1. ORGANIZATION AND NATURE OF BUSINESS

Iconic Brands, Inc., formerly Paw Spa, Inc. (“Iconic Brands”), was incorporated in the State of Nevada on October 21, 2005. Our plan was to provide mobile grooming and spa services for cats and dogs. Our services were going to include bathing, hair cutting and styling, brushing/combing, flea and tick treatments, nail maintenance and beautification, ear cleaning, teeth cleaning, hot oil treatments, and massage. We did not have any business operations and failed to generate any revenues. We abandoned this business, as we lacked sufficient capital resources. On June 10, 2009, the Company acquired Harbrew Imports, Ltd. (“Harbrew New York”), a New York corporation incorporated on September 8, 1999 which was a wholly owned subsidiary of Harbrew Imports, Ltd. Corp. (“Harbrew Florida”), a Florida corporation incorporated on January 4, 2007. On the Closing Date, pursuant to the terms of the Merger Agreement, the Company issued to the designees of Harbrew New York 27,352,301 shares of our Common Stock at the Closing, or approximately 64% of the 42,510,301 shares outstanding subsequent to the merger. After the merger, Harbrew New York continued as the surviving company under the laws of the state of New York and became the wholly owned subsidiary of the Company.

In anticipation of the merger between Iconic Brands, Inc. and Harbrew New York, on May 1, 2009 the Board of Directors and a majority of shareholders of Harbrew New York approved the amendment of its Articles of Incorporation changing its name to Iconic Imports, Inc. (“Iconic Imports”). On June 22, 2009, this action was filed with the New York State Department of State.

Prior to the merger on June 10, 2009, Iconic Brands had no assets, liabilities, or business operations. Accordingly, the merger has been treated for accounting purposes as a recapitalization by the accounting acquirer Harbrew New York/Iconic Imports and the financial statements reflect the assets, liabilities, and operations of Harbrew New York/Iconic Imports from its inception on September 8, 1999 to June 10, 2009 and are combined with Iconic Brands thereafter. Iconic Brands and its wholly-owned subsidiary Harbrew New York/Iconic Imports are hereafter referred to as the “Company”.

The Company is a brand owner of self-developed alcoholic beverages. Furthermore, the Company imports, markets and sells these beverages throughout the United States and globally.

Effective June 10, 2009, prior to the merger, Harbrew Florida affected a 1-for-1,000 reverse stock split of its common stock, reducing the issued and outstanding shares of common stock from 24,592,160 to 24,909, which includes a total of 317 shares resulting from the rounding of fractional shares. All share information has been retroactively adjusted to reflect this reverse stock split.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

The financial statements have been prepared on a “going concern” basis, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, as of June 30, 2010, the Company had cash of \$1,283, negative working capital of \$2,770,001 and a stockholders’ deficiency of \$6,013,995. Further, from inception to June 30, 2010, the Company incurred losses of \$14,805,509. These factors create substantial doubt as to the Company’s ability to continue as a going concern. The Company plans to improve its financial condition as recently launched products mature and brand awareness increases, thereby increasing the profitability of its operations. Additionally, the Company intends to obtain new financing which will primarily be used to market and promote Danny DeVito’s Premium Limoncello and other new products. However, there is no assurance that the Company will be successful in accomplishing these objectives. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

(b) Interim Financial Statements

The unaudited financial statements as of June 30, 2010 and for the three and six months ended June 30, 2010 and 2009 have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-Q. In the opinion of management, the unaudited financial statements have been prepared on the same basis as the annual financial statements and reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the financial position as of June 30, 2010 and the results of operations and cash flows for the periods ended June 30, 2010 and 2009. The financial data and other information disclosed in these notes to the interim financial statements related to these periods are unaudited. The results for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for any subsequent quarter of the entire year ending December 31, 2010. The balance sheet at December 31, 2009 has been derived from the audited financial statements at that date.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to the Securities and Exchange Commission’s rules and regulations. These unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements and notes thereto for the year ended December 31, 2009 included in our Form 10-K.

(c) Net Income (Loss) per Share

Basic net income (loss) per common share is computed on the basis of the weighted average number of common shares outstanding during the period.

Diluted net income (loss) per common share is computed on the basis of the weighted average number of common shares and dilutive securities (such as stock options, warrants, and convertible securities) outstanding. Dilutive securities having an anti-dilutive effect on diluted net income (loss) per common share are excluded from the calculation.

For the six months ended June 30, 2010 and 2009, diluted common shares outstanding excluded the following dilutive securities as the effect of their inclusion was anti-dilutive:

	Six Months Ended June 30,	
	2010	2009
7% convertible notes and accrued interest	598,296	699,616
10% convertible notes and accrued interest	206,972	291,972
8% convertible note and accrued interest	605,790	—

Warrants	19,522,184	6,637,500
Total	104,560,787	8,845,691

(d) Recently Issued Accounting Pronouncements

Certain accounting pronouncements have been issued by the FASB and other standard setting organizations which are not yet effective and have not yet been adopted by the Company. The impact on the Company's financial position and results of operations from adoption of these standards is not expected to be material.

The fair value of the common stock (\$50,000) and warrants (\$94,800) at January 15, 2007 was capitalized and is being amortized over the four year term of the License Agreement as selling, marketing and promotion expenses. 12. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

The Company restated in a Form 10-K/A filed on January 18, 2011 its consolidated financial statements at December 31, 2009 and for the years ended December 31, 2009 and 2008 (which were previously included in the Company's Form 10-K filed with the SEC on April 15, 2010) in order to correct errors relating to (1) the classification of the Series B Preferred Stock which represents an equity security with characteristics of a liability and (2) the computed number of weighted average number of common shares outstanding used in the net loss per common share computations for the years ended December 31, 2009 and 2008 concerning common shares issued on June 10, 2009 related to the Harbrew merger (in this Form 10Q-A Note 8). The Company has made similar restatements in this Form 10Q-A in its consolidated financial statements at June 30, 2010 (which was previously included in the Company's Form 10Q filed with the SEC on August 16, 2010) for the same reasons that the restatements were made in the Form 10K/A filed on January 18, 2011.

As previously reported, the Company classified the Series B Preferred Stock issued on June 10, 2009 as stockholders' deficiency. Pursuant to ASC 480-10-25-14(a), the Series B Preferred Stock should have been classified as a liability since it embodies a conditional obligation that the Company may settle by issuing a variable number of equity shares and the monetary value of the obligation is based on a fixed monetary amount known at inception.

The computed weighted average number of shares used in the net loss computations for the years ended December 31, 2009 and 2008 were increased to reflect shares issued in the Harbrew merger to reflect the recapitalization in the period preceding the merger for comparability of loss per share computation in both years.

The effect of the restatement adjustments on the consolidated balance sheet at June 30, 2010 follows:

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
II. OPERATIONS

The following discussion is an overview of the important factors that management focuses on in evaluating our business, financial condition and operating performance and should be read in conjunction with the financial statements included in this Quarterly Report on Form 10-Q. This discussion contains forward-looking statements that involve risks and uncertainties. Actual results could differ materially from those anticipated in these forward looking statements as a result of any number of factors, including those set forth under the section entitled "Risk Factors" and elsewhere in this Quarterly Report on Form 10-Q.

Overview

Prior to the consummation of the Merger Agreement, Harbrew New York was a wholly-owned subsidiary of Harbrew Florida. Harbrew Florida was incorporated in the state of Florida on January 4, 2007, under the former name Stassi Harbrew Imports Corp., pursuant to the Bankruptcy Court Approved Reorganization Plan for the Stassi Interaxx, Inc. ("Stassi") reorganization confirmed on December 20, 2006. On May 17, 2007, Harbrew Florida acquired Harbrew New York, a New York corporation incorporated on September 8, 1999 engaged in importing and wholesaling spirits, wine and beer. As a result, Harbrew New York became a wholly-owned subsidiary of Harbrew Florida.

On June 10, 2009, Merger Sub, Harbrew Florida, Harbrew New York and we entered into a Merger Agreement which resulted in Harbrew New York becoming our wholly owned subsidiary (the "Merger"). The Merger was accomplished by means of a Merger Agreement in which Harbrew New York merged with and into Merger Sub and each share of Harbrew's common stock issued and outstanding immediately prior to the closing of the Merger was converted into one share of Iconic Brands' common stock. Under the terms of the Merger Agreement, Harbrew New York became our wholly owned subsidiary and each share of Harbrew's common stock issued and outstanding immediately prior to the closing of the Merger was converted into one share of Iconic Brands' common stock

Prior to the merger on June 10, 2009, we had no assets, liabilities, or business operations. Accordingly, the merger has been treated for accounting purposes as a recapitalization by the accounting acquirer, Harbrew New York, and the financial statements reflect the assets, liabilities, and operations of Harbrew New York from its inception on September 8, 1999 to June 10, 2009 and us thereafter. References to our company are with respect to Harbrew New York to June 10, 2009 and us thereafter.

We are in the business of importing and wholesaling spirits, wine and beer to distributors in the United States on a national basis and to retail licensees both on and off premise in New York, through our wholesale license. We are federally licensed, maintaining licenses to both import and sell to wholesale licensed distributors in 51 markets in the United States. In addition to the federal import and wholesale licenses, we maintain a federal customs bonded facility license for our premises in Lindenhurst, New York. Within the licensing category, we also maintain a New York State wholesale license and a New York State warehousing license, permitting us to warehouse products of other companies.

Our brands include, among others, Danny DeVito's Premium Limoncello, Glen Master Single Malt Scotch Whisky, St. Andrews "The Champion" Whisky, Bench 5 and Bench 15 Premium Scotch Whisky. Our objective is to continue building a distinctive portfolio of global premium and celebrity brands. We have shifted our focus from a volume-oriented approach to a profit-centric focus. To achieve this, we continue to seek to:

- increase revenues from existing brands. We are focusing our existing distribution relationships, sales expertise and targeted marketing activities to concentrate on our more profitable brands by expanding our domestic and international distribution relationships to increase the mutual benefits of concentrating on our most profitable

brands, while continuing to achieve brand recognition and growth and gain additional market share for our brands within retail stores, bars and restaurants, and thereby with end consumers;

- improve value chain and manage cost structure. We have undergone a comprehensive review and analysis of our supply chain and cost structure both on a company-wide and brand-by-brand basis. We further intend to map, analyze and redesign our purchasing and supply systems to reduce costs in our current operations and achieve profitability in future operations;
- selectively add new premium brands to our portfolio. We intend to continue developing new brands and pursuing strategic relationships, joint ventures and acquisitions to selectively expand our premium brand portfolio, particularly by capitalizing on and expanding our already demonstrated partnering capabilities. Our criteria for new brands focuses on underserved areas of the beverage alcohol marketplace, while examining the potential for direct financial contribution to our company and the potential for future growth based on development and maturation of agency brands. We will evaluate future acquisitions and agency relationships on the basis of their potential to be immediately accretive and their potential contributions to our objectives of becoming profitable and further expanding our product offerings. We expect that future acquisitions, if consummated, would involve some combination of cash, debt and the issuance of our stock; and
- cost containment. We have taken significant steps to reduce our costs. Even though we had a significant increase in selling, general and administrative expense, which was the direct result of the stock based compensation issued in connection with the Merger, during the year ended December 2009, the Company had a reduction in expenses relating to administrative, compensation and benefits, occupancy and warehousing, travel and entertainment, and permits. Efforts to reduce expenses further continue. In particular, all brand expenditures with the exception of Limoncello have been either curtailed or eliminated. This practice will continue until additional equity is raised for the Company.

Operations overview

We generate revenue through the sale of our products to our network of wholesale distributors or, in control states, state-owned agencies, and to retail outlets. In the U.S., our sales price per case includes excise tax and import duties, which are also reflected in a corresponding increase in our cost of sales. Most of our international sales are sold “in bond”, with the excise taxes paid by our customers upon shipment, thereby resulting in lower relative revenue as well as a lower relative cost of sales, although some of our United Kingdom sales are sold “tax paid”, as in the United States. The difference between sales and net sales principally reflects adjustments for various distributor incentives.

Our gross profit is determined by the prices at which we sell our products, our ability to control our cost of sales, the relative mix of our case sales by brand and geography and the impact of foreign currency fluctuations. Our cost of sales is principally driven by our cost of procurement, bottling and packaging, which differs by brand, as well as freight and warehousing costs. We purchase certain products, such as the Limoncello and Scotch Whiskey, as finished goods. For other products, such as the planned Siragusa Vodka, we will purchase the components, including the distilled spirits, bottles and packaging materials, and have arrangements with third parties for bottling and packaging. U.S. sales typically have a higher absolute gross margin than in other markets, as sales prices per case are generally higher in the U.S. than elsewhere, in addition, domestically sourced components do not have the disadvantage of a weak US dollar versus the cost of sourcing from the EEC.

Selling expense principally includes advertising and marketing expenditures and compensation paid to our executive officers and sales personnel. Our selling expense, as a percentage of sales and per case, is higher than that of our competitors because of our brand development costs, and level of marketing expenditures versus our relatively small base of case sales and sales volumes. However, we believe that maintaining an infrastructure capable of supporting future growth is the correct long-term approach for us.

While we expect the absolute level of selling expense to increase in the coming years, we expect selling expense as a percentage of revenues and on a per case basis to decline, as our volumes expand and our sales team sells a larger number of brands.

General and administrative expense relates to corporate and administrative functions that support our operations and includes administrative payroll, occupancy and related expenses and professional services. We expect our general and administrative expense as a percentage of sales to decline due to economies of scale.

We expect to increase our case sales in the U.S. and internationally over the next several years through organic growth, and through the extension of our product line via line extensions, acquisitions and distribution agreements. We will seek to maintain liquidity and manage our working capital and overall capital resources during this period of anticipated growth to achieve our long-term objectives, although there is no assurance that we will be able to do so.

Our growth strategy is based upon partnering with other brands, acquiring smaller and emerging brands and growing existing brands. To identify potential partner and acquisition candidates we plan to rely on our management’s industry experience and our extensive network of industry contacts. We also plan to maintain and grow our U.S. and international distribution channels so that we are more attractive to spirits companies who are looking for a route to market for their products. With respect to foreign and small private and family-owned spirits brands, we will continue to be flexible and creative in the structure and form of our proposals and present an alternative to the larger spirits companies.

We intend to finance our brand acquisitions through a combination of our available cash resources, bank borrowings and, in appropriate circumstances, the further issuance of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, and could cause substantial fluctuations in our quarterly and

yearly operating results. Additionally, the pursuit of acquisitions and other new business relationships may require significant management attention. We may not be able to successfully identify attractive acquisition candidates, obtain financing on favorable terms or complete these types of transactions in a timely manner and on terms acceptable to us, if at all.

Sales:

Sales increased by approximately \$2,280 or 0% from \$336,170 for the six month period ended June 30, 2009 to \$338,450 for the six month period ended June 30, 2010. This increase in sales was a result of the Company's continuing efforts to shift in focus and resources from marketing, promoting and distributing the products of other manufacturers to marketing, promoting and distributing its celebrity branded products, such as the Danny DeVito's Premium Limoncello, Glen Master Scotch, George Vesselle Champaign and its other organically developed brands.

Cost of goods sold:

Cost of goods sold decreased by \$14,844, or 6%, from \$228,371 for the six month period ended June 30, 2009 to \$213,527 for the six month period ended June 30, 2010. This decrease in COGS is consistent with the increase in sales for the period as the Company shifts its focus and resources towards its organically developed brand portfolio.

Gross profit:

Gross profit increased by \$17,124, or 16%, from \$107,799 for the six month period ended June 30, 2009 to \$124,923 for the six month period ended June 30, 2010 mainly due to the increase in sales as the Company refocuses its resources to its celebrity and organically developed brands.

Selling, general and administrative expenses:

Selling general and administrative expenses for the six month period ended June 30, 2010 and 2009 were \$1,306,710 and \$3,264,333 respectively, a decrease of \$1,957,623 or 60%. These expenses include selling, marketing and promotion expenses in the amount of \$383,416, which reflects an increase of \$259,321 for the six month period ended June 30, 2010 as compared to \$123,795 for the six month period ended June 30, 2009; administration, compensation and benefits decreased to \$414,208 for the six month period ended June 30, 2010 from \$606,498 for the same period ended June 30, 2009; professional fees increased to \$318,645 from \$288,518 as a result of increased legal fees; travel and entertainment decreased to \$60,555 from \$101,208 as a result of a reduction in the travel schedule; office expenses decreased to \$16,281 from \$19,776 as a result of better efficiencies; license and permit expense increased to \$31,195 during the six month period ended June 30, 2010 from \$1,670 during the six months ended June 30, 2009 due to the Company's continuing focus on developing and licensing its organically branded products; and other expenses also decreased to \$13,746 from \$23,220. The majority of the decrease reflects in selling, general and administrative expenses were related to the stock-based compensation in June 2009 of \$2,063,411.

Table of Contents

Income (loss) from Operations:

Loss from operations was \$1,181,787 for the six month period ended June 30, 2010 and \$3,156,534 for the six month period ended June 30, 2009. The decrease in the loss from operations for the period resulted from the increase in sales and the decrease in expenses, principally the costs associated with stock based compensation expense as a result of the merger which took place in June 2009.

Interest Expense:

Interest expense for the six month period ended June 30, 2010 and 2009 was \$238,153 and \$572,208, respectively, a decrease of \$334,055, or 58%. The decrease in interest expense for the period was a result of a rate reset by our largest creditor, and the conversion of convertible debt and notes to equity.

Net Income (loss):

Net loss was \$1,419,940 for the six month period ended June 30, 2010 compared to \$3,728,742 for the six month period ended June 30, 2009, a decrease of \$2,308,802, or 62%. The decrease in the net loss for the period was a result of increased sales; increased professional fees incurred relating to selling marketing and promotional activities and decrease costs associated with stock based compensation.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2010, we had negative working capital of \$2,770,001 compared to negative working capital of \$2,531,288 at December 31, 2009. Our balance of cash and cash equivalents at June 30, 2010 was \$1,283.

On January 6 and 13, 2010, the Company issued a total of 200,000 shares of common stock, 100,000 five year warrants exercisable at \$0.22 per share, and 100,000 five year warrants exercisable at \$0.23 per share, along with two promissory notes in the amount of \$110,000 each (one due March 31, 2010 and one due May 31, 2010), to an investor in exchange for a \$200,000 loan. The fair value of the common stock (\$45,000) and warrants (\$33,930), along with the \$20,000 discount, were recorded as debt discounts, which are being amortized over the terms of the notes as interest expense. The warrants were valued using the Black-Scholes option pricing model and the following assumptions: risk free interest rates of 2.6% and 2.55%, volatility of 100%, and terms of five years.

Our primary uses of cash have been for selling and marketing expenses, employee compensation, new product development and working capital. The main sources of cash have been from the financing of purchase orders and the factoring of accounts receivable. In addition, we issued convertible notes and promissory notes to bridge the gap between our primary lender and our working capital requirements. All funds received have been expended in the furtherance of growing the business and establishing the brand portfolios. The following trends are reasonably likely to result in a material decrease in our liquidity over the near to long term:

An increase in working capital requirements to finance higher level of inventories and accounts receivable,

Addition of administrative and sales personnel as the business grows,

Increases in advertising, public relations and sales promotions for existing and new brands as the company expands within existing markets or enters new markets,

Development of new brands to complement our current celebrity portfolio, and

The cost of being a public company and the continued increase in costs due to governmental compliance activities.

Cash flows

The following table summarizes our primary sources and uses of cash during the periods presented:

	Three Months ended June 30,	
	2010	2009
Net cash provided by (used in):		
Operating activities	\$ (352,250)	(89,923)
Investing activities	0	5,142
Financing activities	330,644	94,596
Net (decrease) increase in cash and cash equivalents	\$ (22,606)	(9,815)

Net Cash Used in Operating Activities

A substantial portion of our available cash has been used to fund operating activities. In general, these cash funding requirements are based on operating losses, driven principally by our sizeable investment in selling and marketing, and general expenses. The business has incurred significant losses since inception.

For the six month period ended June 30, 2010, net cash used in operating activities was \$(353,250), consisting primarily of losses from operations of \$1,419,940, offset by a non-cash charge for stock-based compensation of \$263,565, decreases in receivables of \$146,338, decreases in prepaid expenses and other current assets of \$85,208, and increases in accrued expenses of \$334,433.

Net Cash Used in Investing Activities

For the six month period ended June 30, 2010 and 2009, net cash used in investing activities was \$0 and \$5,142, respectively.

Net Cash Provided by Financing Activities

For the six month period ended June 30, 2010, funds provided by financing activities amounted to \$330,644 resulting from increases of debt.

Table of Contents

We anticipate that we will need to make significant expenditures during the next 12 months, contingent upon raising capital. These anticipated expenditures are for advertising, marketing, promotional items, overhead and working capital purposes. We cannot assure you that financing will be available in amounts or on terms acceptable to us, if at all. We anticipate that we will require up to \$7,500,000 for funding our plan of operations for the next twelve months, depending on revenues, if any, from operations.

By adjusting our operations and development to the level of capitalization, we believe we have sufficient capital resources to meet projected cash flow deficits. However, if during that period or thereafter, we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to us, this could have a material adverse effect on our business, results of operations liquidity and financial condition.

The financial statements have been prepared on a “going concern” basis, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, as of June 30, 2010, the Company had cash of \$1,283, negative working capital of \$2,770,001 and a stockholders’ deficiency of \$6,013,995. Further, from inception to June 30, 2010, the Company incurred losses of \$14,805,509. These factors create substantial doubt as to the Company’s ability to continue as a going concern. The Company plans to improve its financial condition as recently launched products mature and brand awareness increases, thereby increasing the profitability of its operations. Additionally, the Company intends to obtain new financing which will primarily be used to market and promote Danny DeVito’s Premium Limoncello and other new products. However, there is no assurance that the Company will be successful in accomplishing these objectives. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

We will still need additional investments in order to continue operations to break even. We are seeking additional investments, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the downturn in the U.S. stock and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Further, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

On February 24, 2010, the Company issued 300,000 shares of common stock to CorProminence pursuant to a 45 day consulting agreement dated January 4, 2010. The \$69,000 fair value of the common stock at date of issuance was expensed in full in the three months ended March 31, 2010 and included in professional fees.

On March 16, 2010, the Company issued 2,000,000 shares of common stock and 2,000,000 five year warrants exercisable at \$0.25 per share to Cresta Capital Strategies pursuant to a one year extension of a consulting agreement. The fair value of the common stock (\$350,000) and warrants (\$246,000) at date of issuance was capitalized as a prepaid expense (see note 4) and is being amortized over the one year term as professional fees. The warrants were valued using the Black-Scholes option pricing model and the following assumptions: risk free interest rate of 2.37%, volatility of 100%, and term of five years.

On April 19, 2010 the company satisfied debt totaling \$455,635 through its commitment to issue to the 5 creditors a total of 4,556,350 shares of its common stock and 4,556,350 three year warrants exercisable at \$0.20 per share. The Company expects to issue these shares and warrants once it pays its liability to its transfer agent.

On April 19, 2010, the Company agreed to issue to a noteholder 250,000 shares of its common stock in consideration of the noteholders extension of the due date (from March 31, 2010 to May 31, 2010) of a \$110,000 promissory note. On June 22, 2010, 8 stockholders representing a majority of the issued and outstanding shares of common stock approved an amendment to the Company's Articles of Incorporation to increase the number of authorized shares of common stock from 100,000,000 shares to 2,500,000,000 shares.

These securities are issued in reliance on the exemption under Section 4(2) of the Securities Act of 1933, as amended (the "Act"). These securities qualified for exemption under Section 4(2) of the Securities Act of 1933 since the issuance securities by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of securities offered. We did not undertake an offering in which we sold a high number of securities to a high number of investors. In addition, these shareholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such securities are restricted pursuant to Rule 144 of the 1933 Securities Act. This restriction ensures that these securities would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act of 1933 for this transaction.

ITEM 3.DEFAULTS UPON SENIOR SECURITIES.
