CREDITRISKMONITOR.COM, INC.

CONDENSED NOTES TO FINANCIAL STATEMENTS

(Unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed financial statements of CreditRiskMonitor.com, Inc. (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosure required by generally accepted accounting principles (“GAAP”) in the United States for complete financial statements have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). In the opinion of management, the accompanying unaudited condensed financial statements reflect all material adjustments, including normal recurring accruals, necessary to present fairly the Company’s financial position, results of operations and cash flows for the periods presented, and have been prepared in a manner consistent with the audited financial statements for the fiscal year ended December 31, 2014.

The results of operations for the three months ended March 31, 2015 are not necessarily indicative of the results of a full fiscal year.

The December 31, 2014 balance sheet has been derived from the audited financial statements at that date, but does not include all disclosures required by GAAP. These financial statements should be read in conjunction with the audited financial statements and the footnotes for the fiscal year ended December 31, 2014 included in the Company’s Annual Report on Form 10-K.

(2) Stock-Based Compensation

The Company applies ASC 718, “Compensation-Stock Compensation” (“ASC 718”) to account for stock-based compensation.

The following table summarizes the stock-based compensation expense for stock options that was recorded in the Company’s results of operations in accordance with ASC 718 for the three months ended March 31:

	3 Months Ended March 31,	
	2015	2014
Data and product costs	\$2,945	\$2,945
Selling, general and administrative expenses	28,467	29,024
	\$31,412	\$31,969

(3) Other Recently Issued Accounting Standards

The Financial Accounting Standards Board and the SEC had issued certain accounting pronouncements as of March 31, 2015 that will become effective in subsequent periods; however, management does not believe that any of those pronouncements would have significantly affected the Company’s financial accounting measurements or disclosures had they been in effect during the interim periods for which financial statements are included in this quarterly report. Management also believes those pronouncements will not have a significant effect on the Company’s future financial position or results of operations.

Index

(4) Fair Value Measurements

The Company records its financial instruments that are accounted for under ASC 320, “Investments-Debt and Equity Securities” at fair value. The determination of fair value is based upon the fair value framework established by ASC 820, “Fair Value Measurements and Disclosures” (“ASC 820”). ASC 820 provides that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The fair value hierarchy is broken down into three levels based on the source of inputs as follows: (a) Level 1 – valuations based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; (b) Level 2 – valuations based on quoted prices in markets that are not active, or financial instruments for which all significant inputs are observable, either directly or indirectly; and (c) Level 3 – valuations based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable, thus, reflecting assumptions about the market participants.

The Company’s cash, cash equivalents and marketable securities are stated at fair value. The carrying value of accounts receivable, other current assets, accounts payable and other current liabilities approximates fair market value because of the short maturity of these financial instruments.

The Company’s cash equivalents and marketable securities are generally classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. Marketable securities include U.S. government notes and mutual funds.

The table below sets forth the Company’s cash and cash equivalents and marketable securities as of March 31, 2015 and December 31, 2014, respectively, which are measured at fair value on a recurring basis by level within the fair value hierarchy.

	March 31, 2015				December 31, 2014
	Level 1	Level 2	Level 3	Total	Total
Cash and cash equivalents	\$7,764,607	\$ -	\$ -	\$7,764,607	\$7,529,468
Marketable securities	1,367,892	-	-	1,367,892	1,363,439
Total	\$9,132,499	\$ -	\$ -	\$9,132,499	\$8,892,907

The Company did not hold financial assets and liabilities which were recorded at fair value in the Level 2 or 3 categories as of either March 31, 2015 or December 31, 2014.

(5) Net Income (Loss) per Share

Basic net income (loss) per share is based on the weighted average number of common shares outstanding. Diluted net income (loss) per share is based on the weighted average number of common shares outstanding and the dilutive effect of outstanding stock options:

3 Months
Ended
March 31,
2015

Edgar Filing: CREDITRISKMONITOR COM INC - Form 10-Q

Weighted average number of common shares outstanding – basic	8,062,358
Potential shares exercisable under stock option plans	292,500
LESS: Shares which could be repurchased under treasury stock method	(121,996)

Weighted average number of common shares outstanding – diluted	8,232,862
----------------------------------------------------------------	-----------

Potential common shares of 276,116 related to the Company's outstanding stock options were excluded from the computation of diluted loss per share for the three months ended March 31, 2014 as inclusion of these shares would have been anti-dilutive.

6

Index

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Business Environment

Despite the continued strengthening of the U.S. economy, the continuing uncertainty in the worldwide financial system has negatively impacted general business conditions. It is possible that a weakened economy could adversely affect our clients' need for credit information, or even their solvency, but we cannot predict whether or to what extent this will occur.

Our strategic priorities and plans for 2015 are to continue to build on the improvement initiatives underway to achieve sustainable, profitable growth. Global market conditions, however, may affect the level and timing of resources deployed in pursuit of these initiatives in 2015.

Financial Condition, Liquidity and Capital Resources

The following table presents selected financial information and statistics as of March 31, 2015 and December 31, 2014 (dollars in thousands):

	March 31, 2015	December 31, 2014
Cash, cash equivalents and marketable securities	\$9,132	\$ 8,893
Accounts receivable, net	\$1,441	\$ 2,079
Working capital	\$2,648	\$ 2,507
Cash ratio	1.07	0.99
Quick ratio	1.24	1.22
Current ratio	1.31	1.28

The Company has invested some of its excess cash in debt instruments of the United States Government and mutual funds. All highly liquid investments with an original maturity of three months or less when purchased are considered cash equivalents, while those with maturities in excess of three months when purchased are reflected as marketable securities.

As of March 31, 2015, the Company had \$9.13 million in cash, cash equivalents and marketable securities, an increase of approximately \$239,000 from December 31, 2014. The reason for this increase was that cash generated by operating activities (\$185,000) and the cash provided by financing activities (\$68,000) exceeded the cash used to acquire property and equipment (\$18,000).

The Company's cash provided by operating activities exceeded its net income primarily due to the 31% decrease in accounts receivable during the three month period. Additionally, the main component of current liabilities at March 31, 2015 is deferred revenue of \$7.71 million, which should not require significant future cash outlay other than the cost of preparation and delivery of the applicable commercial credit reports which cost much less than the deferred revenue shown. The deferred revenue is recognized as income over the subscription term, which approximates twelve months. The Company has no bank lines of credit or other currently available credit sources.

The Company believes that its existing balances of cash, cash equivalents, marketable securities and cash generated from operations will be sufficient to satisfy its currently anticipated cash requirements through at least the next 12 months and the foreseeable future. Moreover, the Company has been cash flow positive for 9 of the last 10 fiscal years and has no long-term debt. However, the Company's liquidity could be negatively affected if it were to make an acquisition or license products or technologies, which may necessitate the need to raise additional capital through

future debt or equity financing. Additional financing may not be available at all or on terms favorable to the Company.

7

Index

Off-Balance Sheet Arrangements

The Company is not a party to any off-balance sheet arrangements.

Results of Operations

	3 Months Ended March 31,					
	2015			2014		
	Amount	% of Total Operating Revenues	%	Amount	% of Total Operating Revenues	%
Operating revenues	\$3,070,206	100.00	%	\$2,969,388	100.00	%
Operating expenses:						
Data and product costs	1,229,736	40.06	%	1,301,445	43.83	%
Selling, general and administrative expenses	1,730,813	56.37	%	1,746,410	58.81	%
Depreciation and amortization	52,747	1.72	%	56,672	1.91	%
Total operating expenses	3,013,296	98.15	%	3,104,527	104.55	%
Income (loss) from operations	56,910	1.85	%	(135,139)	(4.55	%)
Other income (expense), net	4,956	0.17	%	8,575	0.29	%
Income (loss) before income taxes	61,866	2.02	%	(126,564)	(4.26	%)
Provision for income taxes	(25,345)	(0.83	%)	(12,628)	(0.43	%)
Net income (loss)	\$36,521	1.19	%	\$(139,192)	(4.69	%)

Operating revenues increased \$100,818, or 3%, for the three months ended March 31, 2015 compared to the first quarter of fiscal 2014. This overall revenue growth resulted from an increase in Internet subscription service revenue, attributable to increased sales to new and existing subscribers.

Data and product costs decreased \$71,709, or 6%, for the first quarter of 2015 compared to the same period of fiscal 2014. This decrease was due primarily to: (i) the lower cost of third-party content, as the Company is a qualified reseller and is no longer being charged sales tax on most of its data feeds, (ii) the lower cost associated with the outsourcing of certain data entry tasks, as less tasks have been outsourced, and (iii) lower salary and related employee benefits, as the Company was in the process of filling open positions due to turnover.

Selling, general and administrative expenses decreased \$15,597, or 1%, for the first quarter of fiscal 2015 compared to the same period of fiscal 2014. This decrease was due to lower salary and related employee benefits, due to turnover, as well as lower professional and marketing fees.

Depreciation and amortization decreased \$3,925, or 7%, for the first quarter of fiscal 2015 compared to the same period of fiscal 2014. This decrease was due to a lower depreciable asset base reflecting the continued use of certain items that have been fully depreciated.

Other income (expense), net decreased \$3,619 for first quarter of fiscal 2015 compared to the same period last year. This decrease was due to a larger negative mark-to-market adjustment recorded in this year's first quarter.

Provision for income taxes increased \$12,717 for the first quarter of fiscal 2015 compared to the same period of fiscal 2014. This increase was due to the Company being in a pre-tax income position in 2015 versus a pre-tax loss position in 2014 because of the reasons enumerated above as well as the accrual of a full provision for state income taxes in fiscal 2015 compared to only minimum state income taxes in fiscal 2014 due to the reporting of a pre-tax loss.

8

Index

Future Operations

The Company over time intends to expand its operations by expanding the breadth and depth of its product and service offerings and introducing new and complementary products. Gross margins attributable to new business areas may be lower than those associated with the Company's existing business activities.

As a result of the evolving nature of the markets in which it competes, the Company's ability to accurately forecast its revenues, gross profits and operating expenses as a percentage of net sales is limited. The Company's current and future expense levels are based largely on its investment plans and estimates of future revenues. To a large extent these costs do not vary with revenue. Sales and operating results generally depend on the Company's ability to attract and retain customers and the volume of and timing of customer subscriptions for the Company's services, which are difficult to forecast. The Company may be unable to adjust spending in a timely manner to compensate for any unexpected revenue shortfall. Accordingly, any significant shortfall in revenues in relation to the Company's planned expenditures would have an immediate adverse effect on the Company's business, prospects, financial condition and results of operations. Further, as a strategic response to changes in the competitive environment, the Company may from time to time make certain pricing, service, marketing or acquisition decisions that could have a material adverse effect on its business, prospects, financial condition and results of operations.

Achieving greater profitability depends on the Company's ability to generate and sustain increased revenue levels. The Company believes that its success will depend in large part on its ability to (i) increase its brand awareness, (ii) provide its customers with outstanding value, thus encouraging customer renewals, and (iii) achieve sufficient sales volume to realize economies of scale. Accordingly, the Company intends to continue to increase the size of its sales force and service staff, and to invest in product development, operating infrastructure, marketing and promotion. The Company believes that these expenditures will help it to sustain the revenue growth it has experienced over the last several years. We anticipate that sales and marketing expenses will increase in dollar amount and as a percentage of revenues during the remainder of 2015 and future periods as the Company continues to expand its business on a worldwide basis. Further, the Company expects that product development expenses and data costs will also continue to increase in dollar amount and may increase as a percentage of revenues during the remainder of 2015 and future periods because it expects to employ more development personnel on average compared to prior periods, obtain additional data and build the infrastructure required to support the development of new and improved products and services. However, as these expenditures are largely discretionary in nature, the Company expects that the actual amounts incurred will be in line with its projections of future cash flows in order not to negatively impact its future liquidity and capital needs. There can be no assurance that the Company will be able to achieve these objectives within a meaningful time frame.

The Company expects to experience fluctuations in its future quarterly operating results due to a variety of factors, some of which are outside the Company's control. Factors that may adversely affect the Company's quarterly operating results include, among others, (i) the Company's ability to retain existing customers, attract new customers at a steady rate and maintain customer satisfaction, (ii) the Company's ability to maintain gross margins in its existing business and in future product lines and markets, (iii) the development of new services and products by the Company and its competitors, (iv) price competition, (v) the Company's ability to obtain products and services from its vendors, including information suppliers, on commercially reasonable terms, (vi) the Company's ability to upgrade and develop its systems and infrastructure, and adapt to technological change, (vii) the Company's ability to attract and retain personnel in a timely and effective manner, (viii) the Company's ability to manage effectively its development of new business segments and markets, (ix) the Company's ability to successfully manage the integration of operations and technology of acquisitions or other business combinations, (x) technical difficulties, system downtime or Internet brownouts, (xi) the amount and timing of operating costs and capital expenditures relating the Company's business, operations and infrastructure, (xii) governmental regulation and taxation policies, (xiii) disruptions in service by common carriers due to strikes or otherwise, (xiv) risks of fire or other casualty, (xv) litigation costs or other unanticipated expenses, (xvi) interest rate risks and inflationary pressures, and (xvii) general economic conditions and

economic conditions specific to the Internet and online commerce.

9

Index

Due to the foregoing factors, the Company believes that period-to-period comparisons of its revenues and operating results are not necessarily meaningful and should not be relied on as an indication of future performance.

Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements, including statements regarding future prospects, industry trends, competitive conditions and litigation issues. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words “believes”, “expects”, “anticipates”, “plans” or words of similar meaning are intended to identify forward-looking statements. This notice is intended to take advantage of the “safe harbor” provided by the Private Securities Litigation Reform Act of 1995 with respect to such forward-looking statements. These forward-looking statements involve a number of risks and uncertainties. Among others, factors that could cause actual results to differ materially from the Company’s beliefs or expectations are those listed under “Results of Operations” and other factors referenced herein or from time to time as “risk factors” or otherwise in the Company’s Registration Statements or Securities and Exchange Commission reports. The Company disclaims any intention or obligation to revise any forward-looking statement, whether as a result of new information, a future event or otherwise.

Item 4. Controls and Procedures

The Company’s management, with the participation of the Company’s Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company’s disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company’s disclosure controls and procedures are effective.

There have not been any changes in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended) during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

Item 6. Exhibits

31.1 Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
