THE COMPANY

Overview

Our history and acquisition strategy has been key to our development as a company. We began our operations in 2000 as a full service provider of computer systems and professional services to private sector corporations and to the federal government under a General Services Administration (GSA) schedule contract for computer systems and peripherals. Between 2001 and 2006, we undertook a series of strategic acquisitions. As a result of these acquisitions, during fiscal 2006 our business and operations were primarily centered around providing hosted web-based collaboration solutions that enabled organizations to establish Internet, Intranet, and email/collaboration services immediately and with little or no up-front capital investment.

Following the end of fiscal 2006, we sold three of our subsidiaries, The Seven Corporation, PatriotNet and Integrated Power Solutions. On November 15, 2006, we acquired certain of the assets of True North Solutions related to its governmental customer business, including the customers, forecast, contract renewals, and GSA schedule. As a result of this acquisition and these divestures our principal business is now the sales of software services, application development, network integrated technology, and third party hardware sales.

The IceWEB Solutions Group focuses on providing computer network security products such as access control, content filtering, email security, intrusion detection, and the latest layer seven firewall technology to the Federal government. Our key partners are Secure Computing, Internet Security Systems, RSA Security, Blue Coat and F5 Networks. We believe that the combination of our vendor partners/manufacturers, customers, and government contracting vehicles enables our company to be successful in providing the industry's best network security solutions to the Federal government and commercial integrators who service the government.

In addition to our IceWEB Solutions Group, since 2000 we have also marketed a line of software and online service offerings providing small businesses enterprise-class applications via the Internet in a hosted service model (Software as a Service or SaaS). Our products and services are used by organizations in both the public and private sectors and our suite of hosted software application services are accessed by our customers via the Internet. Our current online products include IceMAIL (messaging), IceVISTA (web hosting), and IcePORTAL (Intranet portal). Our goal is to bring this enterprise-class technology, normally affordable by only large corporations, to small business customers via a recurring monthly subscription model.

For the fiscal year ended September 30, 2006 approximately 48% of total sales were generated by our IceWEB Solutions Group's reselling of third-party hardware and software and approximately 52% of our total sales were generated by online products and services. For the six months ended March 31, 2007, these two lines of business represented approximately 91% and approximately 9%, respectively, of our total sales.

Our Strategy for Fiscal 2007

The IceWEB Solutions Group's focus on network security and the Federal government will continue. We are carefully evaluating new technology products and manufacturers. By continuous training of our employees and partnering with our key vendor partners, we can continue to accelerate our growth in this market.

During fiscal 2007 we plan on greater automation for IceMAIL, IcePORTAL, and IceVISTA products. By using internal and external technical resources we will seek to enable customers to manage and control their own environment (self service) or working with IceWEB Customer Service. We believe we will be one of the few companies that allow customers almost total control of their features via web-based account management tools. All of our service offerings will have online purchasing and automated provisioning (account creation) that reduced human intervention for these repeatable tasks. This also helps customers with the desire for "immediate satisfaction" by having their product or service immediately available upon purchase.

RISK FACTORS

Before you invest in our securities, you should be aware that there are various risks. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business. You should consider carefully these risk factors, together with all of the other information included in this prospectus before you decide to purchase our securities. If any of the following risks and uncertainties develops into actual events, our business, financial condition or results of operations could be materially adversely affected and you could lose your entire investment in our company.

We have an accumulated deficit and we anticipate continuing losses that will result in significant liquidity and cash flow problems absent a material increase in our revenues.

We have an accumulated deficit of approximately \$1.3 million at March 31, 2007. For the years ended September 30, 2006 and 2005, we had a net loss of approximately \$3.8 million and \$900,000, respectively, and cash used in operations was approximately \$1,010,000 and approximately \$920,000, respectively. The report of our independent registered public accounting firm on our financial statements for the fiscal year ended September 30, 2006 contained a qualification expressing substantial doubt as to our ability to continue as a going concern as a result of our net losses. Our losses have continued into fiscal 2007. We reported a net loss of approximately \$573,000 for the six months ended March 31, 2007 and cash used in operations for that period was approximately \$162,000. As long as our cash flow from operations remains insufficient to fund our operations, we will continue depleting our cash and other financial resources. Our failure to achieve profitable operations in future periods will adversely affect our ability to continue as a going concern. In this event, you could lose all of your investment in our company.

We will need additional financing which we may not be able to obtain on acceptable terms. If we cannot raise additional capital as needed, our ability to execute our growth strategy and fund our ongoing operations will be in jeopardy.

Historically, our operations have been financed primarily through the issuance of equity. Capital is typically needed not only to fund our ongoing operations and to pay our existing obligations, but capital is also necessary if we wish to acquire additional assets or companies and for the effective integration, operation and expansion of these businesses. Our future capital requirements, however, depend on a number of factors, including our ability to internally grow our revenues, manage our business and control our expenses. At March 31, 2007, we had cash on hand of \$514,751 and a working capital deficit of \$966,693. We need to raise additional capital to fund our ongoing operations, pay our existing obligations and for future growth of our company. As described below the terms of the sale of our Series B Convertible Preferred Stock may significantly restrict our ability to raise working capital as needed. We cannot assure you that additional working capital is available to us in the future upon terms acceptable to us. If we do not raise funds as needed, our ability to provide for current working capital needs, make additional acquisitions, grow our company, and continue our existing business and operations is in jeopardy. In this event, you could lose all of your investment in our company.

While the shares of our Series B Convertible Preferred Stock are outstanding we are prohibited from entering into certain types of equity and debt transactions which may adversely effect our ability to raise working capital as needed.

Under the terms of our sale of Series B Convertible Preferred Stock in December 2005, we agreed to a number of limitations on our future capital raising activities, including:

· for a period of three years we will not issue any convertible debt or preferred stock,

- for a period of two years we will not enter into any new borrowings of more than twice as much as the sum of EBITDA (earnings before income taxes, depreciation and amortization) from recurring operations over the past four quarters,
- for so long as the shares are outstanding we will not issue any debt or equity securities with a floating conversion price or reset feature, and
- for so long as the shares are outstanding we cannot issue any common stock or securities which are convertible into common stock at an effective price per share less than the conversion value of the Series B Convertible Preferred Stock which is initially \$0.2727 per share.

These restrictions are likely to adversely affect our ability to raise working capital as needed in future periods as the types of financing transactions generally available to us and other comparably-sized public companies often involve the sale of a convertible security with a reset feature, or the sale of common stock at a discount to market.

While shares of our Series A Convertible Preferred Stock are outstanding we are prohibited from undertaking certain capital raising transactions which may materially adversely effect our ability to raise funds in future periods.

The designations of the Series A Convertible Preferred Stock prohibit us from selling common stock or any other security which is convertible into common stock or issuing any rights, options or warrants which entitle the holder to purchase shares of our common stock at a price less than \$0.60 per share, subject to adjustment as described elsewhere in this prospectus. So long as shares of our Series A Convertible Preferred stock are outstanding, this prohibition will prevent us from raising additional capital at an effective offering price of less than \$0.60 per share. While in recent periods the market value of our common stock has from time to time been greater than \$0.60 per share, it has also been less than \$0.60 per share and we do not know if the trading price of our common stock will remain above \$0.60 per share in future periods, particularly in light of the fact that we may be significantly increasing the number of shares of our common stock which will be freely tradeable as a result of sales made by the selling security holders under this prospectus. If the market price of our common stock should remain in a price range which is near or below \$0.60 per share we may be unable to raise capital in future periods as needed which could adversely effect our liquidity, operation of our company and ability to continue as a going concern.

In addition, under the terms of the Preferred Stock Purchase Agreement for the Series A Convertible Preferred Stock for a period of three years beginning March 30, 2005 we have contractually agreed not to issue any additional shares of preferred stock or any convertible debt, not to enter into any transactions which contain a reset provision which could result in additional shares being issued at some future date and not to enter into certain other types of financing transactions. These contractual limitations may limit our ability to raise capital as needed in future periods which could adversely effect our ability to continue our operations.

Our factoring agreement with Sand Hill Finance, LLC contains certain terms which may adversely affect our ability to raise capital in future periods.

In December 2005 we entered into a Finance Agreement with Sand Hill Finance, LLC for a \$1.8 million accounts receivable factoring line. Under the terms of this agreement we agreed not to take certain actions including undertaking a transaction which would result in a change of control of our company or the transfer of more than 20% of our securities and incurring any indebtedness other than trade credit in the ordinary course of business. These restrictions may limit our ability to raise working capital as needed.

Our primary assets serve as collateral under our accounts receivable factoring line. If we were to default on this agreement, the lender could foreclose on our assets.

The \$1.8 million accounts receivable factoring agreement with Sand Hill Finance, LLC is collateralized by a blanket security interest in our assets. If we should default under the terms of this agreement, the lender could seek to foreclose on our primary assets. If the lender was successful, we would be unable to conduct our business as it is presently conducted and our ability to generate revenues and fund our ongoing operations would be materially adversely affected.

We are reliant on revenues from a limited number of customers. Because we are not a party to long term agreements with these customers, the loss of one or more of these customers would be adverse to our financial results in future periods.

Sales to two customers represented approximately 43% of our total sales for the year ended September 30, 2006 and sales to five customers represented approximately 53% of our total sales for the six months ended March 31, 2007. In addition, approximately 51% of our accounts receivable at September 30, 2006 and approximately 78% of our accounts receivable at March 31, 2007, respectively, were due from these customers.. These customers purchase products and services from us on a purchase order basis and, accordingly, may elect at any time to purchase similar products or services from our competitors. Until such time, if ever, as we are able to sufficiently expand our sales efforts and remove this dependency on revenues from these limited number of customers, if one or more of them should cease purchasing products and services from us our revenues and results of operations would be materially adversely affected.

We do not have a disaster recovery plan and we do not carry business interruption insurance.

Our systems and operations are vulnerable to damage or interruption from fire, flood, power loss, telecommunications failure, break-ins and similar events. Our headquarters are physically located in Fairfax County, Virginia, a Washington, DC suburb in close proximity to the US Capitol, White House, Pentagon, CIA, and numerous other agencies within the intelligence community. All these government installations are considered potential targets of any future terrorist attacks. We do not currently have a disaster recovery plan, nor do we carry business interruption insurance to compensate our company for losses that may occur. We are also vulnerable to computer viruses and/or physical disruptions, which could lead to interruptions, delays, loss of data or the inability to accept orders. The occurrence of any of the foregoing events could have a material adverse effect on our business, prospects, financial condition and results of operations.

Our management may be unable to effectively integrate our acquisitions and to manage our growth and we may be unable to fully realize any anticipated benefits of these acquisitions.

Our business strategy includes growth through acquisition and internal development. We are subject to various risks associated with our growth strategy, including the risk that we will be unable to identify and recruit suitable acquisition candidates in the future or to integrate and manage the acquired companies. Acquired companies' histories, geographical locations, business models and business cultures can be different from ours in many respects. Our directors and senior management face a significant challenge in their efforts to integrate our businesses and the business of the acquired companies or assets, and to effectively manage our continued growth. There can be no assurance that our efforts to integrate the operations of any acquired assets or companies acquired in the future will be successful, that we can manage our growth or that the anticipated benefits of these proposed acquisitions will be fully realized. The dedication of management resources to these efforts may detract attention from our day-to-day business. There can be no assurance that there will not be substantial costs associated with these activities or of the success of our integration efforts, either of which could have a material adverse effect on our operating results.

Our common stock could be removed from quotation on the OTCBB if we fail to timely file our annual or quarterly reports. If our common stock was no longer eligible for quotation on the OTCBB, the liquidity of our stock may be further adversely impacted.

Under the rules of the Securities and Exchange Commission we are required to file our quarterly reports within 45 days from the end of the fiscal quarter and our annual report within 90 days from the end of our fiscal year. Under rules adopted by the National Association of Securities Dealers, Inc. (NASD) in 2005 which is informally known as the "Three Strikes Rule", an NASD member is prohibited from quoting securities of an OTCBB issuer such as our company if the issuer either fails to timely file these reports or is otherwise delinquent in the filing requirements three times in the prior two year period or if the issuer's common stock has been removed from quotation on the OTCBB twice in that two year period. We failed to file our 2006 annual report on a timely basis. If we were to fail to file two additional reports on a timely basis with the 24 month period our stock would be removed from quotation on the OTCBB and would in all likelihood then be quoted on the Pink Sheets Electronic Quotation Service. The Pink Sheets offers a quotation service to companies that are unable to list their securities on the OTCBB or an exchange. The requirements for listing on the Pink Sheets are considerably lower and less regulated than those of the OTCBB or an exchange. If our common stock were to be quoted on the Pink Sheets, it is possible that even fewer brokers or dealers would be interested in making a market in our common stock which would further adversely impact its liquidity.

We have not voluntarily implemented various corporate governance measures, in the absence of which, stockholders may have more limited protections against interested director transactions, conflicts of interest and similar matters.

Recent Federal legislation, including the Sarbanes-Oxley Act of 2002, has resulted in the adoption of various corporate governance measures designed to promote the integrity of the corporate management and the securities markets. Some of these measures have been adopted in response to legal requirements. Others have been adopted by companies in response to the requirements of national securities exchanges, such as the NYSE or The NASDAQ Stock Market, on which their securities are listed. Among the corporate governance measures that are required under the rules of national securities exchanges are those that address board of directors' independence, audit committee oversight, and the adoption of a code of ethics. Because our stock is not listed on an exchange, we are not required to adopt these corporate governance standards. While a majority of our board of directors are independent and our board of directors has adopted a Code of Ethics and Business Conduct and established Audit and Compensation Committees, we have not adopted all of the corporate governance measures which we might otherwise have been required to adopt if our securities were listed on a national securities exchange. It is possible that if we were to adopt all of these corporate governance measures, stockholders would benefit from somewhat greater assurances that internal corporate decisions were being made by disinterested directors and that policies had been implemented to define responsible conduct. Prospective investors should bear in mind our current lack of corporate governance measures in formulating their investment decisions.

We may be exposed to potential risks relating to our internal controls over financial reporting and our ability to have those controls attested to by our independent auditors.

As directed by Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX 404"), the Securities and Exchange Commission adopted rules requiring small business issuers, such as our company, to include a report of management on the company's internal controls over financial reporting in their annual reports for fiscal years ending on or after December 15, 2007. Presently, we will become subject to compliance with SOX 404 for our fiscal year ending September 30, 2008. In addition, for our fiscal year ending September 30, 2009 the independent registered public accounting firm auditing our financial statements must also attest to and report on management's assessment of the effectiveness of our internal controls over financial reporting as well as the operating effectiveness of our internal controls. While we have yet to being evaluating our internal control systems in order to allow our management to report on, and our independent auditors attest to, our internal controls, as presently required, we expect to expend significant resources in developing the necessary documentation and testing procedures required by SOX 404. In the event we identify significant deficiencies or material weaknesses in our internal controls that we cannot remediate in a timely manner or we are unable to receive a positive attestation from our independent auditors with respect to our internal controls, investors and others may lose confidence in the reliability of our financial statements and our ability to obtain financing as needed could suffer.

The exercise of warrants and options and the conversion of shares of our Series A Convertible Preferred Stock will be dilutive to our existing stockholders.

At April 30, 2007 we had outstanding:

- 10,368,514 shares of our common stock,
- 1,256,667 shares of Series A Convertible Preferred Stock which is convertible into 1,256,667 shares of our common stock,
- 1,833,334 shares of our Series B Convertible Preferred Stock which is convertible into 1,833,334 shares of common stock,
- common stock purchase warrants to purchase a total of 6,135,000 shares of our common stock with exercise prices ranging from \$0.35 to \$9.60 per share, and
- options granted under the Plan and as non-qualified options granted outside the Plan to certain officers, directors and employees which are exercisable into an aggregate of 1,460,469 shares of our common stock with an average exercise price of \$0.77 per share.

The conversion of the Series A Convertible Preferred Stock or the Series B Convertible Preferred Stock and/or the exercise of outstanding options and warrants may materially adversely affect the market price of our common stock and will have a dilutive effect on our existing stockholders.

Certain of our outstanding warrants contain cashless exercise provisions which means we will not receive any cash proceeds upon their exercise.

In March 2005 and December 2005, we issued five year common stock purchase warrants to purchase an aggregate of 6,950,000 shares of our common stock with exercise prices ranging from \$0.35 to \$9.60 per share in connection with the sales of shares of our Series A Convertible Preferred Stock and Series B Convertible Preferred Stock. At April 30, 2007 of these warrants there are warrants to purchase 5,730,000 shares of our common stock with exercise prices of \$.35 to \$9.60 which remain unexercised. In December 2005 we also issued a seven year common stock purchase warrant to purchase 25,000 shares of our common stock with an exercise price of \$1.00 per share in connection with our accounts receivable financing agreement with Sand Hill Finance, LLC. All of these warrants are exercisable on a cashless basis which means that the holders, rather than paying the exercise price in cash, may surrender a number of warrants equal to the exercise price of the warrants being exercised. The utilization of this cashless exercise feature will deprive us of additional capital which might otherwise be obtained if the warrants did not contain a cashless feature.

Provisions of our certificate of incorporation and bylaws may delay or prevent a take-over which may not be in the best interests of our stockholders.

Provisions of our certificate of incorporation and bylaws may be deemed to have anti-takeover effects, which include when and by whom special meetings of our stockholders may be called, and may delay, defer or prevent a takeover attempt. In addition, certain provisions of the Delaware General Corporations Law also may be deemed to have certain anti-takeover effects which include that control of shares acquired in excess of certain specified thresholds will not possess any voting rights unless these voting rights are approved by a majority of a corporation's disinterested stockholders.

In addition, our certificate of incorporation authorizes the issuance of up to 10,000,000 shares of preferred stock with such rights and preferences as may be determined from time to time by our Board of Directors. We presently have outstanding 1,256,667 shares of our Series A Convertible Preferred Stock and 1,833,334 shares of our Series B Convertible Preferred Stock. Our Board of Directors may, without stockholder approval, issue additional series of preferred stock with dividends, liquidation, conversion, voting or other rights that could adversely affect the voting power or other rights of the holders of our common stock.

If the selling security holders all elect to sell their shares of our common stock at the same time, the market price of our shares may decrease.

It is possible that the selling security holders will offer all of the shares for sale. Further, because it is possible that a significant number of shares could be sold at the same time hereunder, the sales, or the possibility thereof, may have a depressive effect on the market price of our common stock.

You should consider the areas of risk described in connection with any forward-looking statements that may be made in this prospectus. Readers are cautioned not to place undue reliance on these forward-looking statements and readers should carefully review this prospectus in its entirety, including the risks described in "Risk Factors." Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. These forward-looking statements speak only as of the date of this prospectus, and you should not rely on these statements without also considering the risks and uncertainties associated with these statements and our business.

SELLING SECURITY HOLDERS

The information under this heading relates to resales of shares covered by this prospectus by persons who are our "affiliates" as that term is defined under federal securities laws. These persons will be members of our Board of Directors and/or officers of our company. Shares issued pursuant to this prospectus to our affiliates are "control" shares under federal securities laws.

The following table sets forth:

- the name of each affiliated selling security holder,
- the amount of common stock owned beneficially, directly or indirectly, by each affiliated selling security holder,
- the maximum amount of Shares to be offered by the affiliated selling security holders pursuant to this prospectus, and
- the amount of common stock to be owned by each affiliated selling security holder following sale of the Shares.

Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power with respect to securities and includes any securities which the person has the right to acquire within 60 days through the conversion or exercise of any security or other right. The information as to the number of shares of our common stock owned by each affiliated selling security holder is based upon our books and records and the information provided by our transfer agent.

We may amend or supplement this prospectus from time to time to update the disclosure set forth in the table. Because the selling security holders identified in the table may sell some or all of the shares owned by them which are included in this prospectus, and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the shares, no estimate can be given as to the number of shares available for resale hereby that will be held by the affiliated selling security holders upon termination of the offering made hereby. We have therefore assumed, for the purposes of the following table, that the affiliated selling security holders will sell all of the shares owned by them, which are being offered hereby, but will not sell any other shares of our common stock that they presently own.

Persons who receive stock grants under the Plan and are deemed affiliates, may effect sales of shares of common stock covered hereby not in excess of 1% of our outstanding common stock in any three-month period.

Grants may be made to affiliates in the future which we are not able to identify at this time. Before any of our affiliates sell any of his or her shares received under the Plan, we will supplement this prospectus with the required information regarding the names of the persons selling, the total number of shares owned by these persons and the number of shares proposed to be sold under this prospectus.

Name of selling security holder	Number of shares owned	% owned before offering	Shares to be offered	Shares to be owned after offering	% owned after offering

PLAN OF DISTRIBUTION

The information under this heading includes resales of shares covered by this prospectus by persons who are our "affiliates" as that term is defined under federal securities laws.

The shares covered by this prospectus may be resold and distributed from time to time by the selling security holders in one or more transactions, including ordinary broker's transactions, privately-negotiated transactions or through sales to one or more broker-dealers for resale of these shares as principals, at market prices existing at the time of sale, at prices related to existing market prices, through Rule 144 transactions or at negotiated prices. The selling security holders in connection with sales of securities may pay usual and customary, or specifically negotiated, brokerage fees or commissions.

The selling security holders may sell shares in one or more of the following methods, which may include crosses or block transactions:

- through the Pink Sheets, on the OTC Bulletin Board, or on such exchanges or over-the-counter markets on which our shares may be listed or quoted from time-to-time, in transactions which may include special offerings, exchange distributions and/or secondary distributions, pursuant to and in accordance with the rules of such exchanges, or through brokers, acting as principal or agent;
- in transactions other than on such exchanges or in the over-the-counter market, or a combination of such transactions, including sales through brokers, acting as principal or agent, sales in privately negotiated transactions, or dispositions for value, subject to rules relating to sales by affiliates; or

· through the writing of options on our shares, whether or not such options are listed on an exchange, or other transactions requiring delivery of our shares, or the delivery of our shares to close out a short position.

Any such transactions may be effected at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices.

In making sales, brokers or dealers used by the selling security holders may arrange for other brokers or dealers to participate. The selling security holders who are affiliates of our company and others through whom such securities are sold may be "underwriters" within the meaning of the Securities Act of 1933 for the securities offered, and any profits realized or commission received may be considered underwriting compensation. Information as to whether an underwriter(s) who may be selected by the selling security holders, or any other broker-dealer, is acting as principal or agent for the selling security holders, the compensation to be received by underwriters who may be selected by the selling security holders, or any broker-dealer, acting as principal or agent for the selling security holders and the compensation to be received by other broker-dealers, in the event the compensation of other broker-dealers is in excess of usual and customary commissions, will, to the extent required, be set forth in a supplement to this prospectus. Any dealer or broker participating in any distribution of the shares may be required to deliver a copy of this prospectus, including the supplement, if any, to any person who purchases any of the shares from or through a dealer or broker.

We have advised the selling security holders that, at the time a resale of the shares is made by or on behalf of a selling security holder, a copy of this prospectus is to be delivered.

We have also advised the selling security holders that during the time as they may be engaged in a distribution of the shares included herein they are required to comply with Regulation M of the Securities Exchange Act of 1934. With certain exceptions, Regulation M precludes any selling security holders, any affiliated purchasers and any broker-dealer or other person who participates in the distribution from bidding for or purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of the distribution until the entire distribution is complete. Regulation M also prohibits any bids or purchase made in order to stabilize the price of a security in connection with the distribution of that security.

Sales of securities by us and the selling security holders or even the potential of these sales may have an adverse effect on the market price for shares of our common stock.

DESCRIPTION OF SECURITIES

General

Our authorized capital stock consists of 1,000,000,000 shares of common stock, \$.001 par value per share, and 10,000,000 shares of preferred stock, par value \$.001 per share, of which 1,666,667 shares have been designated as Series A Convertible Preferred Stock and 1,833,334 shares have been designated as Series B Convertible Preferred Stock. As of April 30, 2007, there are 10,368,514 shares of common stock, 1,256,667 shares of Series A Convertible Preferred Stock and 1,833,334 shares of Series B Convertible Preferred Stock issued and outstanding. We have not included 437,502 shares of common stock listed as outstanding on our transfer records in the number of common shares which are currently issued and outstanding. Although the certificates have not been cancelled, these shares were contributed to our capital by agreement at the time of our reverse merger in March 2002 and may not be voted.

Common stock

Holders of common stock are entitled to one vote for each share on all matters submitted to a stockholder vote. Holders of common stock do not have cumulative voting rights. Holders of common stock are entitled to share in all dividends that the Board of Directors, in its discretion, declares from legally available funds. In the event of our liquidation, dissolution or winding up, subject to the preferences of any shares of our preferred stock which may then be outstanding, each outstanding share entitles its holder to participate in all assets that remain after payment of liabilities and after providing for each class of stock, if any, having preference over the common stock.

Holders of common stock have no conversion, preemptive or other subscription rights, and there are no redemption provisions for the common stock. The rights of the holders of common stock are subject to any rights that may be fixed for holders of preferred stock, when and if any preferred stock is authorized and issued. All outstanding shares of common stock are duly authorized, validly issued, fully paid and non-assessable.

Preferred stock

Our Board of Directors, without further stockholder approval, may issue preferred stock in one or more series from time to time and fix or alter the designations, relative rights, priorities, preferences, qualifications, limitations and restrictions of the shares of each series. The rights, preferences, limitations and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and other matters. Our Board of Directors may authorize the issuance of preferred stock, which ranks senior to our common stock for the payment of dividends and the distribution of assets on liquidation. In addition, our Board of Directors can fix limitations and restrictions, if any, upon the payment of dividends on our common stock to be effective while any shares of preferred stock are outstanding.

The rights granted to the holders of any series of preferred stock could adversely affect the voting power of the holders of common stock and issuance of preferred stock may delay, defer or prevent a change in our control.

Series A Convertible Preferred Stock

Our Board of Directors has created a series of 1,666,667 shares of preferred stock designated as Series A Convertible Preferred Stock. We sold these shares in a private transaction in March 2005. In June 2006, Barron Partners LP, the holder of our Series A Convertible Preferred Stock, converted 410,000 shares into 410,000 shares of our common stock. As of the date of this prospectus there remain 1,256,667 shares of Series A Convertible Preferred Stock issued and outstanding. The designations, rights and preferences of the Series A Convertible Preferred Stock provide:

- no dividends are payable on the Series A Convertible Preferred Stock. So long as these shares are outstanding, we cannot pay dividends on our common stock nor can we redeem any shares of our common stock,

- the shares of Series A Convertible Preferred Stock do not have any voting rights, except as may be provided under Delaware law,
- so long as the shares are outstanding, we cannot change the designations of the Series A Convertible Preferred Stock, create a class of securities that in the instance of payment of dividends or distribution of assets upon our liquidation ranks senior to or pari passu with the Series A Convertible Preferred Stock or increase the number of authorized shares of Series A Convertible Preferred Stock,
- the shares carry a liquidation preference of \$0.60 per share,
- each share of Series A Convertible Preferred Stock is convertible at the option of the holder into shares of our common stock, subject to adjustment in the event of stock splits and stock dividends, based upon a conversion value of \$0.60 per share, and
- so long as the shares of Series A Convertible Preferred Stock are outstanding, we cannot sell or issue any common stock, rights to subscribe for shares of common stock or securities which are convertible or exercisable into shares of common stock at an effective purchase price of less than the then conversion value.

No conversion of the Series A Convertible Preferred Stock may occur if a conversion would result in the holder, Barron Partners LP, and any of its affiliates, beneficially owning more than 4.99% of our outstanding common shares following such conversion.

Series B Convertible Preferred Stock

Our Board of Directors has also created a series of 1,833,334 shares of preferred stock designated as Series B Convertible Preferred Stock. On December 28, 2005, we sold Barron Partners LP, an accredited investor, 1,833,334 shares of our Series B Convertible Preferred Stock and Common Stock Purchase Warrants "D", "E" and "F" to purchase an aggregate of 2,250,000 shares of our common stock, for an aggregate purchase price of \$500,000.

Under the terms of the Preferred Stock Purchase Agreement, we agreed:

- that all convertible debt in our company would be cancelled and that for a period of three years from the closing date we will not issue any convertible debt or preferred stock. In addition, we agreed to cause all reset features related to any shares of our outstanding common stock to be cancelled and for a period of three years from the closing date to refrain from entering into any transactions that have reset features,
- to maintain a majority of independent directors on our Board of Directors, and that these independent directors will make up a majority of the audit and compensation committees of our Board. If at any time we should fail to maintain these independent majority requirements, we are required to pay Barron Partners LP liquidated damages of 24% of the purchase price of the securities (\$120,000) per annum, payable monthly in kind,
- that if within 24 months from the closing date we consummate the sale of debt or equity securities with a conversion price less than the then effective conversion price of the Series B Convertible Preferred Stock we will make a post-closing adjustment in the conversion price of the Series B Convertible Preferred Stock to such lower conversion price,

- that for a period of three years all employment and consulting agreements must have the unanimous consent of the compensation committee of our Board, and any awards other than salary are usual and appropriate for other officers, directors, employees or consultants holding similar positions in similar publicly held-companies,
- that for a period of two years from the closing we will not enter into any new borrowings of more than twice as much as the sum of EBITDA from recurring operations over the past four quarters, subject to certain exceptions,
- that for long as Barron Partners LP holds any of the securities we will not enter into any subsequent financing in which we issue or sell any debt or equity securities with a floating conversion price or containing a reset feature, and
- that we will submit a proposal at our next annual meeting of stockholders to amend our Certificate of Incorporation to require the consent of the holders of a designated percentage of a designated class of our securities to waive or amend the terms of any rights, options and warrants approved by our Board.

Mr. John R. Signorello, our CEO, agreed not to sell any shares of our common stock that he may own in excess of 1% per quarter or at a price of less than \$3.00 per share for a period ending August 30, 2007, and that the earliest any other insiders could sell their shares would be beginning two years from the closing date.

We granted Barron Partners LP a right of first refusal to participate in any subsequent funding we may undertake on a pro rata basis at 94% of the offering price.

We have agreed to file a registration statement with the Securities and Exchange Commission within 30 days to register for resale the shares of common stock issuable upon the possible conversion of the Series B Convertible Preferred Stock and the exercise of the warrants, and to use our best efforts to cause such registration statement to be declared effective within 120 days from the closing date. We have also granted Barron Partners LP demand registration rights covering these securities, as well as piggy-back registration rights for a period of two years from the closing date. We agreed to pay all costs associated with these registration statements and have indemnified Barron Partners LP with respect thereto for any losses or claims related to material misstatements or material omissions by us in the registration statement(s). Barron Partners LP subsequently waived any rights to receive any registration rights penalties.

The warrants issued in this transaction are described later in this section. The designations, rights and preferences of the Series B Convertible Preferred Stock provide:

- no dividends are payable on the Series B Convertible Preferred Stock. So long as these shares are outstanding, we cannot pay dividends on our common stock nor can we redeem any shares of our common stock,
- the shares of Series B Convertible Preferred Stock do not have any voting rights, except as may be provided under Delaware law,
- so long as the shares are outstanding, we cannot change the designations of the Series B Convertible Preferred Stock, create a class of securities that in the instance of payment of dividends or distribution of assets upon our liquidation ranks senior to or pari passu with the Series B Convertible Preferred Stock or increase the number of authorized shares of Series B Convertible Preferred Stock,

- the shares carry a liquidation preference of \$0.2727 per share,
- each share of Series B Convertible Preferred Stock is convertible at the option of the holder into one share of our common stock based upon an initial conversion value of \$0.2727 per share. The conversion ratio is subject to adjustment in the event of stock dividends, stock splits or reclassification of our common stock. The conversion ratio is also subject to adjustment in the event we should sell any shares of our common stock or securities convertible into common stock at an effective price less than the conversion ratio then in effect, in which case the conversion ratio would be reduced to the lesser price. No conversion of the Series B Convertible Preferred Stock may occur if a conversion would result in the holder, Barron Partners LP, and any of its affiliates, beneficially owning more than 4.9% of our outstanding common shares following such conversion. Barron Partners LP may waive this provision only with the consent of all of the Series B Preferred Stockholders and the consent of the holders of a majority of our outstanding shares of common stock who are not affiliates,
- so long as the Series B Convertible Preferred Stock is outstanding, we have agreed not to issue any rights, options or warrants to holders of our common stock entitling the holders to purchase shares of our common stock at less than the conversion ratio without the consent of the holders of a majority of the outstanding shares of Series B Convertible Preferred Stock. If we should elect to undertake such an issuance and the Series B holders consent, the conversion ratio would be reduced. Further, if we should make a distribution of any evidence of indebtedness or assets or rights or warrants to subscribe for any security to our common stockholders, the conversion value would be readjusted,
- the shares of Series B Convertible Preferred Stock automatically convert into shares of our common stock in the event of change of control of our company, and
- so long as the shares of Series B Convertible Preferred Stock are outstanding, we cannot sell or issue any common stock, rights to subscribe for shares of common stock or securities which are convertible or exercisable into shares of common stock at an effective purchase price of less than the then conversion value of the Series B Convertible Preferred Stock.

Common Stock Purchase Warrants

At April 30, 2007 we had outstanding an aggregate of 6,135,000 common stock purchase warrants as follows:

Warrants issued in the Series A Convertible Preferred Stock transaction

In connection with the sale of shares of our Series A Convertible Preferred Stock in March 2005, we issued the purchaser Barron Partners LP the following five-year common stock purchase warrants:

- Common Stock Purchase Warrants "A" to purchase an aggregate of 2,000,000 shares of our common stock at an original exercise price of \$2.00 per share,

- Common Stock Purchase Warrants "B" to purchase an aggregate of 1,250,000 shares of our common stock at an original exercise price of \$4.80 per share, and
- Common Stock Purchase Warrants "C" to purchase an aggregate of 1,250,000 shares of our common stock at an original exercise price of \$9.60 per share.

We also issued Liberty Company LLC, a broker dealer which served as finder for us in the transaction, a Common Stock Purchase Warrant "A" to purchase 175,000 shares of our common stock at an exercise price of \$0.70 per share. Other than the exercise price, all other terms of the warrant issued to Liberty Company LLC are identical to the Common Stock Purchase Warrant "A" issued to the purchaser.

In February 2006 we reduced the exercise price of all the foregoing warrants issued to Barron Partners LP to \$1.00 per share. Subsequent thereto, we have further changed the exercise price of the warrants held by Barron Partners LP as follows:

- For the period of March 17, 2006 through March 31, 2006 we reduced the exercise price of 500,000 of those warrants to \$0.80 per share. To the extent these warrants were not exercised by 5: 30 p.m. on March 31, 2006, the exercise price automatically reverted back to \$1.00 per share. None of the warrants were exercised,
- For the period of October 17, 2006 through October 27, 2006 we reduced the exercise price of 300,000 of those warrants to \$0.40 per share. To the extent these warrants were not exercised by 5: 30 p.m. on October 27, 2006, the exercise price automatically reverted back to \$1.00 per share. None of the warrants were exercised,
- For the period of October 17, 2006 through October 27, 2006 we reduced exercise price of 1,000,000 of those warrants to \$0.35 per share. We subsequently extended the period of this reduced exercise price to November 10, 2006. To the extent these warrants were not exercised by 5: 30 p.m. on November 10, 2006, the exercise price automatically reverted back to \$1.00 per share through December 31, 2006. Warrants to purchase 500,000 shares of our common stock were exercised in March 2006 resulting in cash proceeds to us of \$400,000 and warrants to purchase an additional 720,000 shares of our common stock were exercised in November 2006 resulting in cash proceeds to us of \$252,000, and
- For the period of April 25, 2007 to April 30, 2007 we reduced the exercise price of 1,000,000 of those warrants to \$0.60 per share. To the extent these warrants were not exercised by 5: 30 p.m. on April 30, 2007, the exercise price automatically reverted back to \$1.00 per share. Warrants to purchase 100,000 shares of our common stock were exercised in April 2007 resulting in cash proceeds to us of \$60,000.

As a result of the foregoing, Barron Partners LP presently holds warrants to purchase an aggregate of 3,180,000 shares of our common stock with an exercise price of \$1.00 per share which were originally issued in the Series A Convertible Preferred Stock transaction.

The warrants contain a cashless exercise provision which permits the holder, rather than paying the exercise price in cash, to surrender a number of warrants equal to the exercise price of the warrants being exercised. The exercise price of the warrants and the number of shares issuable upon the exercise of the warrants is subject to adjustment in the event of stock splits, stock dividends and reorganizations.

In the event we issue any shares, options, warrants, or any instrument convertible into shares or equity in any form below the exercise price of the particular warrant, then the exercise price of the warrant will be reduced proportionately. For example, if we issue shares at \$1.60 per share, or 20% below \$2.00 per share exercise price of the Common Stock Purchase Warrant "A", then the warrant exercise price of that warrant will be reduced by 20%.

No exercise of any warrant can occur if the exercise would result in the holder, Barron Partners LP, and any of its affiliates, beneficially owning more than 4.99% of our outstanding common shares following such exercise. Barron Partners LP may waive this provision upon 61 days prior notice to us, or it immediately terminates in the event of a sale or merger of substantially all of our company or upon an underwritten public offering.

Warrants issued in the Series B Convertible Preferred Stock transaction

In connection with the sale of shares of our Series B Convertible Preferred Stock, we issued the purchaser Barron Partners LP the following common stock purchase warrants:

- Common Stock Purchase Warrants "D" to purchase an aggregate of 1,000,000 shares of our common stock at an exercise price of \$2.00 per share,
- Common Stock Purchase Warrants "E" to purchase an aggregate of 625,000 shares of our common stock at an exercise price of \$4.80 per share, and
- Common Stock Purchase Warrants "F" to purchase an aggregate of 625,000 shares of our common stock at an exercise price of \$9.60 per share.

We also issued Liberty Company LLC, a broker dealer which served as finder for us in the transaction, a Common Stock Purchase Warrant "G" to purchase 25,000 shares of our common stock at an exercise price of \$1.00 per share. Other than the exercise price, all other terms of the warrant issued to Liberty Company LLC are identical to the Common Stock Purchase Warrants "E" and "F" issued to the purchaser.

The expiration date of the warrants is five years, or 18 months after effectiveness of a registration statement subsequent to the issuance hereof with such 18 months to be extended by one month for each month or portion of a month during which such registration statement's effectiveness has lapsed or been suspended, whichever is longer. The shares underlying these warrants were registered in the registration statement which was declared effective by the Securities and Exchange Commission on February 10, 2006.

The warrants contain a cashless exercise provision which permits the holder, rather than paying the exercise price in cash, to surrender a number of warrants equal to the exercise price of the warrants being exercised. The holder cannot utilize the cashless exercise feature during the first six months of the term or so long as there is an effective registration statement covering the shares of common stock underlying the warrants. The exercise price of the warrants and the number of shares issuable upon the exercise of the warrants is subject to adjustment in the event of stock splits, stock dividends and reorganizations, as well as if we issue common stock or securities convertible into common stock at an effective price less than the then current exercise price of the warrant.

As with the shares of Series B Convertible Preferred Stock, no exercise of these warrants may occur if a conversion would result in the holder, Barron Partners LP, and any of its affiliates, beneficially owning more than 4.9% of our outstanding common shares following such exercise. Barron Partners LP may waive this provision only with the consent of all of the Series B Preferred Stockholders and the consent of the holders of a majority of our outstanding shares of common stock who are not affiliates. This limitation, however, immediately terminates as to the warrants in the event of the sale of all or substantially all of our assets or a merger or consolidation in which we are not the surviving entity.

If our common stock trades at or above \$2.85 per share for 20 consecutive trading days, upon notice from us the holder must exercise the Common Stock Purchase Warrant "D" within 45 days, or transfer the warrant to a third party. If the holder elects to so transfer the warrant, the new holder then has an additional 45 days to exercise the Common Stock Purchase Warrant "D". If we have called the warrants and all or any portion of the warrants are not exercised within these respective periods, the unexercised Common Stock Purchase Warrants "D" will terminate.

Series H and Series I Common Stock Purchase Warrants

In connection with our unit private placement of securities between December 2004 and January 2005, we issued the following common stock purchase warrants to the purchasers:

- Series H Common Stock Purchase Warrant to purchase an aggregate of 250,000 shares of our common stock at an initial exercise price of \$4.00 per share expiring on December 31, 2007, and
- Series I Common Stock Purchase Warrants to purchase an aggregate of 250,000 shares of our common stock at an initial exercise price of \$8.00 per share expiring on December 31, 2009.

We also issued Cove Partners LLC Series H Common Stock Purchase Warrants to purchase an aggregate of 37,500 shares of our common stock and Series I Common Stock Purchase Warrants to purchase an aggregate of 37,500 shares of our common stock as partial compensation for certain assistance and advisory services to the company, including the structure of financing, strategic planning and business combinations.

In November 2006 we reduced the exercise prices of the Series H Common Stock Purchase Warrants and the Series I Common Stock Purchase Warrants to \$0.35 per share.

These warrants contain anti-dilution protection for the holders in the event of reorganization, consolidation or merger. We can call the Series H Common Stock Purchase Warrants at a call price of \$4.00 per underlying common share should our common stock trade at or above \$4.00 per share for 10 consecutive trading days following 15 days' prior written notice of our intention to call this warrant. Likewise, we can call the Series I Common Stock Purchase Warrants at a call price of \$8.00 per underlying common share should our common stock trade at or above \$8.00 per share for 10 consecutive trading days following 15 days' prior written notice of our intention to call this warrant. In the event these warrants or warrant series subject to call have not been exercised by written notice within such 15-day notice period, these warrants will cease to exist.

Comerica Bank warrant

In July 2004, in connection with the granting of a revolving credit line to us we issued Comerica Bank a warrant to purchase 40,000 shares of our common stock at an initial exercise price of \$0.38 per share. The warrant contained anti-dilution protection as described below. As a result of the anti-dilution protection and our subsequent sales of common stock and Series A Convertible Preferred Stock described elsewhere in this prospectus, the number of shares underlying the warrant and the exercise price of the warrant has been adjusted to 5,000 shares with an exercise price of \$2.00 per share.

The warrant is exercisable until July 21, 2011. At the option of the holder, the warrant is convertible into a number of shares of our common stock as determined by dividing the aggregate fair market value of our common stock minus the aggregate exercise price of the warrant by the fair market value of one share of our common stock. In addition, Comerica Bank has right to put the warrant to us at any time on or after July 21, 2006 and we are obligated to pay Comerica Bank \$15,000 upon the exercise of this put.

The exercise price of the warrant is subject to adjustment in the event we issue or sell shares of our common stock or securities exercisable or convertible into shares of our common stock at a price less than the then effective exercise price as well as in the event of stock splits, stock dividends or recapitalizations. We granted Comerica Bank registration rights covering the shares of common stock issuable upon the exercise of this warrant.

Sand Hill Finance, LLC Warrant

In connection with the Financing Agreement entered into in December 2005 for our accounts receivable factoring arrangement we issued Sand Hill Finance, LLC, the lender, a seven year common stock purchase warrant to purchase 25,000 shares of our common stock at an exercise price of \$1.00 per share. The warrant also contains a cashless exercise provision similar to that which is contained in the Comerica warrant described above. The number of shares issuable upon the exercise of the warrant and the exercise price are subject to adjustment in the event of stock dividends, stock splits and reclassifications.

Section 145 of the General Corporation Law of the State of Delaware provides that a certificate of incorporation may contain a provision eliminating the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director provided that such provision shall not eliminate or limit the liability of a director:

· for any breach of the director's duty of loyalty to the corporation or its stockholders,

· for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law,

· under Section 174 (relating to liability for unauthorized acquisitions or redemptions of, or dividends on, capital stock) of the General Corporation Law of the State of Delaware, or

· for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law,

· under Section 174 (relating to liability for unauthorized acquisitions or redemptions of, or dividends on, capital stock) of the General Corporation Law of the State of Delaware, or

· for any transaction from which the director derived an improper personal benefit.

Our Certificate of Incorporation contains such a provision.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Item 9. Undertakings

The undersigned small business issuer will:

(1) File, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement; and notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospects filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in the volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For determining liability of the undersigned small business issuer under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned small business issuer undertakes that in a primary offering of securities of the undersigned small business issuer pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned small business issuer will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

i. Any preliminary prospectus or prospectus of the undersigned small business issuer relating to the offering required to be filed pursuant to Rule 424;

ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned small business issuer or used or referred to by the undersigned small business issuer;

iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned small business issuer or its securities provided by or on behalf of the undersigned small business issuer; and

iv. Any other communication that is an offer in the offering made by the undersigned small business issuer to the purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
