We are a non-diversified, closed-end management investment company that has registered as an investment company under the Investment Company Act of 1940, or the 1940 Act. Our investment objective is to maximize our portfolio total return. We have implemented our investment objective by purchasing portions of equity and junior debt tranches of collateralized loan obligation (CLO) vehicles. Structurally, CLO vehicles are entities formed to originate and manage a portfolio of loans. The loans within the CLO vehicle are limited to loans which meet established credit criteria and are subject to concentration limitations in order to limit a CLO vehicle s exposure to a single credit.

We may offer, from time to time, in one or more offerings or series, up to \$300,000,000 of our common stock, preferred stock, subscription rights to purchase shares of our common stock or debt securities, which we refer to, collectively, as our securities. The preferred stock and subscription rights offered hereby may be convertible or exchangeable into shares of our common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus.

In the event we offer common stock, the offering price per share of our common stock less any underwriting discounts or commissions will generally not be less than the net asset value per share of our common stock at the time we make the offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (i) in connection with a rights offering to our existing stockholders, (ii) with the prior approval of the majority of our common stockholders or (iii) under such other circumstances as the Securities and Exchange Commission (SEC) may permit.

Our securities may be offered directly to one or more purchasers, or through agents designated from time to time by us, or to or through underwriters or dealers. Each prospectus supplement relating to an offering will identify any agents or underwriters involved in the sale of our securities, and will disclose any applicable purchase price, fee,

discount or commissions arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See Plan of Distribution. We may not sell any of our securities through agents, underwriters or dealers without delivery of this prospectus and a prospectus supplement describing the method and terms of the offering of such securities.

Our common stock is traded on the NASDAQ Global Select Market under the symbol OXLC. On June 29, 2015, the last reported sales price on the NASDAQ Global Select Market for our common stock was \$14.00 per share. We are required to determine the net asset value per share of our common stock on a quarterly basis.

Our net asset value per share of our common stock as of March 31, 2015 was \$14.08.

TABLE OF CONTENTS

SUMMARY

The following summary contains basic information about this offering. It may not contain all the information that is important to an investor. For a more complete understanding of this offering, you should read this entire document and the documents to which we have referred.

Except where the context requires otherwise, the terms Oxford Lane Capital, the Company, we, us and our refer to Oxford Lane Capital Corp.; Oxford Lane Management and investment adviser refer to Oxford Lane Management, LLC; BDC Partners and administrator refer to BDC Partners, LLC; and Alaric and Alaric Compliance Services refer to Alaric Compliance Services, LLC.

Overview

We are a non-diversified closed-end management investment company that has registered as an investment company under the 1940 Act. Our investment objective is to maximize our portfolio's risk-adjusted total return.

We have implemented our investment objective by purchasing portions of equity and junior debt tranches of collateralized loan obligation (CLO) vehicles. Substantially all of the CLO vehicles in which we may invest would be deemed to be investment companies under the 1940 Act but for the exceptions set forth in section 3(c)(1) or section 3(c)(7). Structurally, CLO vehicles are entities formed to originate and manage a portfolio of loans. The loans within the CLO vehicle are limited to loans which meet established credit criteria and are subject to concentration limitations in order to limit a CLO vehicle's exposure to a single credit. A CLO vehicle is formed by raising various classes or tranches of debt (with the most senior tranches being rated AAA to the most junior tranches typically being rated BB or B) and equity. The CLO vehicles which we focus on are collateralized primarily by senior secured loans made to companies whose debt is unrated or is rated below investment grade (Senior Loans), and generally have very little or no exposure to real estate, mortgage loans or to pools of consumer-based debt, such as credit card receivables or auto loans. Our investment strategy also includes warehouse facilities, which are financing structures intended to aggregate loans that may be used to form the basis of a CLO vehicle. We may also invest, on an opportunistic basis, in other corporate credits of a variety of types. We expect that each of our investments will range in size from \$5 million to \$50 million, although the investment size may vary consistent with the size of our overall portfolio.

Oxford Lane Management manages our investments and its affiliate arranges for the performance of the administrative services necessary for us to operate.

Distributions

In order to qualify as a regulated investment company, or RIC, and to eliminate our liability for corporate-level U.S. federal income tax on the income we distribute to our stockholders, we are required, under Subchapter M of the Internal Revenue Code of 1986, as amended, or the Code, to distribute to our stockholders on an annual basis at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any.
