### Cautionary Statement Regarding Forward-Looking Statements

Any forward-looking statements made in the presentation in Exhibit 99.1 reflect our current views with respect to future events and financial performance and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties, which may cause actual results to differ materially from those set forth in these statements. For example, our forward-looking statements could be affected by the occurrence of any event, change or other circumstance that could give rise to the termination of the definitive agreements with Royal & Sun Alliance Insurance plc; the inability to receive the required regulatory approvals to complete the acquisitions; risks that the proposed acquisitions disrupt each company’s current plans and operations; the ability to retain key personnel; the ability to recognize the benefits of the acquisitions; the amount of costs, fees, expenses and charges related to the acquisitions; pricing and policy term trends; increased competition; the adequacy of our loss reserves; negative rating agency actions; greater frequency or severity of unpredictable catastrophic events; the impact of acts of terrorism and acts of war; the Company or its subsidiaries becoming subject to significant income taxes in the United States or elsewhere; changes in regulations or tax laws; changes in the availability, cost or quality of reinsurance or retrocessional coverage; adverse general economic conditions; and judicial, legislative, political and other governmental developments, as well as management’s response to these factors, and other factors identified in our filings with the SEC. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. We are under no obligation (and expressly disclaim any such obligation) to update or revise any forward-looking statement that may be made from time to time, whether as a result of new information, future developments or otherwise.
