PROXY STATEMENT

Annual Meeting Of Stockholders to be held August 9, 2006

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Why Did You Send Me this Proxy Statement?

We sent you this proxy statement and the enclosed proxy card because our board of directors is soliciting your proxy to vote at the 2006 annual meeting of stockholders. This proxy statement summarizes the information you need to know to cast a vote at the annual meeting. However, you do not need to attend the annual meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card.

Who is Entitled to Vote?

We will begin sending this proxy statement, the attached notice of annual meeting and the enclosed proxy card on or about July 14, 2006, to all stockholders entitled to vote. Stockholders of record of Keystone common stock at the close of business on June 23, 2006, are entitled to vote. On this record date, there were 16,321,668 shares of Keystone common stock, no par value, outstanding. Keystone's common stock is our only class of voting stock. We are also authorized to issue up to 3,000,000 shares of preferred stock, no par value, and no shares are presently issued and outstanding. We are also sending along with this proxy statement Keystone's 2006 Annual Report, which includes our financial statements.

What Constitutes a Quorum?

The holders of a majority of the outstanding shares of Keystone's common stock entitled to vote at the meeting must be present, in person or by proxy, in order to constitute a quorum. We can conduct the business of the meeting only if a quorum has been established. We will include proxies marked as abstentions and broker non-votes in determining the number of shares present at the meeting.

How Many Votes Do I Have?

Each share of Keystone common stock that you own entitles you to cast one vote. The proxy card indicates the number of shares of Keystone common stock that you own as of the record date.

How Do I Vote By Proxy?

Whether you plan to attend the annual meeting or not, we urge you to complete, sign and date the enclosed proxy card and to return it promptly in the postage-prepaid envelope provided. Returning the proxy card will not affect your right to attend the annual meeting and vote.

If you properly fill in your proxy card and send it to us in time to vote, your proxy (*one of the individuals named on your proxy card*) will vote your shares as you have directed. If you sign the proxy card but do not make specific choices, your proxy will vote your shares as recommended by the board of directors as follows:

FOR the election of all seven nominees for director (see page 9)

Edgar Filing: KEYSTONE AUTOMOTIVE INDUSTRIES INC - Form DEF 14A

FOR ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2007 (see page 24)

If any other matter is presented, your proxy will vote in accordance with the recommendation of the board of directors or, if no recommendation is given, in his or her own discretion. At the time this proxy statement went to press, we knew of no matter which needed to be acted on at the annual meeting, other than the election of directors and the ratification of the appointment of Ernst & Young LLP.

May I Change My Vote After I Return My Proxy?

Yes. If you give a proxy, you may change your vote at any time before it is exercised. You may change your vote in any one of three ways:

You may send our Corporate Secretary another proxy with a later date.

You may notify our Corporate Secretary in writing before the annual meeting that you have revoked your proxy.

You may attend the annual meeting and vote in person.

How Do I Vote in Person?

If you plan to attend the annual meeting and vote in person, we will give you a ballot form when you arrive. However, if your shares are held in the name of your broker, bank or other nominee, you must bring the proxy card, an account statement or a letter from the nominee indicating that you were the beneficial owner of the shares on June 23, 2006, the record date for voting, and a written instruction from the nominee authorizing you to vote the shares.

What Vote is Required to Approve Each Proposal?

Proposal 1:

Elect seven Directors

The seven nominees for director who receive the most votes will be elected. So, if you do not vote for a particular nominee, or you indicate **WITHHOLD AUTHORITY** to vote for a particular nominee on your proxy card, your vote will not count either for or against the nominee.

Proposal 2:

Ratification of Ernst & Young LLP

The affirmative vote of a majority of the shares of Common Stock represented and voted at the annual meeting is required to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending on March 30, 2007.

The Effect of Broker Non-Votes and Abstentions

Abstentions and broker non-votes will be treated as shares present for the purpose of determining the presence of a quorum for the transaction of business at the meeting. Proposal No. 2 requires the approval of the affirmative vote of a majority of the shares of common stock present or represented by proxy and voting at the meeting. Abstentions and broker non-votes can have the effect of preventing approval of a proposal where the number of affirmative votes, though a majority of the votes cast, does not constitute a majority of the shares present or represented by proxy.

What are the Costs of Soliciting these Proxies?

We will pay all the costs of soliciting these proxies. In addition to mailing proxy soliciting material, our directors, officers and employees also may solicit proxies in person, by telephone or by other electronic means of communications for which they will receive no compensation. We will ask banks, brokers and other institutions, nominees and fiduciaries to forward the proxy material to their principals and to obtain authority to execute proxies. We will then reimburse them for their reasonable expenses. In addition, we may pay for and use the services of individuals or companies that we do not regularly employ in connection with the solicitation of proxies if the board of directors determines this is advisable.

How Do I Obtain an Annual Report on Form 10-K?

If you would like a copy of our Annual Report on Form 10-K for the year ended March 31, 2006, that we filed with the Securities and Exchange Commission, we will send you one without charge. Please write to:

INFORMATION ABOUT DIRECTORS AND EXECUTIVE OFFICERS

The Board of Directors

The Board of Directors oversees the business and affairs of Keystone and monitors the performance of management. In accordance with established Company corporate governance principles, the Board does not involve itself in day-to-day operations.

The Board met nine times during fiscal 2006. Each director attended at least 75% of the total number of board meetings and committee meetings of which the director was a member held in fiscal 2006.

How Do We Compensate Directors?

Effective November 1, 2005, Board members, except for Richard L. Keister, the President and Chief Executive Officer of the Company, receive an annual retainer with a value of \$72,000, with \$36,000 being paid quarterly in cash and an annual grant of restricted stock with a fair market value of \$36,000 based upon the closing price of the Company's Common Stock on the date of the annual stockholders meeting. The restrictions on transfer of the shares lapse on the day prior to the next annual meeting of stockholders. In addition, Ronald G. Foster is paid \$85,000 per year for services rendered as Chairman of the Board. Directors are also reimbursed for all reasonable and documented expenses incurred as Board members.

In addition to the above, the Chairman of each of the Audit, Compensation and Nominating Committees receives an annual retainer of \$10,000, \$7,500 and \$6,500, respectively. Members of each of the Committees receive \$1,250 for each Committee meeting attended.

Compensation Committee Interlocks and Insider Participation

The members of the Compensation Committee for fiscal 2006 were Keith M. Thompson, Timothy C. McQuay and John R. Moore and, except as follows, no member of this committee was at any time during fiscal 2006 or at any other time an officer or employee of the Company. Mr. Thompson was an employee of the Company from June 1998 through November 1998. No interlocking relationship exists between Keystone's executive officers, members of the board of directors or compensation committee and any executive officer or member of the board of directors or compensation committee of any other company.

Certain Relationships and Related Transactions

In March 1999, the Company acquired substantially all of the assets of Midwest Bumper Company and related entities (Midwest) from Carl Martin and Carl Hartman, currently a Vice President of the Company. In connection with the acquisition, the Company entered into five-year leases with Mr. Martin, his family or an affiliated entity, on seven properties used by Midwest in its operations. The leases each had an option to extend for an additional five-year term. In addition, the Company entered into a five-year lease with Mr. Hartman for a property also used in Midwest's operations. Mr. Hartman was elected a Vice President of the Company in May 2001.

When these leases were nearing the expiration of the original term, management began negotiations with Mr. Martin and Mr. Hartman concerning extending the terms for an additional five years. Extension agreements were reached in March 2004. Because Mr. Hartman is paid six percent of base rents for managing each of the properties, the extension agreements were subject to approval as to their terms by the Company's audit committee and review of the leases by legal counsel. The leases with Mr. Martin, his family and an affiliated entity provide for aggregate base rents over the five-year term of \$2,180,643 and the aggregate base rent over the five-year term for the property being leased from Mr. Hartman is \$65,353. In addition, all the leases provide for reimbursement to the landlord for certain operating expenses.

After reviewing the terms of the leases and the rental market in the Grand Rapids, Michigan area, in May 2004, the Audit Committee concluded that the lease terms were fair, were no less favorable than could have been obtained from an unaffiliated party in an arms-length transaction and that entering into the leases was in the best interests of the stockholders. Leases on each of the properties were entered into effective June 1, 2004 with a five-year renewal option.

In connection with the acquisition of substantially all of the assets of Veng USA LLC (Veng) in October 2005 from an entity beneficially owned by Scott T. Edwards, the Company assumed a lease on Veng's principal offices in Seekonk, Massachusetts, which was revised to a month-to-month gross lease and a lease on Veng's location in Sutton, Massachusetts. The lessor in both leases was an entity beneficially owned by Mr. Edwards. The monthly rental on the Seekonk property is \$22,083 and the triple-net lease on the Sutton property expires on September 30, 2010 with monthly rent of \$10,000 through the end of September 2007 and \$10,500 until the lease expires. Mr. Edwards was elected a Vice President of the Company effective October 31, 2005.

Employee Defined Benefit Pension Plan

General. The Board of Directors adopted the Employee Defined Benefit Pension Plan (the Pension Plan), originally effective as of April 1, 1978, for the benefit of the eligible employees of the Company. Since the implementation of the Pension Plan, the Company has amended the Pension Plan from time to time. The primary

purpose of the Pension Plan was to provide a retirement benefit for participating employees who continue in the employ of the Company until their retirement. Effective April 30, 1997, the Pension Plan was suspended with no further benefits to accrue on behalf of any participant or beneficiary and no further contributions, except as may be required by law, to be made. It is anticipated that the Pension Plan will be terminated and that the termination will not have a material adverse impact on the financial condition of the Company upon that event. The Pension Plan has been replaced with the 401(k) Savings Plan described below.

Estimated Monthly Benefits. The following table sets forth the estimated monthly benefit under the Pension Plan based on the current benefit structure.

The compensation covered by the Pension Plan includes basic salary or wages, overtime payments, bonuses, commissions and all other direct current compensation, but does not include contributions by the Company to Social Security, benefits from stock options (whether qualified or not), contributions to this or any other retirement plans or programs, or the value of any other fringe benefits provided at the expense of the Company. For benefit calculation purposes, a highest-five-year average of compensation is used. Benefits are paid as straight-life annuities with no subsidies or offsets. The compensation covered by the Pension Plan for all of the Named Executive Officers was limited to \$150,000 in April 1997 when the Pension Plan was suspended, in accordance with Section 401(a)(17) of the Internal Revenue Code of 1986, as amended.

401(k) Savings Plan

Effective April 1, 1997, the Section 401(k) Savings Plan (the Savings Plan) in effect at North Star Plating Company (acquired by the Company in March 1997) was amended to make the Savings Plan available to employees of the Company. Pursuant to the amendment, the Company became the Savings Plan sponsor and North Star became an adopting employer. All employees of the Company as of April 1, 1997, became participants in the Savings Plan and the amendment had no affect upon those persons who were employed at North Star on April 1, 1997. Persons becoming employees of the Company subsequent to April 1, 1997 are not eligible to participate until they complete one year of service and are at least 21 years of age.

Under the terms of the Savings Plan, participants can contribute, by way of payroll deductions, up to 50% of their pre-tax compensation annually, subject to certain legal limitations. The Savings Plan also provides for a matching contribution by the Company equal to 50% of the first 6% of a participant's contribution. For purposes of determining the amount of contributions and matching contributions to be allocated to a participant's account, compensation is defined as the annual income amount reportable by the Company for federal income tax purposes, including overtime, commissions and bonuses but excluding stock compensation, moving allowances and non-cash fringe benefits.

A participant is always 100% vested in his own Savings Plan contributions. A participant becomes 100% vested in the matching contributions allocated to his account upon the earliest to occur of four years of service, normal retirement age (age 65), disability while employed by the Company, death while employed by the Company or the termination or complete discontinuance of contributions to the Savings Plan.

If a participant terminates employment with the Company for any other reason, a participant vests 25% in his benefits after one year of service, and 25% each year thereafter, with 100% vesting after four or more years of service.

CORPORATE GOVERNANCE PRINCIPLES AND BOARD MATTERS

The Company is committed to having sound corporate governance principles, which it believes is important in operating its business and maintaining its reputation in the marketplace.

Board Independence

The Board has determined that each of the directors currently on the Board is independent under the listing standards of the NASDAQ stock market, except for Ronald G. Foster, the Chairman of the Board and Richard L. Keister, the President and Chief Executive Officer. Furthermore, each member of its Audit, Compensation and Nominating Committees is independent under applicable NASDAQ listing standards. Following this meeting, it is anticipated that all members of these Committees will be independent under applicable NASDAQ listing standards.

Board Structure and Committee Composition

As of the date of this proxy statement, the Company's Board has seven directors and has the following three standing committees: (1) Audit, (2) Compensation and (3) Nominating. The membership during the last year and the function of each of the committees are described below. Each of the committees operates under a written charter adopted by the Board. Each of these committee charters is available on the Company's website at <http://www.keystone-auto.com>.

The Audit Committee

Directors McQuay, Gerrity and Rhodes currently serve as members of the audit committee. The audit committee met eight times during fiscal 2006.

The Board adopted and approved an amended and restated charter for the audit committee in May 2004, replacing the charter adopted in May 2000. The Board has determined that all members of the Audit Committee are independent as that term is defined in Rule 4200 of the NASDAQ listing standards and Rule 10A-3 (c) of the Securities Exchange Act, as amended. The Board has also determined that Mr. McQuay is an audit committee financial expert as defined by the SEC.

The Audit Committee, among other duties:

appoints and retains, evaluates performance and, when appropriate, terminates the outside auditors;

approves in advance all audit and permissible non-audit services to be provided by the outside auditors;

reviews and discusses with outside auditors the scope of the audit, the results of the annual audit examination and any difficulties or issues the auditors encountered in the course of their work;

discusses with management and the outside auditors the adequacy and effectiveness of the Company's internal financial and accounting controls and disclosure controls;

reviews and discusses with management and the outside auditors the annual audited and quarterly financial statements, including such reports to any governmental or regulatory body;

prepares the report of the Audit Committee to be included in the Company's annual meeting proxy statement; annually reviews the Audit Committee charter and evaluates the committee's performance;

reviews conflicts of interest and related party transactions; and

oversees the internal audit function.

The Compensation Committee

Directors Thompson, McQuay and Moore currently serve as members of the compensation committee. The compensation committee met five times during fiscal 2006.

In May 2004, the Board adopted a written charter for the Compensation Committee. Under this charter, the Compensation Committee among other duties:

administers and makes recommendations to the Board with respect to the Company's incentive compensation and equity-based plans for executive officers;

reviews and approves the Company's corporate goals and objectives relevant to the CEO's compensation, evaluates the CEO's performance in light of those goals and objectives, and based on this evaluation, recommends the CEO's compensation level to the Board;

evaluates the performance of executive officers other than the CEO and considers and authorizes or makes recommendations to the Board concerning compensation arrangements for executive officers;

reviews and recommends employment agreements and severance agreements for senior management;

annually evaluates its performance, and reviews and assesses the adequacy of its charter; and

prepares the report of the Compensation Committee to be included in the Company's annual meeting proxy statement.

The Nominating Committee

Directors Gerrity, McQuay and Thompson currently serve as members of the Nominating Committee. The Nominating Committee met two times in fiscal 2006. It considers, and proposes to the full Board, director nominees for election at each annual meeting; selects candidates to propose to fill Board vacancies as they may occur; has oversight with respect to the evaluation of the performance of the Board; and performs any other functions or duties deemed appropriate by the Board.

The Nominating Committee will accept for consideration stockholders' nominations for directors if made in writing. The nominee's written consent to the nomination and sufficient background information on the candidate must be included to enable the Committee to make proper judgments as to his or her qualifications. Nominations must be addressed to the Secretary of the Company at the Company's headquarters and must be received no later than May 11, 2007 in order to be considered for the next annual election of directors.

Consideration of Director Nominees

Stockholder Nominees

It is the policy of the Nominating Committee to consider properly submitted stockholder nominations for candidates for membership on the Board as described below under "Identifying and Evaluating Nominees for Directors." In evaluating such nominations, like all nominations, the Board's criteria will include business experience and skills, academic expertise, independence, integrity, experience as a board member of another publicly held company, the absence of potential conflicts with the Company's interests and the candidate's general understanding of marketing, finance and other elements relevant to the success of a publicly-traded company in today's business environment. Any stockholder nominations proposed for consideration by the Nominating Committee should include the nominee's name and qualifications for Board membership and should be addressed to the Nominating Committee c/o Corporate Secretary, Keystone Automotive Industries, Inc., 700 E. Bonita Avenue, Pomona, California 91767.

In addition, the bylaws of the Company permit stockholders, under certain circumstances, to nominate directors for consideration at an annual meeting of the stockholders. Under the Company's bylaws, nominations for election of directors may be made by the Board or by any stockholder entitled to vote in the election of directors; provided that no stockholder may nominate a person for election as a director unless written notice of such nomination is presented to the Company not later than 90 days prior to the day and month on which, in the

immediately preceding year, the annual meeting was held. Nominations for the 2007 Annual Meeting must be received on or before May 11, 2007. If no such nominations are received by that date, no other nominees for election as director will be considered at that Meeting except for nominations made by the Board in the event one or more of the nominees named in the proxy statement should unexpectedly be unavailable.

Identifying and Evaluating Nominees for Directors

The Committee will utilize a variety of methods for identifying and evaluating nominees for director. The Nominating Committee's policy is to assess the appropriate size of the Board, and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating Committee will consider various potential candidates for director. Candidates may come to the attention of the Nominating Committee through current Board members, stockholders or other persons. These candidates will be evaluated at regular or special meetings of the Nominating Committee and may be considered at any point during the year. As described above, the Nominating Committee will consider properly submitted stockholder nominations for candidates for the Board. Following verification of the stockholder status of persons proposing candidates, recommendations will be aggregated and considered by the Nominating Committee at a regularly scheduled meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials will be forwarded to the Nominating Committee.

Lead Independent Director and Executive Sessions

In July 2004, the Board created a new position of lead independent director, whose responsibilities include presiding over and setting the agenda for executive sessions of the independent directors, in which management directors and other members of management do not participate. These executive sessions of the independent directors will take place at least four times a year. The lead independent director also consults with the Chairman of the Board and the Chief Executive Officer of the Company with respect to agendas, scheduling and information needs relating to Board and committee meetings, and acts as a liaison between the independent directors and management. The independent members of the Board of Directors have decided to rotate the position of lead independent director among the independent directors on the Board. Mr. Gerrity is currently the lead independent director to serve until this annual meeting of stockholders.

Communications with the Board

Individuals may communicate with the Board by writing to Board of Directors of the Company, c/o Corporate Secretary, Keystone Automotive Industries, Inc., 700 E. Bonita Avenue, Pomona, California 91767. The Company's Corporate Secretary will forward all correspondence to the Board of Directors, except for spam, junk mail, mass mailings, product complaints or inquiries, job inquiries, surveys, business solicitations or advertisements, or patently offensive or otherwise inappropriate materials. The Company's Corporate Secretary may forward certain correspondence, such as product-related inquiries, elsewhere within the Company for review and possible response. Communications that are intended specifically for non-management directors should be sent to the attention of the Lead Independent Director, at the above address.

It is the policy of the Board, but not a requirement, that all Board members attend the annual meetings of stockholders. All directors attended last year's meeting.

Code of Ethics

The Company has adopted a Code of Business Conduct and Ethics, which is applicable to all Company directors, executive officers and employees, including the principal executive officer and the principal financial and accounting officer. The Code of Business Conduct and Ethics is available on the Company's website at <http://www.keystone-auto.com>. The Company will post amendments to or waivers under this Code at this location on its website.

REPORTS OF THE COMPENSATION COMMITTEE

AND AUDIT COMMITTEE

The following Compensation Committee's Report on Executive Compensation and Audit Committee's Report shall not be deemed to be soliciting material or to be filed with the SEC or subject to Regulations 14A or 14C of or to the liabilities of Section 18, of the Securities Exchange Act of 1934, as amended (the Exchange Act), and shall not be deemed incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, notwithstanding any general incorporation by reference of this proxy statement into any other document.

Report of the Compensation Committee

General

The Compensation Committee of the Board of Directors (the Compensation Committee), which is responsible for establishing and administering the policies that govern executive compensation and benefit practices, furnishes the following report on executive compensation for fiscal 2006. The Committee is comprised entirely of independent directors. Its decisions regarding executive compensation, including the pay of the Chief Executive Officer, are submitted to the Company's Board of Directors for ratification. The Compensation Committee is comprised of Messrs. McQuay, Moore, and Thompson.

To assist the Committee in reviewing the compensation practices at the Company, it retains an independent executive compensation consultant. The consultant reports directly to the Committee, and the Committee has the sole authority to hire or terminate the consultant. The role of the consultant is to serve the Company, and to provide the Committee with information on competitive practices and pay levels, and to advise the Committee on executive compensation issues. The consultant does not recommend specific pay levels for executives.

Philosophy of Executive Officer Compensation and Elements Used

The Company's Executive Officer compensation program is designed to:

1. Pay market competitive compensation that enables the Company to attract top quality executive talent.
2. Reward executives for Company performance and increases in stockholder value.
3. Effectively recognize individual contributions to Company success.

In Fiscal 2006, the Company's executive compensation program to executives had the following elements:

Base salary;

An annual performance-based cash incentive;

Grants of stock options; and

Benefits.

In the Committee's view, this multi-component approach best serves the interest of the Company and its stockholders. It enables us to meet the requirements of the highly competitive business environment for executive talent, while ensuring that executive officer compensation advances stockholders' short- and long-term interests. In general, the Company seeks to encourage and reward both profitable growth and operational

Edgar Filing: KEYSTONE AUTOMOTIVE INDUSTRIES INC - Form DEF 14A

efficiency. Under the Company's incentive plans, the Committee makes awards related to achievement in these areas of performance.

The Committee seeks to ensure that a high proportion of the Company's executive officers' current compensation is at risk. The only guaranteed forms of officer compensation are base salaries and benefit plans; with the remainder of compensation being earned through performance.

Competitive Compensation for Executives

The Committee reviewed a competitive study of compensation performed by its consultant. The study examined the Company's executive compensation levels versus market by element (base pay, annual incentives and long-term incentives) and in total. In doing so, the value of each of our pay elements was compared to information available in existing survey databases for companies with similar revenues as the Company.

On average, Keystone's salaries and targeted cash compensation (salary plus annual incentive) are slightly below competitive levels. When long term incentive (stock option) grants are added, compensation is, on average, slightly above the competitive median.

Approach to Determining Executive Pay

Base Salaries. Executive officers are eligible for salary increases annually. The Committee reviews and approves recommendations from the Chief Executive Officer (CEO) with respect to changes in other executive officers' salaries. The CEO's recommendations take into account factors such as the officer's performance and overall contribution, competitive rates of salary increase and the level of each officer's salary versus competitive levels. Individual executive officer performance factors include financial performance, management effectiveness, and organization development. For Fiscal 2006, the average executive salary increase was approximately 4.0% of salary.

Annual Incentives. Keystone's annual incentive plan provides for performance-based cash awards for executive officers. In Fiscal 2006, there were 10 participants in the plan.

The Fiscal 2006 plan was based on Company performance relative to financial goals of Earnings per Share growth and Return on Invested Capital. These goals were designed to encourage both profitable growth and the efficient use of capital, thus improving stockholder value. The award earned is based on a schedule that combines performance on each metric.

Each executive role has a dollar target that is established as a percent of base salary. For current executive officers, this percentage ranges from 30% to 60% for the CEO. If a threshold level of performance on either metric is not met, the incentive award would be zero. The maximum award for executive officers is three times the target award.

Corporate executive officer performance is judged solely on Company wide achievement; for the five Operating Vice Presidents, their awards are based 50% on corporate metrics and 50% on the earnings for their Division versus budget.

In Fiscal 2006, the Company experienced strong financial performance. Corporate performance was 125.1% of target; Operating Vice Presidents had performances that resulted in awards ranging from 131.5% to 158.4% of target.

The Compensation Committee has the ability to make discretionary adjustments to awards under the annual incentive plan, but expects to exercise this discretion rarely, or in unusual circumstances. The Committee made no discretionary adjustments to awards in Fiscal 2006.

The design of the annual incentive plan will remain similar for Fiscal 2007, including the level of individual target awards as a percentage of salary, performance metrics, and payout determination.

Long-Term Incentives. In Fiscal 2006, the Company granted equity awards to executive officers under the 2005 Omnibus Incentive Plan in the form of stock options. Stock options are granted to encourage absolute stock price growth.

In general, stock options are granted to executive officers upon promotion, and ongoing grants are made annually in July. Options granted in Fiscal 2006 were at fair-market value, and had a three-year vesting schedule and a ten-year term. In recent years, restricted stock grants have been made to newly hired executive officers.

For each executive officer, there is a dollar value guideline for long term incentive awards that reflects competitive long-term incentive grant levels and relative importance of each officer's role within the Company. This guideline is converted to a number of options using a Black-Scholes model. The CEO recommends grants for the other executive officers, making adjustments from the guideline to reflect performance. The Committee reviews the recommendation for the CEO's subordinates and determines the size of the award. It then applies a similar methodology to determine the CEO's equity grant.

Below the executive level, members of management are eligible for grants of time-vested restricted stock based on role and performance. In Fiscal 2006, these awards were made to 170 employees. The average grant for management recipients of restricted stock was approximately 300 shares.

The Company will implement FAS123R at the beginning of fiscal year 2007. The Committee has examined the accounting expense associated with past and planned future equity grants, and will be changing the long-term incentive design for Fiscal 2007 grants. The major change will be the implementation of a performance share plan that would apply to executive officers. It is expected that grants of performance shares will be made annually, with performance measured over the three year cycle. Stock options will still be granted, but the number of options granted to most executive officers will decrease.

Benefits and perquisites. We do not seek to use benefit programs or perquisites to attract or retain executives. Generally, executive officers participate in the Company's broad-based health and welfare, life insurance and 401(k) programs. The Company has a defined benefit pension plan which was open to all employees that was suspended in 1997; only three executive officers, Messrs. Hall, Morrissey and Northup, have any accrued benefits under that plan. The only executive perquisite provided to executive officers is the use of leased automobiles. In addition, all executive officers receive reimbursement for out-of-pocket, unreimbursed medical expenses up to \$10,000 and reimbursement for tax and financial advice up to \$2,500.

Accounting and Tax issues

Subject to the needs of our company, we generally attempt to design all incentive and equity-based programs to be deductible under Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code").

Chief Executive Officer Compensation

Richard Keister was hired as the Company's CEO on June 1, 2004. This section summarizes his compensation for Fiscal 2006.

Mr. Keister was paid an annual salary of \$467,500 for Fiscal 2006. This salary represented an increase of 10.0% over his Fiscal 2005 salary of \$425,000. The salary increase reflected several factors: The Committee's assessment of his leadership in the implementation of new inventory, budgeting, and supply chain systems; the improvement of his management team and its effectiveness; and the progress made in addressing critical operational issues. It also reflected that his salary was well below competitive norms. Even with this increase, Mr. Keister's salary is below the market median of survey data reviewed by the Committee.

For Fiscal 2006, Mr. Keister had an annual incentive target of 60% of his base salary, or \$280,500. Mr. Keister participated in the same annual incentive program as all other executive officers. His performance was based solely on corporate results related to Earnings per Share growth and Return on Invested Capital goals. Company performance relative to goals was determined to be 125.1% of plan; therefore, Mr. Keister's award was 125.1% of his target, or \$350,906. His annual incentive target will remain 60% of his Fiscal 2007 base salary.

On July 7, 2005, Mr. Keister received a grant of 51,000 stock options. The size of the grant was intended to reflect strong performance in positioning the Company for future growth. According to our consultant, this grant had an economic value that was above median competitive long-term incentive levels, but within the third quartile of the market data. In addition, Mr. Keister received 30,000 restricted shares at the time of his hiring, one-fourth of which vest each June. Therefore, 7,500 shares vested in June 2005 and in June 2006, leaving 15,000 shares unvested.

Summary

The Compensation Committee believes that its executive compensation philosophy of paying its executive officers by means of base salaries, benefits, annual cash bonuses and long-term incentives, as described in this Report, is in the best interests of the Company and its stockholders.
