STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

Strategic Hotels & Resorts, Inc. and subsidiaries (SHR or the Company), formerly known as Strategic Hotel Capital, Inc., is a real estate investment trust (REIT) that was formed in January 2004. SHR conducts its business activities through its operating subsidiary, Strategic Hotel Funding, L.L.C. (SH Funding).

SHR acquires luxury and upper upscale full-service hotels that are subject to long-term management contracts. SHR's portfolio includes 20 full-service hotel interests located in urban and resort markets in the United States; Paris, France; Mexico City and Punta Mita, Nayarit, Mexico; Hamburg, Germany; London, England and Prague, Czech Republic.

On June 29, 2004, SHR completed its initial public offering (the IPO) of common stock by issuing 17,600,000 shares at a price of \$14.00 per share. Prior to the IPO, 21 hotel interests were owned by Strategic Hotel Capital, L.L.C. (SHC LLC). Concurrent with the IPO, SHC LLC was restructured into two companies, a new SHC LLC, a privately-held entity, with interests, at that time, in seven hotels, and SHR, a public entity with interests in SH Funding, the operating partnership in an UPREIT structure that held interests, at that time, in the remaining 14 hotels. Contemporaneous with the IPO, SH Funding became owned by SHR, SHC LLC and Strategic Hotel Capital Limited Partnership (SHC LP). For accounting purposes, this transaction is presented as a reverse spin-off whereby SHR is treated as the continuing entity and the assets retained by the new SHC LLC, and not contributed to SH Funding, are accounted for as if they were distributed at their historical carrying value through a spin-off to the new SHC LLC.

Subsequent to the IPO, SHR exercises control over SH Funding as its managing member and majority membership interest holder and consolidates SH Funding. SHC LLC prior to the IPO is referred to as SHR's predecessor.

As of September 30, 2006, SH Funding owned or leased the following 20 hotels:

| 1. Fairmont Chicago | 11. Marriott Champs Elysees Paris |

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The accompanying unaudited condensed consolidated financial statements include the financial position and the results of operations of SHR and its subsidiaries. At September 30, 2006, SH Funding owned the following interests in joint ventures, which are accounted for using the equity method of accounting: a 45% interest in the joint venture that owns the Hotel del Coronado and a 31% interest in the joint venture that owns the Resort Club Punta Mita (see note 5). At September 30, 2006, SH Funding also owned 85% controlling interests in two joint ventures that own the InterContinental Chicago and Miami hotels, which are consolidated in the accompanying financial statements.

Material intercompany transactions and balances have been eliminated in consolidation. Certain amounts included in the consolidated financial statements for prior periods have been reclassified to conform to the current financial statement presentation. These adjustments include reclassifying non-income related taxes

from income tax benefit (expense) on the statements of operations to other income, net and reclassifying the Mexican asset tax (which is a variant of income tax) from other income, net to income tax benefit (expense). On the consolidated balance sheet, these adjustments include reclassifying deferred tax assets from other assets and deferred tax liabilities from accounts payable and accrued expenses.

The accompanying unaudited condensed consolidated financial statements and related notes have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and in conformity with the rules and regulations of the Securities and Exchange Commission (the Commission) applicable to interim financial information. As such, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted in accordance with the rules and regulations of the Commission. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of the Company and its results of operations and cash flows for the interim periods presented. The Company believes the disclosures made are adequate to prevent the information presented from being misleading. However, the condensed consolidated financial statements should be read in conjunction with the Company's consolidated financial statements as of December 31, 2005 and 2004 and for the years ended December 31, 2005, 2004 and 2003 and notes thereto which are included in the Company's Annual Report on Form 10-K/A.

Use of Estimates:

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

Cash and Cash Equivalents:

The Company considers all cash on hand, demand deposits with financial institutions and short-term highly liquid investments with purchased or original maturities of three months or less to be cash equivalents. As of September 30, 2006 and December 31, 2005, restricted cash and cash equivalents include \$22,197,000 and \$20,919,000, respectively, that will be used for property and equipment replacement in accordance with hotel management or lease agreements. At September 30, 2006 and December 31, 2005, restricted cash and cash equivalents also included reserves of \$31,438,000 and \$11,196,000, respectively, required by loan and other agreements.

Deferred Transaction Costs:

The Company incurs costs relative to potential hotel acquisitions, joint ventures or investment opportunities. These costs are included in other assets in the Company's consolidated balance sheet pending determination that a transaction will be consummated or abandoned. If a transaction is consummated, these costs are capitalized as hotel acquisition costs or investments in joint ventures. If a potential hotel acquisition, joint venture or other investment is abandoned, these deferred costs are charged to expense. At September 30, 2006, other assets include \$4,681,000 of deferred costs related to potential hotel acquisitions and a joint venture investment.

Per Share Data:

In accordance with Statement of Financial Accounting Standards No. 128, Earnings Per Share, basic income (loss) per share for the three and nine months ended September 30, 2006 and 2005 is computed based on the weighted average common shares outstanding during each period. Diluted income (loss) per share is computed based on the weighted average common shares and restricted stock units and stock options (see note 10) deemed outstanding during the period plus the weighted average common shares that would be outstanding assuming the conversion of minority interests excluding the impact of conversions if they are anti-dilutive. Conversion of minority interests that could potentially dilute basic income (loss) per share in the future that were not included in the computation of diluted income (loss) per share because they would have been anti-dilutive, are 1,087,000 and 9,357,000 for the three months ended September 30, 2006 and 2005, respectively, and 1,607,000 and 9,387,000 for the nine months ended September 30, 2006 and 2005, respectively.

Table of Contents**STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued****Comprehensive Income:**

Comprehensive income is a measure of all changes in equity of an enterprise that result from transactions or other economic events during the period other than transactions with shareholders. SHR's accumulated other comprehensive income results from unrealized gains on foreign currency translation adjustments (CTA) and the mark to market of certain derivative financial instruments.

The following table provides the detailed components of accumulated other comprehensive income (in thousands):

	Derivative Adjustment	Currency Translation Adjustment	Accumulated Other Comprehensive Income
Balance at January 1, 2006	\$ 4,988	\$ 4,538	\$ 9,526
Mark to market of derivative instruments	(7,854)		(7,854)
Reclassification to equity in losses of joint ventures	65		65

Adjustment for minority interest ownership in SH Funding	63	(16)	47
Balance at September 30, 2006	\$ (2,738)	\$ 3,631	\$ 893

Income Taxes:

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the Code). As a REIT, SHR generally will not be subject to U.S. federal income tax if it distributes 100% of its annual taxable income to its shareholders. As a REIT, SHR is subject to a number of organizational and operational requirements. If it fails to qualify as a REIT in any taxable year, it will be subject to U.S. federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate tax rates. Even if it qualifies for taxation as a REIT, it may be subject to foreign, state and local income taxes and to U.S. federal income tax and excise tax on its undistributed income. In addition, taxable income from SHR's taxable REIT subsidiaries is subject to federal, foreign, state and local income taxes. Also, the foreign countries where SHR has operations do not recognize REITs under their respective tax laws. Accordingly, SHR will be subject to tax in those jurisdictions.

In the first quarter of 2006, the Company recorded a \$4,000,000 deferred tax benefit. The benefit primarily relates to net operating loss carryforwards in SHR's taxable REIT subsidiaries. A significant portion of these carryforwards was generated from expenses associated with the termination of the hotel management agreement with Marriott Hotel Services, Inc. (see note 16) and was included in income (loss) from discontinued operations (see note 4). In the second quarter of 2006, SHR was able to utilize a portion of the carryforwards and recorded a deferred tax expense of \$1,000,000, of which \$800,000 was included in continuing operations and \$200,000 was included in income (loss) from discontinued operations. In the third quarter, SHR recorded a net deferred tax benefit of \$600,000, of which \$319,000 is included in continuing operations and \$281,000 is included in income (loss) from discontinued operations. As a result, the deferred tax benefit applicable to the United States amounted to \$3,600,000 for the nine months ended September 30, 2006.

In connection with the acquisition of its joint venture partner's 65% interest in the entity that owns the InterContinental Hotel in Prague, Czech Republic (which brought the Company's interest in the entity that owns the property to 100%), SHR recorded a deferred tax liability of \$18,343,000.

New Accounting Pronouncements:

In September 2006, the FASB issued Statement No. 157, "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of the adoption of this statement.

In July 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 will be effective for the Company beginning in the first quarter of 2007. The cumulative effect, if any, of applying FIN 48 is to be reported as an adjustment to the opening balance of retained earnings in the year of adoption. The Company is currently evaluating the impact, if any, that the adoption of FIN 48 will have on the Company's consolidated financial statements.

Purchase of the LaSolana Hotel and Villas Development Sites (LaSolana)

In the fourth quarter of 2005, the Company signed letters of intent to purchase the LaSolana Hotel and Villas development sites adjacent to the Company's existing Four Seasons Punta Mita Resort for a purchase price of approximately \$30,879,000 (including net working capital) plus the assumption of an agreement, which was executed in the first quarter of 2006, to pay installments totaling \$13,480,000 over the next four years. The purchase includes a fee simple interest in 20.5 acres of land with plans to develop approximately 70 hillside hotel suites, spa, restaurant, pool and retail (Hotel Site) and the right to develop 55 for-sale residences on 27 acres of land (Villa Site). The acquisition consisted of purchasing existing promissory notes totaling \$17,852,000 (including accrued interest) as well as the equity interests for \$13,027,000 (including acquisition costs).

In 2005, the Company purchased the promissory notes and made a refundable deposit of \$1,000,000 on the equity investment. This amount aggregating \$18,852,000 is included in other assets in the accompanying consolidated balance sheet as of December 31, 2005. On March 8, 2006, the Company acquired the equity interests to take full ownership and control of the development sites. Upon purchase of the equity interests, title to the Hotel Site transferred to the Company and the previously acquired promissory notes were converted to equity.

Initially, the Company assumed an agreement to purchase the Villa Site for which consideration was expected to be paid in fixed installments (estimated at \$13,480,000) over a four-year period. In addition to these installments, additional payments were required (based on a formula in the agreement) upon sale of villa units. Negotiations with respect to the nature, timing and amount of the fixed and variable payments resulted in termination of the previous agreement. The new agreement required a single payment of \$17,980,000 which, along with acquisition costs, was paid in the third quarter of 2006, with no future obligation to pay any variable amounts upon sale of the villas.

The aggregate purchase price of \$48,924,000, excluding the effect of working capital and deferred tax assets acquired, has been recorded in property and equipment as land held for development. At September 30, 2006 land held for development related to LaSolana amounted to \$50,403,000. Capitalized interest of \$1,479,000 is included in land held for development related to LaSolana.

Acquisition Agreement

On September 26, 2006, the Company entered into an agreement to acquire an interest in a to-be-built mixed use building adjacent to the Fairmont Chicago property consisting of approximately 15 floors that will primarily house 210 hotel suites, meeting and prefunction space, hotel lobby and related areas and associated improvements for approximately \$82,400,000. The acquisition, expected to close in late 2009, remains subject to contractual closing conditions. Letters of credit were required to be issued as an earnest money deposit under SHR's agreement to acquire the interest (see note 13).

Investment in the Hotel del Coronado

On January 9, 2006, subsidiaries of SHR closed the acquisition of a 45% joint venture ownership interest in SHC KSL Partners, LP (Hotel Venture), the existing owner of the Hotel del Coronado in San Diego, California, and in HdC North Beach Development, LLLP (North Beach Venture), the owner of an adjacent land parcel under development, for a pro rata share of an aggregate agreed-upon market value of \$745,000,000. The Hotel Venture and the North Beach Venture are collectively referred to as the Partnerships. The Company, through its subsidiaries, paid \$71,342,000 (including \$21,250,000 of escrow deposits paid in 2005) to fund its investment in the Partnerships, which was funded with borrowings under the Company's bank credit facility, and the Hotel Venture refinanced the property with \$610,000,000 of proceeds from the mortgage and mezzanine financings discussed below as well as borrowings of \$10,500,000 on the bank credit facility. SHR earns fees under an asset management agreement with the Partnerships. SHR receives fees amounting to 1% of the Hotel Ventures' revenues and 2% of the Partnership's development costs. In addition, SHR earns financing fees of 0.325% of any debt principal placed on behalf of the Hotel Venture as well as certain incentive fees as provided by the asset management agreements. SHR recognizes income of 55% of these fees, representing the percentage of the Partnerships not owned by SHR. These fees amounted to \$257,000 and \$1,845,000 for the three and nine months ended September 30, 2006, respectively, and are included in other income, net on the consolidated statements of operations. The Company accounts for the Partnerships using the equity method of accounting.

In connection with the acquisition, the entities entered into partnership agreements, which contain provisions regarding allocations of net income and loss to the partners and the distribution of cash to the partners. These allocations are based on the partners' pro-rata ownership interests in the Hotel Venture and North Beach Venture.

On January 9, 2006, the Hotel Venture entered into mortgage and mezzanine loans with German American Capital Corporation (GACC), as lender. The principal amount of the loans is \$610,000,000 and they accrue interest at LIBOR plus a blended spread of 2.08% per annum (7.41% at September 30, 2006). In addition, the Hotel Venture entered into a \$20,000,000 revolving credit facility with GACC that bears interest at LIBOR plus 2.50% per annum (7.82% at September 30, 2006). At September 30, 2006, there was no amount outstanding on the revolving credit facility. The mortgage loan is secured by a mortgage on the Hotel del Coronado and the mezzanine loans and revolving credit facility are secured by a pledge of the equity interest held by the borrowers in their subsidiaries.

On January 9, 2006, as required by the loan agreements described above, the Hotel Venture purchased interest rate caps with a LIBOR strike price of 5.00% from January 9, 2006 to January 15, 2008 and 5.50% from January 15, 2008 to January 15, 2009. These caps expire on January 15, 2009. The interest rate caps were purchased with notional amounts covering the entire \$630,000,000 of the mortgage and mezzanine loans (including the bank credit facility).

Concurrently with the purchase of the interest rate caps described above, SH Funding entered into an agreement to sell a cap with a strike price of 5.00%. This cap expires on January 15, 2009. The interest rate cap was sold with a notional amount of \$9,000,000.

Further, on January 9, 2006, the North Beach Venture entered into a \$59,000,000 construction loan with GMAC Commercial Mortgage Corporation to be used in connection with the construction of a 78-room beachfront, luxury condominium-hotel development on the North Beach Venture land parcel. The construction loan bears interest at LIBOR plus 2.50% per annum (7.82% at September 30, 2006). At September 30, 2006, there was \$17,133,000 outstanding on the construction loan.

At September 30, 2006, SHR's investment in the Partnerships totaled \$69,980,000. SHR's equity in income (losses) of the Partnerships amounted to \$918,000 and \$(518,000) for the three and nine months ended September 30, 2006, respectively. This amount includes the Company's 45% interest in the Partnerships after elimination of asset management fees.

credit facility agreement that was entered into on June 29, 2004. The agreement provides for a \$125,000,000 revolving loan and expires November 9, 2009, subject to a one-year extension at the borrower's option. On May 30, 2006 and August 28, 2006, SHR amended the agreement to increase the revolving loan to \$150,000,000 and \$225,000,000, respectively. After these repayments, the principal balance was \$292,495,000 at September 30, 2006. Table of Contents**STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued****7. MINORITY INTERESTS**

SHR's minority interests pertain to its operating partnership (SH Funding) and its other consolidated affiliates. The other consolidated affiliates include (a) two joint ventures that own the InterContinental Chicago and Miami hotels and (b) SHC Prague InterContinental B.V. (Prague B.V.) and its Czech subsidiaries that own and operate the InterContinental Prague hotel.

Minority interest in SH Funding on the consolidated balance sheets is calculated by dividing the number of units held by the minority interests by the sum of SHR's units and the units held by the minority interests, all calculated based on the units outstanding at the end of the period. Net income and other comprehensive income are allocated to minority interests in SH Funding based on their weighted average ownership percentages during the period. The ownership percentage is calculated by dividing the number of units held by the minority interests by the sum of SHR's units and the units held by the minority interests, all calculated based on the weighted average days outstanding.

SHR reflects minority interests related to the InterContinental Chicago and Miami hotels on the balance sheet for the 15% portion of the properties consolidated by SHR, but not owned by the Company. The original minority interest balance of \$11,616,000 was established based on the historical book value of the assets at the time of the transaction. Minority interest income (expense) attributable to net (loss) earnings from these properties amounted to \$58,000 and \$(731,000) for the three and nine months ended September 30, 2006, respectively, which is reflected as minority interest income (expense) in consolidated affiliates in the statements of operations. Based on its partnership agreement with its joint venture partner, no earnings or losses from these properties were allocated to minority interests in 2005. Included in distributions payable in the accompanying September 30, 2006 balance sheet is \$340,000 payable to minority interests related to the InterContinental Chicago and Miami hotels.

The minority interest applicable to consolidation of Prague B.V. pertains to a 3.7% interest in one of the Prague B.V.'s Czech subsidiaries. There was no earnings or loss attributable to this minority interest for the period August 3, 2006 to September 30, 2006.

9. DERIVATIVES

SHR enters into derivative financial instruments with high credit quality counterparties and diversifies its positions among such counterparties in order to reduce its exposure to credit losses. To date SHR has not experienced any credit losses on derivatives.

SHR manages its interest rate risk by varying its exposure to fixed and variable rates while attempting to minimize its interest costs. SHR manages its fixed interest rate and variable interest rate risk through the use of interest rate caps and swaps. The caps limit SHR's exposure on its variable rate debt that would result from an increase in interest rates. The Company's lenders, as stipulated in the respective loan agreements, generally require such caps. SHR uses interest rate swaps to effectively convert portions of its variable rate debt to fixed rate debt. Certain of the Company's derivatives are designated as cash flow hedges and to the extent effective, changes in the fair value of these instruments are recorded in accumulated other comprehensive income. To the extent these instruments are not designated as hedges or are ineffective as hedges, changes in the fair value of these instruments are recorded in interest expense or other income, net, as appropriate. Upon extinguishment of debt, income effects of cash flow hedges are reclassified from accumulated other comprehensive income to interest expense, net, loss on early extinguishment of debt, or income from discontinued operations as appropriate. The Company recognizes all derivatives as either assets or liabilities on the balance sheet, classifies those instruments as either other assets or in accounts payable and accrued expenses and measures those instruments at fair value.

The market values of the Company's interest rate caps and swaps were as follows (in thousands):

	September 30, 2006	December 31, 2005

Table of Contents**STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued**

Participants holding RSUs will have no voting rights until such time as the underlying shares are issued. Dividends will accrue on all RSUs, and will either be reinvested in additional RSUs or paid in cash. At September 30, 2006, a total of 755,480 RSUs were outstanding with an aggregate value at issuance of \$13,598,000. At September 30, 2006, a total of 403,533 RSUs were vested.

Performance Shares are earned based on the achievement of specified budgeted levels of Funds from Operations (FFO) per share and total shareholder returns measured against the Bloomberg Hotel REIT Index. Two thirds of the Performance Shares are earned based on SHR's performance versus budgeted FFO with one third earned based on performance versus the Bloomberg REIT Index. The Performance Shares are earned in equal amounts on three annual measurement dates beginning December 31, 2007. Performance Shares actually earned will vary depending on the relative percentage achievement compared to the targeted achievement levels. Such Shares vest one year after they are earned subject to acceleration upon certain events and other terms.

On September 7, 2006, SHR granted options to its Chief Executive Officer to purchase 669,797 shares of common stock at a \$20.40 per share exercise price. The fair value for options granted was estimated at the time the options were granted using the Black-Scholes option-pricing model with the following assumptions:

Assumptions:	
Risk-free interest rate	4.78%
Expected dividend yield	4.51%
Volatility	23.91%
Expected life	7 years
Fair value of options granted	\$ 3.80 per share

12. RELATED PARTY TRANSACTIONS

The Company has an asset management agreement with SHC LLC, under which the Company has managed the day-to-day business of SHC LLC and its hotels for an initial annual fee of \$5,000,000, payable monthly in arrears. The term of the agreement commenced on June 29, 2004. SHC LLC sold three properties in 2005 and three properties in the nine months ended September 30, 2006. As a result of the disposition of these properties, the asset management fee was reduced annually to approximately \$703,000. For the three months ended September 30, 2006 and 2005, SHR recognized approximately \$449,000 and \$1,250,000, respectively of income related to its asset management agreement with SHC LLC, which is included in other income, net. For the nine months ended September 30, 2006 and 2005, SHR recognized approximately \$1,775,000 and \$3,750,000, respectively, of income related to its asset management agreement with SHC LLC, which is included in other income, net. On August 15, 2006, SHC LLC notified the Company that effective November 15, 2006 it will voluntarily terminate the agreement. Under terms of the agreement, SHC LLC will pay a one time termination fee to the Company of \$250,000.

During the nine months ended September 30, 2005, Goldman Sachs & Co., an affiliate of certain shareholders of SHR and an initial purchaser in the Series A Preferred Stock offering, received \$1,000,000 of the initial purchasers' discount, which was recorded as a reduction of the preferred stock proceeds. In addition, during the three and nine months ended September 30, 2005, Goldman Sachs & Co. received \$1,446,000 in fees as an underwriter for the August 2005 common stock offering. During the nine months ended September 30, 2006, Goldman Sachs received \$1,996,000 in discounts and commissions. (see note 8)

13. COMMITMENTS AND CONTINGENCIES

Environmental Matters:

Generally, the properties acquired by SHR have been subjected to environmental reviews. While some of these assessments have led to further investigation and sampling, none of the environmental assessments has revealed, nor is SHR aware of any environmental liability that SHR believes would have a material adverse effect on its business or financial statements.

Litigation:

SHR is party to various claims and routine litigation arising in the ordinary course of business. Based on discussions with legal counsel, SHR does not believe that the results of these claims and litigation, individually or in the aggregate, will have a material adverse effect on its business or financial statements.

Letters of Credit:

As of September 30, 2006, SHR had provided \$12,000,000 in letters of credit. Letters of credit for \$11,000,000 were required to be issued as an earnest money deposit under SHR's agreement to acquire an interest in a to-be-built mixed use building adjacent to the Fairmont Chicago property (see note 3). Under the agreement, subject to the progress of the construction, the letters of credit commitment will increase to \$23,000,000 during the next two years. The letters of credit commitment will decrease upon the first of two scheduled closings under the construction timeline in 2008. The project is expected to close in late 2009. A letter of credit for \$1,000,000 was provided related to a construction project at one of SHR's properties.

14. GEOGRAPHIC AND BUSINESS SEGMENT INFORMATION

SHR operates in one reportable business segment, hotel ownership. As of September 30, 2006, SHR's foreign operations consisted of two Mexican hotel properties, the LaSolana Hotel and Villas Development Sites, a 31% interest in a Mexican joint venture, two European properties and leasehold interests in each of a French and a German hotel property.

15. HYATT REGENCY NEW ORLEANS

In August 2005, Hurricane Katrina caused substantial damage to the Hyatt Regency New Orleans property. The hurricane damage also caused significant interruption to the business, and the hotel has effectively ceased operations.

The Company has comprehensive insurance coverage (both property damage and business interruption) for this loss providing for an aggregate of \$350,000,000, subject to a deductible of approximately \$11,000,000. The Company's damage assessment teams, working with the insurance provider adjusters, are inspecting the property and implementing a restoration plan. The recovery effort is expected to include replacing portions of the building, landscaping and furniture. The net book value of the property damage is currently estimated to be at least \$32,685,000; however, while the Company has substantially completed its evaluation of the impact of the hurricane on the hotel and is in the process of planning reconstruction activities, the actual net book value write-off could vary from this estimate. Changes to this estimate will be recorded in the periods in which they are determined. A \$3,000,000 increase in the property damage was recorded during the first quarter of 2006. As of September 30, 2006, the Company has recorded a net fixed asset write-off and a corresponding insurance recoveries receivable for this \$32,685,000 net book value amount because the Company believes that it is probable that the insurance recovery, net of deductibles on a replacement cost basis, will exceed the net book value of the damaged portion of the assets.

While the Company expects the insurance proceeds will be sufficient to cover most of the replacement cost of the restoration of the hotel, certain deductibles and limitations will apply. No determination has been made as to the total amount or timing of those insurance payments and those insurance payments may not be sufficient to cover the costs of the entire restoration. To the extent that insurance proceeds, which are on a replacement cost basis, ultimately exceed the net book value of the damaged property, a gain will be recorded in the period when all contingencies related to the insurance claim have been resolved.

Edgar Filing: STRATEGIC HOTELS & RESORTS, INC - Form 10-Q

The Company has hired consultants to assess business interruption claims who are currently negotiating with the insurance carrier regarding coverage for these income losses sustained. To the extent the Company is entitled to recover incurred expenses under the insurance policies, the Company recognizes a receivable when it can be demonstrated that it is probable that such insurance recovery will be realized, and such insurance recovery will then be reflected as a component of operating income. Any gain or profit component resulting from business interruption insurance for lost income will not be recognized until the relevant payments have been received and all contingencies related to the insurance recoveries are resolved. This income recognition criteria will likely result in business interruption insurance recoveries being recorded in a period subsequent to

Table of Contents**STRATEGIC HOTELS & RESORTS, INC. AND SUBSIDIARIES****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - Continued**

the period that the Company experiences lost income from the affected property, resulting in fluctuations in the Company's net income that may reduce the comparability of reported quarterly and annual results for some periods into the future.

Through September 30, 2006, the Company has recorded \$44,382,000 in insurance recoveries related to property damage and business interruption. The Company has collected \$50,000,000 in insurance proceeds through September 30, 2006, including \$10,000,000 collected in 2005. Of the \$44,382,000 total receivable recorded, \$32,685,000 represents the recovery of the net book value of fixed assets written off because of the damage, as discussed above. The remaining \$11,697,000 represents a probable recovery of expenses incurred through September 30, 2006. The cost recoveries are recorded on the expense line item to which they relate, and therefore there is no net impact to any expense line item or the Company's results. Since the property has ceased significant operations, the Company discontinued depreciating property and equipment starting in September 2005. In addition, the Company has capitalized interest expense amounting to \$1,281,000 and \$3,827,000 for the three and nine months ended September 30, 2006, respectively, and \$423,000 for the three and nine months ended September 30, 2005 and will continue to capitalize interest on the property's debt as long as the property is undergoing active reconstruction activities to return to normal operations.

The following is a summary of hurricane-related activity recorded (in thousands):

Fixed assets net book value write down	\$ 32,685
Recovery of costs incurred	11,697
Proceeds received as of September 30, 2006	(50,000)
Insurance proceeds received in excess of insurance recoveries receivable as of September 30, 2006	\$ (5,618)

16. TERMINATION OF MANAGEMENT AGREEMENT

During the first quarter of 2006, the Company reached an agreement with Marriott Hotel Services, Inc. (MHS), the manager of its Marriott Rancho Las Palmas Resort, to terminate the hotel management contract with MHS on or before December 29, 2006. Under the agreement, the Company was required to pay MHS an initial termination fee of \$5,000,000 upon termination, and an additional termination fee of \$5,000,000 in 2009, provided that the additional termination fee will not be required if the Company has entered into a qualifying hotel management contract with MHS, or an affiliate, by December 31, 2008. Upon disposition of the Marriott Rancho Las Palmas Resort on July 14, 2006, the Company paid MHS the initial termination fee of \$5,000,000. The Company also agreed to reimburse MHS for certain severance and relocation costs for MHS employees at the resort. For the nine months ended September 30, 2006, the Company recorded a charge of \$9,784,000 for the present value of the termination fees and estimated severance and relocation costs. The charges are included in discontinued operations in the accompanying consolidated statement of operations for the nine months ended September 30, 2006.

17. SUBSEQUENT EVENTS

On October 6, 2006, the joint ventures (the Ventures) that own the InterContinental Chicago and Miami hotels refinanced two mortgage loans with Citigroup Global Markets Realty Corp., as lender. The principal amount of the InterContinental Chicago loan is \$120,000,000 which is currently accruing interest at LIBOR plus 0.31% per annum. On October 20, 2006, the principal amount of the InterContinental Chicago loan was amended to \$121,000,000. The principal amount of the InterContinental Miami loan is \$90,000,000 which is currently accruing interest at LIBOR plus 0.73% per annum. The loans are secured by, among other things, mortgages on the InterContinental Chicago and Miami hotels. The loans mature on October 9, 2008, subject to three one-year extensions at the Ventures' option.

Overview

Strategic Hotels & Resorts, Inc., which we refer to herein as SHR or the Company, formerly known as Strategic Hotel Capital, Inc., was incorporated in January 2004 to own and asset manage upper upscale and luxury hotels in North America and Europe. Our founder and accounting predecessor, Strategic Hotel Capital, L.L.C., or SHC LLC, was founded in 1997 by Laurence Geller, our President and Chief Executive Officer, Whitehall (an affiliate of Goldman, Sachs & Co.), and others. We made an election to be taxed, beginning with our 2004 tax year, as a REIT under the Internal Revenue Code. On June 29, 2004, we completed our initial public offering (IPO) of common stock. Prior to the IPO, 21 hotel interests were owned by SHC LLC. Concurrent with and as part of the transactions relating to the IPO, a reverse spin-off distribution to shareholders separated SHC LLC into two companies, a new, privately-held SHC LLC, with interests, at that time, in seven hotels (the Distributed Properties), and Strategic Hotels & Resorts, Inc., a public entity with interests, at that time, in 14 hotels. See Item 1. Unaudited Condensed Consolidated Financial Statements Note 1. General for the hotel interests owned by us.

We operate as a self-administered and self-managed REIT, which means that we are managed by our board of directors and executive officers. A REIT is a legal entity that holds real estate interests and, through payments of dividends to stockholders, is permitted to reduce or avoid federal income taxes at the corporate level. For us to continue to qualify as a REIT, we cannot operate hotels; instead we employ internationally known hotel management companies to operate our hotels for us under management contracts. We conduct our operations through our direct and indirect subsidiaries including our operating partnership, Strategic Hotel Funding, L.L.C. (SH Funding), which currently holds substantially all of our assets. We are the sole managing member of our operating partnership and hold approximately 99% of its membership units as of September 30, 2006. We manage all business aspects of our operating partnership, including the sale and purchase of hotels, the investment in these hotels and the financing of our operating partnership and its assets.

Table of Contents

Throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations section, references to we, our and us are references to SHC LLC and its consolidated subsidiaries before the IPO and SHR, SH Funding and their subsidiaries after the IPO.

When presenting the dollar equivalent amount for any amounts expressed in a foreign currency, the dollar equivalent amount has been computed based on the exchange rate on the date of the transaction or the exchange rate prevailing on September 30, 2006 as applicable, unless otherwise noted.

Factors Affecting Our Results of Operations

Acquisition and Sale of Interests in Hotel Properties. We sold the Marriott Schaumburg and the Embassy Suites Lake Buena Vista in 2005 and the Marriott Rancho Las Palmas Resort and the Hilton Burbank Airport in 2006. The results of operations for these properties have been classified as discontinued operations in the statements of operations for the three and nine months ended September 30, 2006 and 2005.

On April 1, 2005, we purchased 85% controlling interests in the InterContinental hotels in Chicago and Miami for an agreed aggregate value of approximately \$301.0 million and established a new basis of approximately \$297.0 million. Our total initial investment was \$285.4 million. On September 1, 2005, we purchased the Fairmont Chicago for approximately \$158.0 million. On January 9, 2006 we acquired a 45% managing joint venture ownership interest in the Hotel del Coronado for our pro rata share of an agreed upon market value of \$745.0 million. On March 1, 2006, we purchased the Four Seasons Washington D.C. hotel for approximately \$170.0 million. On June 1, 2006, we purchased the Westin St. Francis hotel for approximately \$439.3 million. On July 7, 2006, we purchased the Ritz-Carlton Laguna Niguel hotel for approximately \$327.5 million and assumed \$8.6 million in debt. On August 3, 2006, we purchased our joint venture partner's 65% interest in the entity that owns the InterContinental Prague Hotel for approximately \$75.5 million and assumed debt of \$85.9 million. On August 31, 2006, we purchased the Marriott London Grosvenor Square hotel for a purchase price of \$201.5 million. On September 1, 2006, we purchased the Fairmont Scottsdale Princess and an adjacent 10-acre development parcel for approximately \$350.4 million.

We define our total portfolio as properties that are owned or leased by us, and their operations are included in our consolidated operating results. We present certain information about our hotel operating results and statistics on a comparable hotel basis. We define our Comparable REIT Assets as those (a) that are owned or leased by us, and their operations are included in our consolidated operating results, and (b) for which we reported comparable operating results throughout the reporting periods being presented. Accordingly, our comparable hotels for purposes of the comparison of the three and nine months ended September 30, 2006 and 2005 do not include the Hyatt New Orleans which was taken out of service in September 2005, the Fairmont Chicago which we purchased in September 2005, the Four Seasons Washington D.C. which we purchased in March 2006, the Westin St. Francis which we purchased in June 2006, the Ritz-Carlton Laguna Niguel which we purchased in July 2006, the InterContinental Prague which we purchased our joint venture partner's 65% interest in the entity that owns the InterContinental Prague in August 2006, the Marriott London Grosvenor Square which we purchased in August 2006, the Fairmont Scottsdale Princess which we purchased in September 2006, the Hotel del Coronado which we account for under the equity method, and all sold properties that are included in discontinued operations. Our comparable hotels for purposes of the comparison of the nine months ended September 30, 2006 and 2005 also do not include the InterContinental Chicago and Miami hotels, which we purchased 85% controlling interests in April 2005.

We present these Comparable REIT Asset results because we believe that doing so provides management and the reader with useful information for evaluating the period-to-period performance of our hotels and facilitates comparisons with other hotel REITs and hotel owners. In particular, these measures assist management and the reader in distinguishing whether increases or decreases in revenues and/or expenses are due to operations of the Comparable REIT Assets or from the remainder of the portfolio.

Revenues. Substantially all of our revenue is derived from the operation of our hotels. Specifically, our revenue consists of (in thousands):

Rooms revenue. Occupancy and average daily rate are the major drivers of rooms revenue.

Food and beverage revenue. Occupancy and local social catering are the major drivers of food and beverage revenue.

Other hotel operating revenue. Other hotel operating revenue consists of ancillary revenue such as telephone, parking, golf course, spa, entertainment and other guest services and is also driven by occupancy.

Lease revenue. We earn lease revenue from the Hamburg Marriott and the Paris Marriott Champs Elysées (Paris Marriott). Lease revenue for the Hamburg Marriott consists of a fixed annual rental paid in monthly installments plus a percentage of profits in excess of the base rent. As a result of a sublease arrangement at the Paris Marriott whereby we lease our interest in the hotel to a third party, we record lease revenue in our consolidated statements of operations.

Changes in our revenues are most easily explained by performance indicators that are used in the hotel real estate industry:

average daily occupancy,

average daily rate, or ADR,

net revenue per available room, or RevPAR, which is the product of ADR and average daily occupancy, but does not capture food and beverage revenues or other hotel operations revenue such as telephone, parking and other guest services, and

total revenue per available room, or Total RevPAR, which includes RevPAR and food and beverage and other hotel revenues per available room.

Fluctuations in revenues, which tend to correlate with changes in the U.S. gross domestic product, are driven largely by general economic and local market conditions as well as general health and safety concerns, which in turn affect levels of business and leisure travel. Guest demographics also affect our revenues. For example, a greater percentage of transient guests, which includes corporate and premium business

Edgar Filing: STRATEGIC HOTELS & RESORTS, INC - Form 10-Q

travelers who generally pay the highest average room rates, will generate higher room revenues. However, a greater percentage of certain group guests which do not include the highest corporate premium but do consume larger relative amounts of food and beverage and other services may contribute to a higher total revenue. In addition to economic conditions, supply is another important factor that can affect

Table of Contents

revenues. Room rates and occupancy tend to fall when supply increases unless the supply growth is offset by an equal or greater increase in demand. One reason why we target upper upscale and luxury hotels in select urban and resort markets, including major business centers and leisure destinations, is because they tend to be in locations that have greater supply constraints such as lack of available land, high development costs, long development and entitlement lead times and brand trade area restrictions that prevent the addition of a certain brand or brands in close proximity. Nevertheless, our hotels are not completely insulated from competitive pressures and our hotel operators will lower room rates to compete more aggressively for guests in periods when occupancy declines. Our ADR increased 17.8% to \$233.28 during the nine months ended September 30, 2006 from \$198.03 during the nine months ended September 30, 2005. With respect to the Comparable REIT Assets, ADR increased by 9.3% to \$246.59 for the nine months ended September 30, 2006 from \$225.62 for the nine months ended September 30, 2005.

Operating Costs and Expenses. Our operating costs and expenses consist of the costs to provide hotel services, including (in thousands):

Rooms expense. Like rooms revenue, occupancy is a major driver of rooms expense, which has a significant correlation with rooms revenue.

Food and beverage expense. Like food and beverage revenue, occupancy and local social catering are the major drivers of food and beverage expense, which has a significant correlation with food and beverage revenue.

Other departmental expenses. Other departmental expenses consist of general and administrative, marketing, repairs and maintenance, utilities and expenses related to earning ancillary revenue.

Management fees. We pay base and incentive management fees to our hotel operators. Base management fees are computed as a percentage of revenue and correlate to revenues. Incentive management fees are incurred when operating profits exceed levels prescribed in our management agreements.

Other hotel expenses. Other hotel expenses consist primarily of insurance costs and property taxes.

Table of Contents

Lease expense. We recorded a sale and leaseback of the Paris Marriott and Hamburg Marriott and record lease expense on our statements of operations.

Corporate expenses. Corporate expenses include our corporate level expenses such as payroll and related costs, restricted stock units plan expense, professional fees, travel expenses and office rent.

Most categories of variable operating expenses, such as utilities and certain labor such as housekeeping, fluctuate with changes in occupancy. Increases in RevPAR attributable to increases in occupancy are accompanied by increases in most categories of variable operating costs and expenses while increases in RevPAR attributable to increases in ADR typically only result in increases in limited categories of operating costs and expenses, such as management fees charged by our operators which are based on hotel revenues. Thus, changes in ADR have a more significant impact on operating margins.

Recent Trends and Events

Recent Trends. In the third quarter of 2006, the overall economy and the travel industry continued to gain momentum from the recovery that began in 2004 and accelerated in 2005. The improved demand continues to be driven by the business traveler and the strength of the leisure market. For example, with respect to the Comparable REIT Assets, RevPAR increased 10.5% to \$183.64 for the nine months ended September 30, 2006 from \$166.17 for the nine months ended September 30, 2005.

Recent Events. In addition to the recent trends described above, we expect that the following events will cause our future results of operations to differ from our historical performance:

Hyatt Regency New Orleans. In August 2005, Hurricane Katrina caused substantial damage to the Hyatt Regency New Orleans property. The hurricane damage also caused significant interruption to the business, and the hotel has effectively ceased operations.

We have comprehensive insurance coverage (both property damage and business interruption) for this loss providing for an aggregate of \$350.0 million in coverage per loss, subject to a deductible of approximately \$11.0 million. The recovery effort is expected to include replacing portions of the building, landscaping and furniture. The net book value of the property damage is currently estimated to be at least \$32.7 million; however, while we have substantially completed our evaluation of the impact of the hurricane on the hotel and are in the process of planning our reconstruction activities, the actual net book value write-off could vary from this estimate.

While we expect the insurance proceeds will be sufficient to cover most of the replacement cost of the restoration of the hotel, certain deductibles and limitations will apply. No determination has been made as to the total amount or timing of those insurance payments, and those insurance payments may not be sufficient to cover the costs of the entire restoration.

To the extent we are entitled to recover incurred expenses under the insurance policies, we recognize a receivable when it can be demonstrated that it is probable that such insurance recovery will be realized, and such insurance recovery will then be reflected as a component of operating income. Any gain or profit component resulting from business interruption insurance for lost income will not be recognized until the relevant payments have been received and all contingencies related to the insurance recoveries are resolved. This income recognition criteria will likely result in business interruption insurance recoveries being recorded in a period subsequent to the period that we experience lost income from the affected property, resulting in fluctuations in our net income that may reduce the comparability of reported quarterly and annual results for some periods into the future.

Through September 30, 2006, we have recorded \$44.4 million in insurance recoveries receivable related to property damage and business interruption recoveries. We have collected \$50.0 million in insurance

Table of Contents

proceeds through September 30, 2006, including \$10.0 million collected in 2005. Of the \$44.4 million total receivable recorded, \$32.7 million represents the recovery of the net book value of fixed assets written off because of the damage, as discussed above. The remaining \$11.7 million represents a probable recovery of expenses incurred through September 30, 2006.

Common Stock Offerings. During the first quarter of 2006, we completed a public offering of common stock at a price of \$20.00 per share. The shares consisted of 8,000,000 primary shares of common stock sold by us and 12,731,640 secondary shares of common stock sold by stockholders affiliated or associated with Prudential Financial, Inc. and Whitehall Street Real Estate Limited Partnerships VII and IX. After discounts, commissions and estimated expenses, we raised net proceeds of approximately \$151.9 million. These proceeds were used to repay existing indebtedness under our credit facility, to partially fund the acquisition of the Four Seasons Washington D.C. and for general corporate purposes.

On May 24, 2006, we completed a public offering of 16,100,000 shares of common stock at a price of \$20.50 per share. After discounts, commissions and estimated expenses, we raised net proceeds of approximately \$318.3 million. These proceeds were used to repay existing indebtedness under our credit facility, to partially fund the acquisitions of the Westin St. Francis and Ritz-Carlton Laguna Niguel and for general corporate purposes.

Preferred Stock Offerings. On January 31, 2006, we completed a public offering of 4,600,000 shares of 8.25% Series B Cumulative Redeemable Preferred Stock, par value \$0.01 per share (liquidation preference \$25.00 per share). After discounts, commissions and estimated expenses, we raised net proceeds of approximately \$110.9 million. These proceeds were used to repay existing indebtedness under our credit facility, to partially fund the acquisition of the Four Seasons Washington D.C. and for general corporate purposes.

On May 17, 2006, we completed a public offering of 5,750,000 shares of 8.25% Series C Cumulative Redeemable Preferred Stock, par value \$0.01 per share (liquidation preference \$25.00 per share). After discounts, commissions and estimated expenses, we raised net proceeds of approximately \$138.5 million. These proceeds were used to repay existing indebtedness under our credit facility, to partially fund the acquisitions of the Westin St. Francis and Ritz-Carlton Laguna Niguel and for general corporate purposes.

Hotel Acquisitions. In the fourth quarter of 2005, we signed letters of intent to purchase the LaSolana Hotel and Villa project adjacent to our existing Four Seasons Punta Mita Resort for a purchase price of approximately \$30.9 million (including net working capital) plus the assumption of an agreement, which was executed in the first quarter of 2006, to pay installments totaling \$13.5 million over the next four years. The purchase includes a fee simple interest in 20.5 acres of land with plans to develop approximately 70 hillside hotel suites, spa, restaurant, pool and retail (Hotel Site) and the right to develop 55 for-sale residences on 27 acres of land (Villa Site). The acquisition consisted of purchasing existing promissory notes totaling \$17.9 million (including accrued interest) as well as the equity interests of \$13.0 million (including acquisition costs).

In 2005, we purchased the promissory notes and made a refundable deposit of \$1.0 million on the equity investment. On March 8, 2006, we acquired the remaining equity interests to take full ownership and control of the development sites. Upon purchase of the remaining equity interests, title to the Hotel Site transferred to us and the previously acquired promissory notes were converted to equity. Initially, we assumed an agreement to purchase the Villa Site for which consideration was expected to be paid in fixed installments (estimated at \$13.5 million) over a four-year period. In addition to these installments, additional payments were required (based on a formula in the agreement) upon sale of villa units. Negotiations with respect to the nature, timing and amount of the fixed and variable payments resulted in termination of the previous agreement. The new agreement required a single payment of \$18.0 million, which, along with acquisition costs, was paid in the third quarter of 2006, with no future obligation to pay any variable amounts upon sale of the villas.

On January 9, 2006, our subsidiaries closed the acquisition of a 45% joint venture ownership interest in SHC KSL Partners, LP (Hotel Venture), the existing owner of the Hotel del Coronado in San Diego, California, and in HdC North Beach Development, LLLP (North Beach Venture), the owner of an adjacent land parcel under development, for our pro rata share of an aggregate agreed-upon market value of \$745.0 million. The 679-room Hotel del Coronado is a National Historic Landmark located on 28 acres of beachfront. The property's amenities include eight restaurants, retailing outlets, two beachfront pools, and 135,000 square feet of combined indoor and outdoor function space. We own the hotel in partnership with KKR and KSL Resorts. An affiliate of KSL continues to manage the property. Our capital commitment is limited to our equity investment equal to approximately \$71.3 million. We funded our equity investment in the Hotel del Coronado joint venture through borrowings under our revolving credit facility.

The joint venture has obtained \$610.0 million of commercial mortgage-backed securities and mezzanine debt financing and a \$20.0 million revolving credit facility, concurrent with our acquisition, which are secured by, among other things, a mortgage on the Hotel del Coronado. We earn fees under an asset management agreement with the joint venture. We receive fees amounting to 1% of the venture's revenues and 2% of the venture's development costs. In addition, we earn financing fees of 0.325% of any debt principal placed on behalf of the Hotel Venture as well as certain incentive fees as provided by the asset management agreements. We recognize income of 55% of these fees, representing the percentage of the venture not owned by us. We account for the Hotel Venture and North Beach Venture using the equity method of accounting.

On March 1, 2006, we purchased the Four Seasons Washington D.C. hotel for approximately \$170.0 million. We used proceeds from our common stock and preferred stock offerings described above to acquire this property.

On June 1, 2006, we purchased the Westin St. Francis San Francisco hotel for approximately \$439.3 million. We used proceeds from our common and preferred stock offerings described above to acquire this property. On July 6, 2006, a subsidiary of SHR entered into a mortgage loan with Metropolitan Life Insurance Company. The principal amount of the loan was \$220.0 million and accrues interest at LIBOR plus 0.70%. The loan is secured by, among other things, the Westin St. Francis hotel. Proceeds from the loan were used to partially fund the acquisition of the Ritz-Carlton Laguna Niguel.

On July 7, 2006, we purchased the Ritz-Carlton Laguna Niguel from SHC LLC for approximately \$327.5 million and assumed \$8.6 million in debt. We used proceeds from our common and preferred stock offerings described above to acquire this property as well as proceeds from a mortgage debt financing secured by the Westin St. Francis.

On August 3, 2006, we purchased our joint venture partner's 65% interest in the entity that owns the InterContinental Hotel in Prague, Czech Republic, for \$75.5 million and assumed debt of \$85.9 million. The purchase brings our interest in the entity that owns the property to 100%. The acquisition was financed using borrowings under the bank credit facility.

On August 31, 2006, we purchased the Marriott London Grosvenor Square hotel for \$201.5 million. The acquisition was financed using mortgage debt and borrowings on the bank credit facility.

On September 1, 2006 we purchased the Fairmont Scottsdale Princess hotel and an adjacent development land parcel for approximately \$350.4 million. We used mortgage debt and borrowings on the bank credit facility to acquire this property.

On September 26, 2006, we entered into an agreement to acquire an interest in a to-be-built mixed use building adjacent to the Fairmont Chicago property consisting of approximately 15 floors that will primarily house 210 hotel suites, meeting and prefunction space, hotel lobby and related areas and associated improvements for approximately \$82.4 million. The acquisition, expected to close in late 2009, remains subject to contractual closing conditions. Letters of credit were required to be issued as an earnest money deposit under our agreement to acquire the interest.

Sales of Hotels. On July 14, 2006, we sold the Marriott Rancho Las Palmas Resort for \$54.8 million. On September 7, 2006, we sold the Hilton Burbank Airport and Convention Center for \$123.3 million. We recognized a gain on these sales of \$89.3. The gain on sale of these properties has been classified as discontinued operations in the statements of operations for the three and nine months ended September 30, 2006.

Termination of Management Agreement. During the first quarter of 2006, we reached an agreement with Marriott Hotel Services, Inc. (MHS), the manager of its Marriott Rancho Las Palmas Resort, to terminate the hotel management contract with MHS on or before December 29, 2006. Under the agreement, we are required to pay MHS an initial termination fee of \$5.0 million upon termination, which was paid in July 2006, and an additional termination fee of \$5.0 million in 2009, provided that the additional termination fee will not be required if we have entered into a qualifying hotel management contract with MHS, or an affiliate, by December 31, 2008. We also agreed to reimburse MHS for certain severance and relocation costs for MHS employees at the resort. We recorded a charge of \$9.8 million for the present value of the termination fees and estimated severance and relocation costs. This charge is included in income (loss) from discontinued operations in the accompanying consolidated statement of operations for the nine months ended September 30, 2006.

Redemption of Units of Non-Managing Member Limited Liability Company Interests in SH Funding. We offered all holders of units of non-managing member limited liability company interests in SH Funding an opportunity to redeem their interests on January 20, 2006 by our waiver of the transfer restrictions in the limited liability company agreement of SH Funding. On January 20, 2006, holders of 7,229,590 limited liability interests in SH Funding redeemed their interests in exchange for an equal number of shares of our common stock. As of September 30, 2006, holders of an additional 53,367 limited liability interests in SH Funding had redeemed their interests in exchange for an equal number of shares of our common stock. After these exchanges, our ownership share of SH Funding increased to approximately 99%.

In October 2005, we sold two hotels and in the third quarter of 2006, we sold two hotels. The results of operations for these hotels are included in Income (loss) from discontinued operations for the three months ended September 30, 2006 and 2005. The comments below regarding revenue and operating expenses do not address the operating results of the hotels that we sold during 2005 and 2006 that are included in Income (loss) from discontinued operations.

Operating Income. Operating income for the total portfolio increased \$15.0 million, or 171.7%, to \$23.7 million for the three months ended September 30, 2006, from \$8.7 million for the three months ended September 30, 2005. This increase in operating income is primarily due to the following:

- (a) a \$3.2 million increase attributable to the Comparable REIT Assets as described below;
- (b) a \$4.8 million increase attributable to the Ritz-Carlton Laguna Niguel, which we purchased July 7, 2006;
- (c) a \$2.2 million increase attributable to the InterContinental Prague, as we purchased our joint venture partner's 65% interest on August 3, 2006 and began consolidating the operating results of the InterContinental Prague;
- (d) a \$0.6 million increase attributable to the Marriott London Grosvenor Square, which we purchased August 31, 2006;
- (e) a \$3.6 million increase attributable to the Westin St. Francis, which we purchased June 1, 2006;
- (f) a \$0.1 million increase attributable to the Fairmont Scottsdale Princess, which we purchased September 1, 2006;
- (g) a \$0.2 million increase attributable to the Hyatt Regency New Orleans which ceased significant operations in September 2005 due to Hurricane Katrina; and
- (h) a \$0.8 million increase attributable to the Fairmont Chicago, which we purchased in September 2005; partially offset by
- (i) a \$0.4 million decrease attributable to an increase in corporate expenses as described below; and
- (j) a \$0.2 million decrease attributable to the Four Seasons Washington D.C., which we purchased March 1, 2006.

Due to the events mentioned above, we believe that an analysis of changes in each line item comprising total portfolio hotel operating income is not reflective of the operating results of the hotels. A more relevant approach is to analyze the changes in hotel operating income of the Comparable REIT Assets for the three months ended September 30, 2006 and 2005, as described below.

Total Revenues. For the total portfolio, hotel operating revenues, including lease revenue, increased \$94.2 million or 87.9% to \$201.4 million for the three months ended September 30, 2006, from \$107.2 million for the three months ended September 30, 2005.

For the Comparable REIT Assets, hotel operating revenues, including lease revenue, increased \$7.6 million, or 8.0%, to \$102.4 million for the three months ended September 30, 2006, from \$94.8 million for the three months ended September 30, 2005.

Rooms. For the total portfolio, room revenue increased \$51.6 million, or 90.7%, to \$108.6 million for the three months ended September 30, 2006, from \$56.9 million for the three months ended September 30, 2005. RevPAR from our total portfolio excluding leased properties for the three months ended September 30, 2006 increased by 35.6% from the three months ended September 30, 2005. The components of RevPAR from our total portfolio excluding leased properties for the three months ended September 30, 2006 and 2005 are summarized as follows:

	Three Months Ended September 30,	
	2006	2005
Occupancy	75.9%	69.3%
Average daily rate	\$ 226.22	\$ 182.81
RevPAR	\$ 171.67	\$ 126.63

For the Comparable REIT Assets, room revenue increased \$4.3 million, or 8.7%, to \$53.1 million for the three months ended September 30, 2006, from \$48.9 million for the three months ended September 30, 2005. RevPAR from our Comparable REIT Assets excluding leased properties for the three months ended September 30, 2006 increased by 9.0% from the three months ended September 30, 2005. The components of RevPAR from our Comparable REIT Assets excluding leased properties for the three months ended September 30, 2006 and 2005 are summarized as follows:

	Three Months Ended September 30,	
	2006	2005
Occupancy	70.6%	71.7%
Average daily rate	\$ 210.33	\$ 189.81
RevPAR	\$ 148.45	\$ 136.15

The 9.0% increase in RevPAR for the Comparable REIT Assets excluding leased properties resulted from a 1.1 percentage-point decrease in occupancy and a 10.8% increase in the average daily rate. The increase in RevPAR seen in many of our major urban markets is a reflection of the improving economic conditions in these markets this year. Increases in RevPAR for the three months include the Hyatt Regency Phoenix with a 25.1% increase and the InterContinental Chicago with a 24.3% increase, partially offset by a 16.5% decrease at the Four Seasons Mexico City. The RevPAR decrease at the Four Seasons Mexico City was primarily caused by the political unrest and protests surrounding Mexico's presidential election.

Food and Beverage. For the total portfolio, food and beverage revenue increased \$29.3 million, or 84.9%, to \$63.9 million for the three months ended September 30, 2006, from \$34.5 million for the three months ended September 30, 2005.

For the Comparable REIT Assets, food and beverage revenue increased \$0.4 million, or 1.3%, to \$31.4 million for the three months ended September 30, 2006, from \$31.0 million for the three months ended September 30, 2005. This increase is primarily driven by the increase of \$0.2 million in food and beverage revenue at the Hyatt Regency Phoenix, \$0.6 million at the Ritz Carlton Half Moon Bay and \$0.6 million at the Marriott Lincolnshire. These increases are partially offset by a decrease of \$0.5 million in food and beverage revenue at the Four Seasons Mexico City and \$0.4 million at the Hyatt Regency LaJolla.

Other Hotel Operating Revenue. For the total portfolio, other hotel operating revenue increased \$10.9 million, or 106.2% to \$21.1 million for the three months ended September 30, 2006, from \$10.2 million for the three months ended September 30, 2005.

For the Comparable REIT Assets, other hotel operating revenue increased \$0.5 million, or 5.0% to \$9.9 million for the three months ended September 30, 2006, from \$9.4 million for the three months ended September 30, 2005. The increase is primarily related to \$0.1 million of spa and health club revenues, \$0.2 million of garage revenues and the net effect of various other revenues.

Table of Contents

Lease Revenue. For the total portfolio and Comparable REIT Assets, lease revenue increased \$2.4 million, or 44.0% for the three months ended September 30, 2006 as compared to the same period in 2005. Lease revenue for the three months ended September 30, 2006 and 2005 includes lease revenue from the Paris Marriott and Hamburg Marriott. The increase in lease revenue is primarily due to the increase in revenues at the Paris Marriott.

Operating Costs and Expenses

Hotel Operating Expenses. The following table presents the components of our hotel operating expenses for the three months ended September 30, 2006 and 2005, including the amount and percentage changes in these results between the two periods (in thousands).

For the total portfolio, hotel operating expenses increased \$67.9 million, or 86.7% for the three months ended September 30, 2006 as compared to the same period in 2005.

For the Comparable REIT Assets, hotel operating expenses increased \$3.2 million, or 4.7% for the three months ended September 30, 2006 as compared to the same period in 2005. The increase in hotel operating expenses is primarily related to increase in salaries, wages and related benefits (\$0.5 million), contract services (\$0.8 million), travel agent commissions (\$0.3 million), marketing (\$0.3 million), utilities (\$0.3 million), insurance (\$0.4 million), real estate taxes (\$0.2 million) and management fees (\$0.4 million).

Lease Expense. As a result of sale and leaseback transactions applicable to the Paris Marriott and Hamburg Marriott, we record lease expense on our statements of operations. In connection with those transactions, we recorded a deferred gain.

For the total portfolio and the Comparable REIT Assets, net lease expense related to the Paris Marriott and the Hamburg Marriott of \$3.8 million and \$3.0 million for the three months ended September 30, 2006 and 2005, respectively, includes an offset for the realized portion of the deferred gain of \$1.1 and \$1.0 million, respectively.

Depreciation and Amortization. For the total portfolio, depreciation and amortization increased \$10.1 million, or 86.3%, for the three months ended September 30, 2006 as compared to the same period in 2005.

For the Comparable REIT Assets, depreciation and amortization increased \$0.3 million, or 2.6%, for the three months ended September 30, 2006 as compared to the same period in 2005.

Corporate Expenses. Corporate expenses increased by \$0.4 million to \$5.8 million for the three months ended September 30, 2006 from \$5.4 million for the same period in 2005. These expenses consist primarily of payroll and related costs, restricted stock unit plan expense, professional fees, travel expenses and office rent. The increase of \$0.4 million is primarily attributable to:

a \$0.1 million increase in compensation expense related to restricted stock units issued,

Table of Contents

a \$0.2 million increase related to severance expense, and

a \$0.6 million increase in payroll expenses primarily due to an increase in the number of employees, offset by

a \$0.6 million decrease in professional fees primarily applicable to Sarbanes Oxley requirements and tax consulting.

Interest Expense, Net. The \$6.0 million increase in interest expense, net for the three months ended September 30, 2006 as compared to the three months ended 2005 was primarily due to:

a \$7.7 million increase attributable to higher average borrowings; and

a \$0.7 million increase due to higher average rates; offset by

a \$1.7 million increase in capitalized interest;

a \$0.2 million decrease in amortization of deferred financing costs; and

a \$0.5 million increase in interest income.

The components of Interest expense, net for the three months ended September 30, 2006 and 2005 are summarized as follows (in thousands):

Other income, net amounted to \$1.0 million for the three months ended September 30, 2006 and \$1.4 million for the three months ended September 30, 2005. The net change of \$0.4 million is primarily attributable to the following factors:

We have an asset management agreement with SHC LLC that commenced on June 29, 2004, under which we manage the day-to-day business of SHC LLC and its hotels for an initial annual fee of \$5.0 million. SHC LLC sold three properties in 2005 and three properties in 2006. As a result of the disposition of these properties, the asset management fee was reduced to approximately \$0.7 million annually. During the three months ended September 30, 2006 and 2005, we recognized \$0.4 million and \$1.3 million, respectively, of asset management fees from SHC LLC, which is included in Other income, net in the accompanying statements of operations. On August 15, 2006, SHC LLC notified us that effective November 15, 2006 it will voluntarily terminate the agreement. The \$0.4 million recognized in the three months ended September 30, 2006 includes a termination fee of \$0.25 million.

SHR earns fees under an asset management agreement with the Hotel del Coronado joint venture. SHR recognizes income of 55% of these fees, representing the percentage of the venture not owned by SHR. For the three months ended September 30, 2006, we recognized fees amounting to \$0.3 million.

We had non-income related state, local and franchise taxes of \$0.3 million and \$0.2 million for the three months ended September 30, 2006 and 2005, respectively.

Income Tax Benefit. We made an election to qualify, beginning in our 2004 tax year, as a REIT under Sections 856 through 860 of the Internal Revenue Code. As a REIT, we generally will not be subject to U.S. federal income tax if we meet the REIT requirements of the code. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate tax rates. Even if we qualify for taxation as a REIT, we may be subject to state and local income taxes and to U.S. federal income tax and excise tax on our undistributed income. In addition, taxable income from our taxable REIT subsidiaries is subject to U.S. federal, state and local income taxes. Also, the foreign countries where we have operations do not recognize REITs under their respective tax law. Accordingly, we recognize income taxes for these jurisdictions in accordance with GAAP.

For the three months ended September 30, 2006 and 2005, income tax benefit related to continuing operations is summarized as follows (in thousands):

Minority Interests. We record minority interest income or expense based on the percentage of SH Funding we do not own. The earnings or losses from the InterContinental Chicago and Miami hotels attributable to the 15% minority interest are reflected as minority interest expense. Minority interest expense (excluding discontinued operations) decreased by \$0.3 million to \$0.1 million of expense for the three months ended September 30, 2006 from \$0.4 million for the three months ended September 30, 2005 primarily due to the redemption of 7.2 million operating partnership units for common shares that occurred in the first quarter 2006.

Income (Loss) from Discontinued Operations. As described under *Recent Trends and Events Sales of Hotels*, we sold two hotels in the fourth quarter of 2005 and two hotels in the third quarter of 2006, and consistent with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, reclassified the results of operations for these hotels as discontinued operations for the three months ended September 30, 2006 and 2005. Income (loss) from discontinued operations amounted to \$87.9 and \$(0.6) million for the three months ended September 30, 2006 and 2005, respectively. The increase of \$88.6 million in income from discontinued operations is primarily due to the gain on sale of the two hotels sold in the third quarter of 2006.

The comments below regarding revenue and operating expenses do not address the operating results of the hotels that we sold during 2005 and 2006 that are included in Income from discontinued operations.

Operating Income. Operating income for the total portfolio increased \$24.9 million, or 73.2%, to \$59.0 million for the nine months ended September 30, 2006, from \$34.0 million for the nine months ended September 30, 2005. This increase in operating income is primarily due to the following:

- (a) a \$10.6 million increase attributable to the Comparable REIT Assets as described below;
- (b) a \$4.8 million increase attributable to the Ritz-Carlton Laguna Niguel, which we purchased July 7, 2006;
- (c) a \$2.2 million increase attributable to the InterContinental Prague, as we purchased our joint venture partner's 65% interest on August 3, 2006 and began consolidating the operating results of the InterContinental Prague;
- (d) a \$0.6 million increase attributable to the Marriott London Grosvenor Square, which we purchased August 31, 2006;
- (e) a \$6.4 million increase attributable to the InterContinental hotels in Chicago and Miami, which we purchased in the second quarter of 2005;
- (f) a \$5.1 million increase attributable to the Westin St. Francis, which we purchased June 1, 2006;
- (g) a \$0.1 million increase attributable to the Fairmont Scottsdale Princess, which we purchased September 1, 2006;
- (h) a \$3.6 million increase attributable to the Four Seasons Washington D.C., which we purchased March 1, 2006; and
- (i) a \$3.3 million increase attributable to the Fairmont Chicago, which we purchased in September 2005; partially offset by
- (j) a \$8.1 million decrease attributable to the Hyatt Regency New Orleans which ceased significant operations in September 2005 due to Hurricane Katrina; and
- (k) a \$3.6 million decrease attributable to an increase in corporate expenses as described below.

Due to the events mentioned above, we believe that an analysis of changes in each line item comprising total portfolio hotel operating income is not reflective of the operating results of the hotels. A more relevant approach is to analyze the changes in hotel operating income of the Comparable REIT Assets for the nine months ended September 30, 2006 and 2005, as described below.

Total Revenues. For the total portfolio, hotel operating revenues, including lease revenue, increased \$167.0 million or 53.9% to \$476.8 million for the nine months ended September 30, 2006, from \$309.8 million for the nine months ended September 30, 2005.

For the Comparable REIT Assets, hotel operating revenues, including lease revenue, increased \$18.1 million, or 8.6%, to \$229.3 million for the nine months ended September 30, 2006, from \$211.2 million for the nine months ended September 30, 2005.

Rooms. For the total portfolio, room revenue increased \$94.1 million, or 57.2%, to \$258.8 million for the nine months ended September 30, 2006, from \$164.7 million for the nine months ended September 30, 2005. RevPAR from our total portfolio excluding leased properties for the nine months ended September 30, 2006 increased by 27.9% from the nine months ended September 30, 2005. The components of RevPAR from our total portfolio excluding leased properties for the nine months ended September 30, 2006 and 2005 are summarized as follows:

	Nine Months Ended September 30,	
	2006	2005
Occupancy	75.0%	70.5%
Average daily rate	\$ 226.39	\$ 188.15
RevPAR	\$ 169.75	\$ 132.69

Table of Contents

For the Comparable REIT Assets, room revenue increased \$9.5 million, or 9.1%, to \$113.2 million for the nine months ended September 30, 2006, from \$103.7 million for the nine months ended September 30, 2005. RevPAR from our Comparable REIT Assets excluding leased properties for the nine months ended September 30, 2006 increased by 9.0% from the nine months ended September 30, 2005. The components of RevPAR from our Comparable REIT Assets excluding leased properties for the nine months ended September 30, 2006 and 2005 are summarized as follows:

	Nine Months Ended September 30,	
	2006	2005
Occupancy	72.2%	72.4%
Average daily rate	\$ 233.39	\$ 213.67
RevPAR	\$ 168.49	\$ 154.60

The 9.0% increase in RevPAR for the Comparable REIT Assets excluding leased properties resulted from a 0.2 percentage-point decrease in occupancy and a 9.2% increase in the average daily rate. The increase in RevPAR seen in many of our major urban markets is a reflection of the improving economic conditions in these markets this year. Increases in RevPAR for the nine months include the Ritz-Carlton Half Moon Bay with a 10.5% increase, the Four Seasons Punta Mita with a 15.9% increase and the Hyatt Regency LaJolla with an 8.7% increase.

Food and Beverage. For the total portfolio, food and beverage revenue increased \$54.5 million, or 54.0%, to \$155.5 million for the nine months ended September 30, 2006, from \$101.0 million for the nine months ended September 30, 2005.

For the Comparable REIT Assets, food and beverage revenue increased \$5.1 million, or 7.4%, to \$73.3 million for the nine months ended September 30, 2006, from \$68.3 million for the nine months ended September 30, 2005. This increase is primarily driven by the increase of \$0.4 million in food and beverage revenue at the Hyatt Regency Phoenix, \$0.4 million at the Loews Santa Monica Beach Hotel, \$2.2 million at the Ritz-Carlton Half Moon Bay, \$1.8 million at the Marriott Lincolnshire and \$0.3 million at the Hyatt Regency LaJolla.

Other Hotel Operating Revenue. For the total portfolio, other hotel operating revenue increased \$16.1 million, or 52.6% to \$46.8 million for the nine months ended September 30, 2006, from \$30.7 million for the nine months ended September 30, 2005.

For the Comparable REIT Assets, other hotel operating revenue increased \$1.3 million, or 5.1% to \$27.0 million for the nine months ended September 30, 2006, from \$25.7 million for the nine months ended September 30, 2005. The increase is primarily related to \$0.5 million of spa and health club revenues, \$0.3 million of garage revenues and the net effect of various other revenues.

Lease Revenue. For the total portfolio and Comparable REIT Assets, lease revenue increased \$2.2 million, or 16.4% for the nine months ended September 30, 2006 as compared to the same period in 2005. Lease revenue for the nine months ended September 30, 2006 and 2005 includes lease revenue from the Paris Marriott and Hamburg Marriott.

For the Comparable REIT Assets, hotel operating expenses increased \$6.7 million, or 4.5% for the nine months ended September 30, 2006 as compared to the same period in 2005. The increase in hotel operating expenses is primarily related to an increase in salaries, wages and related benefits (\$4.1 million), travel agent commissions (\$0.4 million), credit card commissions (\$0.4 million), food and beverage cost of sales (\$0.2 million), utilities (\$0.7 million), repairs and maintenance (\$0.3 million), real estate taxes (\$0.2 million) and sales and marketing costs (\$0.3 million).

Lease Expense. As a result of sale and leaseback transactions applicable to the Paris Marriott and Hamburg Marriott, we record lease expense on our statements of operations. In connection with those transactions, we recorded a deferred gain.

For the total portfolio and the Comparable REIT Assets, net lease expense related to the Paris Marriott and the Hamburg Marriott of \$10.4 million and \$10.0 million, respectively, for the nine months ended September 30, 2006 and 2005 includes an offset for the realized portion of the deferred gain of \$3.2 million and \$3.3 million, respectively.

Depreciation and Amortization. For the total portfolio, depreciation and amortization increased \$17.6 million, or 55.5%, for the nine months ended September 30, 2006 as compared to the same period in 2005.

For the Comparable REIT Assets, depreciation and amortization increased \$0.3 million, or 1.4%, for the nine months ended September 30, 2006 as compared to the same period in 2005.

Corporate Expenses. Corporate expenses increased by \$3.6 million to \$18.4 million for the nine months ended September 30, 2006 from \$14.8 million for the same period in 2005. These expenses consist primarily of payroll and related costs, restricted stock unit plan expense, professional fees, travel expenses and office rent. The increase of \$3.6 million is primarily attributable to:

a \$0.8 million increase in compensation expense related to restricted stock units issued,

a \$0.6 million increase related to severance expense,

a \$2.6 million increase in payroll expenses primarily due to an increase in the number of employees, and

Edgar Filing: STRATEGIC HOTELS & RESORTS, INC - Form 10-Q

a \$0.6 million increase related to travel expenses; offset by

a \$0.9 million decrease in professional fees primarily applicable to Sarbanes Oxley requirements and tax consulting.

Interest Expense, Net. The \$2.9 million increase in interest expense, net for the nine months ended September 30, 2006 as compared to the nine months ended 2005 was primarily due to:

a \$1.3 million increase due to higher average rates; offset by

a \$5.0 million increase in capitalized interest;

a \$0.8 million decrease in amortization of deferred financing costs; and

a \$2.2 million increase in interest income.

We own a 31% interest in and act as asset manager for a joint venture with two unaffiliated parties that is developing the Four Seasons Residence Club Punta Mita, a luxury vacation home product on the property adjacent to the Company's Four Seasons Punta Mita Resort hotel that is sold in fractional ownership interests. Our equity in earnings of the joint venture amounted to \$0.6 million for the nine months ended September 30, 2006.

Other Income, Net. Other income, net includes asset management fees, non-income related state, local and franchise taxes, foreign exchange realized gains and losses as well as other miscellaneous income and expenses. Other income, net amounted to \$3.7 million for the nine months ended September 30, 2006 and \$4.3 million for the nine months ended September 30, 2005. The net change of \$0.7 million is primarily attributable to the following factors:

We have an asset management agreement with SHC LLC that commenced on June 29, 2004, under which we manage the day-to-day business of SHC LLC and its hotels for an initial annual fee of \$5.0 million. SHC LLC sold three properties in 2005 and three properties in 2006. As a result of the disposition of these properties, the asset management fee was reduced to approximately \$0.7 million annually. During the nine months ended September 30, 2006 and 2005, we recognized \$1.8 million and \$3.8 million, respectively, of asset management fees from SHC LLC, which is included in Other income, net in the accompanying statements of operations. On August 15, 2006, SHC LLC notified us that effective November 15, 2006 it will voluntarily terminate the agreement. The \$1.8 million recognized in the nine months ended September 30, 2006 includes a termination fee of \$0.25 million.

SHR earns fees under an asset management agreement with the Hotel del Coronado joint venture. SHR recognizes income of 55% of these fees, representing the percentage of the venture not owned by SHR. For the period ended September 30, 2006, we recognized fees amounting to \$1.8 million.

We had non-income related state, local and franchise taxes of \$1.1 million and \$0.6 million for the nine months ended September 30, 2006 and 2005, respectively.

Income Tax Expense. We made an election to qualify, beginning in our 2004 tax year, as a REIT under Sections 856 through 860 of the Internal Revenue Code. As a REIT, we generally will not be subject to U.S. federal income tax if we meet the REIT requirements of the code. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal income tax (including any applicable alternative minimum tax) on our taxable income at regular corporate tax rates. Even if we qualify for taxation as a REIT, we may be subject to state and local income taxes and to U.S. federal income tax and excise tax on our undistributed income. In addition, taxable income from our taxable REIT subsidiaries is subject to U.S. federal, state and local income taxes. Also, the foreign countries where we have operations do not recognize REITs under their respective tax law. Accordingly, we recognize income taxes for these jurisdictions in accordance with GAAP.

Minority Interests. We record minority interest income or expense based on the percentage of SH Funding we do not own. Minority interest expense (excluding discontinued operations) decreased by \$1.9 million to \$1.4 million of expense for the nine months ended September 30, 2006 from \$3.3 million for the nine months ended September 30, 2005 primarily due to the redemption of 7.2 million operating partnership units for common shares that occurred in the first quarter.

Income from Discontinued Operations. As described under **Recent Trends and Events Sales of Hotels**, we sold two hotels in the fourth quarter of 2005 and one hotel in July 2006, and consistent with Statement of Financial Accounting Standards (SFAS) No. 144, **Accounting for the Impairment or Disposal of Long-Lived Assets**, reclassified the results of operations for these hotels as discontinued operations for the nine months ended September 30, 2006 and 2005. Income from discontinued operations amounted to \$87.1 million and \$3.2 million for the nine months ended September 30, 2006 and 2005, respectively. The increase of \$83.9 million in income from discontinued operations is primarily due to the gain on sale of the two hotels sold in the third quarter of 2006.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to pay for operating expenses and other expenditures, including:

recurring maintenance expenditures necessary to maintain our properties properly;

interest expense and scheduled principal payments on outstanding indebtedness;

capital expenditures incurred to improve our properties;

acquisitions;

future distributions paid to our common stockholders to maintain our REIT status;

future distributions paid to our preferred stockholders; and

future distributions to minority interests.

Table of Contents

Historically, we have satisfied our short-term liquidity requirements through our existing working capital and cash provided by our operations. We believe that our existing working capital, our revolving credit facility described below and cash provided by operations will continue to be sufficient to meet our short-term liquidity requirements for at least the next 12 months.

Capital expenditures for the nine months ended September 30, 2006 and 2005 amounted to \$66.1 million and \$22.4 million, respectively. Capital expenditures for the nine months ended September 30, 2006 and 2005 includes \$27.4 million and \$2.0 million, respectively, to redevelop the Hyatt Regency New Orleans. Included in the 2006 and 2005 amounts are \$5.7 million and \$0.7 million of capitalized interest, respectively. For the remainder of the year ended December 31, 2006, we expect to fund hotel FF&E reserve projects of approximately \$8.2 million and owner-funded projects of approximately \$14.4 million. In addition, we expect to fund expenditures for reconstruction at the Hyatt Regency New Orleans through insurance proceeds and our line of credit, depending on the timing of the receipt of the insurance proceeds.

Bank credit facility. On November 9, 2005, we entered into a bank credit agreement with a group of lenders led by Wachovia Capital Markets, LLC and Deutsche Bank Securities Inc. This agreement replaced the previous agreement that was entered into on June 29, 2004. That agreement provided for a \$125.0 million revolving loan and was scheduled to expire November 9, 2009, subject to a one-year extension at the borrowers option. On May 30, 2006 and August 28, 2006, we amended the agreement to increase the revolving loan to \$150.0 and \$225.0 million, respectively. On August 28, 2006, we also amended the agreement to increase the size of the letter of credit sub-facility from \$25.0 million to \$50.0 million. SHR guaranteed the loan and pledged its interest in SH Funding as collateral for this loan. Certain subsidiaries of SH Funding also guaranteed the loan and SH Funding's interest in certain subsidiaries have been pledged as collateral for this loan. Interest is payable monthly at LIBOR plus a spread of 1.50% to 2.75% (1.50% at September 30, 2006) depending on a leverage test. Additionally, there is an unused commitment fee of 0.30% per annum of the unused revolver balance if the average daily-unused amount is less than \$75.0 million or 0.20% per annum of the unused revolver balance if the average daily-unused amount is greater than \$75.0 million. As of November 7, 2006 there was \$116.0 million outstanding under this facility. As of November 7, 2006, there were outstanding letters of credit of \$12.0 million.

Our bank credit facility contains financial and other restrictive covenants. As of September 30, 2006, our ability to borrow under this facility is subject to financial covenants including:

minimum tangible net worth of \$325.0 million, plus 75% of proceeds we receive from any new issuance of common stock;

minimum ratio of consolidated EBITDA to cash interest expense of 2.0;

minimum ratio of consolidated EBITDA to fixed charges, as defined, of 1.2;

the ratio of consolidated indebtedness to gross asset value may not exceed 75%;

borrowings outstanding under the facility shall not exceed 2.5 times adjusted Net Operating Income (NOI) for the last 12 months;

the net asset value of qualified properties must be more than 1.5 times the revolving loan commitment amount;

total construction costs must not exceed 15% of the gross asset value of all properties combined (excluding construction costs related to the Hyatt Regency New Orleans);

Table of Contents

the net asset value of unconsolidated subsidiaries must not exceed 25% of the gross asset value of all properties combined; and

the sum of total construction costs and the net asset value of unconsolidated subsidiaries described above must not exceed 35% of the gross asset value of all properties combined.

Our compliance with these covenants in future periods will depend substantially on the financial results of our hotels, including business interruption insurance proceeds related to damage at the Hyatt Regency New Orleans, the timing and recognition of which is uncertain. The credit facility also contains customary restrictive covenants, including the following:

asset sales must be for at least 85% cash or cash equivalents, on a bona fide arms length basis;

restricted payments, including dividends, may not exceed 90% of funds from operations, as defined (subject to dividend payments to preserve our REIT status);

there may be no additional indebtedness or guaranties other than (i) property-level non-recourse indebtedness on to-be-acquired assets, (ii) the \$208.5 million fixed rate mortgage loan and the \$350.0 million floating rate note that were issued pursuant to indentures with LaSalle Bank, N.A., as note trustee for the benefit of the noteholders; (iii) certain existing mortgage indebtedness; and (iv) ordinary course obligations; and

neither we nor SH Funding will be allowed to enter into a merger or a similar transaction unless SH Funding is the surviving entity and there is no change in the type of business conducted, or the transaction is approved in advance by the lenders.

As of September 30, 2006, we are compliant with the above financial and other restrictive covenants.

Our long-term liquidity requirements consist primarily of funds necessary to pay for scheduled debt maturities, renovations, expansions and other non-recurring capital expenditures that need to be made periodically to our properties, and the costs associated with acquisitions of properties that we pursue.

Historically, we have satisfied our long-term liquidity requirements through various sources of capital, including our existing working capital, cash provided by operations, long-term property mortgage indebtedness, bank credit facilities and through the issuance of additional equity securities. We believe that these sources of capital will continue to be available to us in the future to fund our long-term liquidity requirements. However, there are certain factors that may have a material adverse effect on our access to these capital sources. Our ability to incur additional debt is dependent upon a number of factors, including our degree of leverage, the value of our unencumbered assets (if any) and borrowing restrictions imposed by existing lenders. Our ability to raise funds through the issuance of equity securities is dependent upon, among other things, general market conditions for REITs and market perceptions about us. We will continue to analyze which source of capital is most advantageous to us at any particular point in time, but equity and debt financing may not be consistently available to us on terms that are attractive or at all.

Equity Securities

As of September 30, 2006, we had 755,480 restricted stock units outstanding, of which 403,533 were vested. The following table presents the changes in our issued and outstanding shares of common stock and operating partnership units since December 31, 2005 (excluding restricted stock units):

Reserve Funds for Capital Expenditures

We maintain each of our hotels in excellent repair and condition and in conformity with applicable laws and regulations and in accordance with the agreed upon requirements in our management agreements with our preferred operators.

We are obligated to maintain reserve funds for capital expenditures at our hotels (including the periodic replacement or refurbishment of furniture, fixtures and equipment) as determined pursuant to the management agreements with our preferred operators. As of September 30, 2006, \$22.2 million was in restricted cash reserves for future capital expenditures. Our agreements with hotel operators require us to reserve funds at amounts ranging between 3.0% and 5.0% of the individual hotel's annual revenues and require the funds to be set aside in restricted cash. Expenditures are capitalized as incurred and depreciation begins when the related asset is placed in service. Any unexpended amounts will remain our property upon termination of the management and operating contracts.

Derivative Financial Instruments

We use derivative financial instruments to manage, or hedge, interest rate risks related to our borrowings, from lines of credit to medium- and long-term financings. Instruments that meet the hedging criteria are formally designated as hedges at the inception of the derivative contract. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors. We use outside consultants to determine the fair values of our derivative instruments. Such methods incorporate standard market conventions and techniques such as discounted cash flow analysis and option pricing models to determine fair value. All methods of estimating fair value result in general approximation of value, and such value may or may not actually be realized.

See Item 3. Quantitative and Qualitative Disclosures About Market Risk for additional disclosures related to derivatives and interest rate risk.

Off-Balance Sheet Arrangements

On January 9, 2006, our subsidiaries closed the acquisition of a 45% joint venture ownership interest in SHC KSL Partners, LP (Hotel Venture), the existing owner of the Hotel del Coronado in San Diego, California, and in HdC North Beach Development, LLLP (North Beach Venture), the owner of an adjacent land parcel under development, for our pro rata share of an agreed upon market value of \$745.0 million. The Hotel Venture and the North Beach Venture are collectively referred to as the Partnerships. We own the Hotel Venture and North Beach Venture in partnership with KKR and KSL Resorts. The Hotel Venture has obtained \$610.0 million of commercial mortgage-backed securities and mezzanine debt financing and a \$20.0 million revolving credit facility, concurrent with our acquisition, which are secured by, among other things, a mortgage on the Hotel del Coronado. At September 30, 2006, there was no amount outstanding on the revolving credit facility. We account for this investment under the equity method of accounting. At September 30, 2006, our investment in the Partnerships amounted to \$70.0 million. Our equity in losses of the Partnerships is \$0.5 million for the nine months ended September 30, 2006.

Further, on January 9, 2006, the North Beach Venture entered into a \$59.0 million construction loan with GMAC Commercial Mortgage Corporation to be used in connection with the construction of a 78-room beachfront, luxury condominium-hotel development on the North Beach Venture land parcel. The construction loan bears interest at LIBOR plus 2.50% per annum. At September 30, 2006, there was \$17.1 million outstanding on the construction loan.

We earn fees under an asset management agreement with the Partnerships. We receive fees amounting to 1% of the ventures' revenues and 2% of the ventures' development costs. In addition, we earn financing fees of 0.325% of any debt principal placed on behalf of the Hotel Venture as well as certain incentive fees as provided by the asset management agreements. We recognize income of 55% of these fees, representing the percentage of the Partnerships not owned by us.

Table of Contents

We own a 31% interest in and act as asset managers for a joint venture with two unaffiliated parties that is developing the Four Seasons Residence Club Punta Mita, a luxury vacation home product that will be sold in fractional ownership interests on the property adjacent to our Four Seasons Punta Mita Resort hotel in Mexico. We account for this investment under the equity method of accounting. At September 30, 2006, our investment in the joint venture amounted to \$3.2 million. Our equity in earnings of the joint venture is \$0.6 million for the nine months ended September 30, 2006.

Related Party Transactions

We have in the past engaged in and currently engage in transactions with related parties. See Item 1. Unaudited Condensed Consolidated Financial Statements Note 12. Related Party Transactions for a complete discussion of our transactions with related parties.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

We evaluate our estimates on an ongoing basis. We base our estimates on historical experience, information that is currently available to us and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the most significant judgments and estimates used in the preparation of our consolidated financial statements.

Impairment of Long-Lived Assets. We periodically review each property for possible impairment. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. In this analysis of fair value, we use discounted cash flow analysis to estimate the fair value of our properties taking into account each property's expected cash flow from operations, holding period and proceeds from disposing of the property. The factors addressed in determining estimated proceeds from disposition include anticipated operating cash flow in the year of disposition, terminal capitalization rate and selling price per room. Judgment is required in determining the discount rate applied to estimated cash flows, growth rate of the properties, the need for capital expenditures, as well as specific market and economic conditions. Additionally, the classification of these assets as held for sale requires the recording of these assets at their net realizable value which can affect the amount of impairment recorded.

Acquisition Related Assets and Liabilities. Accounting for the acquisition of a hotel property as a purchase transaction requires an allocation of the purchase price to the assets acquired and the liabilities assumed in the transaction at their respective estimated fair values. The most difficult estimations of individual fair values are those involving long-lived assets, such as property, plant and equipment and intangible assets. We use all available information to make these fair value determinations and, for hotel acquisitions, engage an independent valuation specialist to assist in the fair value determination of the acquired long-lived assets. Due to inherent subjectivity in determining the estimated fair value of long-lived assets, we believe that the recording of acquired assets and liabilities is a critical accounting policy.

Table of Contents

Depreciation and Amortization Expense. Depreciation expense is based on the estimated useful life of our assets. The life of the assets is based on a number of assumptions including cost and timing of capital expenditures to maintain and refurbish the asset, as well as specific market and economic conditions. While management believes its estimates are reasonable, a change in the estimated lives could affect depreciation expense and net income or the gain or loss on the sale of any of the assets.

Derivative Instruments and Hedging Activities. Derivative instruments and hedging activities require management to make judgments on the nature of its derivatives and their effectiveness as hedges. These judgments determine if the changes in fair value of the derivative instruments are reported in the consolidated statements of operations as a component of net income or as a component of comprehensive income and as a component of equity on the consolidated balance sheets. While management believes its judgments are reasonable, a change in a derivative's effectiveness as a hedge could affect expenses, net income and equity.

New Orleans Estimated Property Damage. Subsequent to the hurricane in New Orleans, we estimated the net book value of the property damage sustained by the property. In conjunction with our advisors, consultants and insurance adjustors, we initially determined approximately \$29.7 million of the book value of the property was damaged. Subsequent to this determination we revised our estimate and have written off an additional \$3.0 million of the building's net book value during the first quarter of 2006. While we have substantially completed our evaluation of the impact of the hurricane on the hotel, our estimate is subject to change as more information becomes available and could have an effect on our financial statements in the future.

Disposal of Long-Lived Assets. We classify assets as held for sale in accordance with the criteria stated in Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. Assets identified as held for sale are reclassified on the balance sheet and the related results of operations are reclassified as discontinued operations on the income statement. While these classifications do not have an affect on total assets, net equity or net income, they affect the classifications within each statement. Additionally, a determination to classify an asset as held for sale affects depreciation expense as long-lived assets are not depreciated while classified as held for sale.

Seasonality

The lodging business is seasonal in nature, and we experience some seasonality in our business. Revenues for hotels in tourist areas, those with group business, and in areas driven by greater climate changes are generally seasonal. Quarterly revenues also may be adversely affected by events beyond our control, such as extreme weather conditions, terror attacks or alerts, airline strikes, economic factors and other considerations affecting travel.

The Marriott domestic hotels report their results of operations using a fiscal year consisting of thirteen four-week periods. As a result, for our domestic Marriott branded properties, for all years presented, the first three quarters consist of 12 weeks each and the fourth quarter consists of 16 weeks.

To the extent that cash flows from operations are insufficient during any quarter, due to temporary or seasonal fluctuations in revenues, we may have to enter into short-term borrowings to pay operating expenses and make distributions to our stockholders.

New Accounting Standards

We are not aware of any new accounting standards or interpretations that we believe will have a material effect on our financial statements during 2006.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

Our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. The majority of our outstanding debt has a fixed interest rate. We use some derivative financial instruments to manage, or hedge, interest rate risks related to our borrowings, from lines of credit to medium- and long-term financings. We generally require that hedging derivative instruments be effective in reducing the interest rate risk exposure that they are designed to hedge. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors.

See Item 1. Financial Statements Note 9 Derivatives for information on our interest rate cap and swap agreements outstanding as of September 30, 2006.

As of September 30, 2006, our total outstanding mortgages and other debt payable and bank credit facility was approximately \$1,531.8 million, of which approximately \$458.5 million, or 29.9%, was variable rate debt. Total variable debt excludes \$871.0 million fixed by the interest rate swaps described above. If market rates of interest on our variable rate debt increase by 20%, or approximately 107 basis points, the increase in interest expense on the variable rate debt would decrease future earnings and cash flows by approximately \$4.9 million annually. If market rates of interest on our variable rate debt decrease by 10%, or approximately 53 basis points, the decrease in interest expense on our variable rate debt would increase future earnings and cash flows by approximately \$2.4 million annually.

Interest risk amounts were determined by considering the impact of hypothetical interest rates on our financial instruments. These analyses do not consider the effect of the reduced level of overall economic activity that could exist in that environment. Further, in the event of a change of that magnitude, we may take actions to further mitigate our exposure to the change. However, due to the uncertainty of the specific actions that would be taken and their possible effects, these analyses assume no changes in our financial structure.

Currency Exchange Risk

As we have international operations, currency exchange risk arises as a normal part of our business. We reduce this risk by transacting our international business in local currencies. In this manner, assets and liabilities are matched in the local currency, which reduces the need for dollar conversion. Generally, we do not enter into forward or option contracts to manage our currency exchange risk exposure applicable to net operating cash flows.

To manage the currency exchange risk applicable to equity positions in foreign hotels, we may use long-term mortgage debt denominated in the local currency. In addition, we may enter into forward or option contracts. We do not currently have any currency forward or option contracts.
