1. Financial Statements

The accompanying unaudited consolidated financial statements of KapStone Paper and Packaging Corporation (the Company, we, us, our or KapStone) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of a normal recurring nature) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2013.

2. Recent Accounting Pronouncements

In July 2013, the FASB issued Accounting Standards Update (ASU) No. 2013-11 Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (ASU No. 2013-11). ASU No. 2013-11 amends the guidance within Accounting Standards Codification (ASC) Topic 740, Income Taxes , to require entities to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The Company adopted ASU No. 2013-11 beginning in the first quarter of 2014 with no impact on the consolidated financial statements.

3. Longview Acquisition

On July 18, 2013, the Company acquired 100 percent of the stock of Longview Fibre Paper and Packaging, Inc., (Longview) for \$1.025 billion plus \$41.5 million of working capital adjustments. Longview is a leading manufacturer of high quality containerboard, kraft papers, and corrugated products. Longview s operations include a paper mill located in Longview, Washington equipped with five paper machines which have the capacity to produce 1.3 million tons of containerboard and kraft paper annually. Longview also owns seven converting facilities located in the Pacific Northwest.

The excess of the purchase price over the aggregate estimated fair value of net assets acquired was allocated to goodwill. The purchase price allocation is preliminary subject to final review of acquired asset valuations and related deferred income taxes and is expected to be finalized in the quarter ended June 30, 2014.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed as of December 31, 2013, as well as adjustments (referred to as measurement period adjustments):

4. Annual Planned Maintenance Outage

Annual planned maintenance outage costs for the three months ended March 31, 2014 and 2013 totaled \$14.8 million and \$4.7 million, respectively, and are included in cost of sales. The increase in outage costs in the quarter ended March 31, 2014 reflect \$5.6 million of outage costs at the North Charleston, South Carolina paper mill as a result of downtime incurred during the upgrade of the No. 3 paper machine and \$5.1 million at the Longview, Washington paper mill.

5. Inventories

Inventories consist of the following at March 31, 2014 and December 31, 2013, respectively:

6. Short-term Borrowings and Long-term Debt

As of March 31, 2014, the Company has current availability of \$395.0 million under the Revolver.

As of March 31, 2014, the Credit Facility had two term loans outstanding totaling \$1.223 billion with a weighted average interest rate of 2.25%.

Debt Covenants

The Amended and Restated Credit Agreement contains, among other provisions, covenants with which we must comply. The covenants limit our ability to, among other things, incur indebtedness, create additional liens on our assets, make investments, engage in mergers and acquisitions, pay dividends and sell any assets outside the normal course of business.

As of March 31, 2014, the Company was in compliance with all applicable covenants in the Amended and Restated Credit Agreement.

Fair Value of Debt

At March 31, 2014, the fair value of the Company's debt approximates the carrying value of \$1.2 billion as the variable interest rates re-price frequently at current market rates. The debt was valued using Level 2 inputs in the fair value hierarchy which are significant observable inputs including quoted prices for debt of similar terms and maturities.

Other Borrowing

In 2014 and 2013, the Company entered into short-term financing agreements of \$6.3 million and \$3.7 million, respectively, at an annual interest rate of 1.69 and 1.56 percent, respectively, for its annual property insurance premiums. The agreements require the Company to pay consecutive monthly payments through the term of each financing agreement ending on December 1st. As of March 31, 2014 and March 31, 2013, there was \$4.6 million and \$2.7 million, respectively, outstanding under the current agreement which is included in Other current borrowings on the Consolidated Balance Sheets.

7. Income Taxes

The Company's effective income tax rate for the three months ended March 31, 2014 and 2013 was 34.3 percent and 33.8 percent, respectively. The 2013 rate included a favorable discrete adjustment for a 2012 R&D tax credit. The differences between the effective income tax rate and the federal statutory tax rate for the quarters ended March 31, 2014 and 2013 are due to the impact of state tax, net of the federal benefit and the expected domestic manufacturing deduction.

The gross unrecognized tax benefits, including interest, as of March 31, 2014 and December 31, 2013 were \$0.7 million. Unrecognized tax benefits of \$0.7 million are included in Other liabilities on the Consolidated Balance Sheets.

In the normal course of business, the Company is subject to examination by taxing authorities. The Company's open federal tax years are 2010 through 2013. Open tax years for acquired companies are 2009 through 2011 relating to the USC acquisition and 2011 through 2013 relating to the Longview acquisition. The Internal Revenue Service is currently examining the Company's income tax return for 2012, the USC income tax return for 2009, and the Longview tax returns for 2011 through 2013.

Table of Contents**8. Net Income per Share**

Basic and diluted net income per share is calculated as follows (In thousands, except for share and per share data):

	Three Months Ended March 31,	
	2014	2013
Net income	\$ 32,099	\$ 18,459
Weighted-average number of common shares for basic net income per share	95,720,328	95,004,020

Net income per share - basic	\$ 0.34	\$ 0.19
Net income per share - diluted	\$ 0.33	\$ 0.19

Approximately 47,000 shares of unexercised stock options were outstanding at March 31, 2014 but were not included in the computation of diluted earnings per share because the options were anti-dilutive.

On December 11, 2013, the board of directors declared a two-for-one stock split in the form of a stock dividend on the Company's common stock. To implement the stock split, shares of common stock were distributed on January 7, 2014 to all shareholders of record as of the close of business on December 23, 2013. All shares and earnings per share amounts for the three months ended March 31, 2013 have been restated to reflect this change.

Net pension cost - multi -employer plan	84	18

The year-over-year change in total net pension benefit is a result of an overfunded plan resulting from the Longview acquisition.

KapStone funds the Pension Plans according to IRS funding requirements. Based on those requirements, KapStone funded \$1.5 million for the three months ended March 31, 2014 and expects to fund an additional \$2.4 million to the Pension Plans in 2014.

Unrecognized restricted stock unit compensation expense	5,726	2,535
Total unrecognized stock-based compensation expense	\$ 10,867	\$ 4,785

As of March 31, 2014, total unrecognized compensation cost related to non-vested stock options and restricted stock units is expected to be recognized over a weighted average period of 2.2 years and 2.5 years, respectively.

Stock Options

Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

Stock option awards vest as follows: 50% after two years and the remaining 50% after three years or upon a grantee of such stock options attaining the age 65. The stock options awarded in 2014 have a contractual term of ten years and are subject to forfeiture should the recipient terminate his or her employment with the Company for certain reasons prior to vesting in his or her awards, or the occurrence of certain other events such as termination with cause. The exercise price of these stock options is based on the closing market price of our common stock on the date of grant (\$30.40 is the weighted average price for the 2014 awards described above) and compensation expense is recorded on an accelerated basis over the awards vesting periods.

The weighted average fair value of the stock options granted in March 2014 and 2013 was \$10.36 and \$5.41, respectively. The fair value was calculated using the Black-Scholes option-pricing model based on the market price at the grant date and the weighted average assumptions specific to the underlying options. In the quarter ended March 31, 2014, the expected term used by the Company is based on the historical average life of stock option awards. The expected volatility assumption is based on the volatility of our common stock from the same time period as the expected term of the stock options. The risk-free interest rate was selected based upon yields of U.S. Treasury issues with a term similar to the expected life of the stock options.

The assumptions utilized for calculating the fair value of stock options during the period are as follows:

	Three Months Ended March 31,	
	2014	2013
Stock Options Black-Scholes assumptions (weighted average):		
Expected volatility	39.93%	50.19%
Expected life (years)	4.30	4.00
Risk-free interest rate	1.34%	0.57%
Expected Dividend yield	%	%

For the three months ended March 31, 2014 and 2013, cash proceeds from the exercise of stock options totaled \$0.2 million and \$0.4 million, respectively.

Restricted Stock

Restricted stock units are restricted as to transferability until they vest three years from the grant date or upon a grantee of such restricted stock units attaining the age 65. These restricted stock units are subject to forfeiture should applicable employees terminate their employment with the Company for certain reasons prior to vesting in their awards, or the occurrence of certain other events. The value of these restricted stock units is based on the closing market price of our common stock on the date of grant and compensation expense is recorded on a straight-line basis over the awards' vesting periods.

The following table summarizes unvested restricted stock units amounts and activity:

However, actual outcomes may be different from those expected and could have a material effect on our results of operations or cash flows in a particular period.

There have been no material changes in any of our legal proceedings since December 31, 2013.

12. Segment Information

The Company has one operating segment. The Company produces containerboard, corrugated products, and specialty paper which are sold to customers who convert our products into end-market finished products or internally to corrugating plants which produce a wide variety of products ranging from basic corrugated shipping containers to specialized packaging.

Table of Contents

The Company's identification of one operating segment is based on financial information regularly evaluated by the chief operating decision maker in determining resource allocation and assessing performance, in accordance with Accounting Standards Codification 805, *Segment Reporting*.

Net sales for the three months ended March 31, 2014 and 2013 are as follows:

Net sales by product line:	Three Months Ended March 31,		Increase/ (Decrease)
	2014	2013	
Containerboard / Corrugated products	\$ 336,249	\$ 193,826	\$ 142,423
Specialty paper	189,009	104,550	84,459
Other	23,694	21,437	2,257
Total	\$ 548,952	\$ 319,813	\$ 229,139

In the three months ended March 31, 2014, the increase in net sales was driven primarily by the Longview acquisition which accounted for \$227.5 million.

13. Subsequent Events

On April 2, 2014 the Company amended its Amended and Restated Credit Agreement. The amendment reduces the borrowing rates for outstanding term loans and for any future borrowings under the \$400 million Revolver. The interest rates are based on LIBOR rates plus margin determined from a pricing grid based on the Company's debt to EBITDA ratio as defined by the Amended and Restated Credit Agreement. As of March 31, 2014, our Credit Facility had two term loans outstanding totaling \$1.223 billion. The new weighted average interest rate will be 2.0 percent, down from 2.25 percent as of March 31, 2014. The amendment also reduces the unused commitment fees related to the Revolver by 5 to 10 basis points.

In February 2014, the Company offered a voluntary separation plan to a specific identified group of employees. The employees were given a limited timeframe to review the offer and to communicate their acceptance. As of April 30, 2014, the Company anticipates up to 40 employees accepting the offer during the quarter ending June 30, 2014 with an additional 10 to 15 employees accepting the offer later in 2014.

The Company expects to recognize the expense associated with this offer mainly during the second quarter of 2014 with some carryover the remainder of 2014. The amount of the expense will be dependent, among other factors, on the actual number of employees that accept the offer. While the Company cannot estimate the amount of the expense at this time, the Company expects the total amount of the charge to earnings before tax to be up to \$5.0 million in the quarter ending June 30, 2014 with an additional \$1.0 million to \$2.0 million later in 2014.

Net sales for the quarter ended March 31, 2014 were \$549.0 million compared to \$319.8 million for the first quarter of 2013, an increase of \$229.2 million. The increase in net sales was driven primarily by the Longview acquisition which accounted for \$227.5 million of the increase. Average selling prices increased primarily due to higher domestic and export containerboard prices. Average mill selling price per ton for the quarter ended March 31, 2014 was \$685 compared to \$653 for the first quarter 2013.

The Company announced a \$50 per ton selling price increase for domestic kraft paper in February 2014. This price increase, if accepted by the marketplace, is estimated to increase net sales by approximately

\$2.0 million for the second quarter and should be fully implemented by the third quarter with an increase to net sales of approximately \$7.5 million per quarter.

Tons of product sold for the quarter ended March 31, 2014 was 673,366 tons compared to 419,899 tons for the quarter ended March 31, 2013. Excluding the Longview acquisition, tons of products sold for the quarter ended March 31, 2014 decreased by 21,488 tons or 5.1% as follows:

- Containerboard / Corrugated products sales volume decreased 4.7 percent. Containerboard sales decreased 10.6 percent reflecting volumes being redirected from outside sales to fulfill demand for internal converting. Corrugated product sales volume increased 5.8 percent.
- Specialty paper sales volume decreased by 5.8 percent, primarily due to lower Durasorb sales as a key customer changed suppliers.

Cost of sales, excluding depreciation and amortization expense, for the quarter ended March 31, 2014 was \$383.2 million compared to \$224.9 million for the first quarter of 2013, an increase of \$158.3 million. The increase in cost of sales was mainly due to the \$153.4 impact of the Longview acquisition. Excluding the Longview acquisition, cost of sales increased by \$4.9 million, or 2.2 percent, mainly due to \$5.0 million of higher planned maintenance outage costs, \$2.7 million of inflation on labor, benefits and input costs, and \$2.7 million of weather related costs partially offset by lower volume. Planned maintenance outage costs of approximately \$14.8 million and \$4.7 million were included in cost of sales for the quarters ended March 31, 2014 and 2013, respectively.

Depreciation and amortization expense for the quarter ended March 31, 2014 totaled \$32.7 million compared to \$17.2 million for the quarter ended March 31, 2013. The increase of \$15.5 million was primarily due to the Longview acquisition and included \$1.3 million of amortization expense for identified intangibles associated with the Longview acquisition.

Freight and distribution expenses for the quarter ended March 31, 2014 totaled \$40.7 million compared to \$27.9 million for the quarter ended March 31, 2013. The increase of \$12.8 million was due to \$13.3 million from the Longview acquisition.

Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

Selling, general and administrative expenses for the quarter ended March 31, 2014 totaled \$34.1 million compared to \$19.1 million for the quarter ended March 31, 2013. The increase of \$15.0 million was primarily due to \$11.2 million from the Longview acquisition. Excluding the Longview acquisition, selling, general, and administrative expenses increased by \$3.8 million due to \$2.7 million of higher compensation related expenses, \$0.4 million of IT related expenses, and \$0.1 million of bad debt expense. Net interest expense for the quarters ended March 31, 2014 and 2013 was \$9.2 million and \$2.6 million, respectively. Interest expense reflects interest on the Company's Credit Facility and amortization of debt issuance costs. Interest expense was \$6.6 million higher in the quarter ended March 31, 2014 due to higher term loan balances used to fund the Longview acquisition and an increase in interest rates.

Provision for income taxes for the quarters ended March 31, 2014 and 2013 was \$16.8 million and \$9.4 million, respectively, reflecting an effective tax rate of 34.3 percent for the quarter ended March 31, 2014 compared to 33.8 percent for the similar period in 2013. The higher provision for income taxes in 2014 primarily reflects higher pre-tax income of \$21.0 million.

Liquidity and Capital Resources

Credit Facilities

The Company has \$395.0 million available under the Revolver at March 31, 2014. In addition, the Company's Credit Facility also includes an accordion feature that allows the Company, subject to certain terms and conditions, to increase the commitments under the Revolver by up to \$300.0 million.

On April 2, 2014, the Company amended its Amended and Restated Credit Agreement. The amendment reduces the borrowing rates for outstanding term loans and for any future borrowings under the \$400 million Revolver credit facility. The interest rates are based on LIBOR rates plus margin determined from a pricing grid based on the Company's debt to EBITDA ratio as defined by the agreement. As of March 31, 2014, the Credit Facility had two term loans outstanding totaling \$1.223 billion. The new weighted average interest rate will be 2.0 percent, a reduction from 2.25 percent as of March 31, 2014. The amendment also reduces the unused commitment fees related to the Revolver by 5 to 10 basis points.

Voluntary and Mandatory Prepayments

For the three months ended March 31, 2014, the Company made no voluntary prepayments on its term loans under the Amended and Restated Credit Agreement. No mandatory prepayments were required under the Amended and Restated Credit Agreement.

Other Borrowing

In January 2014, the Company entered into short-term financing agreements of \$6.3 million at an annual interest rate of 1.69 for its annual property insurance premiums. The agreements require the Company to pay consecutive monthly payments through the term of each financing agreement ending on December 1st. As of March 31, 2014, there was \$4.6 million outstanding under the current agreement.

Debt Covenants

As of March 31, 2014, under the financial covenants of the Amended and Restated Credit Agreement, the Company must comply on a quarterly basis with a maximum permitted leverage ratio. The leverage ratio is calculated by dividing the Company's debt by its rolling twelve month total earnings before interest expense, taxes, depreciation and amortization and allowable adjustments. The maximum permitted leverage ratio declines over the life of the Amended and Restated Credit Agreement. On March 31, 2014, the maximum permitted leverage ratio was 4.50 to 1.00. On March 31, 2014, the Company was in compliance with a leverage ratio of 2.72 to 1.00.

The Amended and Restated Credit Agreement also includes a financial covenant requiring a minimum fixed charge coverage ratio. This ratio is calculated by dividing the Company's twelve month total earnings before interest expense, taxes, depreciation and amortization and allowable adjustments less cash payments for income taxes and capital expenditures by the sum of our cash interest and required principal payments during the twelve month period. From the closing date of the Amended and Restated Credit Agreement through the quarter ending March 31, 2014, the fixed charge coverage ratio was required to be at least 1.25 to 1.00. On March 31, 2014, the Company was in compliance with the Amended and Restated Credit Agreement with a fixed charge coverage ratio of 5.78 to 1.00.

As of March 31, 2014, KapStone was also in compliance with all other covenants in the Amended and Restated Credit Agreement.

Income taxes

The Company's effective income tax rate excluding discrete items for 2014 is projected to be 34.5 percent. The cash tax rate for 2014 is projected to be 35 percent.

Table of Contents*Sources and Uses of Cash*

Three months ended March 31 (in thousands)	2014		2013	
Operating activities	\$	38,951	\$	15,637
Investing activities		(32,420)		(16,832)
Financing activities		4,451		(7,675)
Total change in cash and cash equivalents	\$	10,982	\$	(8,870)

Cash and cash equivalents increased by \$11.0 million from December 31, 2013, reflecting \$39.0 million of net cash provided by operating activities, \$32.4 million of net cash used in investing activities, and \$4.5 million of net cash provided by financing activities in the first three months of 2014.

Net cash provided by operating activities was \$39.0 million primarily due to net income for the quarter of \$32.1 million and non-cash charges of \$35.1 million. Changes in operating assets and liabilities used \$28.2 million of cash. Net cash provided by operating activities increased by \$23.3 million in the quarter ended March 31, 2014 compared to the quarter ended March 31, 2013, mainly due to a \$13.6 million increase in net income, higher non-cash charges of \$10.1 million, and \$0.4 million of cash used in changes in operating assets and liabilities.

Net cash used in investing activities was \$32.4 million for capital expenditures. For the quarter ended March 31, 2014, capital expenditures included \$12.8 million for our Longview operations acquired on July 18, 2013 and \$5.5 million for the completion of the North Charleston, South Carolina paper mill No. 3 paper machine upgrade.

Net cash provided by financing activities was \$4.5 million and reflects \$4.6 million of other current borrowings and repayments for our annual property insurance premiums and \$1.0 million of proceeds from share transactions, partially offset by \$1.2 million for payment on long-term debt. Net cash provided by financing activities increased by \$12.1 million in the quarter ended March 31, 2014, compared to the quarter ended March 31, 2013, primarily due to higher short-term borrowings and repayments under the Revolver in the first quarter of 2013.

Future Cash Needs

We expect that cash generated from operating activities and, if needed, the ability to draw from our \$400.0 million Revolver and our \$300.0 million accordion provision under our Revolver, if available, will be sufficient to meet anticipated 2014 cash needs. Our 2014 cash needs primarily consists of \$34.1 million to pay the current portion of long-term debt and interest on our term loans, a range of \$78 million to \$88 million for capital expenditures for the balance of 2014, funding an additional \$2.4 million contribution to our pension plans and any additional working capital needs.

Edgar Filing: KAPSTONE PAPER & PACKAGING CORP - Form 10-Q

We have not entered into any off-balance sheet financing arrangements and have not established any special purpose entities. We have not guaranteed any debt or commitments of other entities or entered into any options on non-financial assets.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the sensitivity of income to changes in interest rates, commodity prices, equity prices, and other market-driven rates or prices.

Under our Amended and Restated Credit Agreement, at March 31, 2014, we have an outstanding Credit Facility consisting of two term loans totaling \$1.2 billion and the Revolver with commitments of \$400 million.

Depending on the type of borrowing, the applicable interest rate under the Credit Facility is calculated at a per annum rate equal to (a) LIBOR plus an applicable margin or (b) the base rate that is calculated as (i) the greatest of (x) the prime rate, (y) the federal funds effective rate plus 0.50% or (z) a daily rate equal to one month LIBOR plus 1% plus (ii) an applicable margin. The unused portion of the Revolver will also be subject to an unused fee that will be calculated at a per annum rate (the Unused Fee Rate), which will initially be 0.50%.

Commencing with the delivery of the financial statements for the fiscal quarter ending December 31, 2013, the applicable margin for borrowings under the Credit Facility and the Unused Fee Rate will be determined by reference to the pricing grid based on the Company's total leverage ratio. Under such pricing grid, the applicable margins for Term Loan A-1 and Revolver will range from 1.25% to 2.25% for Eurodollar loans and from 0.25% to 1.25% for base rate loans and the Unused Fee Rate will range from 0.30% to 0.50%. The applicable margins for Term Loan A-2 will range from 1.50% to 2.50% for Eurodollar loans and from 0.50% to 1.50% for base rate loans.

Changes in market rates may impact the base or LIBOR rate in our Amended and Restated Credit Agreement. For instance, if the bank's LIBOR rate was to increase or decrease by one percentage point (1.0%), our annual interest expense would change by approximately \$12.4 million based upon our expected future monthly term loan balances per our existing repayment schedule.

We are exposed to price fluctuations of certain commodities used in production. Key raw materials and energy used in the production process include roundwood and woodchips, old corrugated containers (OCC), fuel oil, electricity and caustic soda. We purchase these raw materials and energy at market prices, and do not use forward contracts or other financial instruments to hedge our exposure to price risk related to these commodities. We have three contracts to purchase coal at fixed prices with all expiring on December 31, 2014.

We are exposed to price fluctuations in the price of our finished goods. The prices we charge for our products are primarily based on market conditions.

We are exposed to currency fluctuations as we invoice certain European customers in Euros. The Company did not use forward contracts to reduce the impact of currency fluctuations during the quarter ended March 31, 2014. No such contracts were outstanding at March 31, 2014.

ITEM 4.
