Morgan Group Holding Co.
Notes to Financial Statements

Note 1. Basis of Presentation

Morgan Group Holding Co. ("Holding" or "the Company") was incorporated in November 2001 as a wholly owned subsidiary of LICT Corporation ("LICT, formerly Lynch Interactive Corporation") to serve, among other business purposes, as a holding company for LICT's controlling interest in The Morgan Group, Inc. ("Morgan"). On January 24, 2002, LICT spun off 2,820,051 shares of Holding common stock through a pro rata distribution ("Spin-Off") to its stockholders and retained 235,294 shares.

On October 3, 2002, Morgan ceased its operations when its liability insurance expired and it was unable to secure replacement insurance. On October 18, 2002, Morgan and two of its operating subsidiaries filed voluntary petitions under Chapter 11 of the United States Bankruptcy Code in the United States Bankruptcy Court for the Northern District of Indiana, South Bend Division for the purpose of conducting an orderly liquidation of Morgan's assets. On March 31, 2008, the

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10-Q

bankruptcy proceeding was concluded and the bankruptcy court dismissed the proceeding. Holding received no value for its equity ownership from the bankruptcy proceeding.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Recently Issued Accounting Pronouncements

In August 2009, the FASB issued Accounting Standards Update ("ASU") No. 2009-05 which amended ASC 820 as it relates to the measurement of liabilities at fair value, effective for interim reporting periods beginning after August 26, 2009. More specifically, this amendment provided clarification for liabilities in which a quoted price in an active market for an identical liability is not available. The Company adopted this amendment during the first quarter of the fiscal year 2010 and its adoption did not have a material effect on the Company's financial position, results of operations or cash flows.

The Company adopted the provisions of ASC 855, Subsequent Events ("ASC 855"), during the third quarter of the fiscal year 2009. ASC 855 establishes standards of accounting for and disclosure of transactions and events that occur after the balance sheet date but before the financial statements are issued and requires the disclosure, among other things, of the date through which an entity has evaluated subsequent events. In February 2010, the FASB issued ASU No. 2010-09 which amended ASC 855. This amendment, which was effective upon issuance, removed the requirement for SEC registrants to disclose the date through which such registrants have evaluated subsequent events.

Note 2. Marketable Securities

Marketable securities consist of publicly traded common stocks. The Company's investments in marketable securities are classified as trading under ASC 320 (formerly FASB 115, "Accounting for Certain Investments in Debt and Equity Securities") and are carried at their estimated fair value based on current market quotes. The Company acquires its marketable securities on an open market through an affiliate of its Chairman. The Company reports the unrealized gains or losses through the current period Statement of Operations. At June 30, 2010, there was \$410 of unrealized gains on the Company's investments in marketable securities which was included in earnings for the three and six months ended June 30, 2010.

6

Note 3. Fair Value of Financial Instruments

On January 1, 2008, the Company adopted ASC 820-10 (formerly Statement of

Edgar Filing: MORGAN GROUP HOLDING CO - Form 10-Q

Financial Accounting Standard No. 157, "Fair Value Measurements") and subsequently adopted the related FASB Staff Positions. The Company measures fair value as the selling price that would be received for an asset, or paid to transfer a liability, in the principal market on the measurement date. The hierarchy established by the FASB prioritizes fair value measurements based on the types of inputs used in the valuation technique. The inputs are categorized into the following levels:

Level 1 - Observable inputs such as quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices that are observable, either directly or indirectly, for identical or similar assets and liabilities in active or non-active markets; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liability.

Level 3 - Unobservable inputs not corroborated by market data, therefore requiring the entity to use the best available information, including management assumptions.

Market value was determined using Level 1 inputs, which are quoted prices for identical securities in active markets.

At June 30, 2010, the Gross Unrealized Gains are as follows:

| Description | Cost Basis | Gross Unrealized Gains | Estimated Fair Value |
|-------------|---------------|------------------------------|----------------------------|
| Equity | \$266,215 | \$ 410 | \$ 266,625 |

While the above Estimated Fair Value was based on quoted prices (unadjusted) in active markets for identical assets at the reporting date, the quoted price was significantly impacted by offer to acquire all of the outstanding of stock of that entity. The transaction closed subsequent to the reporting date at an amount in excess of the above Estimated Fair Value.

Note 4. Income Taxes

The Company is a "C" corporation for Federal tax purposes, and has provided for deferred income taxes for temporary differences between the financial statement and tax bases of its assets and liabilities. The Company has recorded a full valuation allowance against its deferred tax asset of approximately \$1.7 million arising from its temporary basis differences and tax loss carryforward, as its realization is dependent upon the generation of future taxable income during the period when such losses would be deductible.

Pursuant to Sections 382 and 383 of the Internal Revenue Code, annual use of any of the Company's net operating loss carry forwards may be limited if cumulative changes in ownership of more than 50% occur during any three year period.

Note 5. Commitments and Contingencies

On March 31, 2008, the bankruptcy court dismissed Morgan's bankruptcy proceeding. Holding had not guaranteed any of the obligations of Morgan. Management believes that the Company has no commitment or obligation to fund any creditors of Morgan.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

On October 18, 2002, Morgan adopted the liquidation basis of accounting and accordingly, Morgan's assets and liabilities have been adjusted to estimate net realizable value. As the carrying value of Morgan's liabilities exceeded the fair value of its assets, the liabilities were reduced to equal the estimated net realizable value of the assets.

The Company currently has no operating businesses and will seek acquisitions as part of its strategic alternatives. Its only costs are the administrative expenses required to make the regulatory filings needed to maintain its public status. These costs are estimated at \$30,000 to \$40,000 per year.

Results of Operations

For the three months ended June 30, 2010, the Company incurred \$3,486 of expenses down slightly from \$4,056 of expenses in the three months ended June 30, 2009. Lower professional fees in 2010 caused the slight decrease in this quarter. For the six months ended June 30, 2010, the Company incurred \$18,995 of expenses down slightly from \$20,342 of expenses in the six months ended June 30, 2009, also due to lower professional fees in 2010.

Investment income was \$1,237 in the three months ended June 30, 2010 as compared to \$216 in the three months ended June 30, 2009. During the second quarter of 2010, the Company recorded \$1,190 of realized and unrealized gains from the purchase and sale of certain marketable securities. There was no activity in marketable securities in 2009. The remaining investment income is as a result of the Company's investment in a United States Treasury money market fund. Investment income was \$1,288 in the six months ended June 30, 2010 as compared to \$618 in the six months ended June 30, 2009. The increase was due to the aforementioned gains in marketable securities.

Liquidity and Capital Resources

As of June 30, 2010, the Company's only assets consisted of approximately \$365,977 in cash, cash equivalents and marketable securities and a capital loss carry forward of about \$4.5 million, which it expects, will substantially expire in 2013. The ability to utilize this carry forward is dependent on the Company's ability to generate a capital gain prior to its expiration.

Off Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Analysis of Market Risk

As of June 30, 2010, the Company had no market sensitive assets or liabilities, and, as a result, management believes that the Company is minimally exposed to changes in market risk.

Recently Issued Accounting Pronouncements

For a discussion of accounting standards updates that have been adopted or will be adopted in the future, please read Note 1 of the Notes to Condensed Financial Statements included under Item 1.

Item 4T. Controls and Procedures

a) Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act")) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report were designed and were functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. The Company believes that a controls system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

(b) Changes in Internal Controls

During the period covered by this report, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our financial statements.

Forward Looking Discussion

This report contains a number of forward-looking statements, including statements regarding the prospective adequacy of the Company's liquidity and capital resources in the near term. From time to time, the Company may make other oral or written forward-looking statements regarding its anticipated operating revenues, costs and expenses, earnings and other matters affecting its operations and condition. Such forward-looking statements are subject to a number of material factors, which could cause the statements or projections contained therein, to be materially inaccurate. Such factors include the estimated administrative expenses of the Company on a go forward basis.
