GUARANTY BANCSHARES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2002
(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements include the accounts of Guaranty Bancshares, Inc. (the Company) and its wholly-owned subsidiaries Guaranty (TX) Capital Trust I and Guaranty Financial Corp., Inc., which wholly owns Guaranty Bank, and one non-bank subsidiary, Guaranty Company. Guaranty Bank has three wholly owned non-bank subsidiaries, Guaranty Leasing Company, Guaranty Company and GB Com, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles in the United States of America for a complete presentation of financial position. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis, and all such adjustments are of a normal recurring nature. These financial statements and the notes thereto should be read in conjunction with the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 15, 2002. Except for changes implemented due to recent accounting pronouncements as discussed below, the Company has consistently followed the accounting policies described in the Annual Report in preparing this Form 10-Q. Operating results for the three and six months ended June 30, 2002, are not necessarily indicative of the results that may be expected for the year ending December 31, 2002.

In preparation of the accompanying unaudited consolidated financial statements, management is required to make estimates and assumptions, which are based on information available at the time such estimates and assumptions are made. These estimates and assumptions affect the amounts reported in the accompanying unaudited consolidated financial statements. Accordingly, future results may differ if the actual amounts and events are not the same as the estimates and assumptions of management. The collectability of loans, fair value of financial instruments and other real estate and status of contingencies are particularly subject to change.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

On January 1, 2002, the Company adopted new accounting policies related to goodwill, intangibles and other long-lived assets in accordance with several recently issued accounting pronouncements. Our new accounting policies are discussed below:

Goodwill: On January 1, 2002, the Company stopped amortizing goodwill and adopted a new policy for measuring goodwill for impairment. The Company has completed its initial impairment test and no impairment of goodwill was recognized in connection with the adoption of this new policy. Under the new policy, goodwill is assigned to reporting units. Goodwill is then tested for impairment at least annually, or on an interim basis if an event occurs or circumstances change that would

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

more-likely-than-not reduce the fair value of the reporting unit below its carrying value. Goodwill is tested for impairment using a two-step approach. The first step is to compare the fair value of the reporting unit to its carrying amount, including goodwill. If the fair value of the reporting unit is greater than its carrying amount, goodwill is not considered impaired and the second step is not required. If the fair value of the reporting unit is less than its carrying amount, the second step of the impairment test measures the amount of the impairment loss, if any. The second step of the impairment test is to compare the implied fair value of goodwill to its carrying amount. If the carrying amount of goodwill exceeds its implied fair value, an impairment loss is recognized equal to that excess. The implied fair value of goodwill is calculated in the same manner that goodwill is calculated in a business combination, whereby the fair value of the reporting unit is allocated to all of the assets and liabilities of that unit (including any unrecognized intangible assets) as if the reporting unit had been acquired in a business combination and the fair value of the reporting unit was the purchase price. The excess purchase price over the amounts assigned to assets and liabilities would be the implied fair value of goodwill.

8

The following table presents reported net income and basic earnings per common share for the three and six months ended June 30, 2001 and 2002 adjusted to exclude goodwill amortization expense assuming the new standards were applied effective January 1, 2001 (dollars in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
	(Unaudited)		(Unaudited)	
Reported net income	\$ 1,093	\$ 723	\$ 2,075	\$ 1,461
Add back amortization of goodwill		37		75
Adjusted net income	\$ 1,093	\$ 760	\$ 2,075	\$ 1,536
Reported earnings per share	\$ 0.36	\$ 0.24	\$ 0.69	\$ 0.48
Goodwill amortization		0.01		0.03
Adjusted earnings per share	\$ 0.36	\$ 0.25	\$ 0.69	\$ 0.51

Intangible Assets and Other Long-Lived Assets: Intangible assets with definite useful lives are amortized on a straight-line basis over their estimated useful life. Intangible assets, premises and equipment and other long-lived assets are tested for impairment whenever events or changes in circumstances indicate the carrying amount of the assets may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

The following accounting standard was issued during the six months ended June 30, 2002:

Statement of Financial Accounting Standards (SFAS) No. 145, Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections. SFAS 145 clarifies and simplifies existing accounting pronouncements related to gains and losses from debt extinguishments and certain lease modifications and eliminates certain transitional accounting standards that are no longer necessary. This statement also makes minor technical corrections to various other existing pronouncements. Certain provisions of this statement will become effective for the Company on January 1, 2003, while other provisions became effective for transactions occurring and financial statements issued after May 15, 2002. Adoption of the provisions of this statement that were effective after May 15, 2002 did not have a significant impact on the Company's financial statements. Furthermore, adoption of the remaining provisions of this statement on January 1, 2003 is not expected to have a significant impact on the Company's financial statements.

9

NOTE 3. EARNINGS PER SHARE

Earnings per share is computed in accordance with Statement of Financial Accounting Standards No. 128, which requires dual presentation of basic and diluted earnings per share (EPS) for entities with complex capital structures. Basic EPS is based on net earnings divided by the weighted-average number of shares outstanding during the period. Diluted EPS includes the dilutive effect of stock options granted using the treasury stock method.

The weighted-average number of common shares outstanding for basic and diluted earnings per share computations was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
	(Unaudited)		(Unaudited)	
Weighted average common shares used in basic EPS	2,995,307	3,017,755	2,999,566	3,028,424
Dilutive effect of stock options	22,920	8,832	18,534	8,322
Weighted average common shares used in diluted EPS	<u>3,018,227</u>	<u>3,026,587</u>	<u>3,018,100</u>	<u>3,036,746</u>

NOTE 4. STOCK OPTIONS

In 2000, the Company granted nonqualified stock options to certain executive officers of the Company and Guaranty Bank under the Company's 1998 Stock Incentive Plan. The grants consisted of eight-year options to purchase 89,500 shares at an exercise price of \$9.30 per share, which was the market price of the Company's stock on the date the options were granted. In February 2002, the Company granted eight-year options to purchase 20,000 shares at an exercise price of \$12.50 per share, which was the market price of the Company's stock on the date the options were granted. The options fully vest and become exercisable in five equal installments commencing on the first anniversary of the date of grant and annually thereafter. At June 30, 2002, 2,000 shares of the options have been exercised and 893,500 options remain available for future grant under the 1998 Stock Incentive Plan.

The weighted-average fair value per share of options granted during 2002 was \$4.09. The fair value of options granted was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: Dividend yield of 2.24%; expected volatility of 28.7%; risk-free interest rate of 5.0%, and an expected life of 8.00 years.

NOTE 5. COMMITMENT AND CONTINGENCIES

In the normal course of business, the Company enters into various transactions, which, in accordance with generally accepted accounting principles in the United States of America, are not included in the consolidated balance sheets. These transactions are referred to as off-balance sheet commitments. The Company enters into these transactions to meet the financing needs of its customers. These transactions include commitments to extend credit and letters of credit, which involve elements of credit risk in excess of the amounts recognized in the consolidated balance sheets. The Company minimizes its exposure to loss under these commitments by subjecting them to credit approval and monitoring procedures.

10

The Company enters into contractual commitments to extend credit, normally with fixed expiration dates or termination clauses, at specified rates and for specific purposes. Customers use credit commitments to ensure that funds will be available for working capital purposes, for capital expenditures and to ensure access to funds at specified terms and conditions. Substantially all of the Company's commitments to extend credit are contingent upon customers maintaining specific credit standards at the time of loan funding. Management assesses the credit risk associated with certain commitments to extend credit in determining the level of the allowance for credit losses.

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The Company's policies generally require that letters of credit arrangements contain security and debt covenants similar to those contained in loan agreements.

NOTE 3. EARNINGS PER SHARE

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

Outstanding commitments and letters of credit are approximately as follows (dollars in thousands):

	Contract or Notional Amount	
	June 30, 2002	December 31, 2001
	(Unaudited)	
Commitments to extend credit	\$ 28,108	\$ 21,394
Letters of credit	1,103	1,042

The Company is subject to various claims and legal actions occurring in the normal course of business. The Company accrues for estimated losses in the accompanying financial statements for those matters where management believes the likelihood of an adverse outcome is probable and the amount of the loss is reasonably estimable. After consultation with legal counsel, management currently believes the outcome of outstanding legal proceedings, claims and litigation involving the Company will not have a material adverse effect on the Company's business, financial condition or results of operation.

Guaranty Leasing Company, a non-bank subsidiary of the Bank, is a substantial partner in various complex equipment leasing transactions primarily originated in 1992, 1994 and 1995 involving leveraged leases. During 2001 and 1998, Guaranty Leasing was informed by the Internal Revenue Service (the Service) that certain losses taken by the Partnership during 1992 and 1994 through 1996 amounting to approximately \$1.7 million would be disallowed. The Partnership plans to appeal the Service's determination and to actively contest the Service's position. However, if the Service is ultimately successful in re-determining the amount of the Partnership's taxable loss, the Company's tax liability would be increased. Such adjustment may have a material adverse effect on the Company's consolidated financial statements.

There can be no assurance that the Service will not contest and ultimately disallow similar types of deductions and losses for other open tax years by the Partnerships in which Guaranty Leasing has ownership. If the Service is successful in its challenge of the Partnership's losses, the potential additional tax liability to the Company may have a material adverse effect on its consolidated financial statements.

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in this Quarterly Report on Form 10-Q include forward-looking information within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the Safe Harbor created by those sections. These forward-looking statements involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Such risks and uncertainties include, but are not limited to, the following factors: competitive pressure in the banking industry significantly increasing; changes in the interest rate environment reducing margins; general economic conditions, either nationally or regionally, are less favorable than expected, resulting in, among other things, a deterioration in credit quality and an increase in the provision for possible loan losses; changes in the regulatory environment; changes in business conditions; volatility of rate sensitive deposits; operational risks including data processing system failures or fraud; asset/liability, matching risks and liquidity risks; and changes in the securities markets and the factors contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2001 as filed with the Securities and Exchange Commission.

These risks and uncertainties are beyond the Company's control and, in many cases, the Company cannot predict the risks and uncertainties that could cause its actual results to differ materially from those indicated by the forward-looking statements. When used in this document, the words believes, plans, expects, anticipates, intends, continue, may, will, should or the negative of such terms and similar expressions as they relate to the Company, its customers or its management are intended to identify forward-looking statements.

GENERAL OVERVIEW

Guaranty Bancshares, Inc. (the Company) is a registered bank holding company that derives substantially all of its revenues and income from the operation of its subsidiary, Guaranty Bank (the Bank). The Bank is a full service bank that provides a broad line of financial products and services to small and medium-sized businesses and consumers through ten banking locations in the Texas communities of Mount Pleasant (two offices), Bogata, Commerce, Deport, Paris, Pittsburg, Sulphur Springs, Talco and Texarkana. The Company also maintains a loan production office in Fort Stockton, Texas.

FINANCIAL OVERVIEW

Net earnings for the six months ended June 30, 2002 were \$2.1 million, or \$0.69 per share, compared with \$1.5 million, or \$0.48 per share, for the six months ended June 30, 2001, an increase of \$614,000 or 42.0%. The increase is due primarily to an increase in net interest income of \$1.7 million, or 26.8%, and an increase in noninterest income of \$159,000, or 6.8%, offset by an increase in noninterest expense of \$592,000, or 9.1%, an increase in provision for loan losses of \$360,000, or 105.9%, and an increase in provision for income taxes of \$292,000, or 70.7%. These increases are due in part to the growth in loans, in deposits and in net earnings. Net earnings for the three months ended June 30, 2002 were \$1.1 million, or \$0.36 per share, compared with \$723,000, or \$0.24 per share, for the three months ended June 30, 2001, an increase of \$370,000, or 51.2%. The increase is primarily due to an increase in net interest income and noninterest income and a gain on sale of securities during the quarter partially offset by an increase in noninterest expense primarily due to additional employee compensation and benefits cost.

The first six months of 2002 showed steady growth. Gross loans increased to \$348.0 million at June 30, 2002, from \$331.3 million at December 31, 2001, an increase of \$16.7 million, or 5.0%. Total assets increased to \$491.5 million at June 30, 2002, compared with \$460.5 million at December 31, 2001. The increase of \$31.0 million in total assets resulted primarily from the investment of increased deposits of \$19.5 million, and a net increase in FHLB advances of \$9.8 million. Total deposits increased to \$402.8 million at June 30, 2002 compared to \$383.3 million at December 31, 2001, an increase of \$19.5 million, or 5.1%.

12

Total shareholders' equity was \$33.7 million at June 30, 2002, compared with \$31.8 million at December 31, 2001, an increase of \$1.9 million, or 6.0%. This increase was due to earnings for the period of \$2.1 million and an increase in accumulated other comprehensive income of \$405,000 offset by the purchase of 10,000 shares of treasury stock at a cost of \$130,000, and the payment of dividends of \$450,000.

RESULTS OF OPERATIONS

Interest Income

Interest income for the six months ended June 30, 2002 was \$14.3 million, a decrease of \$835,000, or 5.5%, compared with the six months ended June 30, 2001. Despite the increase in average interest-earning assets, interest income decreased primarily due to lower interest rates earned on earning assets as a result of the falling interest rate environment. The average interest rate earned on interest-earning assets decreased from 8.02% during the six months ended June 30, 2001 to 6.66% during the six months ended June 30, 2002. Average loans were \$334.3 million for the six months ended June 30, 2002, compared with \$290.6 million for the six months ended June 30, 2001, an increase of \$43.7 million, or 15.0%. Average securities were \$84.9 million for the six months ended June 30, 2002, compared with \$68.5 million for the six months ended June 30, 2001, an increase of \$16.4 million or 23.9%. Interest income for the three months ended June 30, 2002 was \$7.2 million, a decrease of \$299,000, or 4.0%, compared with the three months ended June 30, 2001. The decrease was primarily due to a decrease in the average yield on interest-earning assets from 7.84% during the three months ended June 30, 2001 to 6.54% during the three months ended June 30, 2002.

Interest Expense

Interest expense on deposits and other interest-bearing liabilities was \$6.2 million for the six months ended June 30, 2002, compared with \$8.8 million for the six months ended June 30, 2001, a decrease of \$2.6 million, or 28.9%. The decrease in interest expense is due primarily to a lower average rate paid on interest-bearing liabilities, which decreased from 5.31% for the six months ended June 30, 2001, to 3.35% for the six months ended June 30, 2002. The effect of this decrease was partially offset by growth in the average volume of interest-bearing liabilities. Average interest bearing deposits were \$331.8 million for the six months ended June 30, 2002, compared to \$317.5 million for the six months ended June 30, 2001, an increase of \$14.3

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

million or 4.5%. Average Federal Home Loan Bank (FHLB) advances were \$36.3 million for the six months ended June 30, 2002 compared to \$8.7 million for the six months ended June 30, 2001, an increase of \$27.6 million or 317.8%. Average long-term debt remained at \$7.0 million for both comparative periods. Interest expense was \$3.1 million for the three months ended June 30, 2002, compared with \$4.3 million for the three months ended June 30, 2001, a decrease of \$1.2 million, or 27.5%. The decrease for the comparable three-month periods was also due to decreases in average interest rates of interest-bearing liabilities offset by increases in average balances.

Net Interest Income

Net interest income was \$8.0 million for the six months ended June 30, 2002 compared with \$6.3 million for the six months ended June 30, 2001, an increase of \$1.7 million, or 26.8%. The increase in net interest income resulted primarily from growth in average interest-earning assets to \$432.3 million for the six months ended June 30, 2002, from \$379.7 million for the six months ended June 30, 2001, an increase of \$52.5 million, or 13.8%, offset by growth in average interest-bearing liabilities to \$375.1 million for the six months ended June 30, 2002, from \$333.2 million for the six months ended June 30, 2001, an increase of \$41.9 million, or 12.6%. Net interest income was \$4.1 million for the three months ended June 30, 2002, compared with \$3.2 million for the three months ended June 30, 2001, an increase of \$875,000, or 27.2%. The net interest margin increased from 3.37% to 3.72% for the three months ended June 30, 2002 and from 3.36% to 3.75% for the six months ended June 30, 2002 compared to the same three and six month periods ended June 30, 2001. These increases can be attributed to the fact that the percentage growth in average interest-earning assets exceeded the percentage growth in average interest-bearing liabilities causing the ratio of average interest-earning assets to average interest-bearing liabilities to increase.

13

The Company's net interest income is affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as a volume change. It is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing deposits and other borrowed funds, referred to as a rate change. The following tables set forth, for each category of interest-earning assets and interest-bearing liabilities, the average amounts outstanding, the interest earned or paid on such amounts, and the annualized average rate earned or paid for the three and six months ended June 30, 2002 and 2001, respectively. The tables also set forth the average rate earned on total interest-earning assets, the average rate paid on total interest-bearing liabilities, the net interest spread and the net interest margin for the same periods. The net interest spread is the difference between the average rate earned on total interest-earning assets less the average rate paid on total interest-bearing liabilities. The net interest margin is net interest income as a percentage of average interest-earning assets. Average balances are derived from daily average balance, which include nonaccrual loans in the loan portfolio.

The following tables present the dollar amount of changes in interest income and interest expense for the major components of interest-earning assets and interest-bearing liabilities and distinguishes between the increase (decrease) related to outstanding balances and the volatility of interest rates. For purposes of these tables, changes attributable to both rate and volume that can be segregated have been allocated (dollars in thousands):

Provision for Loan Losses

Provisions for loan losses are charged to income to bring the total allowance for loan losses to a level deemed appropriate by management of the Company based on such factors as the industry diversification of the Company's commercial loan portfolio, the effect of changes in the local real estate market on collateral values, the results of recent regulatory examinations, the effects on the loan portfolio of current economic indicators and their probable impact on borrowers, the amount of charge-offs for the period, the amount of nonperforming loans and related collateral security, the evaluation of the Company's loan portfolio by Independent Bank Services, L.C. and the annual examination of the Company's financial statements by its independent auditors. The provision for loan losses for the six months ended June 30, 2002, was \$700,000 compared with \$340,000 for the six months ended June 30, 2001, an increase of \$360,000, or 105.9%. The provision for loan losses for the three months ended June 30, 2002 was \$450,000 compared to \$185,000 for the three months ended June 30, 2001, an increase of \$265,000, or 143.2%. The increase for the six month period was due to the increase in average loans of \$43.7 million, or 15.0% over the period. Management believes increasing the allowance for loan losses is prudent as total loans, particularly higher-risk commercial, construction, and consumer loans, increase. The increase is also due to the unstable economic conditions and interest rate environment.

Noninterest Income

The following table presents, for the periods indicated, the major categories of noninterest income (dollars in thousands):

18

Three Months Ended June 30,		Six Months Ended June 30,	
2002	2001	2002	2001
(Unaudited)		(Unaudited)	

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,	
Service charges on deposit accounts	\$ 761	\$ 687	\$ 1,405	\$ 1,305
Fee income	199	157	372	336
Fiduciary income	38	30	77	63
Other noninterest income	197	167	338	329
Realized gain on securities	280	51	317	317
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total noninterest income	\$ 1,475	\$ 1,092	\$ 2,509	\$ 2,350
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

The Company's primary sources of recurring noninterest income are service charges on deposit accounts and fee income. Noninterest income for the three and six-months period ended June 30, 2002 increased \$383,000, or 35.1% and \$159,000 or 6.8%, respectively, over the same periods ended June 30, 2001. The increase in noninterest income for the three and six-month periods ended June 30, 2002 was primarily due to increases in service charges on deposit accounts created by an increase in the number of deposit accounts and increases in fee income due to increases in check cashing fee income and debit card fee income. The Company had net gains on sales of securities of \$317,000 for the six month period ended June 30, 2002 and the six month period ended June 30, 2001.

Noninterest Expenses

The following table presents, for the periods indicated, the major categories of noninterest expenses (dollars in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
	(Unaudited)		(Unaudited)	
Employee compensation and benefits	\$ 2,107	\$ 1,790	\$ 4,214	\$ 3,710
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Non-staff expenses:				
Net bank premises expense	486	460	960	924
Office and computer supplies	65	63	133	145
Legal and professional fees	50	121	196	191
Advertising	94	69	165	141
Postage	48	53	94	96
FDIC insurance	16	21	33	38
Other	708	630	1,269	1,227
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total non-staff expenses	1,467	1,417	2,850	2,762
	<u> </u>	<u> </u>	<u> </u>	<u> </u>
Total noninterest expenses	\$ 3,574	\$ 3,207	\$ 7,064	\$ 6,472
	<u> </u>	<u> </u>	<u> </u>	<u> </u>

Employee compensation and benefits expense increased \$317,000, or 17.7%, and \$504,000, or 13.6%, for the three and six months ended June 30, 2002 compared to the same periods in 2001. The increase for both the three and six month periods ended June 30, 2002 was due primarily to normal salary increases and additional staff placement in the Mt. Pleasant, Texarkana, and Paris locations to handle customer growth. The number of full-time equivalent employees was 209 at June 30, 2002, compared with 195 at June 30, 2001, an increase of 7.2%.

Non-staff expenses increased \$50,000, or 3.5%, and \$88,000, or 3.2%, for the three and six months ended June 30, 2002, compared with the same periods in 2001. Net bank premises expense increased \$26,000, or 5.7% and \$36,000, or 3.9% over the comparable periods due to higher building maintenance expense and increased property tax expense. Advertising also increased

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

during the same periods by \$25,000, or 36.2% and \$24,000, or 17.0% due to additional advertising in some of the Company's markets.

Other non-staff expenses increased \$78,000, or 12.4% and \$42,000, or 3.4%, over the comparable three and six month periods. These increases were partially the result of increase in software support fees, ATM and debit card expenses, and audit fees.

Income Taxes

Income tax expense increased \$292,000 to \$705,000 for the six months ended June 30, 2002 from \$413,000 for the same period in 2001. Income tax expense was \$453,000 for the three months ended June 30, 2002 compared with \$197,000 for the three months ended June 30, 2001, an increase of \$256,000. The increase for the three and six month period is primarily attributable to the increase in income before income taxes and also the result of fewer tax deductions available from the Company's leveraged leasing activities. The income stated on the consolidated statement of earnings differs from the taxable income due to tax-exempt income, the amount of non-deductible interest expense and the amount of other non-deductible expense.

FINANCIAL CONDITION

Loan Portfolio

Gross loans were \$348.0 million at June 30, 2002, an increase of \$16.7 million, or 5.0%, from \$331.3 million at December 31, 2001. Loan growth occurred primarily in 1-4 family residential loans and in the construction and land development loans due to good loan demand in the various markets that the Company serves.

The following table summarizes the loan portfolio of the Company by type of loan as of June 30, 2002 and December 31, 2001 (dollars in thousands):

	June 30, 2002		December 31, 2001	
	Amount	Percent	Amount	Percent
	(Unaudited)			
Commercial and industrial	\$ 64,096	18.42%	\$ 66,641	20.12%
Agriculture	8,610	2.47	8,589	2.59
Real estate:				
Construction and land development	12,229	3.51	9,492	2.87
1-4 family residential	137,488	39.51	126,114	38.07
Farmland	9,687	2.78	9,794	2.96
Non-residential and non-farmland	73,399	21.09	68,165	20.58
Multi-family residential	9,205	2.65	9,333	2.81
Consumer	33,249	9.57	33,127	10.00
	\$ 347,963	100.00%	\$ 331,255	100.00%

Allowance for Loan Losses

In originating loans, the Company recognizes that it will experience credit losses and the risk of loss will vary with, among other things, general economic conditions, the type of loan being made, the creditworthiness of the borrower over the term of the loan and, in the case of a collateralized loan, the quality of the collateral for such loan. The Company maintains an allowance for loan losses in an amount that it believes is adequate for estimated losses in its loan portfolio. Management determines the adequacy of the allowance through its evaluation of the loan portfolio. In addition to unallocated allowances, specific allowances are provided for individual loans when ultimate collection is considered questionable by management after reviewing the current status of loans which are contractually past due and considering the net realizable value of the collateral

Edgar Filing: GUARANTY BANCSHARES INC /TX/ - Form 10-Q

for the loan. Loans are charged-off against the allowance for loan losses when appropriate. Although management believes it uses the best information available to make determinations with respect to the allowance for loan losses, future adjustments may be necessary if economic conditions differ from the assumptions used in making the initial determinations. Loan charge-offs, net of recoveries, during the six month period ended June 30, 2002 increased \$346,000 or 279.0% over the same period ended June 30, 2001. This increase is due primarily to additional charge-offs recognized during the period caused by the Company's aggressive position on identifying problem assets. At June 30, 2002 and June 30, 2001, the allowance for loan losses totaled \$3.6 million or 1.03% of gross loans and \$2.8 million or 0.93% of gross loans respectively. The allowance for loan losses as a percentage of nonperforming loans was 77.69% at June 30, 2002.

Set forth below is an analysis of the allowance for loan losses for the periods indicated (dollars in thousands):

	Six months ended June 30, 2002	Six months ended June 30, 2001
(Unaudited)		
Average loans outstanding	\$ 334,330	\$ 290,607

NONPERFORMING ASSETS

Nonperforming assets were \$6.5 million at June 30, 2002 compared with \$6.2 million at December 31, 2001. Nonaccrual loans increased \$198,000 from \$3.7 million at December 31, 2001 to \$3.9 million at June 30, 2002. This increase is due primarily to certain commercial lines being added to non-accrual status. These lines are currently in a liquidation mode. They have collateral values, which exceed the total debt, and no loss is anticipated. Accruing loans 90 or more days past due decreased \$1.2 million, from \$1.9 million at December 31, 2001 to \$668,000 at June 30, 2002. This decrease is due primarily to collection efforts of previously past due credits. Other real estate increased \$1.3 million during the same period. This increase is primarily the result of loans that were foreclosed on during the period totaling \$2.7 million, net of sales of properties with a carrying value of \$1.4 million. Management anticipates minimal losses on the total of these new nonperforming assets.

The ratio of nonperforming assets to total loans and other real estate was 1.86% and 1.87% at June 30, 2002, and December 31, 2001, respectively.

The following table presents information regarding nonperforming assets as of the dates indicated (dollars in thousands):

Allowance for Loan Losses

	June 30, 2002	December 31, 2001
	(Unaudited)	
Nonaccrual loans	\$ 3,935	\$ 3,737
Accruing loans 90 or more days past due	668	1,912
	<hr/>	<hr/>
Total nonperforming loans	4,603	5,649
Other real estate	1,896	562
	<hr/>	<hr/>
Total nonperforming assets	\$ 6,499	\$ 6,211
	<hr/>	<hr/>

SECURITIES

Securities totaled \$94.7 million at June 30, 2002, an increase of \$13.0 million from \$81.7 million at December 31, 2001. At June 30, 2002, securities represented 19.3% of total assets compared with 17.7% of total assets at December 31, 2001. The average yield on securities for the six months ended June 30, 2002 was 5.44% compared with 6.67% for the same period in 2001. At June 30, 2002, securities included \$14.8 million in U.S. Government securities, \$49.1 million in mortgage-backed securities, \$27.6 million in collateralized mortgage obligations, \$2.6 million in equity securities, and \$633,000 in municipal securities. The average life of the securities portfolio at June 30, 2002, is approximately 3.08 years, however, all of the Company's securities are classified as available-for-sale.

OTHER ASSETS

Other assets totaled \$8.7 million at June 30, 2002 compared to \$11.4 million at December 31, 2001, a decrease of \$2.7 million or 23.7%. This decrease resulted primarily from the collection of a receivable of \$3.0 million as of December 31, 2001 reflecting the settlement of the Company's lawsuit against Guaranty Federal.

DEPOSITS

At June 30, 2002, demand, money market and savings deposits account for approximately 43.2% of total deposits, while certificates of deposit made up 56.8% of total deposits. Total deposits increased \$19.5 million, or 5.1% from December 31, 2001 to June 30, 2002. This increase comes primarily from an increase in certificate of deposits of \$15.2 million, or 7.1%, due to the offering of competitive yields on these deposits, and an increase in noninterest bearing accounts of \$4.0 million, or 6.3%, due to an increase in the number of deposit accounts. Noninterest-bearing demand deposits totaled \$67.8 million, or 16.8% of total deposits, at June 30, 2002, compared with \$63.7 million, or 16.6% of total deposits, at December 31, 2001. The average cost of deposits, including noninterest-bearing demand deposits, is 2.61% for the six months ended June 30, 2002 compared with 4.38% for the same period in 2001.

LIQUIDITY

The Company's asset/liability management policy is intended to maintain adequate liquidity for the Company. Liquidity involves the Company's ability to raise funds to support asset growth or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate the Company on a continuing basis. The Company's liquidity needs are primarily met by growth in core deposits. Although access to purchased funds from correspondent banks is available and has been utilized on occasion to take advantage of investment opportunities, the Company does not continually rely on these external-funding sources. The cash and federal funds sold position, supplemented by amortizing investments along with payments and maturities within the loan portfolio, has historically created an adequate liquidity position.

The Company's cash flows are composed of three classifications: cash flows from operating activities, cash flows from investing activities, and cash flows from financing activities. As summarized in the unaudited condensed consolidated statements of cash flows, the most significant transactions which affected the Company's level of cash and cash equivalents,

cash flows, and liquidity during the first six months of 2002 were securities purchases of \$47.2 million, securities sales of \$19.6 million, the net increase in deposits of \$19.5 million, the net increase in loans of \$19.2 million, securities call, maturities, and principal repayments of \$15.3 million, and the net increase in short-term FHLB advances of \$9.8 million.

CAPITAL RESOURCES

Both the Board of Governors of the Federal Reserve System (Federal Reserve), with respect to the Company, and the Federal Deposit Insurance Corporation (FDIC), with respect to Guaranty Bank, have established certain minimum risk-based capital standards that apply to bank holding companies and federally insured banks, respectively. As of June 30, 2002, the Company's Tier 1 risk-based capital, total risk-based capital and leverage capital ratios were 11.41%, 12.47%, and 7.92%, respectively. As of June 30, 2002, the Bank's risk-based capital ratios remain above the levels required for the Bank to be designated as well capitalized by the FDIC with Tier 1 risk-based capital, total risk-based capital and leverage capital ratios of 11.07%, 12.12%, and 7.96%, respectively. Management is not aware of any conditions or events subsequent to June 30, 2002 that would change the Company's or the Bank's capital category.

RECENT ACCOUNTING PRONOUNCEMENTS

As discussed in Note 2 Recent Accounting Pronouncements in the Notes to Consolidated Financial Statements included elsewhere in this report, the Company implemented new accounting standards related to accounting for goodwill and intangible assets beginning January 1, 2002. Also refer to this note for a summary of new accounting standards issued during the six months ended June 30, 2002.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in the market risk information disclosed in the Company's Form 10-K for the year ended December 31, 2001. See Form 10-K, Item 7A, Quantitative and Qualitative Disclosures about Market Risk.

23

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various claims and legal actions occurring in the normal course of business. The Company accrues for estimated losses in the accompanying financial statements for those matters where management believes the likelihood of an adverse outcome is probable and the amount of the loss is reasonably estimable. After consultation with legal counsel, management currently believes the outcome of outstanding legal proceedings, claims and litigation involving the Company will not have a material adverse effect on the Company's business, financial condition or results of operation.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Annual Meeting of shareholders was held on April 16, 2002. The following matters were submitted for approval to the shareholders:

1. The election of two Class III directors, Tyson T. Abston and Bill Priefert; four Class II directors, Jonice Crane, C.A. Hinton, Sr., Arthur B. Scharlach, Jr., and Gene Watson with 2,402,922 votes for and 91 votes abstaining.

2. To ratify the appointment of McGladrey & Pullen, LLP as independent auditors. 2,402,672 votes for, 91 votes against and 250 votes abstaining.

ITEM 5. OTHER INFORMATION

None
