FOR IMMEDIATE RELEASE

Alvarion® Reports Q1 2010 Results

Company begins implementing first phase of new strategic plan

Tel Aviv, May 4, 2010 — Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of 4G WiMAX™ and wireless broadband solutions, today announced financial results for the first quarter of 2010.

Q1 Highlights:

- Shipments of \$47.9 million, a 5.9% sequential decline
- Revenues of \$51.9 million, a 13.8% sequential decline
- GAAP net loss of (\$0.08) per share; non-GAAP net loss of (\$0.06) per share.

“Q1 results were within the range of our guidance and, as expected, reflect continued delays in several business catalysts,” said Eran Gorev, President and CEO of Alvarion. “Meanwhile, we continued the expansion of our business with several existing customers and made important progress toward securing several major projects in Asia Pacific, EMEA and North America. The timing of actual orders is difficult to anticipate, but we hope to see some impact from these developments in 2010. We are using the delay in the business catalysts to strengthen our capabilities in order to capture a larger share of the projects once the vendor selection processes move forward.”

In the first quarter of 2010, total revenues were \$51.9 million, a decrease of 13.8% from \$60.2 million in the fourth quarter of 2009, and a decrease of 23.5% from \$67.9 million in the first quarter of 2009.

GAAP net loss in the first quarter of 2010 was (\$4.9) million, or (\$0.08) per share, compared to a net loss of (\$1.3) million, or (\$0.02) per share in Q4 2009. GAAP net loss in the first quarter of 2009 was (\$0.8) million, or (\$0.01) per share.

Excluding the amortization of intangibles, stock based compensation, restructuring and other charges, net, on a non-GAAP basis, the company reported net loss of (\$3.7) million in the first quarter of 2010, or (\$0.06) per diluted share, compared with non-GAAP net income of \$0.7 million, or \$0.01 per diluted share in the fourth quarter of 2009, and non-GAAP net income of \$0.7 million, or \$0.01 per diluted share in the first quarter of 2009.

Please refer to the accompanying financial table for reconciliation of GAAP financial information to non-GAAP for the first quarter of 2010 and the comparative periods.

Cash used in operations was (\$9.1) million. As of March 31, 2010, cash, cash equivalents and investments totaled \$103 million.

Strategic Initiatives

The company sees significant opportunities in the WiMAX carrier market as well as in the Enterprise space, and has recently completed an in-depth business review that is the basis for a set of near-term initiatives, including:

- Continuing the transformation of the company toward becoming a full-fledged solution provider; in this context, adding professional services capabilities to capture a larger share of each project
 - Building key account teams to focus on larger end-to-end projects
 - Expanding local presence in key regions, including local manufacturing

In order to be able to adequately invest in these key initiatives, in long term strategic growth areas, and to improve our operating structure, the company has taken immediate action to reduce expenses by more than \$30 million on an annual basis, with the intention of selectively reallocating some of the resources over the next several quarters. Most of the savings will come from an immediate headcount reduction of about 20%, which will be completed during Q2, resulting in a restructuring charge during the quarter.

Comments from Management

“After a thorough business review, we are moving decisively to implement a two-stage plan, continued Mr. Gorev. “First, we are transforming the organization, including our cost structure, into one that will best serve our near-term strategic business objectives. These changes will allow us to more effectively focus on the right opportunities, deliver end-to-end network solutions including professional services, and, in turn, capture a larger proportion of the total project dollars than we have in the past.

“The second stage of our plan will focus on positioning Alvarion for profitable growth in the increasingly complex multi-technology environment that will evolve over the next couple of years. We intend to complete the process and begin to implement the next phase of our plan during the second half of the year.”

Q2 2010 Guidance

The company indicated that there may be another sequential decline in revenues in Q2, and it has decided not to give detailed guidance, primarily because the timing of revenue from several large projects cannot be predicted with accuracy. Management continues to expect gradual improvement to begin during the second half of the year.
