Employees' Stock Purchase Plan of Universal Leaf Tobacco Company, Incorporated

and Designated Affiliated Companies

We have audited the accompanying statements of net assets available for benefits of the Employees' Stock Purchase Plan of Universal Leaf Tobacco Company, Incorporated and Designated Affiliated Companies (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2004 and 2003, and the change in its net assets available for benefits for the year ended December 31, 2004, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2004, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

1. Description of the Plan

A complete description of the Employees Stock Purchase Plan of Universal Leaf Tobacco Company, Incorporated and Designated Affiliated Companies (the Plan) provisions including those relating to vesting, withdrawals and distributions is contained in the Summary Plan Description and the Plan document which has been filed with the Securities and Exchange Commission. Copies of these documents and the prospectus relating to the Plan are available from the Universal Corporation Benefits Department. The following summary should be read in conjunction with the aforementioned documents.

General

The Plan is a defined contribution plan sponsored by Universal Leaf Tobacco Company, Incorporated (the Sponsor) for the benefit of certain salaried employees of the sponsor and designated affiliated companies (Employers). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Assets held by the Plan are invested in the Universal Corporation Common Stock Fund, the LandAmerica Financial Group, Inc. Common Stock Fund, and the Fixed Income Fund.

Contributions

After one year of service and attaining age 21, employees may elect to contribute 1% to 5% of their total pay (including overtime and bonuses) by means of monthly payroll deductions. Employers match 100% of employee contributions except to the extent that the employer contribution is reduced by forfeitures from nonvested withdrawing participants.

Employees may elect to invest in the Universal Corporation Common Stock Fund, the Fixed Income Fund, or to divide their contributions equally between the two funds. Employers' contributions are invested only in the Universal Corporation Common Stock Fund.

2. Summary of Significant Accounting Policies

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are held by Bank of New York in a trust fund. Investments in the Common Stock Funds are carried at market value based upon quotations from the New York Stock Exchange. Dividends are recorded on the ex-dividend date, and interest is accrued as earned.

The Fixed Income Fund is primarily invested in the Stable Value Fund I, a pooled fund of investment contracts managed by Wachovia Asset Management. The investment contracts are valued at contract value, which approximates market value. The rate of return of the fund is based on the crediting rate of the underlying guaranteed investment contracts. These contracts generally provide for a fixed rate of return over the term of the contract. During 2004, the average yield for the fund was 3.62% (4.16% in 2003), and at December 31, 2004, the crediting rate was 2.84% (2.75% at December 31, 2003). The crediting rate is adjusted daily based on the underlying guaranteed investment contracts.

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from

those estimates.
