FOR IMMEDIATE RELEASE

**Matav Reports Increased Revenues of NIS 147.6 Million in Q1 2004-
13% Increase Compared to Q1 2003**

NETANYA, Israel, May 24, 2004 **Matav-Cable Systems Media Ltd. (Nasdaq: MATV)**, a leading Israeli provider of digital cable television services, today reported first-quarter 2004 financial results. In this quarter, for the first time, Matav's financial results are proportionally consolidated with HOT Vision Ltd. (formerly ICP Ltd., a production company owned by the three cable companies). The proportional consolidation has no substantial influence on the Company's financial results.

In addition, from this quarter on, as a result of new Israeli regulations, the financial results will be presented on a nominal basis, while in the past the financial results were adjusted to the Israeli CPI.

Revenues increased to NIS 147.6 million (US\$32.6 million) from NIS 130.3 million (US\$28.8 million) in first-quarter 2003. The increased revenues, which came despite a decrease in total subscribers, stems from higher ARPU as well as from higher sales of fast Internet access services.

First-quarter operating expenses totaled NIS 120.3 million (US\$26.6 million) compared with NIS 117.6 million (US\$26 million) in the year-earlier period. The increase is due mainly to higher than usual programming costs, especially original TV productions broadcast by the cable companies in the quarter and also due to an increase in operating costs associated with the Company's fast-internet service.

Gross profit reached NIS 27.4 million (US\$6.1 million) compared with 12.7 million (US\$2.8 million) in first-quarter 2003.

First-quarter selling and marketing expenses, totaled NIS 14.9 million (US\$3.3 million), compared with NIS 10.1 million (US\$2.2 million) for first-quarter 2003. The increase is due mainly to higher advertising expenses associated with the continued penetration of the HOT brand in the Israeli market.

First-quarter G&A expenses totaled NIS 10.1 million (US\$2.2million), compared with NIS 11.8 million (US\$2.6 million) for first-quarter 2003. The decrease stems mainly from a lower allowance for doubtful debts.

First-quarter EBITDA, not including proportional consolidation, improved 15% to NIS 36.3 million (US\$8 million) from NIS 31.5 million (US\$7 million) in first-quarter 2003.

At March 31, 2004, Matav had approximately 265,400 subscribers, compared with approximately 266,700 at March 31, 2003. During first-quarter 2003, the company's ARPU rose to NIS 207.9 (monthly, including 17% value-added tax) compared with NIS 185.0 in the first quarter of 2003.

The company's fast Internet access service has attracted more than 74,000 subscribers to date.

First-quarter financing expenses declined to NIS 12.3 million (US\$2.7 million) from NIS 14.8 million (US\$3.3 million) for the comparable quarter in 2003.

The two numbers are not precisely comparable since, as explained above, the latest quarter's figure is nominal while the results for a year earlier are adjusted for the CPI. However, a substantial part of the reduction can be attributed to two factors: a reduction in the Company's net debt and a decrease in interest rate.

Matav's share in affiliated companies' profits, (mainly Partner Communications), in the first quarter was NIS 3.6 million (US\$0.8 million) compared with NIS 3.4 million (US\$0.8 million) in first-quarter 2003.

Matav reported first-quarter net loss of NIS 7 million (US\$1.5 million), or NIS 0.23 (US\$0.05) per ordinary share, compared with a net loss of NIS 24.5 million (US\$5.4 million), or NIS 0.85 (US\$0.19), for the year-ago quarter.

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

Matav's CEO, Amit Levin, commented: During the first quarter we took measures to enhance our competitive position by increasing our investment in original TV productions. However, this came at the cost of higher than usual operating expenses in the quarter. Except for these unusually high expenses, the improvement trends that we have seen in previous quarters continued in the present quarter, and once again we successfully increased our revenues. We are continuously diversifying our product offerings and we recently launched a new game service for our subscribers. This new service, which enables subscribers to play against each other, is possible due to our advanced technological and interactive capabilities, abilities that our competitor lacks.

We have been conducting our fixed-telephony experiment in the Israeli market for the last few months. We are cooperating on this issue with the other two cable companies under the HOT Telecom brand, and we are taking steps to ensure that we will adhere to the timetable that has been set for the experiment.

Management will conduct a teleconference today at 10:00 a.m. U.S. Eastern Time. To participate, please dial +1-866-860-9642 in the United States and +972-3-918-0610 internationally, several minutes prior to the start of the conference.

Matav is one of Israel's three cable television providers, serving roughly 25 percent of the population. Matav's investments include 5.3 percent of Partner Communications Ltd., a GSM mobile phone company, and 10 percent of Barak I.T.C. (1995), one of the three international telephony-service providers in Israel.

(This press release contains forward-looking statements with respect to the Company's business, financial condition and results of operations. These forward-looking statements are based on the current expectations of the management of Matav Cable only, and are subject to risk and uncertainties, including but not limited to changes in technology and market requirements, decline in demand for the Company's products, inability to timely develop and introduce new technologies, products and applications, loss of market share and pressure on pricing resulting from competition, which could cause the actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements. The Company undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. For a more detailed description of the risk and uncertainties affecting the Company, reference is made to the Company's reports filed from time to time with the Securities and Exchange Commission.)

(*) EBITDA is presented because it is a measure commonly used in the telecommunications industry and is presented solely in order to improve the understanding of the Company's operating results and to provide further a perspective regarding these results. EBITDA, however, should not be considered as an alternative to operating income or income for the period or as an indicator of the operating performance of the

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

Company. Similarly, EBITDA should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies.

EBITDA may not be indicative of the historic operating results of the Company nor is it meant to be predictive of potential future results.

Reconciliation between the operating profit in the financial statements and EBIDTA is presented in the attached summary financial statements.

(**) Not including proportional consolidation.
