FORM 10-K

(Mark One):

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended January 28, 2007.

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-14077

WILLIAMS-SONOMA, INC.

(Exact name of registrant as specified in its charter)

California
(State or other jurisdiction of
incorporation or organization)
3250 Van Ness Avenue, San Francisco, CA
(Address of principal executive offices)

94-2203880
(I.R.S. Employer
Identification No.)

Registrant's telephone number, including area code (415) 421-7900

94109
(Zip Code)

Securities registered pursuant to Section 12(b) of the Act:

Common Stock, \$.01 par value
(Title of class)

New York Stock Exchange, Inc.
(Name of each exchange on which registered)

Edgar Filing: WILLIAMS SONOMA INC - Form 10-K

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

As of July 30, 2006, the approximate aggregate market value of the registrant's common stock held by non-affiliates was \$3,015,424,000. It is assumed for purposes of this computation that an affiliate includes all persons as of July 30, 2006 listed as executive officers and directors with the Securities and Exchange Commission. This aggregate market value includes all shares held in the registrant's Williams-Sonoma, Inc. Stock Fund.

As of February 25, 2007, 109,881,292 shares of the registrant's Common Stock were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of our definitive Proxy Statement for the 2007 Annual Meeting of Shareholders, also referred to in this Annual Report on Form 10-K as our Proxy Statement, which will be filed with the Securities and Exchange Commission, or SEC, on or about March 29, 2007, have been incorporated in Part III hereof, and portions of our 2006 Annual Report to shareholders have been incorporated in Part II hereof.

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K and the letter to shareholders contained in this annual report contain forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties, as well as assumptions that, if they do not fully materialize or prove incorrect, could cause our business and results of operations to differ materially from those expressed or implied by such forward-looking statements. Such forward-looking statements include, without limitation: any projections of earnings, revenues or financial items, including future comparable store sales, projected capital expenditures, the impact of new accounting pronouncements, our fiscal 2007 income tax provision and effective tax rate, expectations for our operating margin, including statements related to increasing our pre-tax operating margin by driving operational advancements and cost-containment initiatives and the use of our available cash, including statements related to payment of dividends and our stock repurchase program; statements of the plans, strategies, initiatives and objectives of management for future operations, including statements related to our recovery plan and improvement in 2007 and 2008, increasing our market share, driving sustainable revenue growth and the revitalization of the Pottery Barn brand; statements related to enhancing shareholder value; statements related to our plans to increase retail leased square footage, including the opening of new retail stores and expansion or remodeling of additional stores; statements related to new marketing initiatives, including increasing and expanding catalog circulation, electronic direct marketing, e-commerce marketing, catalog page counts (including Williams-Sonoma Home), refining our contact strategy, improving e-commerce conversion and implementing new e-commerce functionality; statements related to the future performance and market acceptance of new products and brands, including statements related to the growth potential of our brands (including our emerging brands), investments in our emerging brands, building brand awareness, modifying our brand roll-out strategy, rounding out and expanding our merchandise assortments, testing new product categories, product innovation, enhancing product quality and product design resources; statements related to testing our value proposition within shipping costs; statements related to driving efficiencies in our supply chain, leveraging our infrastructure, maintaining expense controls and investing in our future, including statements related to improving our in-stock position, improving our overall cost structure and implementing new inventory management systems; statements related to gift card issuance and redemption; statements related to transportation costs in the furniture delivery network and backroom and offsite storage management in our retail stores; statements related to indemnifications under our agreements; statements related to legal proceedings; and statements of belief and statements of assumptions underlying any of the foregoing. You can identify these and other forward-looking statements by the use of words such as will, may, should, expects, plans, anticipates, believes, estimates, predicts, intends, potential, continue, or the negative of such terms, or other comparable terminology.

The risks, uncertainties and assumptions referred to above that could cause our results to differ materially from the results expressed or implied by such forward-looking statements include, but are not limited to, those discussed under the heading Risk Factors in Item 1A hereto and the risks, uncertainties and assumptions discussed from time to time in our other public filings and public announcements. All forward-looking statements included in this document are based on information available to us as of the date hereof, and we assume no obligation to update these forward-looking statements.

PART I

ITEM 1. BUSINESS

OVERVIEW

We are a specialty retailer of products for the home. The retail segment of our business sells our products through our five retail store concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Williams-Sonoma Home). The direct-to-customer segment of our business sells similar products through our seven direct-mail catalogs (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, Pottery Barn Bed and Bath, PBteen, West Elm and Williams-Sonoma Home) and six e-commerce websites (williams-sonoma.com, potterybarn.com, potterybarnkids.com, pbteen.com, westelm.com and wshome.com). The catalogs reach customers throughout the U.S., while the five retail concepts currently operate 588 stores in 44 states, Washington, D.C. and Canada.

Based on net revenues in fiscal 2006, retail net revenues accounted for 57.8% of our business and direct-to-customer net revenues accounted for 42.2% of our business. Based on their contribution to our net revenues in fiscal 2006, the core brands in both retail and direct-to-customer are: Pottery Barn, which sells casual home furnishings; Williams-Sonoma, which sells cooking and entertaining essentials; and Pottery Barn Kids, which sells stylish children's furnishings.

We were founded in 1956 by Charles E. Williams, currently a Director Emeritus, with the opening of our first store in Sonoma, California. Today, the Williams-Sonoma stores offer a wide selection of culinary and serving equipment, including cookware, cookbooks, cutlery, informal dinnerware, glassware, table linens, specialty foods and cooking ingredients. Our direct-to-customer business began in 1972 when we introduced our flagship catalog, A Catalog for Cooks, which marketed the Williams-Sonoma brand.

In 1983, we internally developed the Hold Everything catalog to offer innovative solutions for household storage needs by providing efficient organization solutions for every room in the house. The first Hold Everything store opened in 1985.

In 1986, we acquired Pottery Barn, a retailer of casual home furnishings, and in 1987 launched the first Pottery Barn catalog. Pottery Barn features a large assortment of home furnishings and furniture that we design internally and source from around the world to create a dynamic look in the home.

In 1989, we developed Chambers, a mail order merchandiser of high quality linens, towels, robes, soaps and accessories for the bed and bath.

In 1999, we launched both our Williams-Sonoma e-commerce website and our Williams-Sonoma bridal and gift registry. In addition, we launched the Pottery Barn Kids catalog.

In 2000, we opened our first Pottery Barn Kids stores across the U.S. In addition, we introduced our Pottery Barn e-commerce website and created Pottery Barn Bed and Bath, a catalog dedicated to bed and bath products.

In 2001, we launched our Pottery Barn Kids e-commerce website, Pottery Barn gift and bridal registry, and Pottery Barn Kids gift registry. Additionally, in 2001, we opened five new retail stores (two Williams-Sonoma, two Pottery Barn and one Pottery Barn Kids) in Toronto, Canada, our first stores operated by us outside of the U.S.

In 2002, we launched our West Elm catalog. The brand targets design conscious consumers looking for a modern aesthetic to furnish and accessorize their living spaces with quality products at accessible price points. West Elm offers a broad range of home furnishing categories including furniture, textiles, decorative accessories, lighting and tabletop items.

In 2003, we launched our West Elm e-commerce website, opened our first West Elm retail store and launched our newest extension of the Pottery Barn brand, PBteen, with the introduction of the PBteen catalog. PBteen offers exclusive collections of home furnishings and decorative accessories that are specifically designed to reflect the personalities of the teenage market. In late 2003, we launched our PBteen e-commerce website.

Table of Contents

In 2004, the Chambers brand was retired as a result of the launch of Williams-Sonoma Home, our newest brand. This premium brand, offering classic home furnishings and decorative accessories, extends the Williams-Sonoma lifestyle beyond the kitchen into every room of the home. In addition, we launched our first Hold Everything e-commerce website and opened three new prototype stores.

In 2005, we opened our first three Williams-Sonoma Home stores, in West Hollywood, California; Cincinnati, Ohio; and Indianapolis, Indiana.

In 2006, after testing five new prototype stores and several merchandise assortment transitions throughout 2004 and 2005, we decided to transition the merchandising strategies of the Hold Everything brand into our other existing brands. All of our Hold Everything retail stores were closed during late 2005 and the first quarter of fiscal 2006. The final phase of our operational shutdown was completed in the second quarter of fiscal 2006, with our final Hold Everything catalog mailed in May 2006 and our Hold Everything website ceasing operations in June 2006.

Additionally, in 2006, we launched our Williams-Sonoma Home e-commerce website.

RETAIL STORES

The retail segment has five merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm, and Williams-Sonoma Home). As of January 28, 2007, we operated 588 retail stores, located in 44 states, Washington, D.C. and Canada. This represents 254 Williams-Sonoma, 197 Pottery Barn, 92 Pottery Barn Kids, 22 West Elm, 7 Williams-Sonoma Home and 16 Outlet stores (our Outlet stores carry merchandise from all merchandising concepts).

In fiscal 2007, we expect to increase retail leased square footage by approximately 5% to 6%, including 21 new stores (8 Pottery Barn, 5 West Elm, 4 Williams-Sonoma, 2 Pottery Barn Kids and 2 Williams-Sonoma Home) and 20 remodeled or expanded stores (12 Williams-Sonoma, 7 Pottery Barn and 1 Pottery Barn Kids), offset by the permanent closure of 8 stores (4 Williams-Sonoma and 4 Pottery Barn) and the temporary closure of 20 stores (12 Williams-Sonoma, 7 Pottery Barn and 1 Pottery Barn Kids). The average leased square footage for new and expanded stores in fiscal 2007 will be approximately 17,800 leased square feet for West Elm, 16,900 leased square feet for Pottery Barn, 13,600 leased square feet for Williams-Sonoma Home, 9,400 leased square feet for Pottery Barn Kids and 7,000 leased square feet for Williams-Sonoma.

The retail business complements the direct-to-customer business by building brand awareness. Our retail stores serve as billboards for our brands, which we believe inspires confidence in our customers to shop via our direct-to-customer channels.

Detailed financial information about the retail segment is found in Note M to our Consolidated Financial Statements.

DIRECT-TO-CUSTOMER OPERATIONS

The direct-to-customer segment has six merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm and Williams-Sonoma Home) and sells products through our seven direct-mail catalogs (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, Pottery Barn Bed and Bath, PBteen, West Elm and Williams-Sonoma Home) and six e-commerce websites (williams-sonoma.com, potterybarn.com, potterybarnkids.com, pbteen.com, westelm.com and wshome.com). Of these six merchandising concepts, the Pottery Barn brand and its extensions have been the major source of revenue growth in the direct-to-customer segment for the last several years which we believe reflects our continuing investment in product design, product quality and multi-channel marketing.

The direct-to-customer channel over the past several years has been strengthened by the introduction of e-commerce websites in all of our core brands and the launching of our newest brands: West Elm, PBteen and Williams-Sonoma Home. Although the amount of e-commerce revenues that are incremental to our direct-to-customer channel cannot be identified precisely, we estimate that approximately 45% of our company-wide non-gift registry Internet revenues are incremental to the direct-to-customer channel and approximately 55% are driven by customers who recently received a catalog.

Table of Contents

We send our catalogs to addresses from our proprietary customer list, as well as to names from lists from other mail order merchandisers, magazines and companies that we receive in exchange for either payment or new addresses, consistent with our published privacy policies. In accordance with prevailing industry practice, we primarily rent our list to select merchandisers. Our customer mailings are continually updated to include new prospects and to eliminate non-responders.

The direct-to-customer business complements the retail business by building brand awareness and acting as an effective advertising vehicle. In addition, we believe that the mail order catalogs and the Internet act as a cost-efficient means of testing market acceptance of new products and new brands.

Detailed financial information about the direct-to-customer segment is found in Note M to our Consolidated Financial Statements.

SUPPLIERS

We purchase our merchandise from numerous foreign and domestic manufacturers and importers, the largest of which individually accounted for approximately 3.2% of purchases during fiscal 2006. Approximately 62% of our merchandise purchases in fiscal 2006 were foreign-sourced from manufacturers in 39 countries, primarily from Asia and Europe. Approximately 95% of our foreign purchases of merchandise are negotiated and paid for in U.S. dollars.

COMPETITION AND SEASONALITY

The specialty retail business is highly competitive. Our specialty retail stores, mail order catalogs and e-commerce websites compete with other retail stores, including large department stores, discount stores, other specialty retailers offering home centered assortments, other mail order catalogs and other e-commerce websites. The substantial sales growth in the direct-to-customer industry within the last decade has encouraged the entry of many new competitors and an increase in competition from established companies. We compete on the basis of our brand authority, the quality of our merchandise, service to our customers and our proprietary customer list, as well as location and appearance of our stores. We believe that we compare favorably with many of our current competitors with respect to some or all of these factors.

Our business is subject to substantial seasonal variations in demand. Historically, a significant portion of our net revenues and net earnings have been realized during the period from October through December, and levels of net revenues and net earnings have generally been lower during the period from January through September. We believe this is the general pattern associated with the direct-to-customer and retail industries. In anticipation of our peak season, we hire a substantial number of additional temporary employees in our retail stores and direct-to-customer processing and distribution areas, and incur significant fixed catalog production and mailing costs.

PATENTS, TRADEMARKS, COPYRIGHTS AND DOMAIN NAMES

We own and/or have applied to register over 50 separate trademarks and service marks. We own and/or have applied to register our marks in the U.S., Canada and approximately 30 additional jurisdictions. Exclusive rights to the trademarks and service marks are held by Williams-Sonoma, Inc. and are used by our subsidiaries under license. These marks include the core brand names or house marks for our subsidiaries, as well as brand names for selected products and services. The house marks in particular, including Williams-Sonoma, the Williams-Sonoma Grande Cuisine logo, Pottery Barn, pottery barn kids, PBteen, west elm and Williams-Sonoma Home are of material importance to us. Trademarks are generally valid as long as they are in use and/or their registrations are properly maintained, and they have not been found to have become generic. Trademark registrations can generally be renewed indefinitely so long as the marks are in use. We own numerous copyrights and trade dress rights for our products, product packaging, catalogs, books, house publications and website designs, among other things, which are also used by our subsidiaries under license. We hold patents on certain product functions and product designs. Patents are generally valid for 20 years as long as their registrations are properly maintained. In addition, we have registered and maintain numerous Internet domain names, including williams-sonoma.com, potterybarn.com, potterybarnkids.com, pbteen.com,

Table of Contents

westelm.com, holdeverything.com, wshome.com, and williams-sonomainc.com. Collectively, the copyrights, trade dress rights, patents and domain names that we hold are of material importance to us.

EMPLOYEES

As of January 28, 2007, we had approximately 38,800 employees, approximately 8,000 of whom were full-time employees. During the fiscal 2006 peak season, we hired approximately 16,900 temporary employees in our stores and in our direct-to-customer processing and distribution centers.

AVAILABLE INFORMATION

We file annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy and information statements and amendments to reports filed or furnished pursuant to Sections 13(a), 14 and 15(d) of the Securities Exchange Act of 1934, as amended. The public may read and copy these materials at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains a website at www.sec.gov that contains reports, proxy and information statements and other information regarding Williams-Sonoma, Inc. and other companies that file materials with the SEC electronically. You may also obtain copies of our annual reports, Forms 10-K, Forms 10-Q, Forms 8-K and proxy and information statements, free of charge, on our website at www.williams-sonomainc.com.

ITEM 1A. RISK FACTORS

The following information describes certain significant risks and uncertainties inherent in our business. You should carefully consider such risks and uncertainties, together with the other information contained in this Annual Report on Form 10-K and in our other public filings. If any of such risks and uncertainties actually occurs, our business, financial condition or operating results could differ materially from the plans, projections and other forward-looking statements included in the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this report and in our other public filings. In addition, if any of the following risks and uncertainties, or if any other risks and uncertainties, actually occurs, our business, financial condition or operating results could be harmed substantially, which could cause the market price of our stock to decline, perhaps significantly.

We must successfully identify and analyze factors affecting our business, anticipate changing consumer preferences and buying trends, and manage our inventory commensurate with customer demand.

Our success depends, in large part, upon our ability to identify and analyze factors affecting our business and to anticipate and respond in a timely manner to changing merchandise trends and customer demands. Consumer preferences cannot be predicted with certainty and may change between selling seasons. Changes in customer preferences and buying trends may also affect our brands differently. If we misjudge either the market for our merchandise or our customers' purchasing habits, our sales may decline significantly, and we may be required to mark down certain products to sell the resulting excess inventory or to sell such inventory through our outlet stores or other liquidation channels at prices which are significantly lower than our retail prices, either of which would negatively impact our business and operating results.

In addition, we must manage our inventory effectively and commensurate with customer demand. Much of our inventory is sourced from vendors located outside the United States. Thus, we usually must order merchandise, and enter into contracts for the purchase and manufacture of such merchandise, up to twelve months in advance of the applicable selling season and frequently before trends are known. The extended lead times for many of our purchases may make it difficult for us to respond rapidly to new or changing trends. Our vendors may also not have the capacity to handle our demands. In addition, the seasonal nature of the specialty home products business requires us to carry a significant amount of inventory prior to peak selling season. As a result, we are vulnerable to demand and pricing shifts and to misjudgments in the selection and timing of merchandise purchases. If we do not accurately predict our customers' preferences and acceptance levels of our products, our inventory levels will not be appropriate, and our business and operating results may be negatively impacted.

Table of Contents

Our business depends, in part, on factors affecting consumer spending that are out of our control.

Our business depends on consumer demand for our products and, consequently, is sensitive to a number of factors that influence consumer spending, including general economic conditions, disposable consumer income, fuel prices, recession and fears of recession, war and fears of war, inclement weather, consumer debt, conditions in the housing market, interest rates, sales tax rates and rate increases, inflation, consumer confidence in future economic conditions and political conditions, and consumer perceptions of personal well-being and security. These factors may also affect our various brands and channels differently. Adverse changes in factors affecting discretionary consumer spending could reduce consumer demand for our products, thus reducing our sales and harming our business and operating results.

We face intense competition from companies with brands or products similar to ours.

The specialty retail and direct-to-customer business is highly competitive. Our specialty retail stores, mail order catalogs and e-commerce websites compete with other retail stores, other mail order catalogs and other e-commerce websites that market lines of merchandise similar to ours. We compete with national, regional and local businesses utilizing a similar retail store strategy, as well as traditional furniture stores, department stores and specialty stores. The substantial sales growth in the direct-to-customer industry within the last decade has encouraged the entry of many new competitors and an increase in competition from established companies.

The competitive challenges facing us include:

- anticipating and quickly responding to changing consumer demands better than our competitors;
- maintaining favorable brand recognition and achieving customer perception of value;
- effectively marketing and competitively pricing our products to consumers in several diverse market segments;
- developing innovative, high-quality products in colors and styles that appeal to consumers of varying age groups and tastes, and in ways that favorably distinguish us from our competitors; and
- effectively managing our supply chain and distribution strategies in order to provide our products to our consumers on a timely basis.

In light of the many competitive challenges facing us, we may not be able to compete successfully. Increased competition could reduce our sales and harm our operating results and business.

We depend on key domestic and foreign vendors for timely and effective sourcing of our merchandise, and we are subject to various risks and uncertainties that might affect our vendors' ability to produce quality merchandise.

Our performance depends, in part, on our ability to purchase our merchandise in sufficient quantities at competitive prices. We purchase our merchandise from numerous foreign and domestic manufacturers and importers. We have no contractual assurances of continued supply, pricing or access to new products, and any vendor could change the terms upon which they sell to us, or discontinue selling to us, at any time. We may not be able to acquire desired merchandise in sufficient quantities on terms acceptable to us in the future. Better than expected sales demand may also lead to customer backorders and lower in-stock positions of our merchandise.

Any inability to acquire suitable merchandise on acceptable terms or the loss of one or more key vendors could have a negative effect on our business and operating results because we would be missing products that we felt were important to our assortment, unless and until alternative supply arrangements are secured. We may not be able to develop relationships with new vendors, and products from alternative sources, if any, may be of a lesser quality and/or more expensive than those we currently purchase.

In addition, we are subject to certain risks, including availability of raw materials, labor disputes, union organizing activities, vendor financial liquidity, inclement weather, natural disasters, and general economic and political conditions, that could limit our vendors' ability to provide us with quality merchandise on a timely basis and at a price that is commercially acceptable. For these or other reasons, one or more of our vendors might not adhere to our quality control standards, and we might not identify the deficiency before merchandise ships to our stores or customers. In addition, our vendors may have difficulty adjusting to our changing demands and growing

Table of Contents

business. Our vendors' failure to manufacture or import quality merchandise in a timely and effective manner could damage our reputation and brands, and could lead to an increase in customer litigation against us and an attendant increase in our routine litigation costs. Further, any merchandise that does not meet our quality standards could become subject to a recall, which would damage our reputation and brands, and harm our business.

Our dependence on foreign vendors subjects us to a variety of risks and uncertainties.

In fiscal 2006, we sourced our products from manufacturers in 39 countries outside of the United States. Approximately 62% of our merchandise purchases were foreign-sourced, primarily from Asia and Europe. Our dependence on foreign vendors means that we may be affected by declines in the relative value of the U.S. dollar to other foreign currencies. For example, any upward valuation in the Chinese yuan against the U.S. dollar may result in higher costs to us for those goods that we source from mainland China. Although approximately 95% of our foreign purchases of merchandise are negotiated and paid for in U.S. dollars, declines in foreign currencies and currency exchange rates might negatively affect the profitability and business prospects of one or more of our foreign vendors. This, in turn, might cause such foreign vendors to demand higher prices for merchandise, delay merchandise shipments to us, or discontinue selling to us, any of which could ultimately reduce our sales or increase our costs.

We are also subject to other risks and uncertainties associated with changing economic and political conditions in foreign countries. These risks and uncertainties include import duties and quotas, concerns over anti-dumping, work stoppages, economic uncertainties (including inflation), foreign government regulations, wars and fears of war, political unrest, natural disasters and other trade restrictions. We cannot predict whether any of the countries in which our products are currently manufactured or may be manufactured in the future will be subject to trade restrictions imposed by the U.S. or foreign governments or the likelihood, type or effect of any such restrictions. Any event causing a disruption or delay of imports from foreign vendors, including the imposition of additional import restrictions, restrictions on the transfer of funds and/or increased tariffs or quotas, or both, could increase the cost or reduce the supply of merchandise available to us and adversely affect our business, financial condition and operating results. Furthermore, some or all of our foreign vendors' operations may be adversely affected by political and financial instability resulting in the disruption of trade from exporting countries, restrictions on the transfer of funds and/or other trade disruptions.

In addition, although we continue to improve our global compliance program, there remains a risk that one or more of our foreign vendors will not adhere to our global compliance standards such as fair labor standards and the prohibition on child labor. Nongovernmental organizations might attempt to create an unfavorable impression of our sourcing practices or the practices of some of our vendors that could harm our image. If either of these occurs, we could lose customer goodwill and favorable brand recognition, which could negatively affect our business and operating results.

The growth of our sales and profits depends, in large part, on our ability to successfully open new stores.

In each of the past three fiscal years, the majority of our net revenues have been generated by our retail stores. Our ability to open additional stores successfully will depend upon a number of factors, including:

- our identification and availability of suitable store locations;
- our success in negotiating leases on acceptable terms;
- our ability to secure required governmental permits and approvals;
- our hiring and training of skilled store operating personnel, especially management;
- our timely development of new stores, including the availability of construction materials and labor and the absence of significant construction and other delays in store openings based on weather or other events;
- the availability of financing on acceptable terms, if at all; and
- general economic conditions.

Table of Contents

Many of these factors are beyond our control. For example, for the purpose of identifying suitable store locations, we rely, in part, on demographic surveys regarding location of consumers in our target market segments. While we believe that the surveys and other relevant information are helpful indicators of suitable store locations, we recognize that the information sources cannot predict future consumer preferences and buying trends with complete accuracy. In addition, changes in demographics, in the types of merchandise that we sell and in the pricing of our products may reduce the number of suitable store locations. Further, time frames for lease negotiations and store development vary from location to location and can be subject to unforeseen delays. Construction and other delays in store openings could have a negative impact on our business and operating results. We may not be able to open new stores or, if opened, operate those stores profitably.

We must timely and effectively deliver merchandise to our stores and customers.

We cannot control all of the various factors that might affect our fulfillment rates in direct-to-customer sales and timely and effective merchandise delivery to our stores. We rely upon third party carriers for our merchandise shipments and reliable data regarding the timing of those shipments, including shipments to our customers and to and from all of our stores. In addition, we are heavily dependent upon three carriers for the delivery of our merchandise to our customers. Accordingly, we are subject to the risks, including labor disputes, union organizing activity, inclement weather, natural disasters and possible acts of terrorism associated with such carriers' ability to provide delivery services to meet our shipping needs. Failure to deliver merchandise in a timely and effective manner could damage our reputation and brands. In addition, fuel costs have increased substantially and airline companies struggle to operate profitably, which could lead to increased fulfillment expenses. The increased fulfillment costs could negatively affect our business and operating results by increasing our transportation costs and, therefore, decreasing the efficiency of our shipments.

Our failure to successfully manage our order-taking and fulfillment operations could have a negative impact on our business.

Our direct-to-customer business depends on our ability to maintain efficient and uninterrupted order-taking and fulfillment operations and our e-commerce websites. Disruptions or slowdowns in these areas could result from disruptions in telephone service or power outages, inadequate system capacity, system issues, computer viruses, security breaches, human error, changes in programming, union organizing activity, disruptions in our third party labor contracts, natural disasters or adverse weather conditions. These problems could result in a reduction in sales as well as increased selling, general and administrative expenses.

In addition, we face the risk that we cannot hire enough qualified employees, or that there will be a disruption in the labor we hire from our third party providers, especially during our peak season, to support our direct-to-customer operations, due to circumstances that reduce the relevant workforce. The need to operate with fewer employees could negatively impact our customer service levels and our operations.

Our facilities and systems, as well as those of our vendors, are vulnerable to natural disasters and other unexpected events, any of which could result in an interruption in our business.

Our retail stores, corporate offices, distribution centers, infrastructure projects and direct-to-customer operations, as well as the operations of vendors from which we receive goods and services, are vulnerable to damage from earthquakes, hurricanes, fires, floods, power losses, telecommunications failures, hardware and software failures, computer viruses and similar events. If any of these events result in damage to our facilities or systems, or those of our vendors, we may experience interruptions in our business until the damage is repaired, resulting in the potential loss of customers and revenues. In addition, we may incur costs in repairing any damage beyond our applicable insurance coverage.

We experience fluctuations in our comparable store sales.

Our success depends, in part, upon our ability to increase sales at our existing stores. Various factors affect comparable store sales, including the number, size and location of stores we open, close, remodel or expand in

Table of Contents

any period, the general retail sales environment, consumer preferences and buying trends, changes in sales mix among distribution channels, our ability to efficiently source and distribute products, changes in our merchandise mix, competition (including competitive promotional activity), current local and global economic conditions, the timing of our releases of new merchandise and promotional events, the success of marketing programs, the cannibalization of existing store sales by our new stores, increased catalog circulation and continued strength in our Internet business. Among other things, weather conditions can affect comparable store sales because inclement weather can alter consumer behavior or require us to close certain stores temporarily and thus reduce store traffic. Even if stores are not closed, many customers may decide to avoid going to stores in bad weather. These factors have caused and may continue to cause our comparable store sales results to differ materially from prior periods and from earnings guidance we have provided.

Our comparable store sales have fluctuated significantly in the past on an annual, quarterly and monthly basis, and we expect that comparable store sales will continue to fluctuate in the future. Our comparable store sales increases for fiscal 2006, fiscal 2005 and fiscal 2004 were 0.3%, 4.9% and 3.5%, respectively. Past comparable store sales are no indication of future results, and comparable store sales may decrease in the future. Our ability to maintain and improve our comparable store sales results depends, in large part, on maintaining and improving our forecasting of customer demand and buying trends, selecting effective marketing techniques, providing an appropriate mix of merchandise for our broad and diverse customer base and using effective pricing strategies. Any failure to meet the comparable store sales expectations of investors and securities analysts in one or more future periods could significantly reduce the market price of our common stock.

Our failure to successfully manage the costs and performance of our catalog mailings might have a negative impact on our business.

Postal rate increases, paper costs, printing costs and other catalog distribution costs affect the cost of our catalog mailings. We rely on discounts from the basic postal rate structure, which could be changed or discontinued at any time. Our cost of paper has fluctuated significantly during the past three fiscal years, and our paper costs are expected to increase in the future. Future increases in postal rates, paper costs or printing costs would have a negative impact on our operating results to the extent that we are unable to pass such increases on directly to customers or offset such increases by raising prices or by implementing more efficient printing, mailing, delivery and order fulfillment systems.

We have historically experienced fluctuations in customer response to our catalogs. Customer response to our catalogs is substantially dependent on merchandise assortment, merchandise availability and creative presentation, as well as the selection of customers to whom the catalogs are mailed, changes in mailing strategies, and the sizing and timing of delivery of the catalogs. In addition, environmental organizations may attempt to create an unfavorable impression of our paper use in catalogs. The failure to effectively produce or distribute our catalogs could affect the timing of catalog delivery. The timing of catalog delivery has been and can be affected by postal service delays. For example, the August 2005 natural disaster caused by Hurricane Katrina created domestic ground and rail transportation capacity constraints that resulted in late catalog delivery. Any delays in the timing of catalog delivery could cause customers to forego or defer purchases.

We must successfully manage our Internet business.

The success of our Internet business depends, in part, on factors over which we have limited control. In addition to changing consumer preferences and buying trends relating to Internet usage, we are vulnerable to certain additional risks and uncertainties associated with the Internet, including changes in required technology interfaces, website downtime and other technical failures, costs and technical issues as we upgrade our website software, computer viruses, changes in applicable federal and state regulation, security breaches and consumer privacy concerns. Our failure to successfully respond to these risks and uncertainties might adversely affect the sales in our Internet business, as well as damage our reputation and brands.

Table of Contents

Our failure to successfully anticipate merchandise returns might have a negative impact on our business.

We record a reserve for merchandise returns based on historical return trends together with current product sales performance in each reporting period. If actual returns are greater than those projected by management, additional sales returns might be recorded in the future. Actual merchandise returns may exceed our reserves. In addition, to the extent that returned merchandise is damaged, we often do not receive full retail value from the resale or liquidation of the merchandise. Further, the introduction of new merchandise, changes in merchandise mix, changes in consumer confidence, or other competitive and general economic conditions may cause actual returns to exceed merchandise return reserves. Any significant increase in merchandise returns that exceeds our reserves could harm our business and operating results.

We must successfully manage the complexities associated with a multi-channel and multi-brand business.

During the past few years, with the launch and expansion of our Internet business, new brands and brand extensions, our overall business has become substantially more complex. The changes in our business have forced us to develop new expertise and face new challenges, risks and uncertainties. For example, we face the risk that our Internet business might cannibalize a significant portion of our retail and catalog businesses, and we face the risk of increased catalog circulation cannibalizing our retail sales. While we recognize that our Internet sales cannot be entirely incremental to sales through our retail and catalog channels, we seek to attract as many new customers as possible to our e-commerce websites. We continually analyze the business results of our three channels and the relationships among the channels, in an effort to find opportunities to build incremental sales.

We may not be able to introduce new brands and brand extensions, or to reposition existing brands, to improve our business.

We have recently introduced three new brands — West Elm, PBteen and Williams-Sonoma Home — and may introduce new brands and brand extensions, or reposition existing brands, in the future. All of these brands, however, may not be successful growth vehicles. For example, in January 2006, we announced our decision to transition the merchandising strategies of our Hold Everything brand into our other existing brands by the end of fiscal 2006. Further, if we devote time and resources to new brands, brand extensions or brand repositioning, and those businesses are not as successful as we planned, then we risk damaging our overall business results. Alternatively, if our new brands, brand extensions or repositioned brands prove to be very successful, we risk hurting our other existing brands through the potential migration of existing brand customers to the new businesses. In addition, we may not be able to introduce new brands and brand extensions, or to reposition brands in a manner that improves our overall business and operating results.

Our inability to obtain commercial insurance at acceptable prices or our failure to adequately reserve for self-insured exposures might have a negative impact on our business.

We believe that commercial insurance coverage is prudent for risk management. Insurance costs may increase substantially in the future and may be affected by natural catastrophes, fear of terrorism and financial irregularities and other fraud at publicly traded companies. In addition, for certain types or levels of risk, such as risks associated with earthquakes, hurricanes or terrorist attacks, we may determine that we cannot obtain commercial insurance at acceptable prices, if at all. Therefore, we may choose to forego or limit our purchase of relevant commercial insurance, choosing instead to self-insure one or more types or levels of risks. We are primarily self-insured for workers' compensation, employee health benefits and product and general liability claims. If we suffer a substantial loss that is not covered by commercial insurance or our self-insurance reserves, the loss and attendant expenses could harm our business and operating results. In addition, exposures exist for which no insurance may be available and for which we have not reserved.

Table of Contents

Our inability or failure to protect our intellectual property would have a negative impact on our business.

Our trademarks, service marks, copyrights, patents, trade dress rights, trade secrets, domain names and other intellectual property are valuable assets that are critical to our success. The unauthorized reproduction or other misappropriation of our intellectual property could diminish the value of our brands or goodwill and cause a decline in our sales. We may not be able to adequately protect our intellectual property. In addition, the costs of defending our intellectual property may adversely affect our operating results.

We have been sued and may be named in additional lawsuits in a growing number of industry-wide business method patent litigation cases relating to our business operations.

There appears to be a growing number of business method patent infringement lawsuits instituted against companies such as ours. The plaintiff in each case claims to hold a patent that covers certain technology or methodologies, which are allegedly infringed by the operation of the defendants' business. We are currently a defendant in such patent infringement cases and may be named in others in the future, as part of an industry-wide trend. Even in cases where a plaintiff's claim lacks merit, the defense costs in a patent infringement case can be high. Additional patent infringement claims may be brought against us and the cost of defending such claims or the ultimate resolution of such claims may harm our business and operating results.

We need to successfully manage our employment, occupancy and other operating costs.

To be successful, we need to manage our operating costs and continue to look for opportunities to reduce costs. We recognize that we may need to increase the number of our employees, especially in peak sales seasons, and incur other expenses to support new brands and brand extensions, as well as the opening of new stores and direct-to-customer growth of our existing brands. From time to time, we may also experience union organizing activity in currently non-union facilities. Union organizing activity may result in work slowdowns or stoppages and higher labor costs. In addition, there appears to be a growing number of wage-and-hour lawsuits against retail companies, especially in California. We are currently a defendant in one such case and may be named in others in the future.

Although we strive to secure long-term contracts with our service providers and other vendors and to otherwise limit our financial commitment to them, we may not be able to avoid unexpected operating cost increases in the future. Further, we incur substantial costs to warehouse and distribute our inventory. Significant increases in our inventory levels may result in increased warehousing and distribution costs. Higher than expected costs, particularly if coupled with lower than expected sales, would negatively impact our business and operating results.

We are undertaking certain systems changes that might disrupt our supply chain operations.

Our success depends, in part, on our ability to source and distribute merchandise efficiently through appropriate systems and procedures. We are in the process of substantially modifying our information technology systems supporting the product pipeline, including design, sourcing, merchandise planning, forecasting and purchase order, inventory and price management. Modifications will involve updating or replacing legacy systems with successor systems during the course of several years. There are inherent risks associated with replacing our core systems, including supply chain and merchandising systems disruptions that affect our ability to get the correct products into the appropriate stores and delivered to customers. We may not successfully launch these new systems, or the launch of such systems may result in product pipeline disruptions. We are also subject to the risks associated with the ability of our vendors to provide information technology solutions to meet our needs. Any product pipeline disruptions could negatively impact our business and operating results.

We outsource certain aspects of our business to third party vendors that subject us to risks, including disruptions in our business and increased costs.

We outsource certain aspects of our business to third party vendors that subject us to risks of disruptions in our business as well as increased costs. For example, we have engaged IBM to host and manage certain aspects of

Table of Contents

our data center information technology infrastructure. Accordingly, we are subject to the risks associated with IBM's ability to provide information technology services to meet our needs. Our operations will depend significantly upon IBM's and our ability to make our servers, software applications and websites available and to protect our data from damage or interruption from human error, computer viruses, intentional acts of vandalism, labor disputes, natural disasters and similar events. If the cost of IBM hosting and managing certain aspects of our data center information technology infrastructure is more than expected, or if IBM or we are unable to adequately protect our data and information is lost or our ability to deliver our services is interrupted, then our business and results of operations may be negatively impacted.

Our operating and financial performance in any given period might not meet the extensive guidance that we have provided to the public.

We provide extensive public guidance on our expected operating and financial results for future periods. Although we believe that this guidance provides investors and analysts with a better understanding of management's expectations for the future and is useful to our shareholders and potential shareholders, such guidance is comprised of forward-looking statements subject to the risks and uncertainties described in this report and in our other public filings and public statements. Our guidance may not always be accurate. If, in the future, our operating or financial results for a particular period do not meet our guidance or the expectations of investment analysts or if we reduce our guidance for future periods, the market price of our common stock could significantly decline.

Our quarterly results of operations might fluctuate due to a variety of factors, including seasonality.

Our quarterly results have fluctuated in the past and may fluctuate in the future, depending upon a variety of factors, including shifts in the timing of holiday selling seasons, including Valentine's Day, Easter, Halloween, Thanksgiving and Christmas. A significant portion of our revenues and net earnings has been realized during the period from October through December. In anticipation of increased holiday sales activity, we incur certain significant incremental expenses, including fixed catalog production and mailing costs and the costs associated with hiring a substantial number of temporary employees to supplement our existing workforce. If, for any reason, we were to realize significantly lower-than-expected revenues or net earnings during the October through December selling season, our business and results of operations would be materially adversely affected.

We may require external funding sources for operating funds.

We regularly review and evaluate our liquidity and capital needs. We currently believe that our available cash, cash equivalents, cash flow from operations and cash available under our existing credit facilities will be sufficient to finance our operations and expected capital requirements for at least the next 12 months. However, as we continue to grow, we might experience peak periods for our cash needs during the course of our fiscal year, and we might need additional external funding to support our operations. Although we believe we would have access to additional debt and/or capital market funding if needed, such funds may not be available to us on acceptable terms. If the cost of such funds is greater than expected, it could adversely affect our expenses and our operating results.

We will require a significant amount of cash to pay quarterly dividends at intended levels and for our stock repurchase programs.

In March 2006, we initiated a quarterly cash dividend of \$0.10 per common share. In March 2007, our Board of Directors authorized an increase in our quarterly cash dividend of \$0.015 to \$0.115 per common share. In addition, our Board of Directors authorized the repurchase of up to 2,000,000 and 5,000,000 shares of our common stock in March 2006 and August 2006, respectively. In March 2007, our Board of Directors authorized the repurchase of an additional 5,000,000 shares of our common stock. The dividend and the share repurchase programs require the use of a significant portion of our cash earnings. As a result, we may not retain a sufficient amount of cash to finance growth opportunities, new product development initiatives and unanticipated capital

Table of Contents

expenditures or to fund our operations. Our Board of Directors may, at its discretion, decrease the intended level of dividends or entirely discontinue the payment of dividends at any time. The stock repurchase program does not have an expiration date and may be limited or terminated at any time. Our ability to pay dividends and repurchase shares will depend on our ability to generate cash flows from operations in the future. This ability may be subject to certain economic, financial, competitive and other factors that are beyond our control. Any failure to pay dividends or repurchase shares after we have announced our intention to do so may negatively impact our reputation and investor confidence in us and negatively impact our stock price. In addition, we may be subject to lawsuits regarding the use of our cash for dividends or share repurchases.

We are exposed to potential risks from legislation requiring companies to evaluate controls under Section 404 of the Sarbanes-Oxley Act of 2002.

We have evaluated and tested our internal controls in order to allow management to report on, and our registered independent public accounting firm to attest to, our internal controls, as required by Section 404 of the Sarbanes-Oxley Act of 2002. We have incurred, and expect to continue to incur, significant expenses and a diversion of management's time to meet the requirements of Section 404. If we are not able to continue to meet the requirements of Section 404 in a timely manner or with adequate compliance, we would be required to disclose material weaknesses if they develop or are uncovered and we may be subject to sanctions or investigation by regulatory authorities, such as the Securities and Exchange Commission or the New York Stock Exchange. Any such action could negatively impact the perception of us in the financial market and our business. In addition, our internal controls may not prevent or detect all errors and fraud. A control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable assurance that the objectives of the control system will be met.

Changes to accounting rules or regulations may adversely affect our results of operations.

Changes to existing accounting rules or regulations may impact our future results of operations. For example, on December 16, 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R, Share Based Payment, which requires us to measure compensation costs for all stock-based compensation at fair value and record compensation expense equal to that value over the requisite service period. Share-based compensation resulted in a negative impact of approximately \$0.14 on our fiscal 2006 diluted earnings per share. A change in accounting rules or regulations may even affect our reporting of transactions completed before the change is effective. Other new accounting rules or regulations and varying interpretations of existing accounting rules or regulations have occurred and may occur in the future. Future changes to accounting rules or regulations or the questioning of current accounting practices may adversely affect our results of operations.

Changes to estimates related to our property and equipment, or operating results that are lower than our current estimates at certain store locations, may cause us to incur impairment charges.

We make certain estimates and projections in connection with impairment analyses for certain of our store locations in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. We review for impairment all stores for which current cash flows from operations are either negative or nominal, or the construction costs are significantly in excess of the amount originally expected. An impairment charge is required when the carrying value of the asset exceeds the undiscounted future cash flows over the life of the lease. These calculations require us to make a number of estimates and projections of future results, often up to 20 years into the future. If these estimates or projections change or prove incorrect, we may be, and have been, required to record impairment charges on certain of these store locations. If these impairment charges are significant, our results of operations would be adversely affected.

We must properly account for our unredeemed gift certificates and merchandise credits.

We maintain a liability for unredeemed gift certificates and merchandise credits until the earlier of redemption, escheatment or four years. After four years, the remaining unredeemed gift certificate or merchandise credit

Table of Contents

liability is relieved and recorded within selling, general and administrative expenses. In the event that a state or states were to require that these unredeemed certificates and credits be escheated to that state or states, then our business and operating results would be harmed.

We may experience fluctuations in our tax obligations and effective tax rate.

We are subject to income taxes in many U.S. and Canadian jurisdictions. We record tax expense based on our estimates of future payments, which include reserves for estimates of probable settlements of foreign and domestic tax audits. At any one time, many tax years are subject to audit by various taxing jurisdictions. The results of these audits and negotiations with taxing authorities may affect the ultimate settlement of these issues. As a result, we expect that throughout the year there could be ongoing variability in our quarterly tax rates as taxable events occur and exposures are re-evaluated. Further, our effective tax rate in a given financial statement period may be materially impacted by changes in the mix and level of earnings or by changes to existing accounting rules or regulations. For example, we will adopt FASB Interpretation No. (FIN) 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109, in the first quarter of fiscal 2007, which may have an impact on our effective tax rate.

We rely on the services of key personnel, whose knowledge of our business and expertise would be difficult to replace.

Our future success depends to a significant degree on the skills, experience and efforts of key personnel in our senior management, whose vision for our company, knowledge of our business and expertise would be difficult to replace. If any of our key employees leaves, is seriously injured or is unable to work, and we are unable to find a qualified replacement, we may be unable to execute our business strategy.

In addition, our main offices are located in the San Francisco Bay Area, where competition for personnel with retail and technology skills is intense. If we fail to identify, attract, retain and motivate these skilled personnel, our business may be harmed. Further, in the event we need to hire additional personnel, we may experience difficulties due to significant competition for highly skilled personnel in our market.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Our gross leased store space, as of January 28, 2007, totaled approximately 5,451,000 square feet for 588 stores compared to approximately 5,035,000 square feet for 570 stores, as of January 29, 2006. All of the existing stores are leased by us with original terms ranging generally from 5 to 22 years. Certain leases contain renewal options for periods of up to 20 years. The rental payment requirements in our store leases are typically structured as either minimum rent, minimum rent plus additional rent based on a percentage of store sales if a specified store sales threshold is exceeded, or rent based on a percentage of store sales if a specified store sales threshold or contractual obligations of the landlord have not been met. Contingent rental payments, including rental payments that are based on a percentage of sales, cannot be predicted with certainty at the onset of the lease term. Accordingly, any contingent rental payments are recorded as incurred each period when the sales threshold is probable and are excluded from our calculation of deferred rent liability.

See Notes A and E to our Consolidated Financial Statements for more information.

We lease distribution facility space in the following locations:

Location	Square Footage (Approximate)
Olive Branch, Mississippi	3,275,000 square feet
Memphis, Tennessee	1,523,000 square feet
Cranbury, New Jersey	781,000 square feet
South Brunswick, New Jersey	418,000 square feet

Table of Contents

During fiscal 2005, we exercised our rights under an option to lease an additional 390,000 square feet of distribution space in connection with one of our Olive Branch, Mississippi distribution center agreements. We began occupying this space in fiscal 2006 and have included it in the table above.

Two of our distribution facilities in Memphis, Tennessee are leased from two partnerships whose partners include W. Howard Lester, our Chairman of the Board of Directors and Chief Executive Officer, and James A. McMahan, a Director Emeritus, both of whom are significant shareholders. Both partnerships were consolidated by us as of February 1, 2004. See Note F to our Consolidated Financial Statements for more information.

Our Cranbury, New Jersey distribution center agreement allows us to lease an additional 219,000 square feet of the facility in the event the current tenant vacates the premises. As of January 28, 2007, the current tenant had not vacated the premises.

On May 5, 2006, we entered into an agreement to lease a 418,000 square foot distribution facility located in South Brunswick, New Jersey. The lease has an initial term of two years, with two optional two-year renewals.

We contract with a third party who provides furniture delivery and storage facilities in a 662,000 square foot distribution facility in Ontario, California. This distribution square footage is not included in the table above.

In addition to the above long-term contracts, we enter into other agreements to meet our offsite storage needs both for our distribution centers and our retail store locations. As of January 28, 2007, we had approximately 368,000 square feet of leased space relating to these agreements. This square footage is not included in the table above.

We lease call center space in the following locations:

Location	Square Footage (Approximate)
Las Vegas, Nevada	36,000 square feet
Oklahoma City, Oklahoma	36,000 square feet
Camp Hill, Pennsylvania	38,000 square feet

Our corporate facilities are located in San Francisco, California. Our primary headquarters, consisting of 122,000 square feet, was purchased in 1993. In February 2000, we purchased a 204,000 square foot facility in San Francisco, California for the purpose of consolidating certain headquarters staff and to provide for future growth. In addition, we own a 13,000 square foot data center located in Memphis, Tennessee.

We believe that our facilities are adequate for our current needs and that suitable additional or substitute space will be available in the future to replace our existing facilities, if necessary, or to accommodate the expansion of our operations.

We also lease office, design studio, photo studio, warehouse and data center space in the following locations:

Location	Square Footage (Approximate)
Brisbane, California	194,000 square feet
San Francisco, California	148,000 square feet
New York City, New York	52,000 square feet
Rocklin, California	14,000 square feet

ITEM 3. LEGAL PROCEEDINGS

We are involved in lawsuits, claims and proceedings incident to the ordinary course of our business. These disputes, which are not currently material, are increasing in number as our business expands and our company grows larger. Litigation is inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources. The results of these lawsuits, claims and proceedings cannot be

Table of Contents

predicted with certainty. However, we believe that the ultimate resolution of these current matters will not have a material adverse effect on our consolidated financial statements taken as a whole.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders during the fourth quarter of fiscal 2006.

Table of Contents**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**
MARKET INFORMATION

Our common stock is traded on the New York Stock Exchange, or the NYSE, under the symbol WSM. The following table sets forth the high and low closing prices of our common stock on the NYSE for the periods indicated:

	High	Low
Fiscal 2006		
1st Quarter	\$ 43.38	\$ 38.40
2nd Quarter	\$ 44.33	\$ 31.81
3rd Quarter	\$ 34.90	\$ 28.57
4th Quarter	\$ 35.18	\$ 30.25
Fiscal 2005	High	Low
1st Quarter	\$ 37.40	\$ 33.49
2nd Quarter	\$ 44.82	\$ 34.08
3rd Quarter	\$ 44.05	\$ 36.46
4th Quarter	\$ 45.09	\$ 39.11

The closing price of our common stock on the NYSE on March 19, 2007 was \$35.30. See Quarterly Financial Information on page 66 of this Annual Report on Form 10-K for the quarter-end closing price of our common stock for each quarter listed above.

SHAREHOLDERS

The number of shareholders of record of our common stock as of March 19, 2007 was 502. This number excludes shareholders whose stock is held in nominee or street name by brokers.

PERFORMANCE GRAPH

Information required by this Item is incorporated by reference herein to information under the heading "Performance Graph" in our 2006 Annual Report.

DIVIDEND POLICY

In March 2006, our Board of Directors authorized the initiation of a quarterly cash dividend. During fiscal 2006, total cash dividends declared were approximately \$45,507,000, or \$0.40 per common share, of which \$34,435,000 was paid during the year and \$11,072,000 was paid in February 2007 to shareholders of record as of the close of business on January 26, 2007.

In March 2007, our Board of Directors authorized an increase in our quarterly cash dividend of \$0.015 to \$0.115 per common share payable on May 24, 2007 to shareholders of record as of the close of business on April 27, 2007. The aggregate quarterly dividend is estimated at approximately \$12,600,000 based on the current number of outstanding shares. The indicated annual cash dividend, subject to capital availability, is \$0.46 per common share or approximately \$50,500,000 in fiscal 2007. Our quarterly cash dividend could be reduced or discontinued at any time.

Additional information required by Item 5 is contained in Notes H and I to the Consolidated Financial Statements in this Annual Report on Form 10-K.

Table of Contents**STOCK REPURCHASE PROGRAM**

During fiscal 2006, we repurchased and retired a total of 5,824,500 shares of common stock under all programs previously authorized at a weighted average cost of \$31.85 per share and an aggregate cost of approximately \$185,508,000. As of fiscal year-end, the remaining authorized number of shares eligible for repurchase was 1,195,500.

The following table summarizes our repurchases of shares of our common stock during the fourth quarter of fiscal 2006:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Repurchase Plan	Maximum Number of Shares that May Yet be Purchased Under the Plan
October 30, 2006 - November 26, 2006	703,600	\$ 31.65	703,600	3,616,000
November 27, 2006 - December 24, 2006	2,420,500	\$ 32.14	2,420,500	1,195,500
December 25, 2006 - January 28, 2007				1,195,500
Total	3,124,100	\$ 32.03	3,124,100	1,195,500

In March 2007, our Board of Directors authorized a stock repurchase program to acquire up to an additional 5,000,000 shares of our common stock through open market and privately negotiated transactions, at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions. The stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.

¹Pre-tax operating margin is defined as earnings before income taxes.

The information set forth above is not necessarily indicative of future operations and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and the Consolidated Financial Statements and notes thereto in this Annual Report on Form 10-K.

Table of Contents**ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OVERVIEW***Fiscal 2006 Financial Results*

In fiscal 2006, our net revenues increased 5.3% to \$3,727,513,000 from \$3,538,947,000 in fiscal 2005, with positive growth in all brands. Despite this increase, we were negatively impacted in the back half of the year by the significant softening in the home-centered macro-economic environment. As a result, we saw lower direct-to-customer response rates, weaker retail traffic and an unusually high level of competitive markdown pressure. This was particularly true in Pottery Barn, our largest brand, where revenues fell substantially short of our expectations. There were also specific operational issues within the Pottery Barn brand, primarily in the areas of merchandising, marketing and retail execution. A comprehensive recovery plan is underway and we expect that we will see improvement throughout 2007 and 2008.

Diluted earnings per share decreased by 1.1% to \$1.79 in fiscal 2006 from \$1.81 in fiscal 2005. This decrease included a charge of \$0.11 per diluted share in fiscal 2006 related to both the expense associated with the implementation of SFAS No. 123R, Share-Based Payments and FASB Staff Position (FSP) FAS 13-1, Accounting for Rental Costs Incurred During a Construction Period, and a net benefit from the following unusual business events: unredeemed gift certificate income due to a change in estimate, the Visa/MasterCard litigation settlement income, expense associated with the Hold Everything transition and expense associated with the departure of our former Chief Executive Officer (Unusual Business Events).

From a cash flow perspective, fiscal 2006 was another strong year, generating \$309,114,000 in net cash from operating activities, despite higher inventories and lower growth rates. In 2006, we returned nearly \$219,943,000 to our shareholders through a combination of share repurchases and dividends, and we ended the year with a cash balance of \$275,429,000 after internally funding all growth and infrastructure initiatives, including \$190,980,000 in capital expenditures.

In our retail channel, net revenues in fiscal 2006 increased by \$121,071,000, or 6.0%, over fiscal 2005, primarily due to an increase in store leased square footage of 8.3% (including 18 net new stores) and comparable store sales growth of 0.3%. Net revenues generated in the West Elm, Williams-Sonoma, Pottery Barn Kids, Williams-Sonoma Home and the Pottery Barn brands were the primary contributors to the year-over-year revenue increase, partially offset by lost revenues in the Hold Everything brand due to the closure of all its stores in late 2005 and the first quarter of 2006.

In our direct-to-customer channel, net revenues in fiscal 2006 increased by \$67,495,000, or 4.5%, over fiscal 2005. This increase was primarily driven by net revenues generated in the Pottery Barn Kids, Pottery Barn, PBteen, Williams-Sonoma and West Elm brands due to an overall increase in catalog page circulation of 3.2% and continued strength in our Internet business, which continued to be our fastest growing shopping channel, with revenues increasing 21.0% to \$927,560,000. This increase was partially offset by lost revenues in the Hold Everything brand due to its shutdown during the second quarter of fiscal 2006 and a reduction in year-over-year revenues in the Williams-Sonoma Home brand.

In our core brands, net revenues increased 4.7%, including an 11.5% increase in the Pottery Barn Kids brand, a 5.6% increase in the Williams-Sonoma brand and a 1.8% increase in the Pottery Barn brand. In its 50th year of operations, the Williams-Sonoma brand reached a new milestone in profitability and, for the second consecutive year, delivered the highest operating contribution as a percentage of net revenues in its history.

In our emerging brands, including West Elm, PBteen and Williams-Sonoma Home, revenues increased 31.4%. This increase was primarily driven by incremental revenues from the opening of new stores in West Elm and Williams-Sonoma Home and strong direct-to-customer growth in PBteen and West Elm. In West Elm, incremental revenues from both existing and new stores, improved catalog response, and increased traffic in e-commerce drove year-over-year revenue growth. We opened 10 stores in fiscal 2006, with two new stores opening during the fourth quarter, bringing our total store count to 22 with an average square footage of approximately 17,400 square feet. In addition, we improved our level of profitability as we made progress on our initiatives to increase catalog productivity through higher response rates and average order sizes.

Table of Contents

In PBteen, increased revenues were driven by revitalized catalog marketing and innovative product introductions, both of which are long-term success factors for the brand.

In Williams-Sonoma Home, fiscal 2006 was a challenging year, particularly since it was the first year the brand began operating in all three shopping channels: retail, catalog, and e-commerce. During the year, the reach of the brand was extended by opening four new stores and launching an e-commerce website. Despite these growth initiatives, results for the year fell well below our expectations. These results were impacted by brand-building operational issues that are taking longer to implement than initially planned, in addition to the asset impairment charges recorded on two stores during fiscal 2006 due to expected future cash flows falling below the current net book value of the stores. Both of these were mid-market stores that were opened in fiscal 2005.

In January 2006, we decided to transition the merchandising strategies of our Hold Everything brand into our other existing brands by the end of fiscal 2006. In connection with this transition, we incurred pre-tax charges of approximately \$13,500,000 (\$0.07 per diluted share) and \$4,300,000 (\$0.02 per diluted share) in fiscal 2005 and fiscal 2006, respectively. These costs primarily included the initial asset impairment and lease termination costs associated with the shutdown of the Hold Everything retail stores, the asset impairment of the e-commerce website and the write-down of impaired merchandise inventories. In fiscal 2006, this pre-tax charge consisted of approximately \$2,700,000 in cost of goods sold and approximately \$1,600,000 in selling, general and administrative expenses. All of our Hold Everything retail stores were closed during late 2005 and the first quarter of fiscal 2006. The final phase of our operational shutdown was completed in the second quarter of fiscal 2006, with our final Hold Everything catalog mailed in May 2006 and our Hold Everything website ceasing operations in June 2006.

Fiscal 2006 Operational Results

In supply chain operations, we successfully in-sourced our east coast furniture hub operations, which allowed us to improve the furniture delivery experience for our customers and reduce our furniture return rates. We also implemented regional warehousing for our high-volume east coast stores, expanded our capabilities in monogramming and personalization, re-engineered our direct-to-customer returns processing operations and expanded our distribution network by increasing distribution leased square footage by 7.2%.

In information technology, we implemented new retail inventory management systems in our Williams-Sonoma and Pottery Barn Kids brands. We believe that over time these new systems will allow us to optimize the flow of inventory from our vendors to our stores, as well as improve our service levels to our customers. We also implemented new gift card issuance and redemption functionality in our direct-to-customer channel. We believe that this functionality is critical to driving future growth as consumers increasingly show a preference for this convenient form of gift giving. To support the long-term scalability of our infrastructure, we also continued to invest in the custom development of our new direct-to-customer order management and inventory management systems. All of these initiatives enhanced our operational infrastructure and leave us well positioned to support accelerated growth in the coming years.

Fiscal 2007

In fiscal 2007, we will focus on the strategic initiatives that can transform the financial performance of the company over the next several years: driving sustainable revenue growth with a key focus on the revitalization of the Pottery Barn brand; increasing our pre-tax operating margin by continuing to drive operational advancements and cost containment initiatives across the company; and enhancing shareholder value.

To drive sustainable revenue growth in fiscal 2007, we expect to add 13 net new stores and expand or remodel an additional 20 stores. We also expect to increase catalog circulation and electronic direct marketing and plan to intensify the marketing support behind our fastest growing shopping channel, e-commerce. As a result of our initiatives in the emerging brands (West Elm, PBteen and Williams-Sonoma Home) in fiscal 2007, we expect these brands to represent a more significant portion of our growth than in prior years. In West Elm, we will round out our merchandise assortment in core categories and expand to every room of the home. We will also open five

Table of Contents

new stores (including our largest downtown location which will be in Washington D.C.), increase circulation and page count to support growth, implement initiatives to improve e-commerce conversion and test our value proposition within shipping costs. In PBteen, we will continue to capture marketing opportunities that appeal to families with teens by focusing on the following initiatives: building brand awareness through innovative marketing; expanding our assortment; driving key categories through product innovation; refining our contact strategy to optimize response rates; improving our in-stock position to increase order fulfillment rates and testing new product categories that hold sizable potential. In Williams-Sonoma Home, our top priority in fiscal 2007 is superior execution, from product design to world class furniture delivery. We are modifying our brand rollout strategy to coincide with the further development of the infrastructure necessary to accelerate the business, therefore, in fiscal 2007, we plan to open two additional stores in Dallas, Texas and St. Louis, Missouri and reduce catalog circulation until such time as we can improve the overall productivity of the direct-to-customer business.

To improve our overall cost structure, we will continue to drive efficiencies within our supply chain, leverage our emerging brand infrastructure and maintain tight controls around overhead expenses while investing in our future. We expect, however, that we will see further short-term compression in our operating margin in fiscal 2007 as a result of continued softness in the home-furnishings macro-economic environment, increased costs associated with the Pottery Barn recovery plan and higher incentive compensation.

To enhance shareholder value, we will continue to adhere to the principles that have successfully guided us in the past: building the authority of our existing brands in the market segments that we serve; and continuing to leverage the potential of our multi-channel strategy.

We are also increasing our quarterly dividend by 15%, from \$0.10 per common share to \$0.115 per common share, in addition to continuing our ongoing share repurchase program. As we enter fiscal 2007, we are authorized to repurchase up to 6,195,000 shares of our common stock.

Table of Contents**Results of Operations****NET REVENUES**

Net revenues consist of retail sales, direct-to-customer sales and shipping fees. Retail sales include sales of merchandise to customers at our retail stores. Direct-to-customer sales include sales of merchandise to customers through our catalogs and the Internet. Shipping fees consist of revenue received from customers for delivery of merchandise. Revenues are presented net of sales returns and other discounts.

The following table summarizes our net revenues for the 52 weeks ended January 28, 2007 (fiscal 2006), January 29, 2006 (fiscal 2005) and January 30, 2005 (fiscal 2004):

<i>Dollars in thousands</i>	Fiscal 2006	% Total	Fiscal 2005	% Total	Fiscal 2004	% Total
Retail revenues	\$ 2,153,978	57.8%	\$ 2,032,907	57.4%	\$ 1,810,979	57.7%
Direct-to-customer revenues	1,573,535	42.2%	1,506,040	42.6%	1,325,952	42.3%
Net revenues	\$ 3,727,513	100.0%	\$ 3,538,947	100.0%	\$ 3,136,931	100.0%

Net revenues for fiscal 2006 increased by \$188,566,000, or 5.3%, over fiscal 2005. The increase was primarily due to an increase in store leased square footage of 8.3% (including 28 new store openings and the remodeling or expansion of an additional 28 stores) and comparable stores sales growth of 0.3% in fiscal 2006. This increase was further driven by an overall increase in catalog page circulation of 3.2% and continued strength in our Internet business, primarily resulting from our catalog advertising, expanded efforts associated with our electronic direct marketing initiatives and strategic e-commerce partnerships. This increase was partially offset by lost revenues in the Hold Everything brand, the temporary closure of 24 stores and the permanent closure of 14 stores in fiscal 2006.

Net revenues for fiscal 2005 increased by \$402,016,000, or 12.8%, over fiscal 2004. The increase was primarily due to an increase in store leased square footage of 8.6% (including 30 new store openings and the remodeling or expansion of an additional 8 stores) and comparable stores sales growth of 4.9% in fiscal 2005. The increase was further driven by increased catalog and page circulation (4.6% and 9.7%, respectively) and continued strength in our Internet business, primarily due to our expanded efforts associated with electronic direct marketing initiatives and strategic e-commerce partnerships, and the incremental net revenues generated by the late 2004 launch of our Hold Everything e-commerce website. These increases were partially offset by the temporary closure of 12 stores and the permanent closure of 8 stores in fiscal 2005.

RETAIL REVENUES AND OTHER DATA

<i>Dollars in thousands</i>	Fiscal 2006	Fiscal 2005	Fiscal 2004
Retail revenues	\$ 2,153,978	\$ 2,032,907	\$ 1,810,979
Percent growth in retail revenues	6.0%	12.3%	11.6%
Percent growth in comparable store sales	0.3%	4.9%	3.5%
Number of stores beginning of year	570	552	512
Number of new stores	28	30	43
Number of new stores due to remodeling ¹	28	8	17
Number of closed stores due to remodeling ^{1,2}	(24)	(12)	(15)
Number of permanently closed stores	(14)	(8)	(5)
Number of stores end of year	588	570	552
Store selling square footage at year-end	3,389,000	3,140,000	2,911,000
Store leased square footage (LSF) at year-end	5,451,000	5,035,000	4,637,000

¹ Remodeled stores are defined as those stores temporarily closed and subsequently reopened during the year due to square footage expansion, store modification or relocation.

² Fiscal 2005 store closing numbers include two Williams-Sonoma, two Pottery Barn and one Pottery Barn Kids temporary store closures in the New Orleans area due to Hurricane Katrina. One Williams-Sonoma store reopened before fiscal 2005 year-end. The remaining stores reopened in fiscal 2006.

Table of Contents

	Fiscal 2006		Fiscal 2005		Fiscal 2004	
	Store		Store	Avg. LSF	Store	Avg. LSF
	Count	Avg. LSF Per Store	Count	Per Store	Count	Per Store
Williams-Sonoma	254	5,900	254	5,700	254	5,700
Pottery Barn	197	12,200	188	12,100	183	11,900

Hold Everything ¹			8	7,600	9	6,100
Total	588	9,300	570	8,800	552	8,400

¹During the first quarter of fiscal 2006, we closed our remaining eight Hold Everything stores.

Retail revenues in fiscal 2006 increased by \$121,071,000, or 6.0%, over fiscal 2005 primarily due to an increase in store leased square footage of 8.3% (including 28 new store openings and the remodeling or expansion of an additional 28 stores) and comparable store sales growth of 0.3% in fiscal 2006. This increase was partially offset by the temporary closure of 24 stores and the permanent closure of 14 stores during fiscal 2006. Net revenues generated in the West Elm, Williams-Sonoma, Pottery Barn Kids, Williams-Sonoma Home and Pottery Barn brands were the primary contributors to the year-over-year revenue increase, partially offset by lost revenues in the Hold Everything brand due to the closure of all its stores in late 2005 and the first quarter of fiscal 2006.

Retail revenues in fiscal 2005 increased by \$221,928,000, or 12.3%, over fiscal 2004 primarily due to an increase in store leased square footage of 8.6% (including 30 new store openings and the remodeling or expansion of an additional 8 stores) and comparable store sales growth of 4.9%. These increases were partially offset by the temporary closure of 12 stores and the permanent closure of 8 stores during fiscal 2005. Net revenues generated in the Pottery Barn, Williams-Sonoma, West Elm and Pottery Barn Kids brands were the primary contributors to the year-over-year revenue increase.

Comparable Store Sales

Comparable stores are defined as those stores in which gross square footage did not change by more than 20% in the previous 12 months and which have been open for at least 12 consecutive months without closure for seven or more consecutive days. By measuring the year-over-year sales of merchandise in the stores that have a history of being open for a full comparable 12 months or more, we can better gauge how the core store base is performing since it excludes new store openings, store remodelings, expansions and closings. Comparable stores exclude new retail concepts until such time as we believe that comparable store results in those concepts are meaningful to evaluating the performance of the retail strategy. For fiscal 2006, our total comparable store sales exclude the West Elm and Williams-Sonoma Home concepts. For fiscal 2005, our total comparable store sales exclude the West Elm concept.

Percentages represent changes in comparable store sales versus the same period in the prior year.

Percent increase (decrease) in comparable store sales	Fiscal 2006	Fiscal 2005	Fiscal 2004
Williams-Sonoma	3.0%	2.8%	0.5%
Pottery Barn	(2.1%)	5.7%	4.6%
Pottery Barn Kids	3.3%	5.2%	4.1%
Outlets	(4.3%)	14.7%	18.1%
Hold Everything ¹		(10.7%)	2.1%
Total	0.3%	4.9%	3.5%

¹ Hold Everything stores are excluded from the 2006 comparable store sales calculation as this brand's remaining eight stores were closed in the first quarter of fiscal 2006.

Table of Contents

Various factors affect comparable store sales, including the number, size and location of stores we open, close, remodel or expand in any period, the general retail sales environment, consumer preferences and buying trends, changes in sales mix between distribution channels, our ability to efficiently source and distribute products, changes in our merchandise mix, competition (including competitive promotional activity), current local and global economic conditions, the timing of our releases of new merchandise and promotional events, the success of marketing programs, the cannibalization of existing store sales by our new stores, increased catalog circulation and continued strength in our Internet business. Among other things, weather conditions can affect comparable store sales because inclement weather can alter consumer behavior or require us to close certain stores temporarily and thus reduce store traffic. Even if stores are not closed, many customers may decide to avoid going to stores in bad weather. These factors have caused our comparable store sales to fluctuate significantly in the past on an annual, quarterly and monthly basis and, as a result, we expect that comparable store sales will continue to fluctuate in the future.

DIRECT-TO-CUSTOMER REVENUES

<i>Dollars in thousands</i>	Fiscal 2006	Fiscal 2005	Fiscal 2004
Catalog revenues ¹	\$ 645,975	\$ 739,734	\$ 764,703
Internet revenues ¹	927,560	766,306	561,249
Total direct-to-customer revenues ¹	\$ 1,573,535	\$ 1,506,040	\$ 1,325,952
Percent growth in direct-to-customer revenues	4.5%	13.6%	17.1%
Percent (decrease) increase in number of catalogs circulated	(1.6%)	4.6%	12.1%
Percent increase in number of pages circulated	3.2%	9.7%	19.5%

¹ Approximately 55% of our company-wide non-gift registry Internet revenues are driven by customers who recently received a catalog and approximately 45% are incremental to the direct-to-customer channel.

Direct-to-customer revenues in fiscal 2006 increased by \$67,495,000, or 4.5%, over fiscal 2005. This increase was primarily driven by revenues generated in the Pottery Barn Kids, Pottery Barn, PBteen, Williams-Sonoma and West Elm brands due to an overall increase in catalog page circulation of 3.2% and continued strength in our Internet business, primarily resulting from our catalog advertising, expanded efforts associated with our electronic direct marketing initiatives and strategic e-commerce partnerships. This increase was partially offset by lost revenues in the Hold Everything brand due to its shutdown during the second quarter of fiscal 2006 and a reduction in year-over-year revenues in the Williams-Sonoma Home brand.

Direct-to-customer revenues in fiscal 2005 increased by \$180,088,000, or 13.6%, over fiscal 2004. This increase was primarily driven by revenues generated in the Pottery Barn, Pottery Barn Kids, West Elm and Williams-Sonoma brands due to increased catalog and page circulation (4.6% and 9.7%, respectively) and continued strength in our Internet business, primarily resulting from our expanded efforts associated with our electronic direct marketing initiatives and strategic e-commerce partnerships, and the incremental net revenues generated by the late 2004 launch of our Hold Everything e-commerce website. All of our brands in the direct-to-customer channel delivered positive growth during the fiscal year with the exception of the Hold Everything brand.

COST OF GOODS SOLD

<i>Dollars in thousands</i>	Fiscal 2006	Revenues	Fiscal 2005	Revenues	Fiscal 2004	Revenues
Total cost of goods sold	\$ 2,240,226	60.1%	\$ 2,103,465	59.4%	\$ 1,865,786	59.5%

Cost of goods sold includes cost of goods, occupancy expenses and shipping costs. Cost of goods consists of cost of merchandise, inbound freight expenses, freight-to-store expenses and other inventory related costs such as shrinkage, damages and replacements. Occupancy expenses consist of rent, depreciation and other occupancy costs, including common area maintenance and utilities. Shipping costs consist of third party delivery services and shipping materials.

Table of Contents

Our classification of expenses in cost of goods sold may not be comparable to other public companies, as we do not include non-occupancy related costs associated with our distribution network in cost of goods sold. These costs, which include distribution network employment, third party warehouse management and other distribution-related administrative expenses, are recorded in selling, general and administrative expenses.

Within our reportable segments, the direct-to-customer channel does not incur freight-to-store or store occupancy expenses, and typically operates with lower markdowns and inventory shrinkage than the retail channel. However, the direct-to-customer channel incurs higher customer shipping, damage and replacement costs than the retail channel.

Fiscal 2006 vs. Fiscal 2005

Cost of goods sold increased by \$136,761,000, or 6.5%, in fiscal 2006 over fiscal 2005. Including expense of approximately \$5,000,000 associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands and the implementation of FASB Staff Position (FSP) FAS 13-1, cost of goods sold as a percentage of net revenues increased to 60.1% in fiscal 2006 from 59.4% in fiscal 2005. This 70 basis point increase as a percentage of net revenues was primarily driven by retail occupancy expense deleverage and increased markdowns in the Pottery Barn brand. The occupancy cost deleverage was primarily driven by the retail rollout of our emerging brands, in addition to higher retail occupancy costs in our core brands. This increase was further driven by the implementation of FSP FAS 13-1. These costs were partially offset, however, by the elimination of fixed occupancy and all other cost of goods sold associated with the Hold Everything brand.

In the retail channel, cost of goods sold as a percentage of retail net revenues increased 130 basis points during fiscal 2006 compared to fiscal 2005. This was driven by retail occupancy expense deleverage and increased markdowns in the Pottery Barn brand. The occupancy cost deleverage was primarily driven by the retail rollout of our emerging brands, in addition to higher retail occupancy costs in our core brands. This increase was further driven by the implementation of FSP FAS 13-1. These costs were partially offset, however, by the elimination of fixed occupancy and all other cost of goods sold associated with the Hold Everything brand.

In the direct-to-customer channel, cost of goods sold as a percentage of direct-to-customer net revenues decreased by 30 basis points during fiscal 2006 compared to fiscal 2005. This was primarily due to an improvement in cost of merchandise, partially offset by an increase in other occupancy expenses compared to fiscal 2005 and higher direct-to-customer shipping costs.

Fiscal 2005 vs. Fiscal 2004

Cost of goods sold increased by \$237,679,000, or 12.7%, in fiscal 2005 over fiscal 2004. Including an approximate \$4,500,000 charge associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands, cost of goods sold as a percentage of net revenues decreased 10 basis points in fiscal 2005 from fiscal 2004, primarily driven by rate reductions in shipping and occupancy costs, partially offset by a rate increase in cost of goods. The rate reduction in shipping costs was primarily due to the successful refining of our furniture delivery network, including the late 2004 in-sourcing of our line-haul management and cost efficiencies gained from our east coast distribution center, partially offset by a year-over-year increase in fuel surcharges. The rate reduction in occupancy expenses was primarily due to sales leverage in the retail channel, partially offset by increased distribution leased square footage in the direct-to-customer channel and lease termination costs associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands. The rate increase in cost of goods was primarily due to the costs associated with the implementation of the daily store replenishment program in April and May of 2005 and a higher percentage of total company net revenues being driven by furniture, which generates a lower than average gross margin rate, as well as the write-down of impaired merchandise inventories associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands.

In the retail channel, cost of goods sold as a percentage of retail net revenues decreased 20 basis points during fiscal 2005 compared to fiscal 2004. This was primarily due to sales leverage in fixed occupancy expenses, despite the lease termination costs associated with the merchandising transition in the Hold Everything brand into our other existing brands. Although cost of goods as a percentage of retail net revenues remained relatively flat

Table of Contents

compared to fiscal 2004, we saw a rate decrease in cost of merchandise driven by increased full-price selling in the Pottery Barn and Williams-Sonoma brands, partially offset by the write-down of impaired merchandise inventories associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands and increased costs associated with the 2005 daily store replenishment program.

In the direct-to-customer channel, cost of goods sold as a percentage of direct-to-customer net revenues remained relatively flat in fiscal 2005 compared to fiscal 2004. This was primarily due to rate increases in cost of goods and occupancy expenses, offset by a rate reduction in shipping costs. The rate increase in cost of goods was primarily due to a furniture-driven rate increase, as well as the write-down of impaired merchandise inventories associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands. The rate increase in occupancy expenses was primarily a function of higher distribution occupancy expenses resulting from increased distribution leased square footage versus fiscal 2004. The rate reduction in shipping costs was primarily due to the successful refining of our furniture delivery network, including the late 2004 in-sourcing of our line-haul management and cost efficiencies gained from our east coast distribution center, partially offset by a year-over-year increase in fuel surcharges.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

		% Net		% Net		% Net
<i>Dollars in thousands</i>			Fiscal 2006	Revenues	Fiscal 2005	Revenues
Selling, general and administrative expenses	\$ 1,159,786		\$ 1,090,392	30.8%	\$ 961,176	30.6%

Selling, general and administrative expenses consist of non-occupancy related costs associated with our retail stores, distribution warehouses, customer care centers, supply chain operations (buying, receiving and inspection), and corporate administrative functions. These costs include employment, advertising, third party credit card processing and other general expenses.

Due to their distinct distribution and marketing strategies, we experience differing employment and advertising costs as a percentage of net revenues within the retail and direct-to-customer channels. Store employment costs represent a greater percentage of retail net revenues than employment costs as a percentage of net revenues within the direct-to-customer channel. However, catalog advertising expenses are greater within the direct-to-customer channel than the retail channel.

Fiscal 2006 vs. Fiscal 2005

Selling, general and administrative expenses increased by \$69,394,000, or 6.4%, over fiscal 2005. Including the charge of approximately \$16,000,000 resulting from both the expense associated with stock-based compensation (including the implementation of SFAS 123R) and the favorable net impact of Unusual Business Events, selling, general and administrative expenses as a percentage of net revenues increased to 31.1% in fiscal 2006 from 30.8% in fiscal 2005. This 30 basis point increase as a percentage of net revenues was primarily driven by increased employment costs due to the recognition of stock-based compensation expense, the growth of the emerging brands and expense incurred in connection with the departure of our former Chief Executive Officer, partially offset by lower incentive compensation compared to fiscal 2005. This increase was further driven by higher asset disposals related to our information technology systems and higher asset impairment charges related to our retail stores (including two mid-market Williams-Sonoma Home stores), partially offset by a change in estimate for recording income associated with unredeemed gift certificates, the settlement of the Visa/MasterCard litigation and the elimination of expenses associated with the Hold Everything brand.

In the retail channel, selling, general and administrative expenses as a percentage of retail net revenues increased approximately 10 basis points in fiscal 2006 versus fiscal 2005, primarily driven by an increase in employment costs associated with the growth in the emerging brands. This increase was partially offset by a change in estimate for recording income associated with unredeemed gift certificates and a reduction in expense associated with retail asset impairment charges as compared to prior year, which had higher retail asset impairment charges associated with the early shutdown of our Hold Everything stores.

Table of Contents

In the direct-to-customer channel, selling, general and administrative expenses as a percentage of direct-to-customer net revenues decreased by approximately 10 basis points in fiscal 2006 compared to fiscal 2005. This decrease was primarily driven by a rate decrease in advertising costs resulting from the elimination of unproductive catalog circulation in the Hold Everything brand, the recording of income associated with unredeemed gift certificates resulting from a change in estimate and a greater percentage of total company net revenues being generated in the e-commerce channel, which incurs advertising expense at a lower rate than the company average. This decrease was partially offset by reduced catalog productivity in the Pottery Barn brand as well as an increase in employment costs.

Fiscal 2005 vs. Fiscal 2004

Selling, general and administrative expenses increased by \$129,216,000, or 13.4%, over fiscal 2004. Including an approximate \$9,000,000 charge associated with transitioning the merchandising strategies of our Hold Everything brand into our other existing brands, selling, general and administrative expenses expressed as a percentage of net revenues increased to 30.8% in fiscal 2005 from 30.6% in fiscal 2004. This 20 basis point increase as a percentage of net revenues was primarily due to higher catalog advertising expenses and other general expenses, partially offset by rate reductions in employee benefit costs. Increased paper costs across all brands drove the majority of the catalog advertising expense increase. The increase in other general expenses was primarily due to asset impairment costs associated with the early shutdown of our Hold Everything stores as a result of transitioning the merchandising strategies of our Hold Everything brand into our other existing brands.

In the retail channel, selling, general and administrative expenses as a percentage of retail net revenues increased approximately 50 basis points in fiscal 2005 versus fiscal 2004, primarily driven by an increase in other general expenses due to asset impairment costs associated with the early shutdown of our Hold Everything stores as a result of transitioning the merchandising strategies of our Hold Everything brand into our other existing brands, in addition to higher catalog advertising expenses. Increased paper costs drove the majority of the catalog advertising expense increase. This rate increase was partially offset by rate reductions in employee benefit costs.

In the direct-to-customer channel, selling, general and administrative expenses as a percentage of direct-to-customer net revenues increased by approximately 40 basis points in fiscal 2005 compared to fiscal 2004. This rate increase was primarily driven by higher catalog advertising expenses resulting from increased paper costs across all brands, and an increase in other general expenses, including asset impairment costs as a result of transitioning the merchandising strategies of our Hold Everything brand into our other existing brands.

INTEREST INCOME AND EXPENSE

Interest income was \$11,810,000, \$5,683,000 and \$1,939,000 in fiscal 2006, fiscal 2005 and fiscal 2004, respectively, comprised primarily of income from short-term investments classified as cash and cash equivalents. The increase in interest income during fiscal 2006 resulted from an increase in the interest rates associated with these short-term investments as well as higher cash balances during fiscal 2006 compared to fiscal 2005.

Interest expense was \$2,125,000 (net of capitalized interest of \$699,000), \$1,975,000 (net of capitalized interest of \$1,200,000) and \$1,703,000 (net of capitalized interest of \$1,689,000) for fiscal 2006, fiscal 2005 and fiscal 2004, respectively. Interest expense increased by \$150,000 in fiscal 2006, primarily due to a reduction in capitalized interest, partially offset by lower interest expense in fiscal 2006 as a result of the repayment of the outstanding balance on our senior notes in August 2005 and the repayment of certain capital lease obligations in late 2005 and early 2006.

Interest expense increased by \$272,000 in fiscal 2005, primarily due to interest expense associated with our Mississippi industrial development bonds issued in June 2004, partially offset by lower interest expense incurred on our senior notes as a result of the repayment of our outstanding balance in August 2005.

INCOME TAXES

Our effective tax rate was 38.1% for fiscal 2006 and 38.4% for fiscal 2005 and fiscal 2004. Our fiscal 2006 tax rate decreased primarily due to certain income tax benefits that were favorably resolved under audit in fiscal

Table of Contents

2006. In addition, in fiscal 2005, there was an increase in reserves for potential state income tax exposure, which resulted in a higher fiscal 2005 tax rate. We currently expect our fiscal 2007 effective tax rate to be in the range of 38.5% to 38.8%. This effective tax rate does not include any potential impact from the implementation of FIN 48, which we will adopt in the first quarter of fiscal 2007. Throughout the year, we expect that there could be ongoing variability in our quarterly tax rates as taxable events occur and exposures are re-evaluated.

LIQUIDITY AND CAPITAL RESOURCES

As of January 28, 2007, we held \$275,429,000 in cash and cash equivalent funds. As is consistent with our industry, our cash balances are seasonal in nature, with the fourth quarter representing a significantly higher level of cash than other periods.

Throughout the fiscal year, we utilize our cash balances to build our inventory levels in preparation for our fourth quarter holiday sales. In fiscal 2007, we plan to utilize our cash resources to fund our inventory and inventory related purchases, catalog advertising and marketing initiatives, purchases of property and equipment, share repurchases and dividends. In addition to the current cash balances on-hand, we have a \$300,000,000 credit facility available as of January 28, 2007 that may be used for loans or letters of credit. No amounts were borrowed by us under the credit facility in either fiscal 2006 or fiscal 2005. However, as of January 28, 2007, \$37,398,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. We believe our cash on-hand, in addition to our available credit facilities, will provide adequate liquidity for our business operations and growth opportunities over the next 12 month period.

In fiscal 2006, net cash provided by operating activities was \$309,114,000 compared to net cash provided by operating activities of \$348,373,000 in fiscal 2005. Cash provided by operating activities in fiscal 2006 was primarily attributable to net earnings, an increase in deferred rent and lease incentives due to new store openings, an increase in income taxes payable and an increase in customer deposits due to growth in unredeemed gift cards. This was partially offset by an increase in merchandise inventories due to inventories growing at a faster rate than sales, in addition to the purchase of new inventory to support the increase in sales in our core and emerging brands and an increase in our leased square footage of 8.3%.

In fiscal 2005, net cash provided by operating activities was \$348,373,000 compared to net cash provided by operating activities of \$304,437,000 in fiscal 2004. Cash provided by operating activities in fiscal 2005 was primarily attributable to net earnings, an increase in deferred rent and lease incentives due to new store openings, and an increase in customer deposits due to growth in unredeemed gift certificates and gift cards. This was partially offset by an increase in merchandise inventories in order to support the increase in sales in our core and emerging brands and an increase in our leased square footage of 8.6%.

Net cash used in investing activities was \$189,287,000 for fiscal 2006 compared to \$151,788,000 in fiscal 2005. Fiscal 2006 purchases of property and equipment were \$190,980,000, comprised of \$119,245,000 for 28 new and 28 remodeled or expanded stores, \$51,199,000 for systems development projects (including e-commerce websites) and \$20,536,000 for distribution, facility infrastructure and other projects.

Net cash used in investing activities was \$151,788,000 for fiscal 2005 compared to \$181,453,000 in fiscal 2004. Fiscal 2005 purchases of property and equipment were \$151,788,000, comprised of \$90,602,000 for 30 new and 8 remodeled or expanded stores, \$39,602,000 for systems development projects (including e-commerce websites) and \$21,584,000 for distribution, facility infrastructure and other projects.

In fiscal 2007, we anticipate investing \$220,000,000 to \$240,000,000 in the purchase of property and equipment, primarily for the construction of 21 new stores and 20 remodeled or expanded stores, systems development projects (including e-commerce websites), and distribution, facility infrastructure and other projects.

For fiscal 2006, cash used in financing activities was \$206,027,000 compared to \$75,808,000 in fiscal 2005, comprised primarily of \$185,508,000 for the repurchase of our common stock and \$34,435,000 for the payment of dividends, partially offset by \$13,935,000 in proceeds from the exercise of stock options.

For fiscal 2005, cash used in financing activities was \$75,808,000 compared to \$48,207,000 in fiscal 2004, comprised primarily of \$93,921,000 for the repurchase of our common stock and \$9,235,000 for the repayment

Table of Contents

of long-term obligations, including capital leases and long-term debt, partially offset by \$28,002,000 in proceeds from the exercise of stock options.

Stock Repurchase Program

During fiscal 2006, we repurchased and retired a total of 5,824,500 shares of common stock under all programs previously authorized at a weighted average cost of \$31.85 per share and an aggregate cost of approximately \$185,508,000. As of fiscal year-end, the remaining authorized number of shares eligible for repurchase was 1,195,500.

In March 2007, our Board of Directors authorized a stock repurchase program to acquire up to an additional 5,000,000 shares of our common stock through open market and privately negotiated transactions, at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability, and other market conditions. The stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.

Contractual Obligations

The following table provides summary information concerning our future contractual obligations as of January 28, 2007:

<i>Dollars in thousands</i>	Fiscal 2007	Payments Due by Period			Total
		to Fiscal 2010	to Fiscal 2012	Thereafter	
Memphis-based distribution facilities obligation	\$ 1,490	\$ 4,484	\$ 2,949	\$ 5,389	\$ 14,312
Mississippi industrial development bonds	14,200				14,200
Capital leases	163				163
Interest ¹	1,995	4,578	1,942	937	9,452
Operating leases ^{2,3}	191,638	534,941	303,652	561,311	1,591,542
Purchase obligations ⁴	738,285	3,050			741,335
Total	\$ 947,771	\$ 547,053	\$ 308,543	\$ 567,637	\$ 2,371,004

¹ Represents interest expected to be paid on our long-term debt, Mississippi industrial development bonds and capital leases.

² See discussion on operating leases in the *Off Balance Sheet Arrangements* section and Note E to our Consolidated Financial Statements.

³ Projected payments include only those amounts that are fixed and determinable as of the reporting date.

⁴ Represents estimated commitments at year-end to purchase inventory and other goods and services in the normal course of business to meet operational requirements.

Memphis-Based Distribution Facilities Obligation

As of January 28, 2007, long-term debt of \$14,312,000 consisted of bond-related debt pertaining to the consolidation of our Memphis-based distribution facilities in accordance with FASB Interpretation No. (FIN) 46R, Consolidation of Variable Interest Entities. See discussion of the consolidation of our Memphis-based distribution facilities at Note F to our Consolidated Financial Statements.

Mississippi Industrial Development Bonds

In June 2004, in an effort to utilize tax incentives offered to us by the state of Mississippi, we entered into an agreement whereby the Mississippi Business Finance Corporation issued \$15,000,000 in long-term variable rate industrial development bonds, the proceeds, net of debt issuance costs, of which were loaned to us to finance the acquisition and installation of leasehold improvements and equipment located in our Olive Branch distribution center. The bonds are marketed through a remarketing agent and are secured by a letter of credit issued under our \$300,000,000 line of credit facility. The bonds mature on June 1, 2024. The bond rate resets each week based upon current market rates. The rate in effect at January 28, 2007 was 5.4%.

Table of Contents

The bond agreement allows for each bondholder to tender their bonds to the trustee for repurchase, on demand, with seven days advance notice. In the event the remarketing agent fails to remarket the bonds, the trustee will draw upon the letter of credit to fund the purchase of the bonds. As of January 28, 2007, \$14,200,000 remained outstanding on these bonds and was classified as current debt. The bond proceeds were restricted for use in the acquisition and installation of leasehold improvements and equipment located in our Olive Branch distribution center. As of January 28, 2007, we had acquired and installed all \$15,000,000 of leasehold improvements and equipment associated with the facility.

Capital Leases

Our \$163,000 of capital lease obligations consists primarily of leases for distribution center equipment used in our normal course of business.

Other Contractual Obligations

We have other liabilities reflected in our consolidated balance sheets. The payment obligations associated with these liabilities are not reflected in the table above due to the absence of scheduled maturities. The timing of these payments cannot be determined, except for amounts estimated to be payable in fiscal 2007 which are included in our current liabilities as of January 28, 2007.

Commercial Commitments

The following table provides summary information concerning our outstanding commercial commitments as of January 28, 2007.

<i>Dollars in thousands</i>	Amount of Outstanding Commitment Expiration By Period				Total
	Fiscal 2007	Fiscal 2008 to Fiscal 2010	Fiscal 2011 to Fiscal 2012	Thereafter	
<i>Credit facility</i>					
Letter of credit facilities	\$ 124,860				\$ 124,860
Standby letters of credit	37,398				37,398
Total	\$ 162,258				\$ 162,258
<i>Credit Facility</i>					

As of January 28, 2007, we have a credit facility that provides for a \$300,000,000 unsecured revolving line of credit that may be used for loans or letters of credit and contains certain financial covenants, including a maximum leverage ratio (funded debt adjusted for lease and rent expense to EBITDAR). Prior to April 4, 2011, we may, upon notice to the lenders, request an increase in the new credit facility of up to \$200,000,000, to provide for a total of \$500,000,000 of unsecured revolving credit. The credit facility contains events of default that include, among others, non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations and warranties, bankruptcy and insolvency events, material judgments, cross defaults to certain other indebtedness and events constituting a change of control. The occurrence of an event of default will increase the applicable rate of interest by 2.0% and could result in the acceleration of our obligations under the credit facility and an obligation of any or all of our U.S. subsidiaries to pay the full amount of our obligations under the credit facility. The credit facility matures on October 4, 2011, at which time all outstanding borrowings must be repaid and all outstanding letters of credit must be cash collateralized.

We may elect interest rates calculated at Bank of America's prime rate (or, if greater, the average rate on overnight federal funds plus one-half of one percent) or LIBOR plus a margin based on our leverage ratio. No amounts were borrowed under the credit facility during fiscal 2006 or fiscal 2005. However, as of January 28, 2007, \$37,398,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. The standby letters of credit were issued to secure the liabilities associated with workers' compensation, other insurance programs and certain debt transactions. As of January 28, 2007, we were in compliance with our financial covenants under the credit facility.

Table of Contents

Letter of Credit Facilities

We have five unsecured commercial letter of credit reimbursement facilities for an aggregate of \$165,000,000, each of which expires on September 8, 2007. As of January 28, 2007, an aggregate of \$124,860,000 was outstanding under the letter of credit facilities. Such letters of credit represent only a future commitment to fund inventory purchases to which we had not taken legal title as of January 28, 2007. The latest expiration possible for any future letters of credit issued under the facilities is February 5, 2008.

OFF BALANCE SHEET ARRANGEMENTS

Operating Leases

We lease store locations, warehouses, corporate facilities, call centers and certain equipment for original terms ranging generally from 3 to 22 years. Certain leases contain renewal options for periods up to 20 years. The rental payment requirements in our store leases are typically structured as either minimum rent, minimum rent plus additional rent based on a percentage of store sales if a specified store sales threshold is exceeded, or rent based on a percentage of store sales if a specified store sales threshold or contractual obligations of the landlord has not been met. Contingent rental payments, including rental payments that are based on a percentage of sales, cannot be predicted with certainty at the onset of the lease term. Accordingly, any contingent rental payments are recorded as incurred each period when the sales threshold is probable and are excluded from our calculation of deferred rent liability. See Notes A and E to our Consolidated Financial Statements.

We have an operating lease for a 1,002,000 square foot retail distribution facility located in Olive Branch, Mississippi. The lease has an initial term of 22.5 years, expiring January 2022, with two optional five-year renewals. The lessor, an unrelated party, is a limited liability company. The construction and expansion of the distribution facility was financed by the original lessor through the sale of \$39,200,000 Taxable Industrial Development Revenue Bonds, Series 1998 and 1999, issued by the Mississippi Business Finance Corporation. The bonds are collateralized by the distribution facility. As of January 28, 2007, approximately \$30,301,000 was outstanding on the bonds. During fiscal 2006, we made annual rental payments of approximately \$3,693,000, plus applicable taxes, insurance and maintenance expenses.

We have an operating lease for an additional 1,103,000 square foot retail distribution facility located in Olive Branch, Mississippi. The lease has an initial term of 22.5 years, expiring January 2023, with two optional five-year renewals. The lessor, an unrelated party, is a limited liability company. The construction of the distribution facility was financed by the original lessor through the sale of \$42,500,000 Taxable Industrial Development Revenue Bonds, Series 1999, issued by the Mississippi Business Finance Corporation. The bonds are collateralized by the distribution facility. As of January 28, 2007, approximately \$33,481,000 was outstanding on the bonds. During fiscal 2006, we made annual rental payments of approximately \$4,180,000, plus applicable taxes, insurance and maintenance expenses.

In December 2003, we entered into an agreement to lease 780,000 square feet of a distribution facility located in Olive Branch, Mississippi. The lease has an initial term of six years, with two optional two-year renewals. The agreement includes an option to lease an additional 390,000 square feet of the same distribution center. We exercised this option and began occupying this space in fiscal 2006. During fiscal 2006, we made annual rental payments of approximately \$2,968,000, plus applicable taxes, insurance and maintenance expenses.

In February 2004, we entered into an agreement to lease 781,000 square feet of a distribution center located in Cranbury, New Jersey. The lease has an initial term of seven years, with three optional five-year renewals. The agreement allows us to lease an additional 219,000 square feet of the facility in the event the current tenant vacates the premises. As of January 28, 2007, the current tenant had not vacated the premises. During fiscal 2006, we made annual rental payments of approximately \$3,397,000, plus applicable taxes, insurance and maintenance expenses.

In August 2004, we entered into an agreement to lease a 500,000 square foot distribution facility located in Memphis, Tennessee. The lease has an initial term of four years, with one optional three-year and nine-month renewal. During fiscal 2006, we made annual rental payments of approximately \$1,025,000, plus applicable taxes, insurance and maintenance expenses.

Table of Contents

In May 2006, we entered into an agreement to lease a 418,000 square foot distribution facility located in South Brunswick, New Jersey. The lease has an initial term of two years, with two optional two-year renewals. During fiscal 2006, we made annual rental payments of approximately \$1,247,000, plus applicable taxes, insurance and maintenance expenses.

We are party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters. These contracts primarily relate to our commercial contracts, operating leases, trademarks, intellectual property, financial agreements and various other agreements. Under these contracts, we may provide certain routine indemnifications relating to representations and warranties or personal injury matters. The terms of these indemnifications range in duration and may not be explicitly defined. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our financial condition or results of operations.

CONSOLIDATION OF MEMPHIS-BASED DISTRIBUTION FACILITIES

Our Memphis-based distribution facilities include an operating lease entered into in July 1983 for a distribution facility in Memphis, Tennessee. The lessor is a general partnership (Partnership 1) comprised of W. Howard Lester, our Chairman of the Board of Directors and Chief Executive Officer and James A. McMahan, a Director Emeritus, both of whom are significant shareholders. Partnership 1 does not have operations separate from the leasing of this distribution facility and does not have lease agreements with any unrelated third parties.

Partnership 1 financed the construction of this distribution facility through the sale of a total of \$9,200,000 of industrial development bonds in 1983 and 1985. Annual principal payments and monthly interest payments are required through maturity in December 2010. The Partnership 1 industrial development bonds are collateralized by the distribution facility and the individual partners guarantee the bond repayments. As of January 28, 2007, \$1,418,000 was outstanding under the Partnership 1 industrial development bonds.

During fiscal 2006, we made annual rental payments of approximately \$618,000, plus interest on the bonds calculated at a variable rate determined monthly (approximately 4.0% in January 2007), applicable taxes, insurance and maintenance expenses. Although the current term of the lease expires in August 2007, we are obligated to renew the operating lease on an annual basis until these bonds are fully repaid.

Our other Memphis-based distribution facility includes an operating lease entered into in August 1990 for another distribution facility that is adjoined to the Partnership 1 facility in Memphis, Tennessee. The lessor is a general partnership (Partnership 2) comprised of W. Howard Lester, James A. McMahan and two unrelated parties. Partnership 2 does not have operations separate from the leasing of this distribution facility and does not have lease agreements with any unrelated third parties.

Partnership 2 financed the construction of this distribution facility and related addition through the sale of a total of \$24,000,000 of industrial development bonds in 1990 and 1994. Quarterly interest and annual principal payments are required through maturity in August 2015. The Partnership 2 industrial development bonds are collateralized by the distribution facility and require us to maintain certain financial covenants. As of January 28, 2007, \$12,893,000 was outstanding under the Partnership 2 industrial development bonds.

During fiscal 2006, we made annual rental payments of approximately \$2,585,000, plus applicable taxes, insurance and maintenance expenses. Although the current term of the lease expires in August 2007, we are obligated to renew the operating lease on an annual basis until these bonds are fully repaid.

The two partnerships described above qualify as variable interest entities under FIN 46R due to their related party relationship and our obligation to renew the leases until the bonds are fully repaid. Accordingly, the two related party variable interest entity partnerships from which we lease our Memphis-based distribution facilities are consolidated by us. As of January 28, 2007, the consolidation resulted in increases to our consolidated balance sheet of \$17,620,000 in assets (primarily buildings), \$14,312,000 in debt and \$3,308,000 in other long-term liabilities. Consolidation of these partnerships does not have an impact on our net income.

Table of Contents

IMPACT OF INFLATION

The impact of inflation on our results of operations for the past three fiscal years has not been significant.

CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. These estimates and assumptions are evaluated on an ongoing basis and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ from these estimates.

We believe the following critical accounting policies affect the significant estimates and assumptions used in the preparation of our consolidated financial statements.

Merchandise Inventories

Merchandise inventories, net of an allowance for excess quantities and obsolescence, are stated at the lower of cost (weighted average method) or market. We estimate a provision for damaged, obsolete, excess and slow-moving inventory based on inventory aging reports and specific identification. We generally reserve, based on inventory aging reports, for 50% of the cost of all inventory between one and two years old and 100% of the cost of all inventory over two years old. If actual obsolescence is different from our estimate, we will adjust our provision accordingly. Specific reserves are also recorded in the event the cost of the inventory exceeds the fair market value. In addition, on a monthly basis, we estimate a reserve for expected shrinkage at the concept and channel level based on historical shrinkage factors and our current inventory levels. Actual shrinkage is recorded at year-end based on the results of our physical inventory count and can vary from our estimates due to such factors as changes in operations within our distribution centers, the mix of our inventory (which ranges from large furniture to small tabletop items) and execution against loss prevention initiatives in our stores, off-site storage locations, and our third party transportation providers.

Advertising and Prepaid Catalog Expenses

Advertising expenses consist of media and production costs related to catalog mailings, e-commerce advertising and other direct marketing activities. All advertising costs are expensed as incurred with the exception of prepaid catalog expenses. Prepaid catalog expenses consist primarily of third party incremental direct costs, including creative design, paper, printing, postage and mailing costs for all of our direct response catalogs. Such costs are capitalized as prepaid catalog expenses and are amortized over their expected period of future benefit. Such amortization is based upon the ratio of actual revenues to the total of actual and estimated future revenues on an individual catalog basis. Estimated future revenues are based upon various factors such as the total number of catalogs and pages circulated, the probability and magnitude of consumer response and the assortment of merchandise offered. Each catalog is generally fully amortized over a six to nine month period, with the majority of the amortization occurring within the first four to five months. Prepaid catalog expenses are evaluated for realizability on a monthly basis by comparing the carrying amount associated with each catalog to the estimated probable remaining future profitability (remaining net revenues less merchandise cost of goods sold, selling expenses and catalog related-costs) associated with that catalog. If the catalog is not expected to be profitable, the carrying amount of the catalog is impaired accordingly.

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Any reduction in the estimated lives would result in higher depreciation expense in a given period for the related assets.

For any store closures where a lease obligation still exists, we record the estimated future liability associated with the rental obligation on the date the store is closed in accordance with SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. However, most store closures occur upon the lease expiration.

Table of Contents

We review the carrying value of all long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we review for impairment all stores for which current cash flows from operations are either negative or nominal, or the construction costs are significantly in excess of the amount originally expected. Impairment results when the carrying value of the assets exceeds the undiscounted future cash flows over the life of the lease. Our estimate of undiscounted future cash flows over the lease term (typically 5 to 22 years) is based upon our experience, historical operations of the stores and estimates of future store profitability and economic conditions. The future estimates of store profitability and economic conditions require estimating such factors as sales growth, employment rates, lease escalations, inflation on operating expenses and the overall economics of the retail industry for up to 20 years in the future, and are therefore subject to variability and difficult to predict. If a long-lived asset is found to be impaired, the amount recognized for impairment is equal to the difference between the net carrying value and the asset's fair value. The fair value is estimated based upon future cash flows (discounted at a rate that approximates our weighted average cost of capital) or other reasonable estimates of fair market value. See Note A to the Consolidated Financial Statements for additional information regarding Property and Equipment.

Self-Insured Liabilities

We are primarily self-insured for workers' compensation, employee health benefits and product and general liability claims. We record self-insurance liabilities based on claims filed, including the development of those claims, and an estimate of claims incurred but not yet reported. Factors affecting this estimate include future inflation rates, changes in severity, benefit level changes, medical costs and claim settlement patterns. Should a different amount of claims occur compared to what was estimated, or costs of the claims increase or decrease beyond what was anticipated, reserves may need to be adjusted accordingly. We determine our workers' compensation liability and general liability claims reserves based on an actuarial analysis. Reserves for self-insurance liabilities are recorded within accrued salaries, benefits and other on our consolidated balance sheet.

Customer Deposits

Customer deposits are primarily comprised of unredeemed gift certificates and merchandise credits and deferred revenue related to undelivered merchandise. We maintain a liability for unredeemed gift certificates and merchandise credits until the earlier of redemption, escheatment or four years. During the second quarter of fiscal 2006, we completed an analysis of our historical gift certificate and gift card redemption patterns, which included an independent actuarial study based on our historical redemption data. As a result of this analysis, we concluded that the likelihood of our gift certificates and gift cards being redeemed beyond four years from the date of issuance is remote. As a result, we changed our estimate of the elapsed time for recording income associated with unredeemed gift certificates and gift cards to four years from our prior estimate of seven years.

Revenue Recognition

We recognize revenues and the related cost of goods sold (including shipping costs) at the time the products are received by our customers in accordance with the provisions of Staff Accounting Bulletin (SAB) No. 101, *Revenue Recognition in Financial Statements* as amended by SAB No. 104, *Revenue Recognition*. Revenue is recognized for retail sales (excluding home-delivered merchandise) at the point of sale in the store and for home-delivered merchandise and direct-to-customer sales when the merchandise is delivered to the customers. Discounts provided to customers are accounted for as a reduction of sales. We record a reserve for estimated product returns in each reporting period. Shipping and handling fees charged to the customer are recognized as revenue at the time the products are delivered to the customer. Revenues are presented net of any taxes collected from customers and remitted to governmental authorities.

Sales Return Reserve

Our customers may return purchased items for an exchange or refund. We record a reserve for estimated product returns, net of cost of goods sold, based on historical return trends together with current product sales performance. If actual returns, net of cost of goods sold, are different than those projected by management, the estimated sales return reserve will be adjusted accordingly.

Table of Contents*Income Taxes*

Income taxes are accounted for using the asset and liability method. Under this method, deferred income taxes arise from temporary differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements. We record reserves for estimates of probable settlements of foreign and domestic tax audits. At any one time, many tax years are subject to audit by various taxing jurisdictions. The results of these audits and negotiations with taxing authorities may affect the ultimate settlement of these issues. Our effective tax rate in a given financial statement period may be materially impacted by changes in the mix and level of earnings.

Stock-Based Compensation

On January 30, 2006, we adopted SFAS No. 123R, Share-Based Payments, which required us to measure and record compensation expense in our consolidated financial statements for all employee stock-based compensation awards using a fair value method. For stock options and stock-settled stock appreciation rights (option awards), fair value is determined using the Black-Scholes valuation model, while restricted stock units are valued using the closing price of our stock on the date prior to the date of issuance. Significant factors affecting the fair value of option awards include the estimated future volatility of our stock price and the estimated expected term until the option award is exercised. The fair value of the award is amortized over the expected service period. Prior to fiscal 2006, we accounted for stock-based compensation arrangements using the intrinsic value method in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations. Accordingly, no compensation expense was recognized prior to fiscal 2006 for option awards with an exercise price equal to the fair value on the date of grant. See Note I to our Consolidated Financial Statements.

NEW ACCOUNTING PRONOUNCEMENTS

On January 30, 2006, we adopted FSP FAS 13-1, Accounting for Rental Costs Incurred During a Construction Period, which requires us to expense all rental costs associated with our operating leases that are incurred during a construction period. The adoption of this Staff Position resulted in after-tax occupancy expense of approximately \$1,439,000, or \$0.01 per diluted share, in fiscal 2006 and is recorded as a component of cost of goods sold.

In June 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes – An Interpretation of FASB Statement No. 109, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on the derecognition, classification, interest and penalties, accounting in interim periods, transition and disclosure requirements for uncertain tax positions. We will adopt the provisions of FIN 48 beginning in the first quarter of fiscal 2007. We are currently in the process of determining the effect the adoption of FIN 48 will have on our consolidated financial statements.

In June 2006, the FASB's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 06-3, How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation). The scope of EITF 06-3 includes sales, use, value added and some excise taxes that are assessed by a governmental authority on specific revenue-producing transactions between a seller and customer. EITF 06-3 requires disclosure of the method of accounting for the applicable assessed taxes and the amount of assessed taxes that are included in revenues if they are accounted for under the gross method. EITF 06-3 is effective for interim and annual periods beginning after December 15, 2006. We present revenues net of any taxes collected from customers and remitted to governmental authorities. We do not expect the adoption of EITF 06-3 to have an impact on our consolidated financial position, results of operations or cash flows.

As of January 28, 2007, we adopted the evaluation requirements of Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements, which provides the Staff's views regarding the process of quantifying financial statement misstatements, such as assessing both the carryover and reversing effects of prior year misstatements on the current year financial statements. The adoption of SAB No. 108 did not have a material impact on our consolidated financial position, results of operations or cash flows in fiscal 2006.

Table of Contents

In September 2006, the FASB issued SFAS No. 157, Fair Value Measures, which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS No. 157 only applies to fair value measurements that are already required or permitted by other accounting standards, except for measurements of share-based payments, and measurements that are similar to, but not intended to be, fair value. This Statement is effective for fiscal years beginning after November 15, 2007 and will require additional disclosures in our financial statements. We do not expect the adoption of SFAS No. 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risks, which include changes in U.S. interest rates and foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes.

Interest Rate Risk

The interest payable on our credit facility, Mississippi industrial development bond and the bond-related debt associated with our Memphis-based distribution facilities is based on variable interest rates and is therefore affected by changes in market interest rates. If interest rates on existing variable rate debt rose 52 basis points (an approximate 10% increase in the associated variable rates as of January 28, 2007), our results from operations and cash flows would not be materially affected.

In addition, we have fixed and variable income investments consisting of short-term investments classified as cash and cash equivalents, which are also affected by changes in market interest rates. An increase in interest rates of 10% would have an immaterial effect on the value of these investments. Declines in interest rates would, however, decrease the income derived from these investments.

Foreign Currency Risks

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are denominated in U.S. dollars. Approximately 5% of our international purchase transactions are in currencies other than the U.S. dollar, primarily the euro. Any currency risks related to these transactions were not significant to us during fiscal 2006 or fiscal 2005. A decline in the relative value of the U.S. dollar to other foreign currencies could, however, lead to increased purchasing costs.

As of January 28, 2007, we have 14 retail stores in Canada, which expose us to market risk associated with foreign currency exchange rate fluctuations. As necessary, we may enter into 30-day foreign currency contracts to minimize any currency remeasurement risk associated with intercompany assets and liabilities of our Canadian subsidiary. These contracts are accounted for by adjusting the carrying amount of the contract to market and recognizing any gain or loss in selling, general and administrative expenses in each reporting period. We did not enter into any foreign currency contracts during fiscal 2006 or fiscal 2005. Any gain or loss associated with these types of contracts in prior years was not material to us.

Williams-Sonoma, Inc.

Notes to Consolidated Financial Statements

Note A: Summary of Significant Accounting Policies

We are a specialty retailer of products for the home. The retail segment of our business sells our products through our five retail store concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Williams-Sonoma Home). The direct-to-customer segment of our business sells similar products through our seven direct-mail catalogs (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, Pottery Barn Bed and Bath, PBteen, West Elm and Williams-Sonoma Home) and six e-commerce websites (williams-sonoma.com, potterybarn.com, potterybarnkids.com, pbteen.com, westelm.com and wshome.com). The catalogs reach customers throughout the U.S., while the five retail concepts currently operate 588 stores in 44 states, Washington, D.C. and Canada.

In January 2006, we decided to transition the merchandising strategies of our Hold Everything brand into our other existing brands by the end of fiscal 2006. In connection with this transition, we incurred pre-tax charges of approximately \$13,500,000 (\$0.07 per diluted share) and \$4,300,000 (\$0.02 per diluted share) in fiscal 2005 and fiscal 2006, respectively. These costs primarily included the initial asset impairment and lease termination costs associated with the shutdown of the Hold Everything retail stores, the asset impairment of the e-commerce website and the write-down of impaired merchandise inventories. In fiscal 2006, this pre-tax charge consisted of approximately \$2,700,000 in cost of goods sold and approximately \$1,600,000 in selling, general and administrative expenses. All of our Hold Everything retail stores were closed during late 2005 and the first quarter of fiscal 2006. The final phase of our operational shutdown was completed in the second quarter of fiscal 2006, with our final Hold Everything catalog mailed in May 2006 and our Hold Everything website ceasing operations in June 2006.

Significant intercompany transactions and accounts have been eliminated.

Fiscal Year

Our fiscal year ends on the Sunday closest to January 31, based on a 52/53-week year. Fiscal 2006, fiscal 2005 and fiscal 2004 ended on January 28, 2007 (52 weeks), January 29, 2006 (52 weeks) and January 30, 2005 (52 weeks), respectively. Our next 53-week fiscal year will be fiscal 2007, ending on February 3, 2008.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. These estimates and assumptions are evaluated on an on-going basis and are based on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ from these estimates.

Cash Equivalents

Cash equivalents include highly liquid investments with an original maturity of three months or less. Our policy is to invest in high-quality, short-term instruments to achieve maximum yield while maintaining a level of liquidity consistent with our needs. Book cash overdrafts issued but not yet presented to the bank for payment are reclassified to accounts payable.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are stated at their carrying values, net of an allowance for doubtful accounts. Total accounts receivable were approximately \$48,821,000 and \$51,020,000 as of January 28, 2007 and January 29, 2006, respectively, consisting primarily of credit card and landlord receivables, for which collectibility is reasonably assured. Other miscellaneous receivables are evaluated for collectibility on a regular basis and an allowance for doubtful accounts is recorded as deemed necessary.

Table of Contents

A summary of activity in the allowance for doubtful accounts is as follows:

<i>Dollars in thousands</i>	Fiscal 2006	Fiscal 2005	Fiscal 2004
Balance at beginning of year	\$ 168	\$ 217	\$ 207
Provision for loss on accounts receivable		(49)	10
Accounts written off			
Balance at end of year ¹	\$ 168	\$ 168	\$ 217

¹ The majority of this amount relates to a full reserve on one of our receivables.

Merchandise Inventories

Merchandise inventories, net of an allowance for excess quantities and obsolescence, are stated at the lower of cost (weighted average method) or market. We estimate a provision for damaged, obsolete, excess and slow-moving inventory based on inventory aging reports and specific identification. We generally reserve, based on inventory aging reports, for 50% of the cost of all inventory between one and two years old and 100% of the cost of all inventory over two years old. If actual obsolescence is different from our estimate, we will adjust our provision accordingly. Specific reserves are also recorded in the event the cost of the inventory exceeds the fair market value. In addition, on a monthly basis, we estimate a reserve for expected shrinkage at the concept and channel level based on historical shrinkage factors and our current inventory levels. Actual shrinkage is recorded at year-end based on the results of our physical inventory count and can vary from our estimates due to such factors as changes in operations within our distribution centers, the mix of our inventory (which ranges from large furniture to small tabletop items) and execution against loss prevention initiatives in our stores, off-site storage locations, and our third party transportation providers.

Approximately 62%, 63% and 62% of our merchandise purchases in fiscal 2006, fiscal 2005 and fiscal 2004, respectively, were foreign-sourced, primarily from Asia and Europe.

Advertising and Prepaid Catalog Expenses

Advertising expenses consist of media and production costs related to catalog mailings, e-commerce advertising and other direct marketing activities. All advertising costs are expensed as incurred with the exception of prepaid catalog expenses. Prepaid catalog expenses consist primarily of third party incremental direct costs, including creative design, paper, printing, postage and mailing costs for all of our direct response catalogs. Such costs are capitalized as prepaid catalog expenses and are amortized over their expected period of future benefit. Such amortization is based upon the ratio of actual revenues to the total of actual and estimated future revenues on an individual catalog basis. Estimated future revenues are based upon various factors such as the total number of catalogs and pages circulated, the probability and magnitude of consumer response and the assortment of merchandise offered. Each catalog is generally fully amortized over a six to nine month period, with the majority of the amortization occurring within the first four to five months. Prepaid catalog expenses are evaluated for realizability on a monthly basis by comparing the carrying amount associated with each catalog to the estimated probable remaining future profitability (remaining net revenues less merchandise cost of goods sold, selling expenses and catalog related-costs) associated with that catalog. If the catalog is not expected to be profitable, the carrying amount of the catalog is impaired accordingly.

Total advertising expenses (including catalog advertising, e-commerce advertising and all other advertising costs) were approximately \$365,829,000, \$346,620,000 and \$297,242,000 in fiscal 2006, fiscal 2005 and fiscal 2004, respectively.

Table of Contents

Property and Equipment

Property and equipment is stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets below. Any reduction in the estimated lives would result in higher depreciation expense in a given period for the related assets.

	Shorter of estimated useful life or lease term
Leasehold improvements	(generally 3 – 22 years)
Fixtures and equipment	2 – 20 years
Buildings and building improvements	12 – 40 years
Capitalized software	2 – 10 years
Corporate aircraft	20 years (20% salvage value)

Internally developed software costs are capitalized in accordance with the American Institute of Certified Public Accountants Statement of Position (SOP) 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use.

Interest costs related to assets under construction, including software projects, are capitalized during the construction or development period. We capitalized interest costs of \$699,000, \$1,200,000 and \$1,689,000 in fiscal 2006, fiscal 2005 and fiscal 2004, respectively.

For any store closures where a lease obligation still exists, we record the estimated future liability associated with the rental obligation on the date the store is closed in accordance with Statement of Financial Accounting Standards (SFAS) No. 146, Accounting for Costs Associated with Exit or Disposal Activities. However, most store closures occur upon the lease expiration.

We review the carrying value of all long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we review for impairment all stores for which current cash flows from operations are either negative or nominal, or the construction costs are significantly in excess of the amount originally expected. Impairment results when the carrying value of the assets exceeds the undiscounted future cash flows over the life of the lease. Our estimate of undiscounted future cash flows over the lease term (typically 5 to 22 years) is based upon our experience, historical operations of the stores and estimates of future store profitability and economic conditions. The future estimates of store profitability and economic conditions require estimating such factors as sales growth, employment rates, lease escalations, inflation on operating expenses and the overall economics of the retail industry for up to 20 years in the future, and are therefore subject to variability and difficult to predict. If a long-lived asset is found to be impaired, the amount recognized for impairment is equal to the difference between the net carrying value and the asset's fair value. The fair value is estimated based upon future cash flows (discounted at a rate that approximates our weighted average cost of capital) or other reasonable estimates of fair market value. We recorded impairment charges of approximately \$5,629,000, \$733,000 and \$82,000 in selling, general and administrative expense in fiscal 2006, fiscal 2005, and fiscal 2004, respectively, related to our retail stores.

Lease Rights and Other Intangible Assets

Lease rights, representing costs incurred to acquire the lease of a specific commercial property, are recorded at cost in other assets and are amortized over the lives of the respective leases. Other intangible assets include fees associated with the acquisition of our credit facility and are recorded at cost in other assets and amortized over the life of the facility.

Self-Insured Liabilities

We are primarily self-insured for workers' compensation, employee health benefits and product and general liability claims. We record self-insurance liabilities based on claims filed, including the development of those claims, and an estimate of claims incurred but not yet reported. Factors affecting this estimate include future inflation rates, changes in severity, benefit level changes, medical costs and claim settlement patterns. Should a different amount of claims occur compared to what was estimated, or costs of the claims increase or decrease

Table of Contents

beyond what was anticipated, reserves may need to be adjusted accordingly. We determine our workers' compensation liability and general liability claims reserves based on an actuarial analysis. Reserves for self-insurance liabilities are recorded within accrued salaries, benefits and other on our consolidated balance sheet.

Customer Deposits

Customer deposits are primarily comprised of unredeemed gift certificates and merchandise credits and deferred revenue related to undelivered merchandise. We maintain a liability for unredeemed gift certificates and merchandise credits until the earlier of redemption, escheatment or four years. During the second quarter of fiscal 2006, we completed an analysis of our historical gift certificate and gift card redemption patterns, which included an independent actuarial study based on our historical redemption data. As a result of this analysis, we concluded that the likelihood of our gift certificates and gift cards being redeemed beyond four years from the date of issuance is remote. As a result, we changed our estimate of the elapsed time for recording income associated with unredeemed gift certificates and gift cards to four years from our prior estimate of seven years. This change in estimate resulted in the recording of income in selling, general and administrative expense in the second quarter of fiscal 2006 of approximately \$12,400,000.

Deferred Rent and Lease Incentives

For leases that contain fixed escalations of the minimum annual lease payment during the original term of the lease, we recognize rental expense on a straight-line basis over the lease term, including the construction period, and record the difference between rent expense and the amount currently payable as deferred rent. In accordance with Financial Accounting Standards Board (FASB) Staff Position (FSP) FAS 13-1, Accounting for Rental Costs Incurred During a Construction Period, we expense any rental costs incurred during the construction period. Deferred lease incentives include construction allowances received from landlords, which are amortized on a straight-line basis over the lease term, including the construction period.

Contingent Liabilities

Contingent liabilities are recorded when it is determined that the outcome of an event is expected to result in a loss that is considered probable and reasonably estimable.

Fair Value of Financial Instruments

The carrying values of cash and cash equivalents, accounts receivable, investments, accounts payable and debt approximate their estimated fair values.

Revenue Recognition

We recognize revenues and the related cost of goods sold (including shipping costs) at the time the products are received by our customers in accordance with the provisions of Staff Accounting Bulletin (SAB) No. 101, Revenue Recognition in Financial Statements as amended by SAB No. 104, Revenue Recognition. Revenue is recognized for retail sales (excluding home-delivered merchandise) at the point of sale in the store and for home-delivered merchandise and direct-to-customer sales when the merchandise is delivered to the customers. Discounts provided to customers are accounted for as a reduction of sales. We record a reserve for estimated product returns in each reporting period. Shipping and handling fees charged to the customer are recognized as revenue at the time the products are delivered to the customer. Revenues are presented net of any taxes collected from customers and remitted to governmental authorities.

Table of Contents*Sales Returns Reserve*

Our customers may return purchased items for an exchange or refund. We record a reserve for estimated product returns, net of cost of goods sold, based on historical return trends together with current product sales performance. If actual returns, net of cost of goods sold, are different than those projected by management, the estimated sales returns reserve will be adjusted accordingly. A summary of activity in the sales returns reserve is as follows:

<i>Dollars in thousands</i>	Fiscal 2006 ¹	Fiscal 2005 ¹	Fiscal 2004 ¹
Balance at beginning of year	\$ 13,682	\$ 13,506	\$ 12,281
Provision for sales returns	264,630	243,807	215,715
Actual sales returns	(262,845)	(243,631)	(214,490)
Balance at end of year	\$ 15,467	\$ 13,682	\$ 13,506

¹ Amounts are shown net of cost of goods sold.

Vendor Allowances

We receive allowances or credits from certain vendors for volume rebates. In accordance with Emerging Issues Task Force Issue No. (EITF) 02-16, Accounting by a Customer (Including a Reseller) for Certain Consideration Received from a Vendor, our accounting policy is to treat such volume rebates as an offset to the cost of the product or services provided at the time the expense is recorded. These allowances and credits received are primarily recorded in both cost of goods sold and in selling, general and administrative expenses.

Foreign Currency Translation

The functional currency of our Canadian subsidiary is the Canadian dollar. Assets and liabilities are translated into U.S. dollars using the current exchange rates in effect at the balance sheet date, while revenues and expenses are translated at the average exchange rates during the period. The resulting translation adjustments are recorded as other comprehensive income within shareholders' equity. Gains and losses resulting from foreign currency transactions have not been significant and are included in selling, general and administrative expenses.

Financial Instruments

As of January 28, 2007, we have 14 retail stores in Canada, which expose us to market risk associated with foreign currency exchange rate fluctuations. As necessary, we may enter into 30-day foreign currency contracts to minimize any currency remeasurement risk associated with intercompany assets and liabilities of our Canadian subsidiary. These contracts are accounted for by adjusting the carrying amount of the contract to market and recognizing any gain or loss in selling, general and administrative expenses in each reporting period. We did not enter into any foreign currency contracts during fiscal 2006 or fiscal 2005. Any gain or loss associated with these types of contracts in prior years was not material to us.

Income Taxes

Income taxes are accounted for using the asset and liability method. Under this method, deferred income taxes arise from temporary differences between the tax basis of assets and liabilities and their reported amounts in the consolidated financial statements. We record reserves for estimates of probable settlements of foreign and domestic tax audits. At any one time, many tax years are subject to audit by various taxing jurisdictions. The results of these audits and negotiations with taxing authorities may affect the ultimate settlement of these issues. Our effective tax rate in a given financial statement period may be materially impacted by changes in the mix and level of earnings.

Earnings Per Share

Basic earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period. Diluted earnings per share is computed as net earnings divided by the weighted average number of common shares outstanding for the period plus common stock equivalents consisting of shares subject to stock-based awards with exercise prices less than or equal to the average market price of our common stock for the period, to the extent their inclusion would be dilutive.

Table of Contents*Stock-Based Compensation*

On January 30, 2006, we adopted SFAS No. 123R, *Share-Based Payments*, which required us to measure and record compensation expense in our consolidated financial statements for all employee stock-based compensation awards using a fair value method. For stock options and stock-settled stock appreciation rights (option awards), fair value is determined using the Black-Scholes valuation model, while restricted stock units are valued using the closing price of our stock on the date prior to the date of issuance. Significant factors affecting the fair value of option awards include the estimated future volatility of our stock price and the estimated expected term until the option award is exercised. The fair value of the award is amortized over the expected service period. Total stock-based compensation expense (including the implementation of this Statement), net of tax, was \$16,575,000, or \$0.14 per diluted share, in fiscal 2006 and is recorded as a component of selling, general and administrative expenses. Prior to fiscal 2006, we accounted for stock-based compensation arrangements using the intrinsic value method in accordance with Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* and related interpretations. Accordingly, no compensation expense was recognized prior to fiscal 2006 for option awards with an exercise price equal to the fair value on the date of grant.

New Accounting Pronouncements

On January 30, 2006, we adopted FSP FAS 13-1, *Accounting for Rental Costs Incurred During a Construction Period*, which requires us to expense all rental costs associated with our operating leases that are incurred during a construction period. The adoption of this Staff Position resulted in after-tax occupancy expense of approximately \$1,439,000, or \$0.01 per diluted share, in fiscal 2006 and is recorded as a component of cost of goods sold.

In June 2006, the FASB issued FASB Interpretation No. (FIN) 48, *Accounting for Uncertainty in Income Taxes*—An Interpretation of FASB Statement No. 109, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on the derecognition, classification, interest and penalties, accounting in interim periods, transition and disclosure requirements for uncertain tax positions. We will adopt the provisions of FIN 48 beginning in the first quarter of fiscal 2007. We are currently in the process of determining the effect the adoption of FIN 48 will have on our consolidated financial statements.

In June 2006, the FASB's EITF reached a consensus on Issue No. 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)*. The scope of EITF 06-3 includes sales, use, value added and some excise taxes that are assessed by a governmental authority on specific revenue-producing transactions between a seller and customer. EITF 06-3 requires disclosure of the method of accounting for the applicable assessed taxes and the amount of assessed taxes that are included in revenues if they are accounted for under the gross method. EITF 06-3 is effective for interim and annual periods beginning after December 15, 2006. We present revenues net of any taxes collected from customers and remitted to governmental authorities. We do not expect the adoption of EITF 06-3 to have an impact on our consolidated financial position, results of operations or cash flows.

As of January 28, 2007, we adopted the evaluation requirements of SAB No. 108, *Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements*, which provides the Staff's views regarding the process of quantifying financial statement misstatements, such as assessing both the carryover and reversing effects of prior year misstatements on the current year financial statements. The adoption of SAB No. 108 did not have a material impact on our consolidated financial position, results of operations or cash flows in fiscal 2006.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measures*, which establishes a single authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. SFAS No. 157 only applies to fair value measurements that are already required or permitted by other accounting standards, except for measurements of share-based payments, and measurements that are similar to, but not intended to be, fair value. This Statement is effective for fiscal years beginning after November 15, 2007 and will require additional disclosures in our financial statements. We do not expect the adoption of SFAS No. 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

Table of Contents**Note B: Property and Equipment**

Property and equipment consists of the following:

<i>Dollars in thousands</i>	Jan. 28, 2007	Jan. 29, 2006
Leasehold improvements	\$ 720,927	\$ 651,498
Fixtures and equipment	479,012	449,163
Land and buildings	132,464	131,484
Capitalized software	181,829	145,407
Corporate systems projects in progress ¹	83,650	98,398
Corporate aircraft	48,670	48,677
Construction in progress ²	16,799	31,501
Total	1,663,351	1,556,128
Accumulated depreciation and amortization	(750,769)	(675,823)
Property and equipment net	\$ 912,582	\$ 880,305

¹ Corporate systems projects in progress is primarily comprised of a new merchandising, inventory management and order management system currently under development.

² Construction in progress is primarily comprised of leasehold improvements and furniture and fixtures related to new, unopened retail stores.

Note C: Borrowing Arrangements

Long-term debt consists of the following:

<i>Dollars in thousands</i>	Jan. 28, 2007	Jan. 29, 2006
Obligations under capital leases	\$ 163	\$ 3,458
Memphis-based distribution facilities obligation	14,312	15,696
Mississippi industrial development bonds	14,200	14,200
Total debt	28,675	33,354
Less current maturities	15,853	18,864
Total long-term debt	\$ 12,822	\$ 14,490

Capital Leases

Our \$163,000 of capital lease obligations consists primarily of leases for distribution center equipment used in our normal course of business.

Memphis-Based Distribution Facilities Obligation

See Note F for a discussion on our bond-related debt pertaining to our Memphis-based distribution facilities.

Mississippi Industrial Development Bonds

In June 2004, in an effort to utilize tax incentives offered to us by the state of Mississippi, we entered into an agreement whereby the Mississippi Business Finance Corporation issued \$15,000,000 in long-term variable rate industrial development bonds, the proceeds, net of debt issuance costs, of which were loaned to us to finance the acquisition and installation of leasehold improvements and equipment located in our Olive Branch distribution center. The bonds are marketed through a remarketing agent and are secured by a letter of credit issued under our \$300,000,000 line of credit facility. The bonds mature on June 1, 2024. The bond rate resets each week based upon current market rates. The rate in effect at January 28, 2007 was 5.4%.

The bond agreement allows for each bondholder to tender their bonds to the trustee for repurchase, on demand, with seven days advance notice. In the event the remarketing agent fails to remarket the bonds, the trustee will draw upon the letter of credit to fund the purchase of the bonds. As of January 28, 2007, \$14,200,000 remained outstanding on these bonds and was classified as current debt. The bond proceeds were restricted

Edgar Filing: WILLIAMS SONOMA INC - Form 10-K

for use in the acquisition and installation of leasehold improvements and equipment located in our Olive Branch distribution

Table of Contents

center. As of January 28, 2007, we had acquired and installed all \$15,000,000 of leasehold improvements and equipment associated with the facility.

The aggregate maturities of long-term debt at January 28, 2007 were as follows:

Dollars in thousands

Fiscal 2007	\$ 15,853
Fiscal 2008	1,584
Fiscal 2009	1,438
Fiscal 2010	1,462
Fiscal 2011	1,414
Thereafter	6,924
Total	\$ 28,675

Credit Facility

As of January 28, 2007, we have a credit facility that provides for a \$300,000,000 unsecured revolving line of credit that may be used for loans or letters of credit and contains certain financial covenants, including a maximum leverage ratio (funded debt adjusted for lease and rent expense to EBITDAR). Prior to April 4, 2011, we may, upon notice to the lenders, request an increase in the new credit facility of up to \$200,000,000, to provide for a total of \$500,000,000 of unsecured revolving credit. The credit facility contains events of default that include, among others, non-payment of principal, interest or fees, violation of covenants, inaccuracy of representations and warranties, bankruptcy and insolvency events, material judgments, cross defaults to certain other indebtedness and events constituting a change of control. The occurrence of an event of default will increase the applicable rate of interest by 2.0% and could result in the acceleration of our obligations under the credit facility and an obligation of any or all of our U.S. subsidiaries to pay the full amount of the our obligations under the credit facility. The credit facility matures on October 4, 2011, at which time all outstanding borrowings must be repaid and all outstanding letters of credit must be cash collateralized.

We may elect interest rates calculated at Bank of America's prime rate (or, if greater, the average rate on overnight federal funds plus one-half of one percent) or LIBOR plus a margin based on our leverage ratio. No amounts were borrowed under the credit facility during fiscal 2006 or fiscal 2005. However, as of January 28, 2007, \$37,398,000 in issued but undrawn standby letters of credit was outstanding under the credit facility. The standby letters of credit were issued to secure the liabilities associated with workers' compensation, other insurance programs and certain debt transactions. As of January 28, 2007, we were in compliance with our financial covenants under the credit facility.

Letter of Credit Facilities

We have five unsecured commercial letter of credit reimbursement facilities for an aggregate of \$165,000,000, each of which expires on September 8, 2007. As of January 28, 2007, an aggregate of \$124,860,000 was outstanding under the letter of credit facilities. Such letters of credit represent only a future commitment to fund inventory purchases to which we had not taken legal title as of January 28, 2007. The latest expiration possible for any future letters of credit issued under the facilities is February 5, 2008.

Interest Expense

Interest expense was \$2,125,000 (net of capitalized interest of \$699,000), \$1,975,000 (net of capitalized interest of \$1,200,000) and \$1,703,000 (net of capitalized interest of \$1,689,000) for fiscal 2006, fiscal 2005 and fiscal 2004, respectively.

Table of Contents**Note D: Income Taxes**

The components of earnings before income taxes, by tax jurisdiction, are as follows:

<i>Dollars in thousands</i>	<i>Fiscal Year Ended</i>		
	Jan. 28, 2007	Jan. 29, 2006	Jan. 30, 2005
United States	\$ 319,732	\$ 337,468	\$ 303,986
Foreign	17,454	11,330	6,219
Total earnings before income taxes	\$ 337,186	\$ 348,798	\$ 310,205

The provision for income taxes consists of the following:

<i>Dollars in thousands</i>	<i>Fiscal Year Ended</i>		
	Jan. 28, 2007	Jan. 29, 2006	Jan. 30, 2005
Current payable			
Federal	\$ 148,125	\$ 131,242	\$ 105,096
State	24,645	19,002	17,642
Foreign	6,299	4,479	2,487
Total current	179,069	154,723	125,225
Deferred			
Federal	(44,573)	(18,912)	(6,168)
State	(5,802)	(1,538)	(70)
Foreign	(376)	(341)	(16)
Total deferred	(50,751)	(20,791)	(6,254)
Total provision	\$ 128,318	\$ 133,932	\$ 118,971

Except where required by U.S. tax law, no provision was made for U.S. income taxes on the cumulative undistributed earnings of our Canadian subsidiary, as we intend to utilize those earnings in the Canadian operations for an indefinite period of time and do not intend to repatriate such earnings.

Accumulated undistributed earnings of our Canadian subsidiary were approximately \$24,971,000 as of January 28, 2007. It is currently not practical to estimate the tax liability that might be payable if these foreign earnings were repatriated.

A reconciliation of income taxes at the federal statutory corporate rate to the effective rate is as follows:

	<i>Fiscal Year Ended</i>		
	Jan. 28, 2007	Jan. 29, 2006	Jan. 30, 2005
Federal income taxes at the statutory rate	35.0%	35.0%	35.0%
State income tax rate, less federal benefit	3.1%	3.4%	3.4%
Total	38.1%	38.4%	38.4%

Table of Contents

Significant components of our deferred tax accounts are as follows:

<i>Dollars in thousands</i>	Jan. 28, 2007	Jan. 29, 2006

Executive deferral plan	5,113	
Other	1,134	927
Total non-current	18,670	(18,455)
Total	\$ 89,507	\$ 38,812

Note E: Accounting for Leases*Operating Leases*

We lease store locations, warehouses, corporate facilities, call centers and certain equipment for original terms ranging generally from 3 to 22 years. Certain leases contain renewal options for periods up to 20 years. The rental payment requirements in our store leases are typically structured as either minimum rent, minimum rent plus additional rent based on a percentage of store sales if a specified store sales threshold is exceeded, or rent based on a percentage of store sales if a specified store sales threshold or contractual obligations of the landlord has not been met. Contingent rental payments, including rental payments that are based on a percentage of sales, cannot be predicted with certainty at the onset of the lease term. Accordingly, any contingent rental payments are recorded as incurred each period when the sales threshold is probable and are excluded from our calculation of deferred rent liability.

We have an operating lease for a 1,002,000 square foot retail distribution facility located in Olive Branch, Mississippi. The lease has an initial term of 22.5 years, expiring January 2022, with two optional five-year renewals. The lessor, an unrelated party, is a limited liability company. The construction and expansion of the distribution facility was financed by the original lessor through the sale of \$39,200,000 Taxable Industrial Development Revenue Bonds, Series 1998 and 1999, issued by the Mississippi Business Finance Corporation. The bonds are collateralized by the distribution facility. As of January 28, 2007, approximately \$30,301,000 was outstanding on the bonds. During fiscal 2006, we made annual rental payments of approximately \$3,693,000, plus applicable taxes, insurance and maintenance expenses.

We have an operating lease for an additional 1,103,000 square foot retail distribution facility located in Olive Branch, Mississippi. The lease has an initial term of 22.5 years, expiring January 2023, with two optional five-year renewals. The lessor, an unrelated party, is a limited liability company. The construction of the distribution facility was financed by the original lessor through the sale of \$42,500,000 Taxable Industrial Development Revenue Bonds, Series 1999, issued by the Mississippi Business Finance Corporation. The bonds are collateralized by the distribution facility. As of January 28, 2007, approximately \$33,481,000 was outstanding on the bonds. During fiscal 2006, we made annual rental payments of approximately \$4,180,000, plus applicable taxes, insurance and maintenance expenses.

Table of Contents

In December 2003, we entered into an agreement to lease 780,000 square feet of a distribution facility located in Olive Branch, Mississippi. The lease has an initial term of six years, with two optional two-year renewals. The agreement includes an option to lease an additional 390,000 square feet of the same distribution center. We exercised this option and began occupying this space in fiscal 2006. During fiscal 2006, we made annual rental payments of approximately \$2,968,000, plus applicable taxes, insurance and maintenance expenses.

In February 2004, we entered into an agreement to lease 781,000 square feet of a distribution center located in Cranbury, New Jersey. The lease has an initial term of seven years, with three optional five-year renewals. The agreement allows us to lease an additional 219,000 square feet of the facility in the event the current tenant vacates the premises. As of January 28, 2007, the current tenant had not vacated the premises. During fiscal 2006, we made annual rental payments of approximately \$3,397,000, plus applicable taxes, insurance and maintenance expenses.

In August 2004, we entered into an agreement to lease a 500,000 square foot distribution facility located in Memphis, Tennessee. The lease has an initial term of four years, with one optional three-year and nine-month renewal. During fiscal 2006, we made annual rental payments of approximately \$1,025,000, plus applicable taxes, insurance and maintenance expenses.

In May 2006, we entered into an agreement to lease a 418,000 square foot distribution facility located in South Brunswick, New Jersey. The lease has an initial term of two years, with two optional two-year renewals. During fiscal 2006, we made annual rental payments of approximately \$1,247,000, plus applicable taxes, insurance and maintenance expenses.

Total rental expense for all operating leases was as follows:

<i>Dollars in thousands</i>	<i>Fiscal Year Ended</i>		
	Jan. 28, 2007	Jan. 29, 2006	Jan. 30, 2005
Minimum rent expense	\$ 130,870	\$ 119,440	\$ 110,618
Contingent rent expense	35,020	33,529	26,724
Less: sublease rental income	(39)	(62)	(59)
Total rent expense	\$ 165,851	\$ 152,907	\$ 137,283

The aggregate minimum annual rental payments under noncancelable operating leases (excluding the Memphis-based distribution facilities) in effect at January 28, 2007 were as follows:

<i>Dollars in thousands</i>	Minimum Lease Commitments ¹
Fiscal 2007	\$ 191,638
Fiscal 2008	186,959
Fiscal 2009	179,484
Fiscal 2010	168,498
Fiscal 2011	151,921
Thereafter	713,042
Total	\$ 1,591,542

¹ Projected payments include only those amounts that are fixed and determinable as of the reporting date. We currently pay rent for certain store locations based on a percentage of store sales if a specified store sales threshold or contractual obligations of the landlord have not been met. Projected payments for these locations are based on minimum rent, as future store sales cannot be predicted with certainty.

Note F: Consolidation of Memphis-Based Distribution Facilities

Our Memphis-based distribution facilities include an operating lease entered into in July 1983 for a distribution facility in Memphis, Tennessee. The lessor is a general partnership (Partnership 1) comprised of W. Howard Lester, our Chairman of the Board of Directors and Chief Executive Officer and James A. McMahan, a Director Emeritus, both of whom are significant shareholders. Partnership 1 does not have operations separate from the leasing of this distribution facility and does not have lease agreements with any unrelated third parties.

Table of Contents

Partnership 1 financed the construction of this distribution facility through the sale of a total of \$9,200,000 of industrial development bonds in 1983 and 1985. Annual principal payments and monthly interest payments are required through maturity in December 2010. The Partnership 1 industrial development bonds are collateralized by the distribution facility and the individual partners guarantee the bond repayments. As of January 28, 2007, \$1,418,000 was outstanding under the Partnership 1 industrial development bonds.

During fiscal 2006, we made annual rental payments of approximately \$618,000, plus interest on the bonds calculated at a variable rate determined monthly (approximately 4.0% in January 2007), applicable taxes, insurance and maintenance expenses. Although the current term of the lease expires in August 2007, we are obligated to renew the operating lease on an annual basis until these bonds are fully repaid.

Our other Memphis-based distribution facility includes an operating lease entered into in August 1990 for another distribution facility that is adjoined to the Partnership 1 facility in Memphis, Tennessee. The lessor is a general partnership (Partnership 2) comprised of W. Howard Lester, James A. McMahan and two unrelated parties. Partnership 2 does not have operations separate from the leasing of this distribution facility and does not have lease agreements with any unrelated third parties.

Partnership 2 financed the construction of this distribution facility and related addition through the sale of a total of \$24,000,000 of industrial development bonds in 1990 and 1994. Quarterly interest and annual principal payments are required through maturity in August 2015. The Partnership 2 industrial development bonds are collateralized by the distribution facility and require us to maintain certain financial covenants. As of January 28, 2007, \$12,893,000 was outstanding under the Partnership 2 industrial development bonds.

During fiscal 2006, we made annual rental payments of approximately \$2,585,000, plus applicable taxes, insurance and maintenance expenses. Although the current term of the lease expires in August 2007, we are obligated to renew the operating lease on an annual basis until these bonds are fully repaid.

The two partnerships described above qualify as variable interest entities under FIN 46R, Consolidation of Variable Interest Entities, due to their related party relationship and our obligation to renew the leases until the bonds are fully repaid. Accordingly, the two related party variable interest entity partnerships from which we lease our Memphis-based distribution facilities are consolidated by us. As of January 28, 2007, the consolidation resulted in increases to our consolidated balance sheet of \$17,620,000 in assets (primarily buildings), \$14,312,000 in debt, and \$3,308,000 in other long-term liabilities. Consolidation of these partnerships does not have an impact on our net income.

Note G: Earnings Per Share

The following is a reconciliation of net earnings and the number of shares used in the basic and diluted earnings per share computations:

	Net	Weighted	Per-Share
<i>Dollars and amounts in thousands, except per share amounts</i>	Earnings	Average Shares	Amount
2006			
Basic	\$ 208,868	114,020	\$ 1.83
Effect of dilutive stock-based awards		2,753	
Diluted	\$ 208,868	116,773	\$ 1.79
2005			
Basic	\$ 214,866	115,616	\$ 1.86
Effect of dilutive stock-based awards		2,811	
Diluted	\$ 214,866	118,427	\$ 1.81
2004			
Basic	\$ 191,234	116,159	\$ 1.65
Effect of dilutive stock-based awards		3,188	
Diluted	\$ 191,234	119,347	\$ 1.60

Table of Contents

Stock-based awards of 4,181,000, 320,000 and 196,000 in fiscal 2006, fiscal 2005 and fiscal 2004, respectively, were not included in the computation of diluted earnings per share, as their inclusion would be anti-dilutive.

Note H: Common Stock

Authorized preferred stock consists of 7,500,000 shares at \$0.01 par value of which none was outstanding during fiscal 2006 or fiscal 2005. Authorized common stock consists of 253,125,000 shares at \$0.01 par value. Common stock outstanding at the end of fiscal 2006 and fiscal 2005 was 109,868,000 and 114,779,000 shares, respectively. Our Board of Directors is authorized to issue equity awards for up to the total number of shares authorized and remaining available for grant under our 2001 Amended and Restated Long-Term Incentive Plan.

During fiscal 2006, we repurchased and retired a total of 5,824,500 shares of common stock under all programs previously authorized at a weighted average cost of \$31.85 per share and an aggregate cost of approximately \$185,508,000. As of fiscal year-end, the remaining authorized number of shares eligible for repurchase was 1,195,500.

In March 2007, our Board of Directors authorized a stock repurchase program to acquire up to an additional 5,000,000 shares of our common stock through open market and privately negotiated transactions, at times and in such amounts as management deems appropriate. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, capital availability and other market conditions. The stock repurchase program does not have an expiration date and may be limited or terminated at any time without prior notice.

In March 2006, our Board of Directors authorized the initiation of a quarterly cash dividend. During fiscal 2006, total cash dividends declared were approximately \$45,507,000, or \$0.40 per common share, of which \$34,435,000 was paid during the year and \$11,072,000 was paid in February 2007 to shareholders of record as of the close of business on January 26, 2007.

In March 2007, our Board of Directors authorized an increase in our quarterly cash dividend of \$0.015 to \$0.115 per common share payable on May 24, 2007 to shareholders of record as of the close of business on April 27, 2007. The aggregate quarterly dividend is estimated at approximately \$12,600,000 based on the current number of outstanding shares. The indicated annual cash dividend, subject to capital availability, is \$0.46 per common share or approximately \$50,500,000 in fiscal 2007. Our quarterly cash dividend could be reduced or discontinued at any time.

Note I. Stock-Based Compensation

Prior to May 2006, our 1993 Stock Option Plan, as amended (the 1993 Plan), provided for grants of incentive and nonqualified stock options up to an aggregate of 17,000,000 shares to key employees and Board members of the company or any parent or subsidiary. Annual grants were limited to stock options to purchase 200,000 shares on a per person basis under this plan. All stock option grants made under the 1993 Plan have a maximum term of ten years, except incentive stock options issued to shareholders with greater than 10% of the voting power of all of our stock, which have a maximum term of five years. The exercise price of these stock options is not less than 100% of the closing price of our stock on the date prior to the grant date or not less than 110% of such closing price for an incentive stock option granted to a 10% shareholder. Stock options granted to employees generally vest over five years. Stock options granted to non-employee Board members generally vest in one year.

Prior to May 2006, our 2000 Nonqualified Stock Option Plan, as amended (the 2000 Plan), provided for grants of nonqualified stock options up to an aggregate of 3,000,000 shares to employees who were not officers or Board members. Annual grants were not limited on a per person basis under this plan. All nonqualified stock option grants under the 2000 Plan have a maximum term of ten years with an exercise price equal to the closing price of our stock on the date prior to the grant date. Stock granted to employees generally vest over five years.

Prior to May 2006, our Amended and Restated 2001 Long-Term Incentive Plan (the 2001 Plan) provided for grants of incentive stock options, nonqualified stock options, stock-settled stock appreciation rights (collectively,

Table of Contents

option awards), restricted stock awards, restricted stock units and deferred stock awards (collectively, stock awards) up to an aggregate of 8,500,000 shares.

In May 2006, our shareholders approved the amendment and restatement of our 2001 Plan to permit us to grant dividend equivalents, increase the shares issuable under the Plan by 6,000,000 shares and to include in the 2001 Plan shares that remained available under the 1993 Plan and 2000 Plan, as well as shares subject to outstanding stock options under these plans that subsequently expire unexercised, for an aggregate maximum total of 15,959,903 shares under the 2001 Plan. The 1993 Plan and the 2000 Plan will no longer be used to grant future awards. Awards may be granted under the 2001 Plan to officers, employees and non-employee Board members of the company or any parent or subsidiary. Annual grants are limited to 1,000,000 shares covered by option awards and 400,000 shares covered by stock awards on a per person basis. All grants of option awards made under the 2001 Plan have a maximum term of ten years, except incentive stock options that may be issued to 10% shareholders, which have a maximum term of five years. The exercise price of these option awards is not less than 100% of the closing price of our stock on the date prior to the grant date or not less than 110% of such closing price for an incentive stock option granted to a 10% shareholder. Option awards granted to employees generally vest over five years. Option awards granted to non-employee Board members generally vest in one year. Non-employee Board members automatically receive option awards on the date of their initial election to the Board and annually thereafter on the date of the annual meeting of shareholders (so long as they continue to serve as a non-employee Board member). Shares issued as a result of option award exercises will be funded with the issuance of new shares. Stock awards granted after May 2006 have a minimum vesting period of three years for service based awards and one year for performance based awards. However, exceptions to the minimum vesting requirements may occur in the event of a merger or similar corporate event. As of January 28, 2007, there were 6,746,000 shares available for future grant.

Effective January 30, 2006, we adopted SFAS No. 123R, which requires us to measure and record compensation expense in our consolidated financial statements for all employee stock-based awards using a fair value method. Accordingly, at the beginning of fiscal 2006, we began recording compensation expense for all stock-based awards under the modified prospective transition method.

Prior to January 30, 2006, we accounted for stock-based compensation arrangements using the intrinsic value method in accordance with Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and related interpretations. Accordingly, no compensation expense was recognized prior to fiscal 2006 for option awards with an exercise price equal to the fair value on the date of grant. The following table illustrates the effect on net earnings and earnings per share as if we had applied the fair value recognition provisions of SFAS No. 123, as amended by SFAS No. 148, to all of our stock-based compensation arrangements during fiscal 2005 and fiscal 2004:

<i>Dollars in thousands, except per share amounts</i>	<i>Fiscal Year Ended</i>	
	Jan. 29, 2006	Jan. 30, 2005
Net earnings, as reported	\$ 214,866	\$ 191,234
Add: stock-based employee compensation expense included in reported net earnings, net of related tax effect	273	
Less: total stock-based employee compensation expense determined under fair value method for all awards, net of related tax effect	(16,788)	(17,059)
Pro forma net earnings	\$ 198,351	\$ 174,175
Basic earnings per share		
As reported	\$ 1.86	\$ 1.65
Pro forma	1.72	1.50
Diluted earnings per share		
As reported	\$ 1.81	\$ 1.60
Pro forma	1.69	1.47

Table of Contents

As a result of adopting SFAS No. 123R, during fiscal 2006, our compensation expense recognized was based on the following:

Stock Options Amortization related to the remaining unvested portion of all stock options granted prior to January 30, 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123, as amended by SFAS No. 148, and all stock options granted during fiscal 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123R.

Stock-Settled Stock Appreciation Rights Amortization of all stock-settled stock appreciation rights granted during fiscal 2006 based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123R.

Restricted Stock Units Amortization related to the unvested portion of all restricted stock units granted to date based on the market value of our stock on the date prior to the grant date.

The following tables summarize our stock option, stock-settled stock appreciation right and restricted stock unit activity during fiscal 2006, fiscal 2005 and fiscal 2004.

Stock Options

The following table summarizes our stock option activity during fiscal 2006, fiscal 2005 and fiscal 2004:

	Shares	Weighted Average Exercise Price	Weighted Average Contractual Term Remaining (Years)	Intrinsic Value ¹
Balance February 1, 2004	11,779,658	\$16.58		
Granted (weighted average fair value of \$20.58)	1,626,811	32.57		
Exercised	(1,817,308)	14.41		\$ 35,270,000
Canceled	(488,734)	20.81		
Balance at January 30, 2005	11,100,427	19.08		
Granted (weighted average fair value of \$23.77)	1,754,990	39.07		
Exercised	(1,829,082)	15.30		\$ 42,844,000
Canceled	(716,426)	26.81		
Balance at January 29, 2006	10,309,909	22.63		
Granted (weighted average fair value of \$13.83)	146,700	40.21		
Exercised	(913,330)	15.26		\$ 20,669,000
Canceled	(516,990)	33.59		
Balance at January 28, 2007	9,026,289	23.04	5.17	\$ 109,551,000
Exercisable at January 30, 2005	5,461,541	\$14.26		
Exercisable at January 29, 2006	5,704,164	16.00		
Exercisable at January 28, 2007	6,624,338	19.02	4.29	\$ 102,640,000

¹ Intrinsic value is defined as the difference between the grant price and the current market value on the last business day of fiscal 2006.

Table of Contents

The following table summarizes information about stock options outstanding at January 28, 2007:

Range of Exercise Prices	Stock Options Outstanding			Stock Options Exercisable	
	Number Outstanding	Weighted Average Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$ 7.03 - \$13.02	1,862,663	1.89	\$ 8.94	1,862,663	\$ 8.94
\$13.22 - \$17.94	1,837,893	3.51	14.70	1,837,093	14.71
\$17.97 - \$26.00	2,174,973	5.70	23.89	1,732,474	24.27
\$26.07 - \$38.84	2,707,610	7.54	34.65	1,116,918	33.23
\$39.77 - \$43.85	443,150	8.76	41.68	75,190	42.16
\$ 7.03 - \$43.85	9,026,289	5.17	\$23.04	6,624,338	\$19.02

The total expense recognized on all stock options was \$18,452,000, zero, and zero, during fiscal 2006, fiscal 2005 and fiscal 2004, respectively. As of January 28, 2007, there was a remaining unamortized balance of \$25,775,000 (net of estimated forfeitures), which we expect to recognize on a straight-line basis over an average remaining service period of approximately 2.5 years.

Stock-Settled Stock Appreciation Rights

A stock-settled stock appreciation right is an award that allows the recipient to receive common stock equal to the appreciation in the fair market value of our common stock between the date the award was granted and the conversion date for the number of shares as to which the right is exercised. Stock-settled stock appreciation rights will have value only if the shares increase in value after the grant date.

The following table summarizes our stock-settled stock appreciation right activity during fiscal 2006 (no stock-settled stock appreciation rights were granted during fiscal 2005 or fiscal 2004):

	Shares	Weighted Average Conversion Price ¹	Weighted Average Contractual Term Remaining (Years)	Intrinsic Value ²
Balance at January 29, 2006				
Granted (weighted average fair value of \$12.37)	2,111,550	\$ 36.23		
Converted				
Canceled	(132,700)	39.43		
Balance at January 28, 2007	1,978,850	\$ 36.01	9.47	\$ 2,211,000

Stock-settled stock appreciation rights vested at January 28, 2007

¹ Conversion price is defined as the price from which stock-settled stock appreciation rights are measured.

² Intrinsic value is defined as the difference between the grant price and the current market value on the last business day of fiscal 2006.

The following table summarizes information about stock-settled stock appreciation rights outstanding at January 28, 2007:

Range of Conversion Prices	Stock-Settled		Stock-Settled	
	Number	Weighted	Number	Weighted

Edgar Filing: WILLIAMS SONOMA INC - Form 10-K

		Outstanding	Average	Average	Vested	Average
			Contractual	Conversion		Conversion
			Life (Years)	Price		Price
\$30.34	\$34.64	1,073,350	9.75	\$ 32.33		
\$36.70	\$42.13	905,500	9.14	40.38		
\$30.34	\$42.13	1,978,850	9.47	\$ 36.01		

Table of Contents

The total expense recognized on all stock-settled stock appreciation rights was \$1,966,000, zero and zero, during fiscal 2006, fiscal 2005 and fiscal 2004, respectively. As of January 28, 2007, there was a remaining unamortized balance of \$16,103,000 (net of estimated forfeitures), which we expect to recognize on a straight-line basis over an average remaining service period of approximately 4.0 years.

The fair value for both stock options and stock-settled stock appreciation rights was estimated on the date of the grant using the Black-Scholes option pricing model with the following weighted average assumptions:

Expected Term For fiscal 2006, the expected term of the option awards represents the period of time between the grant date of the option award and the time the option award is either exercised or canceled including an estimate for those option awards still outstanding. For fiscal 2005 and fiscal 2004, the expected term of the option awards represents only the period of time between the grant date of the option award and the time the option award is either exercised or canceled.

Expected Volatility For fiscal 2006, the expected volatility is based on an average of the historical volatility of our stock price, for a period approximating our expected term, and the implied volatility of externally traded options of our stock that were entered into during the quarter. For fiscal 2005 and fiscal 2004, the expected volatility was based only on the historical volatility of our stock price.

Risk-Free Interest Rate The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and with a maturity that approximates our expected term.

Dividend Yield The dividend yield is based on the initiation of our quarterly cash dividend, authorized by our Board of Directors in March 2006, and its anticipated dividend payout over the expected term of the award.

The weighted average assumptions for fiscal 2006, fiscal 2005 and fiscal 2004 are as follows:

	<i>Fiscal Year Ended</i>		
	Jan. 28, 2007	Jan. 29, 2006	Jan. 30, 2005
Expected term (years)	5.0	6.5	6.8
Expected volatility	33.7%	59.2%	60.1%
Risk-free interest rate	4.7%	4.3%	3.9%
Dividend yield	1%		

Restricted Stock Units

The following table summarizes our restricted stock unit activity during fiscal 2006 and fiscal 2005 (no restricted stock units were granted during fiscal 2004):

	Shares	Intrinsic	Weighted Average
		Value ¹	Grant Date Fair Value
Unvested balance at January 30, 2005			
Granted	840,000		\$ 42.18
Vested			
Canceled			
Unvested balance at January 29, 2006	840,000		42.18
Granted	70,000		30.34
Vested			
Canceled	(60,000)		42.18

Edgar Filing: WILLIAMS SONOMA INC - Form 10-K

Unvested balance at January 28, 2007	850,000	\$ 29,104,000	\$	41.20
--------------------------------------	---------	---------------	----	-------

¹ *Intrinsic value for restricted stock units is defined as the current market value on the last business day of fiscal 2006.*

The total value of all restricted stock units is being amortized on a straight-line basis over the vesting period, with fifty percent of the restricted stock units vesting on January 31, 2010, and the remaining fifty percent vesting on January 31, 2011, based upon the employees' continued employment throughout the vesting period subject to the company achieving certain earnings goals.

Table of Contents

The total expense recognized on all restricted stock units was \$6,341,000, \$440,000 and zero, during fiscal 2006, fiscal 2005 and fiscal 2004, respectively. As of January 28, 2007, there was a remaining unamortized balance as of \$23,126,000 (net of estimated forfeitures), which we expect to recognize on a straight-line basis over an average remaining service period of approximately 3.5 years.

Total Stock-Based Compensation Expense

During fiscal 2006, fiscal 2005 and fiscal 2004, we recognized total stock-based compensation expense, as a component of selling, general and administrative expense, of \$26,759,000, \$440,000 and zero (\$16,575,000, \$273,000 and zero, net of tax), or approximately \$0.14, less than \$0.01 and zero per diluted share, respectively.

Tax Effect

Prior to the adoption of SFAS No. 123R, we presented all tax benefits resulting from the exercise of stock-based awards as operating cash flows in the Condensed Consolidated Statements of Cash Flows. SFAS No. 123R requires that cash flows resulting from tax deductions in excess of the cumulative compensation cost for stock-based awards exercised be classified as financing cash flows. During fiscal 2006, fiscal 2005 and fiscal 2004, cash received from stock-based awards exercised was \$13,935,000, \$28,002,000 and \$26,190,000 respectively, and the tax benefit associated with such exercises totaled \$7,696,000, \$15,743,000 and \$13,085,000, respectively.

Note J: Williams-Sonoma, Inc. 401(k) Plan and Other Employee Benefits

We have a defined contribution retirement plan, the Williams-Sonoma, Inc. 401(k) Plan (the Plan), formerly known as the Williams-Sonoma Associate Stock Incentive Plan, for eligible employees, which is intended to be qualified under Internal Revenue Code Sections 401(a), 401(k), 401(m) and 4975(e)(7). The Plan permits eligible employees to make salary deferral contributions up to 15% of eligible compensation each pay period (4% for certain higher paid individuals through December 2006, 5% thereafter). Employees designate the funds in which their contributions are invested. Each participant may choose to have his or her salary deferral contributions and earnings thereon invested in one or more investment funds, including our company stock fund. Our matching contribution is equal to 50% of each participant's salary deferral contribution each pay period, taking into account only those contributions that do not exceed 6% of the participant's eligible pay for the pay period (4% for certain higher paid individuals through December 2006, 5% thereafter). For the first five years of the participant's employment, all matching contributions generally vest at the rate of 20% per year of service, measuring service from the participant's hire date. Thereafter, all matching contributions vest immediately. The Plan consists of two parts: a profit sharing plan portion and, effective as of April 21, 2006, a stock bonus plan/employee stock ownership plan (the ESOP). The ESOP portion is the portion that is invested in the company internal revenue stock fund at any time. The profit sharing and ESOP components of the Plan are considered a single plan under Code section 414(l). Our contributions to the plan were \$3,467,000, \$3,322,000 and \$2,850,000 in fiscal 2006, fiscal 2005 and fiscal 2004, respectively.

We have a nonqualified executive deferred compensation plan that provides supplemental retirement income benefits for a select group of management and other certain highly compensated employees. This plan permits eligible employees to make salary and bonus deferrals that are 100% vested. We have an unsecured obligation to pay in the future the value of the deferred compensation adjusted to reflect the performance, whether positive or negative, of selected investment measurement options, chosen by each participant, during the deferral period. As of January 28, 2007 and January 29, 2006, \$13,322,000 and \$11,176,000, respectively, was included in other long-term obligations. Additionally, we have purchased life insurance policies on certain participants to potentially offset these unsecured obligations. The cash surrender value of these policies was \$10,688,000 and \$9,661,000 as of January 28, 2007 and January 29, 2006, respectively, and was included in other assets.

Note K: Financial Guarantees

We are party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters. These contracts primarily relate to our commercial contracts, operating leases, trademarks, intellectual property, financial agreements and various other agreements. Under these contracts, we

Table of Contents

may provide certain routine indemnifications relating to representations and warranties or personal injury matters. The terms of these indemnifications range in duration and may not be explicitly defined. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our financial condition or results of operations.

Note L: Commitments and Contingencies

On September 30, 2004, we entered into a five-year service agreement with IBM to host and manage certain aspects of our data center information technology infrastructure. The terms of the agreement require the payment of both fixed and variable charges over the life of the agreement. The variable charges are primarily based on CPU hours, storage capacity and support services that are expected to fluctuate throughout the term of the agreement.

Under the terms of the agreement, we are subject to a minimum charge over the five-year term of the agreement. This minimum charge is based on both a fixed and variable component calculated as a percentage of the total estimated service charges over the five-year term of the agreement. As of January 28, 2007, we estimate the remaining minimum charge to be approximately \$14,491,000. The fixed component of this minimum charge will be paid annually not to exceed approximately \$5,000,000, while the variable component will be based on usage. The agreement can be terminated at any time for cause and after 24 months for convenience. In the event the agreement is terminated for convenience, a graduated termination fee will be assessed based on the time period remaining in the contract term. As of January 28, 2007, this termination fee does not exceed \$6,000,000. We recognized expense relating to this agreement of approximately \$14,000,000, \$12,000,000 and \$3,000,000 during fiscal 2006, fiscal 2005 and fiscal 2004, respectively.

We are involved in lawsuits, claims and proceedings incident to the ordinary course of our business. These disputes, which are not currently material, are increasing in number as our business expands and our company grows larger. Litigation is inherently unpredictable. Any claims against us, whether meritorious or not, could be time consuming, result in costly litigation, require significant amounts of management time and result in the diversion of significant operational resources. The results of these lawsuits, claims and proceedings cannot be predicted with certainty. However, we believe that the ultimate resolution of these current matters will not have a material adverse effect on our consolidated financial statements taken as a whole.

Note M: Segment Reporting

We have two reportable segments, retail and direct-to-customer. The retail segment has five merchandising concepts which sell products for the home (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, West Elm and Williams-Sonoma Home). The five retail merchandising concepts are operating segments, which have been aggregated into one reportable segment, retail. The direct-to-customer segment has six merchandising concepts (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, PBteen, West Elm and Williams-Sonoma Home) and sells similar products through our seven direct-mail catalogs (Williams-Sonoma, Pottery Barn, Pottery Barn Kids, Pottery Barn Bed and Bath, PBteen, West Elm and Williams-Sonoma Home) and six e-commerce websites (williams-sonoma.com, potterybarn.com, potterybarnkids.com, pbteen.com, westelm.com and wshome.com). All of our Hold Everything retail stores were closed during late 2005 and the first quarter of fiscal 2006. The final phase of our operational shutdown was completed in the second quarter of fiscal 2006, with our final Hold Everything catalog mailed in May 2006 and our Hold Everything website ceasing operations in June 2006. Management's expectation is that the overall economics of each of our major concepts within each reportable segment will be similar over time.

These reportable segments are strategic business units that offer similar home-centered products. They are managed separately because the business units utilize two distinct distribution and marketing strategies. It is not practicable for us to report revenue by product group.

We use earnings before unallocated corporate overhead, interest and taxes to evaluate segment profitability. Unallocated costs before income taxes include corporate employee-related costs, occupancy expense (including depreciation expense), third-party service costs and administrative costs, primarily in our corporate systems, corporate facilities and other administrative departments. Unallocated assets include corporate cash and cash

Table of Contents

equivalents, the net book value of corporate facilities and related information systems, deferred income taxes and other corporate long-lived assets.

Income tax information by segment has not been included as taxes are calculated at a company-wide level and are not allocated to each segment.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of

Williams-Sonoma, Inc.:

We have audited the accompanying consolidated balance sheets of Williams-Sonoma, Inc. and subsidiaries (the Company) as of January 28, 2007 and January 29, 2006, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended January 28, 2007. We also have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting (under Part II, item 9a, Controls and Procedures), that the Company maintained effective internal control over financial reporting as of January 28, 2007, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on these financial statements, an opinion on management's assessment, and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audit of financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Williams-Sonoma, Inc. and subsidiaries as of January 28, 2007 and January 29, 2006, and the results of their operations and their cash flows for each of the three years in the period ended January 28, 2007, in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, management's assessment that the Company maintained effective internal control over financial reporting as of January 28, 2007, is fairly stated, in all material respects, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Furthermore, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of January 28, 2007, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

As discussed in Note A to the consolidated financial statements, on January 30, 2006, the Company changed its method of accounting for share-based payment arrangements to conform to Statement of Financial Accounting Standards No. 123(R), Share Based Payment and adopted Financial Accounting Standards Board Staff Position 13-1, Accounting for Rental Costs Incurred During a Construction Period .

³ Includes a net pre-tax benefit of \$10,200,000 in selling, general and administrative expenses related to unredeemed gift certificate income due to a change in estimate, the Visa/MasterCard litigation settlement income and the expense associated with the departure of our former Chief Executive Officer.

⁴ Includes a pre-tax charge of \$4,500,000 in cost of goods sold and \$9,000,000 in selling, general and administrative expenses related to the transitioning of the merchandising strategies of our Hold Everything brand into our other existing brands. See Note A to our Consolidated Financial Statements.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE
None.

ITEM 9A. CONTROLS AND PROCEDURES
Evaluation of Disclosure Controls and Procedures

As of January 28, 2007, an evaluation was performed by management, with the participation of our Chief Executive Officer (CEO) and our Executive Vice President, Chief Operating and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures. Based on that evaluation, our management, including our CEO and CFO, concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely discussions regarding required disclosures, and that such information is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over the company's financial reporting. There are inherent limitations in the effectiveness of any internal control, including the possibility of human error and the circumvention or overriding of controls. Accordingly, even any effective internal control can provide only reasonable assurance with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of any internal control may vary over time.

Our management assessed the effectiveness of the company's internal control over financial reporting as of January 28, 2007. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework*. Based on our assessment using those criteria, our management concluded that, as of January 28, 2007, our internal control over financial reporting is effective.

Our independent registered public accounting firm audited the financial statements included in this Annual Report on Form 10-K and has issued an attestation report on management's assessment of the company's internal control over financial reporting. This report appears on pages 64 through 65 of this annual report on Form 10-K.
