We have added to our brand portfolio by offering our students additional real estate education offerings. We launched *Teach Me Foreclosure & Real Estate Investing* in 2006.

Table of Contents

Cash sales for the years ended December 31, 2007 and 2006 were \$72.4 million and \$108.5 million, respectively, and revenues for these years were \$95.8 million and \$111.7 million respectively. The decrease of \$36.1 million in cash sales and \$15.9 million in revenue in 2007 as compared with 2006 was primarily attributable to the decline in sales of our *Russ Whitney®'s Building Wealth* and the suspension of the *Cash Flow Generator®* product offset by the launch of our *Teach Me™ Foreclosure & Real Estate Investing*. In addition, there was decreased interest among prospective students in our real estate course offerings resulting from the downturn in the housing market. These factors resulted in a higher cost to acquire students, a lower percentage of students who purchased at least one paid course, and a lower average amount of sales of advanced courses per student. We suspended the sales of our *Cash Flow Generator®* product until we can determine and test the merits of a repositioned student offering.

Gross profit (calculated as revenue less direct course expenses less advertising and sales costs as presented in our statement of operations) in the Proprietary Brands real estate education segment was \$30.0 million for the year ended December 31, 2007, compared to a gross profit of \$20.3 million for the year ended December 31, 2006, an increase of \$9.7 million, or 47.8% primarily due to intersegment revenue of \$11.3 million related to licensing fees paid by RDE to us in accordance with our agreement with Rich Global, LLC, for the year ended December 31, 2007. For the same period in 2006, the licensing fees related to RDE were \$0.2 million as this brand began sales in November 2006. Excluding the effect of intersegment revenue for both years, the gross profit for the Proprietary Brands real estate education segment decreased by \$1.4 million, or 7.0% in 2007 primarily due to the increase in cost of student acquisition and declines of our *Russ Whitney®'s Building Wealth* and *Cash Flow Generator®* product.

Financial markets education

EduTrades, the Proprietary Brands financial markets education segment, began operations in July 2002, with the acquisition of *Teach Me to Trade®*, and began sales in the fourth quarter of 2002. We provide education to avocational investors in financial instruments, such as stocks and stock options. Our training teaches trading fundamentals as well as advanced technical analysis to potential investors.

Cash sales for the years ended December 31, 2007 and 2006 were \$41.4 million and \$112.6 million, respectively, and revenues for these years were \$70.7 million and \$112.5 million, respectively. The decrease of \$71.2 million in cash sales and \$41.7 million in revenue in 2007 as compared with 2006 primarily due to the success of our *Star Trader®* and *Options Success Systems* brands in 2006, while minimal sales were attributed to these brands in 2007. *Options Success* was suspended during the fourth quarter of 2006 and *Star Trader®* was suspended during the first quarter of 2007.

Gross profit in the Proprietary Brands financial markets education segment was \$23.7 million for the year ended December 31, 2007, compared with \$28.9 million for the year ended December 31, 2006, a decrease of \$5.2 million, or 18.0%. The Proprietary Brands financial markets education segment was affected by the revenue recognized from course breakage of \$19.1 million in 2007, compared to \$27.0 million in 2006, a decrease of \$7.9 million or 29.3%.

Rich Dad Education

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

In November 2006, we launched *Rich Dad® Education*, in alliance with Rich Global, LLC, which is based on the investing principles and philosophy of Robert Kiyosaki, detailed in his best-selling book, *Rich Dad Poor Dad*. Our RDE brand provides investor education in the United States, United Kingdom and Canada.

During the year ended December 31, 2007, the RDE segment's revenue represented approximately 46.2% of total cash sales and 19.8% of total revenue, as compared to 0.9% of total cash sales and 0.2% of total revenues in 2006, reflecting the ramp-up of this brand in 2007. Cash sales for the years ended December 31, 2007 and 2006 were \$97.7 million and \$2.0 million respectively, and revenues for these years were \$41.2 million and \$0.5 million, respectively. This increase in cash sales and revenues in 2007 reflects the late 2006 start-up of this new joint venture.

The variance between cash sales and revenue recognized for this brand is a result of the application of our revenue recognition policies as discussed in Note 2 - *Significant Accounting Policies and Related Information*.

The gross deficit in the RDE segment was \$10.9 million for year ended December 31, 2007, compared to a gross deficit of \$0.5 million for the year ended December 31, 2006 reflecting the impact of our revenue recognition policy. In addition, as this is a new brand for our Company and the majority of our student contracts were not expired by the end of 2007, we do not have the historical data sufficient to allow recognition of breakage revenue for this brand. As presented in the table above, \$56.6 million in sales revenue for our RDE segment was deferred in 2007 as compared to \$1.5 million in 2006. In

Table of Contents

accordance with our revenue recognition policy as described in *Critical Accounting Policies* below, the Company is required to defer the recognition of revenue until certain criteria are met. Although the cash sales of RDE are increasing, a substantial portion of the sales are not included in our revenue on the statement of operations.

Year Ended December 31, 2007, compared to Year Ended December 31, 2006**Revenue**

Revenue for the year ended December 31, 2007 was \$207.6 million, a decrease of \$17.1 million or 7.6%, as compared to revenue of \$224.7 million for the year ended December 31, 2006 (in thousands):

Net change in deferred revenue	(3,892)	1,594	(344.2)
Revenue for financial reporting purposes	\$ 207,634	\$ 224,654	(7.6)%

Total revenue decreased by 7.6% in 2007 as compared with 2006 primarily because course breakage decreased by \$12.4 million, or 22.4%, from \$55.4 million in 2006 to \$43.0 million in 2007. The primary driver of the change in breakage revenues year-over-year is the introduction of our RDE Brands. Courses associated with the new brand must establish a historical trend of attendance in order for us to estimate breakage which means that the revenues from unattended courses for these brands will remain deferred for approximately three years.

The following table illustrates the number of educational events, the number of students and the average number of students per paid course for the comparative periods:

Approximately 24.0% of those students attending the introductory workshops purchase one or more of our courses. We experienced a 5.9% increase in the number of overall registrations to our free introductory workshops in 2007 compared to the same period in 2006. For basic training sessions and advances courses, the student pays the tuition at the time of registering for the course or program. See Business Segments above for further discussion of cash sales and reported revenue.

The following table provides the percentage of each media source by which prospective students accessed our free introductory workshops:

	Years ended December 31,	
	2007	2006 (restated)
Television	39.7%	64.9%
Direct mail	13.9	11.8
Newspaper	6.0	2.6
Website	18.6	18.4
Online advertising	13.0	1.9
Radio and Other	8.8	0.4
	100.0%	100.0%

Prospective students registering for our free introductory workshops via our branded websites increased by 0.2% in 2007 as compared to 2006. We introduced on-line advertising in 2006 and in that year 1.9% of our prospective students were obtained from this source as compared to 13.0% in 2007, an increase of 632.4% year-over-year. Further, we experienced an increase of 144.6% from our newspaper advertising 2007 as compared to 2006.

Change in deferred revenue

Deferred revenue for 2007 was \$119.3 million, which represents an increase of \$3.9 million or 3.4%, as compared to \$115.4 million for 2006. The revenue we recognized from course breakage decreased by \$12.4 million, or 22.4%, from \$55.4 million for 2006 to \$43.0 million in 2007. The primary driver of the change in breakage revenues and the increases in the deferred revenue balances on a year-over-year comparison is the introduction of our RDE Brands.

Courses associated with the new brand must establish a historical trend of attendance in order for us to estimate breakage which means that the revenues from unattended courses for these brands will remain deferred for approximately three years. For this reason, as reflected in the table below, our deferred revenue as a percentage of total revenue increased 6.1 percentage points to 57.5% in 2007, as compared to 51.4% in 2006.

	Years ended December 31,	
(in thousands)	2007	2006
Deferred revenue	\$ 119,300	\$ 115,408
Revenue for financial reporting purposes	\$ 207,634	\$ 224,654
Deferred revenue as a percentage of revenue	57.5%	51.4%

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

We have expanded the options for course delivery in order to reduce the number of expired contracts and the resulting breakage determination. We have increased the number of courses offered on DVD and via the internet and expanded the number of location options for students in the United States. Additionally, we have implemented an outreach notification program, contacting our students by email and the U.S. mail as courses near expiration.

Operating Expenses

Direct course expenses

Direct course expenses relate to our basic training sessions and advanced courses, and consist of instructor fees, facility costs, salaries associated with our field representatives and related travel expenses.

Direct course expenses were \$103.5 million in 2007, a decrease of \$8.0 million or 7.2%, as compared to \$111.5 million in 2006. As a percentage of revenue, direct course expenses increased 0.3 percentage points (pp) from 49.6% in 2006 to 49.9% in 2007. This increase as a percentage of revenue was due to the introduction of the RDE Brand.

The components of direct course expenses as a percentage of revenue are as follows:

As a percentage of revenue	Margin change 2007 vs. 2006 Increase (decrease)
Increase in event expense	11.5
Decrease in sales commissions	(8.6)
Decrease in product cost	(2.5)
Decrease in alliance expense	(0.1)
	0.3

Advertising and sales expense

Advertising and sales expense as an expense category consists of two components:

Purchased media to generate registrations to our free introductory workshops, and

Costs associated with supporting student recruitment.

Our cost structure is particularly sensitive to increases in advertising costs and its subsequent efficiency, production costs and travel related expenses. However, a significant portion of our cost structure includes variable costs, such as instructor, field representative and outreach related costs which are primarily a function of sales.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

We obtain the majority of our students through free introductory workshops. These introductory workshops are established in various metropolitan areas in the United States, the United Kingdom and Canada. Prior to the actual workshop, we expend a significant amount of money in the form of advertising through various media channels.

The following table represents the expense categories that comprise advertising and sales expense in 2007 and 2006 and the expense categories as a percentage of total advertising and sales expense (in thousands):

Expense category	Years ended December 31,			
	2007		2006 (restated)

(1) RDE licensing fees were not significant prior to 2007.

Table of Contents

Our media spending decreased by 5.4% in 2007 compared to the same period in 2006. We re-directed some of our media spending from television to internet advertising during 2007.

Media spending as a percentage of total media spending is presented in the following table:

	Years ended December 31, 2007	2006 (restated)
Television	60.8%	75.2%
Direct mail	12.5	13.1
Newspaper	7.5	5.0
Website and other	19.2	6.7
	100.0%	100.0%

Sales commissions decreased as a result of a decrease in telemarketing outbound sales. In 2007, direct sales commissions decreased by \$4.0 million or 33.9%, from \$11.8 million in the prior year to \$7.8 million in 2007. Our outreach programs cash received from course and product sales decreased by 54.9% in 2007 over the prior year.

Advertising and sales expense for 2007 amounted to \$61.3 million, a decrease of 4.8% or \$3.1million, compared to \$64.4 million in 2006. Advertising and sales expenses for the year ended 2007 were 29.5% of revenue, as compared to 28.7% of revenue for the comparable period in 2006. The increase as a percentage of revenue is a result of the decrease in revenue and additional cost associated with the introduction of the RDE in the United States; licensing fees associated with our RDE brand were approximately \$5.6 million as compared to zero in 2006.

Gross profit

Gross profit was \$42.8 million for the year ended December 31, 2007 as compared to \$48.8 million for the year ended December 31, 2006, a decrease of \$6.0 million, or 12.3%. This reduction is primarily attributable to the decrease in revenue of \$17.1 million and the increase in special items of \$10.1 million partially offset by the decrease in direct course expense and advertising and sales expense in 2007 as compared to 2006.

General and administrative expenses

General and administrative expenses primarily consist of compensation, benefits, insurance, professional fees, facilities expense, and travel for the corporate staff.

General and administrative expenses were \$38.4 million in 2007, an increase of \$3.7 million, or 10.7%, as compared to \$34.7 million in 2006. As a percentage of revenue, general and administrative expenses increased from 15.4% of revenue in 2006 to 18.5% of revenue in 2007. The

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

increase of \$3.7 million in general and administrative expenses was primarily due to the following (in thousands):

Salaries, relocation and benefits related to the addition of new employees in accounting and technology	\$	2,959
Professional fees related to the restatement of our 2006 Form 10-K		1,297
Stock option and stock gift expense		(1,423)

Table of Contents*Impairment of assets*

No impairment of assets was recorded in 2007.

We recorded an impairment of assets totaling \$3.6 million in 2006 for property and equipment, inventory and intangible assets. The following table includes the items impaired in 2006 (in thousands):

Impairment expense related to <i>Star Trader</i> ® goodwill	\$	2,000
Impairment expense related to <i>Cash Flow Generator</i> ® intangible assets		687
Impairment expense related to property and equipment (UK office and corporate aircraft)		756
Impairment expense related to <i>Star Trader</i> ® and <i>Cash Flow Generator</i> ® inventory		147
	\$	3,590

We recognized an impairment of the \$2.0 million in goodwill associated with *Star Trader*® as a result of discontinuing the brand, \$0.1 million in *Star Trader*® related intangible assets and an additional \$0.1 million in related inventory. We also repositioned the *Cash Flow Generator*® brand, recognizing an impairment on the related intangible asset of \$0.6 million and an additional \$0.1 million in related inventory. Additionally, we reduced the net book value of our United Kingdom office and previous corporate aircraft by \$0.4 million each to their net realizable values.

Special items

Special items incurred in 2007 increased \$10.1 million or 439.1% to \$12.4 million, from \$2.3 million in 2006. As a percentage of revenue, special items increased 5.0 percentage points from 1.0% in 2006 to 6.0% in 2007.

The following table includes the items included in special items (in thousands):

	Years ended December 31,

(Loss) income from operations

We had a loss from operations of \$8.1 million in 2007, compared to income from operations of \$8.2 million in 2006. The decrease in income from operations was \$16.3 million which was primarily due to the decrease in revenues of \$17.0 million and, to a lesser extent, the increase in special items of \$10.1 million.

Other income (expense)

Other income (expense) in 2007 was \$0.2 million, as compared to \$(0.1) million in 2006. The increase in income was due to gains earned on short-term investments of cash balances related to the RDE brand sales.

Interest income

Interest income in 2007 decreased by \$0.2 million to \$2.2 million, as compared to \$2.4 million in 2006. The decrease in interest income is due to a reduction in invested balances in our cash accounts due to the increase in our required restricted cash balances.

Interest expense

Interest expense in 2007 decreased by \$0.2 million or 40.0%, to \$0.3 million, as compared to \$0.5 million in 2006 as a result of the retirement of debt associated with the sale of our building in the United Kingdom and our previous aircraft.

Table of Contents

Equity (loss) from related parties

Equity loss from related parties was \$489,000 for the year ended December 31, 2007, compared to a loss of \$45,000 for the year ended December 31, 2006. The equity loss relates to our investments in Costa Rican and Panamanian entities.

Income tax provision (benefit)

We recognize deferred tax assets and liabilities, at enacted income tax rates, based on the temporary differences between the financial reporting basis and the tax basis of our assets and liabilities. We include any effects of changes in income tax rates or tax laws in the provision for income taxes in the period of enactment. When it is more likely than not that a portion or all of a deferred tax asset will not be realized in the future, we provide a corresponding valuation allowance against the deferred tax asset.

As of December 31, 2007, we are estimating that our taxable income will not exceed the amount necessary to use our deferred tax assets. Therefore, we increased our valuation allowance from \$17.6 million to \$19.1 million.

We estimate that we will be liable for approximately \$0.2 million in state and non-U.S. taxes in 2007.

Net (loss) income

Net loss in 2007 totaled \$6.6 million, as compared to net income of \$2.3 million in 2006. The decrease in income was \$8.9 million, or 387.0%. The increase of \$10.1 million in expenses due to the special items and the \$17.0 million decline in revenue due to the reduction in course breakage and a decrease in sales of our Proprietary Brands contributed to the decline in net income in 2007 as compared to 2006.

Known Trends

We have been experiencing an accelerating decline in the Company's Proprietary Brands during 2008, as discussed in our review of segment performance. During 2007 and 2008, we discontinued several of our under-performing brands and evaluated our other course offerings in response to current economic trends.

In comparison, the RDE segment has experienced a rapid acceleration in sales in 2007, with some leveling off in 2008. As of December 31, 2007, 46.2% of our cash sales were generated by this brand.

Liquidity and Capital Resources

Cash flows from operating activities

At December 31, 2007, our principal sources of liquidity consisted of \$41.5 million of cash, cash equivalents and restricted cash balances, an increase of \$0.9 million from the cash balances at December 31, 2006, of \$40.7 million.

Our joint venture agreement with Rich Global, LLC requires us to segregate our cash balances between (i) funds received from RDE students; and (ii) funds received from the sale of our Proprietary Brands. The Company is restricted from using cash generated from the RDE Brand to pay for expenses incurred by our non-RDE Brands, except in the payment of license and management fees owed to us in accordance with our agreement with Rich Global, LLC as reimbursement for the fulfillment of advanced courses purchased by RDE students and partner distributions paid when cash balances exceed the cost to fulfill outstanding student contracts.

Included in our \$41.5 million of cash, cash equivalents, and restricted cash balances as of December 31, 2007, is \$26.8 million attributable to RDE and \$14.8 million related to our Proprietary Brands. As of December 31, 2006, the cash, cash equivalents, and restricted cash balances of \$40.7 million included \$1.4 million attributable to RDE and \$39.3 million related to our Proprietary Brands. The increase in the RDE cash balances in 2007 compared to 2006 reflects the late 2006 start-up of this new joint venture.

The focus on the RDE Brand in 2007 from its launch in November 2006 resulted in an increase in cash, cash equivalents, and restricted cash balances related to this brand of \$25.4 million from \$1.4 million as of December 31, 2006, to \$26.8 million as of December 31, 2007.

Cash balances attributable to our Proprietary Brands decreased by \$24.5 million or 62.3%, from \$39.3 million in 2006 to \$14.8 million in 2007. The change was primarily due to the \$10.1 million of legal and accounting expenses associated with

Table of Contents

the SEC and DOJ investigations. In addition, the decrease in the sales of our Proprietary Brands that we experienced as result of focusing our efforts on RDE Brand growth, the slowdown in our real estate business due to economic declines in the housing market, the significant turnover among our instructors and field representatives in our financial markets segment, and the suspension of the *Options Success* and *Star Trade®* products resulted in the use of cash balances.

Cash flows from investing activities

Our primary sources and uses of cash for investing activities are related to sales and purchases of property and equipment. Net cash provided from investing activities was \$2.3 million in 2007, as compared to \$4.4 million of net cash used in investing activities for the same period in 2006, an increase of \$6.7 million. In 2007, we received \$5.0 million in proceeds from the sale of our previous corporate aircraft and our headquarters property located in the United Kingdom, which was partially offset by advances and losses on our equity investments in Costa Rican properties of \$1.0 million in 2007 and \$0.3 million in 2006 and the purchases of equipment and leasehold improvements related to our new facilities in Utah and the United Kingdom of \$1.8 million.

Cash flows from financing activities

Cash used in financing activities totaled \$3.2 million in 2007 compared to \$13.8 million used in financing activities in 2006. In 2007, our financing activities included the repayment of \$3.3 million of loans on our United Kingdom headquarters building and previous corporate aircraft.

Cash used in financing activities in 2006 primarily related to the \$11.7 million distributed as a special dividend to our holders of common stock. In August 2006, our Board of Directors declared a special dividend of \$1.00 per share for shareholders of record on September 15, 2006. In addition, \$5.1 million was paid to Mr. Whitney in January 2006 in connection with the partial sale of his common stock in December 2005 in which we received funds on his behalf. This amount was partially offset by \$4.2 million received from the exercise of stock options and warrants.

Sources of liquidity

Restricted cash balances, consisting primarily of funds on deposit with credit card merchants, totaled \$8.4 million and \$7.5 million at December 31, 2007, and December 31, 2006, respectively, including the letters of credit required to secure merchant accounts and certain state bonding requirements for approximately \$0.1 million and \$1.6 million, as of December 31, 2007 and 2006, respectively. The letters of credit are supported by certificates of deposit which earn interest rates ranging from 4.3% to 5.2%. The majority of our cash equivalents are invested in short-term, liquid, investment grade commercial paper with yields ranging from 5.2% to 5.3%.

Historically, we have been able to fund our operations primarily through existing working capital.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

At December 31, 2007, net working capital decreased by \$0.1 million to \$45.2 million compared to \$45.3 million at December 31, 2006, after excluding the change in the current portion of deferred revenue which is substantially a non-cash liability. Including our current deferred revenue balance, we have a working capital deficit of \$74.1 million in 2007 compared to \$69.6 million in 2006, an increase of \$4.5 million due to the increase of our RDE sales. As a result of our significant deferred revenue balance primarily attributable to RDE, our working capital deficit will remain for the foreseeable future.

From time to time, we evaluate potential acquisitions of business products or technologies that complement our business. To the extent that financial resources are insufficient to fund future activities, we may need to raise additional funds. However, there can be no assurance that additional funding, if needed, will be available. If adequate funds are not available on acceptable terms, we may be unable to expand our business, develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures, any of which could have a material adverse effect on our business, operating results and financial condition.

We believe our cash resources are sufficient to fund our operations, special items and growth plans in 2008.

Table of Contents**Non-core investments**

As of December 31, 2007, we had investments in several Costa Rican and Panamanian entities. Additionally, two of our former executives, including the Company's former Chairman and Chief Executive Officer, Russell Whitney, and the former Co-President and Chief Operating Officer, Ronald Simon, had individual interests in some of these entities.

The ownership interests in the entities are presented in the following table:

As of December 31, 2007				
(in thousands) Entity	Description	Accounting Method Used	Company Ownership	Company Investment/Loans (\$000 s)
Rancho Monterey, S.A.(a)	Raw land sales	Equity	30.0%	\$ 624.1
Monterey del Este, S.A.(a)	Raw land sales	Equity	8.0%	280.5
MDM/MTO(b)	Hotel/land concession	Equity	62.9%	1,232.8
Monterey Management, S.A.(c)	Management services	N/A	0.0%	321.1
Beautiful Hill, S.A.(a)(d)	Conference center	Consolidation	100.0%	736.0
Total				\$ 3,194.5

N/A Not Applicable

(a) These entities were sold in January 2008.

(b) The full entity names are Monterey del Mar, S.A. (MDM) and Mar y Tierra del Oeste, S.A. (MTO).

(c) Monterey Management, S.A., is owned 100% by Maria Jimenez, an independent contractor for the Company. We advanced \$300,000 in working capital funds to this entity and as of December 31, 2007, this amount was fully reserved. In May 2008, we were repaid the \$300,000 working capital loan in full.

(d) The historical cost and related depreciation for the conference center are reflected in property and equipment in our consolidated balance sheets.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

Our investments in Rancho Monterey, S.A., Monterey del Este, S.A., and MDM/MTO are accounted for in our consolidated financial statements under the equity method of accounting. Our investment in Beautiful Hill is consolidated in our consolidated financial statements. For the years ended December 31, 2007 and 2006, under the equity method of accounting, we recorded our share of the gains (losses) related to our direct interests in these entities of approximately \$0.2 million and \$0.1 million, respectively.

Additionally, we own a 50% interest in Monterey del Llano, S.A. which owns a one-third interest in Monterey Group, S.A whose only asset is two and one-half acres of beachfront land adjacent to Monterey del Mar, S.A. / Mar y Tierra del Oeste, S.A., our hotel property. Monterey del Llano, S.A. and Monterey Group, S.A. are not operating entities and have no operating results. Therefore, we do not record an equity interest related to these entities.

In January 2008, Rancho Monterey, S.A., Monterey del Este, S.A., and Beautiful Hill, S.A. were sold to an unrelated party for \$12.2 million, of which the Company received \$2.5 million for its ownership interests in these entities. In addition, working capital advances to these entities and to Monterey Management, S.A., in the amount of \$0.6 million were repaid. As a result, we recorded a net gain on our investment in the first quarter of 2008 of \$1.3 million.

Our current holdings in Costa Rica, reflecting the sale of Rancho Monterey, S.A., Monterey del Este, S.A., and Beautiful Hill, S.A., consist of the hotel property, MDM/MTO and our interests in Monterey del Llano, S.A., and Monterey Group, S.A., for the partial ownership of a land concession. There are no operations related to Monterey del Llano, S.A., and Monterey Group, S.A., and therefore no equity participation is recorded.

SCB building

In 2003, we acquired a 50% equity interest in SCB Building, LLC (SCB), whose main asset is an office building in Orlando, Florida. The other 50% member had a \$2.0 million minority interest in SCB, which was contributed in the form of a \$4.0 million building subject to a \$2.0 million mortgage. Subsequent improvements of approximately \$9.6 million were made

Table of Contents

to the building and were financed primarily by long-term debt. In March 2006, we acquired the remaining 50% of SCB Building, LLC through the issuance of \$3.6 million of long-term debt. The only asset of SCB was a note receivable resulting from the sale of the building.

Southwest Florida investment

In 2004, we entered into a joint venture in which we acquired a 50% interest in Tranquility Bay of Southwest Florida, LLC which owns 74 acres of land zoned for residential development in Southwest Florida. The investment entity had no ongoing activity other than minimal costs of carrying the land. We recorded our share of these costs under the equity method of accounting.

In May 2007, we entered into a purchase and sale agreement to sell our 50% ownership to our partner in the joint venture, Gulf Gateway Enterprises, LLC, a Florida limited liability company, for the price of \$4.2 million. As a part of this agreement, we loaned the buyer an additional \$0.3 million to finance the planning and permitting of the property as a residential subdivision. We secured the total receivable of \$4.5 million with the buyer's ownership interest in Tranquility Bay of Southwest Florida, LLC as collateral and by receiving a mortgage interest in the land.

Our net book value for this investment is approximately \$2.8 million. We do not have any debt associated with this asset and we will not receive proceeds unless the buyer is able to secure the requisite financing. Accordingly, we will not record any gain on this asset sale until cash proceeds are realized.

On January 23, 2008, we filed a foreclosure lawsuit against Tranquility Bay, Gulf Gateway Enterprises, LLC, Anthony Scott Dunlap, and Dunlap Enterprises, LLC, parties to the mortgage and/or security agreement.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and the accompanying notes. Actual results could differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant estimates and assumptions used in the preparation of our consolidated financial statements and accompanying.

Revenue Recognition Policy

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

We recognize revenue in accordance with Staff Accounting Bulletin, No. 104, *Revenue Recognition* (SAB No. 104), and Emerging Issues Tasks Force No. 00-21, *Revenue Arrangements with Multiple Deliverables* (EITF No. 00-21). We recognize revenue when : (i) persuasive evidence of an arrangement exists, (ii) delivery of product has occurred or services have been rendered, (iii) the price to the buyer is fixed or determinable, and (iv) collectibility is reasonably assured. For product sales, these conditions are generally met upon shipment of the product to the customer or completion of the sale transaction. For training and service sales, these conditions are generally met upon presentation of the training seminar or delivery of the service.

Some of our training and consulting contracts contain multiple deliverable elements that include training along with other products and services. In accordance with EITF No. 00-21, sales arrangements with multiple deliverables are divided into separate units of accounting if the deliverables in the sales contract meet the following criteria: (i) the delivered training or product has value to the client on a standalone basis; (ii) there is objective and reliable evidence of the fair value of undelivered items; and (iii) delivery of any undelivered item is probable. The fair value of each element is generally determined by prices charged when sold separately. In certain arrangements, we offer these products bundled together at a discount. The discount is allocated pro-rata to each element based on the relative fair value of each element when fair value support exists for each element in the arrangements. The overall contract consideration is allocated among the separate units of accounting based upon their fair values, with the amount allocated to the delivered item being limited to the amount that is not contingent upon the delivery of additional items or meeting other specified performance conditions. If the fair value of all undelivered elements exists, but fair value does not exist for one or more delivered elements, the residual method is used. Under the residual method, the amount of consideration allocated to the delivered items equals the total consideration less the aggregate fair value of the undelivered items. Fair value of the undelivered items is based upon the normal pricing practice for the Company's existing training programs, consulting services, and other products, which are generally the prices of the items when sold separately.

Table of Contents

Each transaction is separated into its specific elements and revenue for each element is recognized according to the following policies:

Product	Recognition Policy
Seminars (Camps)	Deferred and recognized as the seminar or camp is provided
Home study (DVDs)	Recognized upon delivery to customer
Online courses	Deferred and recognized as service is delivered
Coaching and mentoring sessions	Deferred and recognized as service is provided
Data subscriptions and renewals	Deferred and recognized on a straight-line basis over the subscription period

In the normal course of business we recognize revenue based on the students attendance of the course, event, mentoring training, coaching session or delivery of the software, data or course materials.

When the likelihood of attendance by the student is remote, course breakage is calculated based on the historical percentage of (i) students who never attended a course, (ii) those students who never attended a course subsequent to expiration; and (iii) the highest number of days in which 95% of students who attended our courses did so subsequent to expiration.

We determine our course breakage rate based upon estimates developed from historical student attendance patterns. Typically we use a three year period to estimate the student s attendance patterns. Based on the historical information, we are able to determine the likelihood of an expired course remaining unattended. We have determined that the company does not have a legal obligation to report the value of expired courses to the relevant taxing jurisdictions.

To the extent new businesses do not have adequate historical data, subsequent to course expiration, we recognize revenue based upon course attendance. Only at such time that we have developed verifiable and objective data from our historical data subsequent to course expiration will we apply course breakage based on the methodology described above.

Deferred revenue occurs from seminars, on-line courses, coaching sessions and website subscriptions and renewals in which payment is received before the service has been performed. Deferred revenue is recognized into revenue over the period that the services are performed.

Long-lived assets and Intangibles

Periodically, we review our long-lived assets for impairment. We record an impairment loss when indications of impairment are present and undiscounted cash flows estimated to be generated by those assets are less than assets' carrying value. We evaluate the remaining life and recoverability of long-lived assets, including patents and trademarks, whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. At such time, we estimate the future cash flows expected from the use of the assets and their eventual dispositions and if lower than the carrying amounts, adjust the carrying amount of the assets to their estimated fair value. Because of our changing business conditions including current and projected level of income, business trends, prospects and market conditions, our estimates of cash flows to be generated from our operations could change materially, resulting in the need to record additional impairment charges. As a result of our analysis for the years ended December 31, 2007 and 2006, no impairment was recognized for 2007, however in 2006 we recorded an impairment for goodwill, property and equipment, inventory and intangible assets associated with our *Star Trader®* and *Cash Flow Generator®* products.

Stock-Based Compensation

Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123(R), *Share-based Payment* (SFAS No. 123(R)), using the modified prospective approach. Under this transition method, stock-based compensation expense for 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of January 1, 2006, based on the grant-date fair value estimated in accordance with the grant-date fair value estimated in accordance with the provisions of SFAS No.123. Stock-based compensation expense for all stock-based compensation awards granted after January 2006 is based on the grant-date fair value estimate in accordance with the provisions of SFAS No. 123(R). We recognize these compensation costs on a straight-line basis over the requisite service period of the award, which is generally the option vesting term of both 25% upon grant and 25% per year over the next three years or immediately.

Valuations are based on highly subjective assumptions about the future, including stock price volatility and exercise patterns. The fair value of share-based payment awards is estimated using the Black-Scholes option pricing model. Expected volatilities are based on the historical volatility of our stock. We use historical data to estimate option exercise and employee terminations. The expected term of options granted represents the period of time that options granted are expected to be outstanding. The risk-free rate for the periods within the expected life of the option is based on the U.S. Treasury risk free rate.

Prior to the adoption of SFAS No. 123 (R), we accounted for stock-based compensation in accordance with Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25).

Income Taxes

We account for income taxes using the asset and liability method in accordance with SFAS No. 109, *Accounting for Income Taxes* (SFAS No. 109). Accounting for income taxes requires us to estimate our income taxes in each jurisdiction in which we operate. Due to differences in the recognition of items included in income for accounting and tax purposes, temporary differences arise which are recorded as deferred tax assets or liabilities. Deferred tax assets and liabilities are measured using enacted laws and tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Should any amounts be determined not to be recoverable, or

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

assumptions change, we would be required to take a charge to establish a valuation allowance against such deferred tax assets. At December 31, 2007 and 2006, a valuation allowance reduced net tax assets to zero.

Accounting for Litigation and Settlements

We are involved in various legal proceedings. Due to their nature, such legal proceedings involve inherent uncertainties including, but not limited to, court rulings, negotiations between affected parties, and the possibility of governmental intervention. Management assesses the probability of loss for such contingencies and accrues a liability and/or discloses the relevant circumstances as appropriate. While certain of these matters involve substantial amounts, management believes, based on available information, that the ultimate resolution of such legal proceedings will not have a material adverse effect on our financial condition or results of operations.

The critical accounting policies discussed above are not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally

accepted in the United States, with no need for management's judgment in their application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result.

Recently Issued Accounting Standards

For a discussion of recently issued accounting pronouncements, see Note 2 - *Significant Accounting Policies and Related Information, Recently issued accounting standards*, in the Notes to the Consolidated Financial Statements.

Off-Balance Sheet Arrangements

We have not entered into any transaction, agreement or other contractual arrangement with an entity unconsolidated under which it has: (i) a retained or contingent interest in assets transferred to the unconsolidated entity or similar arrangement that serves as credit; (ii) liquidity or market risk support to such entity for such assets; (iii) an obligation, including a contingent obligation, under a contract that would be accounted for as a derivative instrument; or (iv) an obligation, including a contingent obligation, arising out of a variable interest in an unconsolidated entity that is held by, and material to, the Company where such entity provides financing, liquidity, market risk or credit risk support to, or engages in leasing, hedging, or research and development services with the Company.

Impact of Inflation

Inflation did not materially affect our business during the last several years.

Notes to Consolidated Financial Statements

Note 1 Organization and Operations

Whitney Information Network, Inc. and its consolidated subsidiaries (collectively referred to as the Company we, us, or our) offers a wide variety of experiential-based, investor education classes in two primary fields - real estate investor education and financial products, as well as classes in ancillary fields like asset protection, basic business strategies and cash management, among other courses taught in the United States, the United Kingdom and Canada.

We incorporated in Colorado in 1996 under the name Gimmel Enterprises, Inc. In 1998, we acquired all of the outstanding common stock of Whitney Education Group, Inc., a Florida company organized in 1992, and changed our name to WIN Systems International, Inc. In 1999, we changed our name to Whitney Information Network, Inc.

Note 2 - Significant Accounting Policies and Related Information

Principles of consolidation

The Consolidated Financial Statements include the accounts and balances of Whitney Information Network, Inc. and its wholly-owned and majority-owned subsidiaries. All significant intercompany balances and transactions have been eliminated.

Use of estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States (GAAP) requires management to make certain estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Previous restatement Form 10-K/A for the year ended December 31, 2006

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

As reflected in our Form 10-K/A previously filed on January 15, 2009, our Consolidated Financial Statements and other financial information were restated for the years ended December 31, 2006, 2005, 2004, 2003, and 2002 and for each of the quarters in the periods ended 2006 and 2005. That restatement had minimal effect on our results of operations, cash flows and financial position for the respective restated periods. Certain of our material internal control weaknesses resulted in inaccurate financial reporting and restatements to our previously filed Consolidated Financial Statements from 2001 through 2006. The restated Consolidated Financial Statements reflect the following:

In December 2006, the Company's Board of Directors established a Special Committee of independent directors to conduct an internal investigation of the activities that are the subject of the government investigations and the Special Committee engaged the law firm of Wilmer Cutler Pickering Hale and Dorr LLP (WilmerHale) to assist with these investigations. The matters under investigation included (i) the claimed efficacy of the Company's stock market education programs, and (ii) the Company's acquisition of certain other companies. Members of our management, including Mr. Whitney, were interviewed by WilmerHale, consistent with the Company's continued cooperation with the investigations by the SEC and Department of Justice (DOJ). The Special Committee reported its findings and made recommendations to the Board of Directors, as previously disclosed in the Form 10-K/A for the year ended December 31, 2006 and on the Company's Current Report on Form 8-K, filed with the SEC on November 9, 2007 and such recommendations have either been implemented or are being implemented.

With respect to the Company's acquisitions of certain other companies, among other findings, based upon the WilmerHale investigation, the Special Committee reported to the Board of Directors in September 2007 and delivered its final recommendations in November 2007, and reported such recommendations to the SEC in November 2007. The Special Committee found that certain of the Company's prior disclosures were incorrect.. Such disclosures were corrected in the Form 10-K/A filed for the fiscal year ended December 31, 2006. The certain prior disclosures that were incorrect are as follows:

The Company previously disclosed that (1) in July 2003 the Company acquired Whitney Leadership Group, Inc. (Whitney Leadership) from Mr. Whitney, our former Chairman and Chief Executive Officer and Ingrid Whitney for \$1.2 million; (2) at

Table of Contents

the time, Whitney Leadership held all of the copyright and intellectual property rights associated with its educational materials and licensed those rights to the Company for payments; and (3) the Company entered into the acquisition agreement in order to eliminate those payments and to gain control of intellectual property rights that form the core of the Company's business. The Special Committee found that the Company did not disclose a provision in a document denominated as an exhibit to the agreement that afforded Mr. Whitney the right to terminate the Company's rights to the use of his name and likeness under certain circumstances, including if Mr. Whitney were no longer employed with the Company or no longer owned a controlling voting interest in the Company. The Special Committee found that the version of the exhibit containing this provision was created in May 2004. Mr. Whitney indicated that he believed that the subsequently created exhibit memorialized a prior oral agreement. In any event, Mr. Whitney never exercised his right to terminate the Company's rights and at the request of the Special Committee, Mr. Whitney voided that provision, effective January 7, 2008.

The Company previously disclosed that as a result of a series of transactions among Russell Whitney, Ingrid Whitney and John Kane (1) in July 2003 the Company purchased Equity Corp. Holdings, Inc. (Equity Corp.) from John F. Kane; (2) as part of the transaction, the Company agreed to assume and pay a \$4.75 million promissory note issued to Mr. Whitney and his wife by Equity Corp. in June 2002; and (3) Equity Corp. incurred this obligation when it elected to redeem all of Russell and Ingrid Whitney's ownership in Equity Corp., 90% of the outstanding stock, as of June 1, 2002. The Special Committee concluded that the redemption did not occur, and no note was issued by Equity Corp. to Russell and Ingrid Whitney, in June 2002. The Special Committee found that the redemption of Russell and Ingrid Whitney's Equity Corp. shares and Equity Corp.'s incurring of this \$4.75 million obligation in fact closed on May 31, 2003. The Special Committee concluded that Equity Corp.'s redemption of Russell and Ingrid Whitney's Equity Corp. shares was not separate from the Company's acquisition of Mr. Kane's Equity Corp. shares, which resulted in a change in the accounting method for the acquisition of Equity Corp. from the acquisition method of accounting for a business combination to the combination of entities under common control, similar to a pooling of interests. As previously reported by the Company in its Current Report on Form 8-K dated November 3, 2007 and filed with the SEC on November 8, 2007, the Board of Directors has determined that, with respect to the acquisition of Equity Corp., the Company incorrectly applied the acquisition method of accounting for a business combination and instead should have accounted for the transaction as a combination of entities under common control, similar to a pooling of interests. The Company previously disclosed that Mr. Kane received \$62,500 in cash, \$62,500 in a note and 62,500 shares valued at \$125,000 for the purchase of his interest in Equity Corp. However, the 62,500 shares were revalued at \$312,500 using the average of the quoted market prices a few days before and after the acquisition.

As previously reported by the Company in a Current Report on Form 8-K dated November 9, 2007, the Company did not obtain a fairness opinion regarding the acquisition price of Equity Corp. and Whitney Leadership, but did obtain a business valuation report. A committee of independent members of the Board of Directors is reviewing the Equity Corp. and Whitney Leadership transactions regarding compliance with applicable governance and related-party requirements.

The Company previously disclosed that (1) the Company purchased all of the outstanding common stock of Precision Software Services, Inc. (Precision) from Mr. Whitney and Mr. Kane, who subsequently became an executive officer of the Company, in exchange for an aggregate of approximately 333,000 shares of common stock valued at \$500,000 and \$250,000 in notes; and (2) Mr. Whitney received \$125,000 in notes payable. The Special Committee concluded that the Company did not disclose that (1) the \$250,000 in notes payable (of which Mr. Whitney and Mr. Kane each received \$125,000) were not for the purchase of Precision, but rather the purchase of software that Mr. Whitney and Mr. Kane had licensed to Precision; and (2) the Company also paid \$250,000 in cash (of which Mr. Whitney and Mr. Kane each received \$125,000) for that software. In researching the accounting treatment of this transaction, the Company discovered an error in the depreciation of the related intangible asset, as well as an inadvertent impairment in 2006. The asset was incorrectly named in the general ledger and, as a result, included in the impairment expense associated with a discontinued brand.

In addition to the disclosures related to specific transactions, we reviewed our related party transactions. The additional disclosures concerning related party transactions in Costa Rica are included in Note 5 - *Certain Relationships and Related Transactions*.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

In addition to the findings of the Special Committee and certain other conforming changes, we determined that the following errors required correction:

- Certain intangible assets and property and equipment were assigned incorrect depreciable lives
- Inventory related to Star Trader® had not been recorded as impaired at December 31, 2006
- Various accounts payable invoices were recorded in the incorrect period

Table of Contents

On January 15, 2009, the Company filed Amendment No. 1 to its Annual Report on Form 10-K for the fiscal year ended December 31, 2006, to amend and restate the financial statements and other financial information for the years 2006, 2005 and 2004, and financial information for the years 2003 and 2002, and for each of the quarters in the years 2005 and 2006. The restatement had minimal effect on the Company's cash flows, liquidity or on our financial position for the respective restated periods.

Financial instruments

Financial instruments consist primarily of cash and cash equivalents, short-term investments, receivables, deferred seminar expense, accounts payable, accrued expenses, deferred educational revenues, and notes payable. SFAS No. 107, *Disclosure about Fair Value of Financial Instruments* (SFAS No. 107), requires the disclosure of the fair value of financial instruments, including assets and liabilities recognized on the balance sheets. Management estimates the aggregate fair value of the other financial instruments recognized on the balance sheet date (including receivables, payables and accrued liabilities) approximates their fair value; as such financial instruments are short-term in nature, bear interest at current market rates or are subject to frequent repricing.

Cash and cash equivalents

We consider all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. We continually monitor and evaluate our investment positions and the creditworthiness of the financial institutions with which we invest and maintain deposit accounts. Our joint venture agreement with Rich Global, LLC requires us to segregate our cash balances between (i) funds received from RDE students and; (ii) funds received from the sale of our Proprietary Brands. The Company is restricted from using cash generated from the RDE Brand to pay for expenses incurred by our non-RDE Brands, except in the payment of license and management fees owed to the Company in accordance with our agreement with Rich Global, LLC, as reimbursement for the fulfillment of advanced courses purchased by RDE students and partner distributions paid when cash balances exceed the cost to fulfill outstanding student contracts.

The amounts included in the Consolidated Financial Statements are stated at cost which approximates fair value at the balance sheet date. The Company maintains deposits in banks which may exceed the federal deposit insurance available. Management believes the potential risk of loss on these accounts to be minimal.

Restricted cash

The Company uses merchant account vendors to process credit card transactions. Under the terms of these agreements, the merchant account vendor has the right to withhold credit card funds to cover chargebacks in the event the Company is unable to honor its commitments. Additionally, the Company is required to maintain letters of credit in certain of the states in which it operates. At December 31, 2007, we had \$50,000 in a letter of credit required by the state of North Dakota. At December 31, 2006, we had \$1.6 million in letters of credit outstanding with various states and agencies. We consider restricted cash as a current asset in the Consolidated Balance Sheet as credit card merchants typically hold such reserve funds up to one year. The total amount of restricted cash as of December 31, 2007 and 2006 was \$8.4 million and \$7.5 million, respectively.

Receivables from clearing brokers

Receivables from clearing brokers consist of cash deposits and receivables from revenue earned, net of expenses incurred, from customer transactions conducted through the clearing brokers.

Inventory

Inventory consists primarily of books, videos and training materials held for sale to students enrolled in our educational programs. Inventories are stated at the lower of cost using the first-in, first-out method or market.

Table of Contents

Property and equipment, net

Property and equipment is stated at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets as presented in the following table:

Buildings	40 years
Furniture fixtures and equipment	7 years
Other assets	5 years
Purchased software	3 years

Depreciation expense was approximately \$1.6 million and \$1.0 million for the years ended December 31, 2007 and 2006, respectively. See Note 7 - *Property and Equipment*, for further discussion.

Intangible assets and goodwill

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets* (SFAS No. 144), we evaluate the carrying amount of our long-lived assets such as property and equipment, and definite lived intangible assets subject to amortization for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets held and used is measured by the comparison of its carrying amount with the future net cash flows the asset is expected to generate. We look primarily to the undiscounted future cash flows in the assessment of whether or not long-lived assets have been impaired. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset exceeds the estimated fair value of the assets.

Intangible assets include customer lists and trademarks and are recorded at cost. Customer lists and trademarks are being amortized over their estimated useful lives of three and 15 years, respectively. At December 31, 2007 and 2006, we performed impairment testing for our intangible assets. Based on our evaluations, no impairments were recorded in 2007. For the year ended December 31, 2006, we recorded an impairment expense in the amount of \$3.6 million. See Note 3 *Impairment of Assets and Special Items*.

Advertising, sales expense and prepaid advertising

We expense advertising and sales costs as incurred. Advertising and sales expenses as reported on the Consolidated Statement of Operations were \$61.3 million and \$64.4 million for the years ended December 31, 2007 and 2006, respectively. Advertising costs, training room rentals and direct sales expenses are expensed as incurred. Advertising paid in advance is recorded as prepaid until such time as the advertisement is published.

Deferred course expenses

We defer commissions and fees paid to our speakers until such time the revenue is earned. Our speakers, who are all independent contractors, earn commissions on the cash receipts received at our educational events and are paid approximately 45 days after the educational event. The deferred course expenses are tracked individually by student and are recognized in the Consolidated Statement of Operations as the student attends the course, at the same time the associated revenues are recognized.

We capitalize the commissions and fees paid to our speakers consistent with SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases - an amendment of FASB Statements No. 13, 60, and 65 and a rescission of FASB Statement No. 17*, Technical Bulletin No. 90-1, *Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts* and the SEC's Staff Accounting Bulletin No. 104, *Revenue Recognition*.

Income taxes

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48 (FIN No. 48), *Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109*, on January 1, 2007. FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements in accordance with Statement of Financial Accounting Standards 109, *Accounting for Income Taxes*, and prescribes a recognition threshold of more likely than not and a measurement process for financial statement recognition and measurement of a tax position taken or

Table of Contents

expected to be taken in a tax return. In making this assessment, a company must determine whether it is more likely than not that a tax position will sustained upon examination, based solely on the technical merits of the position and must assume that the tax position will be examined by taxing authorities. FIN No. 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosures and transition.

The provision for income taxes is based on the consolidated United States entities and the individual foreign companies' estimated tax rates for the applicable year. Our income tax provision has been determined using the asset and liability approach of accounting for income tax. Under this approach, deferred income taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. The income tax provision represents income taxes paid or payable for the current year plus the change in deferred taxes during the year. Deferred income taxes result from differences between the financial and the tax bases of our assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. See Note 12 - *Income Taxes*.

Foreign currency translation

We account for foreign currency translation in accordance with SFAS No. 52, *Foreign Currency Translation*. The functional currencies of the Company's foreign operations are the reported local currencies. Translation adjustments result from translating our foreign subsidiaries' financial statements into United States dollars. The balance sheet accounts of our foreign subsidiaries are translated into United States dollars using the exchange rate in effect at the balance sheet date. Revenues and expenses are translated into U.S. dollars using average exchange rates during the period. The resulting translation gains or losses are recorded as a component of accumulated other comprehensive income in shareholders equity. Foreign currency transaction losses and (gains) totaled approximately \$19,000 and \$(187,000) during 2007 and 2006, respectively, and were reported on our Consolidated Statement of Operations as a component of other income (expense).

Income (loss) per share

Income (loss) per share is computed by applying the provisions of SFAS No. 128, *Earnings Per Share*. All dilutive potential common shares in 2007 and 2006 were included in the diluted earnings per share calculation. All dilutive potential common shares in 2007 had an anti-dilutive effect on diluted per share amounts and therefore were excluded in determining net loss per share. At December 31, 2007, we had 1,218,400 stock options and 890,719 warrants outstanding. A total of 52,826 potentially dilutive securities could be dilutive to future earnings. At December 31, 2006 we had 1,253,500 stock options and 890,719 warrants outstanding. A total of 457,639 potentially diluted securities could be dilutive to earnings. See Note 10 - *Stock Options* and Note 4 - *Offering*.

Revenue recognition

We recognize revenue in accordance with Staff Accounting Bulletin, No. 104, *Revenue Recognition* (SAB No. 104), and Emerging Issues Tasks Force No. 00-21, *Revenue Arrangements with Multiple Deliverables* (EITF No. 00-21). We recognize revenue when: (i) persuasive evidence of an arrangement exists, (ii) delivery of product has occurred or services have been rendered, (iii) the price to the buyer is fixed or determinable, and (iv) collectibility is reasonable assured. For product sales, these conditions are generally met upon shipment of the product to the customer or completion of the sale transaction. For training and service sales, these conditions are generally met upon presentation of the training seminar

or delivery of the service.

Some of our training and consulting contracts contain multiple deliverable elements that include training along with other products and services. In accordance with EITF No. 00-21, sales arrangements with multiple deliverables are divided into separate units of accounting if the deliverables in the sales contract meet the following criteria: (i) the delivered training or product has value to the client on a standalone basis; (ii) there is objective and reliable evidence of the fair value of undelivered items; and (iii) delivery of any undelivered item is probable. The fair value of each element is generally determined by prices charged when sold separately. In certain arrangements, we offer these products bundled together at a discount. The discount is allocated on a pro-rata basis to each element based on the relative fair value of each element when fair value support exists for each element in the arrangements. The overall contract consideration is allocated among the separate units of accounting based upon their fair values, with the amount allocated to the delivered item being limited to the amount that is not contingent upon the delivery of additional items or meeting other specified performance conditions. If the fair value of all undelivered elements exists, but fair value does not exist for one or more delivered elements, the residual method is used. Under the residual method, the amount of consideration allocated to the delivered items equals the total consideration less the aggregate fair value of the undelivered items. Fair value of the undelivered items is based upon the normal pricing practice for the Company's existing training programs, consulting services, and other products, which are generally the prices of the items when sold separately.

Table of Contents

Each transaction is separated into its specific elements and revenue for each element is recognized according to the following policies:

Product	Recognition Policy
Seminars (camps)	Deferred and recognized as the seminar or camp is provided
Home study (DVDs)	Recognized upon delivery to customer
Online courses	Deferred and recognized as service is delivered
Coaching and mentoring sessions	Deferred and recognized as service is provided
Data subscriptions and renewals	Deferred and recognized on a straight-line basis over the subscription period

In the normal course of business, we recognize revenue based on the students' attendance of the course, event, mentoring training, coaching session or delivery of the software, data or course materials.

When the likelihood of attendance by the student is remote, course breakage is calculated on the historical percentage of (i) students who never attended a course; (ii) those students who never attended a course subsequent to expiration; and (iii) the highest number of days in which 95% of students who attended our courses did so subsequent to expiration.

We determine our course breakage rate based upon estimates developed from historical student attendance patterns. Typically, we use a three year period to estimate student attendance patterns. Based on the historical information, we are able to determine the likelihood of an expired course remaining unattended. We have determined that the Company does not have a legal obligation to remit the value of expired courses to the relevant taxing jurisdictions.

To the extent new businesses do not have adequate historical data, subsequent to course expiration, we recognize revenue based upon course attendance. Only at such time that we have developed verifiable and objective data from our historical data subsequent to course expiration will we apply course breakage based on the methodology described above.

Deferred revenue occurs from seminars, online courses, coaching sessions and website subscriptions and renewals in which payment is received before the service has been performed. Deferred revenue is recognized into revenue over the period that the services are performed.

Stock options and stock-based compensation

Our 1998 Stock Option Plan (1998 Plan) provides for the granting of stock options to key employees and members of the Board of Directors. Vesting under the 1998 Plan is as follows: 25% of the options vest on the grant date, an additional 25% vests on the completion of the first year of service, another 25% vests on the completion of the second year of service, and 100% of the shares vest at the end of the third year of service. All options expire ten years from the date of grant.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

Effective January 1, 2006, we adopted SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS No. 123R), which requires us to measure the cost of employee services received in exchange for all equity awards granted including stock options based on the fair market value of the award as of the grant date. SFAS No. 123R supersedes Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS No. 123) and Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25). We adopted SFAS No. 123R using the modified prospective application method of adoption which requires us to record compensation cost related to unvested stock awards as of December 31, 2005, by recognizing the unamortized grant date fair value of these awards over the remaining service periods of those awards with no change in historical reported earnings. Awards granted after December 31, 2005, are valued at fair value in accordance with the provisions of SFAS No. 123R and recognized on the same basis as the vesting period. We estimated forfeiture rates for 2007 and 2006 based on historical experience.

The impact of adoption of SFAS No. 123R is that future share-based payment awards will be recorded as compensation expense over their requisite service period, and such expense is not expected to be material to future earnings. See Note 10 *Stock Options*.

Comprehensive (loss) income

Comprehensive (loss) income includes changes to equity accounts that were not the result of transactions with shareholders. Comprehensive (loss) income is comprised of net income or loss and other comprehensive income and loss items. Our comprehensive income and losses generally consist of changes in the cumulative foreign currency translation adjustment.

Reclassifications

Certain reclassifications have been made in the 2006 Consolidated Financial Statements to conform to the 2007 presentation.

Recently issued accounting standards

In February 2008, the Financial Accounting Standards Board (FASB) issued Financial Staff Position No. 157-1 (FSP No. 157-1) amending SFAS No. 157 as defined below to exclude SFAS No. 13, *Accounting for Leases* (SFAS No. 13), and other accounting pronouncements that address fair value measurements for purposes of lease classification or measurement under SFAS No. 13. This scope exception does not apply to assets acquired and liabilities assumed in a business combination that are required to be measured at fair value under SFAS No. 141 or SFAS No. 141(R) regardless of whether those assets and liabilities are related to leases. FSP No.157-1 will be effective upon the initial adoption of SFAS No.157. See the discussion of the effective date of SFAS No. 157 below. We do not expect the adoption of this statement to have a material effect on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS No 160). SFAS No. 160 establishes accounting and reporting standards for a parent company's noncontrolling, or minority, interests in its subsidiaries. SFAS No.160 also provides accounting and reporting standards for changes in a parent's ownership interest of a noncontrolling interest as well as deconsolidation procedures. This statement aligns the reporting of noncontrolling interests in subsidiaries with the requirements in International Accounting Standards 27 and is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years. We do not expect the adoption of this statement to have a material effect on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 141, *Business Combinations - Revised* (SFAS No. 141R). SFAS No. 141R changes the accounting for business combinations including the measurement of acquirer shares issued in consideration for a business combination, the recognition of contingent consideration, the accounting for pre-acquisition gain and loss contingencies, the recognition of capitalized in-process research and development, the accounting for acquisition-related restructuring cost accruals, the treatment of acquisition related transaction costs and the recognition of changes in the acquirer's income tax valuation allowance. SFAS No. 141R is effective for fiscal years beginning after December 15, 2008, with early adoption prohibited. The Company will be required to adopt SFAS No. 141R in the first quarter of fiscal year 2009. We do not expect the adoption of this statement to have a material effect on our consolidated financial position, results of operations or cash flows.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

In February 2007, the FASB issued SFAS No.159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value. SFAS No.159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to provide additional information that will help investors and other financial statement users to more easily understand the effect of a company's choice to use fair value on its earnings. Additionally, SFAS No.159 requires entities to display the fair value of those assets and liabilities for which a company has chosen to use fair value on the face of the balance sheet. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. We do not expect that the adoption of SFAS No. 159 will have a material impact on our financial position, results of operations or cash flows.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which establishes a framework for measuring the fair value of assets and liabilities in generally accepted accounting principles (GAAP) and expands disclosures about fair value measurements. The FASB has issued a proposed interpretation that would defer the implementation of SFAS No. 157 for non-financial assets and liabilities until fiscal years beginning after November 15, 2008. The remaining provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We do not expect that the adoption of SFAS No. 157 will have a material impact on our financial position, results of operations or cash flows.

Note 3 - Impairment of Assets and Special Items

Impairments of goodwill, other intangible assets, property and equipment

We performed impairment testing of our property and equipment in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-lived Assets*, and of our goodwill and intangible assets in accordance with SFAS No. 142, *Goodwill and Intangible Assets*.

No impairment of assets or intangible assets were recorded for the year ended 2007 as a result of our testing.

At year end 2006, we concluded that the *Star Trader*® brand in our Proprietary Brands financial markets education segment and the *Cash Flow Generator*® brand in our Proprietary Brands real estate education segment were impaired. During 2006, both brands generated negative cash flow and declining student enrollment. We have stopped or suspended marketing of these brands and subsequently concluded both were permanently impaired. In addition, we analyzed forecasted future undiscounted cash flows and determined the assets had no value. This resulted in a \$2.7 million goodwill and intangible asset impairment charge: \$2.2 million for the *Star Trader*® brand and \$0.5 million for the *Cash Flow Generator*® brand along with an impairment charge of approximately \$0.1 million for related inventory.

During the fourth quarter of 2006, the Board of Directors approved the sale of our land and office building in the United Kingdom. We recorded an impairment loss of \$0.4 million in connection with our United Kingdom office building to reduce the property to its estimated net realizable value as of December 31, 2006. During the second quarter of 2007, we sold the land and building in the United Kingdom for net proceeds of approximately \$3.7 million.

During the fourth quarter of 2006, the Board of Directors approved the sale of our aircraft. This asset is included in our corporate segment. We recorded an impairment loss of \$0.4 million to reduce the book value of the aircraft to its estimated net realizable value as of December 31, 2006. During the second quarter of 2007, we sold the aircraft, for net proceeds of approximately \$1.3 million.

The following table shows the impairment expense by asset type for 2006 (in thousands) (restated):

Impairment expense related to goodwill	\$	2,000
Impairment expense related to intangible assets (restated)		687
Impairment expense related to property and equipment		756
Impairment expense related to inventory (restated)		147
Total	\$	3,590

Special items

The following table shows the special item by expense type for the years ended 2007 and 2006 (in thousands):

	2007	December 31,	2006
Professional fees associated with the SEC and DOJ investigations and the resulting internal investigation	\$	10,460	\$ 651
Liquidated damages provision of the registration rights agreement			780
Withdrawal of Edutrades, Inc. registration statement and Form S-1			899
Executive severance		1,950	
	\$	12,410	\$ 2,330

Liquidated damages provision in registration rights agreement

In connection with the Offering, we entered into a registration rights agreement which provided that we use our best efforts to file a registration statement for the resale of these shares to be declared effective by April 11, 2006, and required us to maintain the effectiveness of the registration statement for a one year period subsequent to the effective date. The registration rights agreement required the payment of liquidated damages to the investors of approximately \$4,500 per day (which represents about 1% per month of the proceeds) until the registration statement is declared effective or effectiveness is

maintained. The registration statement was declared effective on November 13, 2006, and expired during 2007. Liquidated damages through November 13, 2006, were \$1.0 million. We had previously accrued \$0.2 million for the year ended December 31, 2005, resulting in a \$0.8 million expense for the year ended December 31, 2006. For further discussion see Note 4 *Offering*.

Note 4 Offering

In December 2005, 3,000,000 shares of common stock and common stock purchase warrants representing 1,950,000 shares of common stock were sold. We sold 1,750,000 shares of common stock and issued warrants for 875,000 shares. Our former Chairman and Chief Executive Officer sold 1,250,000 shares and warrants for 625,000 shares. In both cases, each warrant allows one share to be purchased for \$4.50. We received \$7.9 million in proceeds and netted approximately \$6.8 million after cash expenses, but before 450,000 warrants issued to the placement agent and \$1.0 million in liquidated damages were paid pursuant to the registration rights agreement.

The common stock and warrants were issued as a \$13.5 million private placement in which 3,000,000 units of our securities were issued to a group of 17 non-affiliated accredited investors. In addition, a unit warrant was issued to our placement agent exercisable to purchase 300,000 shares of common stock at \$4.50 per share and 150,000 shares of common stock at \$6.00 per share. Including the units to our placement agent, we registered a total of 3,000,000 shares of common stock, plus 1,950,000 units underlying common stock purchase warrants. We collected \$5.6 million of proceeds on behalf of our former Chairman and Chief Executive Officer, who was a selling shareholder in the offering. At December 31, 2005, we recorded a liability to our former Chairman and Chief Executive Officer of \$5.1 million, net of \$0.5 million in offering costs, on the accompanying Consolidated Balance Sheets, which was paid in the first quarter of 2006.

The following table summarizes the activity for the warrants outstanding (in thousands except exercise price data);

	Number of warrants	Weighted average exercise price
Outstanding as of December 31, 2005	1,337	\$ 6.12
Granted	41	4.60
Forfeited		
Exercised	(488)	6.00
Outstanding as of December 31, 2006	890	\$ 6.07
Granted		
Forfeited		
Exercised		
Outstanding as of December 31, 2007	890	\$ 6.07

In 2006, we issued 41,667 warrants at an exercise price of \$4.60. In 2005, we sold 1,750,000 shares of common stock and issued warrants for 875,000 shares. Our former Chairman and Chief Executive Officer sold 1,250,000 shares of common stock and warrants for 625,000 shares. In addition, in 2005, we issued a unit warrant to our placement agent exercisable to purchase 300,000 units at \$4.50 per share (a unit is comprised of one share of stock plus a warrant for one-half share). There were no warrants exercised during 2007, as the time period for maintaining the effectiveness of the registration statement expired during 2007; the Company did not file a supplement or amendment to the registration statement.

No warrants were exercised during the year ended December 31, 2007.

Note 5 - Certain Relationships and Related Transactions

We lease approximately 2,200 square feet of training facilities at 1611 East Cape Coral Parkway, approximately 9,000 square feet of space at 1625 East Cape Coral Parkway which is used for offices and shipping, and 4,802 square feet at 1630 Southeast 47th Terrace which we use as a training facility, all in Cape Coral, Florida from Cape Promenade Trust which is for the benefit of our former Chairman and Chief Executive Officer, Mr. Whitney and Ingrid Whitney. The leases are for three years and began on March 1, 2003, March 1, 2003, and June 1, 2004, respectively. The monthly rentals are \$1,943, \$13,913 and \$7,238 in 2007, respectively. We terminated the 1611 East Cape Coral Parkway and 1630 Southeast 47th Terrace leases on September 17, 2008. We notified Cape Promenade Trust on November 21, 2008 we are terminating the 1625 East Cape Coral Parkway lease effective December 31, 2008. See Note 17 - *Subsequent Events*.

Gulfstream Development Group, LLC

For the years ended December 31, 2003 through 2007, the Company had an agreement with Gulfstream Development Group, LLC (Gulfstream) in which we were compensated for appointing Gulfstream as the exclusive offeror of homes for students of our advanced real estate courses. Students were offered the opportunity to purchase residential lots in Southwest Florida from Gulfstream, other lot owners, or Mr. Whitney. Gulfstream constructs homes on lots owned by our students. Under a Referral Services Agreement with Gulfstream, Gulfstream paid the Company a flat fee of \$100,000 for all referrals that occurred before January 1, 2003, and agreed to pay the Company \$1,000 for each student that the Company referred to Gulfstream who purchased and closed on a home built by Gulfstream after January 1, 2003. During 2007, the amount of the Company's referral fee was increased to \$2,500, with \$500 of that being paid to Company trainers who assisted in the referral. Under this arrangement, the Company received \$0.3 million and \$0.1 million from Gulfstream in the years ended December 31, 2006 and 2007 respectively.

During the years ended December 31, 2006 and 2007, Mr. Whitney and Ingrid Whitney jointly held an indirect 25% beneficial ownership interest in Gulfstream and received 15% of distributions of net cash flow from Gulfstream. Mr. and Mrs. Whitney hold their investment in Gulfstream through Rec One Inc., an entity owned jointly by them. Pursuant to an agreement between Mr. and Mrs. Whitney, as of December 31, 2007, Mr. Whitney holds an indirect 12.5% beneficial ownership interest in Gulfstream and is entitled to 7.5% of distributions of net cash flow from Gulfstream.

During the years ended December 31, 2004 through 2007, Gulfstream had an informal arrangement with Mr. Whitney pursuant to which Gulfstream paid Mr. Whitney a salary and paid Rec One transaction-based compensation for Mr. Whitney's services, including marketing and construction contract administration in connection with home sales to the Company's students and other persons, as well as for credit support provided to Gulfstream by Mr. Whitney. The transaction-based compensation consisted of payments of \$2,500 or \$4,000 to Rec One by Gulfstream upon purchases of Gulfstream homes by our students.

During the years ended December 31, 2003, 2004 and 2005, the Company made payments to Gulfstream of approximately \$0.1 million, \$0.7 million and \$0.2 million respectively, for construction services on our corporate headquarters building. The construction services provided in 2003 were for leasehold improvements and in 2004 services were provided to repair the extensive damage to our corporate headquarters as a result of Hurricane Charley.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

The following table sets forth the salary and transaction-based compensation that Mr. Whitney received from Gulfstream during the years ended December 31, 2003, 2004, 2005, 2006, and 2007, and is based upon information provided to Mr. Whitney by Gulfstream:

	2003	2004	2005	2006	2007	Total
Salary paid to R. Whitney by Gulfstream	\$	\$ 120,000	\$ 120,000	\$ 120,000	\$ 120,000	\$ 480,000
Transaction-based compensation paid to Rec One by Gulfstream	563,220	41,154	522,315	1,251,105	369,763	2,747,557
Management Fees paid to Rec One by Gulfstream (1)		300,000	350,000		175,000	825,000
Distributions from Gulfstream to Rec One (2)(3)			1,752,976	1,543,662	1,928,086	5,224,724
Total	\$ 563,220	\$ 461,154	\$ 2,745,291	\$ 2,914,767	\$ 2,592,849	\$ 9,277,281

- (1) Total management fees shown above reflect amounts paid to Rec One and shared by Mr. Whitney and Ms. Whitney on a 50/50 basis.
- (2) Total distributions include portions paid to Rec One and shared by Mr. Whitney and Ms. Whitney on a 50/50 basis.
- (3) Rec One was required to fund 25% of capital calls from Gulfstream. The amounts shown above do not reflect these capital calls which, including the portions for both Mr. Whitney and Ms. Whitney, were \$202,793 in 2005 and \$486,530 in 2006.

A committee of independent members of the Board of Directors is reviewing the Gulfstream transactions regarding compliance with the applicable governance and related party transaction requirements.

Costa Rica

As of December 31, 2007, we had investments in several Costa Rican and Panamanian entities. In addition, two former executives, our Chairman and Chief Executive Officer, Mr. Whitney, and our former Co-President and Chief Operating Officer, Mr. Simon, have individual ownership interests in some of these entities. The entities in which both the Company and one or more former executives also has an ownership interest include: Rancho Monterey, S.A., Monterey del Este, S.A., Monterey del Llano, S.A. and Monterey Group, S.A. Mr. Whitney indirectly owns approximately 11.4% of Rancho Monterey, S.A., 8.0% of Monterey del Este, S.A., 50.0% of Monterey del Llano, S.A., and 22.0% of Monterey Group, S.A. Mr. Simon indirectly owns approximately 1.4% of Rancho Monterey, S.A. These entities are managed by Monterey Management, S.A., a company which is 100% owned by Ms. Maria Jimenez, who is paid as an independent contractor by the Company.

Monterey Management, S.A., receives management fees from these and other entities. The amounts earned for management fees for the years ended December 31, 2007 and 2006 were \$500,000 and \$800,000, respectively. In addition to management fees, commissions on the sale of land in Rancho Monterey, S.A. and Monterey del Este, S.A. were paid to Monterey Management, S.A. and others including unrelated real estate agents and brokers for the year ended December 31, 2006.

In January 2008, some of our investments in properties located in Costa Rica, including Rancho Monterey S.A., Monterey del Este, S.A. and Beautiful Hill S.A (our conference center) were sold to an unrelated party for a sales price of \$12.2 million, of which the Company received \$2.5 million for its interests in these entities. In addition, working capital advances to these entities and to Monterey Management, S.A. totaling \$600,000 were repaid. In connection with the sale, consulting fees totaling \$802,000 were paid as follows: Mr. Whitney (\$401,000), Mr. Simon (\$140,400), Mr. Densley, the former Vice President of Real Estate, (\$160,600) and Ms. Jimenez, an independent contractor, (\$100,000) in January of 2008. Monterey Management S.A. made the following payments from its proceeds from the sale: \$210,000 to Mr. Whitney and \$95,000 to each Mr. Simon and Mr. Densley.

Mr. Whitney and Ingrid Whitney, Mr. Ronald Simon and his wife, former employees, associates and independent contractors and others own shares of Costa Rica Consulting, LLC (CRC). CRC owned a 10% share of Rancho Monterey, S.A. as of December 31, 2007. These shares were sold in 2008.

A committee of independent members of the Board of Directors is reviewing the Costa Rican transactions regarding compliance with the applicable governance and related party transaction requirements.

Note 10 - Stock Options

Stock-based compensation plans

Our 1998 Stock Option Plan provides for the granting of stock options to key employees and members of the Board of Directors. Vesting under the 1998 Plan is as follows: 25% of the options vest on the grant date, an additional 25% vests on the completion of the first year of service, another 25% vests on the completion of the second year of service, and 100% of the shares vest at the end of the third year of service. All options expire ten years from the date of grant.

Effective January 1, 2006, we adopted SFAS No. 123R, which requires us to measure the cost of employee services received in exchange for all equity awards granted including stock options based on the fair market value of the award as of the grant date. SFAS No. 123R supersedes SFAS No. 123 and APB No. 25. We adopted SFAS No. 123R using the modified prospective application method of adoption which requires us to record compensation cost related to unvested stock awards as of December 31, 2005, by recognizing the unamortized grant date fair value of these awards over the remaining service periods of those awards with no change in historical reported earnings. Awards granted after December 31, 2005, are valued

Table of Contents

at fair value in accordance with the provisions of SFAS No. 123R and recognized on the same basis as the vesting period. We estimated forfeiture rates for 2007 and 2006 based on historical experience.

Prior to 2006, we accounted for stock-based compensation in accordance with APB No. 25 using the intrinsic value method, which did not require that compensation cost be recognized for our stock options provided the option exercise price was established at 100% of the common stock fair market value on the date of grant. In accordance with APB No. 25, we were required to record expense over the vesting period for the value of options granted. Prior to 2006, the Company provided pro-forma disclosure amounts in accordance with Statement of Financial Accounting Standards No. 148, *Accounting for Stock-Based Compensation - Transition and Disclosure* (SFAS No. 148), as if the fair value method defined by SFAS No. 123 had been applied to its stock-based compensation. See Note 2 - *Significant Accounting Policies and Related Information, Stock Options and Stock-Based Compensation*.

The estimated fair value of the option grants was calculated using a Black Scholes Merton option pricing model (Black Scholes model). The following summarizes the assumptions used in the Black Scholes model:

Risk free interest rate	4.54%-3.92%
Expected volatility	72.5%-76.5%
Dividend yield	0.0%
Expected term in years	5.25-5.75
Weighted average fair market value at grant date	\$3.31

The Black Scholes model incorporates assumptions to value stock-based awards. The risk free rate of interest for periods within the contractual life of the option is based on a zero-coupon U.S. government instrument over the expected term of the equity instrument. Expected volatility is based on the historical volatility of our stock.

Our estimation of expected term is based on the guidelines in Staff Accounting Bulletin No. 107, (SAB No.107), which allows companies whose stock options meet specific criteria to be considered plain-vanilla options, thereby allowing the simplified method of estimating expected term to be applied. Our stock option awards meet the criteria to use the simplified method of calculating expected term. For our Company, this calculation was performed using the average of the mid-points for each vesting tranche. This methodology is not materially different from our historical data on exercise timing.

The following table summarizes the components of our stock-based compensation programs recorded as expense (in thousands):

(in thousands)	Years ended December 31,	
	2007	2006
Stock-based compensation expense:		
Pretax compensation expense	\$ 753	\$ 881
Income tax benefit		
Stock option expense, net of the related tax effect	\$ 753	\$ 881

Our compensation expense is included in the general and administrative financial statement caption on our Consolidated Statement of Operations.

Table of Contents

The following table presents the activity for options outstanding (in thousands, except per share data):

	Number of options	Weighted average exercise price	Weighted average remaining contractual life (years)	Aggregate Intrinsic Value
Total Stock Options				
Outstanding as of December 31, 2006	1,253	\$ 4.49		
Granted	280	3.78		
Forfeited	(315)	4.82		
Exercised

Exercisable as of December 31, 2007	906	\$ 4.61	6.1	\$ 227

The weighted average grant-date fair value of options granted during fiscal 2007 and fiscal 2006 were \$3.31 and \$5.47, respectively. During 2007, two stock options were made to executive officers. On March 15, 2007, 180,000 stock options were granted to Alfred Novas, our former Co-President and Chief Financial Officer. On December 5, 2007, 50,000 stock option awards were granted to Anne Donoho, our current Chief Financial Officer. In addition, five grants of 10,000 stock options each were awarded to members of our Board of Directors. During 2006, stock options for 25,000 shares were granted to a named executive officer, and two stock options awards for 10,000 shares each were granted to members of the Board of Directors. Exercise of options during the years of 2007 and 2006 resulted in cash receipts of zero and \$1.5 million, respectively. The intrinsic value of a stock option is the amount by which the current market value of the underlying stock exceeds the exercise price of the stock option.

A summary of the status of our nonvested shares as December 31, 2007, and the changes during the year ended 2007 is presented below (in thousands, except per share data):

	Number of options	Weighted average grant date fair value
Nonvested Stock Options		
Outstanding as of December 31, 2006	398	\$ 5.47
Granted	182	3.78
Vested	(176)	6.00
Canceled	(92)	6.08
Outstanding as of December 31, 2007	312	\$ 4.98

As of December 31, 2007, there was approximately \$0.6 million of total unrecognized compensation cost related to nonvested stock-based compensation arrangements under our stock option plan. That cost is expected to be recognized over a weighted average vesting period of approximately 1.8 years.

Table of Contents**Note 11 - Employee Benefit Plan**

We have a 401(k) employee savings plan for eligible employees, which provide for a matching contribution from us, determined each year at our discretion. Our contributions, charged to earnings for the years ended December 31, 2007 and 2006 were \$0.7 million and \$0.2 million, respectively.

Note 12 - Income Taxes

We recognize deferred tax assets and liabilities, at enacted income tax rates, based on the temporary differences between the financial reporting basis and the tax basis of our assets and liabilities. We include any effects of changes in income tax rates or tax laws in the provision for income taxes in the period of enactment. When it is more likely than not that a portion or all of a deferred tax asset will not be realized in the future, we provide a corresponding valuation allowance against the deferred tax asset.

As of December 31, 2007, we are estimating that our taxable income will not exceed the amount necessary to utilize our deferred tax assets. Therefore, we are increasing our valuation allowance from \$17.6 million to \$19.1 million. We have approximately \$30.0 million of net operating loss carryforwards which will expire in 2027. We also have an Alternative Minimum Tax Credit of \$0.3 million that will carryforward.

We estimate that we will be liable for approximately \$0.2 million in state and non-U.S. taxes for the year ended December 31, 2007.

(b) The fourth quarter of 2006 reflected \$27.0 million in revenue associated with the initial application of course breakage in our Proprietary financial markets education brands, \$3.6 million in impairment charges, \$2.3 million in special charges and \$7.3 million in the reversal of the net deferred tax asset.

Note 16 - Commitments and Contingencies*Software commitment*

In December 2005, we entered into a commitment for a new Customer Relationship Management (CRM) system for approximately \$3.0 million which includes licensing, training and maintenance. During 2007, we recorded \$1.1 million in expense and during 2006 we recorded \$1.6 million in expense and \$0.7 million in capital. Our annual commitments for the licensing and maintenance of other software are approximately \$0.4 million.

Litigation

On November 14, 2006, we were notified by the SEC that the Commission is conducting a formal, nonpublic investigation to determine whether we complied with securities laws in connection with (i) the claimed efficacy or trading success of our stock market education programs, and, (ii) our acquisition of certain other companies. The SEC has requested documents and information from us in the course of their investigation.

On December 11, 2006, we received a subpoena from the United States Attorney for the Eastern District of Virginia requesting documents and information in connection with an investigation relating to our marketing activities from January 1, 2002 to the present. We were notified that a grand jury investigation related to this matter had commenced. Criminal indictments had been returned and civil charges have been filed against two former contractors.

On January 11, 2007, Whitney Canada, Inc., a wholly owned subsidiary, and Whitney Information Network, Inc. received notice of an Amended Motion for Authorization to Institute a Class Action in the Province of Québec, Canada. A class action was requested for all persons who have made various real estate investments, at the alleged inducement, or through, Marc Jémus, François Roy, Robert Primeau and/or their companies, and/or B2B Trust, and/or Whitney Canada, Inc., and/or Whitney Information Network, Inc. and/or Jean Lafrenière.

On January 30, 2007, we were served a complaint by Rodney Durham on behalf of himself and all others similarly situated v. Whitney Information Network, Inc., Russell A. Whitney and Nicholas S. Maturo, filed on December 28, 2006 in the United States District Court in the Middle District of Florida accusing us of securities violations. The complaint seeks damages for violations of federal securities laws on behalf of all investors who acquired our stock from November 18, 2003 through and including December 15, 2006. On November 18, 2008 an order granting the defendants motion to dismiss without prejudice was ordered by the court.

On March 8, 2007, we were served a complaint styled Robert Ghosio, Jr. on behalf of nominal defendant Whitney Information Network, Inc. v. Russell A. Whitney, Nicholas S. Maturo, Frederick A. Cardin, Chester P. Schwartz, Ronald S. Simon and Whitney Information Network, Inc., filed in the United States District Court in the Middle District of Florida. This action is a derivative complaint alleging that the named defendants violated certain fiduciary and securities laws. On November 18, 2008 an order granting the defendants motion to dismiss without prejudice was ordered by the court.

On March 22, 2007, a complaint was received by our wholly owned subsidiary, Whitney Education Group, Inc. The case is Glenn Acciard, et. al. vs. Russell Whitney, individually, John Kane, individually and Whitney Education Group, Inc. et. al., Case No. 07-CA-002190 in the Circuit Court of the Fifth Judicial Court in and for Lee County, Florida alleging that the Company, including two of our executive officers, and 18 other defendants not associated with the Company breached certain of their fiduciary duties to the named plaintiffs, all of whom were our alleged students. The allegations in the complaint include claims of constructive and common law fraud and other violations. The case was removed to the United States District Court, Middle District of Florida on or about July 31, 2007. A joint motion to dismiss is pending.

On August 8, 2007, Counterclaim Plaintiff, James M. Easterly, in two separate, but related cases, filed a complaint against Russell Whitney, Whitney Information Network, Inc., John Kane, and other co-defendants in the alleging breach of fiduciary duty, constructive fraud, violation of Florida Land Sales Practices Act, violation of Florida's Deceptive and Unfair Trade Practices Act, civil conspiracy to defraud, and Florida RICO conspiracy through an alleged scheme to entice persons to invest in real estate at inflated prices through real estate education courses offered by the Company's defendants. Counterclaim Plaintiff alleges losses in excess of \$100,000 as a result of purchase of two separate properties. Multiple motions to dismiss are pending.

On August 23, 2007, a complaint was received by our subsidiary, Whitney Education Group, Inc. Plaintiffs, Sirli Jehe and Kalev Kruuk brought suit against Russell Whitney, John Kane, Whitney Education Group, Inc. et. al., in the Twelfth Judicial Circuit Court in and for Sarasota County, Florida alleging breach of fiduciary duty, fraudulent misrepresentation, a violation of mortgage broker & lending laws, Florida Land Sales Practices Act & Florida Unfair & Deceptive Trade Practices Act based on alleged scheme to induce real estate investors to purchase real property at inflated prices. Plaintiff seeks actual damages in excess of \$100,000 plus punitive damages, fees and costs. Numerous motions to dismiss are currently pending.

On September 21, 2007, a complaint was received by our subsidiary, Whitney Education Group, Inc. The lawsuit is Jeffrey Watson v. Whitney Education Group, Inc and Russell Whitney in the Twentieth Judicial Circuit Court in and for Lee County, Florida and alleges that WEG and Russell Whitney breached a student contract, violated the Florida Unfair and Deceptive Trade Practices Act, breached the implied covenant of good faith and fair dealing, and conspired to commit fraud by failing to recommend fair and objective vendors in connection with the development and purchase of real estate in an investment program purchased by Plaintiff. Motions to Dismiss Plaintiff's complaint are currently pending.

We are involved from time to time in routine legal matters incidental to our business. Based upon available information, we believe that the resolution of such matters will not have a material adverse effect on our financial position or results of operations. See Note 17 *Subsequent*

Note 17 - Subsequent Events

In January 2008, we sold three of our investments located in Costa Rica. Those entities were: Rancho Monterey, S.A., Monterey del Este, S.A., and Beautiful Hill, S.A., in which we owned 30%, 8% and 100%, respectively. Proceeds for these entities net of commissions and other expenses were \$0.9 million, \$0.2 million and \$1.4 million, respectively.

On January 9, 2008, the Company entered into an Assurance of Voluntary Compliance (the AVC) with the Office of the Attorney General of the State of Florida to close a previously disclosed investigation. The AVC was entered into without an admission or judicial determination that the Company violated any laws, rules or regulations. The Company agreed in the AVC to make refunds in the additional amount of approximately \$450,000 to certain consumers, and also set aside, in an escrow account, \$125,000 for refunds for potential claims arising from sales prior to the execution of the AVC. The Company also agreed to make a payment to the Attorney General in the amount of \$150,000 in satisfaction of the Attorney

General s investigative and attorney s fees. No penalties were imposed on the Company under the AVC. The Company also made a contribution in the amount of \$150,000 to the Seniors vs. Crime, Inc. project for educational, investigative and crime prevention programs for the benefit of senior citizens and the community as a whole, in connection with the delivery of the AVC.

On January 23, 2008, we filed a foreclosure lawsuit against Tranquility Bay, Gulf Gateway Enterprises, LLC, Anthony Scott Dunlap, and Dunlap Enterprises, LLC parties to the mortgage and/or security agreement. Tranquility Bay of Southwest Florida, LLC (Tranquility Bay), defaulted on its mortgage payment of \$4.5 million to Whitney Information Network, Inc., that was due on or before December 31, 2007. The lawsuit seeks a judgment of foreclosure on the mortgage instrument. In the alternative, the lawsuit seeks a judgment of foreclosure on a security agreement which would permit the Company to take control of Tranquility Bay and the resulting real property. Further in the alternative, we seek damages from Anthony Scott Dunlap due to a personal guarantee that Mr. Dunlap signed in relation to the mortgage. The lawsuit is currently pending in the Circuit Court in Lee County, Florida, and is in the discovery phase.

On February 1, 2008, Mr. Simon resigned as a member of the Board of Directors of Whitney Information Network, Inc.

On February 1, 2008, the Board of Directors appointed two additional independent directors to its Board, Steven C. Barre and Wallace L. Timmeny. With these changes, independent directors now constitute a majority of our Board of Directors.

On March 6, 2008, a federal grand jury in the Eastern District of Virginia returned an indictment charging Linda Woolf (Woolf) and David Gengler (Gengler) with one count of conspiracy to commit mail fraud and wire fraud. Woolf and Gengler are alleged in the indictment to have been independent contractors of the Company s EduTrades, Inc., subsidiary at the time of their alleged criminal activities. The defendants are no longer independent contractors for the Company or any of its subsidiaries. The Company and its subsidiaries were not charged in the indictment, and none of the Company s present or former directors or officers was charged in the indictment. On March 11, 2008, the Commission filed civil fraud charges against Woolf and Gengler alleging that Woolf and Gengler made false and misleading statements to sell Teach Me to Trade packages for the Company s EduTrades, Inc., subsidiary.

On April 9, 2008, the Board of Directors appointed Anne M. Donoho to serve as the Company s Chief Financial Officer. Ms. Donoho had been serving as the Company s interim Chief Financial Officer since December 4, 2007. In her role as Chief Financial Officer, Ms. Donoho is the principal financial officer and principal accounting officer of the Company.

On June 20, 2008, the Board of Directors appointed John F. Kane to serve as the Company s President and Chief Operating Officer. Mr. Kane had been serving as the Company s interim President and member of the Board of Directors since December 4, 2007.

On June 20, 2008, the Board of Directors eliminated the position of Chairman of the Board and created a Lead Director position. The former Chairman, Russell A. Whitney, remains a member of the Board of Directors. The Board of Directors appointed Steven C. Barre as the Lead Director.

On July 8, 2008, the Company received a letter from South Dakota Department of Revenue and Regulation requesting certain information and documents with respect to the issue of whether or not the Company was selling business opportunities as defined by South Dakota statute. The Company has provided information and documentation in response to this request.

On September 17, 2008, the leases for (i) the training facility located at 1611 East Cape Coral Parkway, and, (ii) the training facility at 1630 Southeast 47th Terrace were terminated. The leases were on a month-to-month basis prior to termination.

On September 17, 2008, the Company appointed Charles M. Peck as Chief Executive Officer and member of the Board of Directors.

On October 17, 2008, John F. Kane resigned as the Company's President and Chief Operating Officer. He also resigned from his position as a member of the Board of Directors.

Table of Contents

During October 2008, Mr. Whitney, our former Chairman and Chief Executive Officer, asserted a claim against the Company for \$1.1 million in funds allegedly owed to him principally for a 2007 annual bonus, speaking fees, and other reimbursements. The Company believes this claim is without merit.

On October 21, 2008, Mr. Simon, our former Co-President and Chief Operating Officer, filed a lawsuit against the Company for \$1.4 million for funds allegedly owed to him due to the improper termination of his employment agreement. The Company believes this lawsuit is without merit.

On November 3, 2008, the Office of Attorney General of the State of Florida issued an investigative subpoena pursuant to Florida's Deceptive and Unfair Trade Practices. The investigation is concerned with consumer-investors that attended Whitney Information Network, Inc. sponsored seminars and invested in Florida homes with Gulfstream Development LLC, Gulfstream Realty and Development, LLC since August 1, 2004.

On November 21, 2008, we notified Cape Promenade Trust that we will be terminating the lease at 1625 East Cape Coral Parkway effective December 31, 2008.

On December 4, 2008, an amended shareholder derivative complaint filed by Robert Ghosio Jr. on behalf of nominal defendant Whitney Information Network, Inc. v Russell A. Whitney, Frederick A. Cardin, Chester P. Schwartz and Ronald S. Simon in the United States District Court Middle District of Florida (the "Court") alleging breach of fiduciary duty, abuse of control, gross mismanagement, waste of corporate assets, and unjust enrichment. By an order dated November 19, 2008, the Court granted the defendants' motion to dismiss without prejudice the initial complaint filed by the plaintiffs on March 28, 2007.

On December 8, 2008, the Company was served a consolidated amended class action complaint filed by Arnold Friedman individually and on behalf of all others similarly situated in the Court alleging violations of the federal securities laws. By an order dated November 17, 2008, the Court granted the defendants' motion to dismiss without prejudice the initial complaint styled Durham v. Whitney Information Network, Inc. et al. filed by the plaintiffs on December 28, 2006.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Stockholders

Whitney Information Network, Inc. and Subsidiaries

Cape Coral, Florida

We have audited the accompanying Consolidated Balance Sheets of Whitney Information Network, Inc. and Subsidiaries as of December 31, 2007 and 2006, and the related Consolidated Statements of Operations and Comprehensive Income (Loss), Stockholders' Deficit and Cash Flows for each of the two years in the period ended December 31, 2007. These Consolidated Financial Statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Consolidated Financial Statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall Consolidated Financial Statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the Consolidated Financial Statements referred to above present fairly, in all material respects, the financial position of Whitney Information Network, Inc. and Subsidiaries as of December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

ITEM 9A (T). CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

(a) Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of December 31, 2007. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of December 31, 2007, our Annual Report on Form 10-K, due to the material weakness in internal control over financial reporting as discussed below under Report of Management on Internal Control Over Financial Reporting, our disclosure controls and procedures were not effective in providing reasonable assurance that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and that such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. Under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, management conducted an evaluation of the effectiveness of internal controls over financial reporting based upon the framework in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our CEO and CFO determined that as of December 31, 2007, our internal controls over financial reporting were not effective.

As previously reported in our Annual Report on Form 10-K for the year ended December 31, 2006, material weaknesses and significant deficiencies in our internal controls over financial reporting were identified in prior years. Those material weaknesses and significant deficiencies related to a lack of knowledgeable personnel in accounting and financial reporting areas, a lack of formalized processes and procedures over key areas in the accounting, tax and reporting functions, and inadequate supervision and review over the financial reporting function. Throughout the year ended December 31, 2007, we implemented procedures designed to correct these material weaknesses and significant deficiencies noted above, including implementation of new processes and controls, the expansion of our accounting management and staff to efficiently and timely execute our new procedures.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

During the year ended December 31, 2007, management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of internal controls over financial reporting. Although we noted that we were able to hire a few more knowledgeable accounting personnel, we continued to identify control deficiencies, and the assessment by management of the Company's internal control over financial reporting was not effective. The deficiencies consisted of:

- Inadequate controls related to our monthly accounting closing process, including limited evidence of review of reconciliations, account analysis and journal entries.
- Inadequate financial and human resources resulting in excessive involvement by management in the detailed compilation and preparation of our financial reports and analyses. As a consequence, management was unable to provide the necessary level of review in the monthly financial statement preparation.
- Inadequate disclosure of and accounting for related party transactions and relationships.
- Inadequate testing and flawed implementation of the new CRM system resulting in delays in our financial reporting, the recording of deferred revenue and reconciliation of our bank accounts.

Table of Contents

- Inadequate testing and flawed implementation of the new CRM system resulting in:
- Delays in our financial reporting, the recording of deferred revenue and reconciliation of our bank accounts.
- Errors in our revenue recognition process resulting in improper determination and assignment of fair value of elements in bundled arrangements, calculation of discounts and application of pricing changes.
- Time-consuming manual processes related to the reconciliation of the new CRM system to our accounting system.
- Inadequate review and validation of contracts for commissions owed to independent contractors resulting in incorrect payments.
- Inadequate review of the income tax provision calculation, FIN48 analysis, and sales tax returns.

We are actively recruiting for several new positions that have been approved by the Board of Directors in the areas of financial reporting, financial planning and analysis and financial systems. We will continue to upgrade our personnel and our financial reporting systems to improve our internal controls. In addition, we will continue to evaluate the effectiveness of our disclosure controls and internal control over financial reporting on an ongoing basis, taking corrective action as appropriate.

Although the above-mentioned steps are beginning to correct the noted deficiencies, we cannot be certain that our efforts to improve our internal controls will be successful or that we will be able to maintain adequate controls over our financial processes and reporting in the future. We may be hampered in this regard by our current level of staffing or our current accounting system. Any failure to develop or maintain effective controls, or difficulties encountered in the effective improvement of our internal controls, could harm our operating results, cause us to fail to meet our reporting obligations, result in misstatements in our Consolidated Financial Statements or cause investors to lose confidence in our reported financial information, which would likely have a negative effect on the trading price of our common stock.

In addition, the efforts to improve our internal controls could require us to expend significant time and management resources or make other substantial changes. If our internal controls are deemed to be inadequate, or if other unforeseen events occur, our external auditors could resign, leading to a delay in the preparation of our financial statements and an increase in our audit fees. If we were required to obtain new external auditors, those auditors could require a lengthy period to become familiar with our operations. The process of retaining new external auditors could also limit our access to the capital markets for an extended period of time.

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

This Annual Report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation requirements by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report.

Family Relationships

There are no family relationships between any of our directors or executive officers.

Code of Ethics and Conduct

Our Board of Directors has adopted a Code of Conduct and a Code of Business Conduct and Ethics that embody our commitment to conduct business with the highest ethical standards. The Code of Conduct provides principles and standards by which directors, officers, and employees will conduct themselves. To the extent possible, we have requested that all

Table of Contents

independent contractors and key vendors involved with our Company adhere to the principles set forth in the Code of Conduct.

In addition to the Code of Conduct, our directors, executive officers, and senior financial officers of our Company are also subject to the Code of Business Conduct and Ethics and are expected to adhere to the principles and procedures set forth. Both the Code of Conduct and the Code of Business Conduct and Ethics are posted on the Corporate Governance section of our Web site located at www.wincorporate.com.

Audit Committee

Our Board of Directors has established a standing Audit Committee that consists of three independent directors as of February 1, 2008. The current members of the Audit Committee are Messrs. Cardin, Timmeny and Barre. The Chairman of the Audit Committee is Mr. Cardin. The Board of Directors has determined that each of the directors is independent as defined by NASDAQ Rule 4200 and that Mr. Cardin further qualifies as an audit committee financial expert as such term is defined in the applicable rules of the Exchange Act.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors, and persons who own more than 10% of a registered class of the Company's equity securities to file reports of beneficial ownership and certain changes in beneficial ownership with the SEC and to furnish the Company with copies of those reports. To our knowledge, based solely on a review of the copies of such reports furnished to us or written representations that no other reports were required, the Company believes that during the year ended December 31, 2007, its officers, directors and greater than 10% shareholders timely filed all reports required by Section 16(a) except as follows:

	Number of Late Filings	Number of Transactions that were not Reported

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section describes the material elements of compensation awarded to, earned by or paid to the individuals who served as our principal executive officers, principal financial officers and certain other executive officers during fiscal 2007. These individuals are listed in the

Summary Compensation Table below and are referred to as the Named Executive Officers.

Our executive compensation programs are determined and proposed by our Compensation Committee and are approved by our Board of Directors. None of the Named Executive Officers are members of the Compensation Committee or otherwise had any role in determining the compensation of other Named Executive Officers, although the Compensation Committee does consider the recommendations of our CEO in setting compensation levels for our other executive officers.

Executive Compensation Program Objectives and Overview

The Compensation Committee conducts an annual review of our executive compensation programs to ensure that:

- the program is designed to achieve our goals of promoting financial and operational success by attracting, motivating and facilitating the retention of key employees with outstanding talent and ability; and
- the program adequately rewards performance which is tied to creating stockholder value.

Table of Contents

Our current executive compensation program is based on three components, which are designed to be consistent with our compensation philosophy: (1) base salary; (2) annual incentive bonuses; and (3) grants of stock options.

In structuring executive compensation packages, the Compensation Committee considers how each component promotes retention and/or motivates performance by the executive. Base salaries, perquisites and personal benefits, and severance and other termination benefits are primarily intended to attract and retain highly qualified executives. We believe that in order to attract and retain top executives, we need to provide them with compensation levels that reward their continued productive service. Annual incentive bonuses are primarily intended to motivate our executive officers to achieve specific strategies and operating objectives, although we believe they also help us to attract and retain top executives. Our long-term equity incentives are primarily intended to align executive officers' long-term interests with stockholders' long-term interests, although we believe they also play a role in helping us to attract and retain top executives. Annual bonuses and stock option grants are the elements of our executive compensation program designed to reward performance and thus the creation of stockholder value.

We view our current executive compensation program as one in which the individual components combine together to create a total compensation package for each executive officer that we believe achieves our compensation objectives. In determining our current executive compensation program and the amounts of compensation for each component of our program, the Compensation Committee evaluates the current executive compensation data for companies in our industry. The Compensation Committee believes that our current executive compensation program is appropriate based on the evaluation of the compensation paid by companies in our industry.

Our Named Executive Officers in fiscal 2007 were John Kane, our President and Chief Operating Officer, and Anne M. Donoho, our Chief Financial Officer. In addition, Russell Whitney served as our Chief Executive Officer from 1987 through December 31, 2007, Ronald Simon served as our Co-President and Chief Operating Officer from January 31, 2006, through December 5, 2007, and Alfred Novas served as Co-President and Chief Financial Officer from January 31, 2006, to November 29, 2007. We sometimes refer to these individuals as the Named Executive Officers.

Overview of Executive Compensation Program

The following discussion and analysis describes the Company's compensation objectives and policies as applied to the Named Executive Officers appearing in the Summary Compensation Table. This section is intended to provide a framework within which to understand the actual compensation awarded to, earned or held by each Named Executive Officer during 2007.

Compensation Philosophy and Objectives

Our executive compensation programs are designed to attract and retain highly qualified employees through competitive compensation and benefit programs, to reward our employees for personal contributions that grow the business and to maximize shareholder returns through pay programs.

Our philosophy, which the Compensation Committee reviews annually, is to:

- reward performance versus entitlement,
- design pay programs at all levels that are aligned with employee, student and shareholder metrics, and
- emphasize long-term incentive compensation.

Role of Compensation Committee and Executive Officers in Compensation Decisions

The role of our Compensation Committee is to oversee our compensation programs and retirement plans and policies and review and approve all compensation decisions relating to the Company's Named Executive Officers, including those for our Chief Executive Officer and the other Named Executive Officers. Our Compensation Committee reviews, and in conjunction with the entire Board of Directors and our Chief Executive Officer, makes all compensation decisions for the Named Executive Officers. The Compensation Committee reviews and recommends and the independent members of Board of Directors approves the annual compensation package of our Chief Executive Officer.

Our Compensation Committee intends to meet with our Chief Executive Officer at least annually to review the performance of the other Named Executive Officers, receive the recommendations of the Chief Executive Officer on the Named Executive Officers compensation and approve their annual compensation packages. This meeting is intended to include a review by the

Table of Contents

Chief Executive Officer of the performance of each Named Executive Officers member who reports directly to our Chief Executive Officer.

Setting Executive Compensation

In furtherance of the philosophy and objectives described above, in setting compensation for our Named Executive Officers, our Compensation Committee considers data which was obtained from the consulting firm of Mercer Human Resources Consulting, in addition to other factors, to assess competitive pay levels and establish compensation targets for base salary, annual incentives and long-term incentives. The data from this consulting firm's surveys reflect compensation practices of education industry companies with annual revenues and free cash flow, which is similar in size to the Company, for executives with responsibilities cutting across the entire enterprise (survey data). Mercer Human Resources Consulting provided a comprehensive review for the Compensation Committee using data from its own survey database for a select group of companies in the education industry. The Compensation Committee believes that targeting compensation in this manner appropriately reflects the labor market for Company executives.

Base Salary

We provide Named Executive Officers and other employees with base salary to compensate them for services rendered during the fiscal year. Our Compensation Committee reviews each Named Executive Officer's salary and performance annually. Market data from the survey group is used to determine base salary ranges for Named Executive Officers based on the position and responsibility. A Named Executive Officer's actual salary relative to this competitive salary range varies based on the level of his or her responsibility, experience, individual performance and internal equity considerations. Specific salary increases take into account these factors and the current market for management talent. However, salary increases are reviewed by the Compensation Committee each year. Salary increases are reviewed by the Compensation Committee each year.

Annual Incentive Compensation

On May 23, 2008, Company's Compensation Committee granted incentive bonuses on a preliminary basis to the Named Executive Officers as of December 31, 2007. These bonuses were discretionary bonuses and were based on a variety of factors including individual performance and retention considerations.

The chart below provides the 2007 annual salary and bonus for each Named Executive Officer's as of December 31, 2007:

Name and Title of Executive	Base salary at December 31, 2007	2007 annual incentive award
John F. Kane, President and Chief Operating Officer (a)	\$ 350,000	\$ 230,000
Anne M. Donoho, Chief Financial Officer (b)	250,000	200,000

(a) Mr. Kane was appointed as the Company's President and Chief Operating Officer on June 20, 2008, after serving as the Company's Interim President since December 4, 2007. He resigned his position on October 17, 2008.

(b) Ms. Donoho was appointed as the Company's Chief Financial Officer on April 9, 2008, after serving as the Company's interim Chief Financial Officer since December 4, 2007.

2007 Bonus Payments

On May 23, 2008, the Board of Directors of the Company determined the expected 2007 bonus payments for its executive officers. Payouts for 2007 were determined through examination of the Company's past practices and market-based compensation benchmarks as well as the Board of Directors' recognition of current management's performance and its perseverance during the organizational changes which occurred since January 2007.

The Board of Directors approved preliminary 2007 bonus payments equal to 50% of the expected aggregate amounts, the bonus payments were paid on June 6, 2008. The final 50% was paid December 4, 2008. No bonuses were approved for any other individuals who served as executive officers during 2007.

2008 Base Salary Increases

On May 23, 2008, the Board of Directors approved increases in the annual salaries for its executive officers and non-executive employees. The base salaries for Mr. Kane and Ms. Donoho for 2008 are as follows:

Name and Title of Executive	2008 Base Salary
John F. Kane, President and Chief Operating Officer	\$ 350,000
Anne M. Donoho, Chief Financial Officer	\$ 260,000

Long-term incentive compensation Stock Option Grants

The principal purpose of our long-term incentive compensation is to motivate our executives to help us achieve our long-range performance goals that will enhance our value and, as a result, enhance the price of our stock and our shareholders' returns on their investments. Long-term incentives were not awarded except for the promotion of the two executives as discussed below.

We award stock option grants at the same time other elements of annual compensation are determined so that we can consider all pieces of compensation when determining the grant awards. In addition, we may make grants on other dates and times when the Compensation Committee or the Board of Directors holds meetings. We set the exercise price at the closing price of our common stock on the date of grant management recommends the awards to be made pursuant to 1998 Stock Option Plan to the Compensation Committee. While the Compensation Committee gives significant weight to management recommendations concerning grants to the Named Executive Officers members, the Compensation Committee makes the determination whether and to who to issue grants and determines the amount of the grant. These stock options typically have ten year contractual terms and vest 25% upon grant and vest ratably over the next three years.

In 2007, the Compensation Committee granted stock options to: Alfred Novas, our former Co-President and Chief Financial Officer, 180,000 options, and, Anne Donoho, our current Chief Financial Officer, 50,000 options.

Deferred compensation plans

The Company does not have a deferred compensation plan.

Retirement benefits

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

The Company typically provides matching contributions to a 401(k) Plan, although on October 10, 2008, the Company suspended its matching contribution until further notice.

Medical, dental, life insurance and disability coverage

We provide other benefits such as medical, dental and life insurance and disability coverage to each Named Executive Officer in benefits plans which are also provided to all eligible U.S. based salaried employees. Eligible employees, including the Named Executive Officers, can purchase additional life, dependent life and accidental death and dismemberment coverage as part of their employee benefits package. The value of these benefits is not included in the Summary Compensation Table since they are made available on a companywide basis to all U.S. based salaried employees.

Perquisites

The value of the perquisites are included in the Summary Compensation Table in the column headed All Other Compensation.

Use of corporate aircraft

Beginning March 16, 2007, Mr. Whitney reimbursed the Company for personal use of the corporate aircraft at the incremental variable cost associated with each trip which is calculated as a portion of the aircraft fuel, hanger cost, flight crew, travel fees, landing fees and catering costs. Other Named Executive Officers may use the corporate aircraft for personal use with the prior approval of the Company. Fixed costs which do not change, based on usage, such as pilot salaries and the costs of maintenance not related to trips are excluded. In addition, depending on seat availability, family members of Named Executive Officers may travel on the corporate aircraft to accompany executives who are traveling on business. As of December 31, 2007, Mr. Whitney had an outstanding balance of \$30,000 for the use of the corporate aircraft.

Table of Contents

There is no incremental cost to the Company for these trips. No other Named Executive Officer used the corporate aircraft for personal travel in 2007.

Other perquisites

Our former Chief Executive Officer, Mr. Whitney, previously received \$7,500 annually for expenses associated with the usage of a Company owned automobile. The Company also paid directly for Mr. Whitney's use of a Blackberry® device. Mr. Whitney uses the services of the Company's employees in our Real Estate Development Department for personal investments. He reimburses the Company for the use of these employees.

For the Named Executive Officer members below the Chief Executive Officer, we do not provide for any material perquisites. Mr. Simon is reimbursed for use of a Blackberry®. Certain temporary housing expenses were covered by the Company in connection with Mr. Novas' relocation to Southwest Florida.

Use of corporate credit cards for personal expenses

Our former Chief Executive Officer, Mr. Whitney, has occasionally used the corporate credit cards for personal expenses. Our practice has been to collect reimbursement for those charges.

Compensation of our Chief Executive Officer

Our Compensation Committee conducted an evaluation of the performance of our former Chief Executive Officer, Russell A. Whitney, which included a review of his leadership in the development and implementation of strategies, his leadership pertaining to business execution, and the achievement of results and his development of diversity and management talent. In addition, the Compensation Committee met and considered the recommendation of Mercer Human Resources Consulting with respect to Mr. Whitney's compensation.

Mr. Whitney's base compensation for 2007 was \$650,000. The Compensation Committee approved this increase in base compensation from \$600,000 in 2006 to \$650,000 in 2007 for Mr. Whitney in April 2007 and it was applied retroactively to January 1, 2007.

The Compensation Committee did not approve any stock option grants to Mr. Whitney in fiscal 2007. Mr. Whitney resigned his position as Chief Executive Officer as of December 31, 2007, pursuant to the terms of a Separation Agreement dated January 7, 2008, effective as of December 31, 2007, between the Company and Mr. Whitney. The Compensation Committee did not recommend he receive a bonus, and the independent members of the Board of Directors did not grant him a bonus for the year ended December 31, 2007.

Family Members Receiving Compensation from the Company

Ingrid Whitney, Thea Whitney, and Russell W. Whitney, Jr. are the former wife, daughter and son, respectively, of Russell A. Whitney, our former Chairman and Chief Executive Officer. Ingrid and Thea Whitney have been employees of the Company since its inception whose total compensation in 2007, calculated in a manner consistent with the Total column of the Summary Compensation Table, was approximately \$98,951 and \$135,138 respectively, in 2007. Russell W. Whitney, Jr. who worked as an independent contractor and as an instructor for free introductory workshops of our Company received total compensation of \$167,135 in 2007. We believe the pay of these individuals to be generally consistent with that of our other employees at similar levels and independent contractors whose pay is primarily sales commission based.

Ingrid Whitney resigned her position on November 29, 2007 and entered into a Severance Agreement with the Company on December 7, 2007. She received severance equal to her base salary which is being paid over the twelve month period beginning November 29, 2007, and ending November 29, 2008.

Timothy Kane, a non-executive employee of our Company, is the brother of John Kane, who is our President and Chief Operating Officer. His compensation in 2007, consisting of base salary and sales commissions, calculated in a manner consistent with the Total column of the Summary Compensation Table, was \$217,397. Timothy Kane left the company in 2008. We believe that the compensation paid to this employee is consistent with that of other employees that are paid on a commission basis. Compensation for the above listed family members for the years 2006 and 2007 is detailed in the following chart:

Table of Contents

	Income Type		2006		2007
Ingrid Whitney(a)	W-2	\$	98,336	\$	98,951
Thea Whitney	W-2	\$	99,253	\$	135,138
Russell W. Whitney, Jr.	1099	\$	305,743	\$	167,135
Timothy Kane	W-2	\$	360,593	\$	217,397

(a) On November 29, 2007, Ingrid Whitney resigned from the Company.

Deductibility of Executive Compensation

Under the Omnibus Budget Reconciliation Act of 1993, provisions were added to the Internal Revenue Code under Section 162(m) that limits the tax deduction for compensation in excess of \$1.0 million paid to certain executive officers. However, performance-based compensation can be excluded from the limit so long as it meets certain requirements. To qualify as performance-based under Section 162(m), compensation payments must be determined pursuant to a plan, by a committee of at least two outside directors (as defined in the regulations promulgated under the Code) and must be based on achieving objective performance goals. In addition, the material terms of the plan must be disclosed to and approved by stockholders and the outside directors or the Compensation Committee, as applicable, must certify that the performance goals were achieved before payments can be awarded. The Compensation Committee believes that the stock option grants satisfy the requirements for exemption under the Internal Revenue Code Section 162(m). Payments made under these plans qualify as performance-based compensation.

For 2007, the annual salary paid to Mr. Whitney did not exceed \$1.0 million. The Compensation Committee sets Mr. Whitney's salary based on competitive data. The other Named Executive Officers were in each case paid salaries of less than \$1.0 million as well. Stock options granted under the terms of long-term incentives are exempt as performance-based compensation for purposes of calculating the \$1.0 million limit. To maintain flexibility in compensating the Named Executive Officers in a manner designed to promote varying corporate goals, the Committee reserves the right to recommend and award compensation that is not deductible under Section 162(m). The 2007 annual incentive bonuses are not considered exempt under Internal Revenue Code Section 162(m) and therefore are not deductible to the extent that they exceed \$1.0 million.

Compensation Committee

As of the time of this filing, our Compensation Committee is comprised of Messrs. Indick, Timmeny and Barre, all of whom are independent directors. Mr. Indick is the Compensation Committee Chairman. These directors are also outside directors for purposes of Section 162(m) of the Internal Revenue Code and non-employee directors for purposes of Section 16 of the Securities Exchange Act of 1934. Each member must be free of any relationship that, in the judgment of the Board from time to time, would interfere with the exercise of his or her independent judgment.

Employment and Separation Agreements:

John F. Kane

We entered into an employment agreement with John F. Kane, the Company's Executive Vice President and Operations (subsequently our President and Chief Operating Officer) on June 30, 2003, to be effective as of January 1, 2003. Under his agreement during fiscal 2007, Mr. Kane was entitled to receive an annual salary of \$250,000. The employment agreement is effective for five years through December 31, 2007, subject to automatic renewal thereafter unless terminated by either party. Mr. Kane is also entitled to receive such bonuses and increases as may be awarded by the Board of Directors.

Mr. Kane resigned his position as President, Chief Operating Officer, and member of our Board of Directors on October 17, 2008. In connection with his resignation, the Company and Mr. Kane entered into a Separation Agreement dated October 17, 2008 (the "Separation Agreement"). Pursuant to Mr. Kane's employment agreement dated June 30, 2003, Mr. Kane's resignation shall be deemed a Voluntary Termination.

Pursuant to the Separation Agreement, the Company shall provide Mr. Kane a severance benefit in the amount equal to three months of his current base rate of pay. In addition, he received the remaining unpaid balance of the \$230,000 performance bonus the Board of Directors of the Company conditionally authorized on May 23, 2008 as described in the Company's Current Report on Form 8-K dated May 23, 2008. Mr. Kane is restricted from directly or indirectly competing with us until July 18, 2009.

Anne M. Donoho

On December 5, 2007, the Company promoted Ms. Donoho to the position as interim Chief Financial Officer of the Company and at that time, agreed to compensate her with an annual salary of \$250,000. In April 2008, the Company appointed Ms. Donoho to Chief Financial Officer and increased her salary to \$260,000. Ms. Donoho is eligible for an incentive bonus to be determined by the Compensation Committee of the Board of Directors, as well as health insurance and other benefits generally awarded to executive officers of the Company. She was also awarded, in December 2007, options to purchase 50,000 shares of common stock at a price of \$2.30 per share (the most recent

Table of Contents

reported sale price of the common stock on December 4, 2007). On December 16, 2008, the Company and Ms. Donoho entered into a written agreement that provides her with severance compensation if she is terminated prior to December 4, 2010 without cause or in connection with a change in control.

Russell A. Whitney

We, through Whitney Education Group, Inc., entered into an employment agreement (RW Employment Agreement) with Russell A. Whitney, the Company's former Chief Executive Officer on June 30, 2003, to be effective as of January 1, 2003. Under his agreement during fiscal 2006, Mr. Whitney was entitled to receive an annual salary of \$600,000. The employment agreement is effective for five years through December 31, 2007, subject to automatic renewal thereafter unless terminated by either party. Mr. Whitney is also entitled to receive such bonuses and increases as may be awarded by the Board of Directors. In connection with his employment agreement, Mr. Whitney is also subject to the Company's standard non-disclosure and non-competition agreement which restricts Mr. Whitney from directly or indirectly competing with us for a period of two years after the termination of his employment for any reason. If Mr. Whitney's employment with the Company is terminated, he is entitled to certain payments set forth in the table below Potential Payments on Termination or Change of Control.

Russell Whitney Resignation

Edgar Filing: WHITNEY INFORMATION NETWORK INC - Form 10-K

Effective December 31, 2007, Russell A. Whitney resigned as Chief Executive Officer of the Company. Mr. Whitney continues to serve as a member of the Board of Directors of the Company, in a non-executive position.

The Company and Whitney Education Group, Inc., a wholly-owned subsidiary of the Company, entered into an agreement with Mr. Whitney dated January 7, 2008 (the "Agreement"). The Agreement confirmed that Mr. Whitney informed the Company of his resignation as Chief Executive Officer, and of the termination of the Employment Agreement, both effective as of December 31, 2007. The Board of Directors accepted the resignation and determined that for purposes of the Employment Agreement the resignation would be treated as a "Termination Other Than For Cause" under Section 2.4 of the Employment Agreement. The parties have agreed that Whitney Information Network, Inc. will pay severance compensation in the amount of \$1,950,000 in twelve, equal monthly installments of \$162,500 over a period of 12 months, the first such payment to be made January 1, 2008 and continuing on the first day of each calendar month thereafter, less applicable taxes and withholdings ("Severance Compensation"). To secure its obligation to pay the Severance Compensation, the Company agreed to place a lien upon its Citation VII aircraft. Mr. Whitney agreed to terminate this lien immediately upon the payment in full of the Severance Compensation. If the aircraft is sold by the Company at any time prior to the payment in full of the Severance Compensation, Mr. Whitney agreed to terminate his lien and the Company agreed that the balance of the then unpaid Severance Compensation would be accelerated and paid to Mr. Whitney from the proceeds of the sale of the aircraft at that time.

In the Agreement, Mr. Whitney confirmed that he had been paid all salary and bonuses and any and all other pay and incentives due to him under the Employment Agreement or otherwise, except those payments otherwise payable under the Agreement; that Mr. Whitney has been provided with all leave (including leave under the Family and Medical Leave Act) to which he may have been entitled, if any; and that he has not suffered any workplace illness or injury other than any injury or illness of which he had already advised the Company about, if any. Under the Agreement, Mr. Whitney affirmed, to the best of his knowledge as of the date of the Agreement, that he was not aware of any potential claims or causes of action against the Company.

Pursuant to the Agreement, the Company agreed that it will indemnify and hold Mr. Whitney harmless to the fullest extent permitted by applicable law under Section 7.10 of the Employment Agreement and under Article VI of the Bylaws of Whitney Information Network, Inc. Without limiting the foregoing, Mr. Whitney shall be entitled to the advancement of his fees and expenses of legal counsel incurred in connection with any legal proceedings arising out of or relating to his services as an officer, director or employee of the Company. Mr. Whitney's acceptance of the Agreement constituted his undertaking to repay any sums advanced in the event so ordered by a court of competent jurisdiction.

Ronald S. Simon

We entered into an employment agreement with Ronald S. Simon, the Company's former Co-President, Chief Operating Officer and Secretary on June 30, 2003, to be effective as of January 1, 2003. Under his agreement during fiscal 2006, Mr. Simon was entitled to receive an annual salary of \$300,000. The employment agreement was effective for five years through December 31, 2007, subject to automatic renewal thereafter unless terminated by either party. Mr. Simon is also entitled to receive such bonuses and increases as may be awarded by the Board of Directors. In connection with his employment agreement, Mr. Simon signed the Company's standard non-disclosure and non-competition agreement which prevents Mr. Simon

from directly or indirectly competing with us for a period of two years after the termination of his employment for any reason.

Mr. Simon resigned as Co-President and Chief Operating Officer on December 5, 2007, and became an employee of the Company in non-executive administrative role. Mr. Simon's employment with the Company was terminated on August 23, 2008.

Alfred R. Novas

We entered into an employment agreement with Alfred R. Novas, the Company's former Co-President and Chief Financial Officer, on January 20, 2006, to be effective as of January 20, 2006. Under his agreement during fiscal 2007, Mr. Novas was entitled to receive an annual salary of \$275,000. The employment agreement was effective for three years through January 19, 2009. Mr. Novas was also entitled to receive such bonuses and increases as may be awarded by the Board of Directors. In connection with his employment agreement, Mr. Novas also signed the Company's standard non-disclosure and non-competition agreement which prevents Mr. Novas from directly or indirectly competing with us for a period of two years after the termination of his employment for any reason. If Mr. Novas' employment with the Company was terminated, he is entitled to certain payments set forth in "Potential Payments on Termination or Change of Control" in the table below.

Mr. Novas' employment with the Company was terminated on November 29, 2007, and he received severance benefits December 7, 2007, of \$93,750.

Potential payments upon termination of change in control

We had written employment agreements with John F. Kane, Ronald S. Simon, Russell Whitney and Alfred Novas during 2007. The employment agreements provide for payments of certain benefits, as described in the tables below, upon the termination of the employee. The employee's rights upon termination of his or her employment depend upon the circumstance of the termination. Central to an understanding of the rights of each employee under the employment agreements is an understanding of the definitions of termination for cause, termination other than for cause and voluntary termination. For purposes of the employment agreements:

Termination for Cause means termination by the Company of Employee's employment (i) by reason of Employee's willful dishonesty towards, fraud upon, or deliberate injury or attempted injury to, the Company, (ii) by reason of Employee's material breach of this Agreement or (iii) by reason of Employee's gross negligence or intentional misconduct with respect to the performance of Employee's duties under this Agreement; provided, however, that no such termination will be deemed to be a Termination for Cause unless the Company has provided Employee with written notice of what it reasonably believes are the grounds for any Termination for Cause and Employee fails to take appropriate remedial actions during the 30 day period following receipt of such written notice.

Termination Other than For Cause means termination by the Company of Employee's employment by the Company for reasons other than those which constitute Termination for Cause.

Voluntary Termination means termination by the Employee of the Employee's employment with the Company, excluding termination by reason of Employee's death or disability.

Disability means termination of the Employee by the Company because of illness or physical or mental incapacity (Disability) of the employee, and such Disability continues for a period of more than three consecutive months. Any determination by the Board with respect to Employee's Disability must be based on a determination of competent medical authority or authorities, a copy of which determination must be delivered to the Employee at the time it is delivered to the Board. If the Employee disputes this finding, the Employee will have the right to select its own competent medical authority and any disputes will be resolved by binding arbitration.

These executives have also signed the Company's standard confidentiality and non-competition agreement that applies for certain time periods following the employee's termination of employment for any reason. The non-competition time periods after termination of employment are as follows: John F. Kane 6 months, and Russell A. Whitney 2 years. The employment agreements specify payment to the employees upon each of the following situations:

- death or disability of the employee;
- termination by us for cause;
- termination by us without cause; and
- termination following a change of control for Mr. Whitney and Mr. Simon.

The table below illustrates the potential payouts to each Named Executive Officer employed by the Company in an officer capacity as of December 31, 2007, under each of the various separation situations. The table assumes that the terminations took place on December 31, 2007.

Table of Contents**DIRECTOR COMPENSATION**

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board. In setting director compensation, we consider the significant amount of time that directors expend in fulfilling their duties to the Company as well as the skill-level required of members of the Board.

Our employee directors do not receive any additional compensation for serving on the Board. During fiscal 2007, our employee directors serving on the Board were Russell A. Whitney, Ronald Simon and John Kane (effective November 2007).

Initially, in 2007, each non-employee director received a \$10,000 quarterly retainer. Effective April 1, 2007, this retainer was raised to \$25,000 per quarter on a temporary basis to compensate the Directors for the additional work involved with the Company while under the SEC investigation. Expenses incurred by our non-employee directors in attending Board meetings are reimbursed. During fiscal 2007, the Board of Directors granted 10,000 stock options to newly appointed Board Members. In addition to the Board of Directors receiving a quarterly retainer, they are eligible to receive 10,000 options per year, no options were awarded in 2007 except to the new members. As described more fully below, this table summarizes compensation paid to each non-employee director during 2007;

Name	Fees earned or paid in cash	Option awards (a)	Total
Frederick A. Cardin (f)	\$ 85,000	\$ 18,288	\$ 103,288
Murray A. Indick (b)(f)	9,066	3,575	12,641
Stephen L. Cootey (c)	10,000		10,000
Anthony B. Petrelli (d)	10,000		10,000
Chester R. Schwartz (e)	20,000		20,000

(a) This column shows the amount we have expensed during 2007 under SFAS No. 123R for outstanding stock option awards and includes compensation cost recognized in the Consolidated Financial Statements with respect to awards granted in 2007 and previous fiscal years. The fair value of the awards has been determined based on the assumptions set forth in our 2007 Form 10-K (Note 10 - *Stock Options*) and do not correspond to the actual value that will be recognized by the director.

(b) Mr. Indick joined the Board of Directors on November 21, 2007.

(c) Mr. Cootey resigned from the Board of Directors on March 22, 2007.

(d) Mr. Petrelli resigned from the Board of Directors on March 23, 2007.

(e) Mr. Schwartz resigned from the Board of Directors on July 2, 2007.

(f) The aggregate number of option awards and respective grant date fair value per share outstanding at December 31, 2007 for each non-employee director is reflected in the following chart:

Director	Grant date	Options	Grant date fair value per share	
Frederick A. Cardin	August 08, 2003	5,000	\$	3.90
	May 06, 2005	15,000	\$	2.55
	December 13, 2005	5,000	\$	6.75

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The following is a summary of transactions during fiscal 2006 and 2007 between the Company and its executive officers, directors, nominees, principal shareholders and other related parties involving amounts in excess of \$120,000 or which the Company has chosen to voluntarily disclose.

Table of Contents

We lease approximately 2,200 square feet of training facilities at 1611 East Cape Coral Parkway, approximately 9,000 square feet of space at 1625 East Cape Coral Parkway which is used for offices and shipping, and 4,802 square feet at 1630 Southeast 47th Terrace which we use as a training facility, all in Cape Coral, Florida from Cape Promenade Trust which is for the benefit of our former Chairman and Chief Executive Officer, Mr. Whitney and Ingrid Whitney. The leases are for three years and began on March 1, 2003, March 1, 2003, and June 1, 2004, respectively. The monthly rentals were \$1,943, \$13,193 and \$7,238 in 2007, respectively. We terminated the 1611 East Cape Coral Parkway and 1630 Southeast 47th Terrace leases on September 17, 2007. We notified Cape Promenade Trust on November 21, 2008 we are terminating the 1625 East Cape Coral Parkway lease effective December 31, 2008. (Collectively, all the leases described herein shall be referred to as the RW Leases).

Gulfstream Development Group, LLC

For the years ended December 31, 2003 through 2007, the Company had an agreement with Gulfstream Development Group, LLC (Gulfstream) in which we were compensated for appointing Gulfstream as the exclusive offeror of homes for students of our advanced real estate courses. Students were offered the opportunity to purchase residential lots in Southwest Florida from Gulfstream, other lot owners, or Mr. Whitney. Gulfstream constructs homes on lots owned by our students. Under a Referral Services Agreement with Gulfstream, Gulfstream paid the Company a flat fee of \$100,000 for all referrals that occurred before January 1, 2003, and agreed to pay the Company \$1,000 for each student that the Company referred to Gulfstream who purchased and closed on a home built by Gulfstream after January 1, 2003. During 2007, the amount of the Company s referral fee was increased to \$2,500, with \$500 of that being paid to Company trainers who assisted in the referral. Under this arrangement, the Company received \$0.3 million and \$0.1 million from Gulfstream in the years ended December 31, 2006 and 2007 respectively.

During the years ended December 31, 2006 and 2007, Mr. Whitney and Ingrid Whitney jointly held an indirect 25% beneficial ownership interest in Gulfstream and received 15% of distributions of net cash flow from Gulfstream. Mr. and Mrs. Whitney hold their investment in Gulfstream through Rec One Inc., an entity owned jointly by them. Pursuant to an agreement between Mr. and Mrs. Whitney, as of December 31, 2007, Mr. Whitney holds an indirect 12.5% beneficial ownership interest in Gulfstream and is entitled to 7.5% of distributions of net cash flow from Gulfstream.

During the years ended December 31, 2004 through 2007, Gulfstream had an informal arrangement with Mr. Whitney pursuant to which Gulfstream paid Mr. Whitney a salary and paid Rec One transaction-based compensation for Mr. Whitney s services, including marketing and construction contract administration in connection with home sales to the Company s students and other persons, as well as for credit support provided to Gulfstream by Mr. Whitney. The transaction-based compensation consisted of payments of \$2,500 or \$4,000 to Rec One by Gulfstream upon purchases of Gulfstream homes by our students.

During the years ended December 31, 2003, 2004 and 2005, the Company made payments to Gulfstream of approximately \$0.1 million, \$0.7 million and \$0.2 million respectively, for construction services on our corporate headquarters building. The construction services provided in 2003 were for leasehold improvements and in 2004 services were provided to repair the extensive damage to our corporate headquarters as a result of Hurricane Charley.

The following table sets forth the salary and transaction-based compensation that Mr. Whitney received from Gulfstream during the years ended December 31, 2003, 2004, 2005, 2006, and 2007, and is based upon information provided to Mr. Whitney by Gulfstream:

- (2) Total distributions include portions paid to Rec One and shared by Mr. Whitney and Ms. Whitney on a 50/50 basis.
- (3) Rec One was required to fund 25% of capital calls from Gulfstream. The amounts shown above do not reflect these capital calls which, including the portions for both Mr. Whitney and Ms. Whitney, were \$202,793 in 2005 and \$486,530 in 2006.

(Collectively, the transactions described herein shall be referred to as the Gulfstream Transactions).

Costa Rica

As of December 31, 2007, we had investments in several Costa Rican and Panamanian entities. In addition, two former executives, our Chairman and Chief Executive Officer, Mr. Whitney, and our former Co-President and Chief Operating Officer, Mr. Simon, have individual ownership interests in some of these entities. The entities in which both the Company and one or more former executives also has an ownership interest include: Rancho Monterey, S.A., Monterey del Este, S.A., Monterey del Llano, S.A. and Monterey Group, S.A. Mr. Whitney indirectly owns approximately 11.4% of Rancho Monterey, S.A., 8.0% of Monterey del Este, S.A., 50.0% of Monterey del Llano, S.A., and 22.0% of Monterey Group, S.A. Mr. Simon indirectly owns approximately 1.4% of Rancho Monterey, S.A. These entities are managed by Monterey Management, S.A., a company which is 100% owned by Ms. Maria Jimenez, who is paid as an independent contractor by the Company.

Monterey Management, S.A., receives management fees from these and other entities. The amounts earned for management fees for the years ended December 31, 2007 and 2006 were \$500,000 and \$800,000, respectively. In addition to management fees, commissions on the sale of land in Rancho Monterey, S.A. and Monterey del Este, S.A. were paid to Monterey Management, S.A. and others including unrelated real estate agents and brokers for the year ended December 31, 2006.

In January 2008, some of our investments in properties located in Costa Rica, including Rancho Monterey S.A., Monterey del Este, S.A. and Beautiful Hill S.A (our conference center) were sold to an unrelated party for a sales price of \$12.2 million, of which the Company received \$2.5 million for its interests in these entities. In addition, working capital advances to these entities and to Monterey Management, S.A. totaling \$600,000 were repaid. In connection with the sale, consulting fees totaling \$802,000 were paid as follows: Mr. Whitney (\$401,000), Mr. Simon (\$140,400), Mr. Densley, the former Vice President of Real Estate, (\$160,600) and Ms. Jimenez, an independent contractor, (\$100,000) in January of 2008. Monterey Management S.A. made the following payments from its proceeds from the sale: \$210,000 to Mr. Whitney and \$95,000 to each Mr. Simon and Mr. Densley.

Mr. Whitney and Ingrid Whitney, Mr. Ronald Simon and his wife, former employees, associates and independent contractors and others own shares of Costa Rica Consulting, LLC (CRC). CRC owned a 10% share of Rancho Monterey, S.A. as of December 31, 2007. These shares were sold in 2008.

All of the transactions listed under the heading "Costa Rica" described herein, shall be collectively referred to as the "Costa Rican Transactions."

Related Party Transactions Policy

The Board of Directors adopted a Related Party Transaction Policy for the review of related person transactions on March 23, 2007 which is available on our Web site at <http://www.wincorporate.com/corpgov.htm>. Under these policies and procedures, the Audit Committee will review related person transactions in which we are or will be a participant to determine if they are in the best interests of our shareholders and the Company. Financial transactions, arrangements, relationships or any series of similar transactions, arrangements or relationships in which a related person had or will have a material interest and that exceed

Table of Contents

\$120,000 are subject to the Committee's review. Any member of the Audit Committee who is a related person with respect to a transaction under review may not participate in the deliberation or vote requesting approval or ratification of the transaction. Transactions that are subject to the policy include any transaction, arrangement or relationship (including indebtedness or guarantees of indebtedness) in which the Company is a participant with a related person. The related person may have a direct or indirect material interest in the transaction.

Related persons are directors, director nominees, executive officers, holders of 5% or more of our voting stock, and their immediate family members. Immediate family member is defined as any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, and any person (other than a tenant or employee) sharing the household of any executive officer, director, nominee for director, or holder of more than 5% of any class of the Company's voting securities. The related party transactions policy requires all Named Executive Officers, other executives, directors, and affiliated holders of more than 5% of any class of Company stock, to complete and sign a related person transaction disclosure questionnaire on a quarterly basis. This questionnaire must disclose any related person transactions that have occurred the previous quarter or that are planned to occur during the upcoming year. An indirect interest of a related person in a transaction includes a related person serving as an officer or employee of, or being a significant investor or equity holder in, an entity that is a party to a transaction with the Company.

Exemptions from this policy include: (i) payment of compensation by the Company to its officers or directors for service to the Company in their stated capacity; (ii) transactions available to all employees or all shareholders of the Company on the same terms; and (iii) transactions, which when aggregated for any related person, involve equal to or less than \$120,000 in a fiscal year.

Transaction details required for disclosure include: (i) name of the related person and the basis on which the person is a related person; (ii) the related person's interest in the transaction with the Company, including the related person's position(s) or relationship(s) with, or ownership in, a firm, corporation, or other entity that is a party to, or has an interest in, the transaction; (iii) the approximate dollar value of the amount involved in the transaction; (iv) in the case of indebtedness, disclosure of the amount involved in the transaction shall include the largest aggregate amount of principal outstanding during the period for which disclosure is provided, the current amount outstanding, and the amount of interest paid or payable; and (v) any other information that is material to investors.

The Audit Committee will analyze the following factors, in addition to any other factors the Committee deems appropriate, in determining whether to approve a related person transaction: (i) fairness of the terms for the Company; (ii) materiality of the transaction; (iii) role of the related person in the transaction; (iv) structure of the transaction; and (v) interests of all related parties in the transaction.

The Audit Committee will only approve a related person transaction if the Audit Committee determines that the terms of the related person transaction are beneficial and fair to the Company. Approval of a related party transaction may be conditioned upon the Company and the related person taking any or all of the following additional actions, or any other actions that the Audit Committee deems appropriate, as set forth in more detail in the Company's Related Party Transactions Policy.

It is the Company's policy that the Committee shall approve any related party transaction before the commencement of the transaction. However, if the transaction is not identified before commencement, it must still be presented to the Committee for its review and ratification. The Audit Committee reviewed and approved the RW Leases. A committee of independent directors of the Board of Directors is reviewing the Gulfstream Transactions, Costa Rican Transactions, Whitney Leadership acquisition and the Equity Corp. acquisition regarding compliance with the applicable governance and related party transaction requirements.

Table of Contents**ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES**

Ehrhardt Keefe Steiner & Hottman, P.C., Denver, Colorado (EKS&H), conducted the audit of our Consolidated Financial Statements for the years ended December 31, 2007 and 2006. It is our understanding that this firm is obligated to maintain audit independence as prescribed by the accounting profession and certain requirements of the SEC. As a result, our Audit Committee specifically approves, in advance, non-audit services provided by EKS&H, and it considers the effect, if any, of such services on audit independence. All services provided by EKS&H in 2007 were pre-approved in accordance with these procedures and the Audit Committee concluded that the services provided by EKS&H for activities unrelated to the audit in 2007 are compatible with EKS&H maintaining its independence.

The following table presents fees for professional audit services rendered by EKS&H, our independent auditor, for the audit of our Consolidated Financial Statements for the years ended December 31, 2007 and 2006, and fees billed for other services rendered by EKS&H (in thousands).

	Years ended December 31,	
	2007	2006
Audit fees	\$ 783	\$ 400
Audit-related fees (1)	26	25
Tax fees (3)	139	115
All other fees (2)	57	570
Total fees	\$ 1,005	\$ 1,110

- (1) Primarily includes the fees for the audit of our 401(k) plan.
- (2) In 2006, these fees relate primarily to the Form S-1 registration statements for the Company and EduTrades, Inc. filed, and withdrawn, respectively, with the SEC.
- (3) Primarily relates to tax compliance, tax advice and tax planning.
