Richard Solomons, Chief Executive of InterContinental Hotels Group PLC, said:

"We have delivered a good performance in the first half, with our preferred brands driving RevPAR growth of 3.7%, including 4.0% in the second quarter. Our global scale has allowed us to reinvest in the business whilst growing margins, resulting in solid underlying profit gains led by our Americas region, and strong cash flows.

Consistent with our long track record of returning value to shareholders, we today announce a \$350m special dividend. In addition we are increasing the interim dividend by 10% reflecting our good first half results and the confidence we have in the future prospects of the business.

We continue to strengthen our foundation for future growth, signing more than 200 hotels into our pipeline, a notable increase on H1 2012 reflecting our owners' confidence in both IHG and the industry demand drivers.

Our high quality pipeline, broad geographic spread and fee based model give us confidence in the outlook, despite the ongoing challenging economic conditions in some of our markets."

Americas - Continued RevPAR progression drives profit growth

RevPAR increased 4.5% (with 2.9% rate growth) and second quarter RevPAR increased 4.6% (with 2.5% rate growth). US RevPAR was up 4.7% in both the first half and the second quarter. On a total basis, including the benefit from new hotels but excluding the impact from the removal of 8 hotels with one owner, US RevPAR grew 4.9% in H1 with 5.1% in the second quarter.

Revenue increased 14% to \$457m and operating profit increased 21% to \$282m. After adjusting for the \$31m liquidated damages receipt in the managed business and excluding results from one managed lease hotel*, revenue increased 7% and operating profit increased 8%. This was driven by 6% growth in franchise royalties, and strong drop-through in the owned and leased hotels. This was partly offset by the loss of \$4m in fees relating to the 8 hotels with one owner that were removed in the first quarter, and a \$4m increase in regional overheads.

We opened 10k rooms (89 hotels) in the first half, with more than half of these rooms under the Holiday Inn brand family. We signed and opened 4k rooms on US Army bases in the first half, taking the total open under this contract to 12k rooms. Signings of 18k rooms (161 hotels) are up 39% year on year (up 8% excluding the rooms on US Army bases), and included two EVEN Hotels properties.

Europe - Resilient trading in key markets

RevPAR increased 0.4%, with 0.5% rate decline. Second quarter RevPAR increased 2.2% (with 0.3% rate growth) in part reflecting the reversal of the Easter timing impact as expected. Trading was resilient in our key markets with H1 RevPAR up 1.6% in the UK, 1.1% in Germany and 4.0% in France.

Revenue of \$206m was flat year on year and operating profit of \$53m increased 6% (reported and CER). After adjusting for a \$9m liquidated damages receipt in Europe franchised, the disposal of InterContinental London Park Lane in Q2 2013 and excluding results from managed lease hotels*, both revenue and operating profit increased 6% at CER. Strong owned and leased hotel performance was driven by 11.3% RevPAR growth at InterContinental Paris Le Grand.

We opened 2k rooms (8 hotels) in the half, including 1k rooms for the Holiday Inn brand family, a Hotel Indigo hotel in Barcelona, the first for the brand in Southern Europe and a new InterContinental in Marseille. We signed 2k rooms (15 hotels); mostly for the Holiday Inn brand family, including a third signing under the 15 hotel multiple development agreement for Holiday Inn Express in Russia.

AMEA - Good RevPAR growth across the region

RevPAR was up 6.2% (with 1.6% rate growth) and second quarter RevPAR was up 6.8% (with 2.3% rate growth). Southeast Asia and Japan reported high single digit RevPAR growth; the Middle East and Australasia both achieved mid-single digit RevPAR increases.

Revenue decreased 6% (3% CER) to \$102m and operating profit increased 3% (5% CER) to \$41m. At CER and excluding results from one managed lease hotel*, revenue decreased 6% and operating profit increased 5%. This was driven by strong RevPAR growth and lower costs in the managed business, partly offset by a \$3m negative impact from the renewal of a small number of long-standing contracts onto current commercial terms (full year impact expected to be \$6m).

We opened 2k rooms (6 hotels) in the first half, including an InterContinental hotel in Osaka, our first new build InterContinental to open in Japan for over 15 years. We signed 3k rooms (10 hotels) in H1, up over 80% year on year, including a Crowne Plaza hotel in Oman and 2k rooms for the Holiday Inn brand family including our first Holiday Inn hotel for Mauritius. In July we announced a 15 hotel multiple development agreement in Australia for Holiday Inn Express.

Greater China - Strong signings and industry outperformance

RevPAR decreased 0.1%, (with rate down 1.2%) outperforming the industry by 5.9% points. Second quarter RevPAR decreased 1.9% with a 2.0% rate decline. This reflects the adverse impact from a series of natural disasters in Western China in Q2 and the ongoing impact from the slower macroeconomic conditions.

Revenue increased 4% (4% CER) to \$112m due to 8% net rooms growth driving rooms revenue up 9% and non-rooms revenues up 3%. Operating profit was flat at \$36m (reported and CER) reflecting managed system size growth and cost control measures at InterContinental Hong Kong. This was offset by investment in regional overheads to support future growth as previously disclosed.

We opened 2k rooms (5 hotels) in H1, including a 500 room Crowne Plaza resort hotel in Xishuangbanna, the first major international hotel to open in this prime leisure market in Southwest China, and our first Hotel Indigo hotel in Hong Kong. We signed 9k rooms (30 hotels) taking the pipeline to 58k rooms and reflecting the confidence owners have in both IHG and the compelling long term growth opportunity for this region.

Interest, tax, net debt, exceptional items and accounting policy change

Interest: H1 charge of \$36m (H1 2012: \$25m) reflected the increase in gross debt year on year, following the issuance of a £400m bond in November 2012.

Tax: Based on the position at the end of the half, the tax charge has been calculated using an estimated annual tax rate of 31% (H1 2012: 29%). The full year tax rate is expected to be in the low 30s in 2013 and 2014 as previously guided.

Net debt: \$861m at the end of the half (including the \$213m finance lease on the InterContinental Boston). This is up from \$564m at 30 June 2012 as a result of the \$0.5bn special dividend paid in October 2012 and the \$243m share buyback completed to date, but down on the year end position of \$1,074m due to the \$368m net cash inflow from the disposal of the InterContinental London Park Lane.

Exceptional operating items: net exceptional credit of \$160m for the half included \$166m net gain on disposal of InterContinental London Park Lane.

Adoption of IAS 19 (Revised) 'Employee Benefits': adoption of this new accounting policy from 1 January 2013 has resulted in an additional \$5m charge to operating profit for H1 2012, as reflected in the restated 2012 half year accounts.

Revenue increased by 6.6% to \$936m and operating profit before exceptional items increased by 20.3% to \$338m during the six months ended 30 June 2013. Excluding the benefit of \$31m liquidated damages receipts in the Americas and a \$9m liquidated damages receipt in Europe in 2013, revenue and operating profit increased by \$21m (2.4%) and \$17m (6.0%) respectively when translated at constant currency and applying 2012 exchange rates.

Fee revenue increased by 3.9% during the six months ended 30 June 2013, when translated at constant currency and applying 2012 exchange rates. Group RevPAR increased by 3.7% over the same period, with average daily rate increasing by 1.9%.

Trading was solid over the first half of the year, with continued favourable supply and demand dynamics in the US, resilience in Europe and good RevPAR growth in key markets in AMEA. RevPAR in Greater China decreased by 0.1% compared to the same period in the prior year, with the region currently experiencing industry-wide challenges.

On 1 May 2013, IHG completed the disposal of its leasehold interest in the InterContinental London Park Lane for gross proceeds of \$469m. A 30 year management contract with three 10-year extension rights was secured and management fees are expected to be approximately \$6m per annum.

Operating profit has increased in all regions except Greater China, with the Group's results also benefitting from System size growth of 1.7% year-on-year to 677,966 rooms.

Profit before tax increased by \$183m from \$279m to \$462m. Adjusted earnings per ordinary share increased by 24.5% to 78.2¢.

The IHG global System (the number of hotels which are franchised, managed, owned or leased by the Group) increased in the first half of 2013 by 41 hotels (1,984 rooms) to 4,643 hotels (677,966 rooms). Openings of 108 hotels

(14,910 rooms) were driven by continued expansion of the Holiday Inn brand family, which has opened more than 7,000 rooms in the first half of the year. Almost two-thirds of these rooms were opened in the US, whilst the Holiday Inn brand family continues to grow in developing markets, with openings this year in China, Thailand and the Philippines. 30 hotels (3,794 rooms) were also opened as part of the US government's Privatization of Army Lodgings initiative. 67 hotels (12,926 rooms) were removed from the System.

At 30 June 2013, the pipeline totalled 1,098 hotels (178,759 rooms), an increase of 45 hotels (9,729 rooms) since the year-end. The IHG pipeline represents hotels and rooms where a contract has been signed and the appropriate fees paid. Almost a third of the pipeline is located in the Greater China region.

Signings of 216 hotels (31,554 rooms) for the six months ended 30 June 2013 were 64 hotels (9,450 rooms) higher than in the same period in 2012 and included 33 hotels (3,926 rooms) signed as part of the US government's Privatization of Army Lodgings. Terminations of 63 hotels (6,915 rooms) were significantly lower than the corresponding period in the prior year (124 hotels, 17,654 rooms), reflecting the quality of the Group's current pipeline, following active management of deals that were dormant or no longer viable out of the pipeline in prior periods.

RevPAR increased by 4.5% in the first half of 2013, with the US up 4.7% reflecting continued favourable supply and demand dynamics in the country. Revenue and operating profit were adversely impacted by the loss of \$4m fees on the exit of eight Holiday Inn hotels owned by FelCor Lodging Trust.

Franchised revenue increased by \$18m (6.9%) to \$278m. Royalties growth of 5.5% was driven by RevPAR growth of 3.5%, together with year-on-year System size growth of 1.5%. Fees associated with the initial franchising, relicensing and termination of hotels were \$2m higher than the same period in 2012. Operating profit increased by \$21m (9.4%)

to \$245m.

Revenue decreased by \$6m (5.6%) to \$102m and operating profit before exceptional items increased by \$1m (2.5%) to \$41m. RevPAR increased by 6.2% in the first half of the year, with strong trading in the Middle East, Southeast Asia and Japan.

This was driven by strong RevPAR growth of 5.8%, partly offset by a \$3m negative year-on-year impact from the renewal of a small number of long-standing contracts onto current commercial terms.

In the owned and leased estate, revenue and operating profit decreased by \$2m (8.7%) to \$21m and by \$1m (50.0%) to \$1m respectively.

RevPAR decreased by 0.1% in the first half of the year, outperforming the industry by 5.9 percentage points. Managed revenue and operating profit increased by \$1m (2.5%) to \$41m and by \$1m (4.5%) to \$23m respectively. CENTRAL

Net central costs decreased by \$4m (5.1%) to \$74m during the six months ended 30 June 2013.

SYSTEM FUNDS

In the six months ended 30 June 2013, System Fund income increased by \$18m (2.9%) to \$629m due to the growth in hotel room revenues and marketing programmes.

OTHER FINANCIAL INFORMATION

Exceptional Operating Items

Exceptional operating items totalled a net gain of \$160m. Exceptional gains included \$166m gain on disposal of the InterContinental London Park Lane and \$7m gain on disposal of a hotel by an associate in the Americas region. Exceptional charges included a \$10m litigation provision relating to the agreed settlement of a lawsuit filed against the Group and \$3m loyalty programme rebranding costs.

Net Financial Expenses

Net financial expenses increased by \$11m to \$36m for the six months ended 30 June 2013 reflecting the increase in gross debt year-on-year following the issuance of a 10-year £400m public bond in November 2012 with a coupon of 3.875% under the Group's Medium Term Notes programme.

Taxation

The tax charge on profit before tax, excluding the impact of exceptional items, has been calculated using an estimated effective annual tax rate of 31%. By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 33%. This rate is higher than the average UK statutory rate for the year of 23.25% due mainly to certain overseas profits (particularly in the US) being subject to statutory rates higher than the UK statutory rate, unrelieved foreign taxes and disallowable expenses.

Taxation within exceptional items totalled a charge of \$28m. This represented, primarily, tax charges arising as a consequence of the disposal of the InterContinental London Park Lane.

Net tax paid in the six months ended 30 June 2013 totalled \$45m.

Dividends

The Board has proposed an interim dividend per ordinary share of 23.0¢ (15.1p), representing growth of 9.5% on the 2012 interim dividend.

Capital Structure and Liquidity Management

During the six months ended 30 June 2013, \$226m of cash was generated from operating activities. \$114m was invested in capital expenditure and \$495m was generated from the disposal of assets, of which \$94m was invested in ring-fenced cash deposits providing security for pension obligations of the Group in the UK. After shareholder returns of \$242m including \$127m of share buybacks, net debt at 30 June 2013 was \$861m. Net debt included \$213m in respect of the finance lease obligations for the InterContinental Boston and \$35m in respect of currency swaps related to the £250m sterling bond.

On 6th August 2013, IHG announced a \$350m special dividend to be paid in the fourth quarter of 2013. The \$500m share buyback programme announced last year is almost 50% complete with 4.1m shares repurchased in the period to 31 December 2012 and a further 4.8m shares repurchased in the six months to 30 June 2013 for a total consideration

of \$243m before transaction costs.

RISKS AND UNCERTAINTIES

The principal risks and uncertainties which could materially affect the Group's business for the remainder of the financial year remain those set out on pages 42 to 44 of the IHG Annual Report and Financial Statements 2012.

In summary, the Group is exposed to risks relating to:

- political and economic developments;
- events that adversely impact domestic or international travel;
- the hotel industry supply and demand cycle;
- the dependency on a wide range of external stakeholders and business partners;
- identifying, securing and retaining franchise and management agreements;
- changing technology and systems;
- the reputation of its brands and the protection of intellectual property rights;
- the reliance upon its proprietary reservations system and is exposed to the risk of failures in the system and increased competition in reservations infrastructure;
- information security and data privacy;
- safety security and crisis management;
- requiring the right people, skills and capability to manage growth and change;
- compliance with existing and changing regulations across numerous countries, territories and jurisdictions;
- litigation;
- corporate responsibility;
- its financial stability, ability to borrow and satisfy debt covenants;
- funding in relation to the defined benefits under its pension plans; and
- difficulties insuring the business.

We have delivered a good performance in the first half, with our preferred brands driving RevPAR growth of 3.7%. Our global scale has allowed us to reinvest in the business whilst growing margins, resulting in solid underlying profit gains and strong cash flows.

We continue to strengthen our foundation for future growth, signing more than 200 hotels into our pipeline, a notable increase on this time last year and reflecting our owners' confidence in both IHG and the industry demand drivers.

Our high quality pipeline, broad geographic spread and fee based model give us confidence in the outlook, despite the on-going challenging economic conditions in some of our markets. Forward indicators are positive with overall booking pace up on last year, with increases in both demand and rate. The travel industry continues to benefit from good long term growth trends and we are well positioned to capture this. Within this, the Eurozone continues to see limited economic growth however the Group is not significantly exposed to this region. In Greater China trading remains challenging at present but we would expect some improvement as the year progresses. Overall, our high quality pipeline, broad geographic spread and fee based model give us confidence in the outlook, despite the on-going economic challenges in some of our markets.

Consistent with our long track record of creating value for shareholders, we today announce a \$350m special dividend. In addition we are increasing the interim dividend by 10% reflecting our good first half results and the confidence we have in the future prospects of the business.

GOING CONCERN

An overview of the business activities of IHG, including a review of the key business risks that the Group faces is given in this Interim Management Report. Information on the Group's treasury management policies can be found in note 21 to the Group Financial Statements in the IHG Annual Report and Financial Statements 2012. The Group refinanced its bank debt in November 2011 putting in place a five-year \$1.07bn syndicated bank facility which matures in November 2016. This facility was undrawn at 30 June 2013. In November 2012, the Group issued a 10-year £400m public bond under its Medium Term Notes programme. The £250m seven-year public bond issued under the programme in December 2009 remains outstanding. At the end of June 2013, the Group was trading significantly within its banking covenants and debt facilities.

The Group's fee-based model and wide geographic spread means that it is well placed to manage through uncertain times and our forecasts and sensitivity projections, based on a range of reasonably possible changes in trading performance and taking into account the risks and uncertainties outlined in this Interim Management Report, show that the Group should be able to operate within the level of its current facilities.

After making enquiries, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future and, accordingly, they continue to adopt the going concern basis in preparing the Financial Statements.

DIRECTORS' RESPONSIBILITY STATEMENT

The Directors confirm that to the best of their knowledge:

- The condensed set of Financial Statements has been prepared in accordance with IAS 34;
- The Interim Management Report includes a fair review of the important events during the first six months and a description of the principal risks and uncertainties for the remaining six months of the year, as required by DTR 4.2.7R; and
- The Interim Management Report includes a fair review of related party transactions and changes therein, as required by DTR 4.2.8R.
