Item 8.01 Other Events.

On June 6, 2010, Genta Incorporated, (the Company), announced the presentation of combined data on early endpoints from the Company's randomized Phase 3 trials of Genasense® (oblimersen sodium) Injection plus chemotherapy in patients with advanced melanoma. The presentation included a "pooled analysis" that assessed combined efficacy results for the endpoints of overall response and progression-free survival from both studies. The data were presented on June 6, 2010 at the 2010 annual meeting of the American Society of Clinical Oncology (ASCO) in Chicago, IL.

On June 7, 2010, the Company announced the presentation of results from two dose-ranging trials of tesetaxel, the Company's novel oral tubulin inhibitor. Results showed potential activity in patients with taxane-resistant cancers, along with no evidence of hypersensitivity and a low incidence of nerve damage, both of which are common side effects of standard taxanes. The data were presented on June 6, 2010 at the 2010 annual meeting of the American Society of Clinical Oncology (ASCO) in Chicago, IL.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

Exhibit Number	Description
99.1	Press Release of the Company dated June 6, 2010
99.2	Press Release of the Company dated June 7, 2010
