This information statement is circulated to advise the stockholders of Ameri-First Financial Group, Inc. (the "Company") of actions taken pursuant to Delaware General Corporation Law ("DGCL") without a meeting upon the written consent of the holders of a majority of the outstanding shares of the Voting Capital Stock of the Company. Management is not soliciting proxies because a sufficient number of shares have provided written consent to the actions.

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED
NOT TO SEND US A PROXY.

The matters upon which action is being taken are:

1. To reverse split the currently issued and outstanding common stock (the "Common Stock") of the Company on a one (1) share for five hundred thousand (500,000) shares basis, with fractional shares rounded up to the nearest whole share.

Stockholders holding shares representing 78.3% of the votes entitled to be cast at a meeting of the Company's stockholders consented in writing to the proposed actions. The approval by the stockholders will not become effective until 20 days from the date of mailing of this Information Statement to our stockholders.

The Company's Board of Directors approved these actions on April 16, 2007 and recommended that the Company effect the reverse split of its currently issued and outstanding Common Stock. The anticipated effective date will be approximately 20 days after the mailing of this Information Statement to our stockholders.

If the proposed actions were not adopted by written majority stockholder consent, it would have been necessary for these actions to be considered by the Company's stockholders at a Special Stockholder's Meeting convened for the specific purpose of approving the actions. Pursuant to Section 228 of ("DGCL") shareholders having not less than the minimum number of notes that would be necessary to authorize or take such action have, by written consent, without a meeting and without a vote, on April 16, 2007 in lieu of any meeting agreed to the action described above.

The date on which this Information Statement was first sent to the stockholders is on, or about May 1, 2007. The record date established by the Company for purposes of determining the number of outstanding shares of voting capital stock of the Company was April 9, 2007, (the "Record Date").

OUTSTANDING VOTING STOCK OF THE COMPANY

As of the Record Date, there were 20,054,422 shares of Common Stock issued and outstanding. The Common Stock constitutes the outstanding class of voting securities of the Company. Each share of Common Stock entitles the holder to one (1) vote on all matters submitted to the stockholders.

None of the persons who have been directors or officers of the Company at any time since the beginning of the last fiscal year, nor any associate of any

Edgar Filing: AMERI-FIRST FINANCIAL GROUP INC - Form PRE 14C

such persons, has any interest in the matters to be acted upon.

No director of the Company has informed the registrant in writing that he intends to oppose any action to be taken by the Company. No proposals have been received from security holders.

SECURITY OWNERSHIP OF MANAGEMENT AND PRINCIPAL STOCKHOLDERS

The following table sets forth as of the Record Date, the name and the number of voting shares of the Company, no par value, held of record or was known by the Registrant to own beneficially more than 5% of the 20,054,422 voting shares issued and outstanding, and the name and shareholdings of each officer and director individually and of all officers and directors as a group. Except as otherwise indicated, the persons named in the table have sole voting and dispositive power with respect to all shares beneficially owned, subject to community property laws where applicable.

Title of Class -----	Name and Address of Beneficial Owner -----	Amount and Nature of Beneficial Ownership -----	Percentage of Class -----	Percent of Voting Shares -----
Common	Glenn A. Little (1) 211 West Wall Street Midland, Texas 79701	15,700,000	78.3%	78.3%

PURPOSE AND EFFECT OF THE ACTIONS

REASONS FOR THE REVERSE SPLIT OF OUR COMMON STOCK

Our Board of Directors believes that the proposed reverse stock split will make our capital structure more attractive to prospective business ventures in the event we locate one or more business opportunities. Although it is generally expected that a reverse split will result in a proportionate increase in the market price of the split shares, because of lack of trading in our shares there can be no assurance that our Common Stock will trade at a multiple of 500,000 times our current price, or that any price increase will be sustained. If the market price of our stock declines after the implementation of the reverse split, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would be the case in the absence of the reverse split. Further, the fact that we have no revenue, and no assets may impact our stock price and the ability to liquidate your shares.

In addition, our shares are subject to Rule 15g-1 through Rule 15g-9, of the Securities Exchange Act of 1934 which provides, generally, that for as long as the bid price for the shares is less than \$5.00, they will be considered low priced securities under rules promulgated under the Exchange Act. Under these

Edgar Filing: AMERI-FIRST FINANCIAL GROUP INC - Form PRE 14C

rules, broker-dealers participating in transactions in low priced securities must first deliver a risk disclosure document which describes the risks associated with such stocks, the broker-dealer's duties, the customer's rights and remedies, and certain market and other information, and make a suitability determination approving the customer for low priced stock transactions based on the customer's financial situation, investment experience and objectives. Broker-dealers must also disclose these restrictions in writing to the customer and obtain specific written consent of the customer, and provide monthly account statements to the customer. Under certain circumstances, the purchaser may enjoy the right to rescind the transaction within a certain period of time.

Consequently, so long as the Common Stock is a designated security under the Rule, the ability of broker-dealers to effect certain trades may be affected adversely, thereby impeding the development of a meaningful market in the Common Stock. The likely effect of these restrictions will be a decrease in the willingness of broker-dealers to make a market in the stock, decreased liquidity of the stock and increased transaction costs for sales and purchases of the stock as compared to other securities.

Our stock is considered a penny stock. A penny stock is generally a stock that:

- is not listed on a national securities exchange or Nasdaq,
- is listed in "pink sheets" or on the NASD OTC Bulletin Board,
- has a price per share of less than \$5.00 and
- is issued by a company with net tangible assets less than \$5 million.

The penny stock trading rules impose additional duties and responsibilities upon broker-dealers and salespersons effecting purchase and sale transactions in common stock and other equity securities, including

3

- determination of the purchaser's investment suitability,
- delivery of certain information and disclosures to the purchaser, and
- receipt of a specific purchase agreement from the purchaser prior to effecting the purchase transaction.

Many broker-dealers will not effect transactions in penny stocks, except on an unsolicited basis, in order to avoid compliance with the penny stock trading rules. Because our Common Stock is subject to the penny stock trading rules,

- such rules may materially limit or restrict the ability to resell our common stock, and
- the liquidity typically associated with other publicly traded equity securities may not exist.

The expected date of the Reverse Split is May 21, 2007

The possibility exists that the reduction in the number of outstanding shares will adversely affect the market for our Common Stock by reducing the relative level of liquidity. Consequently, there can be no assurance that the reverse split will result in a proportionate increase in the value of the shares.

Any new shares issued in connection with the reverse split will be fully paid and non-assessable. The number of stockholders will remain unchanged as a result of the reverse split. As a result of the 500,000 to 1 reverse stock split, with our largest stockholder Glenn A. Little, will own a substantially lesser percentage of the Corporation's voting securities. After the reverse split he will beneficially control 32 of the Corporation's voting securities, instead of 15,700,000 shares. As such, Mr. Little will not be a majority stockholder of the Company.

Edgar Filing: AMERI-FIRST FINANCIAL GROUP INC - Form PRE 14C

As part of the reverse stock split, the par value of our common stock will remain unchanged. While the aggregate par value of our outstanding Common Stock will be decreased, our additional paid-in capital will be increased by a corresponding amount. Therefore, the reverse split will not affect our total stockholders' equity. All share and per share information will be retroactively adjusted to reflect the reverse split for all periods presented in our future financial reports and regulatory filings.

As a matter of regulatory compliance, we are sending you this Information Statement which describes the purpose and effect of the actions and Amendment. Your consent to the actions and Amendment is not required and is not being solicited in connection with this action. This Information Statement is intended to provide our stockholders information required by the rules and regulations of the Securities Exchange Act of 1934.
