2011 ANNUAL MEETING OF STOCKHOLDERS

PROXY STATEMENT

Annaly Capital Management, Inc. (“we”, “our” or “us”) is furnishing this proxy statement in connection with our solicitation of proxies to be voted at our 2011 annual meeting of stockholders. We will hold the annual meeting at the New York Marriott Marquis, 1535 Broadway, New York, New York 10036, on Thursday, May 26, 2011 at 9:00 a.m. New York time, and any postponements or adjournments thereof. We are sending this proxy statement and the enclosed proxy to our stockholders commencing on or about April 15, 2011. Our principal executive offices are located at 1211 Avenue of the Americas, Suite 2902, New York, New York 10036.

QUESTIONS AND ANSWERS ABOUT THE MEETING

Q: What am I voting on?

- A: (1) Election of three directors, Michael A. J. Farrell, Jonathan D. Green and John A. Lambiase, for terms of three years;
- (2) A proposal to amend our charter to increase the number of authorized shares of capital stock to 2,000,000,000 shares;
- (3) Approval of a non-binding advisory resolution on our executive compensation;
- (4) A recommendation, by a non-binding advisory vote, for the frequency of advisory votes on our executive compensation; and
- (5) Ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2011.

Q: What is the proposed charter amendment?

- A: Our charter currently allows us to issue up to a combined total of 1,000,000,000 shares of capital stock, par value \$0.01 per share. As of March 30, 2011 we had 804,350,532 shares of common stock, 7,412,500 shares of 7.875% Series A Cumulative Redeemable Preferred Stock and 1,652,047 shares of 6.00% Series B Cumulative Convertible Preferred Stock issued and outstanding. To retain the ability to issue additional shares, we seek to increase the number of shares we are currently authorized to issue. The proposed amendment of our charter raises the total number of authorized shares we are permitted to issue from 1,000,000,000 shares to 2,000,000,000 shares.

Q: How does the board of directors recommend that I vote on these proposals?

A: Our board of directors recommends that you vote:

- (1) "FOR" the election of each of the nominees as directors;
- (2) "FOR" the proposal to amend our charter to increase the number of authorized shares of capital stock to 2,000,000,000 shares;
- (3) "FOR" approval of the non-binding advisory resolution on executive compensation;
- (4) "FOR EVERY THREE YEARS" with regard to the frequency of the shareowner vote to approve our executive compensation; and
- (5) "FOR" the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2011.

Q: Who is entitled to vote at the meeting?

A: Only common stockholders of record as of the close of business on March 30, 2011, the record date, are entitled to vote at the meeting.

Q: What quorum is required for the meeting?

A: A quorum will be present at the annual meeting if a majority of the votes entitled to be cast are present, in person or by proxy. Since there were 804,350,532 eligible votes as of the record date, we will need at least 402,175,267 votes present in person or by proxy at the annual meeting for a quorum to exist. If a quorum is not present at the annual meeting, we expect that the annual meeting will be adjourned to solicit additional proxies. Holders of record of our common stock on the record date are entitled to one vote per share.

Q: What are the voting requirements that apply to the proposals discussed in this proxy statement?

A:	Proposal	Vote Required	Discretionary Voting Allowed?
(1)	Election of directors	Majority	No
(2)	Amendment of our charter	Majority	No
(3)	Advisory vote on our executive compensation	Majority	No
(4)	Advisory vote for the frequency of advisory votes on our executive compensation	Plurality	No
(5)	Ratification of the appointment of Deloitte & Touche LLP	Majority	Yes

“Majority” means (a) with regard to the election of directors, the affirmative vote of a majority of all the votes cast on the election of a director on a per director basis; provided, however, that in an election of directors, if the number of nominees exceeds the number of directors to be elected at such meeting, the directors shall be elected by the vote of a plurality of the shares represented in person or by proxy at any such meeting; (b) with regard to the proposed amendment to our charter, a majority of the total number of issued and outstanding shares of our common stock; and (c) with regard to the advisory resolution on our executive compensation and the ratification of the appointment of Deloitte & Touche LLP, a majority of the votes cast at the annual meeting.

“Plurality” means, with regard to the advisory vote on the frequency of the shareowner vote on executive compensation, the option (every one, two or three years) receiving the greatest number of “for” votes will be considered the frequency recommended by stockholders.

“Discretionary voting” occurs when a bank, broker, or other holder of record does not receive voting instructions from the beneficial owner and votes those shares in its discretion on any proposal as to which the rules of the New York Stock Exchange permit such bank, broker, or other holder of record to vote. When banks, brokers, and other holders of record are not permitted under the New York Stock Exchange rules to vote the beneficial owner’s shares, the affected shares are referred to as broker “non-votes.”

Q: What is the effect of abstentions and broker “non-votes”?

A: Abstentions will be treated as shares that are present and entitled to vote for purposes of determining the presence of a quorum. An abstention is the voluntary act of not voting by a stockholder who is present at a meeting and entitled to vote. Broker “non-votes” will be treated as present and entitled to vote for purposes of determining the presence of a quorum at the annual meeting.

Abstentions and broker non-votes, if any, will have no effect on the election of the directors (Proposal No. 1), the advisory resolution on our executive compensation (Proposal No. 3), the advisory vote for the frequency of advisory votes on our executive compensation (Proposal No. 4) and the ratification of the appointment of Deloitte & Touche LLP (Proposal No. 5). For purposes of the vote to approve the amendment to our charter (Proposal No. 2), abstentions and broker non-votes will have the same effect as votes against the proposal.

Q: How will my shares be voted if I do not specify how they should be voted?

A: Properly executed proxies that do not contain voting instructions will be voted as follows:

- (1) Proposal 1: FOR the election of directors;
- (2) Proposal 2: FOR the approval of the amendment of our charter;
- (3) Proposal 3: FOR the approval of a non-binding advisory resolution on our executive compensation;
- (4) Proposal 4: FOR EVERY THREE YEARS with regard to the frequency of the shareowner vote to approve our executive compensation; and
- (5) Proposal 5: FOR the ratification of Deloitte & Touche LLP as our independent registered public accounting firm.

The individuals named as proxies by a stockholder may vote for one or more adjournments of the annual meeting, including adjournments to permit further solicitations of proxies.

We do not expect that any matter other than the proposals described above will be brought before the annual meeting. If, however, other matters are properly presented at the annual meeting, the individuals named as proxies will vote in accordance with the recommendation of our board of directors.

Q: What do I do if I want to change my vote?

A: You may revoke a proxy at any time before it is voted by filing with us a duly executed revocation of proxy, by submitting a duly executed proxy to us with a later date or by appearing at the annual meeting and voting in person. You may revoke a proxy by any of these methods, regardless of the method used to deliver your previous proxy. Attendance at the annual meeting without voting will not itself revoke a proxy.

Q: How will voting on any other business be conducted?

A: Other than the five proposals described in this proxy statement, we know of no other business to be considered at the annual meeting. If any other matters are properly presented at the meeting, your signed proxy card authorizes Michael A.J. Farrell, our Chairman of the Board, Chief Executive Officer, and President, and R. Nicholas Singh, our Secretary, to vote on those matters according to their best judgment.

Q: Who will count the vote?

A: Representatives of Broadridge Financial Solutions, Inc., the independent Inspector of Elections, will count the votes.

Q: Who can attend the annual meeting?

A: All stockholders of record as of March 30, 2011 can attend the annual meeting, although seating is limited. If your shares are held through a broker and you would like to attend, please either (1) write us at Investor Relations, Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036 or email us at investor@annaly.com, or (2) bring to the meeting a copy of your brokerage account statement or an omnibus proxy (which you can get from your broker).

In addition, you must bring valid, government-issued photo identification, such as a driver's license or a passport. If you plan to attend, please check the box on your proxy card and return it as directed on the proxy card. In addition, if you are a record holder of common stock, your name is subject to verification against the list of our record holders on the record date prior to being admitted to the annual meeting. If you are not a record holder but hold shares in street name, that is, with a broker, dealer, bank or other financial institution that serves as your nominee, you should be prepared to provide proof of beneficial ownership on the record date, or similar evidence of ownership. If you do not provide valid government-issued photo identification or comply with the other procedures outlined above upon request, you will not be admitted to the annual meeting.

Security measures will be in place at the meeting to help ensure the safety of attendees. Metal detectors similar to those used in airports may be located at the entrance to the auditorium and briefcases, handbags and packages may be inspected. No cameras or recording devices of any kind, or signs, placards, banners or similar materials, may be brought into the meeting. Anyone who refuses to comply with these requirements will not be admitted.

Q: How will we solicit proxies for the annual meeting?

A: We are soliciting proxies by mailing this proxy statement and proxy card to our stockholders. We will pay the expenses incurred in connection with the printing and mailing of this proxy statement. In addition to solicitation by mail, the directors, officers and our employees, who will not be specially compensated, may solicit proxies from our stockholders by telephone, facsimile, or other electronic means or in person. Arrangements also will be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of shares held of record by these persons, and we will reimburse them for their reasonable out-of-pocket expenses. We will bear the total cost of soliciting proxies.

Stockholders have the option to vote over the internet or by telephone. Please be aware that if you vote over the internet, you may incur costs such as telephone and access charges for which you will be responsible.

Q: What is “Householding” and does Annaly do this?

A: Householding is a procedure approved by the Securities and Exchange Commission under which stockholders who have the same address and last name and do not participate in electronic delivery of proxy materials receive only one copy of a company’s proxy statement and annual report from a company, bank, broker or other intermediary, unless one or more of these stockholders notifies the company, bank, broker or other intermediary that they wish to continue to receive individual copies. We engage in this practice, which is known as “householding,” as it reduces our printing and postage costs. However, if a stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement, he or she may request it orally or in writing by contacting us at Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036, Attention: Investor Relations, by emailing us at investor@annaly.com, or by calling us at 212-696-0100, and we will promptly deliver to the stockholder the requested annual report or proxy statement. If a stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement in the future, he or she may contact us in the same manner. If you are an eligible stockholder of record receiving multiple copies of our annual report and proxy statement, you can request householding by contacting us in the same manner. If you own your shares through a bank, broker or other nominee, you can request householding by contacting the nominee.

Q: Could the Annual Meeting be postponed or adjourned?

A: If a quorum is not present or represented, our bylaws permit a majority of stockholders entitled to vote at the annual meeting, present in person or represented by proxy, to postpone or adjourn the meeting, without notice other than an announcement.

Q: Who can help answer my questions?

A: If you have any questions or need assistance voting your shares or if you need additional copies of this proxy statement or the enclosed proxy card, you should contact:

CORPORATE GOVERNANCE, DIRECTOR INDEPENDENCE, BOARD MEETINGS AND COMMITTEES

Corporate Governance

We believe that we have implemented effective corporate governance policies and observe good corporate governance procedures and practices. We have adopted a number of written policies, including corporate governance guidelines, code of business conduct and ethics, and charters for our audit committee, compensation committee and nominating/corporate governance committee.

Board Oversight of Risk

The board of directors is responsible for overseeing our risk management practices and committees of the board of directors assist it in fulfilling this responsibility.

As required by its charter, the audit committee routinely discusses with management our significant risk exposures and the actions management has taken to limit, monitor or control such exposures, including guidelines and policies with respect to our assessment of risk and risk management. At least annually, the audit committee reviews with management our risk management program which identifies and quantifies a broad spectrum of enterprise-wide risks, and related action plans. In 2010, our full board of directors participated in this review and discussion and expects to continue this practice as part of its role in the oversight of our risk management practices. In addition, our employees report to the audit committee on various matters related to our risk exposures on a regular basis or more frequently if appropriate. At their discretion, members of the board of directors may also directly contact management to review and discuss any risk-related or other concerns that may arise between regular meetings.

Our board of directors reviewed with the compensation committee its compensation policies and practices applicable to all employees that could affect our assessment of risk and risk management. Following such review, we determined that our compensation policies and practices for all employees do not create risks that are reasonably likely to have a material adverse effect on us. As part of this risk assessment and management activities going forward, our board of directors also determined that it would undertake an annual review of our compensation policies and practices as they relate to risk.

Independence of Our Directors

New York Stock Exchange rules require that at least a majority of our directors be independent of our company and management. The rules also require that our board of directors affirmatively determine that there are no material relationships between a director and us (either directly or as a partner, stockholder or officer of an organization that has a relationship with us) before such director can be deemed independent. We have adopted independence standards consistent with New York Stock Exchange rules. Our board of directors has reviewed both direct and indirect transactions and relationships that each of our directors had or maintained with us, our management and employees. As a result of this review, our board of directors, based upon the fact that none of Kevin P. Brady, Jonathan D. Green, Michael Haylon, E. Wayne Nordberg and Donnell A. Segalas have any relationships with us other than as directors and holders of our common stock, affirmatively determined that these five directors are independent directors under New York Stock Exchange rules. Michael A.J. Farrell and Wellington J. Denahan-Norris are not considered independent because they are employees of the company, and John A. Lambiase is not considered independent because we employ his son as an executive officer.

Board Leadership Structure

Michael A. J. Farrell, one of our founders, has served as Chairman of the Board and Chief Executive Officer since we commenced operations. We believe that a combined Chairman of the Board and Chief Executive Officer position, together with independent directors serving as members in each of our board committees, and regularly-scheduled sessions of the board and committees is the most appropriate board leadership structure for us at this time. Experienced and independent directors, sitting on various committees with independent chairs, oversee our operations, risks, performance and business strategy. Our board believes that for us, the combination of the Chairman of the Board and Chief Executive Officer positions takes advantage of Mr. Farrell's talent and knowledge and effectively combines the responsibilities for strategy development and execution with management of day-to-day operations. We also believe it provides us with clear leadership lines and reduces the potential for confusion or duplication of efforts. Our board believes that given its strong governance practices, including the requirement that a majority of its members be independent of us, the combination of these two roles, provide an appropriate balance among strategy development, operational execution and independent oversight of us. This structure has served us well as we have built ourselves to be the largest REIT in our sector.

Board Committees and Charters

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics, which sets forth the basic principles and guidelines for resolving various legal and ethical questions that may arise in the workplace and in the conduct of our business. This code is applicable to all employees, officers and directors of the company.

Corporate Governance Guidelines

We have adopted Corporate Governance Guidelines which, in conjunction with the charters and key practices of our board committees, provide the framework for the governance of our company.

Other Charters

Our compensation committee, audit committee and nominating/corporate governance committee have also adopted written charters which govern their conduct.

Where You Can Find These Documents

Our Code of Business Conduct and Ethics, Corporate Governance Principles, Compensation Committee Charter, Audit Committee Charter and Nominating/Corporate Governance Committee Charter are available on our website (www.annaly.com). We will provide copies of these documents free of charge to any stockholder who sends a written request to Investor Relations, Annaly Capital Management, Inc., 1211 Avenue of the Americas, Suite 2902, New York, New York 10036.

Compensation Committee

We have a standing compensation committee. The members of our compensation committee are Jonathan D. Green, E. Wayne Nordberg and Donnell A. Segalas, each of whom is an independent director within the meaning of the rules of the New York Stock Exchange. The compensation committee administers our 2010 Equity Incentive Plan, or Incentive Plan, and recommends changes to the Incentive Plan to our board of directors when appropriate. The compensation committee also approves compensation for our officers. For additional information on the compensation committee, please see "Compensation Committee Report" below.

Audit Committee

We have a standing audit committee. The members of our audit committee are Kevin P. Brady, Jonathan D. Green, Michael Haylon and E. Wayne Nordberg. Each member of our audit committee is an independent director within the meaning of the rules of the New York Stock Exchange, and Mr. Brady has been designated as our audit committee's financial expert. The audit committee recommends to our board of directors the engagement or discharge of independent registered public accountants, reviews the plan and results of the auditing engagement with our Chief Financial Officer and our independent registered public accountants, and reviews with our Chief Financial Officer the scope and nature of our internal auditing system. The activities of the audit committee are described in greater detail below under the caption "Report of the Audit Committee."

Nominating/Corporate Governance Committee

We have a standing nominating/corporate governance committee. The members of our nominating/corporate governance committee are Kevin P. Brady, Michael Haylon, E. Wayne Nordberg and Donnell A. Segalas. Each of the members of our nominating/corporate governance committee meets the independence requirements of the New York Stock Exchange. The nominating/corporate governance committee recommends to the board of directors persons to be nominated as directors or to be elected to fill vacancies on the board of directors. The nominating/corporate governance committee will consider nominees recommended by our stockholders. These recommendations should be submitted in writing to our Secretary.

Our nominating/corporate governance committee currently considers the following factors in making its recommendations to the board of directors: background, skills, expertise, accessibility and availability to serve effectively on the board of directors. Our nominating/corporate governance committee also conducts inquiries into the background and qualifications of potential candidates. Although the nominating/corporate governance committee does not have a formal diversity policy, it believes that diversity is an important factor in determining the composition of the board of directors. Additionally, the committee believes that it is critical to have a board of directors with diverse backgrounds in various areas as this contributes to our success and is in the best interests of our stockholders.

Our nominating/corporate governance committee uses a variety of methods for identifying and evaluating nominees for director. Our nominating/corporate governance committee regularly assesses the appropriate size of the board of directors, and whether any vacancies on the board of directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, our nominating/corporate governance committee considers various potential candidates for director. Candidates may come to the attention of our nominating/corporate governance committee through current members of our board of directors, professional search firms, stockholders or other persons. These candidates are evaluated at regular or special meetings of our nominating/corporate governance committee, and may be considered at any point during the year. As described above, our nominating/corporate governance committee considers properly submitted stockholder nominations for candidates for the board of directors. Following verification of the stockholder status of persons proposing candidates, recommendations are aggregated and considered by our nominating/corporate governance committee at a regularly scheduled or special meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials are forwarded to our nominating/corporate governance committee. Our nominating/corporate governance committee also reviews materials provided by professional search firms or other parties in connection with a nominee who is not proposed by a stockholder. In evaluating such nominations, our nominating/corporate governance committee seeks to achieve a balance of knowledge, experience and capability on the board of directors.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Our Compensation Discussion and Analysis describes our compensation program, objectives and policies for the executive officers named in this proxy statement and our executive officers generally. This discussion should be read together with the compensation tables and related disclosures contained in this proxy statement.

Overview of Compensation Philosophy, Risk Considerations and Program

Philosophy

Our principal business objective is to generate income for distribution to our stockholders as dividends. We believe that our compensation program is directly linked to our principal business objective of generating income to return to our stockholders. Our compensation program is designed to meet three principal goals:

attract, reward and retain officers and other key employees;

motivate these individuals to achieve short-term and long-term corporate goals that enhance stockholder value; and

support our core values and cultures.

To meet these objectives, we have adopted the following policies:

we pay compensation that is competitive with the compensation paid by other leading asset management companies;

we pay for performance by structuring compensation so that the majority of cash compensation is comprised of bonuses which are paid only upon the approval of the compensation committee; and

we provide long-term incentives in the form of stock options to incentivize our employees and align their interests with those of our stockholders.

Risk Considerations

Our compensation committee reviews the risks and rewards associated with our compensation programs. Our compensation committee designs compensation programs with features that mitigate risk without diminishing the incentive nature of the compensation. We believe our programs encourage and reward prudent business judgment and appropriate risk-taking over the long term. With respect to specific elements of compensation:

Base salary does not encourage risk-taking as it is a fixed amount. Base salary has traditionally been a smaller component of our executives overall compensation; however, we may allocate a greater portion of an executive's total compensation to base salary instead of bonus than we have historically if we believe that is appropriate and given competitive pay trends generally.

Any bonus we pay our executives is calculated based on our book value. We believe that this arrangement disincentives our executives from causing us to take undue risks. For example, as discussed below, our executives can earn larger bonuses if our book value grows. However, book value growth is dependent on us being able to access to the capital markets. We do not think we will be able to access the capital markets unless the markets believe our performance, and our management of risk, warrants it.

We provide our executives with equity incentives. We believe this component of compensation should be long term incentives, and consistent with this view, we place relatively long term vesting requirements on equity incentive grants. Such grants generally vest over four, five or ten year periods.

Management and our compensation committee evaluate regularly the risks involved with all compensation programs globally and do not believe any of our compensation programs create risks that are reasonably likely to pose a material adverse impact to us.

Compensation Program

Pursuant to employment agreements entered into between us and our executive officers, each executive has a targeted aggregate cash compensation which is calculated as a percentage of our book value. The targeted compensation is comprised of a base salary and a potential bonus. Any bonus paid, however, must be approved by the compensation committee. We have used this approach to compensate our executives because we believe that only successful performance by our management would increase our book value. We believe our compensation policies are particularly appropriate since we are a REIT. REIT regulations require us to pay at least 90% of our earnings to stockholders as dividends. As a result, unlike most companies, we cannot grow our business and our book value by reinvesting our earnings. Rather, our growth in book value is dependent on sequential access to the capital markets. This places a unique market discipline on us since we are able to access the capital markets only if the markets believe our performance warrants it. The result of our compensation program is that there may be prolonged periods, such as during 1997-2001, 2003-2006 and 2009, when we do not access the capital markets and during which executive compensation is, in effect, frozen because of the employment contracts. Our board of directors and our executive officers believe that our compensation program is performance based since our executives are paid more only if our performance warrants it.

While each executive has a targeted aggregate compensation based on our book value, in determining the particular elements of compensation that will be used to implement our overall compensation policies, the compensation committee takes into consideration a number of factors related to our performance, as well as the performance of the individual executive. In particular, in considering whether to approve any bonuses, the compensation committee considers our increase in assets under management, earnings per share, profitability, overall economic conditions as well as competitive practices among our competitors in the portfolio management business. The compensation committee also considers the individual efforts made by the executive in achieving overall company goals.

Although we do not do an annual market assessment of our executive compensation program, in 2003 we engaged a compensation consultant to look at the compensation structures of other publicly held mortgage REITs and other publicly held companies in the financial services and asset management industry. We believe our management compensation structure is consistent, generally, with the management compensation structure of comparable companies. We will continue to monitor whether our compensation structure is consistent with the compensation structure of its competitors.

The principal components of compensation for our executive officers were:

base salary;

bonus compensation; and

long-term equity incentive compensation.

Base Salary

We pay a base salary to our named executive officers and other employees to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility by using market data, and were negotiated with each executive and us. Base salary has traditionally been a smaller component of our executives overall compensation; however, we may allocate a greater portion of an executives total compensation to base salary instead of bonus than we have historically if we believe that is appropriate and given competitive pay trends generally. The compensation committee from time to time reviews the base salaries we pay our executives. In doing so, it considers a number of factors, including market data, internal review of the executive's compensation compared to other executive officers, and the individual performance of the executive.

Bonus Compensation

As noted above, pursuant to employment agreements entered into between us and our executive officers, base compensation and bonus for the officers is calculated as a percentage of our book value. Any bonus paid, however, is subject to the discretion of the compensation committee. The compensation committee also has the right to increase a bonus beyond the targeted compensation contained in an executive's employment agreement. As discussed above, this arrangement was established based upon our view that successful performance by our management would result in our ability to raise additional capital. Since bonuses must be approved by the compensation committee taking into account a number of factors relating to our performance, we believe that our executives are paid for performance.

Long-Term Equity Incentive Compensation

The compensation committee did not use a specific formula to calculate the number of options awarded to executives under our Incentive Plan. The compensation committee does not explicitly set future award levels/opportunities on the basis of what the executives earned from prior awards. While the compensation committee takes past awards into account, it does not solely base future awards in view of those past awards. Generally, our chief executive officer will recommend the amounts of awards to be made to each employee to the compensation committee. In determining the specific amounts to be granted to each employee, our compensation committee will take into account factors such as the executive's position, his or her contribution to our performance, market practices as well as the recommendations of our chief executive officer.

Presently, we do not have designated dates on which we grant stock option awards (other than an annual grant to our directors). We do not, however, intend to time stock options grants with our release of material nonpublic information for the purpose of affecting the value of executive compensation.

We have designed our compensation policy in an effort to provide the proper incentives to management to maximize our performance in order to serve the best interests of our stockholders. We have sought to achieve this objective through the granting of stock options under our Incentive Plan. To date, our executive officers, pursuant to the Incentive Plan, have been granted options to purchase, in the aggregate, 6,763,884 shares of common stock with exercise prices ranging from \$4.00 to \$17.97. Consistent with our view that this component of compensation is designed to provide long term incentives, these options vest in equal installments over four, five or ten year periods from the date of grant. Consistent with the foregoing, we have structured our executive compensation policies with the goal of promoting the long-term commitment of management. In addition, as indicated above, over 98% of the stock options granted by us since inception have been options with vesting periods of three, four and five years. The vesting of stock options accelerates upon a change-in-control.

Perquisites and Fringe Benefits

We do not believe in providing our executives with excessive perquisites and other fringe benefits. Consistent with our pay-for-performance mandate, we provide very few executive fringe benefits. Our executive officers receive health and welfare benefits, such as group medical, group life and long-term disability coverage, under plans generally available to all other employees. We believe that our executives should be able to provide for their retirement needs from the total annual compensation they earn based on our performance. Accordingly, other than an employer matching contribution which is the same that we provide all of our employees, we do not offer our executives any nonqualified pension plans, supplemental executive retirement plans, deferred compensation plans or other forms of compensation for retirement.

Employment Agreements

As noted above, we have entered into employment agreements with our executive officers. This is because we believe that the long-term commitment of its current management team is a crucial factor in our future performance. This team includes Mr. Farrell and Ms. Denahan-Norris, who have worked together at FIDAC since November 1994 and with us since our commencement of operations in February 1997, Ms. Fagan, who has worked with us since April 1997, Mr. Keyes, who has worked with us since September 2009, and Mr. Fortescue, who has worked at FIDAC since June 1995 and with us since our commencement of operations in February 1997. In an effort to ensure the long-term commitment of its management team, we, with the approval of our board of directors, entered into employment agreements with Mr. Farrell, Ms. Denahan-Norris, Ms. Fagan, Mr. Keyes and Mr. Fortescue. Each of the agreements with Mr. Farrell, Ms. Denahan-Norris, Ms. Fagan and Mr. Fortescue provides for a one year term with automatic one-year extensions unless we or the officer provides written notice to the contrary. The agreement with Mr. Keyes provides for a term through July 1, 2011 with automatic one-year extensions unless we or Mr. Keyes provides written notice to the contrary. These employment agreements are described below.

Each of the employment agreements with our executive officers provides for overall targeted compensation consisting of annual base salaries and bonus payments based upon a percentage of our book value. Actual compensation paid in any year, however, may vary depending on a number of factors related to our performance. Mr. Farrell and Ms. Denahan-Norris are our founders, and their initial percentages, 0.20% and 0.17%, respectively, were set when we commenced operations. Ms. Fagan's percentage of 0.10% was set shortly after our initial public offering in 1997. The percentage for Mr. Fortescue was initially set upon our acquisition of FIDAC in June 2004. Over time, the employment agreements of our executive officers have been amended to change their base salaries and/or percentages. In 2001, the percentage for Mr. Farrell was increased to 0.25% to reflect additional duties and responsibilities assumed by him at that time, and it has been unchanged since then. At the same time, Ms. Denahan-Norris's percentage was increased to 0.20% to reflect our compensation committee's view that her compensation should reflect the broad set of responsibilities that she has as a member of our senior executive team. Ms. Denahan-Norris's percentage was further increased to 0.25% in 2008 when our compensation committee determined that in light of her contribution to our success, her base salary and percentage should be the same as our chief executive officer because our compensation committee attributed much of our success to her oversight of the team of investment professionals she manages. Ms. Fagan's percentage is 0.10% and has not been changed since it was initially set but her base salary has been increased. The percentage for Mr. Keyes was initially set at 0.04% and has not changed. The percentage for Mr. Fortescue was initially set at 0.05% and has not changed but his base salary has been increased. Our book value is defined in each of the employment agreements as the aggregate amounts reported on our balance sheet as "Stockholders' Equity," excluding any adjustments for valuation reserves (i.e., changes in the value of our portfolio of investments as a result of mark-to-market valuation changes).

Mr. Farrell and Ms. Denahan-Norris each receive an annual base salary of \$3,000,000. Ms. Fagan receives an annual base salary of \$1,200,000. Mr. Keyes and Mr. Fortescue each receive annual base salaries of \$750,000. In addition, all bonuses paid under these employment agreements are subject to the discretion of our compensation committee.

Our compensation committee approved bonuses which gave four of our five named executive officers their targeted bonus and base salary compensation for 2010. For Mr. Keyes, our Managing Director and Chief Strategy Officer, however, it awarded an additional \$1.5 million bonus above his targeted bonus for 2010. We made this award because of Mr. Keyes's successful design and management of our capital markets activities in 2010 at significant cost savings us. Additionally, we believe that there is strong demand for the services of experienced capital markets executives such as Mr. Keyes, and we want to ensure we continue to employ Mr. Keyes.

Pursuant to the employment agreements, the executive officers are also entitled to participate in our benefit plans, including the Incentive Plan. In addition, our board of directors has established a bonus incentive compensation plan for our executive officers. This program permits our compensation committee, in its discretion, to award cash bonuses annually to our executive officers. Each employment agreement also provides for the subject officer to receive compensation, in the event that we terminate the officer's employment without "cause" (as defined in the agreement), or if the officer resigns for "good reason" (as defined in the agreement). We describe the severance benefits our named executives receive in "Potential Payments Upon Termination of Employment" below.

Each employment agreement also contains a "non-compete" provision prohibiting the officer from managing, controlling, participating in or operating a competing REIT for a period of one year following termination of employment following our termination of the officer for cause or resignation of the subject officer other than for "good reason." Each agreement requires that the officer act in accordance with provisions of Maryland law relating to corporate opportunities.

"Good reason" is generally defined by the employment agreements as the occurrence of one or more of the following without the executive's written consent:

- a material breach of the agreement by us;

- a materially significant change in the executive's duties, authorities or responsibilities;

- the relocation of the executive's principal place of employment more than 60 miles from New York, New York; and

- our failure to obtain the assumption in writing by any successor to all or substantially all of our assets or business within fifteen days upon a merger, consolidation, sale or similar transaction of its obligations to perform the executive's employment agreement.

We have a thirty day cure period to cure a breach of the first three items described above.

“Cause” is generally defined by the employment agreements as the occurrence of one or more of the following:

the executive’s failure to substantially perform the duties described in his employment agreement (provided we give the executive 60 day prior notice of the failure and provide the executive an opportunity to respond, and, if the failure is able to be cured, an opportunity to cure the failure);

acts or omissions constituting recklessness or willful misconduct on the part of the executive in respect of his fiduciary obligations to us which is materially and demonstrably injurious to us; and

the executive’s conviction for fraud, misappropriation or embezzlement in connection with our assets.

The employment agreements do not necessarily require payments by us upon a change of control of us, unless the change of control includes the failure of our successor to agree to perform its obligations under the employment agreement. In such a case, the executive would have “good reason” to terminate the agreement and require us to make severance payments.

Tax Considerations

Section 162(m) of the Internal Revenue Code denies a tax deduction for compensation in excess of \$1 million paid to our Chief Executive Officer and our three other most highly compensated officers, excluding the Financial Officer, unless the compensation is paid under a program that has satisfied stockholder approval requirements and the compensation is “performance-based” within the meaning of Section 162(m). Currently, the employment agreements of these officers do not contain performance-based criteria and the compensation program has not been approved by our stockholders. As a result, portions of the compensation we pay is subject to the \$1 million deduction limitation because it is not considered performance-based within the meaning of Section 162(m).

During 2005, the compensation committee spent significant portions of its meetings to determine whether we should take steps to permit us to deduct compensation in excess of \$1 million. As noted above, the compensation committee has traditionally believed that it is in the best interests of us and our stockholders that the overall compensation of our officers be calculated as a percentage of book value. Nevertheless, in view of the non-deductibility of a portion of the compensation we pay, the compensation committee reviews, from time to time, its policies to determine whether we should in the future add performance-based criteria to executive compensation. Adding performance-based criteria will require amending the existing employment agreements of the applicable employees.

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.
