

## Item 7.01. Regulation FD Disclosure.

On December 11, 2014, the presentation attached hereto as Exhibit 99.1 and incorporated herein by reference was delivered to stockholders of Synergetics USA, Inc. (the “Company”) following the Company’s 2014 Annual Meeting of Stockholders.

## Use of Non-GAAP Financial Measures

The presentation attached hereto as Exhibit 99.1 and incorporated herein by reference includes certain financial information prepared in conformity with generally accepted accounting principles (“GAAP”) as well as non-GAAP financial information. The Company measures its performance primarily through its operating profit. In addition, management uses certain non-GAAP measures, such as adjusted income from continuing operations and adjusted EBITDA, to measure the Company’s operating performance. Definitions of these non-GAAP financial measures and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included below.

These non-GAAP measures are considered by the Company’s Board of Directors and management as a basis for measuring and evaluating the Company’s overall operating performance. They are presented to enhance an understanding of the Company’s operating results and are not intended to represent cash flow or results of operations. The use of these non-GAAP measures provides an indication of the Company’s ability to service debt and measure operating performance. Management believes these non-GAAP measures are useful in evaluating the Company’s operating performance compared to other companies in its industry, and are beneficial to investors, potential investors and other key stakeholders, including creditors, who use this measure in their evaluation of performance.

These non-GAAP measures are not in accordance with, or an alternative to, measures prepared in accordance with GAAP and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with the Company’s results of operations as determined in accordance with GAAP. These measures should only be used to evaluate the Company’s results of operations in conjunction with the corresponding GAAP measures.

## Reconciliations of Non-GAAP Financial Measures

## Fiscal Year Ends July 31

(in thousands, except share and per share data)	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013	FY 2014
