NOTE 1:- GENERAL (Cont.)

The Company has incurred continuing losses and depends on outside financing resources to continue its activities. However, the amount of cash which the Company will need in practice to finance its activities depends on numerous factors which include, but are not limited to, the timing, planning and execution of clinical trials of existing drugs and future projects which the Company might acquire or other business development activities such as acquiring new technologies and/or changes in circumstances which are liable to cause significant expenses to the Company in excess of management's current expectations as of the date of these financial statements and which will require the Company to reallocate funds against plans, also due to circumstances beyond its control.

The Company expects to incur additional losses in 2015 arising from research and development activities, testing additional technologies and operating activities, which will be reflected in negative cash flows from operating activities. In order to perform the clinical trials aimed at developing a product until obtaining its marketing approval, the Company may be required to raise additional funds in the future by issuing securities. Should the Company fail to raise additional capital in the future under terms that are acceptable to the Company or at all, it will be required to minimize its activities or sell or grant a sublicense to third parties to use all or part of its technologies.
