Sterling Bancorp

Sterling Bancorp, organized in 1966, is a bank holding company and a financial holding company as defined by the Bank Holding Company Act of 1956, as amended. Sterling Bancorp and its subsidiaries derive substantially all of their revenue and income from providing banking and related financial services and products to customers primarily in the New York metropolitan area, which includes portions of New York, New Jersey and Connecticut. Sterling Bancorp conducts business throughout the United States and, on a limited basis, internationally.

At December 31, 2010, Sterling Bancorp had total assets of \$2.4 billion, total deposits of \$1.7 billion and total shareholders' equity of \$222.7 million.

Sterling Bancorp owns, directly or indirectly, all of the outstanding shares of Sterling National Bank (the "bank"), its principal subsidiary, and all of the outstanding common shares of Sterling Banking Corporation and Sterling Bancorp Trust I. Sterling National Mortgage Company, Inc., Sterling Factors Corporation, Sterling Trade Services, Inc., and Sterling Resource Funding Corp. are wholly-owned subsidiaries of the bank. Sterling Real Estate Holding Company, Inc. is a majority-owned subsidiary of the bank.

Our principal executive offices are located at 650 Fifth Avenue, New York, New York 10019-6108, and our telephone number is 212-757-3300.

Summary of Business Operations

The Bank. Sterling National Bank was organized in 1929 under the National Bank Act and commenced operations in New York City. The bank maintains twelve offices in New York: nine offices in New York City (six branches and an international banking facility in Manhattan and three branches in Queens); two branches in Nassau County (one in Great Neck and the other in Woodbury, New York) and one branch in Yonkers, New York. The executive office is located at 650 Fifth Avenue, New York, New York.

The bank provides a broad range of banking and financial products and services, including business and consumer lending, asset-based financing, factoring/accounts receivable management services, equipment financing, commercial and residential mortgage lending and brokerage, deposit services, and trade financing.

For the year ended December 31, 2010, the bank's average earning assets represented approximately 98.3% of the Company's average earning assets. Loans represented 61.2% and investment securities represented 36.8% of the bank's average earning assets in 2010.

Commercial Lending, Asset-Based Financing and Factoring/Accounts Receivable Management. The bank provides loans to small and medium-sized businesses. The businesses are diversified across industries, including commercial, industrial and financial companies, and government and non-profit entities. Loans generally range in size from \$250 thousand to \$15 million and can be tailored to meet customers' specific long- and short-term needs, and include secured and unsecured lines of credit, business installment loans, business lines of credit, and debtor-in-possession financing. Loans are often collateralized by assets, such as accounts receivable, inventory, marketable securities, other liquid collateral, equipment and other assets.

Through its factoring subsidiary, Sterling Factors Corporation, the bank provides accounts receivable management services. The purchase of a client's accounts receivable is traditionally known as factoring and results in payment by the client of a nonrefundable factoring fee, which is generally a percentage of the factored receivables or sales volume and is designed to compensate for the bookkeeping and collection services provided by Sterling Factors Corporation and, if applicable, its credit review of the client's customer and assumption of customer credit risk. When Sterling Factors Corporation "factors" (i.e., purchases) an account receivable from a client, it records the receivable as an asset, records a liability for the funds due to the client and credits to noninterest income the nonrefundable factoring fee. Sterling Factors Corporation also may advance funds to its client prior to the collection of receivables, charging interest on such advances (in addition to any factoring fees) and normally satisfying such advances by the collection of receivables. The accounts receivable factored are primarily for clients engaged in the apparel and textile industries.

Edgar Filing: STERLING BANCORP - Form 424B5

Through a subsidiary, Sterling Resource Funding Corp., the bank provides financing and human resource business process outsourcing support services, exclusively for the temporary staffing industry. For over 25 years and throughout the United States, Sterling Resource Funding Corp. has provided full back-office, computer, tax and accounting services, as well as financing, to independently-owned staffing companies. The average contract term is 18 months for approximately 200 staffing companies.

As of December 31, 2010, the outstanding loan balance (net of unearned discounts) for commercial and industrial lending and factored receivables was \$755.5 million, representing approximately 56.8% of the bank's total loan portfolio.

There are no industry concentrations in the commercial and industrial loan portfolio that exceed 10% of gross loans. Approximately 69% of the bank's loans are to borrowers located in the New York metropolitan area. The bank has no foreign loans.

Equipment Financing. The bank offers equipment financing services in the New York metropolitan area and across the United States through direct leasing programs, third party sources and vendor programs. The bank finances full payout leases for various types of business equipment, written on a recourse basis with personal guarantees of the principals, with terms generally ranging from 24 to 60 months. At December 31, 2010, the outstanding balance (net of unearned discounts) for equipment financing receivables was \$144.2 million, with a remaining average term of 35 months, representing approximately 10.8% of the bank's total loan portfolio.

Residential and Commercial Mortgages. The bank's real estate loan portfolio consists of real estate loans on one-to-four family residential properties, multi-family residential properties and nonresidential commercial properties. The residential mortgage banking and brokerage business is conducted through offices located principally in New York. Residential mortgage loans, substantially all of which are for single family residences, are focused on conforming credit, government insured FHA and other high quality loan products and are originated primarily in the New York metropolitan area, Virginia and other mid-Atlantic states, almost all of these for resale. In addition, the Company retains in portfolio fixed and floating rate residential mortgage loans, primarily on properties located in the New York metropolitan area, which were originated by its mortgage banking subsidiary. Commercial real estate lending, including financing on multi-family residential properties and nonresidential commercial properties, is offered on income-producing investor properties and owner-occupied properties, professional co-ops and condos. At December 31, 2010, the outstanding loan balance for real estate mortgage loans, including loans held for sale, was \$256.7 million, representing approximately 19.3% of the bank's total loans outstanding.

Deposit Services. The bank attracts deposits from customers located primarily in the New York metropolitan area, offering a broad array of deposit products, including checking accounts, money market accounts, negotiable order of withdrawal (NOW) accounts, savings accounts, rent security accounts, retirement accounts, and certificates of deposit. The bank's deposit services include account management and information, disbursement, reconciliation, collection and concentration, ACH and others designed for specific business purposes. The deposits of the bank are insured to the extent permitted by law pursuant to the Federal Deposit Insurance Act, as amended.

Trade Finance. Through its international division and international banking facility the bank offers financial services to its customers and correspondents in the world's major financial centers. These services consist of financing import and export transactions, issuing of letters of credit, processing documentary collections and creating banker's acceptances. In addition, active bank account relationships are maintained with leading foreign banking institutions in major financial centers.

Business Strategy

The management of the Company considers the following as its foremost strategic priorities:

Focusing on deepening customer relationships and winning new business;

Continuing disciplined underwriting practices while pursuing quality loan growth;

Maintaining a cost-effective funding base and disciplined expense control;

Preserving strong capital and liquidity positions; and

Selectively considering value-enhancing acquisitions, such as complementary businesses, portfolios and FDIC-assisted transactions.

The Company believes that the New York metropolitan area is characterized by a large concentration of middle-market businesses, with an exceptionally diverse range of industries and market sectors. The Company views that small to midsized businesses in the New York metropolitan area, which are the target customer base the Company is focused on, are underserved. Mergers and other consolidation activities among the Company's competitors have increased customer displacement, which management believes creates an opportunity for the Company to grow its market share. The Company's core customer strategy is to serve the financial service needs of small/midsized businesses that require personalized attention, flexibility and customized solutions.

In addition to pursuing organic growth in market share, the Company also regularly evaluates merger and acquisition opportunities and conducts due diligence activities related to possible transactions. The Company generally seeks merger or acquisition partners that are compatible and have experienced management and possess either significant market presence or have potential for improved profitability through financial management, economies of scale or expanded services. The Company expects to continue consideration and implementation of acquisition opportunities as they arise.

The Company believes that this offering will strengthen its capital position, provide a capital base for franchise enhancement through pursuit of merger and acquisition opportunities and organic growth, and facilitate the Company's ability to repay our Fixed Rate Cumulative Perpetual Preferred Shares, Series A, par value \$5.00 per share (the "Series A Preferred Shares") issued to the U.S. Treasury under the TARP Capital Purchase Program. The Company will seek to leverage management's New York City banking experience and the Company's branch network to meaningfully expand the balance sheet.

Asset Quality

A principal objective of management is to maintain the quality of the loan portfolio. The Company seeks to achieve this objective by maintaining rigorous underwriting standards coupled with regular evaluation of the creditworthiness of and the designation of lending limits for each borrower. The portfolio strategies include seeking industry and loan size diversification in order to minimize credit exposure and originating loans in markets with which the Company is familiar.

Non-GAAP Financial Measures

The table below contains certain supplemental financial information which has been determined by methods other than U. S. generally accepted accounting principles (GAAP). Non-GAAP financial measures provide useful supplemental information to both management and investors in evaluating Sterling s financial results. These non-GAAP measures should not be considered a substitute for GAAP basis measures and results, and Sterling strongly encourages investors to review its consolidated statements in their entirety and not to rely on any single financial measure. Non-GAAP financial measures are not standardized, and, therefore, it may not be possible to compare these financial measures with other companies non-GAAP financial measures that may have the same or similar names.

Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied and are not audited. To mitigate these limitations, Sterling has procedures in place to ensure that these measures are calculated using the appropriate GAAP or regulatory components and to ensure that the company s capital performance is properly reflected for period-to-period comparisons. Although these non-GAAP financial measures are frequently used by shareholders in the evaluation of a company, they have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analyses of results as reported under GAAP.

The efficiency ratio, in accordance with GAAP, represents non-interest expense divided by the sum of net interest income and non-interest income. Net interest income as utilized in calculating the non-GAAP efficiency ratio is expressed on a tax-equivalent basis. Management believes that the presentation of net interest income on a tax-equivalent basis ensures comparability of net interest income arising from both taxable and tax-exempt sources and is consistent with industry standards.

Tangible common shareholders equity equals total shareholders equity less preferred stock, goodwill and identifiable intangible assets. Tangible book value per common share is computed by dividing tangible common shareholders equity by the number of common shares outstanding. Management believes that tangible common shareholders equity is meaningful because it is one of the measures that the Company and investors use to assess capital adequacy.

The following table provides a reconciliation of the GAAP efficiency ratio to the non-GAAP efficiency ratio and book value per common share (GAAP) to tangible book value per common share (non-GAAP).

UNDERWRITING

Subject to the terms and conditions stated in the underwriting agreement with Stifel, Nicolaus & Company, Incorporated, as the representative of the underwriters named below, each underwriter named below has severally agreed to purchase from us the respective number of Common Shares set forth opposite its name in the table below.

<u>Name</u>	<u>Number of Shares</u>
Stifel, Nicolaus & Company, Incorporated Keefe, Bruyette & Woods, Inc.	_____
Total	_____

The underwriting agreement provides that the underwriters' obligations are several, which means that each underwriter is required to purchase a specific number of Common Shares, but it is not responsible for the commitment of any other underwriter. The underwriting agreement provides that the underwriters' several obligations to purchase the Common Shares depend on the satisfaction of the conditions contained in the underwriting agreement, including:

- the representations and warranties made by us to the underwriters are true;
- there is no material adverse change in the financial markets; and
- we deliver customary closing documents and legal opinions to the underwriters.

Subject to these conditions, the underwriters are committed to purchase and pay for all Common Shares offered by this prospectus supplement, if any such Common Shares are purchased. However, the underwriters are not obligated to purchase or pay for the Common Shares covered by the underwriters' over-allotment option described below, unless and until they exercise this option.

The Common Shares are being offered by the several underwriters, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of certain legal matters by counsel for the underwriters and other conditions. The underwriters reserve the right to withdraw, cancel, or modify this offering and to reject orders in whole or in part.

Offering Price

We have been advised that the underwriters propose to offer the Common Shares to the public at the offering price set forth on the cover of this prospectus supplement and to certain selected dealers at this price, less a concession not in excess of \$ _____ per share. The underwriters may allow, and any selected dealers may reallow, a concession not to exceed \$ _____ per share to certain brokers and dealers. After the Common Shares are released for sale to the public, the offering price and other selling terms may from time to time be changed by the underwriters.

Electronic Prospectus Delivery

A prospectus supplement in electronic format may be made available on the web sites maintained by one or more of the underwriters. In connection with this offering, certain of the underwriters or securities dealers may distribute prospectuses electronically. Stifel, Nicolaus & Company, Incorporated, as representative for the several underwriters, may agree to allocate a number of Common Shares to underwriters for sale to their online brokerage account holders. The representative will allocate Common Shares to underwriters that may make Internet distributions on the same basis as other allocations. Other than this prospectus supplement in electronic format, the information on any of these web sites and any other information contained on a web site maintained by an underwriter or syndicate member is not part of this prospectus supplement.

Over-Allotment Option

We have granted to the underwriters a 30-day over-allotment option, from the date of the pricing of the offering, to purchase up to an aggregate of _____ additional Common Shares at the public offering price, less the underwriting discount set forth on the cover page of this prospectus supplement. To the extent that the underwriters exercise their over-allotment option, the underwriters will become obligated, so long as the conditions of the underwriting agreement are satisfied, to purchase the additional Common Shares in proportion to their respective initial purchase amounts. We will be obligated to sell the Common Shares to the underwriters to the extent the over-allotment option is exercised. The underwriters may exercise this option only to cover over-allotments made in connection with the sale of the Common Shares offered by this prospectus supplement.

Underwriting Discounts and Offering Expenses

The following table shows the per share and total underwriting discount that we will pay to the underwriters. These amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.

	Per Share	Total Without Option Exercised	Total With Option Exercised
Public offering price	\$	\$	\$
Underwriting discount	\$	\$	\$

We estimate that our share of the total offering expenses, excluding underwriting discounts, will be approximately \$ _____.

Lock-Up Agreements

We, our executive officers and our directors have agreed that for a period of 90 days from the date of this prospectus supplement, neither we nor any of our executive officers or directors will, without the prior written consent of Stifel, Nicolaus & Company, Incorporated, as the representative on behalf of the underwriters, subject to certain exceptions, sell, offer to sell or otherwise dispose of or hedge any Common Shares or any securities convertible into or exercisable or exchangeable for our Common Shares. Stifel, Nicolaus & Company, Incorporated, in its sole discretion may release the securities subject to these lock-up agreements at any time without notice.

Indemnity

We have agreed to indemnify the underwriters and persons who control the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization

In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act, as set forth below:

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum;

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing shares in the open market;

Covering transactions involve the purchase of shares in the open market after the distribution has been completed in order to cover short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. If the underwriters sell more shares than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in this offering; and

Penalty bids permit the underwriters to reclaim a selling concession from a selected dealer when the Common Shares originally sold by the selected dealer is purchased in a stabilizing covering transaction to cover short positions.

These stabilizing transactions, covering transactions and penalty bids may have the effect of raising or maintaining the market price of our Common Shares or preventing or retarding a decline in the market price of our Common Shares. As a result, the price of our Common Shares may be higher than the price that might otherwise exist in the open market. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of our Common Shares. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

Other Considerations

It is expected that delivery of the Common Shares will be made against payment therefore on or about the date specified on the cover page of this prospectus supplement.

Certain of the underwriters and their affiliates have in the past provided, and may in the future from time to time provide, investment banking and other financing and banking services to us, for which they have in the past received, and may in the future receive, customary fees and reimbursement for their expenses.

VALIDITY OF THE COMMON SHARES

The validity of the Common Shares offered by this prospectus supplement will be passed upon for us by Sullivan & Cromwell LLP, New York, New York. Certain legal matters will be passed upon for the underwriters by Day Pitney LLP, New York, New York.

USE OF PROCEEDS

Unless otherwise set forth in a prospectus supplement, we intend to use the net proceeds from the sale of the securities for general corporate purposes. We may temporarily invest funds that we do not immediately need for these purposes in short-term marketable securities or use them to make payments on our borrowings. We may set forth additional information on the use of proceeds from the sale of securities offered by this prospectus in the applicable prospectus supplement.

RATIOS OF EARNINGS TO FIXED CHARGES AND PREFERRED SHARE DIVIDENDS

The following table sets forth our consolidated ratios of earnings to combined fixed charges and preferred share dividends for the periods shown. For purposes of computing the ratios, earnings represent the sum of income from continuing operations before taxes plus fixed charges and preferred share dividend requirements. Fixed charges represent total interest expense, including and excluding interest on deposits. Preferred share dividend requirements represent the amount of pre-tax income required to pay the dividends on preferred shares. Before we issued the Fixed Rate Cumulative Perpetual Preferred Shares, Series A, par value \$5.00 per share (the "Series A Preferred Shares"), on December 23, 2008, we had had no preferred shares outstanding since February 2004 and had not paid any dividends on preferred shares since 2003. Therefore, the ratio of earnings to combined fixed charges and preferred share dividends is (i) identical to the ratio of earnings to fixed charges for the periods from 2005 to 2007 set forth below, and (ii) substantially the same as the ratio of earnings to fixed charges for the year ended December 31, 2008.

	Nine Months Ended	Year Ended December 31,				
	September 30, 2010	2009	2008	2007	2006	2005
Ratio of earnings to fixed charges and preferred share dividends:						
Including interest on deposits	1.26x	1.57x	1.72x	1.49x	1.61x	2.32x
Excluding interest on deposits	1.48x	2.08x	2.84x	3.34x	2.82x	4.82x

DESCRIPTION OF COMMON SHARES

The following is a description of our common shares and certain provisions of our Restated Certificate of Incorporation and Bylaws and certain provisions of applicable law. The following is only a summary and is qualified by applicable law and by the provisions of our Restated Certificate of Incorporation and Bylaws, copies of which have been filed with the SEC and are also available upon request from us.

General

Under our Restated Certificate of Incorporation, as amended, we have authority to issue up to 50,000,000 common shares, par value \$1.00 per share. As of January 18, 2011, 26,840,763 of our common shares were issued and outstanding.

Our common shares are listed on the New York Stock Exchange. Outstanding common shares are validly issued, fully paid and non-assessable.

Voting Rights

Holders of common shares are entitled to one vote per share on all matters submitted to a vote of shareholders. Holders of common shares do not have cumulative voting rights.

Dividend Rights

Holders of our common shares are entitled to dividends when, as, and if declared by our board of directors out of funds legally available for the payment of dividends. Holders of Series A Preferred Shares have (and other series of preferred shares may in the future have) a priority over holders of common shares with respect to dividends.

Until the earlier of December 23, 2011 and the date on which The United States Department of Treasury no longer holds any Series A Preferred Shares, we may not declare or pay any dividend or make any distribution on the common shares, other than regular quarterly cash dividends of not more than \$0.19 per share, as adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction; dividends payable solely in common shares; and dividends or distributions of rights or junior shares in connection with a shareholders' rights plan.

Liquidation and Dissolution

In the event of the liquidation, dissolution and winding up of the Company, the holders of our common shares are entitled to receive ratably all of the assets of the Company available for distribution after satisfaction of all liabilities of the Company, subject to the rights of the holders of any of the Company's preferred shares that may be issued from time to time.

Other Rights

Holders of our common shares have no preferential or preemptive rights with respect to any securities of Sterling Bancorp and there are no conversion rights or redemption or sinking fund provisions applicable to our common shares.

Restrictions on Ownership

The Bank Holding Company Act requires any “bank holding company,” as defined in the Bank Holding Company Act, to obtain the approval of the Federal Reserve Board prior to the acquisition of 5% or more of our common shares. Any person, other than a bank holding company, is required to obtain prior approval of the Federal Reserve Board to acquire 10% or more of our common shares under the Change in Bank Control Act. Any holder of 25% or more of our common shares, or a holder of 5% or more if such holder otherwise exercises a “controlling influence” over us, is subject to regulation as a bank holding company under the Bank Holding Company Act.

Certain provisions included in our Restated Certificate of Incorporation, our Bylaws, as well as certain provisions of the New York Business Corporation Law and federal law, may discourage, delay or prevent potential acquisitions of control of us, particularly when attempted in a transaction that is not negotiated directly with, and approved by, our board of directors, despite possible benefits to our shareholders. These provisions are more fully described in the documents and reports filed with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference into this prospectus.

Transfer Agent

The transfer agent and registrar for our common shares is BNY Mellon Shareowner Services, 480 Washington Boulevard, Jersey City, New Jersey 07310-1900.

DESCRIPTION OF PREFERRED SHARES

Our Board of Directors has the authority, without further action by the shareholders, to issue preferred shares in one or more series and to fix the number of shares, dividend rights, conversion rights, voting rights, redemption rights, liquidation preferences, sinking funds, and any other rights, preferences, privileges and restrictions applicable to each such series of preferred shares.

Prior to the issuance of a new series of preferred shares, we will amend our certificate of incorporation, designating the number of shares of that series and the terms of that series. Each series of preferred shares that we issue will constitute a separate class of stock. The issuance of any preferred shares could adversely affect the rights of the holders of common shares and, therefore, reduce the value of the common shares. The ability of our Board of Directors to issue preferred shares could discourage, delay or prevent a takeover or other corporate action.

The terms of any particular series of preferred shares will be described in the prospectus supplement relating to that particular series of preferred shares, including, where applicable:

- the designation, stated value and liquidation preference of such preferred shares and the number of shares offered;
- the offering price;
- the dividend rate or rates (or method of calculation), the date or dates from which dividends shall accrue, and whether such dividends shall be cumulative or noncumulative and, if cumulative, the dates from which dividends shall commence to cumulate;
- any redemption or sinking fund provisions;
- the amount that shares of such series shall be entitled to receive in the event of our liquidation, dissolution or winding-up;
- the terms and conditions, if any, on which shares of such series shall be convertible or exchangeable for shares of our stock of any other class or classes, or other series of the same class;
- the voting rights, if any, of shares of such series;
- the status as to reissuance or sale of shares of such series redeemed, purchased or otherwise reacquired, or surrendered to us on conversion or exchange;
- the conditions and restrictions, if any, on the payment of dividends or on the making of other distributions on, or the purchase, redemption or other acquisition by us or any subsidiary, of the common shares or of any other class of our shares ranking junior to the shares of such series as to dividends or upon liquidation;
- the conditions and restrictions, if any, on the creation of indebtedness of us or of any subsidiary, or on the issuance of any additional stock ranking on a parity with or prior to the shares of such series as to dividends or upon liquidation; and
- any additional dividend, liquidation, redemption, sinking or retirement fund and other rights, preferences, privileges, limitations and restrictions of such preferred shares.

The description of the terms of a particular series of preferred shares in the applicable prospectus supplement will not be complete. You should refer to the applicable amendment to the certificate of incorporation for complete information regarding a series of preferred shares.

The preferred shares will, when issued, be fully paid and nonassessable. Unless otherwise specified in the applicable prospectus supplement, each series of preferred shares will, upon issuance, rank senior to the common shares and on a parity in all respects with each other outstanding series of preferred shares. The rights of the holders of our preferred shares will be subordinate to that of our general creditors.

DESCRIPTION OF WARRANTS

General

We may issue, together with other securities or separately, warrants to purchase our common shares or preferred shares. We may issue the warrants under warrant agreements to be entered into between us and a bank or trust company, as warrant agent, all as set forth in the applicable prospectus supplement. The warrant agent would act solely as our agent in connection with the warrants of the series being offered and would not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

This section, along with the description in the applicable prospectus supplement, is a summary of certain provisions of the forms of warrant agreements and warrant certificates and is not complete. We urge you to read any applicable warrant agreements and warrant certificates, because those documents, and not these descriptions, define your rights as a holder of warrants. We will file copies of the forms of the warrant agreements and warrant certificates as exhibits to the Registration Statement of which this prospectus is a part or an amendment thereto or as exhibits to a Current Report on Form 8-K.

The applicable prospectus supplement will describe the following terms, where applicable, of warrants in respect of which this prospectus is being delivered:

- the title of the warrants;
- the designation, amount and terms of the securities for which the warrants are exercisable and the procedures and conditions relating to the exercise of such warrants;
- the designation and terms of the other securities, if any, with which the warrants are to be issued and the number of warrants issued with each such security;
- the price or prices at which the warrants will be issued;
- the aggregate number of warrants;
- any provisions for adjustment of the number or amount of securities receivable upon exercise of the warrants or the exercise price of the warrants;
- the price or prices at which the securities purchasable upon exercise of the warrants may be purchased;
- if applicable, the date on and after which the warrants and the securities purchasable upon exercise of the warrants will be separately transferable;
- if applicable, a discussion of the material U.S. federal income tax considerations applicable to the warrants;
- any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants;
- the date on which the right to exercise the warrants shall commence and the date on which the right shall expire;
- the maximum or minimum number of warrants which may be exercised at any time;
- whether the warrants are to be issued in registered or bearer form;
- whether the warrants are extendible and the period or periods of such extendibility; and
- information with respect to book-entry procedures, if any.

Before exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including the right to receive dividends, if any, or payments upon our liquidation, dissolution or winding-up or to exercise voting rights, if any.

Exercise of Warrants

Edgar Filing: STERLING BANCORP - Form 424B5

Each warrant will entitle the holder thereof to purchase for cash the amount of common shares or preferred shares at the exercise price as will in each case be set forth in, or be determinable as set forth in, the applicable prospectus supplement. Warrants may be exercised at any time up to the close of business on the expiration date set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void. Warrants may be exercised as set forth in the applicable prospectus supplement relating to the warrants offered thereby. Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will, as soon as practicable, forward the purchased securities. If less than all of the warrants represented by the warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

Enforceability of Rights of Holders of Warrants

Each warrant agent will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A single bank or trust company may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant agent or the holder of any other warrant, enforce by appropriate legal action its right to exercise, and receive the securities purchasable upon exercise of, that holder's warrant(s).

PLAN OF DISTRIBUTION

Initial Offering and Sale of Securities

We may sell the securities being offered hereby, from time to time, by one or more of the following methods:

- to or through underwriting syndicates represented by managing underwriters;
- through one or more underwriters without a syndicate for them to offer and sell to the public;
- through dealers or agents; and
- to investors directly in negotiated sales or in competitively bid transactions.

In addition, we may issue the securities as a dividend or distribution or in a subscription rights offering to our existing security holders. In some cases, we or dealers acting with us or on our behalf may also purchase securities and reoffer them to the public by one or more of the methods described above. This prospectus may be used in connection with any offering of our securities through any of these methods or other methods described in the applicable prospectus supplement.

Any underwriter, agent or dealer involved in the offer and sale of the securities will be named in the prospectus supplement.

We may distribute the securities from time to time in one or more transactions:

- at fixed prices, which may be changed;
- at market prices prevailing at the time of the sale;
- at varying prices determined at the time of sale; or
- at negotiated prices.

Each prospectus supplement will set forth the manner and terms of an offering of securities including:

- whether that offering is being made to underwriters or through agents or directly;
- the rules and procedures for any auction or bidding process, if used;
- the securities' purchase price or initial public offering price; and
- the proceeds we anticipate from the sale of the securities.

In addition, we may enter into derivative or hedging transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. In connection with such a transaction, the third parties may sell securities covered by and pursuant to this prospectus and an applicable prospectus supplement or pricing supplement, as the case may be. If so, the third party may use securities borrowed from us or others to settle such sales and may use securities received from us to close out any related short positions. We may also loan or pledge securities covered by this prospectus and an applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement or pricing supplement, as the case may be.

Sales Through Underwriters

If we use underwriters in the sale of some or all of the securities covered by this prospectus, the underwriters will acquire the securities for their own account. The underwriters may resell the securities, either directly to the public or to securities dealers, at various times in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to certain conditions. Unless indicated otherwise in a prospectus supplement, the underwriters will be obligated to purchase all the securities of the series offered if any of the securities are purchased.

Any initial public offering price and any concessions allowed or reallocated to dealers may be changed intermittently.

Sales Through Agents

Unless otherwise indicated in the applicable prospectus supplement, when securities are sold through an agent, the designated agent will agree, for the period of its appointment as agent, to use its best efforts to sell the securities for our account and will receive commissions from us as will be set forth in the applicable prospectus supplement.

Securities bought in accordance with a redemption or repayment under their terms also may be offered and sold, if so indicated in the applicable prospectus supplement, in connection with a remarketing by one or more firms acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreement, if any, with us and its compensation will be described in the prospectus supplement. Remarketing firms may be deemed to be underwriters in connection with the securities remarketed by them.

If so indicated in the applicable prospectus supplement, we will authorize agents, underwriters or dealers to solicit offers by certain specified institutions to purchase securities at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a future date specified in the prospectus supplement. These contracts will be subject only to those conditions set forth in the applicable prospectus supplement, and the prospectus supplement will set forth the commissions payable for solicitation of these contracts.

Direct Sales

We may also sell offered securities directly as principal for our own account. In this case, no underwriters or agents would be involved.

Sales Through the Internet

We may from time to time offer securities directly to the public, with or without the involvement of agents, underwriters or dealers, and may utilize the Internet or another electronic bidding or ordering system for the pricing and allocation of such securities. Such a system may allow bidders to directly participate, through electronic access to an auction site, by submitting conditional offers to buy that are subject to acceptance by us, and which may directly affect the price or other terms at which such securities are sold.

Such a bidding or ordering system may present to each bidder, on a real-time basis, relevant information to assist you in making a bid, such as the clearing spread at which the offering would be sold, based on the bids submitted, and whether a bidder's individual bids would be accepted, prorated or rejected. Other pricing methods may also be used. Upon completion of such an auction process, securities will be allocated based on prices bid, terms of bid or other factors.

The final offering price at which securities would be sold and the allocation of securities among bidders would be based in whole or in part on the results of the Internet bidding process or auction. Many variations of the Internet auction or pricing and allocation systems are likely to be developed in the future, and we may utilize such systems in connection with the sale of securities. The specific rules of such an auction would be distributed to potential bidders in an applicable prospectus supplement.

If an offering is made using such a bidding or ordering system you should review the auction rules, as described in the prospectus supplement, for a more detailed description of such offering procedures.

General Information

Broker-dealers, agents or underwriters may receive compensation in the form of discounts, concessions or commissions from us and/or the purchasers of securities for whom such broker-dealers, agents or underwriters may act as agents or to whom they sell as principal, or both (this compensation to a particular broker-dealer might be in excess of customary commissions).

Underwriters, dealers and agents that participate in any distribution of the offered securities may be deemed “underwriters” within the meaning of the Securities Act, so any discounts or commissions they receive in connection with the distribution may be deemed to be underwriting compensation. Those underwriters and agents may be entitled, under their agreements with us, to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution by us to payments that they may be required to make in respect of those civil liabilities. Various of those underwriters or agents may be customers of, engage in transactions with, or perform services for, us or our affiliates in the ordinary course of business.

Edgar Filing: STERLING BANCORP - Form 424B5

We will identify any underwriters or agents, and describe their compensation, in a prospectus supplement. We will file a supplement to this prospectus, if required, pursuant to Rule 424(b) under the Securities Act, if we enter into any material arrangement with a broker, dealer, agent or underwriter for the sale of securities through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer. Such prospectus supplement will disclose:

- the name of any participating broker, dealer, agent or underwriter;
- the number and type of securities involved;
- the price at which such securities were sold;
- any securities exchanges on which such securities may be listed;
- the commissions paid or discounts or concessions allowed to any such broker, dealer, agent or underwriter where applicable; and
- other facts material to the transaction.

In order to facilitate the offering of certain securities under this prospectus or an applicable prospectus supplement, certain persons participating in the offering of those securities may engage in transactions that stabilize, maintain or otherwise affect the price of those securities during and after the offering of those securities. Specifically, if the applicable prospectus supplement permits, the underwriters of those securities may over-allot or otherwise create a short position in those securities for their own account by selling more of those securities than have been sold to them by us and may elect to cover any such short position by purchasing those securities in the open market.

In addition, the underwriters may stabilize or maintain the price of those securities by bidding for or purchasing those securities in the open market and may impose penalty bids, under which selling concessions allowed to syndicate members or other broker-dealers participating in the offering are reclaimed if securities previously distributed in the offering are repurchased in connection with stabilization transactions or otherwise. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. The imposition of a penalty bid may also affect the price of securities to the extent that it discourages resales of the securities. No representation is made as to the magnitude or effect of any such stabilization or other transactions. Such transactions, if commenced, may be discontinued at any time.

In order to comply with the securities laws of certain states, if applicable, the securities must be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Rule 15c6-1 under the Securities Exchange Act of 1934 generally requires that trades in the secondary market settle in three business days, unless the parties to any such trade expressly agree otherwise. Your prospectus supplement may provide that the original issue date for your securities may be more than three scheduled business days after the trade date for your securities. Accordingly, in such a case, if you wish to trade securities on any date prior to the third business day before the original issue date for your securities, you will be required, by virtue of the fact that your securities initially are expected to settle in more than three scheduled business days after the trade date for your securities, to make alternative settlement arrangements to prevent a failed settlement.

This prospectus, the applicable prospectus supplement and any applicable pricing supplement in electronic format may be made available on the Internet sites of, or through other online services maintained by, us and/or one or more of the agents and/or dealers participating in an offering of securities, or by their affiliates. In those cases, prospective investors may be able to view offering terms online and, depending upon the particular agent or dealer, prospective investors may be allowed to place orders online.

Edgar Filing: STERLING BANCORP - Form 424B5

There can be no assurance that we will sell all or any of the securities offered by this prospectus.

Unless otherwise indicated in the applicable prospectus supplement or confirmation of sale, the purchase price of the securities will be required to be paid in immediately available funds in New York City.

This prospectus may also be used in connection with any issuance of common shares or preferred shares upon exercise of a warrant if such issuance is not exempt from the registration requirements of the Securities Act.

Unless otherwise indicated in the applicable prospectus supplement, the validity of the securities offered hereby will be passed upon for us by Sullivan & Cromwell LLP, New York, New York.
