XTL Biopharmaceuticals and Presidio Pharmaceuticals Amend License Agreement for Pre-Clinical Hepatitis C Program

XTL to Receive Additional \$2 Million in Cash in Return for a Reduction in Future Milestones and Royalties

Valley Cottage, NY, August 5, 2008 - XTL Biopharmaceuticals Ltd. (NASDAQ: XTLB, TASE: XTL) announced today an amendment to its licensing agreement with Presidio Pharmaceuticals, Inc. for its pre-clinical program in Hepatitis C focused on the NS5A target.

Under the terms of the amended license agreement, XTL will receive an additional non-refundable payment of \$2 million in return for a reduction in future contingent payments. Under the revised agreement, XTL will now receive up to \$59 million upon reaching certain development and commercialization milestones, a reduced royalty on direct product sales by Presidio, and a lower percentage of Presidio's income if the program is sublicensed by Presidio to a third party.

Ron Bentsur, XTL's CEO, commented, "This transaction provides us with essential, non-dilutive capital as we head towards the completion and announcement of results from the Bicifadine Phase 2b study, expected in Q4 2008, while still preserving meaningful potential economics from our out-licensed pre-clinical Hepatitis C program." Mr. Bentsur added, "We have the utmost confidence in Presidio's ability to move this program forward and believe that this transaction further demonstrates Presidio's commitment to the program."

"Given the progress Presidio has made since licensing XTL's NS5A program, we are pleased to be able to take this option to pay down future milestone, royalty, and sublicense income payments," stated Omar K. Haffar, Ph.D., President and CEO of Presidio, who added, "We believe this reduction in contingent payments to XTL may provide us with additional opportunities to unlock value through partnerships and collaborations potentially early on in the development process."

ABOUT XTL BIOPHARMACEUTICALS LTD.

XTL Biopharmaceuticals Ltd. ("XTL") is engaged in the development of therapeutics for the treatment of diabetic neuropathic pain and HCV. XTL is developing Bicifadine, a serotonin and norepinephrine reuptake inhibitor, for the treatment of diabetic neuropathic pain, which is currently in a Phase 2b study. XTL has out-licensed its novel pre-clinical HCV small molecule inhibitor program. XTL also has an active in-licensing and acquisition program designed to identify and acquire additional drug candidates. XTL is publicly traded on the NASDAQ and Tel-Aviv Stock Exchanges (NASDAQ: XTLB; TASE: XTL).

Cautionary Statement

Some of the statements included in this press release, particularly those anticipating future financial performance, clinical and business prospects for our clinical compound for neuropathic pain, Bicifadine, and for our compounds from our pre-clinical hepatitis C program, growth and operating strategies and similar matters, may be forward-looking statements that involve a number of risks and uncertainties. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Among the factors that could cause our actual results to differ materially is our ability to complete in a timely and cost effective manner clinical trials on Bicifadine, which could directly impact our ability to continue to fund our operations; our ability to meet anticipated development timelines for all of our drug candidates due to recruitment, clinical trial results, manufacturing capabilities or other factors; the success of our drug development and marketing arrangements with third parties; and other risk factors identified from time to time in our reports filed with the Securities and Exchange Commission, including our annual report on Form 20-F filed with the Securities and Exchange Commission on March 27, 2008. Any forward-looking statements set forth in this press release speak only as of the date of this press release. We do not intend to update any of these forward-looking statements to reflect events or circumstances that occur after the date hereof. This press release and prior releases are available at <http://www.xtlbio.com>. The information in our website is not incorporated by reference into this press release and is included as an inactive textual reference only.

SIGNATURES
