Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- .. Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
  - .. Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
  - .. Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
  - .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**INFORMATION TO BE INCLUDED IN THIS REPORT**

**Section 2 FINANCIAL INFORMATION**

**Item 2.02 Results of Operations and Financial Condition.**

On July 25, 2005, Crane Co. announced its results of operations for the quarter ended June 30, 2005. A copy of the related press release and quarterly financial data supplement are being furnished as Exhibits 99.1 and 99.2 to this Form 8-K.

The information furnished under Item 2.02 of this Current Report on Form 8-K, including Exhibits 99.1 and 99.2, is not deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.

**SECTION 8 OTHER EVENTS**

**ITEM 8.01 Other Events**

1) On July 25, 2005, Crane Co. announced a 25% increase in its annual dividend to \$.50 from \$.40 per share, paid quarterly. A copy of the related press release is being furnished as Exhibit 99.3 to this Form 8-K.

2) On July 22, 2005 Crane Co. entered into an agreement to settle its insurance coverage claims for asbestos and other liabilities against underwriters at Lloyd's of London reinsured by Equitas Limited for a total payment of \$33 million. Crane Co.'s settlement resolves all its claims against pre-1993 policies issued to Crane Co. by certain underwriters at Lloyd's of London and reinsured by Equitas. Through this settlement, Crane Co. has resolved all its asbestos insurance coverage issues with a significant insurer in its historical liability insurance program. Negotiations are ongoing with Crane Co.'s other liability insurers. A copy of the related press release is being furnished as Exhibit 99.4 to this Form 8-K.

3) The following information is provided in order to update the discussion in the Company's previously filed reports with respect to its asbestos liability.

**Asbestos Liability**

**Information Regarding Claims and Costs**

## Edgar Filing: CRANE CO /DE/ - Form 8-K

As of June 30, 2005, the Company was a defendant in cases filed in various state and federal courts alleging injury or death as a result of exposure to asbestos. Activity related to asbestos claims during the periods indicated was as follows:

	Three Months		Six Months		Year Ended
	Ended June 30,		Ended June 30,		December 31,
	2005	2004	2005	2004	2004
Beginning claims	86,923	71,881	84,977	68,606	68,606
New claims	2,285	4,022	5,092	7,791	18,932
Settlements	(326)	(252)	(739)	(489)	(1,038)
Dismissals	(319)	(223)	(767)	(480)	(1,523)
Ending claims *	88,563	75,428	88,563	75,428	84,977

---

\* Does not include 36,143 maritime actions that were filed in the United States District Court for the Northern District of Ohio and transferred to the Eastern District of Pennsylvania pursuant to an order by the Federal Judicial Panel on Multi-District Litigation ( MDL ). These claims have been placed on the inactive docket of cases that are administratively dismissed without prejudice in the MDL.

Of the 88,563 pending claims as of June 30, 2005, approximately 25,000 claims were pending in New York, approximately 33,000 claims were pending in Mississippi, and approximately 4,000 claims were pending in Ohio, jurisdictions in which recent legislation or judicial orders restrict the types of claims that can proceed to trial on the merits.

Since the termination of the comprehensive master settlement agreement on January 24, 2005 the Company has been resolving claims filed against it in the tort system. The Company has not reengaged in discussions with representatives of current or future asbestos claimants with respect to such a comprehensive settlement. While the Company believes that federal legislation to establish a trust fund to compensate asbestos claimants is the most appropriate solution to the asbestos litigation problem, there is substantial uncertainty regarding whether this will occur and, if so, when and on what terms. The Company remains committed to exploring all feasible alternatives available to resolve its asbestos liability in a manner consistent with the best interests of the Company's shareholders.

The gross settlement and defense costs incurred (before insurance and tax effects) for the Company in the six-month periods ended June 30, 2005 and 2004 totaled \$19.9 million and \$20.9 million, respectively. In contrast to the recognition of settlement and defense costs that reflect the current level of activity in the tort system, cash payments and receipts generally lag the tort system activity by several months or more. Cash payments of settlement amounts are not made until all releases and other required documentation are received by the Company, and payments of both settlement amounts and defense costs by insurers are subject to delays due to documentation requirements and the status of the Company's agreements with its insurers. In addition, the timing and amount of such reimbursements will vary because the Company's insurance coverage for asbestos claims involves multiple insurers, with different policy terms and certain gaps in coverage. The Company's total pre-tax cash payments for settlement and defense costs net of payments from insurers in the six-month periods ended June 30, 2005 and 2004 amounted to \$15.1 million and \$10.0 million, respectively. Detailed below are the comparable amounts for the periods indicated.

	Three Months		Six Months		Year Ended	Cumulative
	Ended June 30,		Ended June 30,		December 31,	to date through
	2005	2004	2005	2004	2004	June 30, 2005
<b>(In millions)</b>						
Settlement costs incurred(1)	\$ 5.1	\$ 4.9	\$ 8.1	\$ 9.0	\$ 17.2	\$ 46.9
Defense costs incurred(1)	7.6	6.4	11.8	11.9	23.7	57.8
<b>Total costs incurred</b>	<b>\$ 12.7</b>	<b>\$ 11.3</b>	<b>\$ 19.9</b>	<b>\$ 20.9</b>	<b>\$ 40.9</b>	<b>\$ 104.7</b>
Pre-tax cash payments(2) (3)	\$ 7.9	\$ 4.6	\$ 15.1	\$ 10.0	\$ 20.2	\$ 46.9

(1) Before insurance recoveries and tax effects.

(2) Net of payments received from insurers. Amounts include advance payments to third parties that are reimbursable by insurers.

(3) Does not include a \$9.9 million refund received in the first quarter of 2005 or \$4.2 million of legal fees and other expenses paid by the Company in the six months ended June 30, 2005 relating to the terminated comprehensive asbestos settlement, as previously disclosed.

The amounts shown for settlement and defense costs incurred, and cash payments, are not necessarily indicative of future period amounts, which may be higher or lower than those reported.

Cash payments related to asbestos settlement and defense costs, and certain related fees and expenses, are estimated to be in the range of \$40 million to \$60 million during 2005, which will be offset by tax benefits of 35% and insurance recoveries. This estimate is reduced from the previous estimate of \$50 million to \$70 million, taking into account net cash payments through the first six months of 2005, but it is not necessarily indicative of cash requirements for asbestos costs in future periods. In 2005, the Company does not expect significant reimbursements from insurers as the Company's cost sharing agreement with primary insurers has been essentially exhausted. The Company is negotiating terms of payment under its excess insurance policies, which provide substantial insurance coverage for asbestos liabilities. On July 22, 2005 the Company entered into an agreement to settle its insurance coverage claims for asbestos and other liabilities against underwriters at Lloyd's of London reinsured by Equitas Limited for a total payment of \$33 million. Under the agreement, \$1.5 million will be paid to the Company in the third quarter of this year. The balance will be placed into escrow for the payment of future asbestos claims and funds remaining in escrow will be paid to the Company on January 3, 2007 if no federal asbestos legislation is enacted by that date. If federal asbestos reform is enacted before January 3, 2007, the money then remaining in escrow would be paid to Equitas, subject to a payment of \$1.5 million to the Company and a hold-back of certain funds in escrow for the payment of asbestos claims during the year following enactment of asbestos legislation. The Company's settlement with Equitas resolves all its claims against pre-1993 policies issued to the Company by certain underwriters at Lloyd's of London and reinsured by Equitas. The Company anticipates that one or more agreements with other excess insurers may be executed in 2005, and the Company believes that the payment terms of such agreements will be consistent with the overall estimated reimbursement rate of 40% as described above.

#### Effects on the Consolidated Financial Statements

The Company has retained the firm of Hamilton, Rabinovitz & Alschuler, Inc. ( "HR&A" ), a nationally recognized expert in the field, to assist management in estimating the Company's asbestos liability in the tort system. HR&A reviewed information provided by the Company concerning claims filed, settled and dismissed, amounts paid in settlements and relevant claim information such as the nature of the asbestos-related disease asserted by the claimant, the jurisdiction where filed and the time lag from filing to disposition of the claim. The methodology used by HR&A to project future asbestos costs was based largely on the Company's experience during 2003 and 2004 for claims filed, settled and dismissed. The Company's experience was compared to the results of previously conducted epidemiological studies estimating the number of people likely to develop asbestos-related diseases. Those studies were undertaken in connection with national analyses of the population of workers believed to have been exposed to asbestos. Using that information, HR&A estimated the number of future claims that would be filed, as well as the related settlement or indemnity costs that would be incurred to resolve those claims. This methodology has been accepted by numerous courts and is the same methodology that is utilized by the expert who is routinely retained by the asbestos claimants committee in asbestos-related bankruptcies. After discussions with the Company, HR&A assumed that costs of defending asbestos claims in the tort system would increase to \$35 million in 2005 and remain at that level (with increases of 4% per year for inflation) indexed to the number of estimated pending claims in future years. Based on this information, HR&A compiled an estimate of the Company's asbestos liability for pending and future claims, based on claim experience over the past two years and covering claims expected to be filed through the year 2011. Although the methodology used by HR&A will also show claims and costs for

periods subsequent to 2011 (up to and including the endpoint of the asbestos studies referred to above), management believes that the level of uncertainty is too great to provide for reasonable estimation of the number of future claims, the nature of such claims or the cost to resolve them for years beyond 2011, particularly given the possibility of federal legislation within that time frame. While it is reasonably possible that the Company will incur additional charges for asbestos liabilities and defense costs in excess of the amounts currently provided, the Company does not believe that any such amount can be reasonably estimated beyond 2011. Accordingly, no accrual has been recorded for any costs which may be incurred beyond 2011.

Management has made its best estimate of the costs through 2011 based on the analysis by HR&A completed in January 2005. The Company compared the current asbestos claim activity as of June 30, 2005 to the assumptions in the HR&A analysis and determined that the accrual continues to be appropriate. A liability of \$623.5 million has been recorded to cover the estimated cost of asbestos claims now pending or subsequently asserted through 2011, of which approximately 56% is attributable to settlement and defense costs for future claims projected to be filed through 2011. The liability is reduced when cash payments are made in respect of settled claims and defense costs. It is not possible to forecast when cash payments related to the asbestos liability will be fully expended; however, it is expected such cash payments will continue for many years, due to the significant proportion of future claims included in the estimated asbestos liability. An asset of \$250.2 million (\$12 million current, \$238.2 million long-term) has been recorded representing the probable insurance reimbursement for such claims using a rate of 40% determined as described below.

A significant portion of the Company's settlement and defense costs have been paid by its primary insurers and one umbrella insurer up to the agreed available limits of the applicable policies. The Company has substantial excess coverage policies that are also expected to respond to asbestos claims as settlements and other payments exhaust the underlying policies. The same factors that affect developing estimates of probable settlement and defense costs for asbestos-related liabilities also affect estimates of the probable insurance payment, as do a number of additional factors. These additional factors include the financial viability of the insurance companies, the method in which losses will be allocated to the various insurance policies and the years covered by those policies, how settlement and defense costs will be covered by the insurance policies and interpretation of the effect on coverage of various policy terms and limits and their interrelationships. In addition to consulting with legal counsel on these insurance matters, the Company retained insurance consultants to assist management in the estimation of probable insurance recoveries based upon the aggregate liability estimate described above and assuming the continued viability of all solvent insurance carriers. After considering the foregoing factors and consulting with legal counsel and such insurance consultants, the Company determined its probable insurance reimbursement rate to be 40%. This insurance receivable is included in other assets.

Estimation of the Company's ultimate exposure for asbestos-related claims is subject to significant uncertainties, as there are multiple variables that can affect the timing, severity and quantity of claims. The Company cautions that its estimated liability is based on assumptions with respect to future claims, settlement and defense costs based on recent experience during the last few years that may not prove reliable as predictors. A significant upward or downward trend in the number of claims filed, depending on the nature of the alleged injury, the jurisdiction where filed and the quality of the product identification, or a significant upward or downward trend in the costs of defending claims, could change the estimated liability, as would any substantial adverse verdict at trial. A legislative solution or a revised structured settlement transaction could also change the estimated liability.

Since many uncertainties exist surrounding asbestos litigation, the Company will continue to evaluate its estimated asbestos-related liability and corresponding estimated insurance reimbursement as well as

the underlying assumptions and process used to derive these amounts. These uncertainties may result in the Company incurring future charges or increases to income to adjust the carrying value of recorded liabilities and assets, particularly if escalation in the number of claims and settlement and defense costs continues or if legislation or another alternative solution is implemented; however, the Company is currently unable to estimate such future changes. Although the resolution of these claims may take many years, the effect on results of operations and financial position in any given period from a revision to these estimates could be material.

#### Certain Legal Proceedings

On January 21, 2005, five of the Company's insurers within two corporate insurer groups filed suit in Connecticut state court seeking injunctive relief against the Company and declaratory relief against the Company and dozens of the Company's other insurers. The suit also sought temporary and permanent injunctive relief restraining the Company from participating in any further settlement discussions with representatives of asbestos plaintiffs or agreeing to any settlement unless the Company permitted the plaintiff insurers to both participate in such discussions and have a meaningful opportunity to consider whether to consent to any proposed settlement, or unless the Company elected to waive coverage under the insurers' policies. The plaintiffs also sought expedited discovery on, among other things, the Company's proposed global settlement. At a hearing on February 22, 2005, the Company (i) contested the application for temporary injunctive relief and expedited discovery, (ii) moved to dismiss the count of the Complaint seeking injunctive relief on the grounds that the count was moot insofar as it addressed the proposed global settlement terminated on January 24, 2005 and not appropriate for determination insofar as it sought relief regarding any future negotiations with representatives of asbestos claimants, and (iii) moved to dismiss counts of the Complaint seeking declaratory relief with respect to the proposed global settlement as moot. At the hearing, the Court denied the plaintiff insurers' application for temporary injunctive relief and expedited discovery. In denying temporary injunctive relief, the Court stated that the plaintiffs could not show irreparable injury and that the plaintiff insurers would have an adequate remedy at law. In light of the Court's ruling and the Company's motions to dismiss, the insurer plaintiffs sought and received leave to amend their Complaint to remove certain declaratory relief counts and to remove or restate the remaining allegations.

On April 8, 2005, the insurer plaintiffs filed an Amended Complaint raising five counts against the Company. The Amended Complaint seeks: (i) declaratory relief regarding the Company's rights to coverage, if any, under the policies; (ii) declaratory relief regarding the Company's alleged breaches of the policies in connection with an alleged increase in asbestos claim counts; (iii) a declaration of no coverage in connection with allegedly time-barred claims; (iv) declaratory relief against the Company and the other insurer defendants for allocation of damages that may be covered under the insurance policies; and (v) preliminary and permanent injunctive relief. On April 18, 2005, the Company moved to dismiss the claims for injunctive relief on the grounds that the Court had no jurisdiction to consider the claims because they were speculative and unripe. The Company believes it has meritorious defenses to the Amended Complaint and intends to defend this matter vigorously.
