Cautionary Statement Concerning
Forward-Looking Statements

USE OF NAMES

In this quarterly report, the terms “BNH,” “Company,” “we,” or “our,” unless the context otherwise requires, mean BNH Inc.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and other reports that we file with the SEC contain statements that are considered forward-looking statements. Forward-looking statements give the Company’s current expectations, plans, objectives, assumptions, or forecasts of future events. All statements other than statements of current or historical fact contained in this quarterly report, including statements regarding the Company’s future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “anticipate,” “estimate,” “plans,” “potential,” “projects,” “ongoing,” “expects,” “management believes,” “we believe,” “we intend,” and similar expressions. These statements are based on the Company’s current plans and are subject to risks and uncertainties, and as such the Company’s actual future activities and results of operations may be materially different from those set forth in the forward looking statements. Any or all of the forward-looking statements in this quarterly report may turn out to be inaccurate and as such, you should not place undue reliance on these forward-looking statements. The Company has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy and financial needs. The forward-looking statements can be affected by inaccurate assumptions or by known or unknown risks, uncertainties, and assumptions due to a number of factors, including:

- dependence on key personnel;
- competitive factors;
- degree of success of research and development programs
- the operation of our business; and
- general economic conditions in the United States and Israel.

These forward-looking statements speak only as of the date on which they are made, and except to the extent required by federal securities laws, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the cautionary statements contained in this Quarterly Report.

BNH INC.

(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation and Organization

BNH Inc. (the "Company") is a Nevada corporation in the development stage, and has limited operations. The Company was incorporated under the laws of the State of Nevada on September 4, 2007. As originally stated, the business plan of the Company was to establish the Company as a distributor of environmentally-friendly, bio-plastic utensils. Currently, the Company plans to shift its focus from bioplastic products to the emerging greenhouse gas (GHG) carbon credit market. The Company plans to provide matching services for corporations who need to reduce emission outputs in light of more stringent environmental regulations with emission credit specialists who can assist such corporations in reducing their emissions and in earning and/or trading carbon credits. The accompanying financial statements of the Company were prepared from the accounts of the Company under the accrual basis of accounting.

Unaudited Interim Financial Statements

The interim financial statements of the Company as of June 30, 2009, and for the periods ended, and cumulative from inception, are unaudited. However, in the opinion of management, the interim financial statements include all adjustments, consisting of only normal recurring adjustments, necessary to present fairly the Company's financial position as of June 30, 2009, and the results of its operations and its cash flows for the periods ended June 30, 2009, and cumulative from inception. These results are not necessarily indicative of the results expected for the calendar year ending December 31, 2009. The accompanying financial statements and notes thereto do not reflect all disclosures required under accounting principles generally accepted in the United States. Refer to the Company's audited financial statements as of December 31, 2008, filed with the SEC, for additional information, including significant accounting policies.

Cash and Cash Equivalents

For purposes of reporting within the statement of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

Revenue Recognition

The Company is in the development stage and has yet to realize revenues from operations. Once the Company has commenced operations, it will recognize revenues when delivery of goods or completion of services has occurred provided there is persuasive evidence of an agreement, acceptance has been approved by its customers, the fee is fixed or determinable based on the completion of stated terms and conditions, and collection of any related receivable is probable.

Loss per Common Share

Basic loss per share is computed by dividing the net loss attributable to the common stockholders by the weighted average number of shares of common stock outstanding during the period. Fully diluted loss per share is computed similar to basic loss per share except that the denominator is increased to include the number of additional common

shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were no dilutive financial instruments issued or outstanding for the period ended June 30, 2009.

F-6

Income Taxes

The Company accounts for income taxes pursuant to SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"). Under SFAS 109, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

The Company maintains a valuation allowance with respect to deferred tax assets. The Company establishes a valuation allowance based upon the potential likelihood of realizing the deferred tax asset and taking into consideration the Company's financial position and results of operations for the current period. Future realization of the deferred tax benefit depends on the existence of sufficient taxable income within the carryforward period under the federal tax laws.

Changes in circumstances, such as the Company generating taxable income, could cause a change in judgment about the realizability of the related deferred tax asset. Any change in the valuation allowance will be included in income in the year of the change in estimate.

Fair Value of Financial Instruments

The Company estimates the fair value of financial instruments using the available market information and valuation methods. Considerable judgment is required in estimating fair value. Accordingly, the estimates of fair value may not be indicative of the amounts the Company could realize in a current market exchange. As of December 31, the carrying value of accounts payable-trade and accrued liabilities approximated fair value due to the short-term nature and maturity of these instruments.

Deferred Offering Costs

The Company defers as other assets the direct incremental costs of raising capital until such time as the offering is completed. At the time of the completion of the offering, the costs are charged against the capital raised. Should the offering be terminated, deferred offering costs are charged to operations during the period in which the offering is terminated.

Concentration of Risk

As of June 30, 2009, the Company maintained its cash account at one commercial bank. The balance in the account was subject to FDIC coverage.

Common Stock Registration Expenses

The Company considers incremental costs and expenses related to the registration of equity securities with the SEC, whether by contractual arrangement as of a certain date or by demand, to be unrelated to original issuance transactions. As such, subsequent registration costs and expenses are reflected in the accompanying financial statements as general and administrative expenses, and are expensed as incurred.

Lease Obligations

All noncancellable leases with an initial term greater than one year are categorized as either capital leases or operating leases. Assets recorded under capital leases are amortized according to the methods employed for property and equipment or over the term of the related lease, if shorter.

Estimates

The financial statements are prepared on the basis of accounting principles generally accepted in the United States. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as of June 30, 2009, and expenses for the period ended June 30, 2009, and cumulative from inception. Actual results could differ from those estimates made by management.

F-7

Recent Accounting Pronouncements

In April 2009, the FASB issued FSP No. FAS 157-4, “Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly” (“FSP FAS 157-4”). FSP FAS 157-4 provides guidance on estimating fair value when market activity has decreased and on identifying transactions that are not orderly. Additionally, entities are required to disclose in interim and annual periods the inputs and valuation techniques used to measure fair value. This FSP is effective for interim and annual periods ending after June 15, 2009. The Company does not expect that the adoption of FSP FAS 157-4 will have a material impact on its financial condition or results of operations.

In October 2008, the FASB issued FSP No. FAS 157-3, “Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active,” (“FSP FAS 157-3”), which clarifies application of SFAS 157 in a market that is not active. FSP FAS 157-3 was effective upon issuance, including prior periods for which financial statements have not been issued. The adoption of FSP FAS 157-3 had no impact on the Company’s results of operations, financial condition or cash flows.

In December 2008, the FASB issued FSP No. FAS 140-4 and FIN 46(R)-8, “Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities.” This disclosure-only FSP improves the transparency of transfers of financial assets and an enterprise’s involvement with variable interest entities, including qualifying special-purpose entities. This FSP is effective beginning with the first reporting period (interim or annual) ending after December 15, 2008, with earlier application encouraged. The Company adopted this FSP effective January 1, 2009. The adoption of the FSP had no impact on the Company’s results of operations, financial condition or cash flows.

In December 2008, the FASB issued FSP No. FAS 132(R)-1, “Employers’ Disclosures about Postretirement Benefit Plan Assets” (“FSP FAS 132(R)-1”). FSP FAS 132(R)-1 requires additional fair value disclosures about employers’ pension and postretirement benefit plan assets consistent with guidance contained in SFAS 157. Specifically, employers will be required to disclose information about how investment allocation decisions are made, the fair value of each major category of plan assets and information about the inputs and valuation techniques used to develop the fair value measurements of plan assets. This FSP is effective for fiscal years ending after December 15, 2009. The Company does not expect that the adoption of FSP FAS 132(R)-1 will have a material impact on its financial condition or results of operations.

In September 2008, the FASB issued exposure drafts that eliminate qualifying special purpose entities from the guidance of SFAS No. 140, “Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities,” and FASB Interpretation 46 (revised December 2003), “Consolidation of Variable Interest Entities – an interpretation of ARB No. 51,” as well as other modifications. While the proposed revised pronouncements have not been finalized and the proposals are subject to further public comment, the Company anticipates the changes will not have a significant impact on the Company’s financial statements. The changes would be effective March 1, 2010, on a prospective basis.

In June 2008, the FASB issued FASB Staff Position EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities, (“FSP EITF 03-6-1”). FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting, and therefore need to be included in the computation of earnings per share under the two-class method as described in FASB Statement of Financial Accounting Standards No. 128, “Earnings per Share.” FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning on or after December 15, 2008 and earlier adoption is prohibited. The Company is not required to adopt FSP EITF 03-6-1; nor does the Company believe that FSP EITF 03-6-1 would

have material effect on its financial position and results of operations if adopted.

In May 2008, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 163, “Accounting for Financial Guarantee Insurance Contracts-and interpretation of FASB Statement No. 60”. SFAS No. 163 clarifies how Statement 60 applies to financial guarantee insurance contracts, including the recognition and measurement of premium revenue and claims liabilities. This statement also requires expanded disclosures about financial guarantee insurance contracts. SFAS No. 163 is effective for fiscal years beginning on or after December 15, 2008, and interim periods within those years. SFAS No. 163 has no effect on the Company’s financial position, statements of operations, or cash flows at this time.

F-8

In May 2008, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 162, “The Hierarchy of Generally Accepted Accounting Principles”. SFAS No. 162 sets forth the level of authority to a given accounting pronouncement or document by category. Where there might be conflicting guidance between two categories, the more authoritative category will prevail. SFAS No. 162 will become effective 60 days after the SEC approves the PCAOB’s amendments to AU Section 411 of the AICPA Professional Standards. SFAS No. 162 has no effect on the Company’s financial position, statements of operations, or cash flows at this time.

In March 2008, the Financial Accounting Standards Board, or FASB, issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133. This standard requires companies to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. SFAS No. 161 has no effect on the Company’s financial position, statements of operations, or cash flows at this time.

In December 2007, the SEC issued Staff Accounting Bulletin (SAB) No. 110 regarding the use of a "simplified" method, as discussed in SAB No. 107 (SAB 107), in developing an estimate of expected term of "plain vanilla" share options in accordance with SFAS No. 123 (R), Share-Based Payment. In particular, the staff indicated in SAB 107 that it will accept a company's election to use the simplified method, regardless of whether the company has sufficient information to make more refined estimates of expected term. At the time SAB 107 was issued, the staff believed that more detailed external information about employee exercise behavior (e.g., employee exercise patterns by industry and/or other categories of companies) would, over time, become readily available to companies. Therefore, the staff stated in SAB 107 that it would not expect a company to use the simplified method for share option grants after December 31, 2007. The staff understands that such detailed information about employee exercise behavior may not be widely available by December 31, 2007. Accordingly, the staff will continue to accept, under certain circumstances, the use of the simplified method beyond December 31, 2007. It is not believed that this will have an impact on the Company’s financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51. This statement amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. Before this statement was issued, limited guidance existed for reporting noncontrolling interests. As a result, considerable diversity in practice existed. So-called minority interests were reported in the consolidated statement of financial position as liabilities or in the mezzanine section between liabilities and equity. This statement improves comparability by eliminating that diversity. This statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (that is, January 1, 2009, for entities with calendar year-ends). Earlier adoption is prohibited. The effective date of this statement is the same as that of the related Statement 141 (revised 2007). It is not believed that this will have an impact on the Company’s financial position, results of operations or cash flows.

In December 2007, the FASB, issued FAS No. 141 (revised 2007), Business Combinations. This Statement replaces FASB Statement No. 141, Business Combinations, but retains the fundamental requirements in Statement 141. This Statement establishes principles and requirements for how the acquirer: (a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; (b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and (c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This statement applies prospectively to business combinations for which the

acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply it before that date. The effective date of this statement is the same as that of the related FASB Statement No. 160, Noncontrolling Interests in Consolidated Financial Statements. It is not believed that this will have an impact on the Company's financial position, results of operations or cash flows.

F-9

2. Development Stage Activities and Going Concern

The Company is currently in the development stage, and has limited operations. As originally stated, the business plan of the Company was to establish the Company as a distributor of environmentally-friendly, bio-plastic utensils. Currently, the Company plans to shift its focus from bioplastic products to the emerging greenhouse gas (GHG) carbon credit market. The Company plans to provide matching services for corporations who need to reduce emission outputs in light of more stringent environmental regulations with emission credit specialists who can assist such corporations in reducing their emissions and in earning and/or trading carbon credits. The Company's plan is to identify project and joint venture opportunities in the emerging carbon credit market.

During the period ended June 30, 2008 and December 31, 2007, the Company began a capital formation activity through a PPO, exempt from registration under the Securities Act of 1933, to raise up to \$50,000 through the issuance of 2,000,000 shares of its common stock, par value \$0.001 per share, at an offering price of \$0.025 per share. As of January 23, 2008, the Company had fully subscribed the PPO and raised \$50,000 in proceeds with the issuance of 2,000,000 shares of its common stock.

The Company also commenced an activity to submit a Registration Statement on Form S-1 to the Securities and Exchange Commission ("SEC") to register 2,000,000 of its outstanding shares of common stock on behalf of selling stockholders. The Company will not receive any of the proceeds of this registration activity once the shares of common stock are sold. The Registration Statement on Form S-1 was filed with the SEC on April 16, 2008, and declared effective on April 30, 2008.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which contemplate continuation of the Company as a going concern. The Company has not established any source of revenues to cover its operating costs, and as such, has incurred an operating loss since inception. Further, as of June 30, 2009, the cash resources of the Company were insufficient to meet its current business plan. These and other factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the possible inability of the Company to continue as a going concern.

3. Loan from Stockholder

As of June 30, 2009, a loan from an individual who is a stockholder of the Company amounted to \$1,750. The loan was provided for working capital purposes, and is unsecured, non-interest bearing, and has no terms for repayment.

4. Common Stock

On September 4, 2007, pursuant to the terms of a subscription agreement, the Company sold 250,000 shares of common stock to Mrs. Goldy Klein, Secretary, for cash payment of \$250 (par value). The Company believes this issuance was deemed to be exempt under Regulation S of the Securities Act.

On October 18, 2007, the Company issued 1,500,000 shares of common stock, valued at \$1,500, to an officer of the Company for services rendered.

On October 25, 2007, the Company issued 250,000 shares of common stock, valued at \$250, to an officer of the Company for services rendered.

On November 12, 2007, the Company issued 3,000,000 shares of common stock, valued at \$3,000, to an officer of the Company for services rendered.

In addition, on November 30, 2007, the Company began a capital formation activity through a PPO, exempt from registration under the Securities Act of 1933, to raise up to \$50,000 through the issuance of 2,000,000 shares of its common stock, par value \$0.001 per share, at an offering price of \$0.025 per share. As of December 27, 2007, the Company had received \$26,000 in proceeds from the PPO. As of January 23, 2008, the Company had fully subscribed the PPO and raised \$50,000 in proceeds with the issuance of 2,000,000 shares of its common stock.

The Company also submitted a Registration Statement on Form S-1 to the Securities and Exchange Commission ("SEC") to register 2,000,000 of its outstanding shares of common stock on behalf of selling stockholders. The Company will not receive any of the proceeds of this registration activity once the shares of common stock are sold. The Registration Statement on Form S-1 was filed with the SEC on April 16, 2008, and declared effective on April 30, 2008.

5. Income Taxes

The provision (benefit) for income taxes for the period ended June 30, 2009 and 2008 was as follows (assuming a 23% effective tax rate):

	2009	2008
Current Tax Provision:		
Federal-		
Taxable income	\$ -	\$ -
Total current tax provision	\$ -	\$ -
Deferred Tax Provision:		
Federal-		
Loss carryforwards	\$ 5,263	\$ 3,359
Change in valuation allowance	(5,263)	(3,359)
Total deferred tax provision	\$ -	\$ -

The Company had deferred income tax assets as of June 30, 2009 and 2008 as follows:

	2009	2008
Loss carryforwards	\$ 17,754	\$ 12,491
Less - valuation allowance	(17,754)	(12,491)
Total net deferred tax assets	\$ -	\$ -

The Company provided a valuation allowance equal to the deferred income tax assets for the period ended June 30, 2009 because it is not presently known whether future taxable income will be sufficient to utilize the loss carryforwards.

As of June 30, 2009, the Company had approximately \$77,191 in tax loss carryforwards that can be utilized in future periods to reduce taxable income, and expire by the year 2029.

6. Related Party Transactions

On September 4, 2007, pursuant to the terms of a subscription agreement, the Company sold 250,000 shares of common stock to Mrs. Goldy Klein, Secretary, for cash payment of \$250 (par value). The Company believes this issuance was deemed to be exempt under Regulation S of the Securities Act.

On October 18, 2007, the Company issued 1,500,000 shares of common stock, valued at \$1,500 to an officer of the Company for services rendered.

On October 25, 2007, the Company issued 250,000 shares of common stock, valued at \$250 to an officer of the Company for services rendered.

On November 12, 2007, the Company issued 3,000,000 shares of common stock, valued at \$3,000 to an officer of the Company for services rendered.

As described in Note 3, as of June 30, 2009, the Company owed \$1,750 to an individual who is a stockholder of the Company.

F-12

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Overview

We have not generated any revenue since our inception. We are a development stage company with limited operations. Our auditors have issued a going concern opinion. This means that our auditors believe there is substantial doubt that we can continue as an ongoing business for the next twelve months.

Plan of Operation

We have not had any revenues since our inception on September 4, 2007. As originally stated, the business plan of the Company was to establish the Company as a distributor of environmentally-friendly, bio-plastic utensils. Currently, the Company plans to shift its focus from bioplastic products to the emerging greenhouse gas (GHG) carbon credit market. The Company plans to provide matching services for corporations who need to reduce emission outputs in light of more stringent environmental regulations with emission credit specialists who can assist such corporations in reducing their emissions and in earning and/or trading carbon credits. Our activities and plans in the carbon credit market are described in more detail below.

The GHG Carbon Credit Market Current legislation and regulatory measures to reduce atmospheric concentrations of greenhouse gases have their roots in climate change challenges presented by the United Nations Framework Convention on Climate Change and the Kyoto Protocol.

On June 27, 2009, the U.S. House of Representatives passed ground breaking legislation to impose first-ever limits in the US related to greenhouse-gas emissions linked to global warming. It is expected that such legislation will incur a tough legislative battle in the Senate. President Obama called the vote in the House of Representatives "a bold and necessary step that holds the promise of creating new industry and millions of new jobs." The bill, he said, would usher in "a critical transition to a clean-energy economy without untenable burdens on the American people."

The bill, if approved by the Senate, would create a market for trading pollution permits to curb emissions.

Reduction Target

The American Clean Energy and Security Act calls for the U.S. to reduce its greenhouse-gas emissions by 17 percent from 2005 levels by 2020. It would establish a limited number of pollution permits, more than 70 percent of which would initially be given away free to utilities, manufacturers, state governments and others, according to the Congressional Budget Office. The permits could then be traded or sold. In addition, most states would be required to generate 20 percent of their electricity from renewable sources by 2020.

Jobs and Oil Usage Reduction

House Democratic leaders say the bill would create 1.7 million new jobs and save 240 million barrels of oil by 2020.

Cost Per Household

According to the Congressional Budget Office the new bill would cost the average American household \$175 a year in extra expenses.

We believe that the carbon market is in an expansion phase, and that in the coming years it will grow as U.S. federal regulation of GHG emissions becomes a reality. Any cap-and-trade system will most likely include provisions

relating to allowances issued to regulated entities by the government, emission reduction certificates generated by clean development projects outside the regulated entities, and market-based incentives for Reduced Emissions from Deforestation and Degradation (REDD), such as forestry offsets.

As corporations that produce GHG emissions become subject to increased regulation, they will be interested in effective and relatively inexpensive ways to reduce their GHG emissions to comply with, as well as benefit from, any applicable cap-and-trade system.

Matching Services – Carbon Credits

We foresee the development of a new service market in which brokers would match GHG emissions specialists with corporations with high GHG emissions which are interested in receiving advice on how to earn and trade carbon credits.

Our management has decided to enter this field. We plan to introduce GHG emissions consultants to GHG emissions producing corporations, and to assist these GHG emissions consultants with entering into business agreements with these GHG emissions producers. In exchange for our services, we plan to receive a percentage of the revenues earned by such consultants on each client that we match.

As a preliminary step, we intend to increase the size of our Board of Directors and our advisory board to include experts in the field of climate technologies. We intend to retain the necessary professionals to assist us in matching GHG emissions producers with GHG emissions consultants.

Results of Operations

Revenues

We had no revenues for the period from September 4, 2007 (date of inception) through June 30, 2009.

Expenses

Our expenses for the six month period ended June 30, 2009 were \$22,882 compared with \$14,604 for the same period six month period in 2008. Our expenses since our inception were \$77,191. These expenses were comprised primarily of professional fees and general and administrative expenses.

Net Income (Loss)

Our net loss for the six month period ended June 30, 2009 was \$22,882 compared with \$14,604 for the same six month period in 2008. During the period from September 4, 2007 (date of inception) through June 30, 2009, we incurred a net loss of \$77,191. This loss consisted primarily of professional fees and administrative expenses. Since inception, we have sold 7,000,000 shares of common stock.

Liquidity and Capital Resources

Our balance sheet as of June 30, 2009, reflects assets of \$6,114. Cash and cash equivalents from inception to date have been insufficient to provide the working capital necessary to operate to date.

We anticipate generating losses and, therefore, may be unable to continue operations in the future. If we require additional capital, we would have to issue debt or equity or enter into a strategic arrangement with a third party. There can be no assurance that additional capital will be available to us. We currently have no agreements, arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources.

Going Concern Consideration

The financial statements contained herein for the fiscal quarter ended June 30, 2009, have been prepared on a “going concern” basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. For the reasons discussed herein and in the footnotes to our financial statements included herein, there is a significant risk that we will be unable to continue as a going concern. Our audited financial statements included in our Annual Report on Form 10-K for the period ended December 31, 2008, contain additional note disclosures describing the circumstances that lead to this disclosure by our registered independent auditors.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

None.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, based on an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15(d)-15(e) under the Exchange Act), our Chief Executive Officer and the Chief Financial Officer has concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the applicable time periods specified by the SEC's rules and forms.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 4T. Controls and Procedures

This report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Identified in connection with the evaluation required by paragraph (d) of Rule 240.13a-15 or Rule 240.15d-15 of this chapter that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

PART II

Item 1. Legal Proceedings.

None.

Item 1A. Risk Factors.

There have been no material changes from the risk factors disclosed in our annual report on Form 10-K for the year ended December 31, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.
