-

**ITEM 7.01. Regulation FD Disclosure**

On October 31, 2006, FTI Consulting, Inc. ( FTI ) held a conference call relating to our financial results for the third quarter and nine months ended September 30, 2006, our revised guidance for 2006, operating results by business segment and other information. The full text of the Transcript of the conference call held beginning at 8:00 a.m. Central Time (9:00 a.m. Eastern Time) is furnished as Exhibit 99.1 hereto and incorporated by reference herein. Due to technical difficulties with the 8:00 a.m. conference call, on October 31, 2006, FTI held a conference call to take additional questions beginning at 1:00 p.m. Central Time (2:00 p.m. Eastern Time). The full Transcript of the conference call held beginning at 1:00 p.m. Central Time is furnished as Exhibit 99.2 hereto and incorporated by reference herein.

The Transcripts may contain some discussion regarding FTI s earnings before interest, taxes, depreciation and amortization, including the special termination charge related to the restructuring of FTI s U.K. operations and the consolidation of certain non-core practices in the U.S. (collectively, the Special Termination Charge ) as previously announced ( EBITDA ) and EBITDA excluding the Special Termination Charge ( Adjusted EBITDA ), adjusted earnings per share diluted excluding the Special Termination Charge ( Non-GAAP Diluted EPS ) and EBITDA and/or Adjusted EBITDA by business segment. Although EBITDA and Adjusted EBITDA are not measures of financial condition or performance determined in accordance with generally accepted accounting principles, FTI believes that they are useful operating performance measures for evaluating our results of operations from period to period and as compared to our competitors. EBITDA is a common alternative measure of operating performance used by investors, financial analysts and rating agencies to value and compare the financial performance of companies in our industry. FTI uses EBITDA to evaluate and compare the operating performances of its segments and it is one of the primary measures used to determine employee bonuses. FTI also uses EBITDA to value businesses it considers acquiring. EBITDA, Adjusted EBITDA and Non-GAAP Diluted EPS are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies unless the definition is the same. We believe that EBITDA and Adjusted EBITDA as supplemental financial measures are also indicative of FTI s capacity to incur and service debt and thereby provide additional useful information to investors regarding FTI s financial condition and results of operations. EBITDA and Adjusted EBITDA for purposes of the covenants set forth in our senior secured credit facility are not calculated in the same manner as calculated for other purposes. Adjusted EBITDA excludes certain items to provide better comparability from period to period.

The information included herein, including Exhibits 99.1 and 99.2 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Act of 1934, as amended (the Exchange Act ), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
