PROXY STATEMENT
FARMERS & MERCHANTS BANCORP
111 West Pine Street, Lodi, CA 95240-2184

I -INTRODUCTION

This proxy statement is furnished to the stockholders of Farmers & Merchants Bancorp (the “Company”) in connection with the solicitation of proxies by the Board of Directors of the Company to be used in voting at the annual meeting of stockholders to be held on May 17, 2010 in the Ole Mettler Pavilion at the Lodi Grape Festival, 413 E. Lockeford Street, Lodi, CA at 4:00 p.m., and at any adjournment or postponement thereof. All expenses incidental to the preparation and mailing, or otherwise making available to all stockholders of the notice, proxy statement and form of proxy will be paid by the Company. This proxy statement and the enclosed proxy are being mailed to the Company’s stockholders on or about April 15, 2010.

For information on how to vote your shares, see the instructions included on the enclosed proxy card and under “Information About Voting and the Annual Meeting.”

II - INFORMATION ABOUT VOTING AND THE ANNUAL MEETING

Voting Rights and Vote Required

Only stockholders of record at the close of business on March 19, 2010 (the “record date”), will be entitled to vote in person at the meeting or by proxy. On the record date, there were 780,944 shares of common stock outstanding and entitled to vote.

Holders of common stock of the Company are entitled to one vote for each share held.

However, with respect to the election of Directors, each stockholder may be eligible to exercise cumulative voting rights and may be entitled to as many votes as shall equal the number of shares of common stock held by such stockholder multiplied by the number of Directors to be elected, and such stockholder may cast all of such votes for a single nominee or may distribute them among two or more nominees. For example, if you own 10 shares of common stock of the Company and 8 Directors are being elected, you have 80 votes – you can cast all of them for one nominee, or two or more nominees if you so choose. No stockholder shall be entitled to cumulate votes (i.e., cast for any one or more nominees a number of votes greater than the number of shares of common stock of the Company held by such stockholder) unless the name(s) of the nominee(s) has (have) been placed in nomination prior to the commencement of the voting in accordance with Article III, Section 3.4 of the Company’s by-laws and, in accordance with Article II, Section 2.9 of the Company’s by-laws, a stockholder has given at least two days written notice to the Secretary of the Company of an intention to cumulate votes prior to the vote. Since the Company’s Annual Meeting of Stockholders is expected to be held on May 17, 2010, any stockholder nomination for election to the Board of Directors for the 2010 Annual Meeting of Stockholders, to be timely, would need to have been received by the Company not later than April 17, 2010 and not earlier than March 18, 2010. As of the printing of this proxy statement, no stockholder has given such notice. Discretionary authority to cumulate votes in the event of such a nomination is solicited in this proxy statement.

In the election of Directors, the 8 nominees receiving the highest number of votes will be elected. Approval of such other matters which properly come before the meeting, if any, will require the affirmative vote of a majority of the shares represented and voting at the meeting provided the quorum requirements of Article II, Section 2.7 of the by-laws are met (see “Voting of Proxies”). Abstentions will not count as votes in favor of the election of Directors or any other proposals.

Voting of Proxies

The shares represented by all properly executed proxies received in time for the meeting will be voted in accordance with the stockholders’ choices specified therein; provided, however, that where no choices have been specified, the shares will be voted “FOR” the election of the 8 nominees for Director recommended by the Board of Directors, and voted at the discretion of the proxy holders on such other matters, if any, which may properly come before the meeting (including any proposal to adjourn the meeting).

A stockholder using the enclosed proxy may revoke the authority conferred by the proxy at any time before it is exercised (i.e., before the vote pursuant to that proxy) by delivering written notice of revocation or a duly executed proxy bearing a later date to the Secretary of the Company, or by appearing and voting by ballot in person at the meeting.

A majority of the shares entitled to vote represented either in person or by properly executed proxies, will constitute a quorum at the meeting. Abstentions and broker “non-votes” are each included in the determination of the number of shares present and voting for purposes of determining the presence of a quorum. A broker “non-vote” occurs when a nominee holding shares for a beneficial owner does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

Abstentions will be included in tabulations of the votes cast on proposals presented to the stockholders and therefore will have the effect of a negative vote. Broker “non-votes” will not be counted for purposes of determining the number of votes cast for a proposal.

ELECTION OF DIRECTORS

At the meeting, it will be proposed to elect eight (8) Directors of the Company, each to hold office until the next annual meeting and until their successors shall be elected and qualified. It is the intention of the proxy holders named in the enclosed proxy to vote such proxies (except those containing contrary instructions) for the eight (8) nominees named below.

Mr. Ole R. Mettler, Chairman of the Board and a Director since 1973, retired effective March 31, 2010. The Board elected Kent A. Steinwert to serve as Chairman of the Board. The Board also elected Bruce A. Mettler to serve as a Director.

The following table sets forth the names of each of the nominees for election as a Director, their age, their principal occupation for the past five years and the period during which they have served as a Director of the Company (or the Bank).

Name	Age	Principal Occupation During Past Five Years	Director Since

Directors are nominated based upon their business experience, knowledge of the Company's key markets and business segments, community involvement and commitment to serving the interests of all stockholders:

Mr. Adams has served as a director for thirteen years, represents the Lodi market area, and provides legal expertise to the Board.

Mr. Corum has served as a director for seven years, represents the Sacramento market area, and provides real estate finance expertise to the Board.

Mr. Mettler joined the Board in 2010, represents the Lodi market area, and provides wine grape expertise to the Board.

Mr. Podesta has served as a director for thirty years, represents the Linden market area, and provides tree crop (cherries) expertise to the Board.

Mr. Wishek has served as a director for twenty-two years, represents the Lodi market area, and provides investment management and community relations expertise to the Board.

With the exception of Messrs. Steinwert and Wishek who are employees of the Company, all nominees are considered to be “independent” as such term is defined by Rule 5605(a)(2) of the Nasdaq’s current listing rules.

None of the Directors of the Company were selected pursuant to arrangements or understandings other than with the Directors and stockholders of the Company acting within their capacity as such. There are no family relationships among the Directors and executive officers of the Company, and none of the Directors serves as a Director of any company which has a class of securities registered under, or subject to periodic reporting requirements of, the Securities Exchange Act of 1934, as amended, or any company registered as an investment company under the Investment Company Act of 1940.

The Board does not anticipate that any of the nominees will be unable to serve as a Director of the Company, but if that should occur before the meeting, the proxy holders, in their discretion, upon the recommendation of the Company’s Board of Directors, reserve the right to substitute as nominee and vote for another person of their choice in the place and stead of any nominee unable so to serve. The proxy holders reserve the right to cumulate votes for the election of Directors and cast all of such votes for any one or more of the nominees, to the exclusion of the others, and in such order of preference as the proxy holders may determine in their discretion, based upon the recommendation of the Board of Directors.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR
THE NOMINEES LISTED.

Code of Ethics

The Company has adopted a Code of Conduct which complies with the Code of Ethics requirements of the Securities and Exchange Commission. A copy of the Code of Conduct is posted on the Company's website at <http://www.fmbonline.com>. The Company intends to disclose promptly any amendment to, or waiver from any provision of, the Code of Conduct applicable to executive officers and Directors, on its website.

Director Independence

The Company uses Rule 5605(a)(2) of the Nasdaq's current listing rules to determine whether a Director is independent. With the exception of Messrs. Steinwert and Wishek who are employees of the Company, all nominees are considered to be "independent."

Board of Directors Meetings

The Company's principal asset is its wholly-owned subsidiary, Farmers & Merchants Bank of Central California (the "Bank"). The Directors of the Company are also Directors of the Bank. During the calendar year ending December 31, 2009, the Board of Directors of the Company met fourteen (14) times and the Board of Directors of the Bank met twenty-five (25) times. Each incumbent attended more than 75% of the meetings of the Board of Directors and the Committee(s) on which they served. The Company expects Directors to attend the annual meeting of stockholders and all Directors attended the annual meeting of stockholders in 2009.

Roles and Responsibilities of the Board of Directors

The Directors of the Company are also Directors of the Bank. As such, Bank Committees supervise and review the activities of the Bank, which in turn report to the Company's Board of Directors.

Leadership Structure

Until his retirement in March 2010, Mr. Ole Mettler had served as the Chairman of the Board for 37 years, and had been an employee of the Bank for 50 years. Upon Mr. Mettler's retirement, the Board of Directors determined that the Chairmanship needed to continue to reside with the Director who was most familiar with the banking industry, and who would be most capable of setting strategic direction and integrating that direction with the Company's day-to-day business development and risk management activities. Accordingly, Mr. Steinwert was named to the position of Chairman in addition to his role for the past twelve years as President and Chief Executive Officer of the Company.

The Board believes that the combination of these positions does not compromise the important "check-and-balance" role that independent Directors play in the oversight of the Company since Mr. Steinwert is not a voting member of the Audit or Personnel Committees of the Board, and therefore key Board decisions and oversight regarding: (1) accounting, financial reporting, and overall risk management; and (2) executive compensation; are made only by "independent" Directors.

As of this date, the Board of Directors has not formally designated a lead independent director.

Role in Risk Management

The Board of Directors' involvement in risk management centers around the following key roles and responsibilities:

1. The Board approves the annual strategic plan and financial budget, and receives monthly reporting of financial and non-financial performance relative to plan.
2. The Board meets twice per month, thereby exercising a more frequent, and probably more detailed, level of oversight than most public companies.
3. The Asset and Liability Management Committee is a joint committee of management and the Board. As a result, "independent" Directors are actively involved in interest rate, liquidity and investment risk management processes.
4. The Loan Committee is a joint committee of management and the Board. The Committee meets weekly to review all loans over \$2 million and evaluate overall portfolio performance and risk. As a result, "independent" Directors are actively involved in the credit risk management process.

More detail on all Board committees, including the composition and roles and responsibilities of each follows.

Committees of the Board

Audit Committee

The Audit Committee of the Company and the Bank oversees the activities of the internal and independent auditors of the Company and the Bank with the aim of ensuring compliance with applicable laws. The Committee's charter is included as Exhibit A to this proxy. The Audit Committee reports to the Boards of Directors of the Bank and the Company, as appropriate. The Audit Committee reviews the reports of audits and examinations of the Bank and the Company made by the independent auditors, internal auditors, credit examiners, and regulatory agencies and reports the results to the Boards of Directors of the Bank and the Company. The Committee met eleven (11) times in 2009 and is comprised of the following members: Messrs. Sanguinetti (Chairman), Corum and Podesta. Each of the Directors serving on the Audit Committee has been determined by the Board of Directors to be "independent" as such term is defined by Rule 5605(a)(2) of the Nasdaq's current listing rules and in SEC rules relating to audit committees. Mr. Sanguinetti has been determined by the Board of Directors to be a "financial expert".

Asset and Liability Management Committee

The Asset and Liability Management Committee of the Company and the Bank is responsible for the formulation, revision and administration of the Bank's policies relating to interest rate, liquidity and investment risk management. The Asset and Liability Committee is a joint committee of management and Directors. The following Directors are voting members: Messrs. Corum, Adams, Suess and Steinwert. The Committee met six (6) times in 2009.

Loan Committee

The Loan Committee of the Company and the Bank is responsible for the formulation, revision and administration of the Bank's policy relating to credit and loan risk management. The Loan Committee meets weekly and is responsible for approving all loans between \$2 million and \$10 million (over \$10 million requires full Board approval) and reviewing all loans over \$500,000. The Loan Committee is a joint committee of management and Directors. The following Directors are voting members: Messrs. Corum and Steinwert. The Committee met fifty-two (52) times in

2009.

9

Expense Committee

The Expense Committee of the Company and the Bank reviews and examines Bank and Company expenses on a monthly basis comparing the results with (1) the established annual budget, the previous month and prior year; and (2) selected peer banks and the community banking industry as a whole; and proposes recommendations to management regarding controllable expenses. The Committee met twelve (12) times in 2009 and is comprised of the following voting members: Messrs. Podesta (Chairman), Suess and Wishek.

CRA Committee (Community Reinvestment Act)

The CRA Committee of the Company and the Bank monitors the Bank's efforts and responsibilities to comply with the Community Reinvestment Act. The CRA Committee makes recommendations to the Board of Directors to assure the Bank is meeting the credit, investment and service needs of the communities it serves. The Committee met twelve (12) times in 2009 and is comprised of the following voting members: Messrs. Suess (Chairman), Adams, Podesta and Wishek.

Nominating Committee

The Nominating Committee of the Company and the Bank identifies candidates to serve as Directors of the Bank and the Company in the event of future Board openings. The Committee's charter is included as Exhibit C to this proxy statement. The Committee is comprised of the following voting members: Messrs. Steinwert (Chairman), Corum and Suess. The Committee met one (1) time in 2009. Messrs. Corum and Suess have been determined by the Board of Directors to be "independent" as such term is defined by Rule 5605(a)(2) of the Nasdaq's current listing rules.

Personnel Committee

The Personnel Committee of the Company and the Bank (1) reviews the Company's overall compensation strategies and practices; (2) reviews the employment contracts of all executive officers (see "Employment Contracts"); (3) annually establishes executive compensation levels and performance evaluation measures for the Chief Executive Officer, Chairman and Directors; and (4) reviews the executive compensation levels and performance evaluation measures for the other executive officers of the Company. The Committee's charter is included as Exhibit B to this proxy statement.

The Company's management (1) provides information, analysis and recommendations for the Personnel Committee; and (2) manages the ongoing operations of the compensation program.

In discharging its responsibilities, the Personnel Committee (1) obtains independent data from industry publications and third-party research; and (2) retains independent third-party consultants when it considers it to be necessary.

The Personnel Committee is comprised of the following voting members: Messrs. Adams (Chairman), Corum and Sanguinetti. The Committee met three (3) times in 2009. Each of the Directors serving on the Personnel Committee has been determined by the Board of Directors to be "independent" as such term is defined by Rule 5605(a)(2) of the Nasdaq's current listing rules.

Certain Relationships and Related Person Transactions

Certain Directors and Named Executive Officers of the Bank and the Company and corporations and other organizations associated with them and members of their immediate families were customers of and engaged in banking transactions, including loans, with the Bank in the ordinary course of business in 2009. Such loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with borrowers not related to the Company or Bank. These loans did not involve more than the normal risk of collection or have other unfavorable features. All Director and Named Executive Officer loans must be approved by the Board of Directors. With the exception of the previous banking transactions, the Company had no Related Person Transactions as defined by Item 407(a) of Regulation S-K with its Directors or Named Executive Officers.

Indemnification

The Company's Certificate of Incorporation and By-Laws provide for indemnification of officers, Directors, employees and agents to the fullest extent permitted by Delaware law. Delaware law generally provides for the payment of expenses, including attorneys' fees, judgments, fines and amounts paid in settlement reasonably incurred by the indemnitees provided such person acted in good faith and in a manner he or she reasonably believed not to be opposed to the best interests of the corporation and with respect to any criminal action or proceeding if he or she had no reasonable cause to believe his or her conduct was unlawful. However, in derivative suits, if the suit is lost, no indemnification is permitted in respect of any claim as to which the prospective indemnitee is adjudged to be liable for misconduct in the performance of his or her duty to the Company and then only if, and only to the extent that, a court of competent jurisdiction determines the prospective indemnitee is fairly and reasonably entitled to indemnity for such expenses as the court deems proper. Finally, no indemnification may be provided in any action or suit in which the only liability asserted against a Director is pursuant to a statutory provision proscribing the making of loans, dividends, and distribution of assets under certain circumstances.

The provisions regarding indemnification may not be applicable under certain federal banking and securities laws and regulations.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's Executive Officers and Directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission. Executive Officers, Directors and greater than ten percent stockholders are required by regulation to furnish the Company with copies of all Forms 3, 4 and 5 they file. Based solely on the Company's review of the copies of such forms it has received, the Company believes that all of its Executive Officers and Directors complied with all filing requirements applicable to them with respect to transactions during 2009. The Company has no greater than ten percent stockholders.

Communications with Board of Directors

Any person, including any stockholder, desiring to communicate with, or make any concerns known to, the Company, directors generally, non-management Directors or an individual Director only may do so by submitting them in writing to Stephen W. Haley, Secretary of Farmers & Merchants Bancorp, 111 W. Pine Street, Lodi, CA 95240-2184. All correspondence must include information to identify the person submitting the communication or concern, including name, address, telephone number and e-mail address (if applicable) together with information indicating the relationship of such person to the Company. The Secretary is responsible for maintaining a record of any such communications or concerns and submitting them to the appropriate addressee(s) for potential action or

response. The Company may institute appropriate procedures to establish the authenticity of any communication or concern before forwarding. The Company is not obligated to investigate any anonymous submissions.

IV –

DIRECTOR AND EXECUTIVE COMPENSATION

Director Compensation Discussion and Analysis

Directors who are employees of the Company (Ole Mettler, Kent Steinwert and Carl Wishek in 2009) do not receive additional compensation for their services as Directors.

A Director who is not an employee of the Company receives a \$1,200 fee for each Bank Board Meeting attended (no additional fees are paid for Company Board meetings), and a \$600 fee for each Committee Meeting attended (Committee Chairmen receive \$800 with the exception of the Audit Committee Chairman who receives \$1,000). In addition, each Director who is not an employee of the Company is eligible to receive an annual bonus. Directors may elect to defer receipt of some or all Directors' fees under the Company's Deferred Compensation Plan.

Directors who are not employees of the Company are compensated up to \$538 per month to cover a portion of the cost of outside medical insurance. Directors who are not employees of the Company do not participate in any retirement or medical plans.

The summary compensation earned by each Director (other than Mr. Steinwert who is a Named Executive Officer) during 2009 is disclosed in the "Director Compensation Table" on the following page.

Executive Compensation Discussion and Analysis

Roles and Responsibilities

The Board of Directors of the Company, operating through its Personnel Committee, (1) reviews the Company's overall compensation strategies and practices; (2) reviews the employment contracts of all Named Executive Officers (defined as the CEO, CFO and three other most highly compensated executive officers); (3) annually establishes executive compensation levels and performance evaluation measures for the Chief Executive Officer; and (4) reviews the executive compensation levels and performance evaluation measures for the other Named Executive Officers of the Company.

The role of the Company's management is to: (1) provide information, analysis and recommendations for the Personnel Committee's consideration; and (2) manage the ongoing operations of the compensation program.

In discharging its responsibilities, the Personnel Committee periodically evaluates information obtained from independent sources regarding peer banking institutions in California and in similar markets nationally.

Executive Compensation Strategy and Programs

The objective of the Company's compensation strategy is to establish a competitive compensation package that rewards each officer based on their contribution and performance, thereby serving to attract and retain talented individuals who can implement the Company's strategic plan and maximize long-term stockholder value.

In order to achieve these objectives, the Board has structured a compensation program that includes four major components: (1) annual base salary; (2) annual performance-based bonus; (3) long-term deferred compensation; and (4) post-termination compensation (under certain limited circumstances).

Performance Evaluation Measures

In evaluating the performance of each Named Executive Officer, the Personnel Committee considers a combination of objective and subjective factors, including the following:

1. the Company's annual financial performance (relative to both the current year's budget and the overall performance of a select group of peer community banks as well as the community bank industry as a whole) as measured by Return on Assets; Return on Equity; Efficiency Ratios; and Net Income performance;
2. progress towards achieving the Company's five year strategic plan;
3. results of the Company's and Bank's regulatory examinations; and
4. current economic and industry conditions.

These performance measurement factors are evaluated at least annually. Both the annual budget and strategic plan are approved in advance by the Board of Directors and reevaluated during the year. The Board periodically evaluates information obtained from independent sources regarding peer banking institutions in California and in similar markets nationally, and makes recommendations regarding changes to compensation programs.

In order to ensure that the Company's compensation strategies and programs do not result in inappropriate risk taking on the part of executive management, the Board has determined that:

1. Annual Performance Based Bonuses must include consideration of the results of the Company's and Bank's regulatory examinations by the FRB, FDIC and California Department of Financial Institutions, all of which involve a review of the Company's risk management practices and resulting risk profile.
2. All parts of the Company's Long-Term Deferred Compensation Program have been structured such that the benefits cannot be withdrawn by the participant until they retire from the Company. This results in a significant portion of each executive's compensation remaining at risk during their employment, ensuring that no excessive risks are taken. This is in contrast to most company stock option plans where once the options vest they can be exercised and the stock sold, allowing participants to realize cash compensation based upon shorter-term financial results.

Annual Compensation Program

Base Salary and Annual Performance-Based Bonus

Each Named Executive Officer receives a monthly base salary. Salaries are determined largely based upon comparative industry data for: (1) positions of similar responsibility in similar banking institutions in California; and (2) individuals with similar experience and expertise. Base salary levels are intended to take into consideration that the Company is relatively unique in not offering its executives and employees a stock option or restricted stock long-term compensation program. Merit salary adjustments are evaluated periodically based on Company and individual performance. Goals and objectives are established annually for each officer with performance measured and evaluated at least annually.

Annual bonus compensation is paid according to the Company's Senior Management Incentive Compensation Plan. Bonus compensation is awarded based primarily on actual results against budgeted goals for the particular year including performance ratios and net income. Award guidelines are established annually for each level of Senior Management. The Board reserves some discretion with regard to these guidelines when: (1) the Company's profit performance exceeds budget; (2) the Company's profit performance exceeds other similar banking institutions in California; and/or (3) an individual's performance in a given year was beyond expectation.

All base salaries and annual bonuses are paid in cash and fully expensed in the current year.

Given that the Company does not offer stock options or restricted stock compensation (see "Long-Term Deferred Compensation Program"), total levels of Annual Compensation for each Named Executive Officer are targeted at the very top range of similar banking institutions (assuming performance objectives are met).

Each Named Executive Officer's salary and annual bonus amounts for the last three years are disclosed in the "Summary Compensation Table".

Deferred Compensation Plan

Each Named Executive Officer is eligible to participate in the Company's Deferred Compensation Plan. This type of plan allows the executive to best manage their tax position and is seen as an important component of any overall compensation strategy for attracting and retaining key executives. Under the Plan, participants may voluntarily elect to defer a maximum amount of one hundred percent (100%) of their base salary and annual bonus. Benefits become payable after either: (1) a participant's in service distribution election period is reached; (2) the participant's employment at the Company terminates; or (3) there has been a "Change in Control" as defined in the Plan. The Plan also allows for hardship distributions upon the occurrence of an "unforeseen financial emergency" as defined in Treasury Regulations Section 1.457-2(h) (4). Voluntary deferrals under the Deferred Compensation Plan are disclosed in the participant's Executive Voluntary Deferrals of Salary and Bonus in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

Upon a Change in Control, each participant receives only those balances in their account including any net earnings or losses thereon. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Long-Term Deferred Compensation Program

In developing the various parts of a longer-term compensation program, the Board has determined that at the present time it will not seek stockholder approval to offer stock options or restricted stock as part of the compensation package. This decision has been made because the Board believes that it is important that all compensation should be (1) fully transparent; (2) expensed in the year incurred; and (3) not have the potential for future dilution of stockholder value. However, recognizing that stock based incentives are a major compensation component of many of the Company's competitors, the Board has developed what it believes is an effective and competitive long-term deferred compensation program. The objectives of the Company's deferred compensation program are to: (1) successfully attract and retain talented individuals; and (2) align long-term compensation directly with stockholder interests by rewarding prudent risk taking and creation of long-term stockholder value through generation of high quality and sustainable financial performance.

The Company's long-term deferred compensation program has been structured to provide retirement benefits as follows:

1. Profit Sharing Plan ... which provides qualified retirement benefits.
2. Executive Retirement Plan 1 ... which provides supplemental non-qualified retirement benefits:
 - a. Salary Component ... which makes Plan contributions based upon each participant's salary level;
 - b. Performance Component ... which makes Plan contributions based upon the Company's long-term growth in net income and increase in market capitalization; and
 - c. Retention Component ... which makes Plan contributions based upon executive tenure.
3. Bank-Owned Life Insurance Program ... which provides for a division of life insurance death proceeds between the Company and each participant's designated beneficiary.

All of the Company's qualified and non-qualified plans are structured as defined contribution plans to avoid the uncertain future financial liabilities that can exist under defined benefit plans. The entire cost of these plans is expensed annually.

All non-qualified deferred compensation plans are intended to be compliant with the provisions of Section 409A of the Internal Revenue Code, and contributions are held in an irrevocable Master Trust. Vested balances are invested by each participant according to their own investment risk profile, and the Company provides no guarantees with respect to either annual returns or maintenance of principal value.

Profit Sharing Plan

Substantially all full-time employees of the Company, including each Named Executive Officer, participate in the Company's qualified Profit Sharing Plan. Two levels of contributions are made to the Profit Sharing Plan: (1) mandatory contributions of 5% of eligible salaries (subject to IRS limits) calculated according to criteria set forth in the Plan; and (2) discretionary contributions authorized by the Board of Directors. None of these contributions are dependent upon the employee contributing to the Plan (i.e., the Plan does not require "matching"). Benefits pursuant to the Profit Sharing Plan vest 0% during the first year of participation, 25% per full year thereafter and after five years such benefits are fully vested. Benefits under the Profit Sharing Plan are disclosed in the participant's Company Contributions to Qualified Retirement and 401(k) Plans in the "All Other Compensation Table".

Upon a Change in Control, each participant receives only those balances in their account, including any net earnings or losses thereon.

Executive Retirement Plan – Salary Component

To compensate for the contribution ceilings placed on all qualified retirement plans (which includes the Company's Profit Sharing Plan) by the Internal Revenue Service, the Board has developed the Salary Component to provide levels of total retirement compensation that are competitive in the banking industry. Each Named Executive Officer is a participant.

1 In prior years the Company had three separate plans named: (1) the Indexed Retirement Plan, (2) the Deferred Bonus Plan, and (3) the Executive Retention Plan. These plans were always structured such that the participant could not withdraw funds from the plan until they retired from the Company. Accordingly, to explicitly recognize this plan design each plan was renamed and became a “component” under the umbrella of the Executive Retirement Plan. No changes to any substantive plan terms (e.g., contributions, vesting, withdrawal options, etc.) were made.

An account is established for each participant that is credited annually with an amount based on the taxable equivalent earnings on the cash surrender value balances of the single premium life insurance policies purchased (see “Bank-Owned Life Insurance Program”), net of: (1) the mortality charges associated with the policies; and (2) a minimum required return (defined under the program as the return on five year treasuries) to the Company on these cash surrender value balances. The initial cash surrender value of the life insurance policies purchased for each participant was determined based upon the individual’s compensation at the time they became a participant and the number of years of service remaining to age 65 so as to provide a supplemental retirement benefit equal to a portion of the participant’s projected final pay with the Company. The balance in each participant’s account is 0% vested during the first five years of employment and becomes fully vested after five years of employment. Benefits are disclosed in the participant’s Company Contributions to Non-Qualified Retirement Plans in the “All Other Compensation Table” as well as Registrant Contributions in Last Fiscal Year in the “Non-Qualified Deferred Compensation Table”.

Benefits under the Salary Component of the Executive Retirement Plan become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a “Change in Control” as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already contributed for past years of service including any net earnings or losses thereon; and (2) the present value (using a discount factor equal to the treasury rate for the remaining years to participant’s age 65) of forecasted contributions over the remaining years to participant’s age 65, which as of December 31, 2009 would be as follows: Mr. Steinwert \$2.17 million, Mr. Haley \$1.29 million, Mr. Erichson \$456,000; Ms. Hodkin \$1.99 million and Mr. Smith \$1.30 million. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Executive Retirement Plan - Performance Component

To compensate for the lack of a stock option or restricted stock program, the Board has developed the Performance Component to reward participants based upon the Company’s long-term growth in net income and market capitalization. Each Named Executive Officer is a participant and is entitled to receive benefits based on the Company’s long-term cumulative profitability and the resulting impact on the increase in market capitalization in excess of the increase in book value. Participants do not receive compensation for increases in market capitalization above a P/E ratio of 20 times EPS.

Contributions are calculated using a bonus factor or “carry” determined by the Personnel Committee for each participant (currently 1.00% for the President and C.E.O. and 0.16% for each Executive Vice President). The total “carry” for all current program participants is 1.85%, a level that the Personnel Committee believes is conservative when compared to a typical range of 5-10% of outstanding shares authorized in employee stock options by other similar banking institutions in California.

Benefits pursuant to the Performance Component vest 0% during the first year of participation, and 25% per full year thereafter. Benefits are disclosed in the participant’s Company Contributions to Non-Qualified Retirement Plans in the “All Other Compensation Table” as well as Registrant Contributions in Last Fiscal Year in the “Non-Qualified Deferred Compensation Table”.

Benefits under the Performance Component of the Executive Retirement Plan become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a “Change in Control” as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already contributed for past years of service including net earnings or losses thereon; and (2) an amount equal to the difference (if any) between the purchase price and twenty times EPS which as of December 31, 2009 would be zero for all Named Executive Officers. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Executive Retirement Plan - Retention Component

Each Named Executive Officer who was employed by the Company on January 1, 2005 is a participant in the Retention Component, which was developed based upon the Board's assessment that: (1) the Named Executive Officers had delivered significant stockholder value appreciation in the past; (2) current total compensation levels were below market resulting in executive officer retention problems; and (3) structuring an incentive for long-term executive retention would mitigate retention problems and assist in providing the management stability to drive future stockholder value appreciation.

Between the third quarter of 1997 (when the President and C.E.O. joined the Company and began recruiting his team) and December 31, 2004 (when the Performance Component of the Executive Retirement Plan was established) the market value of the Company increased \$255 million or over 300%. Since no stock option plan was in place, the management team did not benefit from any of this increase in stockholder value. Accordingly, the Retention Component was created in order to retain the services of the management team and partially compensate for the historical lack of a stock option plan. Should each participant remain with the Company for the full ten year term of the Retention Component, the total payout, on a present value basis, would represent approximately 1.0% of the \$255 million increase in market value, a level that the Personnel Committee believes is conservative when compared to a typical range of 5-10% of outstanding shares authorized in employee stock options by other similar banking institutions in California.

Benefits under the Retention Component are disclosed in the participant's Company Contributions to Non-Qualified Retirement Plans in the "All Other Compensation Table" as well as Registrant Contributions in Last Fiscal Year in the "Non-Qualified Deferred Compensation Table".

Benefits under the Retention Component of the Executive Retirement Plan become payable to participants after either: (1) the participant has become vested and his or her employment at the Company terminates (including retirement); or (2) there has been a "Change in Control" as defined in the Plan.

Upon a Change in Control, each participant receives: (1) those amounts already earned for past years of service including any net earnings or losses thereon; and (2) any remaining amounts that would have been earned through Year 10 which as of December 31, 2009 would be as follows: Mr. Steinwert \$727,000 and Mr. Haley, Mr. Erichson, Ms. Hodkin and Mr. Smith \$173,000 each. Payments are made in accordance with prior participant elections made in compliance with IRC Section 409A.

Bank-Owned Life Insurance Program

The Company has a Bank-Owned Life Insurance ("BOLI") program under which it has purchased single premium life insurance policies on the lives of the Named Executive Officers as well as certain other senior officers of the Company. These policies provide: (1) financial protection to the Company in the event of the death of an officer and; (2) significant income to the Company to offset the expense associated with the Company's employee benefits since the interest earned on the cash surrender value of the policies is tax free as long as the policies are used to finance employee benefits.

As compensation to each participant for agreeing to allow the Company to purchase an insurance policy on his or her life, split dollar agreements have been entered into with each participant. These agreements provide for a division of the life insurance death proceeds between the Company and each participant's designated beneficiary or beneficiaries. Participants fully vest in their split dollar agreements after eight years of service or upon a Change in Control. If the participant leaves the employ of the Company after vesting occurs (other than as part of a Change in Control) they cannot become employed by another financial institution and retain their vesting. The dollar value of premiums relating to that portion of the death proceeds that would be payable to the participant's beneficiary or beneficiaries in the event of his or her death, as well as the tax gross-up payments related thereto, are disclosed in the participant's Tax Reimbursements in the "All Other Compensation Table".

Post-Termination Compensation

The Company's approach to post-termination compensation depends upon the circumstances surrounding the Named Executive Officer's termination and have been designed by the Board to be competitive with industry-wide practices in order to attract and retain key executives.

1. If the Named Executive Officer takes retirement, or their employment is terminated due to death or disability, no supplemental payments are made. They are entitled to all vested balances in qualified and non-qualified plans (see "Deferred Compensation Table"), and in the case of death their heirs are entitled to their split dollar life insurance benefits.
2. If the Named Executive Officer is terminated for cause, all benefits in the Company's non-qualified plans, whether vested or not, are forfeited in their entirety. No other payments are made, but the Named Executive Officer is entitled to all vested balances in qualified plans.
3. If the Named Executive Officer is terminated without cause, the terms of each individual's employment contract call for the Company to provide lump sum payments of up to two years' salary and bonus (see "Summary Compensation Table"). In addition they are entitled to all vested balances in qualified and non-qualified plans (see "Deferred Compensation Table").
4. In the case of a Change in Control (as defined by the Treasury Department pursuant to the requirements of IRC Section 409A), the Company has "single trigger" clauses in each Named Executive Officer's employment contract. This means that termination payments are made regardless of whether the Named Executive Officer remains in the employ of the buyer. In addition to all vested balances in qualified and non-qualified plans (see "Deferred Compensation Table"), each Named Executive Officer receives: (1) lump sum payment of two years' salary and bonus (see "Summary Compensation Table"); (2) acceleration of benefits under non-qualified plans as more fully described under "Deferred Compensation Program"; (3) lump sum payment of three years' Cobra medical premiums (which range between \$34,000 and \$102,000 per Named Executive Officer); and (4) lump sum tax gross-up payments to cover excise taxes under IRC Section 280G which as of December 31, 2009 would be as follows: Mr. Steinwert \$2.37 million; Mr. Haley \$863,000; Mr. Erichson \$492,000; Ms. Hodkin \$1.16 million; Mr. Smith \$890,000. None of these payments are subject to any material contractual conditions such as non-compete, non-solicitation or other types of agreements.

Compensation Committee Interlocks and Insider Participation

Messrs. Sanguinetti, Corum and Adams served in 2009 as members of the Personnel Committee. No member is or has been an officer or employee of the Company. During 2009, certain members of the Personnel Committee had loans or other extensions of credit outstanding from the Bank. These loans were made in the ordinary course of business and on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with borrowers not related to the Company or Bank. These loans are exempt from the loan prohibitions of the Sarbanes-Oxley Act of 2002 and did not involve more than the normal risk of collection or have other unfavorable features.

AUDIT RELATED MATTERS

Report of the Audit Committee of the Board of Directors

The Audit Committee oversees relevant accounting, risk assessment, risk management and regulatory matters. It meets with the Bank's and the Company's internal auditors and the independent auditors to review the scope of their work as well as to review quarterly and annual financial statements and regulatory and public disclosures with the officers in charge of financial reporting, control and disclosure functions. After reviewing the independent auditor's qualifications, partner rotation and independence, the Audit Committee also makes an annual decision regarding selection of the independent auditors. In addition, the Audit Committee reviews reports of examination conducted by regulatory agencies and follows up with management concerning recommendations and required corrective action.

The Audit Committee reports regularly to the Boards of Directors of the Bank and the Company and has the authority to select, retain, terminate and approve the fees and other retention terms of special counsel or other experts or consultants as it deems appropriate and necessary to perform its duties.

In performing its functions, the Audit Committee acts in an oversight capacity and necessarily relies on the work and assurances of management, which has the primary responsibility for financial statements and reports, and of the independent auditors, who, in their report, express an opinion on the conformity of the Company's annual financial statements to generally accepted accounting principles.

In connection with the December 31, 2009 financial statements of the Company, the Audit Committee: (1) reviewed and discussed the audited financial statements with management and the independent auditors; (2) discussed with the independent auditors the matters required by Statement on Auditing Standards No. 61; and (3) received and discussed with the independent auditors the matters required by Independence Standards Board Statement No. 1. The Audit Committee has also considered whether the independent auditors' provision of non-audit services to the Company is compatible with maintaining the auditors' independence. Based upon these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2009.

The Board of Directors has approved a written charter of the Audit Committee which is included as Exhibit A to this proxy statement.

Respectfully Submitted,
